Per SDBOR Policy 2:20:
The information contained in this catalog is the most accurate available at the time of publication, but changes may become effective before the next catalog is published. It is ultimately the student’s responsibility to stay abreast of current regulations, curricula, and the status of specific programs being offered. Further, the university reserves the right, as approved by the Board of Regents, to modify requirements, curricula offerings, and charges, and to add, alter, or delete courses and programs through appropriate procedures. While reasonable efforts will be made to publicize such changes, a student is encouraged to seek current information from appropriate offices.

SDSU in Review

General Information 8
Accreditations & Affiliations 8
General Information

An act of the Territorial Legislature approved in 1881 provided for the establishment of what is now South Dakota State University. As a Land-Grant institution, the University subscribes to the philosophy of education, research, and extension as its three-fold mission. The Graduate School is a separate administrative unit composed of selected scholars within the University engaged in work to further the land-grant mission. The institution granted its first Master of Science degree in 1891, its first Master of Education degree and Doctor of Philosophy degree in 1958. All graduate work was supervised by a committee until 1957, when the Graduate School was established.

A Graduate Council of twenty-one (21) elected members from the Graduate Faculty assists the Graduate Dean. The council includes the Graduate Dean (chair); and (14) members, with seven (7) alternates from each of the seven (7) colleges: Agriculture; Food and Environmental Sciences; Arts, Humanities and Social Sciences; Education and Human Sciences; Engineering; Natural Sciences; Nursing; and Pharmacy and Allied Health Professions. The Dean of the Library serves as an ex-officio voting member.

The Graduate Faculty is composed of the University President, Provost and Vice President for Academic Affairs, college deans, and heads of departments in which graduate courses are offered. Tenure-track faculty with a terminal degree are eligible for graduate faculty status and will be admitted to the Graduate Faculty at the request of the appropriate Department Head and Dean (using the appropriate request form), in accordance with the policies of the Graduate School. Faculty who are not tenure-track and/or do not have a terminal degree will follow the nomination process for associate graduate faculty status and must be approved by the Graduate Council. All matters of policy and standards are acted on by the Graduate Faculty. In addition, Graduate Faculty are authorized to serve on graduate student committees, advise graduate students, and teach graduate-level courses.

The Graduate School provides an atmosphere for qualified students to obtain rigorous advanced education in a variety of fields in preparation for service and leadership in their professions and society. The Graduate School promotes scholarly pursuits and scientific research for the advancement of knowledge within a climate of freedom of inquiry. For material on undergraduate programs and for general information concerning South Dakota State University, refer to the Undergraduate Catalog.

This catalog is printed to provide information about the graduate programs of South Dakota State University. Every effort has been made to provide as complete and accurate information as possible; however, it should be noted that changes may occur at any time and that the catalog does not represent a contractual agreement. The university reserves the right, as approved by the Board of Regents, to modify requirements, curricula offerings, and charges, and to add, alter, or delete courses and programs through appropriate procedures. While reasonable efforts will be made to publicize such changes, a student is encouraged to seek current information from appropriate offices.

Students are allowed to fulfill the degree requirements in effect at the time of initial enrollment as a degree-seeking student, provided the student completes the degree requirements within the stated time frame through continuous enrollment. If a student needs to re-apply to a degree program, the guidelines in effect at the time of re-application must then be followed. It is the student’s responsibility to become familiar with and complete the requirements for the degree being sought.

Accreditations & Affiliations

Accreditations

The University holds institutional membership in a number of educational associations: the Association of Public and Land-grant Universities (1307 New York Avenue, Suite 400, Washington, D.C. 20005-4722; Phone: 202-478-6040) promotes the aims expressed in the Morrill Act of 1862, and in the subsequent acts of Congress relating to Land-Grant Colleges.

This section outlines Graduate School admission policies at South Dakota State University. The South Dakota State University Policy and Procedure Manual is the definitive source for the most current South Dakota State University policies. Policies duplicated on other websites or in print may not be the most current version. All policies documented on the site are official and supersede policies located elsewhere. South Dakota State University is governed by state and federal law, administrative regulations, and policies of the South Dakota Board of Regents (SDBOR) and the State of South Dakota.

Admission to Graduate School

For pursuit of an advanced degree or certificate, students must be admitted to the Graduate School before enrolling in graduate courses. A completed application must be filed with the Graduate School by April 15 for consideration for fall admission and by October 15 for consideration for spring admission. Students should check with their specific program of interest as some programs have earlier deadlines. Students not pursuing an advanced degree but wishing to enroll in graduate coursework should apply as a non-degree seeking student by completing a non-degree seeking application prior to the start of the semester.

Application for Admission

Application Form
A completed online application must be submitted and accompanied by a non-refundable application fee of $35.00.

Official Transcripts
Applicants must provide official academic transcripts from all post-secondary institutions where a degree was earned, or will be earned, and where graduate coursework was completed. As a courtesy to the applicant, the Graduate School will retrieve all required South Dakota regental transcripts.

Applicants who have completed a degree outside the United States must provide a professional transcript evaluation from an evaluation service accredited by the National Association of Credential Evaluation Services (NACES) or Association of International Credential Evaluators (AICE). Examples of acceptable services include, but are not limited to: Educational Perspectives, World Education Services (WES), and Foreign Credits. Evaluations must include transcript authenticity, Grade Point Average (GPA) calculation, and U.S. degree equivalency and be sent directly from the evaluation service. Applications will not be processed until the evaluation is received from the service. If an evaluation is required, this then replaces the requirement for official transcripts. Submitted transcripts become the property of South Dakota State University and will not be returned. The Graduate School mailing address is as follows:

Graduate School
South Dakota State University
130 Morrill Hall, Box 2201
Campanile Drive
Brookings, SD USA 57007

Baccalaureate Degree

Admission to the Graduate School requires that the applicant have a baccalaureate degree, or equivalent, from an institution of higher learning. The baccalaureate-granting institution must be one of recognized standing (including U.S. institutions accredited by agencies recognized by the U.S. Department of Education) whose requirements are substantially the same as those of South Dakota State University program(s) in which the advanced degree will be taken.

If applicants are enrolled in U.S. institutions, and if the application is submitted before the Bachelor's degree is complete, an incomplete transcript must be filed. However, a transcript indicating the Bachelor's degree has been awarded must be received no later than the end of the first semester of graduate work.

Program Requirements
Individual programs may have additional admission requirements. Applicants should inquire about such requirements from the program of interest. Additional admission requirements for each program are provided under Academic Programs.

Graduate Record Examination (GRE)
The Graduate Record Examination is not a Graduate School requirement; however, some programs may require test scores to be submitted. Please review the admission requirements for the program of interest. For the location of testing centers and more information regarding the GRE, please contact the Educational Testing Service.

Immunization Requirements
All university students (domestic and international) must provide documentation proving two (2) properly administered measles (rubeola), mumps, rubella (MMR) immunizations OR immune titers for measles, mumps and rubella. Exemptions to this requirement are considered. Furthermore, all international students are required to submit to a tuberculosis skin test upon arrival. For more information contact: Student Health Clinic and Counseling Services, Box 2818, Wellness Center, South Dakota State University, Brookings, SD USA 57007, Telephone: 605-688-4157, Fax: 605-688-6450 or the Office of International Affairs & Outreach, Briggs Library (SBL) Suite 119, Box: 2115, Brookings, SD USA 57007, Telephone: 605-688-4122.

International Students must also submit the following:

TOEFL/IELTS Scores
A score of 525 paper-based or 71 Internet-based or higher is required by the Graduate School for the Test of English as a Foreign Language (TOEFL). A minimum score of 5.5 is required for the International English Language Testing System (IELTS). Some programs may require higher test scores for admission and are listed within each program section in this catalog. Also, programs may require additional testing upon arrival.

Financial Support
Evidence of available financial support for at least one year must be submitted to the Office of International Affairs & Outreach, Briggs Library (SBL) Suite 119, Box: 2115, Brookings, SD USA 57007, Telephone 605-688-4122. Applicant must also show evidence that the financial support will be continued throughout their program, at least two years for master's degrees or four years for doctoral degrees. For any financial assistance from this institution, the applicant must contact the program.

Documentation
Documents for entry into the U.S. will be issued by the Office of International Affairs and Outreach after academic admission and financial certification are complete. Students applying for a visa cannot be admitted conditionally into any graduate program. For inquiries please contact: Office of International Affairs & Outreach, Briggs Library (SBL) Suite 119, Box: 2115, Brookings, SD USA 57007, Telephone: 605-688-4122.
Application Processing
When all required admissions documents are received, the application and supporting documentation are forwarded to the program for review. The program makes a recommendation of acceptance or denial to the Dean of the Graduate School who, in turn, acts on the recommendation and notifies all concerned parties of the decision in the form of a letter of acceptance or a letter of denial.

Admission Status

Admission
An applicant may be admitted without condition if a Bachelor's degree, or equivalent, has been earned, all undergraduate prerequisites for major and minor (if required) fields of study have been satisfactorily completed, and the applicant has an average of 3.0 or higher on a 4-point grading system (A = 4, B = 3, C = 2, D = 1) . Admission to all degree programs is competitive and limited by the availability of personnel, facilities, and funding.

Conditional Admission
Conditional admission may be granted if the applicant:
1. meets the requirements for admission but has not completed the last semester of undergraduate study. Admission is conditional until the Bachelor's degree is granted, OR
2. lacks prerequisite undergraduate courses specified by the major program. Admission is conditional until these courses have been completed to the satisfaction of the program, OR
3. has a grade point average between 2.75 and 3.0 cumulative for the junior and senior years.

A student admitted conditionally must satisfy any conditions within the first semester of enrollment in the graduate program. Performance required to meet conditions will be provided to the student in the letter of acceptance. Failure of a student to meet the stated conditions may result in dismissal from the program.

Non-Degree Seeking Student
Students who are not pursuing a degree may register as a non-degree seeking student. There is no application fee to register as a non-degree seeking student, though the student is responsible for tuition and fees. Non-degree seeking students may not receive graduate assistantships, financial aid, or enroll for thesis/dissertation credits. A non-degree seeking student may apply for admission into a graduate program using the normal procedures outlined in this document. No more than twelve credits acquired under non-degree seeking student status may be applied toward a degree.

Readmission
Students formerly enrolled as graduate students at South Dakota State University and who have not maintained continuous enrollment (excluding summer semesters) must apply for readmission to their program. Graduate School policies in effect for the term of readmission will apply. Official transcripts must be furnished for graduate work taken at other institutions since last enrolled at South Dakota State University. Programs may require the student to update supporting documents for the application. Readmitted students are encouraged to contact their graduate advisor prior to registration. Students who are readmitted may be required to change their advisory committee, file a new plan of study or resubmit other matriculation documents. The application fee will be waived for those applicants applying for readmission as long as they were active within the past three terms; excluding summer.

Residency Requirements
South Dakota State University is required to establish residency status of all applicants. Please review the residency requirements prior to completing an application. A full description of qualifications is available in the Residency Application.

Appeal of Denied Admission Decision
(SDSU Policy 2:26)
Any applicant who is denied admission may request a reconsideration of the decision as follows:
1. The applicant shall contact the Dean of the Graduate School within thirty calendar (30) days of receipt of the admission decision to seek informal reconsideration.
2. In the request for reconsideration, the denied applicant must cite one or more of the following reasons as the basis for the reconsideration:
   a. The admission decision resulted from administrative error or from misapprehension of some material fact or circumstance; or
   b. The admission decision departed substantially from accepted academic standards for the discipline and/or the University; or
   c. Circumstances suggested that the admission decision reflected the prejudiced or capricious consideration of applicant opinions or conduct unrelated to admission or academic standards, of student status protected under SDBOR policy, state or federal civil rights law, or of other considerations that are inconsistent with the bona fide exercise of academic judgment.

The denied applicant must then explain in detail how one or more of the above bases for reconsideration describe the admissions decision. If none of the above bases for reconsideration are specifically cited in the request, or if the request offers no explanation as to how the admission decision fits one of the above bases for reconsideration, the request for reconsideration shall be dismissed by the Dean of the Graduate School. The Dean shall otherwise review the applicant's concerns, shall provide explanation, and shall reconsider the admission decision if the student provides convincing argument for doing so. The Dean shall document the contact date, decision, and rationale for the decision by and submit the same to the Provost and Vice President for Academic Affairs, or designee, within ten fifteen (15) working days after the applicant makes the contact. A copy of the document shall be sent to the applicant and Program Officials.

3. If, after discussion with the Dean of the Graduate School, the applicant's concerns remain unresolved, the applicant may appeal the matter in writing to the Provost and Vice President for Academic Affairs, or designee. The written request for reconsideration must be submitted to the Provost and Vice President for Academic Affairs, or designee, within ten (10) working days from the date the applicant received the response of the Dean of the Graduate School. The Vice President for Academic Affairs will render a decision within ten fifteen (15) working days of receipt.
Financial Information & Student Services

Tuition & Fees 16
Refunds 16
Financial Aid 18
Student Services 18
Tuition & Fees

Tuition and fee rates are set according to the policies of the South Dakota Board of Regents and are subject to change without prior notice. For current information view the SDSU Financial Aid or SDBOR Tuition and Fees website.

Residency Requirements

In order to establish residency for tuition purposes you must live in South Dakota for twelve (12) consecutive months immediately preceding the first scheduled day of classes of the semester. Attendance at the college or university controlled by the Board of Regents does not count in determining the twelve (12) month period of residence.

Residency qualifications for tuition purposes may be obtained by contacting the Admissions Office at 605-688-4121.

Billing & Payment of Student Accounts

All tuition, fees, housing, food service and miscellaneous charges to student accounts will be on an electronic billing (eBilling) system and can be viewed on SDePay, a secured website via the Internet. Payment of the student account can also be made electronically (ePayment) through SDePay. Students can authorize parents, spouse and other individuals to view the eBill and make ePayment on their student account.

By the day after census date, each student makes a full payment of charges based on the number of registered credits, residency status, and campus housing. Late fees will be assessed starting on the day after the established payment due date. SDSU encourages students to mail payments before the due date. Payment of tuition and fees can be made by cash, check or electronic bank transfer directly to the University Cashier's Office SAD 136 PO Box 2201, Brookings, SD 57007-2098.

Payment of tuition and fees using a debit or credit card can only be made through SDePay, electronic billing and payment system. American Express, Visa, MasterCard and Discover cards are accepted by SDePay. A 2.75 percent service fee is assessed by and payable to NelNet, host provider of SDePay. Authorized payers may view and pay the students' account by going to the South Dakota Public Universities Authorized Payer login at SDePay. Students may link to SDePay through their secure account on WebAdvisor.

Late Charges

A fee is charged if tuition and fees are not paid during the regular established payment periods. Failure to satisfy financial obligations when due may result in a student's administrative withdrawal from the University.

Indebtedness

If you are indebted to the University and do not satisfy financial obligations when due, you may be denied admission to the University. You may be administratively withdrawn from the University after notice from the University and you will not be permitted to register or receive a transcript of grades until the indebtedness is paid. This applies to your indebtedness to the University for tuition, fees, required deposits, room and board, financial aid, but not obligations due to student organizations. All accounts that the University is unable to collect will be submitted for collection and forwarded to a credit reporting bureau. The University will recover from the debtor all collection fees and attorney's fees that result from collection of an account.

Fees for Auditing Courses

Regular tuition and fees, per credit, will be charged for auditing a course. Registration as an auditor is by petition. Auditing courses will be a matter of record (recorded on the academic transcript). Grades will be designated by the instructor as Audit Pass (AUP) or Audit Fail (AUF). Audit courses are not counted in calculating undergraduate or graduate full-time student status.

Thesis & Dissertation Fees

Students are responsible for following all deposition protocols and paying all archiving fees associated with a thesis or dissertation.

Refunds

(SDBOR Policy 5:7)

SDSU processes student withdrawals in compliance with federal and Board of Regents policies. A petition process does exist for students or parents who feel that individual circumstances warrant exception from the published refund policy. Contact the Registrar, Enrollment Services Center, for information.

Tuition & Fees Refund Policy

The end of the drop/add period for standard (those that conform to the regular semester schedule) and non-standard courses offered in a semester is the date the first 10 percent of the term ends or the day following the first class meeting, whichever is later.

Refunds for Dropped Courses

A student receives a 100 percent refund of tuition and per-credit-hour fees for courses dropped within the drop/add period. No refund shall be provided for courses dropped after that time, except by administrative action. Any course meeting within a standard semester but for less time than the standard semester shall be treated as a non-standard semester course for refund purposes. Courses offered during summer school session and correspondence courses are considered non-standard courses.

Students who withdraw, drop out, or are expelled within the drop/add period receive a 100 percent refund of tuition and per-credit-hour fees. Students who withdraw, drop out, or are expelled after the drop/add period for which they are assessed may be entitled to a pro-rated refund as set forth herein.

Refunds for Withdrawals

Students who withdraw from the University may be entitled to a refund of tuition and fees and institutional charges calculated through 60 percent of an enrollment period. The refund shall be determined by computing the percentage of an enrollment period remaining after the date of withdrawal multiplied times the tuition and fees originally assessed the student. At no time will refunds be awarded after the 60 percent point of the enrollment period.
Cancelled Registration

If a student's registration is cancelled, no tuition and fee payment is due. If payments have been made, a student is eligible for a full refund.

Extensions & Waivers

The University president, or a designee, may extend or waive the time periods in the following circumstances:

1. The death of the student;
2. The student's disabling condition or severe illness;
3. The death, disability, or severe illness of immediate family members causing severe financial hardship to the student;
4. Other extenuating circumstances beyond the student's control.

Refunds for Title IV Funds

Title IV funds are 100 percent earned if the withdrawal date is after the 60 percent point in that period.

Refunds for Residence Hall Fees

Students with a room contract who withdraw from the Regental system will receive a proportional refund at the time of withdrawal up to the 60 percent point after which no refund is available.

Refunds for Food Service Fees

Students with a food service contract who withdraw from the Regental system will receive a proportional refund at the time of withdrawal up to the 60 percent point, after which no refund is available. The balance of flex plan dollars will be refunded at 100 percent.

Military Service - Withdrawal without Penalty

Academic Credit

Students required to withdraw from the Regental system before completing a semester may receive credit or refund privileges if they are regularly enrolled and belong to a military unit called for duty or are drafted and not eligible for deferment and the discontinuance of class attendance is on the last practicable day before reporting for duty as determined by the student's home university. Eligible students who are required to report for military duty not earlier than four (4) calendar weeks prior to the date a semester ends as stated in the official catalog of the home university, or after completion of at least seventy-five per cent (75%) of the enrollment period in a non-standard semester course, may, when authorized by the instructor, be given full credit for all courses for which they have an average of "C" or better. Eligible students who receive credit, or an incomplete, in progress, or normal progress grade for any course for which they are enrolled shall be entitled to a full refund of tuition and academic fees.

Note: Course Grade is as determined by the instructor, either the grade to date or the final grade earned to date.

Refunds for Room & Board

Refunds for room and board shall be pro-rata refunds for the entire semester. Board flex plans will be refunded at 100% of the unused value.

Refunds for Books

Refunds for books for military personnel called up for active duty is as follows:

1. New books with no markings or writing – 100% of purchase price
2. New books with highlighting or writing – 75% of purchase price
3. Books purchased used – 100% of used price

Books must be returned within the semester. Normal campus refund policies apply to books that are not returned prior to the end of the semester.

Federal Financial Aid Recipients

The U.S. Department of Education requires institutions to use the Return of Title IV Funds policy for students withdrawing from school and who are receiving Federal Title IV student financial aid. Title IV funds refers to the federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs: Federal Stafford Direct Loan, Unsubsidized Stafford Direct Loans, Parent Loans for Undergraduate Students (PLUS), Federal Perkins Loans, Federal Pell Grants, and Federal Supplemental Grants. Also, the Federal Nursing Loans and Federal Health Professions Loans use the Return to Title IV Funds calculation.

A student's withdrawal date is 1) When the student began the withdrawal process or officially notified SDSU of intent to withdraw by contacting the SDSU Registrar's Office; or 2) The midpoint of the period for a student who leaves without notifying SDSU; or at SDSU's option, the student's last documented date of academically-related activity.

Return of Title IV Funds

When a student receiving federal financial Title IV financial aid withdraws from SDSU during the enrollment period, the amount of the Title IV funds (not including Federal Work Study) that the student earned during the enrollment period is calculated as of the student's withdrawal date. Title IV funds are earned at a fixed rate on a per day basis up to the 60 percent point in the enrollment period. Title IV funds are 100 percent earned if the withdrawal date is after the 60 percent point in that period.
If the date a student withdraws from SDSU is prior to or on the 60% point of the semester, SDSU is required to determine the portion of the aid disbursed that was “earned” by the student before the withdrawal date. The “unearned” Title IV funds must be returned to the respective federal aid programs. Unearned aid is the amount of disbursed Title IV aid that exceeds the amount of Title IV aid earned based on attendance in the enrollment period.

For students who fail to officially withdraw when they stop attending classes and are assigned an “F” grade for all courses for the semester, the Return to Title IV Funds policy requires SDSU to calculate the “earned” amount based on the 50 percent point of the semester. Unearned federal aid must be returned as described above. If a student was disbursed aid after the 50 percent point of the semester, the student is assumed ineligible for those funds and will be required to return those funds.

Responsibilities of SDSU include providing information on the Return of Title IV Funds policy and procedure to students. This information is available at www.sdstate.edu and from the SDSU Financial Aid Office. SDSU is also responsible to complete calculations of the Return of Title IV Funds for federal financial aid recipients who are withdrawing from SDSU and to return any Title IV funds to the respective Title IV funds account. The student is responsible to repay any Title IV funds that the student was determined to be ineligible for via the Return to Title IV funds calculation.

Financial Aid

Student financial assistance programs are administered through the student Financial Aid Office in the Enrollment Services Center. The Financial Aid Office may be contacted at 605-688-4695 or via e-mail for specific applications, forms, and information. Graduate assistantships, fellowships, and traineeships are administered by the department or program involved. Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found online (keyword: alternative loans).

Student Services

Detailed information on Student Services and Resources is available in the Undergraduate Catalog.

Academic Testing Center

The Testing Center provides a range of testing services from proctoring exams, assisting with prior learning credit placement and providing special accommodations for students with documented disabilities. The Testing Center is located at 1100 College Ave and is open Monday through Friday 8am-5pm. For more information contact the Testing Center at 605-688-6460 to help with any questions.

Bookstore

Located in the University Student Union SSU 146, the University Bookstore sells textbooks, merchandise and other supplies. For more information call 605-688-6392.

Disability Services

Disability Services coordinates services for students with a wide range of disabilities. Students served are enrolled through all SDSU educational programs. Services include coordinating testing accommodations, the acquisition of alternative format texts, classroom accommodations, referral to other service agencies, and coordinating additional services based on the individual needs of the student. For more information call 605-688-4504.

English Language & Culture Institute

Develop academic English proficiency, explore American culture, and learn to communicate with confidence at South Dakota State University. The SDSU English Language & Culture Institute (ELCI) provides three different programs that prepare students for the rigors of post-secondary academics, professional English, and real-world communication. The ELCI offers the Intensive ESL program that prepares students for admission to the university, the Online ESL program that prepares students working remotely for advancement in their English proficiency, and the GTA English Communication Program that prepares graduate students for their teaching and professional responsibilities. The ELCI focuses on academic English, while enhancing students’ critical thinking and problem-solving skills in the English context. The program also provides student-centered teaching, progressive levels, and limited class sizes. For more information call 605-688-6410.

Housing & Food Service

Prospective graduate students should inquire about rooms or apartments on-campus from the University Housing and Residential Life website in advance of registration. Information regarding off-campus housing is also available from the University Housing and Residential Life. University Housing and Residential Life is located on the first floor of Caldwell Hall. For more information call 605-688-5148. Students may select a dining services plan by visiting Card Services in the University Student Union Room 144 or purchase Resident Meal Plans.

International Affairs, Office of

The Office of International Affairs (OIA) is the comprehensive home for international student and scholar services, international undergraduate admission, English As a Second Language, study abroad planning, and community connections programs. All services and activities are intended to help enrich the experience of international students here at SDSU and to help expand global engagement for all students, faculty and staff.

Formerly the Office of International Programs, the department was initially established in 1988 and was focused on creating a number of international education and research exchange partnerships. Today, OIA has educational partners on six continents and has expanded its focus to include international student services and English As a Second Language.

• Study abroad staff advise faculty in planning SDSU-based global educational options and advise students of their study abroad options.
• International student and scholars staff provide guidance and administrative support to over 800 international students from over 80 countries.
• Staff members also support the International Relations Council and its events and outreach, as well as help connect the campus community with International students and global issues through its Connections programs.
• The English As a Second Language program, which began in 2014, offers an intensive English learning experience for students who would like to enroll at SDSU but lack sufficient language proficiency. Upon completing the ESL programs, the students enter SDSU as degree-seeking students.

OIA has a variety of partners and affiliates.

Hilton M. Briggs Library

Library services and collections are housed in the Briggs Library, which is named for President Hilton M. Briggs, who served the University from 1958 to 1975. Library collections include more than 695,000 bound volumes, 658,000 government documents, 7,000 linear feet of archival materials, 19,000 e-books, and 60,000 online journals and other electronic resources. Special collections of congressional papers, maps, archival, state and local history, and curriculum materials are available for students, faculty, and researchers. In addition, materials from thousands of libraries worldwide may be obtained through interlibrary loan.
The library provides Wi-Fi, laptop loans, printers, photocopiers, scanners, and more than 60 public computer workstations. The library has table seating as well as group study/conference rooms for student use and informal lounge areas. The Briggs Library building is also the home of International Affairs, the Center for the Enhancement of Teaching and Learning, and the Writing Center.

Special services offered by Briggs Library are Open PRAIRIE and the Digital Library of South Dakota (DLSD). Open PRAIRIE is SDSU's open access institutional repository that supports the collection and dissemination of scholarly and creative output by SDSU faculty, staff, and students. DLSD provides access to unique digitized collections related to the history of the university and the state, including photographs and manuscripts.

The faculty and staff of Briggs Library are proud of the services they offer to the SDSU community, as well as to distance students and faculty at Sioux Falls, Rapid City, Pierre and other locations throughout South Dakota and the U.S. Each year they teach hundreds of classes on information literacy and the use of library resources. They respond to information requests through personal contacts, via telephone at 605-688-5107, and by e-mail and online chat. Look for the "Ask@Briggs" link on the library homepage or use the "Chat Now" button anywhere on the library website.

**MyJacks Card**

The student identification card, known as the MyJacks Card, can be referred to as a student's key to campus. The MyJacks Card holds many components that are important to a student at SDSU such as door access to residential halls and academic buildings but let's student's gain access to events on campus. The MyJacks Card can be used as a prepaid debit card to access prepaid accounts. In addition to its use in the student meal plans, the MyJacks Card provides a prepaid account called Hobo Dough. This account can be used for the bookstore, campus vending, laundry, photocopying and printing, and at selected off-campus businesses. Students may load funds at the Card Services office in the Student Union, the Briggs Library, Larson Commons, Hansen Hall, or Online. Upon graduation or leaving the University, these funds ($5.00 or more) will be returned in full upon request. No service charges are assessed for active accounts. However, accounts inactive for six (6) months or more are assessed a monthly service charge. If the service charge exceeds the account balance, the account is automatically closed.

**Student Affairs**

The Division of Student Affairs provides services and activities that are designed to help students gain the greatest benefit from their University education. The following departments are included in Student Affairs: Admissions, American Indian Student Center, New Student Orientation, Financial Aid and Scholarships, Office of Student Conflict Prevention, Management, and Conduct Services, Residential Life, The Union, Office of Student Engagement (Students' Association, Greek Life, University Program Council, Career Center), Multicultural Center, (Disability Services and support for underrepresented students such as African American, Latino/a and LGTB), Student Support Services (Upward Bound, TRIO), Veteran Affairs, University Dining Services, Wellness Center Fitness, and Wellness Center Student Health and Counseling. If you have questions or need information about any of these areas, contact the Vice President for Student Affairs office in Morrill Hall 312, Phone: 605-688-4493. The specific programs and services offered by the departments are listed in this section and elsewhere in this catalog.

**Wellness Center**

The Wellness Center is dedicated to supporting academic success and personal development by promoting and encouraging healthy lifestyle for the members of the SDSU community. The Wellness Center houses state of the art fitness equipment, a variety of recreational and intramural programs, an outdoor program, effective wellness education, the Student Health Clinic, Counseling Services, Jackrabbit Pharmacy, and Brookings Family Planning Clinic. Services and programs provided are detailed below. Further information about the Wellness Center, please e-mail, call 605-697-WELL(9355), or go online to the website.

**Fitness**

We strive to provide current and diverse programming to enhance life-long health and well-being. Knowledgeable students and professionals to serve the students, faculty, and community to assist them in making appropriate decisions about general physical fitness, including cardiovascular and weight training, and overall well-being. A varied menu of activities and programs are offered including: cardio and weight equipment; land, water and cycle classes; walking/running track; pool; three gyms; a climbing pinnacle and bouldering wall. Staff can provide personal orientation, personal fitness evaluations, and can design a personal program to meet fitness goals. For further information regarding the Wellness Center, hours, and its services, visit the website, or call 605-688-6415.

**Nutrition Counseling**

We believe that nutrition is an important aspect of being healthy. The Wellness Center offers nutrition counseling with a registered dietitian for dietary lifestyle changes, weight management, sport and fitness nutrition, specialized plans for specific health conditions, food allergies, and eating disorders. Appointments can be made through the Student Health Clinic by calling 605-688-4157.

**Intramural Sports**

Intramural sports provides opportunities for all activity-fee-paying students, both undergraduate and graduate, to participate in organized and informal sports as regularly as their time and interests permit. SDSU faculty and staff, that are members of the SDSU Wellness Center, are also encouraged to join a student intramural team and/or start their own faculty/staff team and compete in the intramural program. Activities are organized on an individual, team, and club basis. Leagues are established for women, men, and mixed (co-rec) competition activities. There are multiple recreational sports including flag football, 3-on-3 basketball, volleyball, basketball, softball, and many more to choose. These sports offer a level of participation, which does not require the time commitments of practice, while still giving participants the chance to improve upon their physical fitness, social wellness, and self-image through competition. Intramural registration is online at intramurals. For further information, contact the Intramural Staff at 605-688-6861.

**Club Sports**

Club Sports offer students to continue the level of competitiveness and structure that they had in high school and a chance to travel and compete. Teams participate in various leagues and both host and travel to various competitions against other colleges and universities throughout the region and the nation. These clubs require a higher level of commitment than intramural sports as teams structure practices throughout the week and may travel on many weekends. Note: These are not NCAA Varsity Athletic Programs. There are multiple club sport opportunities including soccer, baseball, rugby, men's basketball, volleyball, ultimate Frisbee, and more. For further information, contact the Intramural Staff at 605-688-6861.

**Outdoor Programs**

Take advantage of our recreation trips offered year-round or develop new outdoor skills and knowledge through classes and clinics taught by experienced outdoor instructors. The outdoor program has gear to get you on the water, in the mountains, or up a rock wall! For further information, contact the Outdoor Program Staff at 605-688-4312.

**Student Health Clinic**

The Health Clinic provides primary care for illnesses and injuries, laboratory diagnostics, reproductive health, physical examinations, immunizations, international travel health, and nutritional counseling to SDSU students. All SDSU students are eligible for services; and charges for services can be filed with most health insurance companies. However, the student is responsible for any co-pays, deductibles, and co-insurance. The clinic is open Monday-Friday. For further information or to make an appointment call 605-688-4157.

Financial Information & Student Services
Jackrabbit Pharmacy
The Pharmacy serves all eligible SDSU students, faculty/staff, their family members, and Family Planning patients. The SDSU Jackrabbit Pharmacy accepts prescriptions from doctors outside of the student health clinic. We offer competitively priced over-the-counter and prescription medications along with discounted birth control. For more information, call 605-688-5410.

Counseling Services
Counseling Services provides individual counseling to students with emotional, behavioral, and/or academic concerns. Our staff utilize integrative approaches in order to deliver strength-based, short-term and culturally informed psychological services, which are free for all students. Counselors provide crisis response and intervention after business hours during the academic year. These services may be accessed by contacting University Police at 605-688-5117. For further information or to schedule an appointment, call 605-688-4157.

Drug & Alcohol Abuse Prevention Programs
Counseling Services provides alcohol and drug abuse information and prevention programs to the campus community. Our staff conduct Brief Alcohol Screening and Intervention for College Students (BASICS) as requested or on a referral basis. For further information, call 605-688-4157.

Textbook Policy 30
This section outlines academic policies as well as general information related to academics at South Dakota State University. The South Dakota State University Policy and Procedure Manual is the definitive source for the most current South Dakota State University policies. Policies duplicated on other websites or in print may not be the most current version. All policies documented on the site are official and supersede policies located elsewhere. South Dakota State University is governed by state and federal law, administrative regulations, and policies of the South Dakota Board of Regents (SDBOR) and the State of South Dakota.

### Academic Integrity & Academic Appeals

(SDSU Policy 2:4, SDSU Policy 3:1, and SDBOR Policy 3:4)

South Dakota State University has taken a strong and clear stand regarding academic dishonesty. Academic integrity embodies ethical principles to act responsibly and take responsibility for one's actions. Integrity and honor function as forms of a "social contract" where individuals have a duty to follow the rules and norms of academia as well as a duty to ensure their peers also follow such rules and norms. Undergraduate and graduate students at the University are expected to maintain the highest standards of academic conduct; if violated, the University takes a strong and clear stand regarding academic dishonesty. The consequence of academic dishonesty ranges from disciplinary probation to expulsion. For additional information on the academic dishonesty and academic appeals process and procedure reference SDSU Policy 2:4, SDSU Policy 3:1 and SDBOR Policy 3:4.

### Academic Performance & Progression

#### Credit Load

Full time students are required to take a minimum of 9 credits. Half-time students are required to take a minimum of 5 credits. Three-fourths time students are required to take a minimum of 7 credits. Students may take a maximum of 12 credits per semester. Domestic students must be enrolled at least half-time (5 credits) to receive Federal Aid. Loan deferment may also require full or part-time status. Eligibility varies with financial aid programs and students should contact their lender for requirements.

#### Graduate Assistants

(SDSU Policy 2:16)

All graduate assistants must register for a minimum of one (1) credit (including summer) in order to receive an assistantship.

Credits needed for full-time student status for graduate assistants:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Spring/Fall</th>
<th>Summer</th>
</tr>
</thead>
<tbody>
<tr>
<td>25% time assistantship</td>
<td>7</td>
<td>5</td>
</tr>
<tr>
<td>49% time assistantship</td>
<td>5</td>
<td>3</td>
</tr>
</tbody>
</table>

*For financial purposes, students need to be enrolled in at least 5 credits regardless of semester of study. Students with financial aid questions should e-mail the Financial Aid Office or visit their website.

Graduate assistantships are designed to provide financial support and intellectual guidance in support of the student's education. The primary goal of an assistantship is to facilitate progress toward the graduate degree. Assistantships are not the form of compensation for the time graduate students spend on their thesis or dissertation research. Students on research assistantships are expected to work on their own research over and above the time for which they are compensated. Graduate Research Assistants must complete a work log documenting compensable hours.

See the Graduate Assistant website for more specific criteria, guidelines, and more information regarding Graduate Assistantships.

#### International Graduate Student Credit Requirements

**Fall/Spring Semester**

International graduate students are required to pursue a full time course of study to maintain non-immigrant status in accordance with the U.S. Code of Federal Regulations. International students without an assistantship must register for nine (9) credit hours per semester to pursue a full course of study. Students with an assistantship would need to enroll in the appropriate number of credits corresponding with the percentage of their assistantship. Students who fail to maintain a full course of study will be considered out of status and may be terminated. The exceptions to a full course of study are limited but very important. Students must seek the approval of the International Student Affairs office for authorization to drop below nine (9) credits per semester. See the International Student Handbook for more information.

**Summer Semester**

Full time enrollment is required when the summer session is an international student's first semester. According to the United States Citizenship and Immigration Services (USCIS), international students who begin their studies during a summer session must be enrolled full time in order to maintain their F1/J1 status. It is a violation of USCIS regulations to permit an international student to begin a program and only register for 1 credit the first semester they are here. Graduate programs that intend to admit international students for the summer session/term must ensure that students will be able to enroll in enough credits to maintain their full time status. Students without an assistantship would need to register for 9 credits. Students with an assistantship would need to enroll in the appropriate number of credits corresponding with the percentage of their assistantship. International students are allowed to register for less than a full time course load during all subsequent summer terms. This policy only pertains to international students who are beginning their programs during a summer term.

**Registration & Status**

To maintain active status, students must be registered each semester of the academic year (excluding summer). Students completing their final oral exam or other degree requirements during a summer semester must be registered. All graduate assistants must register for a minimum of one (1) credit (including summer) in order to receive an assistantship.

Students who are not registered each semester (excluding summer) will be moved to inactive status and will be required to reapply before continuing their graduate studies.

**Continual Registration for Dissertation, Thesis, Research/Design Paper**

All graduate students who have completed the dissertation/thesis/research-design paper credits specified on their plan of study are required to do one of the following each semester during the academic year and summer term until the degree is awarded:

1. Students who have completed the required number of dissertation/thesis/research-design paper credits on the plan of study, but are still involved in research work as part of the degree requirement, must continue to register for one credit for each succeeding semester, including summer.
2. Students who miss the deadline for graduation in a given semester, but successfully complete their final oral exam and all other requirements prior to the start of the next semester, do not have to enroll in that semester in order to graduate.
Registration is the student’s responsibility and must be completed and payment made by the appropriate deadline each semester. Failure to register may delay award of the degree and thereby require additional registrations.

**Academic Probation**
(SDSU Policy 2:26)

Graduate students whose plan of study cumulative grade point average drops to less than 3.0 will be placed on academic probation and a hold will be placed on his/her registration for the subsequent semester. This hold can be removed only after the student and his/her advisor submit a plan of improvement form to the Dean of the Graduate School indicating how the GPA will be brought up to 3.0 or better. In the semester following the hold, the student must have a GPA of 3.0 or better. If students do not meet the GPA criteria, they may be subject to dismissal from their program or the University.

**Academic Progress of Thesis and Dissertation Coursework**
(SDSU Policy 2:26)

All students pursing a master's degree (Option A) or a Doctor of Philosophy degree must complete a thesis and dissertation, respectively. Each semester a student is engaged in activities in support of these objectives the students must be enrolled in the in x798 or x898 (or equivalent). The instructor, in consultation with the student, will determine the goals of the coursework for that semester. The student should be notified of the goals in writing sufficiently early in the semester to allow for completion of the goals. Each x798 or x898 credit hour will be graded with either an "S" or "U", for Satisfactory or Unsatisfactory, respectively. Written explanation of any "U" grade should be delivered to the student no later than the final day of instruction. Students receiving a "U" grade for x798 or x898 in two (2) semesters may be dismissed from the program. Recommendation for dismissal will be communicated from the instructor and Department Head to the Dean of the Graduate School who will conduct the review. The review will consider the student's entire academic performance weighed against a) the necessary research, clinical, and/or scholarly abilities to complete the student's chosen graduate degree and (or) b) the rate of progress toward degree completion.

**Annual Evaluations**
(SDSU Policy 2:26)

Thesis students (Option A master's) and doctoral students shall be provided written progress evaluations on an annual basis. The Annual Evaluation should address progress toward completion of formal course work and the thesis or dissertation project.

**Affirmative Action/Equal Opportunity Policy/Title IX**
(SDSU Policy 4:3, SDSU Policy 4:4, SDSU Policy 4:5, SDSU Policy 4:6)

South Dakota State University has a well-established commitment to maintaining a campus environment free from discrimination and harassment, as articulated by federal and state law, and University policy.

**Non-Discrimination Policy**

The University offers equal opportunities in employment and for access to and participation in education, extension, and other services at the University to all persons qualified by academic preparation, experience, and ability for the various levels of employment or academic program or other University service, without discrimination based on sex, race, color, creed, national origin, ancestry, citizenship, gender, gender identification, transgender, sexual orientation, religion, age, disability, genetic information, veteran status, or any other status that may become protected under law against discrimination.

The University, in conjunction with state and federal law and applicable SDBOR and University policies, is committed to the objectives of equal opportunity, nondiscrimination, and affirmative action. Redress for alleged violations of those laws may be pursued at law, or through the procedures established in University Policy 4:6 through the University Title IX/EO Coordinator.

Michelle Johnson, Ed.D., Equal Opportunity Officer/Title IX Coordinator/Affirmative Action Officer
South Dakota State University
Human Resources, Morrill Hall Room 100
Brookings, SD 57007
605-688-4128

**Harassment including Sexual Harassment Policy**

Harassment is a particularly harmful and illegal form of discrimination that breaks down trust within the SDSU community and impedes the ability of students, employees, and others to participate in an environment that achieves their fullest potential. Furthermore, harassment is a violation of the expectation that every individual at SDSU deserves to be treated fairly, with respect for his/her dignity as a person.

**Prevention of Sexual Assault, Domestic Violence, Dating Violence, and Stalking Policy**

State and federal laws and policies strictly prohibit sexual assault, domestic violence, dating violence, and stalking, often treating such actions as criminal offenses. Such misconduct is not permitted or tolerated at the University. SDSU Policy 4:5 and its procedures set forth standards regarding reports of sexual assault, domestic violence, dating violence, and stalking and the consequences of engaging in such misconduct at the University.

**Non-Retaliation/Privacy**

Complainants, respondents, witnesses, and other persons who have assisted, testified, or participated in any manner in any phase of a harassment or discrimination investigation will be protected against retaliation. SDSU’s policy and applicable Board of Regents, state and federal regulations prohibit retaliation, coercion, interference and/or intimidation, or any other adverse action taken as a direct result of a complaint being brought forth.

All concerns are responded to and/or investigated in a highly sensitive manner. The privacy of the parties involved is protected. The process is neutral, impartial and fair.

**What You Can Do To Address Harassment or Discrimination**

- If safe, approach the person you feel has discriminated against or has harassed you and communicate your concern directly, in person or in writing. Ask them to stop the concerning behavior or comments immediately.
- Report harassment or discrimination to the Title IX/EO Coordinator (605-688-4128).
Reporting Complaints

Concerns should be reported directly to the Title IX/EO Coordinator.

Michelle Johnson, Ed.D., Title IX/EO Coordinator & Affirmative Action Officer
Human Resources, Morrill Hall Room 100
Brookings, SD 57007
605-688-4128

SDSU has adopted a Compliance Hotline that offers two additional ways to report concerns, including the option to report anonymously, call 1-844-880-0004 or visit the web reporting website.

If a student or employee confides in you their concern, please encourage them to report the issue or you are required to report on their behalf. The University has a legal obligation to respond to issues, big and small, so SDSU requests that all concerns be brought forth. The University has many resources and wants to support the entire campus community.

The complaint process is subject to the South Dakota Board of Regents policies, and will follow the institutional policies listed below:

- Policy 4:3 Equal Opportunity, Non-Discrimination, and Affirmative Action
- Policy 4:4 Harassment including Sexual Harassment
- Policy 4:5 Prevention of Sexual Assault, Domestic Violence, and Stalking
- Policy 4:6 Human Rights Complaints

What happens if a violation of the policy occurs?

The University will not tolerate discrimination, harassment or retaliation that violates SDBOR or University policy. Where such violations are investigated and found to have indeed occurred, the University will take steps to end it immediately. An individual found to have engaged in discrimination, harassment or retaliation will be subject to appropriate discipline, depending on the severity of the misconduct. Sanctions for employees include formal reprimands, suspensions without pay, reductions in responsibilities, and termination. Sanctions for students include disciplinary probation, suspension, and expulsion. SDSU will provide the victim with remedies to alleviate the negative effects of the harassment or discrimination. Such remedies may be regarding academic, residential, employment, financial and transportation accommodations.

For More Information

For more information on the policies established to promote equal opportunity and eliminate discrimination and harassment at SDSU visit the website.

Attendance Policy

(SDSU Policy 2:5)

Policy

a. Teaching and learning is a reciprocal process involving faculty and students. Faculty members have an obligation of holding classes on a regular basis and students have an expectation to attend and participate in classes on a regular basis. Faculty members determine the specific attendance policy for courses under their direct supervision and instruction. Attendance procedures must be stated in written form, in the course syllabus, and distributed or posted electronically to students at the beginning of each course. If attendance is required and will impact grading, this expectation shall be included in the syllabus.

b. Any exceptions to the faculty member's written attendance policy due to verified medical reasons, death of a family member or significant other, or verified extenuating circumstances judged acceptable by the instructor or the Office of Academic Affairs, will be honored. Absences for vacations, breaks, or personal interviews do not constitute a valid reason for absence.

c. Faculty and administration will honor officially approved absences where individuals are absent in the interest of officially representing the University. Appropriate sanctioned activities include: Collegiate club sports and competitions; Conferences and workshops recognized by the University not related to academics; Commitments on behalf of the University (Students' Association, Band, Choir, etc.); Intercollegiate athletics; and Professional activities recognized by the University related to academics (professional conference attendance, etc.)

d. Students with official excused absences: Students with excused absences will be given appropriate make up work or instructor-determined equivalent opportunities for obtaining grades as students who were in attendance. Students with official excused absences are not to be penalized in course progress or evaluation. However, should excused absences be excessive, the faculty member may recommend withdrawal from the course(s) or award an incomplete grade.

e. Attendance policies apply in the online classroom. Faculty members determine the specific attendance policy for courses under their direct supervision and instruction. Attendance procedures must be stated in written form and made available to students on the first day of the course. Common strategies for demonstrating “attendance” in an online course include login requirements per week, an identified number of discussion postings per week, consistent contact with peers and instructor, and/or other assignments as determined by the instructor. Also, students are expected to login to their class on the first day of the semester.

f. Student-Athlete Class Attendance

i. No student-athlete may be absent from more than ten (10) class sessions (including required laboratory sessions) of a given course in a semester.

ii. Athletic absences will not be approved during final examination period with the exception of required conference or NCAA activities.

iii. In the interest of safety for student-athletes and staff, missed class-time resulting from travel delays associated with inclement weather will be excused.

Procedures

a. If a student has an accident, falls ill, or suffers some other emergency over which they have no control, the student needs to gather whatever documentation is available (e.g., copies of repair or towing bills, accident reports, or statements from health care provider) to show the instructor. Such exceptions must be communicated and negotiated between the student and faculty member prior to the absence whenever possible.

b. Requests for excused absences due to approved university-sponsored/recognized trips must be submitted one week prior to the trip or event. Students must present the completed approved trip absence card to the faculty member prior to the trip or event to have an official excused absence. Faculty members are not required to honor incomplete or late cards. Absences for trips or activities will not be approved during finals week.

c. Arrangements regarding attendance should be negotiated with faculty members. If this is not possible, the students should go first to the department head, and if necessary, next to the dean. The student may contact the Office of Academic Affairs if conflict cannot be resolved at these levels.

d. Waivers to the above rules, as they pertain to student athletes, require the approval of the Intercollegiate Athletics Board or its designee at the time of scheduling or as soon thereafter as is reasonably possible (if circumstances dictate the need for finalizing a contract or schedule prior to gaining Intercollegiate Athletics Board approval).

24 Policies & General Academic Information
Courses/Credits

Add/Drop Procedure

1. Dropping or adding courses should be discussed with one's academic advisor. Courses can be dropped on WebAdvisor or in the Registrar's Office.
2. The drop/add period is the time period during which students may adjust their academic schedule for the term without financial or academic consequences. The last day of the drop/add period for a course is designated as the census date for that course and is the official date for enrollment reporting. The end of the drop and add period for standard and non-standard courses offered in a semester shall be the date the first 10 percent of the term ends or the day following the first class meeting, whichever is later. When calculating 10% of the term, breaks of five or more days are not included when counting the total number of days but Saturdays, Sundays, and holidays are. Student registrations can only be added to courses after the end of the drop and add period by approval of the chief academic officer (or designee) of the university.
3. Students should not discontinue enrollment in a class without processing discontinuance via the official drop procedure. An "F" will be recorded for an unofficial drop.

Grades for Dropped Courses

Graduate students who drop a course shall receive a withdrawal grade if that action occurs anytime between the day after the census day for that course and the day that corresponds with the completion of 70 percent of the class days for that course.

Grades for Withdrawals from the Regental System (see "Withdrawals" for additional information)

Students who completely withdraw from the Regental system from the first day of a class(es) through census date of the class(es) will have a pseudo course of WD 101 (Undergraduate) or WD 801 (graduate) with a "W" grade entered on their Transcript. Undergraduate and graduate students who withdraw from the System shall receive a grade of "W" if that action occurs anytime between the day after the census day for that course and the day that corresponds with the completion of 70 percent of the class days for that course.

A notation of the date of withdrawal will be included on the student's transcript if he/she withdraws from the system. (Refer to SDBOR Policy 5:7, section 2)

Last Day to Drop

For standard classes, the last day to receive a grade of "W" is determined by calculating 70 percent of the class meeting days in the term, counting from the first day of classes in the term and rounding up if the calculation produces a fractional value greater than or equal to 0.5.

For any non-standard course, the last day to receive a grade of "W" is based on the number of class meeting days for the course, using the method described above.

Similar proportional dates would be established by the Registrar's Office for summer, interim and other courses taught outside of the normal nine-month academic year. Students may not drop a course or withdraw from the System after the time period specified above. (Refer to SDBOR Policy 5:7, section 2)

If extenuating circumstances (i.e., illness) have prevented class participation, a petition for an individual drop may be filed.

Auditing a Course

Registration as an auditor in a course may be permitted. No credit is given. The audit fee is the established tuition and fee rate. Registration for audit may be accomplished only after registration day by presenting an Audit/Satisfactory/Unsatisfactory form to the Registrar's Office, Enrollment Services Center.

Auditing courses by graduate students will be a matter of record (recorded on their academic transcript). An AU grade is given for Audit. This grade does not calculate into the semester or cumulative grade point average. Audit courses are counted as part of the 12 hour rule for overloads. Audit courses are not counted in calculating undergraduate or graduate full-time student status.

Cancellation of Courses

In general, entry level graduate courses (500 or 600 level courses) will not be offered to fewer than seven (7) students and graduate only (700 or 800 level courses) will not be offered to fewer than four (4) students unless there is some special reason for doing so. Instructors will cancel courses with low enrollment or for other reasons only with the approval of the dean of the academic college concerned.

Repeated Courses

(SDBOR Policy 2:8.3D)

All courses taken appear on the student's academic record, but when a course is repeated, only the most recent grade is calculated into the cumulative GPA. This policy applies to both undergraduate and graduate coursework. Relative to number of repeats allowed:
1. A student may enroll in a graduate course (for which credit is granted only once) no more than two times without permission of the Dean of the Graduate School.
2. A student will be allowed unlimited enrollments in a graduate course for which credit toward graduation may be received more than once. An institution may limit the number of credit hours for courses that may be taken more than once that apply toward the requirements for a major.

Please notify the Registrar's Office, Enrollment Services Center, when a course, whether failed or passed, is repeated.

Transfer of Credits

(SDSU Policy 2:17)

Graduate credits earned at other institutions may be applied toward an advanced degree if they were awarded a grade of at least "B" (3.0), if they are approved by the advisor or advisory committee and the Dean of the Graduate School, and if they are not part of a conferred degree. Transfer credit is limited to graduate credit as defined by the institution issuing the transcript. In order to be accepted by the Graduate School, the offering institution must accept the credits toward their graduate program without restriction. Dual-numbered courses offered primarily for upper-level undergraduate credit are not transferable as graduate credit. Requests for transfer of credits are usually made at the time a plan of study is approved and must be supported by an official transcript submitted to the Graduate School. A minimum of sixty (60) percent of all credits in the program must be earned at SDSU unless the program is part of an approved joint or cooperative degree. Credits earned at another institution as a part of an approved joint or cooperative degree program will not count as transfer credits for the purposes of this policy.

Undergraduate Students Taking Graduate Courses

(SDSU Policy 2:22, SDBOR Policy 2:8.3C, SDBOR Policy 2:10)

Undergraduate students who have completed a minimum of 90 credit hours may request to enroll in 500/600 level. Students will pay graduate tuition and the courses will be recorded on a graduate transcript. A maximum of 12 graduate credits may apply to an undergraduate degree. SDSU Policy 2:22 Use of Graduate Credit for Undergraduate Degree Requirements designates standards concerning the use of graduate credit to fulfill undergraduate degree requirements as allowed by SDBOR Policy 2:8.
Withdrawal

Students finding it necessary to withdraw from the University are urged to consult with a faculty advisor to work out the best plan possible and then contact the Registrar's Office, Enrollment Services Center, to process a withdrawal. Students who leave the University without processing an official withdrawal will be reported as having failed the semester's work. Transcripted grades are based on the date of application for withdrawal. A student may withdraw from the University until 70% of instruction has been completed (Contact the Registrar's office for date information). After that date, if extenuating circumstances (i.e., illness) have prevented class participation, a petition for withdrawal may be filed through the Office of Academic Affairs.

A student is considered withdrawn during a term if classes have begun and:

1. The student has registered for at least one course and the student has initiated withdrawal from all state-support and self-support courses at all Regental universities in which the student was actively enrolled at the time of withdrawal, including courses in progress as well as those that have not yet begun, or;
2. The Regental home university has completed withdrawal procedures for administrative reasons including, without limitation, non-payment of tuition and fees or disciplinary sanctions.
3. Students enrolled in two or more Regental universities pursuant to financial aid consortia will be eligible for refunds as set forth herein only if they withdraw, drop out or are expelled from all classes at all Regental universities for which they have enrolled.

Students who withdraw or are expelled from the Regental system within the drop/add period receive a 100 percent refund of tuition and per credit hour fees. Students who withdraw or are expelled from the Regental system after the date the first 10 percent of the term ends for the period of enrollment for which they are assessed may be entitled to a prorated refund.

Family Education Rights & Privacy Act of 1974

FERPA Rights

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An "eligible student" under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution at any age.) These rights include:

1. The right to inspect and review the student's education records within 45 days after the day the University receives a request for access. A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to provide written consent before the University discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent. The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official also may include a volunteer or contractor outside of the University who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202

Directory Information

The Federal Privacy Act (FERPA) defines some information as Directory Information. SDSU allows the release of the following Directory Information concerning a student upon request, without the consent of the student:

- student's name
- student class level
- major program of study
- minor program of study
- dates of attendance
- degrees and awards received
- full-time/part-time status
- photographic material (not including student ID photo)
- hometown
Final Examinations

(SDSU Policy 2:1)

Policy

a. Among the tasks of instruction is that of evaluation of a student's performance. Each course has its own particular parameters, and the evaluation procedure in any one course is not necessarily the same as that in another course. However, the most commonly used evaluation technique is that of written examinations or papers periodically due during the course, and a final examination at the end of the course. The final examination procedure has become so universal and accepted that a final examination period is set aside at the end of the semester in most colleges and universities. The Carnegie credit hour is calculated by contact hours with 15 contacts hours equating to 1 credit hour. Finals week is considered an integral part of the 17-week academic semester and critical to the credit hour calculation.

b. It is the policy of South Dakota State University to adhere to the following:

i. The final examination schedule will be published in the fall or spring course schedules. Courses offered for 2 or more credits will have an examination time determined by the final examination schedule published in the schedule book.

ii. Multiple section final examinations will be scheduled at 7:00 a.m. as published in the schedule book through a request process from the instructor to the Registrar's office.

iii. Final exams for evening courses (any course that begins at 5:00 p.m. or later) must be scheduled at the regularly scheduled time (of the course) during finals week.

iv. Courses of 1 credit or laboratory only will have the final examination or alternative learning experience during the last week of regular classes before final examination week.

v. Every course except as noted in #2, #3, and #4 above is required to follow the final examination schedule.

vi. Five days are to be scheduled for final examinations at the end of each semester, fall and spring. Due to the variety of summer sessions and other accelerated course formats, the final day of the term will be reserved for the final examination.

vii. A final examination must be available for administering individual final examinations. Within the final examination time period, instructors may reduce the time limit of an examination by prior announcement.

viii. Final examinations are an integral part of the instructional program and should be given in all courses except in some cases such as laboratory, studio, capstone courses, seminars, colloquia and other independent learning credits, where a final examination may not be appropriate. Any instructor wishing to waive the right to a final examination must do so by submitting a request as outlined under Procedures. The right to waive the final examination does not, however, preclude the requirement to hold class during final examination week for an alternative learning experience. The discipline is responsible for defining appropriate alternative learning experiences.

ix. If a final examination is used, it should not be given early. The published final examination schedule must be followed and the final examination in a course should be given as scheduled and not at other times, even if the faculty member and all students in a course agree to such a change. This is true even if the final examination is an alternative learning experience. It is understood that some culminating learning assessment may be administered during the last week of classes. This does not preclude the requirement however, for these classes to meet during finals week.

x. The week of classes preceding the scheduled final examination period should be used primarily for continued instruction and may include the introduction of new material. No final examinations are to be given during the seven days preceding the start of the examination period (excluding 1 credit courses). However, laboratory practicums, seminar presentations, etc. may be scheduled in that week.

xi. Individual students may petition in writing for a variance from these policies, provided the instructor is satisfied that the exception is based on good and sufficient reasons, and that such an exception for an early or late examination will not prejudice the interests of other students in the course. Reasons for individual students missing a scheduled examination will be handled by the department. Each department will decide what will, or will not, be an acceptable excuse and deal with individual hardship cases. Note that the SDSU Attendance Policy should be consulted for excused absences. In the event of a department approved excuse, the instructor will decide the procedure necessary to complete the course requirement. Instructors must have the consent of the department head in excusing the student.

xii. When students have more than three final examinations on the same day, they are entitled to arrange an alternative examination time for an examination or examinations scheduled on that day. Such arrangements must be made no later than the end of the 12th week of the semester. Students are expected to provide evidence to the Registrar's Office that they have more than three examinations to qualify for exceptions.

c. This policy applies to all undergraduate and graduate students, including seniors. Graduating seniors are not exempted from final examinations.

Procedure

a. Each instructor, department head and dean is responsible for enforcing the above policies. The SDSU Attendance Policy will be used to establish acceptable excuses for missing and retaking a final examination.

b. Any instructor wishing to request a waiver from administering a final examination must do so by submitting a request to the department head for approval. The department head will then forward such requests to the college dean. A course need only be approved once; however, if substantive modifications are made to a course, it should be resubmitted for approval.

Grades

Graduate Academic Standards/Grades

Cumulative 3.0 (B) Average

The student must maintain a 3.0 (B) cumulative grade point average for courses in the graduate plan of study. No credit is given toward a graduate degree for any grade below "C" in 500, 600, 700 or 800 level courses. Students must have a cumulative plan of study GPA of 3.0 in order to graduate.

Dissertation/Thesis/Research or Design Paper Credits

Graduate students usually register for dissertation/thesis/research or design paper credit during several semesters. A grade of satisfactory (S), unsatisfactory (U), or (NP) normal progress may be assigned during the semester of registration, based on progress made. Credits receiving "U" will not be credited toward the plan of study.

Seminars

A letter grade or a grade of Satisfactory (S) or Unsatisfactory (U) may be assigned at the discretion of the instructor.

Incomplete Grades

When a graduate student is given an Incomplete grade (I) for any course in the student's plan of study, the instructor may indicate in writing to the student what additional work must be completed and may establish a date at which such work must be completed. If the work is not completed in either the manner or time prescribed, the instructor may change the Incomplete grade to whatever grade is justified as an evaluation of the student's work or may allow the grade to remain Incomplete. Incomplete grades given without this procedure will remain as Incomplete on the student's record unless changed because of completion of the remaining work in the course. Incomplete coursework must be completed within one calendar year; extensions may be granted by the Graduate Dean.
**Repeated Courses**

All courses taken appear on the student’s academic record, but when a course is repeated, only the most recent grade is calculated into the cumulative GPA. **Students should notify the Registrar’s Office, when a course, whether failed or passed, is repeated.**

**Grading**

(SDBOR Policy 2:10)

Graduate Grades will be assigned to the Graduate Academic Level and to all courses and sections with course numbers of 500 or greater. Plus and minus grades are not used.

AU: An audit (AU) grade may be granted only when the student has elected the AU option on or prior to the census date of the term.

CR: A credit (CR) grade may be granted only for non-course credit that is not related to an examination or to equating transfer grades to the BOR grading system. This grade is not used for any Regental university course.

EX: An examination for credit (EX) grade may be granted only for non-course credit validation obtained through a validation process. This grade is not used for any Regental university course.

I: An incomplete (I) grade may be granted at the graduate level only when all of the following conditions apply:

- A student has encountered extenuating circumstances that do not permit him/her to complete the course.
- The student must be earning a passing grade at the time the Incomplete is necessitated. Anticipated course failure is not a justification for an Incomplete.
- The student does not have to repeat the course to meet the requirements.
- The instructor must agree to grant an Incomplete grade.
- The instructor and student must agree on a plan to complete the coursework.
- The coursework must be completed within one calendar year; extensions may be granted by the Graduate Dean.
- If the student completes the course within the specified time, the grades that may be assigned are A, B, C, D, F, S, or U.
- If the student does not complete the course within the specified time, the Incomplete grade remains on the transcript.

IP: An in progress (IP) grade may be granted only when all of the following conditions apply:

- The requirements for the course (for every student enrolled in the course) extend beyond the current term.
- The extension beyond the current term must be defined before the class begins.
- The instructor must request permission to award IP grades for a course from his/her Department Head and Dean, and then approval must be obtained from the Chief Academic Affairs Officer.
- A definite date for completion of the course must be established in the course syllabus.

NG: A grade of NG will be used only with those course sections that are designated as Tracking/Program Sustaining (Q) and those that are assigned the code for Master's Research Problems/Projects Sustaining, Thesis Sustaining, or Dissertation Sustaining (U).

NP: A normal progress (NP) grade may be granted by an instructor when the instructor determines that a graduate student is making normal progress in a graduate Thesis/Dissertation course. If a graduate student does not enroll for a period of one calendar year, the NP grade may change to I (Incomplete) upon approval by the Graduate Dean. The NP grade calculates into attempted credits but does not calculate into completed credits or grade point averages.

S/U: A Satisfactory/Unsatisfactory (S/U) grade may be granted only when the entire course requires the S/U grade or the student has elected the S/U option on or prior to the census date of the term.

With the exception of an “I” that has not been completed within the specified time, any grade reported to the Registrar may be changed by recommendation of the instructor and college dean with approval of the Vice President for Academic Affairs.

Any graduating senior or graduating graduate student who receives an Incomplete or In Progress grade in the final semester in a course required for graduation, or who has not removed an outstanding Incomplete or In Progress from a previous semester in a course required for graduation by the date grades are due for the semester, will not be permitted to graduate that semester. He or she will be required to apply for graduation in a subsequent semester. Emergency situations require the filing of a petition by the student to his/her Academic Dean for the final grading deadline for the final semester.

Grades of I (Incomplete), NP (Normal Progress), IP (In Progress) and NR (Not Reported) awarded to thesis/dissertation coursework will be changed to S (Satisfactory) upon completion of all other degree requirements. The change of grade will be conducted without specific consent of the instructor. Completion of course work with the 798 or 898 suffix awarded a U (Unsatisfactory) must be changed by standard processes.

Once a student has graduated and the degree has been recorded, the record is considered officially closed and grades can no longer be changed.
Graduation

Graduation Application
The student must submit a graduation application on MyState by the date specified by the Graduate School for the term in which completion of the advanced degree is expected. Failure to submit this application will result in a delay in graduation. Students who submit an application but fail to graduate will be assessed a $50 charge and a registration hold will be placed on their account. The registration hold will be removed once the charge is paid.

Commencement Attendance
All students are encouraged to participate in the spring commencement ceremony; however, attendance is optional. Graduate students who have not completed all degree requirements for graduation may participate in commencement; however, they will need to submit a request to participate form with advisor's signature approximately 6 weeks prior to commencement. Graduate students will have two opportunities to participate in commencement: 1) the next regularly scheduled ceremony following completion of the degree or 2) the second regularly scheduled ceremony following completion of the degree. Students will only be allowed to attend no more than one commencement ceremony per completed degree. Attendance at commencement or inclusion in the commencement program does not, in itself, constitute completing or receiving a graduate degree.

Diplomas are mailed approximately three months after the degree is awarded.
See the graduation website for more information regarding graduation and commencement guidelines.

Postdoctoral Study
Postdoctoral students or eminent scholars who desire temporary privileges of the research facilities, staff counsel, library or seminars at the institution and who are not candidates for a degree, must obtain approval of the Department Head, Dean and/or Director concerned.

Student Code of Conduct
(SDSU Policy 3:1)
South Dakota State University has established standards for expected and acceptable behavior for members of its campus community. Students are expected to be familiar with these standards and related policies so that they know their responsibilities (what they may be held accountable for) and to protect their rights (what they may hold others accountable for).

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general support for the well-being of society. Free inquiry and expression are indispensable to the attainment of these goals. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on campus and in the community. Students are expected to exercise this freedom with responsibility.

The Student Conduct Code is the basic guideline reflecting university-student relations. The Code defines student behavior, expectations and related university conduct procedures. Refer to SDSU Policy 3:1 for the Student Conduct Code policies and procedures.

Student E-Mail
Email messages sent by SDSU to students through university-assigned, jacks email addresses will constitute an official means of communication. It is the student's responsibility and obligation to access official university email messages in a timely manner. As other email accounts may be blocked by the SDSU firewall, SDSU is only able to monitor student emails coming from university-assigned email accounts.

Student Recording of Classroom Lectures & Distribution of Course Materials
(SDSU Policy 2:16)
Recording of Classroom Lectures and Distribution of Course Materials policy prohibits or restricts the recording of classroom lectures or redistribution of classroom materials in order to respect the integrity and effectiveness of the classroom experience, protect students' and faculty members' privacy, respect faculty and University rights in instructional materials, and to comply with copyright laws, including the Digital Millennium Copyright Act of 1998 ("DMCA"). Refer to SDSU Policy 2:16 for the Recording of Classroom Lectures and Distribution of Course Materials policy.

Student Responsibility
Before a degree is granted, the student must meet all the requirements of the advisory committee, the graduate program, and the Graduate School. Students should note that graduate studies represent advanced work and research in a discipline or interdisciplinary area and should be more than a compilation of course work. Students are responsible for conforming to all published academic policies and degree requirements. They are likewise responsible for the regulations concerning the degree they plan to obtain and any special requirements within the program or academic unit. In addition, it is the student's responsibility to conform to the University's policies regarding the standard of work necessary to maintain enrollment in the Graduate School. The University makes every effort to provide accurate advising information. However, it is the student's responsibility to make certain that he/she has fulfilled all graduation requirements.

Students with Disabilities
South Dakota State University (SDSU) reaffirms that it is committed to a policy of non-discrimination on the basis of physical or mental disability/impairment in the offering of all benefits, services, educational and employment opportunities. The coordinator for Disability Services has been designated the SDSU "Responsible Employee" to coordinate institutional compliance with the non-discrimination requirements of the Americans with Disabilities Act (ADA) of 1990. In that capacity, the coordinator is committed to ensuring that SDSU provides an inclusive learning environment.

The coordinator will also be responsible for the effective integration of ADA procedures, and Section 504 of the Rehabilitation Act of 1973. The coordinator serves as the personal contact for students seeking information concerning the provisions of the ADA and their respective duties and rights provided therein. The phone number for the Office of Disability Services is 605-688-4504.
Study Abroad & U.S. Department of State Travel Warnings

(SDSU Policy 2:11)

Study Abroad and U.S. Department of State Travel Warnings policy addresses the procedures to be followed when the U.S. Department of State issues a Travel Warning for a country in which University undergraduate or graduate students are studying or are planning to study. Refer to SDSU Policy 2:11 for the Study Abroad and U.S. Department of State Travel Warnings policy and procedure.

Textbook Policy

(SDSU Policy 2:10)

The SDSU Textbook policy and related procedures set forth the requirements for selecting and ordering textbooks and course materials and for making all materials available to students in a timely manner. Refer to SDSU Policy 2:10 for the Textbook policy and procedure.
Master's Degree Requirements

Admission Requirements 32
Advisory Committee - Option A (Thesis) 32
Plan of Study/Credit Requirements 32
Examinations 32
Thesis, Research Paper, or Design Paper 33
Credit Sharing between Graduate Credentials 33
Time Limitation 33
Master's Degree Checklist 33
Admission Requirements

The application must include the application fee, all post-secondary transcripts, degree certificate, and other materials as required by specific programs before processing of the application will begin. Application materials are due by April 15 to be considered for fall admission and by October 15 to be considered for spring admission. **Students should check with their specific program of interest, as some programs have earlier deadlines.** Master's degree applicants must have an approved Bachelor's degree from an accredited institution (except in approved/accelerated programs). Domestic, international or non-degree seeking students may submit an application online.

Advisory Committee - Option A (Thesis)

All students are required to have a major advisor. As soon as possible, but no later than the completion of fifty (50) percent of the credits toward graduation, any option A (thesis) student will request to the major advisor and Dean of the Graduate School (by submission of the committee approval request form) members of an advisory committee. The advisory committee must be composed of a minimum of three (3) members. Option B and C students may also form an advisory committee; however, it is not a requirement. The committee must include:

- **Committee Chair** – must hold full graduate faculty status at SDSU to chair master's (option A) committees. Lecturer or senior lecturer-rank faculty who hold associate graduate faculty status may chair master's (option A) committees with Department Head approval. This member assists the student in developing a suitable graduate program, provides continuing guidance and counsel, evaluates student progress, informs the student as to who will provide primary research supervision, serves as a contact for the committee, and ensures the completion of the degree requirements to the Dean of the Graduate School.

- **Additional member(s) with expertise within the discipline** - must hold either full graduate faculty or associate graduate faculty status at SDSU. Additional members assist the student in developing a suitable graduate program, provide continuing guidance and counsel, evaluate student progress, and assist with the completion of the degree requirements. Additional members may serve as co-chairs.

- **Graduate Faculty Representative** - selected by the Dean of the Graduate School from within a distant, broadly-defined discipline. This member represents the Graduate Council to ensure the supervision of the student is carried out with sufficient integrity. This member ensures that minimal academic standards are maintained and acts as an advocate and counselor for the student. For votes regarding the final oral defense, the graduate faculty representative must vote in the affirmative for the vote to carry.

Professional doctorate degree holders with full graduate faculty status may only serve as chair for a committee for the degree which they hold. Adjunct faculty members or University employees holding a master's degree who fail to qualify as associate graduate faculty member may serve on graduate student committees. Such committees must contain the minimum number of full/associate graduate faculty in addition to the master's degree holder. A committee may only include one master's degree holder. The master's degree holder is not considered as having associate graduate faculty status and cannot serve as co-chair. The advisory committee is responsible for approving the content and scope of final examinations. The committee must evaluate the student's performance for the final oral exam and all other degree requirements taken under the auspices of -798 coursework (including those internal to the program). All committee members must be available for regular meetings with the student and/or committee. Each committee member has voting privileges. Only committee members may vote on business before the committee. For activities requiring committee votes, the chair must ensure due diligence for accommodating all members of the committee. The graduate faculty representative and all but one (1) of the graduate committee must vote in the affirmative to pass the student.

The Department Head is responsible for informing the Graduate School if and when a committee member can no longer fulfill her/his duties consistent with the policies of the University.

Plan of Study/Credit Requirements

The major advisor and the student will develop a plan of study. The plan of study must be submitted using the plan of study form and approved by the major advisor and the Dean of the Graduate School prior to completion of 50 percent of the credits toward graduation. Delay in submitting a plan of study may result in disapproval of courses taken prior to approval and/or registration restrictions. Changes in the approved plan of study must be requested using the change in plan of study form. While revising the plan of study, please refer to specific academic program requirements in the Academic Programs section of the graduate catalog in addition to the following information.

Plan of Study Total Credits Required

*Requirements may vary by Graduate Program

Graduate Credit Requirement

Credit applied toward graduate credentials should be at the 500-level and above. At least fifty (50) percent of the credits on a plan of study must be in courses 600-series or above. Please refer to the Graduate Credit Requirements Policy for more information.

A formal review of the progress of degree completion, including performance in coursework and completion of thesis goals should take place annually and be standard in format and timing for all students within a program. The review will include a written evaluation portion, including one opportunity for the student to rebut, followed by a meeting for a discussion. The written portion should take place using a program-standard format and include a synopsis of progress made the previous year, as well as guidance for the upcoming year.

Examinations

Master's programs require completion of a capstone component. The capstone component must be conducted under the supervision of no fewer than two graduate faculty and approved through normal curriculum processes. Capstone components must be associated with graduate coursework.

The capstone component for an option A is the final oral exam. The capstone component for options B, C, and D may include a research paper, oral exam, portfolio of the student's work or other suitable exercise.
**Final Oral Exam – Option A (thesis)**

The student arranges with his/her advisory committee the time and location for the final oral examination. The student will submit the final oral exam form to the Graduate School no less than two (2) weeks prior to the examination date. A final oral examination will be administered by the advisory committee, covering the student's plan of study and thesis. The graduate faculty representative and all but one (1) of the graduate committee must vote to pass the student. The final oral exam must be completed three (3) weeks prior to the end of the semester in order to graduate. Option B and C students may also choose to complete a final oral exam, but are not required to do so.

Remediation Opportunity: Students who fail an academic exercise will be afforded a remediation opportunity. The student should 1) be provided feedback regarding the deficiencies of his/her performance; 2) be provided resources useful to remediate his/her deficiencies; and 3) be allowed an appropriate length of time to prepare for the next attempt.

**Thesis, Research Paper, or Design Paper**

**Research Paper/Design Paper Requirements**

Students following Option B must complete at least two (2) credits for a research problem/design paper in the major field and present a written report. The content, style, and format of the report must meet the requirements of the program. The research report or design paper must be approved by the advisor and filed in the major department. If completing a final exam, a copy of the written report should be provided to each committee member two (2) weeks before the oral exam, and be available at the final oral examination.

**Thesis Requirements**

A thesis must meet the requirements of the program and the Graduate School and must be submitted by each student completing an option A master's degree. The thesis must represent a scholarly contribution to research knowledge in the major field. A research area for the thesis topic should be chosen after consultation with the major advisor as early in the student's program as possible. The thesis accounts for five (5) to ten (10) semester hours in the major.

**Thesis Formatting & Deposition**

All theses must be submitted for appropriate format checking and deposition with the library. Instructions are found on the Graduate School website.

**Use of Human Subjects or Vertebrate Animals in Research**

After receiving approval of the research proposal students must also seek approval for the use of human subjects or vertebrate animals in research, when applicable, from the appropriate committee. These approvals must be secured before beginning the study. For more information, visit the Research Compliance website or contact the SDSU Research Compliance Coordinator in the Office of Research & Sponsored Programs, Morrill Hall 200, Telephone: 605-688-6975.

**Credit Sharing between Graduate Credentials**

Credit can be used for the satisfaction of more than one graduate credential (graduate certificate, master's degree) issued by SDSU and may be paired to share credit. Each graduate credential may be paired with itself or any other graduate credential. For example, two master's degrees may be paired or a master's degree and a graduate certificate.

The allowable credit shared between graduate credentials equals the sum of the minimum required credit hours for each credential divided by 6 (six). The maximum allowed is 50% of either credential program. A single graduate certificate may be shared, in entirety, with credits for a master's degree. Once a graduate credential participates in a credit pairing, the graduate credential may not be paired with a third credential. Validated credit or course credit with an x798 or x788 suffix may not be shared between graduate credentials.

**Time Limitation**

**Obsolete Program**

If the requirements for the master's degree are not completed within six (6) years from the program start date, the request for extension of the graduate program form must be submitted to the Graduate School. The request will be reviewed and a decision as to whether the student may continue in the program will be made by the Graduate School Dean.

**Obsolete Coursework**

Courses completed more than six (6) years prior to completion of the requirements of the master's degree are regarded as obsolete coursework. Such courses may be used in the master's degree program if validated. Validation is allowed at the discretion of the advisory committee and department involved and can be accomplished by passing validation requirements in the subject matter area and submitting the validation form to the Graduate School. Validated coursework cannot exceed fifty (50) percent of the total coursework (excluding thesis and research paper credits) listed on the plan of study and must be certified by the advisory committee. Course validation may be subject to a processing fee. Only courses taken at SDSU may be validated.

Admission Requirements

Two applications are required for the SDSU Graduate Nursing Program:

1. SDSU Graduate School Application (online application)

The application file must be complete with the application form and application fee. References and transcripts are not sent to the Graduate School. These documents will be accessed through the NursingCAS application. A completed application must be filed with the Graduate School by March 15 for fall admission. Applications for domestic, international or non-degree seeking students are found online.

2. SDSU Graduate Nursing Program Application via NursingCAS - online application service

Application to the DNP program option is available at NursingCAS beginning early September. Please refer to the NursingCAS application directions to complete an application.

Applications will be accepted beginning early September for all DNP options. Application deadline will vary dependent upon chosen specialty. Refer to the Graduate Nursing Program website for specific deadlines.

Priority Consideration for DNP/FNP options: Applications received by the priority consideration deadlines found on the Graduate Nursing Program website for DNP/FNP options are reviewed and interviews are scheduled ahead of the March 15th deadline with potential for early notification of acceptance to the program.

Additional Admission Requirements for Bachelor's to Doctor of Nursing Practice

GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR
IELTS: 7.0 total band

In addition to meeting the Graduate School admission requirements, applicants for graduate study for the Bachelor's to Doctor of Nursing Practice must have:

- Current RN licensure.
- Bachelor's degree in nursing from an NLNAC or CCNE Accredited program with a minimum cumulative 3.3 GPA.
- 1500 hours of documented nursing practice experience prior to the first clinical lab or within the first program year.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Submission of a written response to questions regarding educational goals, scholarly practice interest and desired practice career.
- Completed an approved statistical methods course within the past 5 years.
- Interview with graduate faculty.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, specialty certification, professional liability insurance, influenza vaccine, and TB test.
- Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

Additional Admissions Requirements for Post Master's to Doctor of Nursing Practice - NP, CRNA, CNS, and CNM

GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR
IELTS: 7.0 total band

In addition to meeting the Graduate School admission requirements, applicants for graduate study for the Post Master to Doctor of Nursing Practice (who possess current certification as a Nurse Practitioner, CRNA, CNM or CNS) must have:

- Current RN licensure.
- National certification as a Nurse Practitioner (Nurse Anesthetist, Nurse Midwife or Clinical Nurse Specialist).
- Master's degree in nursing with a (Nurse Practitioner, Nurse Anesthetist, Nurse Midwife or Clinical Nurse Specialist) focus from an NLNAC or CCNE accredited program with a minimum cumulative 3.3 GPA.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Submission of written response to questions regarding educational goals, scholarly practice interests, and desired practice career.
- Completed an approved statistical methods course within the last five years.
- Interview with graduate faculty.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification, professional liability insurance, influenza vaccine, and TB test.
- Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

Additional Admissions Requirements for Post Master's to Doctor of Nursing Practice - Family Nurse Practitioner Specialization

GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR
IELTS: 7.0 total band

In addition to meeting the Graduate School admission requirements, applicants for graduate study for the Post Master to Doctor of Nursing Practice must have:
• Current RN licensure.
• Bachelor's degree in nursing from an NLNAC or CCNE Accredited program.
• Master's degree in nursing with a focus from an NLNAC or CCNE accredited program with a minimum cumulative 3.3 GPA.
• 1500 hours of documented nursing practice experience prior to the first clinical course.
• Completed and verified application to the Graduate Nursing program via NursingCAS website.
• Submission of written response to questions regarding educational goals, scholarly practice interests, and desired practice career.
• Completed an approved statistical methods course within the past 5 years.
• Interview with graduate faculty.
• Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification, professional liability insurance, influenza vaccine, and TB test.
• Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

Advisory Committee
All graduate students are required to have a major advisor. As soon as possible, but no later than the completion of fifty (50) percent of the credits toward graduation, the major advisor will recommend to the Dean of the Graduate School (by submission of the committee approval request form) members of an advisory committee. The advisory committee must be composed of a minimum of four (4) members. The committee must include:

• **Committee Chair** – must hold full Graduate Faculty status at SDSU. This member assists the student in developing a suitable graduate program, provides continuing guidance and counsel, evaluates student progress, informs the student as to who will provide primary project supervision, serves as a contact for the committee and ensures the completion of the degree requirements to the Dean of the Graduate School.

• **Two (2) additional members with expertise within the discipline** – must hold either full Graduate Faculty or Associate Graduate Faculty status at SDSU. Additional members assist the student in developing a suitable graduate program, provide continuing guidance and counsel, evaluate student progress, and assist with the completion of the degree requirements. Additional members may serve as co-chairs.

• **Graduate Faculty Representative** – selected by the Dean of the Graduate School from within a distant, broadly-defined discipline. This member represents the Graduate Council to ensure the supervision of the student is carried out with sufficient integrity. This member ensures that minimal academic standards are maintained and acts as an advocate and counselor for the student. For votes regarding the final oral defense, the Graduate Faculty representative must vote in the affirmative for the vote to carry.

Professional doctorate degree holders with full Graduate Faculty status may only serve as chair for a committee for the degree which they hold.

Adjunct faculty members or University employees holding a master's degree who fail to qualify as Associate Graduate Faculty member may serve on graduate student committees. Such committees must contain the minimum number of Full/Associate Graduate Faculty in addition to the master's degree holder. A committee may only include one master's degree holder. Addition of the master's degree holder does not alter the maximum number of committee members allowed. The master's degree holder is not considered as having Associate Graduate Faculty status and cannot serve as co-chair.

The advisory committee is responsible for approving the content and scope of final examinations. The committee must evaluate the student's performance for the comprehensive exams and final defense and all other degree requirements.

All committee members must be available for regular meetings with the student and/or committee. Each committee member has voting privileges. Only committee members may vote on business before the committee. For activities requiring committee votes, the chair must ensure due diligence for accommodating all members of the committee. The Graduate Faculty representative and all but one (1) of the graduate committee must vote in the affirmative to pass the student.

The Department Head is responsible for informing the Graduate School if and when a committee member can no longer discharge her/his duties consistent with the policies of the University.

Plan of Study/Credit Requirements
After the advisory committee is formed, the major advisor will schedule a meeting with the student to develop a plan of study. The plan of study must be submitted using the change in plan of study form and approved by the advisory committee and the Dean of the Graduate School prior to completion of 50 percent of the credits toward graduation. Delay in submitting a plan of study may result in disapproval of courses taken prior to approval and/or registration restrictions. Changes in the approved plan of study must be requested using the change in plan of study form. While devising the plan of study, please refer to specific academic program requirements in the Academic Programs section of the catalog in addition to the following information.

Total Credits Required

</table>

*The College of Nursing has agreements for distance education and hybrid courses with the University of Missouri - Kansas City for Neonatal Nurse Practitioner courses, and the University of Missouri - Columbia for Family Psychiatric and Mental Health Nurse Practitioner and Pediatric Nurse Practitioner courses. Students in these specialties receive their degree from SDSU.

Graduate Credit Requirement - Credit applied toward graduate credentials should be at the 500-level and above. At least fifty (50) percent of the credits on a plan of study must be in courses 600-series or above. Please refer to the Graduate Credit Requirements Policy for more information.
Examinations

Project Proposal Defense
The student arranges with his/her advisory committee the time and location for the DNP Project Proposal Defense. At this time, the student will defend the project topic, evidence-based research and guidelines to support the intervention, and methodology to monitor effectiveness of the health policy change or intervention. The student will discuss the proposed statistical tests to evaluate outcomes of the intervention. The DNP Project Proposal Defense must occur in a different semester than the final oral and project defense. The Graduate Faculty representative and all but one (1) of the graduate committee must vote to pass the student.

Final Oral Exam
The student arranges with his/her advisory committee the time and location for the final oral examination. The student will submit the final oral exam form to the Graduate School no less than two (2) weeks prior to the examination date. A final oral examination will be administered by the advisory committee, covering the student's plan of study and project. This examination must be comprehensive, testing the student's ability to analyze, integrate, and apply knowledge from the discipline. The graduate faculty representative and all but one (1) of the graduate committee must vote to pass the student. The final oral exam must be completed three (3) weeks prior to the end of the semester in order to graduate.

Time Limitation

Obsolete Program
If the Doctor of Nursing Practice degree is not completed within eight (8) years from the program start date, the request for an extension of the graduate program form must be submitted to the Graduate School. The request will be reviewed and a decision as to whether the student may continue in the program will be made by the Graduate School Dean.

Obsolete Coursework
Courses taken more than eight (8) years before completion of the program are regarded as obsolete coursework. Obsolete courses may be used in the DNP degree program if validated. Validation is allowed at the discretion of the advisory committee and department involved and can be accomplished by passing validation requirements in the subject matter area and submitting the validation form to the Graduate School. Validated coursework cannot exceed fifty (50) percent of the total coursework listed on the plan of study and must be certified by the advisory committee. Course validation may be subject to a processing fee. Only courses taken at SDSU may be validated.

* The Graduate School sets deadlines for graduation each semester. Please also consult with your Department for other program specific requirements and deadlines. All forms are available on the Graduate School Forms page.
Doctor of Pharmacy Degree Requirements

Program Application Requirements  40
Curriculum/Plan of Study  40
College of Pharmacy & Allied Health Professions Regulations  40
Program Application Requirements

Preparation for the Major
A sound, basic education in science and mathematics courses is an essential part of preparation for the study of pharmacy. Good written and verbal communication skills are important. Students planning to transfer from another college or university should consult with the College of Pharmacy and Allied Health Professions early in their academic careers to plan coursework that will transfer to the College of Pharmacy and Allied Health Professions. For more information, visit the website.

Application Process
All students seeking admission to the 4-year professional program leading to the Doctor of Pharmacy degree must submit an application for the professional program. Applications are available from the College of Pharmacy and Allied Health Professions website. The deadline for applying for admission for the fall semester is February 1. Limitations in the size of the physical facilities, the number of faculty and the number of advanced pharmacy practice experience sites make it necessary to limit the class size in the professional program. Each student admitted into the professional program is required to authorize and pay for a criminal background check. The background check report is automatically sent to the student and to the College and must be approved by the Admissions Committee.

Selection is competitive and based upon several factors including pre-pharmacy coursework, ACT or PCAT scores, written and oral communication skills, knowledge of the profession, residency status and other factors. Any student who anticipates successful completion of the pre-pharmacy requirements prior to fall semester is eligible to apply.

Notification of acceptance into the professional program will be made by March 15. Students admitted to the professional program must submit a non-refundable deposit to secure their position for the fall semester. That deposit will be applied to student's account in the fall semester.

Curriculum/Plan of Study
The curriculum is divided into a 2-year pre-pharmacy and a 4-year professional program phase. The pre-pharmacy courses provide a solid knowledge base and ability to use critical thought processes in the biological and physical sciences.

The four years of the professional program incorporate a solid foundation of pharmaceutical science courses as well as a comprehensive sequence of therapeutics and professional practice courses. Students earn a B.S. in Pharmaceutical Sciences after successful completion of the first two years of the professional program. The application of drug knowledge, basic science, and critical thinking to resolve problems of drug distribution and patient care are emphasized throughout the curriculum. In their first three years of the program, students gain initial practice experience through introductory pharmacy practice experiences in settings such as community and hospital pharmacies. In the final year of the program, students have an opportunity to apply knowledge and pharmacy care principles to pharmacy practice situations in a series of advanced pharmacy practice experiences in a variety of patient care settings which include patient care areas of hospitals, nursing homes, community pharmacies, hospital pharmacies, Indian Health Service facilities and clinic pharmacies.

College of Pharmacy & Allied Health Professions Regulations
Students in the College of Pharmacy and Allied Health Professions are governed by the regulations which apply to all students at SDSU but are also governed by requirements established by the College. These requirements are presented in detail in the Pharmacy Student Handbook and include:

Progression
Progression standards for students in the Pharm.D. program are set to assure graduates are prepared to provide pharmacy services to the public. The integrated curriculum relies on information and skills garnered in previous courses and therefore, students' success depends on achieving a minimum level of performance in each course. Minimum level of performance is defined as a grade of C or better based on University Catalog grade definitions. A grade of D is defined in terms of "insufficient" and "inadequate" according to the University Catalog. A grade of F is defined in terms of "failure." D, F, and U (unsatisfactory) grades do not represent a minimum level of performance need to develop skills, abilities, and knowledge of a general practitioner.

Refused Status
A student will be placed on refused status if the student:

a. Earns a D, F, or U in a pharmacy course.

b. Does not complete the Pharm.D. program within six years of starting the professional program.

Class Standing Requirements
Standing - In order for students to enroll in the fall semester of the pharmacy program, students must meet the class standing requirement. These are defined as follows (note: "completion" means a passing grade in each pharmacy course and maintaining semester and cumulative PHA GPA requirements):

- P1 Year Standing - The student must have been admitted into the professional program.
- P2 Year Standing - Completion of all PHA 300 level required courses and PHA 119/101 and PHA 219.
- P3 Year Standing - Completion of all PHA 400 level required courses, PHA 610, a bachelor's degree, and all capstone activities are required to begin the fall semester. Completion of all required PHA 700, non-advanced pharmacy practice experience courses are required to progress to the subsequent semester.
- P4 Year Standing - Completion of all PHA 600-700 level required, non-advanced pharmacy practice experience courses, and 300 hours of IPPE.
Doctor of Philosophy Degree Requirements

Admission Requirements 42
Advisory Committee 42
Plan of Study/Credit Requirements 42
Examinations 42
Dissertation 43
Credit Sharing between Graduate Credentials 43
Time Limitation 43
Doctor of Philosophy Checklist 43
Admission Requirements

The application must include the application fee, all post-secondary transcripts, degree certificates, and other materials as required by specific programs before processing of the application will begin. A completed application must be submitted by April 15 for consideration for fall admission and by October 15 for consideration for spring admission. **Students should check with their specific program of interest as some programs have earlier deadlines.** Applicants for the Doctor of Philosophy degree, 60-credit plan, must have a Master's degree. This degree must be awarded from an approved, accredited institution. In those cases where applicants do not have a Master's degree, departmental requirements will apply, either requiring completion of a Master's degree or permitting an individual to move directly into a doctoral program, 90-credit plan. Domestic, international or non-degree seeking students may submit an application online.

Advisory Committee

All graduate students are required to have a major advisor. As soon as possible, but no later than the completion of fifty (50) percent of the credits toward graduation, the student will request to the major advisor and Dean of the Graduate School (by submission of the committee approval request form) members of an advisory committee. The advisory committee must be composed of a minimum of four (4) members. The committee must include:

- **Committee Chair** – must hold full graduate faculty status at SDSU. This member assists the student in developing a suitable graduate program, provides continuing guidance and counsel, evaluates student progress, informs the student as to who will provide primary research supervision, serves as a contact for the committee and ensures the completion of the degree requirements to the Dean of the Graduate School.

- **Two (2) additional members with expertise within the discipline** – must hold either full graduate faculty or associate graduate faculty status at SDSU. Additional members assist the student in developing a suitable graduate program, provide continuing guidance and counsel, evaluate student progress, and assist with the completion of the degree requirements. Additional members may serve as co-chairs.

- **Graduate Faculty Representative** – selected by the Dean of the Graduate School from within a distant, broadly-defined discipline. This member represents the Graduate Council to ensure the supervision of the student is carried out with sufficient integrity. This member ensures that minimal academic standards are maintained and acts as an advocate and counselor for the student. For votes regarding the final oral defense, the graduate faculty representative must vote in the affirmative for the vote to carry.

Professional doctorate degree holders with full graduate faculty status may only serve as chair for a committee for the degree which they hold. Adjunct faculty members or University employees holding a master's degree who fail to qualify as associate graduate faculty member may serve on graduate student committees. Such committees must contain the minimum number of full/associate graduate faculty in addition to the master's degree holder. A committee may only include one master's degree holder. Addition of the master's degree holder does not alter the maximum number of committee members allowed. The master's degree holder is not considered as having associate graduate faculty status and cannot serve as co-chair.

The advisory committee is responsible for approving the content and scope of comprehensive and final examinations, both written and oral. The committee must evaluate the student's performance for the comprehensive exams and final defense and all other degree requirements taken under the auspices of -898 coursework (including those internal to the program).

All committee members must be available for regular meetings with the student and/or committee. Each committee member has voting privileges. Only committee members may vote on business before the committee. For activities requiring committee votes, the chair must ensure due diligence for accommodating all members of the committee. The graduate faculty representative and all but one (1) of the graduate committee must vote in the affirmative to pass the student. The Department Head is responsible for informing the Graduate School if and when a committee member can no longer fulfill her/his duties consistent with the policies of the University.

Plan of Study/Credit Requirements

After the advisory committee is formed, the major advisor and the student will develop a plan of study and consider a research area for the dissertation. The plan of study must be submitted using the plan of study form and approved by the advisory committee and the Dean of the Graduate School prior to completion of 50 percent of the credits toward graduation. Delay in submitting a plan of study may result in disapproval of courses taken prior to approval and/or registration restrictions. Student cannot take the comprehensive written examination prior to approval of the plan of study. Changes in the approved plan of study must be requested using the change in plan of study form. While devising the plan of study, please refer to specific academic program requirements in the Academic Programs section of the graduate catalog in addition to the following information.

Total Credits Required

A minimum of 90 semester credits (90-credit plan) beyond a bachelor's degree or a minimum of 60 semester credits (60-credit plan) beyond the master's degree are required for the Doctor of Philosophy degree. Where consideration is given to a master's degree, it must be in the area of the program or a related area, be an academic program from an accredited institution, and be declared at the time the plan of study is submitted. The advisory committee may require more credits if the extra requirements are in the best interest of the student.

Graduate Credit Requirement

Credit applied toward graduate credentials should be at the 500-level and above. At least fifty (50) percent of the credits on a plan of study must be in courses 600-series or above. Please refer to the Graduate Credit Requirements Policy for more information.

Examinations

Annual Evaluation

A formal review of the progress of degree completion, including performance in coursework and completion of dissertation goals should take place annually and be standard in format and timing for all students within a program. The review will include a written evaluation portion, including one opportunity for the student to rebut, followed by a meeting for a discussion. The written portion should take place using a program-standard format and include a synopsis of progress made the previous year, as well as guidance for the upcoming year.

Comprehensive Written & Oral Examinations

Comprehensive examinations are generally administered after coursework on the plan of study has been substantially completed. The comprehensive written examination is followed, upon satisfactory completion, by an oral examination. These examinations are to test the student's breadth of knowledge and his/her ability to integrate this knowledge.
Doctor of Philosophy Checklist

Coursework (excluding dissertation credits) listed on the plan of study and must be certified by the advisory committee. Requirements in the subject matter area and submitt program if validated. Validation is allowed at the discretion of the advisory committee and department involved and can be accomplished by passing validation examinations, and must be completed three (3) weeks prior to the end of the semester in order to graduate.

Final Oral Exam
The student arranges with his/her advisory committee the time and location for the final oral examination. The student will submit the final oral exam form to the Graduate School no less than two (2) weeks prior to the examination date. While the advisory committee determines the character and length of the examination, sufficient time should be devoted to the dissertation, including literature review, to evaluate the ability of the student to defend the research. In addition, questions to test the student's general knowledge, judgment and critical thinking powers are usually asked. The graduate faculty representative and all but one (1) of the graduate committee must vote to pass the student. The final oral examination cannot be taken earlier than three (3) months following successful completion of the comprehensive examinations, and must be completed three (3) weeks prior to the end of the semester in order to graduate.

Remediation Opportunity: Students who fail an academic exercise will be afforded a remediation opportunity. The student should 1) be provided feedback regarding the deficiencies of his/her performance; 2) be provided resources useful to remediate his/her deficiencies; and 3) be allowed an appropriate length of time to prepare for the next attempt.

Dissertation Proposal
The student in consultation with the major advisor and/or dissertation advisor shall prepare a written dissertation proposal for approval by the advisory committee.

Requirements
The dissertation should represent at least one (1) academic year of full-time research (18-30 credits). Of no specific length, the dissertation should advance or modify knowledge in the discipline and demonstrate the candidate's mastery of the subject. The dissertation should meet discipline standards as required by the program.

Dissertation Formatting & Deposition
All dissertations must be submitted to the Graduate School for appropriate format checking and deposition with the library. Instructions are found on the Graduate School website.

Use of Human Subjects or Vertebrate Animals in Research
After receiving approval of the research proposal students must also seek approval for the use of human subjects or vertebrate animals in research, when applicable, from the appropriate committee. These approvals must be secured before beginning the study. For more information, visit the Research Compliance website or contact the SDSU Research Compliance Coordinator in the Office of Research & Sponsored Programs, Morrill Hall 200, Telephone: 605-688-6975.

Credit Sharing between Graduate Credentials
Credit can be used for the satisfaction of more than one graduate credential (graduate certificate, doctoral degree) issued by SDSU and may be paired to share credit. Each graduate credential may be paired with itself or any other graduate credential. For example, a doctoral degree and a graduate certificate may be paired. A doctoral degree using the 60 credit plan may not be paired with a master's degree.

The allowable credit shared between graduate credentials equals the sum of the minimum required credit hours for each credential divided by 6 (six). The maximum allowed is 50% of either credential program. A single graduate certificate may be shared, in entirety, with credits for a doctoral degree. Once a graduate credential participates in a credit pairing, the graduate credential may not be paired with a third credential. Validated credit or course credit with an x898 suffix may not be shared between graduate credentials.

Time Limitation
Obsolete Program
If the Doctor of Philosophy degree is not completed within eight (8) years from the program start date, the request for an extension of the graduate program form must be submitted to the Graduate School. The request will be reviewed and a decision as to whether the student may continue in the program will be made by the Graduate School Dean.

Obsolete Coursework
Courses taken more than eight (8) years before completion of the doctorate are regarded as obsolete coursework. Obsolete courses may be used in the doctoral degree program if validated. Validation is allowed at the discretion of the advisory committee and department involved and can be accomplished by passing validation requirements in the subject matter area and submitting the validation form to the Graduate School. Validated coursework cannot exceed fifty (50) percent of the total coursework (excluding dissertation credits) listed on the plan of study and must be certified by the advisory committee. Course validation may be subject to a processing fee. Only courses taken at SDSU may be validated.

College of Agriculture, Food & Environmental Sciences

John Killefer, South Dakota Corn Utilization Council Endowed Dean
College of Agriculture, Food and Environmental Sciences
Berg Agricultural Hall 131, Box 2207
605-688-4148

Donald M. Marshall, Associate Dean for Academic Programs
Berg Agricultural Hall 156, Box 2207
605-688-5135

The College of Agriculture, Food and Environmental Sciences has a three-fold mission to teach, conduct research, and use extension programs to serve people in South Dakota, the nation, and the world.

In addition to the main campus in Brookings, the West River Ag Center in Rapid City is an outreach facility of the college that supports teaching, research, and extension in the western part of the state. Other locations throughout the state include eight regional extension centers, three Federally Recognized Tribal Extension Program offices, and five research field stations.

Programs

Biological Sciences Program

Master's Degrees
- Biological Sciences (M.S.)
  - Veterinary Microbiology Emphasis
  - Veterinary Pathology Emphasis
- Biological Sciences (M.S.) - Biology Specialization
- Biological Sciences (M.S.) - Dairy Science Specialization
- Biological Sciences (M.S.) - Food Science Specialization
- Biological Sciences (M.S.) - Microbiology Specialization

Doctoral Degrees
- Biological Sciences (Ph.D.)
- Biological Sciences (Ph.D.) - Agricultural and Biosystems Engineering Specialization
- Biological Sciences (Ph.D.) - Biology Specialization
- Biological Sciences (Ph.D.) - Dairy Science Specialization
- Biological Sciences (Ph.D.) - Food Science Specialization
- Biological Sciences (Ph.D.) - Microbiology Specialization
- Biological Sciences (Ph.D.) - Molecular Biology Specialization
- Biological Sciences (Ph.D.) - Plant Molecular Biology Specialization
- Biological Sciences (Ph.D.) - Plant Science Specialization
- Biological Sciences (Ph.D.) - Veterinary Microbiology Specialization
- Biological Sciences (Ph.D.) - Veterinary Pathobiology Specialization

Department of Agronomy, Horticulture, & Plant Science

Master's Degrees
- Plant Science (M.S.)

Doctoral Degrees
- Biological Sciences (Ph.D.) - Plant Molecular Biology Specialization
- Biological Sciences (Ph.D.) - Plant Science Specialization
- Plant Science (Ph.D.)

Department of Animal Science

Master's Degrees
- Animal Science (M.S.)

Doctoral Degrees
- Animal Science (Ph.D.)

Certificates
- Animal Science Certificate

  - Veterinary Pathobiology Specialization
**Biological Sciences Program**

Donald M. Marshall, Associate Dean for Academic Programs  
College of Agriculture, Food and Environmental Sciences  
Berg Agricultural Hall 156, Box 2207  
605-688-5133

The masters and doctoral programs in Biological Sciences allow for considerable latitude in the education and training of students. Students interested in advanced studies in the biological sciences will have the opportunity to tailor a program that meets their interest by selecting courses offered by faculty from the participating departments. While the training of most students is largely directed to a single discipline represented within one of the participating departments, cross-discipline training is available. Generally, identification of a major professor with resources to support the student’s dissertation project is required for unconditional acceptance into the program. Therefore, interested persons should make application for program admission well in advance of the anticipated date of enrollment. Please refer to each departmental section for a listing of the graduate faculty and details regarding the areas of study offered in this program. Inquiries should be made directly to the department representing the discipline of interest.

Department of Agronomy, Horticulture, and Plant Science  
Berg Agricultural Hall 244, Box 2207A  
605-688-5123 or 605-688-4774

The department is committed to graduate education in applied and basic plant sciences, as well as to providing experiences in instruction and grant writing towards producing competitive students well-prepared for careers in the plant sciences.

Graduate training includes classroom instruction, seminars designed to hone oral and written skills, and meaningful experience in laboratory and field research techniques. Departmental diversity encourages collaborations among disciplines and research programs that inform graduate training.

The Department of Agronomy, Horticulture, and Plant Science is an integrated department that includes programs in crop production, plant breeding, entomology, plant pathology, soils, GIS, water management, weed science, and biotechnology. The primary goals of the department are to conduct research in the above areas, to disseminate the research to the public, and to help prepare students for quality lives which includes preparation for an occupation in one or more of the below-mentioned disciplines.

Department of Animal Science

Joseph Cassady, Department Head
Jeff Clapper, Professor/Graduate Coordinator
Department of Animal Science
Animal Science Complex 103A
605-688-5166

The Department of Animal Science offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees in Animal Science, or the Doctor of Philosophy degree in Biological Sciences. Faculty and graduate students are actively involved in basic and/or applied research in the fields of nutrition, reproductive physiology, animal breeding and genetics, meat science, gastrointestinal microbiology and animal production.

The Department is committed to providing graduate students with quality educational and research experiences and preparing them to meet the challenges of a competitive job market upon graduation.

Department of Dairy & Food Science

Vikram Mistry, Department Head
Department of Dairy and Food Science
Alfred Dairy Science Hall 136, Box 2104
605-688-4116

The Dairy and Food Science Department offers graduate programs in Biological Sciences leading to a Master of Science or Doctor of Philosophy degree with specialization in Dairy Science for both Dairy Manufacturing and Dairy Production, and specialization in Food Science. The department is equipped with excellent laboratories; a dairy processing plant which manufactures fluid milk, cheese, butter, ice cream, and other products; and a dairy production research and training facility where a herd of 300 Holstein and Brown Swiss dairy cattle is maintained for teaching and research.

Metabolism and surgical facilities in the Animal Science Complex, and specialized laboratory equipment in Chemistry and Biochemistry, Veterinary & Biomedical Sciences, Health & Nutritional Sciences Departments, and the Edgar S. McFadden Biostress laboratories, are also available. Graduate students accepted into the program will have opportunities to utilize these facilities to develop basic and/or applied research programs in dairy product processing and development, microbiology, chemistry, food safety, dairy cattle nutrition, management, and metabolism, while interacting with well qualified faculty. The Food Science specialties offers research opportunities in analytical methods for nutrient measurement, new food processing methods and carbohydrate chemistry.

The SDSU Dairy and Food Science Department, is an active part of the Midwest Dairy Foods Research Center, which is partially supported by National Dairy Council and Midwest Dairy Association. This provides graduate students in the Dairy Manufacturing area a unique opportunity to be involved with current issues and research needs of the dairy industry.

Department of Natural Resource Management

Michele Dadash, Department Head
Department of Natural Resource Management
Edgar S. McFadden Biostress Laboratory 138, Box 2140B
605-688-6121

The Department of Natural Resource Management provides undergraduate and graduate programs focused on improving the understanding and management of natural resources. The quality of life for many humans is intimately tied to the use and conservation of natural resources. Thus, educational opportunities in natural resource management at SDSU can lead to a diverse array of career opportunities. Departmental faculty and staff conduct research and provide outreach services that contribute to the understanding and management of natural resources on local to global scales.

Graduate Faculty

Jane Christopher-Hennings, Department Head
Christopher Chase, Professor/Graduate Coordinator
Department of Veterinary and Biomedical Sciences
Animal Disease Research and Diagnostic Laboratory 105, Box 2175
605-688-5171

Animal infectious disease and biomedical research in the Department of Veterinary and Biomedical Science offer outstanding students the opportunity to conduct basic and/or applied research at both the M.S. and Ph.D. degree level in infectious disease. Students have the opportunity to conduct research in a variety of disciplines with SDSU scientists while earning advanced degrees in one Biological Science. This program has a unique mission, with the primary focus of the research directed to the mechanisms of infectious diseases of food producing animals following infections with bacteria, viruses or parasites. The program uses multidisciplinary approaches. Cooperating scientists work on biological, biochemical and immunological components of animal disease systems involving the host, environment and pathogen in the areas of molecular virology, molecular biology and recombinant DNA technology, developmental diagnostics, cellular immunology, parasitology, pathogenesis, epidemiology, genetics and physiology.

Jason Zimmerman, Interim Dean
Jason McEntee, Acting Associate Dean
College of Arts, Humanities and Social Sciences
Wagner Hall 251, Box 2275A
605-688-4723

The College of Arts, Humanities and Social Sciences is committed to educational excellence driven by experiential learning. The college serves two significant functions within the University. It provides instruction in the University’s core requirements for a liberal education and fosters innovation and creativity in numerous disciplines. The college offers high-quality programs that prepare students to be skilled industry leaders, public servants, engaged citizens and lifelong learners.

Department of Architecture
Brian Rex, Department Head
Department of Architecture
Architecture, Math and Engineering Building 378, Box 2225
605-688-4841

The department (DoArch) provides an NAAB accredited professional education conceptually defined between two sets of studies—"Building Arts" and "Public Works". Professionalism is in the overlap of responsibility to build and civic responsibility for the built environment. Teaching and scholarship in DoArch is focused on the studio, the shop, the classroom, and regional communities. The core mission of professional education at DoArch is to prepare graduates for careers empowered in a socially responsible and civic profession; fostering collaboration and innovation in issues facing contemporary design practice; and building an academic dialog on a long-standing discipline rooted in material culture, place-making, and graphical inquiry.

Graduate Faculty
Jessica Garcia Fritz, Assistant Professor
Federico Garcia Lammers, Assistant Professor

School of Economics
Joseph M. Santos, Professor/Graduate Program Coordinator
Department of Economics
Harding Hall
605-688-4141

The graduate program in economics prepares students for professions in business and government as well as for advanced studies in economics and finance. The program offers two curriculum options: an economic theory option and an applied business-economics option.

The economic theory option includes courses in advanced microeconomics, macroeconomics, and econometrics; additionally, this option emphasizes applied economic research—students complete a six-credit research thesis. Students
customized their plans of study with elective courses in business economics, agricultural marketing, general economics, and agricultural and resource economics. A number of research and teaching assistantships and scholarships may be available to qualified students enrolled in this curriculum option.

The applied business-economics option includes courses in managerial economics and advanced business decision science. Students customize their plans of study with elective courses in corporate finance, strategic marketing, entrepreneurship, agricultural business and marketing, and strategic business decision analysis. Coursework is offered in flexible formats, including hybrid, evening and weekend courses, which allow students to complete this option in 12 or 24 months, depending on work and other commitments.

The program also offers an accelerated master's degree to qualified undergraduate students who maintain at least a 3.5 GPA in their economics major; these students may begin their graduate studies while they complete their undergraduate degree. Students may apply for admission to the accelerated master's degree program once they have completed 60 undergraduate credits.

**Graduate Faculty**

Sharon Smith, Associate Professor/Graduate Coordinator  
Department of English  
Pugsley Continuing Education Center 301, Box 2218  
605-688-5191

The English department's M.A program prepares students for professional careers or further graduate study by developing their capacities for textual analysis, research, theory, and creative and critical writing. Students in the English M.A. program may choose either the Literature track or the Writing and Rhetoric track. The English department offers instruction in a wide range of specialty areas, including British and American literature, women’s writing, Native American literature, literary theory, rhetoric, composition, creative writing, professional and technical writing, peace and conflict studies, and film studies.

**Graduate Faculty**

Paul Baggett, Associate Professor  
Nicole Flynn, Associate Professor  
Sarah Hernandez, Assistant Professor  
Michael Keller, Professor

**Department of History, Political Science, Philosophy & Religion**

William Prigge, Department Head  
Department of History, Political Science, Philosophy and Religion  
West Hall 109, Box 510  
605-688-4311

The Department of History, Political Science, Philosophy, and Religion complements the vision of South Dakota State University and the College of Arts, Humanities and Social Sciences to be nationally distinctive and locally relevant through faculty teaching, service and scholarship. Departmental faculty efforts support a challenging curriculum which encourages civic participation to perpetuate the values and historic traditions of democracy. Its members encourage and prepare students, through a liberal education, to live in an increasingly interconnected world and to understand and appreciate the human diversity created by cultures, geography and time. The political science faculty engenders an awareness and understanding of global events, while the history faculty identifies the historic background and historical trends that influence these events. The philosophy and religion faculty deal with the fundamental questions of life, the basis of knowledge and morality and practices of the world's many religious traditions. This curriculum is presented in a manner that develops and enhances critical thinking and communication skills to prepare students for meaningful employment, further scholarship and community engagement. These efforts facilitate the achievement of national distinction by the department's majors as scholars and engaged citizens.

The Department of History, Political Science, Philosophy, and Religion offers dual listed, topics, independent study courses on an as needed basis. Occasional courses are offered for teachers needing in-service or continuing education credit. Graduate degrees are not available in these disciplines, but students may use these courses in an approved plan of study.

**Graduate Faculty**

Gregory R. Peterson, Professor  
Dale Potts, Associate Professor  
Charles Vollan, Associate Professor  
Dave Willse, Assistant Professor  
Ewen Willse, Associate Professor  
Graham Wrightson, Assistant Professor

**Programs**  
**Coursework Only**

**Department of Modern Languages & Global Studies**

Christine Garst-Santos, Interim Department Head  
Department of Modern Languages and Global Studies  
Wagner Hall 121, Box 2275  
605-688-5102

The Department of Modern Languages and Global Studies provides proficiency-oriented instruction in second languages, literatures, civilizations and cultures, as well as a variety of courses on Global Studies, in many cases in conjunction with other departments on campus. The Department offers bachelor degrees and minors in French Studies, German, Global Studies, and Spanish, but it does not offer advanced degrees. However, the Department does provide graduate level courses in all its major areas as needed.

The Department provides students the best possible preparation for their future careers in any field. Whether students are taking courses to fulfill a humanities requirement, complete a minor, or obtain a major, they will leave the Department with proficiency in the target language, intercultural competency, and critical thinking skills. In addition, the Department follows a strong tradition of service within the community, the State of South Dakota, and beyond. Faculty in the Department combine strong teaching and service experience with research and scholarship in related disciplines, including cultural and film studies, literature, linguistics, and the scholarship of teaching and learning.
The Department of Psychology complements the vision of South Dakota State University and the College of Arts, Humanities and Social Sciences to be nationally distinctive and locally relevant through faculty teaching, scholarship and service. Departmental faculty members encourage and prepare students for graduate programs and professional careers by providing a sound knowledge base of psychology as a science and recognition of the multiplicity of viewpoints, schools of thought and subdivisions within the field. Faculty efforts support a challenging curriculum for the development of research skills and appreciation, to strengthen core competencies and understanding of discipline-related perspectives, and to foster opportunities for formal internships and practicums. This curriculum is presented in a manner that develops and enhances critical thinking and communication skills to prepare students for meaningful employment, further scholarship, sociocultural and international awareness, and civic involvement and engagement.

Department of Sociology and Rural Studies
Hansen Hall 004
605-688-4132

The Department of Sociology and Rural Studies has a long proud history of service, research and educational excellence at South Dakota State University. In keeping with the Land-grant mission, the department is active in education, research and outreach.

The Department of Sociology and Rural Studies offers several graduate programs including onsite Master's and PhD degree which offers students the opportunity to concentrate in one of three areas of emphasis: Demography, Community and Environment, and Social Justice. Each area offers exciting opportunities for students to work with faculty to develop skills in research, teaching, and applied or public sociology. The M.S. in Sociology - Community Development Specialization is an interdisciplinary, multi-institution online program focused on community development.

The Sociology Department also administers the State Census Data Center, which provides businesses, organizations, news media, and local and county agencies with the latest census and rural life information.

School of Design
Patricia Crawford, Director
School of Design
Grove Hall 101, Box 2802
605-688-4103

The School of Design provides opportunity for students desiring to study architecture, graphic design, interior design, landscape architecture, studio art and/or art education. These disciplines have come together to form a School of Design that provides a unique collaborative environment leading to better-prepared graduates who are professionally qualified to contribute to the vitality and well being of South Dakota and beyond.

School of Design students enroll in courses that explore design thinking, creativity and professional study while enjoying in depth educational experiences leading to professional licensure, stronger portfolios and increased opportunities following graduation.

The School of Design offers courses in animation, art education, art history, ceramics, computer graphics, drawing, film, interactive design, graphic design, painting, printmaking, sculpture and web design. The School does not offer a
graduate level degree in studio art. However, students may enroll in graduate courses provided by the School.

College of Education & Human Sciences

Jill Thorngren, Dean
Jane Hegland, Associate Dean
Matt Vukovich, Associate Dean
College of Education and Human Sciences
Wagner Hall 249, Box 2275A
605-688-6181

The College of Education and Human Sciences enhances human potential and well-being through the integration of:

- exemplary student-centered graduate and undergraduate education that prepares tomorrow's professionals;
- discovery and scholarship that is nationally and internationally recognized for addressing human and community needs; and
- engagement with individuals, families, schools, and communities that transforms knowledge and discovery into meaningful impacts.

Graduates of the College of Education and Human Sciences transform the lives of people around the world every day. They work in diverse work settings which span the healthcare industry, education, business, government, and non-profit or community agencies.

The professional graduate programs in the College of Education and Human Sciences prepares graduates for certification, licensure, and qualification across some of the fastest growing and most sought out careers in the nation and world. Examples include: professional counselors supporting the development of individuals, families, schools, and communities; school administrators who provide leadership in their schools; dietitians who counsel others to establish a healthy or specialized diet; financial counselors working with families to manage their resources; wellness professionals who works across the lifespan to promote good health practices for people of all ages; a gerontology specialist working with the elderly, or an athletic trainer engaging in injury prevention and career. These are but a few of the rewarding, and in demand, careers that EHS graduates pursue. We have successful marketing professionals, business leaders, healthcare professionals, and educators across the nation who reflect our mission of enhancing human potential.

Programs

Department of Consumer Sciences

Master's Degrees
- Human Sciences (M.S.) - Family Financial Planning Specialization
- Human Sciences (M.S.) - Merchandising Specialization

Certificates
- Family Financial Planning Certificate
- Financial and Housing Counseling Certificate
- Merchandising Certificate

Department of Counseling & Human Development

Master's Degrees
- Counseling and Human Resource Development (M.Ed.) - Administration of Student Affairs Specialization
- Counseling and Human Resource Development (M.S.) - Clinical Mental Health Counseling Specialization
- Counseling and Human Resource Development (M.S.) - College Counseling Specialization
- Counseling and Human Resource Development (M.S.) - Marriage and Family Counseling Specialization
- Counseling and Human Resource Development (M.S.) - Rehabilitation and Mental Health Counseling Specialization
- Counseling and Human Resource Development (M.S.) - School Counseling Specialization
- Human Sciences (M.S.) - Developmental Sciences Specialization
- Human Sciences (M.S.) - Family and Community Services Specialization

Department of Health & Nutritional Sciences

Master's Degrees
- Athletic Training (M.S.)
- Dietetics (M.S.)
- Nutrition and Exercise Sciences (M.S.) - Exercise Science Specialization
- Nutrition and Exercise Sciences (M.S.) - Nutritional Sciences Specialization
- Sport and Recreation Administration (M.S.)

Doctoral Degrees
- Nutrition and Exercise Sciences (Ph.D.)

Certificates
- Transdisciplinary Childhood Obesity Prevention Certificate

Department of Teaching, Learning, & Leadership

Master's Degrees
- Agricultural Education (M.S.)
- Curriculum and Instruction (M.Ed.) - Early Childhood Education Specialization
- Curriculum and Instruction (M.Ed.) - Elementary Education Specialization
- Curriculum and Instruction (M.Ed.) - Secondary Education Specialization
- Educational Administration (M.Ed.) - Elementary Education Specialization
- Educational Administration (M.Ed.) - Secondary Education Specialization
- Human Sciences (M.S.) - Developmental Sciences Specialization
- Human Sciences (M.S.) - Family and Consumer Sciences Education Specialization
The Department of Consumer Sciences enhances the quality of life for consumers, with particular emphasis on the sustainable management of resources in a global context. While the department is home to a diverse collection of disciplines, all the programs are professionally based. All academic and extension programs have integrated elements of leadership, management, customer service, and technology. Consumer Sciences strives for high quality dynamic, and innovative teaching, scholarship, and outreach efforts that reflect local, regional, national, and/or global contexts; promoting careers in an ever-changing global marketplace; inspiring critical thinking and theory building; encouraging activities with socially responsible outreach efforts that impact individuals, households, communities, and environments; and celebrating diversity.

Four major themes underpin the Consumer Sciences vision and mission:

- Commerce: Consumer Sciences students learn about design and production processes and consumption patterns and behavior in the global marketplace;
- Creativity: Consumer Sciences students engage in problem-solving activities that produce experiential work within project constraints that is a result of creative collaboration;
- Resource Management: Consumer Sciences students understand the need for prioritization of resources to help consumers and businesses make optimal decisions; and
- Leadership Development: Consumer Sciences students engage in leadership development opportunities.

Graduate Faculty

Axton Betz-Hamilton, Assistant Professor
Cody Christensen, Assistant Professor
Jane Hegland, Associate Dean, Department Head and Professor
Wookjae Heo, Assistant Professor
Xu Li, Assistant Professor
Nancy Lyons, Associate Professor
Kansoon Park, Assistant Professor
Lorna Saboe-Wounded Head, Family Resource Management Field Specialist 3

Programs

Master's Degrees
- Human Sciences (M.S.) - Family Financial Planning Specialization
- Human Sciences (M.S.) - Merchandising Specialization

Certificates
- Family Financial Planning Certificate
- Financial and Housing Counseling Certificate
- Merchandising Certificate
Graduate Faculty
Bradley Bowser, Associate Professor
Moul Dey, Professor
Elizabeth Droke, Associate Professor
Becky Jensen, Instructor
Kendra K. Kattelmann, Department Head and Distinguished Professor
Hungling (Stella) Liu, Assistant Professor
Lacey McCormack, Assistant Professor
Jessica Meendering, Associate Professor

Cydne Perry, Assistant Professor
Trevor Roiger, Assistant Professor
Bryan Romsa, Assistant Professor
Igor Sergeev, Professor
Bonny L. Specker, Professor
Suzanne Stulka, Program Director – Food and Family
Gary Van Guilder, Associate Professor
Mary Beth Zwart, Assistant Professor

Programs

Master's Degrees
- Athletic Training (M.S.)
- Dietetics (M.S.)
- Nutrition and Exercise Sciences (M.S.) - Exercise Science Specialization
- Nutrition and Exercise Sciences (M.S.) - Nutritional Sciences Specialization
- Sport and Recreation Administration (M.S.)

Doctoral Degrees
- Nutrition and Exercise Sciences (Ph.D.)

Certificates
- Transdisciplinary Childhood Obesity Prevention Certificate

Department of Teaching, Learning & Leadership

Jay Trenhaile, Interim Department Head
Katherine Bertolini, Associate Professor/Graduate Coordinator
Department of Teaching, Learning and Leadership
Wenona Hall 108, Box 507
605-688-5039

The Department of Teaching, Learning and Leadership prepares educational professionals to be teachers and educational leaders for the 21st century. The department is committed to preparing highly qualified professionals, creating and sharing new knowledge in our profession, and developing outreach opportunities with stakeholders in the field. The departmental vision includes four overarching themes: Responsiveness, Collaboration, Innovation, and Commitment that guide their teaching, research, and service.

Graduate Faculty
Katherine Bertolini, Associate Professor
Mary Bowne, Associate Professor
Kay Cutler, Professor
Anthony Durr, Assistant Professor
Patrick Hales, Assistant Professor
Jennifer Kampmann, Assistant Professor
Julia Keller, Assistant Professor
Andrew Stremmel, Professor
Peter White, Assistant Professor

Programs

Master's Degrees
- Agricultural Education (M.S.)
- Curriculum and Instruction (M.Ed.) - Early Childhood Education Specialization
- Curriculum and Instruction (M.Ed.) - Elementary Education Specialization
- Curriculum and Instruction (M.Ed.) - Secondary Education Specialization
- Educational Administration (M.Ed.) - Elementary Education Specialization
- Educational Administration (M.Ed.) - Secondary Education Specialization
- Human Sciences (M.S.) - Developmental Sciences Specialization
- Human Sciences (M.S.) - Family and Consumer Sciences Education Specialization
The College of Natural Sciences provides degree programs in natural and physical sciences which are foundational to all professional, applied, and technical fields. A degree in physics explores the physical characteristics and fundamental nature of matter. Chemistry and biochemistry provide an understanding of the physical, structural and catalytic nature of atoms, molecules and macro-molecules. While a degree in the biological sciences ensures a fundamental understanding of all life processes of all the many branches of life. Our graduate programs provides advanced training not only in the chosen discipline but also ensure the graduates have the professional and leadership skills to excel in academe, government or industry.

Programs

**Department of Biology & Microbiology**

**Master's Degrees**
- Biological Sciences (M.S.) - Biology Specialization
- Biological Sciences (M.S.) - Microbiology Specialization
- Human Biology (M.S.)

**Doctoral Degrees**
- Biological Sciences (Ph.D.) - Biology Specialization
- Biological Sciences (Ph.D.) - Microbiology Specialization
- Biological Sciences (Ph.D.) - Molecular Biology Specialization

**Department of Chemistry & Biochemistry**

**Master's Degrees**
- Chemistry (M.S.)
- Chemistry (M.S.) - Chemical Education Specialization

**Doctoral Degrees**
- Biochemistry (Ph.D.)
- Chemistry (Ph.D.)

**Department of Biology & Microbiology**

Graduate degrees available through the Department of Biology and Microbiology are the M.S. and the Ph.D. in Biological Sciences. Students may choose specializations in Biology or Microbiology for the M.S. program, and Biology, Microbiology or Molecular Biology for their Ph.D. program. The M.S. Biological Sciences degree program prepares students for a variety of careers such as teachers, laboratory research assistants, positions with state and federal agencies, and many private industry positions. Some M.S. students choose to pursue a Ph.D. degree after completing their M.S. degree at SDSU. Similar career opportunities also exist for students completing their Ph.D. degree; however, job placement is typically at a higher level. University or college faculty positions generally require a Ph.D. degree. The M.S. in Human Biology provides graduate-level preparation for students for successful admission to professional schools, including those not admitted directly to professional school from an undergraduate program.

Normally at least two years are needed to complete the requirements for the M.S. degree and at least four years (without a prior master's degree) for the Ph.D. degree. For some students, particularly those pursuing a career in secondary school teaching, a M.S. program with a non-thesis research option (Plan B) is available. Additional course work and a research paper are required in lieu of the thesis for the Plan B program. A list of graduate courses in the Biology and Microbiology Department is available in the Graduate Bulletin. Additional courses may be taken in closely related departments, such as Chemistry and Biochemistry, Mathematics and Statistics, Veterinary and Biomedical Sciences, Natural Resource Management, Plant Science, and Animal Science.

**Department of Geography**

**Master's Degrees**
- Geography (M.S.)
- Geography (M.S.) - Geographic Information Sciences Specialization

**Doctoral Degrees**
- Geospatial Science and Engineering (Ph.D.)
- Geospatial Science and Engineering (Ph.D.) - Remote Sensing Engineering Specialization
- Geospatial Science and Engineering (Ph.D.) - Remote Sensing Geography Specialization

**Department of Physics**

**Coursework Only**
- Physics

**Graduate Faculty**

**Master's Degrees**
- Biological Sciences (M.S.) - Biology Specialization
- Biological Sciences (M.S.) - Microbiology Specialization
- Human Biology (M.S.)
The Department of Geography at South Dakota State University offers Bachelor's of Science programs in Geography and Geographic Information Sciences (GISc) and a Master's of Science degree in Geography. A diverse faculty focuses on topical specialties that include environment, geomorphology, soils, land use, hazards, energy use, cultural issues, historical, and political geography. Regional specialties are North America and Europe.

Graduate Faculty
Rasmus Houborg, Assistant Professor
Janet Gritzner, Professor Emeritus
Dapeng Li, Assistant Professor
Thomas Loveland, Adjunct Professor
Darrell E. Napton, Professor
David Roy, Professor
Jamie Spinney, Assistant Professor
Robert Watrel, Interim Department Head and Associate Professor
George W. White, Professor
Xiaoyang Zhang, Professor

Programs
Master's Degrees
- Geography (M.S.)
- Geography (M.S.) - Geographic Information Sciences Specialization

Doctoral Degrees
- Geospatial Science and Engineering (Ph.D.)
- Geospatial Science and Engineering (Ph.D.) - Remote Sensing Engineering Specialization
- Geospatial Science and Engineering (Ph.D.) - Remote Sensing Geography Specialization

Department of Physics
Yung Huh, Interim Department Head
Department of Physics
Daktronics Engineering Hall 255, Box 2222
605-688-5428

The Department of Physics does not offer a graduate degree program. However, the Physics program's coursework supports graduate degrees in a variety of departments in the science and engineering fields.

Graduate Faculty
Larry Browning, Professor
Yung Huh, Interim Department Head and Professor
Parashu Kharel, Assistant Professor
Robert McTaggart, Associate Professor

The mission of the College of Nursing at South Dakota State University is to improve human health and quality of life for people in the state of South Dakota, the region, the nation, and the world. The College strives for excellence in undergraduate and graduate education, research, scholarship, and health services to diverse individuals, communities, and populations across the life span. Faculty, students, and graduates of the College value scholarly activities that expand nursing science, nursing knowledge, and nursing practice and provide leadership in the delivery of nursing and health care for individuals across the life span, in communities and populations. The College engages in strategic and inter-professional partnerships to improve human health and foster diversity in the people and perspectives shaping the discipline.

The mission serves to:
- Recruit and retain students who reflect a qualified, diverse student body.
- Prepare graduates who are internationally competitive, globally informed, ethically grounded and socially responsible.
- Provide an environment rich in research to improve nursing practice and health care outcomes.
- Provide expertise to consumers, health care professionals and health systems.

**Programs**

**Master's Degrees**
- Nursing (M.S.) - Clinical Nurse Leader Specialization
- Nursing (M.S.) - Family Nurse Practitioner Specialization
- Nursing (M.S.) - Nurse Administrator Specialization
- Nursing (M.S.) - Nurse Educator Specialization

**Doctoral Degrees**
- Nursing (Ph.D.)

**Professional Doctoral Degrees**
- Nursing (D.N.P.) (Post Master's to D.N.P. - NP, CRNA, CNS, and CNM)
- Nursing (D.N.P.) - Family Nurse Practitioner Specialization (Post Master's to D.N.P.)
- Nursing (D.N.P.) - Family Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Family Psychiatric and Mental Health Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Neonatal Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Pediatric Nurse Practitioner Specialization (B.S. to D.N.P.)

**Certificates**
- Post-Graduate Clinical Nurse Leader Certificate
- Post-Graduate Family Nurse Practitioner Certificate
- Post-Graduate Nurse Educator Certificate

**Department of Graduate Nursing**

Mary Minton, Associate Dean for Graduate Nursing
Wagner Hall 225, Box 2275
605-688-5178 or 1-888-216-9806 Ext. 2

Graduate nursing education is crucial for role preparation in advanced practice, nursing education, nursing administration, nursing leadership, and research. Collectively, these roles meet the growing needs of the healthcare and academic settings. The Department of Graduate Nursing offers a variety of degrees, specializations, and curriculum plans.

Students can earn a Master's of Science (M.S.) degree in four specializations: Family Nurse Practitioner, Nurse Educator, Nurse Administrator, and Clinical Nurse Leader.

For students with a previous Master's degree, three post-graduate certificate options are available: Clinical Nurse Leader, Family Nurse Practitioner, and Nurse Educator.

Graduate options continue in the doctoral programs. The Doctor of Nursing Practice degree will prepare Advanced Practice Registered Nurses to bring a transformative level of care and leadership to primary care settings in rural and underserved communities. Students can earn a Doctor of Nursing Practice (D.N.P.) with the specialty area of a Family Nurse Practitioner, Neonatal Nurse Practitioner, Pediatric Nurse Practitioner, or Family Psychiatric and Mental Health Nurse Practitioner. Dependent on the specialty, students may enter these programs with either a Bachelor's or a Master's degree in nursing.

Established in 2005, the Doctor of Philosophy in Nursing prepares nurse scientists to assume roles as healthcare researchers, faculty, and healthcare administrators with an emphasis on health promotion and disease prevention in underserved and rural populations. The Ph.D. program educates nurse scientists in academic, research, practice, and policy roles to address healthcare issues in urban, rural, frontier, and reservation areas.

**Graduate Faculty**

Alham Abuaatiq, Assistant Professor
Debra Anderson, Associate Dean for Research and Associate Professor
Robin Arends, Clinical Assistant Professor
Victoria Britson, Assistant Professor
Robin Brown, Assistant Professor
Linda Burdette, Associate Professor
Paula Carson, Associate Professor
Cynthia Elverson, Associate Professor
Kay Foland, Professor
Nicole Gibson, Clinical Assistant Professor
Margaret Hegge, Distinguished Professor Emerita
Leann Horsley, Assistant Dean for Sioux Falls Nursing and Assistant Professor
Lori Hendrickx, Professor
Barbara Hobbs, Assistant Dean for Rapid City Nursing and Associate Professor
Polly Hulme, Professor
Mary Isaacson, Assistant Professor
Cristina Lammers, Associate Professor
Sheryl Marckstadt, Assistant Professor
Heidi Mennenga, Associate Professor
Mary Minton, Associate Dean for Graduate Nursing and Associate Professor
Mary Lou Mylant, Professor
Mary Kay Nissen, Clinical Associate Professor
Roberta Olson, Interim Dean, Dean and Professor Emerita of Nursing
Christina Plemmons, Assistant Professor
Thomas Stenvig, Associate Professor
Mindy Tinkle, Associate Dean for Undergraduate Nursing and Associate Professor
Lois Tschetter, Assistant Academic Dean for Undergraduate Nursing and Associate Professor
Jo Voss, Associate Professor

Programs

Master's Degrees
- Nursing (M.S.) - Clinical Nurse Leader Specialization
- Nursing (M.S.) - Family Nurse Practitioner Specialization
- Nursing (M.S.) - Nurse Administrator Specialization
- Nursing (M.S.) - Nurse Educator Specialization

Doctoral Degrees
- Nursing (Ph.D.)

Professional Doctoral Degrees
- Nursing (D.N.P.) (Post Master's to D.N.P. - NP, CRNA, CNS, and CNM)
- Nursing (D.N.P.) - Family Nurse Practitioner Specialization (Post Master's to D.N.P.)
- Nursing (D.N.P.) - Family Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Family Psychiatric and Mental Health Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Neonatal Nurse Practitioner Specialization (B.S. to D.N.P.)
- Nursing (D.N.P.) - Pediatric Nurse Practitioner Specialization (B.S. to D.N.P.)

Certificates
- Post-Graduate Clinical Nurse Leader Certificate
- Post-Graduate Family Nurse Practitioner Certificate
- Post-Graduate Nurse Educator Certificate
The South Dakota State University College of Pharmacy and Allied Health Professions is nationally recognized for excellence in preparing students to provide high quality, patient-centered, and population-based pharmacist care. In the area of problem-solving research, the College has great momentum. Research teams led by faculty are making progress on projects that can enhance the health and wellbeing of people around the world. The College's growing research portfolio includes oncology, unique drug delivery systems, addiction to drugs and alcohol, cardiovascular health, dementia, ophthalmic medicine, and new models of pharmacy care.

Programs

Master's Degrees
- Public Health (M.P.H.)

Doctoral Degrees
- Pharmaceutical Sciences (Ph.D.)

Professional Doctoral Degrees
- Pharmacy (Pharm.D.)

Department of Pharmaceutical Sciences

Omathunu Perumal, Department Head
Department of Pharmaceutical Sciences
Avera Health and Science Center 275, Box 2202C
605-688-4745 or 605-688-5598

The department offers a comprehensive Ph.D. program in Pharmaceutical Sciences that prepares graduates for academic, industry, and research careers. Our graduates are well placed in academic, industry, and research institutions in the US and other countries. In addition to receiving national recognition for their research work, the graduate students are also active in various national scientific organizations.

Our highly dedicated faculty members provide quality education and research training in the pharmaceutical sciences. The faculty have been recognized for the use of new teaching methods and technology to enhance student learning. The department has an active research program in cancer, cardiovascular, neuropharmacology, immunology, and eye diseases. The research expertise in the department includes medicinal chemistry, pharmacology, molecular biology, and drug delivery systems.

Graduate Faculty
Wenfeng An, Associate Professor and Markl Faculty Scholar
Gudiseva Chandrasekher, Associate Professor
Hesham Fahmy, Associate Professor
Xiangming Guan, Assistant Dean for Research and Professor
Jayarama Gunaje, Associate Professor
Omathunu Perumal, Department Head and Professor
Shafiqur Rahman, Professor
Joshua Reineke, Assistant Professor
Teresa Seefeldt, Associate Professor
Hemachand Tummala, Associate Professor

Kimberly Messerschmidt, Professor
Jane Mort, Dean and Professor

Programs

Professional Doctoral Degrees
- Pharmacy (Pharm.D.)
The South Dakota State University Graduate School advances post-baccalaureate education to meet the economic, technological and societal needs of South Dakota and beyond, supports graduate student success, and fosters innovation and diversity in graduate education and scholarship.

The Graduate School supports post-baccalaureate education at SDSU by promoting programs for student recruitment, setting and adhering to admission standards, and defining and maintaining rigorous academic standards for graduate programs. Administrative support is provided to departments and colleges seeking to improve existing courses as well as development of new programs. The Graduate School seeks academic balance through enhancement of graduate research and scholarly works, promotion of human diversity among the graduate student body and graduate faculty, and engagement with the graduate faculty to achieve the highest level of academic education.

**Graduate Faculty**

Kinchel C. Doerner, Dean of the Graduate School/Professor
Engineering programs have been a vital part of SDSU since 1881, and graduates of the Jerome J. Lohr College of Engineering have extended the bounds of science and improved our way of life in many ways. The College has a rich history and long tradition of providing outstanding graduates who are well prepared for exciting careers in engineering, mathematics, science, and technology. The six academic departments of the College offer a broad range of programs, each with its unique features that ensure the student of both depth and breadth in their field of study. The mission of the College is to provide a rigorous, practical education for our students oriented toward problem solving; to conduct world-class research with a regional emphasis; and to provide technical assistance to existing and emerging business, industry, and government.

**Programs**

**Jerome J. Lohr College of Engineering**

**Master's Degrees**
- Engineering (M.Eng.)

**Doctoral Degrees**

Department of Civil & Environmental Engineering

Nadim Wehbe, Department Head
Suzette Burchard, Professor /Graduate Coordinator
Department of Civil and Environmental Engineering
Crotthers Engineering Hall 120, Box 2219
605-688-5427

Civil Engineering includes design, construction, and operation and maintenance of highways, airports, buildings, bridges, dams, water supply and distribution systems, waste water collection systems and treatment plants, irrigation and drainage systems, river and harbor improvements and many other infrastructure facilities essential in modern life. Civil Engineers are custodians of the built environment and are responsible for all aspects of the world's infrastructure. The Civil and Environmental Engineering Department's mission is to provide a highly respected, rigorous, practical education for our students, oriented toward problem solving through the integration of education, research and lifelong learning.

Graduate Faculty
Suzette Burchard, Professor

•Electrical Engineering (Ph.D.)

Department of Mathematics & Statistics

Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

The SDSU Department of Mathematics and Statistics is a large, diverse, and active organization. The department's mission is to provide excellent instruction, conduct high-quality research and scholarly activity, and prepare graduates and provide mathematical and statistical services that are both regionally relevant and internationally competitive.

The SDSU Department of Mathematics and Statistics offers the M.S. in Mathematics, the M.S. in Statistics, the M.S. in Data Science, and the Ph.D. in Computational Science and Statistics. All four programs offer students the opportunity to pursue graduate studies in a collegial environment with high faculty-student interaction and research activity, and are particularly effective at preparing graduates to work in business, industry, or government as well as the more traditional area of higher education.

Graduate Faculty
Ross Abraham, Professor
Matthew Biesecker, Associate Professor
Thomas Brandenburger, Associate Professor
Kurt D. Cogswell, Department Head and Professor
Gemechis Djira, Associate Professor
Donna Flint, Professor
Xijin Ge, Associate Professor
Gary Hatfield, Associate Professor
Daniel Kemp, Professor
Jung-Han Kim, Associate Professor
The Department of Mechanical Engineering offers programs of study leading to the Bachelor of Science (B.S.) and Master of Science (M.S.) degrees in Mechanical Engineering, as well as a minor in Sustainable Energy Systems. A Ph.D. in Agricultural, Biosystems, and Mechanical Engineering (ABME) is also offered. The department is focused on developing students' problem-solving talents, built upon a solid understanding of the scientific and mathematical principles that guide engineers. The faculty members are dedicated to providing a challenging and effective learning environment. They continue to build upon their considerable expertise through engineering research and practice.

The mission of the Department of Mechanical Engineering, in support of the mission of the College of Engineering, is to provide a highly respected, rigorous, and practical professional education for Mechanical Engineering students oriented toward applied problem solving; to conduct meaningful research which broadens the base of engineering and scientific knowledge with a regional emphasis; and to provide technical assistance to existing and emerging businesses, industry and government.

**Graduate Faculty**
Kurt Bassett, Department Head and Professor

Professional Licensure & Certification 68
Non-Credit Programs 69
The Office of Continuing and Distance Education works to broaden the reach of SDSU, with a commitment to providing quality education no matter where students reside. The office serves students on campus and across the globe. In addition to online education, the Office of Continuing and Distance Education coordinates the program offerings at several off-campus locations. The University Centers effectively extend the reach of SDSU by offering the same quality education to students who want to earn their degree while living and working in their home community.

**Outreach Mission**

South Dakota State University has a long tradition of, and responsibility for, delivering a variety of outreach efforts to locations around the world. These include educational services to University Center – Sioux Falls, Black Hills State University – Rapid City, the Capital University Center in Pierre (CUC), and numerous other distance education classes, workshops and services.

The Office of Continuing and Distance Education provides coordination and support for off-campus educational programs and serves as a conduit for the University's service mission to citizens of South Dakota, the region and world. Outreach Programs are designed to deliver both state- and self-support education through on-site or online education credit courses, non-credit conferences, short courses and workshops.

**Academic Credit Programs**

Academic standards and policies governing off-campus and technology delivered courses are identical to the on-campus instructional program. Hence, credit course offerings, instruction and academic standards are the responsibilities of the Vice President for Academic Affairs, Deans of the colleges and department heads. There are outreach locations throughout South Dakota where credit courses are presented each semester and many courses are available by distance education. Additional locations are added as needed.

**Online Education**

South Dakota State University offers undergraduate and graduate courses and programs online. SDSU offers Internet-based courses and programs for students needing a more flexible schedule, yet a rigorous and quality educational experience. Online courses are taught by the same SDSU faculty and are similar to on-campus courses in quality and rigor. Students receive the same credit for completing an online course as they would for an on-campus course. Based upon more than 80 years of effective off-campus education, SDSU is committed to serving:

- Working adults
- Part-time students
- Time- and place-bound individuals
- K-12 students, teachers and administrators
- Employees seeking career development skills
- Government and military personnel
- Persons with disabilities

Every year, several thousand students enroll in the 24 degree programs, 9 certificate programs and 250+ courses that SDSU offers online.

For more information regarding SDSU’s online education opportunities call toll free at 866-827-3198, or go to the Continuing and Distance Education website.

**Summer Term**

SDSU offers a wide range of courses on and off-campus to continue your studies during the summer months as well as numerous special workshops, short courses, distance education classes, evening offerings and non-credit programs. Summer programming is offered May through August and is characterized by innovation and responsiveness to your needs. Classes are comfortably sized, and time is available for individual attention from the faculty member. Participants need not be regularly matriculated at SDSU but may be admitted as special students.

**University Centers**

SDSU, in partnership with the other SD Board of Regents institutions, offers advising and support services, courses and programs at three university centers across South Dakota: Black Hills State University – Rapid City, Capital University Center (CUC) – Pierre and University Center – Sioux Falls. For more information regarding offerings at the university centers, please visit the Continuing and Distance Education website.

**State Authorization**

Colleges and universities who market to, recruit and offer educational activities to out-of-state students must understand and follow the laws and regulations set forth in those states. Authorization may be required for SDSU to serve and reach students in states outside of South Dakota. SDSU is determined to comply with all state regulations and will apply for authorization, when necessary, from those states where it conducts activities such as delivery of online courses, placement for field experiences (internships, clinicals, practicums, etc.) academic and athletic recruiting, marketing, etc.

SDSU participates in the National Council of State Authorization Reciprocity Agreement (NC-SARA). South Dakota became a SARA state in November, 2014 and SDSU became a SARA member institution in March, 2015. This membership provides SDSU the authorization to provide educational activities within other SARA states without further authorization. For further state authorization and complaint process information, please visit the Continuing and Distance Education website.

**Professional Licensure & Certification**

South Dakota State University offers a variety of courses and programs online and is committed to providing a quality education to help you reach your professional goals. Some professions require certification or licensure to practice/work in the field; for instance, a student must hold a teacher certification to teach or a nurse must be licensed to work in a hospital. The curriculum for a number of degree programs at South Dakota State University have been designed to meet the licensure/certification requirements in South Dakota, and prepare students to sit for licensure exams in South Dakota. The various licensure boards in each state are responsible for setting requirements for licensure/certification in their state and distance students with intent of returning or moving to any state other than South Dakota should be aware of the unique requirements for that state.

Students seeking to establish licensure outside the state of South Dakota can find information pertaining to the licensure requirements in their state on the Continuing and Distance Education Professional Licensure and Certification website. You are encouraged to engage with an academic advisor prior to beginning any online
academic program that would lead to licensure, to best understand the licensure program in your intended state of residence. Assistance will be provided to candidates by contacting the appropriate program advisor.

**Non-Credit Programs**

The Office of Continuing and Distance Education provides opportunities for individuals to participate in professional development and personal enrichment activities throughout the year. Continuing and Distance Education can authorize Continuing Education Units (CEUs), and offers tax update workshops and partners with Osher Lifelong Learning Institute (OLLI), the Institute of Reading Development, and the International Institute for Learning, Inc. (ILL) to offer short-term, non-credit classes.

**CAPM EDGE Project Management Training**

Through a partnership with the International Institute of Learning, SDSU is able to offer an on-demand, self-paced course in project management. This course fulfills the 24 hours of course content required to sit for the Certified Association in Project Management exam.

**Event & Conference Planning**

Thinking about bringing an academic conference or meeting to SDSU? With the help of the office of Continuing and Distance Education, your event will be taken to a whole new level. From room bookings and venue options to registrations and check-ins, your events are managed with ease.

**Osher Lifelong Learning Institute (OLLI)**

South Dakota State University has collaborated with Osher Lifelong Learning Institute (OLLI) at University Center – Sioux Falls to provide the residents of Brookings, SD and surrounding area the ability to participate in this lifelong learning opportunity.

The Osher Lifelong Learning Institute at the University Center (OLLI) is a non-profit membership-based organization that seeks to provide intellectually stimulating lifelong learning and personal growth opportunities for people fifty (50) and older. OLLI exemplifies the University’s commitment to community service though is collaborative work with the partner institutions, academic and professional groups, and organizations devoted to engaging the minds and fostering the well-being of adults. With OLLI, there are no grades, no tests and no pressure, just the joy of learning.

**Professional Development & Continuing Education Units**

Today's workforce needs constant and current information to keep up-to-date with industry and association certifications. Continuing Education Units (CEUs) offer flexibility in delivery and fulfilling certification requirements. Contact the Office of Continuing and Distance Education at 605-688-4154 or e-mail to learn more about offering CEUs at your next conference.

**Reading Development**

Offered through the Institute of Reading Development, SDSU extends summer reading programs to student and adults alike. Programs targeted towards K-12 students help with reading comprehension, phonics and word association. Adult and advance student courses focus on comprehension and increasing speed. K-12 programs are offered face-to-face in Sioux Falls and online across the state. Adult courses are offered on campus during the fall semester. Courses are a supplement to reading education and do not count for academic credit.

**Tax Update Workshops**

For more than 40 years, SDSU Continuing and Distance Education has been the trusted provider of continuing education programs for tax preparers in South Dakota and beyond. The daylong seminar, taught by experienced professionals and IRS liaisons, qualifies for CPE, IRS, South Dakota Real Estate Commission and Iowa Bar certification hours. The seminar is held one day each in Yankton, Rapid City, Pierre, Watertown, Aberdeen, Mitchell, and twice in Sioux Falls.

**Graduate Programs at SDSU**

The Graduate School supports post-baccalaureate education at SDSU by promoting programs for student recruitment, setting and adhering to admission standards, and defining and maintaining rigorous academic standards for graduate programs. Administrative support is provided to departments and colleges delivering master's, doctoral, and professional programs, as well as graduate certificates. The information below provides links to major programs and specializations.

### Master's Degrees
- Master of Architecture (M.Arch.)
- Master of Arts (M.A.)
- Master of Education (M.Ed.)
- Master of Engineering (M.Eng.)
- Master of Mass Communication (M.M.C.)
- Master of Public Health (M.P.H.)
- Master of Science (M.S.)

### Doctoral Ph.D. & Professional Programs
- Doctor of Nursing Practice (D.N.P.)
- Doctor of Pharmacy (Pharm.D.)
- Doctor of Philosophy (Ph.D.)

### Graduate Certificates

Master's Degrees

Agricultural & Biosystems Engineering (M.S.)

Program Coordinator/Contact
Kasiviswanathan Muthukumarappan, Distinguished Professor/Graduate Coordinator
Department of Agricultural and Biosystems Engineering
Agricultural Engineering 107, Box 2120
605-688-5661

Program Information
Graduate work in the Department of Agricultural and Biosystems Engineering leads to Master of Science in Agricultural and Biosystems Engineering, Doctor of Philosophy in Agricultural, Biosystems and Mechanical Engineering, and Doctor of Philosophy in Biological Sciences degrees.

Students who undertake graduate studies in Agricultural and Biosystems Engineering normally have as their goal a better understanding of the current theories, principles, issues, and problems in agricultural, environmental and biological systems. Graduate studies improve the student's ability to think critically and creatively, and to synthesize, analyze, and integrate ideas for decision-making and problem solving.

The department offers students an opportunity to undertake research and advanced study in specialization areas such as food and biomaterial processing, physical properties of biological materials, natural resource engineering, structures, indoor environment, waste management and machine design.

Course Delivery Format
The program engages students in lecture, laboratory, and in hands-on, field-based learning experiences.

Facilities and Services
The Agricultural and Biosystems Engineering Department is housed in the Agricultural Engineering Building. The entire building is dedicated to undergraduate and graduate instruction, research, and outreach projects that support the engineering needs of production agriculture, natural resource conservation, and value-added processing of the food and fiber produced in the region and nationally. Additional research and outreach projects take place at multiple field locations in the region. There are almost 17,000 square feet of space dedicated to industry-sponsored student design projects and cutting edge research, including a full fabrication shop and a computer lab to support these efforts. The department is also home to the South Dakota Water Resources Institute (SDWRI), dedicated to the proper stewardship of the state's water resources.

Student Engagement and Support Opportunities
Many students participate in activities such as internships and research projects. Other ABE opportunities are available via our student branch of the American Society of Agricultural and Biological Engineers (ASABE). In addition, engineering opportunities are available via organizations such as Society of Women Engineers, Engineers Without Borders, and others. The most outstanding students are honored by induction into the ABE honorary society of Alpha Epsilon and engineering honor societies such as Tau Beta Pi.

Available Options for Graduate Degrees

<table>
<thead>
<tr>
<th>Master of Science</th>
<th>Option A - Thesis</th>
<th>30 Credit Hours</th>
</tr>

</tr>
</tbody>
</table>

Core Requirements
- ABME 790 - Seminar Credits: 1
- STAT 541 - Statistical Methods II Credits: 3

ABE Electives
Credits: 9
- ABE 544 - Unit Operations of Biological Materials Processing Credits: 4
- ABE 544L - Unit Operations of Biological Materials Processing Laboratory Credits: 0
- ABE 555 - Principles Biological Separation Processing Credits: 3
- ABE 555L - Principles of Biological Separation Processes Laboratory Credits: 0
- ABE 732 - Advanced Hydrology in Agriculture Credits: 2
- ABE 733 - Ground Water Engineering in Agriculture Credits: 3
- ABE 734 - Advanced Irrigation Engineering Credits: 3
- ABE 748 - Bioseparations Credits: 3
- ABE 752 - Theoretical Micro-Climatology Credits: 2
- ABE 754 - Advanced Unit Operations of Food/Biomaterials Processing Credits: 3
- ABE 754L - Advanced Unit Operations of Food/Biomaterials Processing Laboratory Credits: 0
- ABE 763 - Instrumentation Credits: 3
- ABE 763L - Instrumentation Laboratory Credits: 0
- ABE 771 - Graduate Seminar Credits: 1
- Other elective courses from outside the department (such as in Computer Science, Math, Physics or another engineering department or another supporting department) may be used only if: (1) 500-level or higher, (2) they support a coherent plan of study, and (3) they are approved by the Major Advisor and Graduate School.

Select one of the following options

Option A - Thesis
- ABE 798 - Thesis Credits: 1-7 (5-8 credits required)
- Electives Credits: 9-12

Option B - Research/Design Paper
- ABE 788 - Master's Research Problems/Projects Credits: 1-2 (2-3 credits required)
- Electives Credits: 16-17

Total Required Credits: 30 (Option A), 32 (Option B)

Additional Admission Requirements
- GRE: Not required
- TOEFL: Score of 550 paper-based, 79 Internet-based
- IELTS: 5.5

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Agricultural Education (M.S.)

Program Coordinator/Contact
P. Troy White, Assistant Professor
Department of Teaching, Learning, and Leadership
Wenona Hall 106
605-688-4546

Program Information
The Master's degree in Agricultural Education is designed to meet the needs of individuals who work (or plan to work) in agricultural education, non-profit organizations, post-secondary education or in agriculture leadership. The department of Teaching, Learning, and Leadership provides professional preparation for those who want to expand their knowledge and advance themselves professionally in the agricultural industry.

Students are able to choose from either a program in which only coursework is required or a program in which they must complete a research project or creative component. If a student elects to completed a thesis (Plan A) the program will include 30 credit hours. If a student elects to complete a creative component (Plan B), the student must complete a minimum of 32 credit hours in order to graduate. If a full coursework option is selected (Plan C), the student must complete a minimum of 36 credit hours.

Accreditation, Certification, Licensure
This program can lead to alternative certification in agricultural education at the secondary level in South Dakota.

Course Delivery Format
The program can be completed online through the Brookings Campus. Some course offerings will be available face to face.

Core Requirements
- AGED 650 - Foundations of Agricultural Education Credits: 3
- EDER 610 - Introduction to Research Credits: 3
- EDER 614 - Advanced Educational Research Design and Analysis Credits: 3
- EDFN 600 - Advanced Pedagogy Credits: 3
- EPSY 740 - Advanced Educational Psychology Credits: 3

Select one of the following options

Option A - Thesis
- AGED 798 - Thesis Credits: 1-7 (5-7 credits required)
- Electives Credits: 8-10

Option B - Research/Design Paper
- AGED 788 - Research Problems in Agricultural Education Credits: 1-7 (3 credits required)
- Electives Credits: 14

Option C - Coursework Only
- Electives Credits: 21

Total Required Credits: 30 (Option A), 32 (Option B), 36 (Option C)

Additional Admission Requirements
- GRE: Not required
- TOEFL: 525 paper-based, 71 Internet-based or higher
- IELTS: 5.5

Applicants must provide a resume, goal statement, and two professional letters of reference as part of the application process.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Animal Science (M.S.)

Program Coordinator/Contact
Jeff Clapper, Professor
Department of Animal Science
Animal Science Complex 103A
605-688-5166

Program Information
The Department of Animal Science offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees in Animal Science, or the Doctor of Philosophy degree in Biological Sciences. Faculty and graduate students are actively involved in basic and/or applied research in the fields of nutrition, reproductive physiology, animal breeding and genetics, meat science, gastrointestinal microbiology and animal production.

With the multi-disciplinary approaches towards production efficiency, product enhancement, and basic science graduate students gain strong skill sets. The graduate programs are administered in collaboration with the Departments of Animal Science, Dairy Science, Veterinary and Biomedical Sciences, and Agricultural and Biosystems Engineering. The Department is committed to providing graduate students with quality educational and research experiences and preparing them to meet the challenges of a competitive job market upon graduation.

This program allows for considerable latitude in the education and training of students. Identification of a major professor with resources to support the student's thesis project is required for unconditional acceptance into the program. An advisory committee will be formed for each student. The advisory committee will work with the student to design a unique and individualized plan of study to meet the interests and needs of the student. While the training of most students is largely directed to a single discipline represented within one of the participating departments, cross-discipline training is available and encouraged.

Course Delivery Format
Program coursework is available on campus, in classroom and laboratory settings, as well as field-based settings.

Facilities and Services
Training and experience in research methods are among the most important facets of a well-rounded graduate student education. Excellent facilities and large herds and flocks of livestock are available for Animal Science research at South Dakota State University. Modern research facilities, including state-of-the-art facilities for cow-calf management and ruminant nutrition, along with new swine education and research facilities, both on-site and off-site, were completed in 2016.

Student Engagement and Support Opportunities
The Department conducts cutting edge research that creates opportunities for graduate students. Qualified students may apply for a Graduate Research Assistant position and the Darwin Britzman Graduate Assistant Scholarship.

Available Options for Graduate Degrees

Master of Science | Option A - Thesis | 30 Credit Hours

Core Requirements
- AS 790 - Seminar Credits: 1

Select from the following courses
12-14 credits of discipline specific courses are required for a total requirement of 30 credits.
- AS 711 - Ruminology Credits: 3
- AS 712 - Ruminant Nutrition Credits: 3
- AS 720 - Advanced Selection of Domestic Animals Credits: 3
- AS 730 - Endocrinology Credits: 3
- AS 732 - Advanced Physiology of Reproduction Credits: 3
- AS 734 - Protein and Energy Nutrition Credits: 3
- AS 736 - Monogastric Nutrition Credits: 3
- AS 740 - Metabolism Credits: 3
- AS 750 - Animal Growth and Development Credits: 3
- AS 753 - Research Topics in Meat Science Credits: 3
- DS 731 - Laboratory Techniques in Dairy Science Credits: 3
- PS 756 - Quantitative Genetics Credits: 3
- STAT 541 - Statistical Methods II Credits: 3
- STAT 661 - Design of Experiments I Credits: 3
- VET 576 - Advanced Mammalian Physiology Credits: 4

Total Required Credits: 30 (Option A)

Notes
- Develop a Plan of Study no later than the end of the first semester of study.
- The Advisory Committee will work with the student to select the discipline specific courses intended to prepare the student in their emphasis area.
- Develop a research proposal no later than the end of the first semester.

Additional Admission Requirements
- GRE: Not required
- TOEFL: required score of 550 paper-based, 79-80 Internet-based
- IELTS: 6.0

Two letters of reference, a letter of interest and intent, and a resume.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
Athletic Training (M.S.)

Program Coordinator/Contact
Trevor Roiger, Assistant Professor
Department of Health and Nutritional Sciences
Wagner Hall 135, Box 2275A
605-688-5824

Program Information
The South Dakota State University Master of Science in Athletic Training (AT) program aspires to prepare engaged practitioners and contemporary leaders of athletic training. Through the cultivation of a learning environment implementing innovative and best practice pedagogies, the program exists to challenge students to become reflective, professional, and ethical practitioners dedicated to improving patients' quality of life. The overall goals of the program are to provide students with knowledge and experiences which improve the depth and breadth of professional competency in athletic training, enhance written and oral communication abilities, and promote an appreciation for the ways research can inform practice, and/or prepare students for advanced study in the field.

The Master of Science in Athletic Training prepares students for entry into clinical practice as licensed athletic trainers. The program is two years in length and includes a blend of coursework and clinical experiences completed under the supervision of preceptors who are appropriately credentialed health care professionals. Clinical experiences will include working with a variety of patients in high schools, colleges/universities, sports medicine clinics, and medical and rehabilitation clinics. Upon successful completion of the curriculum, students will be eligible to challenge the national certifying examination for athletic trainers through the Board of Certification (BOC).

Each year the Master of Science in AT program admits (1) new cohort of students who begin their plan of study during the summer term. Admission to the program is on a competitive basis. For initial consideration, students must be admitted into Graduate School at SDSU. To complete their eligibility for admission, candidates must also complete a secondary selective admissions application specifically for the AT program.

Academic Requirements
Students enrolled in the Athletic Training program must pay for a background check before they can be placed at any of the clinical sites. Approximate cost of the background check is $75.00.

Accreditation, Certification, and Licensure
Upon completion of the program, students are eligible to challenge the national certifying examination for athletic trainers through the Board of Certification. The Master of Science in Athletic Training at South Dakota State University was awarded initial accreditation by the Commission on Accreditation of Athletic Training Education (CAATE) in August, 2008. As a professional degree program, it is not designed for individuals who already have a degree in Athletic Training or are eligible for certification in Athletic Training.

Course Delivery Format
The program consists of lecture, laboratory, and clinical experience learning opportunities.

Student Support and Engagement Opportunities
The Department of Health and Nutritional Sciences aims to provide premier academic programs and high-quality services to students. A limited number of research and teaching assistantships and scholarships may be available to qualified graduate students.

Available Options for Graduate Degrees
Master of Science Option A - Thesis 60 Credit Hours
Option B - Research/Design Paper 57 Credit Hours

Core Requirements
- AT 600 - Introduction to Patient Management Credits: 2
- AT 610 - Interventions I Credits: 3
- AT 611 - Prophylactic Interventions Credits: 1
- AT 651 - Clinical Experience I Credits: 1
- AT 652 - Clinical Experience II Credits: 1
- AT 722 - Patient Examination and Treatment I Credits: 6
- AT 725 - Principles of Acute Care in Athletic Training Credits: 3
- AT 725L - Principles of Acute Care Lab Credits: 0
- AT 732 - Patient Examination and Treatment II Credits: 6
- AT 735 - Health Care Administration for Athletic Training Credits: 2
- AT 740 - Functional Movement Credits: 3
- AT 740L - Functional Movement Lab Credits: 0
- AT 742 - General Medical Examination Credits: 3
- AT 753 - Clinical Experience III Credits: 2
- AT 754 - Clinical Experience IV Credits: 2
- AT 755 - Clinical Experience V Credits: 5
- AT 756 - Clinical Experience VI Credits: 5

Athletic Training (M.Arch.)

Program Coordinator/Contact
Brian Rex, Department Head
Department of Architecture
Architecture, Math and Engineering Building 378, Box 2225
605-688-4841

Program Information
The Master of Architecture (M.Arch.) program prepares professional leaders with specialized knowledge and skills to meet the nation's needs in design, build, and education. The aim of the program is to prepare architecture majors to practice in a full range of contexts and settings.

The Master of Architecture degree is comprised of a 48 credit hour, four semester graduate curriculum which rounds out the department's seven semester NAAB accreditation candidate professional program. (See department website (www.sdstate.edu/arch/) for NAAB Professional Program details.)

Course Delivery Format
The curriculum is interactive, haptic and performance based, offering problem solving experiences in all major areas of professional practice.

Available Options for Graduate Degrees
Master of Architecture Option C - Coursework Only 48 Credit Hours

Core Requirements
- ARCH 521 - Media Tech VI Credits: 2
- ARCH 522 - Media Tech VII Credits: 2
- ARCH 551 - Architecture Studio IV Credits: 6
- ARCH 552 - Comprehensive Building Design Credits: 6
- ARCH 561 - Shop Credits: 2
- ARCH 571 - Architectural Practice I Credits: 2
- ARCH 572 - Architectural Practice II Credits: 2
- ARCH 631 - Building Technology II Credits: 2
- ARCH 632 - Building Technology III Credits: 2
- ARCH 651 - Professional Design Practice I Credits: 6
- ARCH 652 - Professional Design Practice II Credits: 6
- ARCH 671 - Architectural Practice III Credits: 2
- ARCH 672 - Architectural Practice IV Credits: 2
- ARCH 692 - Topics Credits: 3
- Electives Credits: 3

Total Required Credits: 48 (Option C)

Additional Admission Requirements
GRE: Not required
TOEFL: Score of 525 paper-based, 71 Internet-based
IELTS: 5.5

Students may be admitted fully or provisionally. Students provisionally admitted with insufficient graphic capacity may be required to take fundamental drawing and/or design courses the Fall semester before beginning professional study.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

80 Academic Programs
• BIOL 721 - Advanced Human Anatomy Credits: 4
• BIOL 721L - Advanced Human Cadaver Dissection Credits: 0
• NUTR 715 - Public Health Nutrition Credits: 3
• NUTR 782 - Epidemiology Credits: 3

Select one of the following options

Option A - Thesis
• HNS 798 - Thesis Credits: 1-7 (5 credits required)

Option B - Research/Design Paper
• AT 788 - Master's Research Problems/Projects Credits: 1 (2 credits required)

Total Required Credits: 60 (Option A), 57 (Option B)

Additional Admission Requirements
GRE: Not required
TOEFL: Score of 550 paper-based, 79-80 Internet-based
IELTS: 6.0

Program Application
Admission into the MSAT program is on a competitive basis. Each year the AT program uses a Primary (Graduate School Application) and Secondary (Program Application) Selective Admission Process to admit (1) new cohort of students who will begin their program of study during the Summer term. The AT program begins reviewing applications on a rolling basis beginning in July of the year preceding the start of the next cohort. Applications are excepted until March 15th.

In order to complete all application requirements, students must:
• Complete the Graduate School Application and submit this to the South Dakota State University Graduate School.
• Complete the Secondary Selective Admission Process/Program Application and submit application materials through ATCAS (Athletic Training Centralized Application Service) or directly to Dr. Trevor Roiger, Athletic Training program director. Students wishing to bypass ATCAS and apply directly to the MS in Athletic Training Program can find the program-specific application materials on the program webpage. These materials can be submitted directly to:
  Dr. Trevor Roiger, AT, ATC
  Box 2275A, Wagner 135
  Department of Health and Nutrition Sciences
  Brookings, SD 57007

Verification and Demonstration of Technical Standards
Students will receive a copy of the program's technical standards as part of the application process. They will be asked to verify that they have received a copy, understand the concepts and work with the program if accommodations are necessary. Technical standards set the guidelines for the application process and progress in the major by describing the essential skills considered necessary for admitted students to possess in order to complete the responsibilities associated with being an athletic training student and subsequently, a practicing athletic trainer. Technical Standards are requirements of the Commission on Accreditation of Athletic Training Education (CAATE). Technical standards are assessed at the time of application, during progress and for completion of the program. Skills are described in five areas: cognitive ability/skills, psychomotor skill, affective behaviors, interpersonal skills, and knowledge or/interest in the profession of athletic training. The technical standards also describe policy statements regarding accommodations, standards of English as a second language, and eligibility requirements for the BOC national certifying examination and state licensing examinations.

Secondary Selective Admissions Minimum Selection Criteria
The criteria listed below represents additional prerequisite requirements.
• Completed Health Assessment
• Verification of Technical Standards
• Cumulative (or Junior-Senior) GPA of 3.0 or better
• Completion of the Athletic Training Observation Record
• Completed Program application, letter of interest, three letters of reference and a personal interview
• Successful completion (C or better) of the following courses or their equivalents.*

Accelerated Master’s Program
The accelerated Master's program will be available to eligible SDSU students. Up to 8 credits of graduate-level coursework in the M.S. in Athletic Training may be used to satisfy requirements for an undergraduate degree. Students must follow SDSU Policy 2:22 Use of Graduate Credit for Undergraduate Degree Requirements.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Program Coordinator/Contact
Donald M. Marshall, Associate Dean and Director of Academic Programs College of Agriculture, Food and Environmental Sciences Berg Agricultural Hall 156, Box 2207 605-688-5135

Program Information
This is a collaborative graduate program leading to the Master of Science degree in Biological Sciences. Departments that cooperate in the program are the Departments of Agricultural & Biosystems Engineering; Agronomy, Horticulture, & Plant Science; Biology & Microbiology; Dairy & Food Science; Natural Resource Management; and Veterinary & Biomedical Sciences. Specializations and emphases are available in the following areas:
• Biology Specialization
• Dairy Science Specialization
• Food Science Specialization
• Microbiology Specialization
• Veterinary Microbiology Emphasis
• Veterinary Pathology Emphasis

The masters and doctoral programs in Biological Sciences allow for considerable latitude in the education and training of students. Students interested in advanced
Biological Sciences Program Objectives

Graduates of the Master's of Science in Biological Sciences will:

- Have a deep understanding and knowledge of biological principles related to the chosen discipline
- Apply principles into practice in the field or industry setting
- Have an appreciation and working knowledge of scientific research methods in the discipline
- Demonstrate ability to interpret research findings and understand the implications
- Write a coherent thesis or research paper and demonstrate the ability to write a scientific journal paper
- Demonstrate competence in the major course topics covered by the student's graduate plan of study
- Demonstrate the ability to use ethics in decision making and planning
- Demonstrate information literacy for science-based decision making and lifetime learning

Course Delivery Format

Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

Facilities and Services

A variety of outstanding laboratories, green houses, McCrory Gardens and Arboretum, livestock units, and field stations are available for education and research. Many Biological Sciences faculty hold appointments in the South Dakota Agricultural Experiment Station.

Available Options for Graduate Degrees

Core Requirements

The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student's Plan of Study no later than the end of the first year of study.

Option A - Thesis

- XXX 790 - Seminar Credits: 2
- XXX 798 - Thesis Credits: 5-10
- 3 or more credits of STAT courses numbered 500-level or higher
- 6 additional course credits, designed to meet the interests and individual needs of the student

Option B - Research/Design Paper

- XXX 790 - Seminar Credits: 2
- XXX 788 - Master's Research Problems/Project minimum Credits: 2-3
- 3 or more credits of STAT courses numbered 500-level or higher

Total Required Credits: 30 (Option A), 32 (Option B)

Additional Admission Requirements

GRE: Not a general requirement, but individual departments may require GRE TOEFL: required score of 525 paper-based, 71 Internet-based
IELTS: 6.5

General Requirements

Graduate students should consult with their advisor before registering for graduate work.

Program Information

The Department of Biology and Microbiology provides students with a wide range of opportunities for advanced study. The graduate faculty offer expertise and graduate student advisement in subdisciplines from molecular biology through ecology. Faculty members are very successful in obtaining extramural funds to support graduate student projects. Graduate students have modern research laboratories, equipment and field research sites available to carry out their research projects. The learning environment, scholarly excellence and quality of teaching are areas of strength in the department's Graduate Program.

Course Delivery Format

Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

- XXX 788 - Master's Research Problems/Project minimum Credits: 2-3
- 3 or more credits of STAT courses numbered 500-level or higher

Total Required Credits: 30 (Option A), 32 (Option B)

Master's Graduation Requirements

- Yearly evaluation (research progress + coursework)
- Presentation of Thesis/Paper (public) during last semester of program
- Oral defense of Thesis (committee) during last semester of program
- Thesis (Plan A) - OR - Research Paper (Plan B) completion

Additional Admission Requirements

GRE: Scores ranking above the 50th percentile will strengthen the case for admission
TOEFL: Score of 575 paper-based, 90 Internet based
IELTS: 6.5

At least two letters of reference or Personal References must be sent to the Department. A personal statement that includes a description of the applicants involvement in research, the applicants research interest, and career goals is also required.

Retention in the program is dependent on formation of a committee and completion of review matrix by the end of the first year. In ensuing years, students must have a committee meeting and complete review annually.

General Requirements

Graduate students should consult with their advisor before registering for graduate work.
Biological Sciences (M.S.) - Dairy Science Specialization

Program Coordinator/Contact
Vikram Mistry, Department Head
Department of Dairy and Food Science
Alfred Dairy Science Hall 136, Box 2104
605-688-4116

Program Information
The Dairy and Food Science Department provides research opportunities leading to Masters and PhD degrees. SDSU is one of two universities in the US with a Dairy Science Program that offers Dairy Production and Manufacturing majors. It is equipped with excellent laboratories, and a state of the art dairy processing plant which has the capability of processing fluid milk, cheese, butter, ice cream, concentrated and dried products, and other products. It also has a dairy research and training facility where a herd of 300 Holstein and Brown Swiss cattle for teaching and research is maintained. Metabolism and surgical facilities in the Animal Science Complex, and specialized laboratory equipment the Genomics Lab and other departments on campus, including, Veterinary and Biomedical Sciences, and Health and Nutritional Sciences Programs are also available. Graduate students accepted in the program will have opportunities to utilize these facilities to develop basic and/or applied research programs in dairy product processing, microbiology, chemistry, food safety, dairy cattle nutrition, metabolism, breeding, microbiology of the rumen, immunology, and management, while interacting with well qualified faculty. The SDSU Dairy Science Program, in collaboration with the Food Science and Nutrition Program at the University of Minnesota and the Food Science and Human Nutrition Program at Iowa State University, is the Midwest Dairy Foods Research Center. This provides graduate students in the manufacturing area a unique opportunity to be involved with current issues and research needs.

Course Delivery Format
Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

Student Engagement and Support Opportunities
An application to the graduate program serves as an application for a graduate assistantship. Qualified applicants may be eligible for financial aid in the form of departmental research assistantships for masters and doctoral students. The department also offers some limited scholarships for qualified students.

Available Options for Graduate Degrees

Master of Science
- Option A - Thesis
  - 30 Credit Hours

Core Requirements

Biological Sciences (M.S.) - Food Science Specialization

Program Coordinator/Contact
Vikram Mistry, Department Head
Department of Dairy and Food Science
Alfred Dairy Science Hall 136, Box 2104
605-688-4116

Program Information
The Food Science program offers excellent opportunities for graduate level coursework and research leading to academic or industry careers in Food Science. Graduate students receive advanced preparation related to food processing, product development, and food safety. Food Science is a multi-disciplinary program that is administered by the Department of Dairy and Food Science, but may also include such diverse areas as animal science, food grain processing, and agricultural & biosystems engineering.

Course Delivery Format
Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

  - 32 Credit Hours

Core Requirements
For details see specific program: M.S. in Biological Sciences.
The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student’s Plan of Study no later than the end of the first year of study.

- FS 550 - Food Analysis Credits: 4
- FS 550L - Food Analysis Laboratory Credits: 0
- FS 551 - New Food Product Development Credits: 4
- FS 551L - New Food Product Development Laboratory Credits: 0
- XXX 790 - Seminar Credits: 2
- 3 or more credits of STAT courses numbered 500-level or higher

Select one of the following options

Option A - Thesis
- XXX 798 - Thesis Credits: 5-10
- Electives Credits: 7-12

Option B - Research/Design Paper
- XXX 788 - Master's Research Problems/Project minimum Credits: 2-3
- Electives Credits: 16-17

Total Required Credits: 30 (Option A), 32 (Option B)

Additional Academic Requirements
GRE: Not required
TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based
IELTS: 5.5

At least two letters of reference and a personal statement that includes a description of the applicants' involvement in research, the applicant's research interest, and career goals.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
**Chemistry (M.S.)**

**Program Coordinator/Contact**
Douglas Raynie, Department Head
Department of Chemistry and Biochemistry
Avera Health and Science Center 131, Box 2202
605-688-5151

**Program Information**
The Department's chemistry faculty research programs fall into the thematic focus areas of environmental chemistry and green chemistry, chemical sensor development, organic synthesis, materials chemistry, natural products chemistry, and chemical education. Within these multidisciplinary and interdisciplinary focus areas, students can select research projects that involve the traditional subdisciplines of chemistry -- analytical, biochemistry, inorganic, organic and physical. Currently active research projects in the Department focus on various aspects of analytical chemistry, drug discovery and delivery, synthesis or photoactive materials including polymers, materials chemistry and self assembly, chromatography, the chemistry of cell membranes, environmental and green chemistry, chemistry of climate change, photo-physical chemistry, natural product synthesis, biophysical chemistry, computational chemistry, and solid-state NMR. For additional information student should review the descriptions of current faculty research interests at www.sdstate.edu/chemistry-biochemistry.

In addition to a traditional thesis-based (Option A) M.S. degree, the Department also offers a predominantly on-line M.S. in chemistry in chemical education. This is a non-thesis (Option B) degree that focuses on the content necessary for practicing high school teachers to achieve highly qualified status. Admission in this program is limited to practicing high school science teachers, students interested in the thesis-based M.S. degree in chemical education should specify this on the application for admission.

**Research Instrumentation**
The Department is equipped with modern instrumentation core facilities to support its research program. These facilities are readily available to graduate students for "hands-on" experience after successfully completing a short training course.

- **NMR core facility** includes 600, 400, and 200 MHz solution FT-NMR spectrometers and 400, 300, 100 MHz wide-bore solid-state NMR spectrometers.
- **Core campus mass spectrometry facility** consists of a 7T ESI FTMS; a high-resolution magnetic sector mass spectrometer with EI and CI sources and GC, HPLC, pyrolysis and fast-atm bombardment capabilities; a MALDI-TOF mass spectrometer; a Exsigen/Thermo LTQ ESI LC-MS/MS dedicated to "bottom-up" proteomics studies; an Applied Biosystems SCIEX QTRAP ESI LC-MS/MS dedicated to small molecule and metabolomics characterizations; and a Varian GCMS.
- **Core campus proteomics facility** has all the necessary equipment to prepare samples for mass-spectrometry-based proteomics characterizations.
- **Optical Spectroscopy lab** containing 2 FT-IR spectrometer with far-IR capabilities; time-resolved spectrofluorometer; atomic absorption; and diode-array UV-Vis spectrophotometers.
- The Department is home to multiple state of the art fluorescence microscopes for the analysis of biochemical reactions involving purified molecules and within living cells. These instruments including spinning disk confocal microscopy, total internal reflection fluorescence (TIRF) microscopy, targeted photo-bleaching, instrumentation of for ensemble and single-molecule fluorescence resonance energy transfer (FRET) experiments and fluorescence correlation spectroscopy, and optogenetics capabilities. The department also houses cell/tissue culture facilities, large- and small-scale protein purification equipment and biophysical characterization capabilities including an isothermal titration calorimeter. Campus computer facilities (including a Beowulf supercomputer cluster) are readily available. Individual groups maintain their own system for molecular modeling, word processing or data manipulation. Direct, on-line computer access to chemical and biochemical literature databases such as Chemical Abstracts and Web of Science are provided by the Department.
- In addition to these departmental resources, individual research groups also maintained instrumentation including supercritical fluid chromatography and extraction, differential scanning calorimetry, and laser light scattering equipment. Campus super-computer facilities and on-line computer access to Web of Science, Chemical Abstracts Services and other on-line information sources are readily available.

---

**Biological Sciences (M.S.) - Microbiology Specialization**

**Program Coordinator/Contact**
Volker Brözel, Department Head
Radhey Kaushik, Professor/Graduate Coordinator
Department of Biology and Microbiology
Alfred Dairy Science Hall 228, Box 2104A
605-688-6141

**Program Information**
The Department of Biology and Microbiology provides students with a wide range of opportunities for advanced study. The graduate faculty offer expertise and graduate student advisement in subdisciplines from molecular biology through ecology. Faculty members are very successful in obtaining extramural funds to support graduate student projects. Graduate students have modern research laboratories, equipment and field research sites available to carry out their research projects. The learning environment, scholarly excellence and quality of teaching are areas of strength in the department's Graduate Program.

**Course Delivery Format**
Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

**Available Options for Graduate Degrees**
- Master of Science
  - Option A - Thesis: 30 Credit Hours
  - Option B - Research/Design Paper: 32 Credit Hours

**Core Requirements**
For details see specific program: Biological Sciences (M.S.).

The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student's Plan of Study no later than the end of the first year of study.

**Option A - Thesis**
- XXX 790 - Seminar Credits: 2
- XXX 798 - Thesis Credits: 5-10
- 3 or more credits of STAT courses numbered 500-level or higher
- 6 additional course credits, designed to meet the interests and individual needs of the student

**Option B - Research/Design Paper**
- XXX 790 - Seminar Credits: 2
- XXX 788 - Master's Research Problems/Project minimum Credits: 2-3
- 3 or more credits of STAT courses numbered 500-level or higher

**Total Required Credits: 30 (Option A), 32 (Option B)**

**Master's Graduation Requirements**
- Yearly evaluation (research progress + coursework)
- Presentation of Thesis/Paper (public) during last semester of program
- Oral defense of Thesis (committee) during last semester of program
- Thesis (Plan A) - OR - Research Paper (Plan B) completion

**Additional Admission Requirements**
GRE: Scores ranking above the 50th percentile will strengthen the case for admission
TOEFL: Score of 575 paper-based, 90 Internet based
IELTS: 6.5

At least two letters of reference or Personal References must be sent to the Department. A personal statement that includes a description of the applicants involvement in research, the applicants research interest, and career goals is also required.

Retention in the program is dependent on formation of a committee and completion of review matrix by the end of the first year. In ensuing years, students must have a committee meeting and complete review annually.

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
Course Delivery Format
Courses offered in the M.S. Chemistry curriculum are taught in a variety of formats which address student learning outcomes. Didactic (lecture) methods ensure the development of advanced knowledge of chemistry. Practical (laboratory) methods ensure the development and maturation of laboratory skills and training and these opportunities are developed in the research laboratory. A combination of didactic and practical methods ensures the successful completion of the graduate thesis research project.

Facilities and Services
The Department is housed in the newly constructed Avera Health and Science Center, which provides 100,000 sq. ft. of research and instructional space.

Available Options for Graduate Degrees

**Chemistry (M.S.) - Chemical Education Specialization**

**Program Coordinator/Contact**
Douglas Raynie, Department Head
Matthew Miller, Graduate Program Coordinator
Department of Chemistry and Biochemistry
Avera Health and Science Center 131, Box 2202
605-688-5151

**Program Information**
In addition to a traditional thesis-based (Option A) M.S. degree, the Department also offers a predominantly on-line M.S. in chemistry in chemical education. This is a non-thesis (Option B) degree that focuses on the content necessary for practicing high school teachers to achieve highly qualified status. Admission in this program is limited to in-service high school/college science teachers; students interested in the thesis-based M.S. degree in chemical education should specify this on the application for admission.

**Course Delivery Format**
The M.S. in Chemistry – Chemical Education Specialization, is a largely online program for course offerings. As such, the content coursework is delivered via online format. In this format, individualized coursework and discussion methods are used to encourage discourse on content as it relates to teaching high school science. In summer, students participate in laboratory development exercises with research active faculty in the Department of Chemistry and Biochemistry, providing practical skills development. Additionally, students learn about research skills for the classroom to engage in a year-long action research project.

**Facilities and Services**
The Department is housed in the newly constructed Avera Health and Science Center, which provides 100,000 sq. ft. of research and instructional space.

**Available Options for Graduate Degrees**

Master of Science Option A - Thesis 30 Credit Hours

**Core Requirements**
- Select any four of the following:
  - CHEM 701 - Advanced Organic Chemistry I Credits: 3
  - CHEM 703 - Advanced Physical Chemistry Credits: 3
  - CHEM 704 - Advanced Inorganic Chemistry Credits: 3
  - CHEM 705 - Principles of Biochemistry Credits: 2-5 (3 credits required)
  - CHEM 706 - Advanced Analytical Chemistry Credits: 3
  - CHEM 790 - Seminar Credits: 1 (2 credits required)
  - CHEM 798 - Thesis Credits: 1-7 (9 credits required)
  - CHEM Electives Credits: 7

**Total Required Credits:** 30 (Option A)

**Additional Admission Requirements**
GRE: General and subject score are recommended but not required
TOEFL: Score of 580 paper-based, 92-93 Internet-based
IELTS: 5.5

Applications are accepted for admission to the M.S. program in fall only. Students are strongly encouraged to submit their applications for admission no later than January 15. Initial offers of admission will be made no later than the first week of February.

In addition to the materials required by the Graduate School, the Department of Chemistry and Biochemistry requires the following application materials:
- A one- to two-page personal statement which includes a description of undergraduate research, work experience, or other factors demonstrating a propensity toward graduate studies. The personal statement should also include a statement of the applicant's career goals. The applicant may upload this statement while completing the Graduate School's online application.
- Three letters of recommendation, preferably at least one from faculty at the applicant's undergraduate institution. Letters should come from faculty who are directly familiar with the applicant's academic work. They must address the applicant's scholarly potential and may also speak to the applicant's potential for graduate studies in the discipline. Letters should come directly from the recommenders, who may submit their letters electronically along with the personal recommendation form provided by the Graduate School. The Graduate School will email recommenders detailed instructions for submitting their recommendations using the contact information provided by the applicant.

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

**Civil Engineering (M.S.)**

**Program Coordinator/Contact**
Nadim Wehbe, Department Head
Suzette Burckhardt, Professor/Graduate Coordinator
Department of Civil and Environmental Engineering
Crothers Engineering Hall 120, Box 2219
605-688-5427

**Program Information**
The MSCE program offers courses, design, and research activities within Civil and Environmental Engineering that are related to structural, transportation,
geotechnical, water resources, hydrology, hydraulics and environmental engineering, as well as engineering mechanics. Students can pursue an MS degree under a thesis, design paper, or coursework only option.

**Educational Objectives**

Program Educational Objectives: The civil engineering program at South Dakota State University is committed to preparing students to achieve the following educational objectives within five years beyond the baccalaureate degree.

1. Graduates will have obtained professional licensure or specialized certification.
2. Graduates will have engaged in professional development and life-long learning through earning advanced degrees, attending continuing education forums, or active participation in professional organizations.
3. Graduates will have become actively involved in their profession, communities, and global society with a trajectory towards leadership positions.

**Course Delivery Format**

The program offers course, design, and research activities within Civil and Environmental Engineering that are related to structural, transportation, geotechnical, water resources, hydrology, hydraulics, and environmental engineering, as well as areas of engineering mechanics in classroom, laboratory, and field based settings.

**Facilities and Services**

The Civil and Environmental Engineering department is housed in Crothers Engineering Hall and maintains over 18,000 square feet of classroom and laboratory space dedicated to undergraduate instruction and research experience, as well as testing laboratories for research and sponsored projects. This includes the Lohr Structures Lab, Fluid Mechanics Lab, HDR Environmental Lab, Geotechnical Lab, Concrete Lab, Structural Materials Lab, Bituminous Lab, Capstone Design Studio and Student Computer Lab.

**Student Support and Engagement Opportunities**

The department provides outreach and services through the American Society of Civil Engineers Student Chapter Program.

**Communication Studies & Journalism (M.A.) - Communication Studies Specialization**

**Program Coordinator/Contact**

Jenn Anderson, Assistant Professor/Graduate Program Coordinator
School of Communication and Journalism
Pugsley Continuing Education Center 115
605-688-6131

**Program Information**

The Master of Arts in Communication Studies and Journalism - Communication Studies Specialization is designed to provide advanced studies in the areas of communication theory, research methods, and instructional methods. It provides further professional preparation and competencies in multiple topic areas of communication. The program provides a broad-based, graduate degree for students with an undergraduate degree in communication studies and related areas.

Through a generalist curriculum and faculty mentoring of students, the specialization in Communication Studies has the following program goals:

- Enhance students' written and oral communication skills;
- Increase students' understanding of relevant issues and theories in the communication discipline;
- Augment students' ability to conceptualize, manage, and complete different stages of an independent research project through working on a thesis;
- Cultivate students' skills in collaboration, improving communication for the good of society;
- Prepare students for entry into doctoral programs and/or communication-related careers;
- Help students achieve their personal and professional goals toward graduation and beyond; and
- Develop students' teaching skills to demonstrate excellence in communication instruction (if graduate teaching assistants).

**Student Learning Outcomes**

A graduate with a specialization in Communication Studies will be able to:

- Recognize and apply communication theory in a variety of contexts,
- Understand multiple methodologies for conducting communication research,
- Conduct independent and original research,
- Demonstrate advanced competencies in the area of communication.

**Course Delivery Format**

The on campus program provides a wide range of course formats including seminars, small groups, and interactive and collaborative partnerships; limited courses are offered online.

**Available Options for Graduate Degrees**

**Core Requirements**

- SPCM 700 - Instructional Methods in Communication Credits: 3 (Required only for Graduate Teaching Assistants)
- SPCM 701 - Introduction: Graduate Studies (COM) Credits: 3 (First Semester)
- SPCM 702 - Communication Theory Credits: 3 (First Semester)
- SPCM 787 - Research Methods in Communication Credits: 3 (Second Semester)

**Select one of the following options**

**Option A - Thesis**

- SPCM 798 - Thesis Credits: 1-7 (5-7 credits required)
- Electives as approved by advisor Credits: 13-16

**Option B - Research/Design Paper**

- SPCM 788 - Master's Research Problems/Projects Credits: 1-6 (3-5 credits required)
- Electives as approved by advisor Credits: 17-20
### Communication Studies & Journalism (M.A.) - Journalism Specialization

**Program Coordinator/Contact**
Jenn Anderson, Assistant Professor/Graduate Program Coordinator  
School of Communication and Journalism  
Pugsley Continuing Education Center 115  
605-688-6131

**Program Information**
The Master of Arts in Communication Studies and Journalism – Journalism Specialization consists of advanced studies in journalism and mass communication. The goal of the program is to expand and contribute to the knowledge of these academic fields. This degree provides an introduction to research and advanced study in preparation for students seeking to move on to the doctoral level.

**Student Learning Outcomes**
Graduates of the Journalism Specialization will be able to:
- advance mass communication's body of knowledge through research, analysis and application.
- demonstrate leadership and mass communication skills for expanding their influence within their chosen professions.
- adapt fundamental critical thinking and storytelling skills to the interconnected world with its digital, networked media environment.
- utilize technology and have the vision to expand their knowledge base and skill set.

**Course Delivery Format**
This program is offered at SDSU's Brookings campus and includes both face-to-face and online instruction options.

**Facilities and Services**
The former Printing and Rural Journalism Building was renamed Yeager Hall in recognition of the contributions of Anson and Ada May Yeager. Mr. Yeager was longtime editor of the Argus Leader in Sioux Falls. The program moved into expanded and renovated facilities in 2000 that cost $2.4 million. The Yeager Media Center, completed in 2012, is a high-definition television and new media facility and the primary center for SDSU campus television and media production. Newly remodeled classrooms enhance teaching space in the modern educational facility. The Joe L. Floyd News Media Laboratory is connected to digital video and audio production suites. The second floor of Yeager Hall includes a conference room, a reading room, a student lounge, and individual offices for the school's faculty members.

### Computer Science (M.S.)

**Program Coordinator/Contact**
George Hamer, Interim Department Head  
Sung Shin, Professor/Graduate Coordinator Computer Science  
Department of Electrical Engineering and Computer Science  
Daktronics Engineering Hall 214, Box 2222  
605-688-4526

**Program Information**
The Department of Electrical Engineering and Computer Science offers the Master of Science in Computer Science. The program prepares graduate students for positions in the design and development of computer systems and applications in business and industry and for scientific positions in industrial or academic computing research. Areas of research interest within the department currently include Software Engineering, Medical Image Processing, Parallel Processing, Applied Computing, GIS, Computer Security, Cluster Computing, and Computer Networks.

**Program Objectives**
The CS graduate program objectives are to equip individuals to:
- Discover and disseminate knowledge relevant to the discipline of computer science.
- Provide leadership for increasingly complex roles in computer science and industry.
- Contribute to the advancement of the science of computer science serving regional and national needs.

**Course Delivery Format**
A majority of the courses are taught on campus in smart classrooms. The smart classrooms allow for a variety of methods for student engagement and faculty are able to record and post their lectures on-line.

**Facilities and Services**
With more than $12 million invested in classrooms and laboratories, graduate students benefit from modern lecture rooms and gain valuable experience using...
Counseling & Human Resource Development (M.Ed.) - Administration of Student Affairs Specialization

Program Coordinator/Contact
Katelyn Romsa, Assistant Professor
Department of Counseling and Human Development
Wenona Hall 318, Box 507
605-688-6831

Program Information
This Administration of Student Affairs Specialization is designed for those who seek professional roles in student affairs or related areas of higher education in any postsecondary setting. The administrative emphasis will build skills based on both theory and experience. Students that complete this 36-credit program will earn a Master of Education in Counseling & Human Resource Development (CHRD) specializing in Administration of Student Affairs.

Accreditation, Certification, and Licensure

Accreditation
The Master of Education specialization in Administration of Student Affairs meets the guidelines of the Council for the Advancement of Standards in Higher Education (CAS).

Course Delivery Format
Instruction occurs through didactic (classroom) and clinical experience. Most classes are enhanced with internet supplement.

Available Options for Graduate Degrees

Master of Education  
Option A - Thesis  36 Credit Hours  
Option B - Research/Design Paper  36 Credit Hours  
Option C - Coursework Only  36 Credit Hours

Core Requirements
- CHRD 601 - Introduction to Professional Issues and Ethics Credits: 1  
- CHRD 602 - Research and Evaluation in Counseling and Human Development Credits: 3  
- CHRD 742 - Career Counseling and Planning Credits: 3  
- CHRD 770 - Student Development: Theory and Practice Credits: 3  
- CHRD 771 - Student Personnel Services Credits: 3  
- CHRD 772 - Administration and Leadership in Student Affairs Credits: 3  
- CHRD 794 - Internship Credits: 2-6  
- EDFN 727 - Group Processes Credits: 3

Electives
Credits: 11  
- CHRD 798 - Thesis Credits: 1-6 (Option A - Thesis)  
- CHRD 788 - Research Problems in Counseling and Guidance Credits: 1-3 (Option B - Research/Design Paper)  
- Additional Coursework (Option C - Coursework Only)

Total Required Credits: 36 (Option A, B, & C)

Additional Admission Requirements
GRE: Not required  
TOEFL: Department requirement of 525 paper-based, 71 Internet-based IELTS: 5.5

Additional Graduation Requirements
All CS graduate candidates must pass a comprehensive written examination. The comprehensive written examination is offered twice during each academic year. The four graduate core courses are the subjects of the comprehensive written examination.

Comprehensive Written Exam Requirements
- All CS graduate candidates must pass a comprehensive written examination. The comprehensive written examination is offered twice during each academic year. It is usually during the third week of both the fall and spring semester. The four graduate core courses (listed below) are the subjects of the comprehensive written examination.  
- CS graduate students can take the comprehensive exam up to three times as long as they have an average score of 50 or higher in the comprehensive exam and a minimum score of 40 or higher in each of the core course exams. If at any time in the students' scores fall below the criteria, the student loses the option of retaking the exam.  
- If a student submits an application to take the comprehensive exam, that application will be counted as one of their three opportunities.

Final Oral Exam Requirements
The final oral exam is required for both option A and option B students. It is scheduled for approximately two hours. The first part of the exam includes the candidate's thesis or design paper defense, and the second part of the exam comprises the candidate's course work.

Accelerated Master's Program
The accelerated Master's program will be available to eligible SDSU students. Up to 12 credits applied to the undergraduate degree may be used to satisfy graduate credit. Students must follow SDSU Policy 2:22 Use of Graduate Credit for Undergraduate Degree Requirements.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

Additional information refer to the Master's Degree Requirements.

state-of-the-art equipment. The recently dedicated modern Daktronics Engineering Hall is home to the Computer Science program with over 15,000 square feet of dedicated research space.

Available Options for Graduate Degrees

Master of Science  
Option A - Thesis  30 Credit Hours  
Option B - Research/Design Paper  32 Credit Hours  
Option C - Coursework Only  36 Credit Hours

Core Requirements
- CSC 705 - Design and Analysis of Computer Algorithms (COM) Credits: 3  
- CSC 710 - Structure and Design of Programming Languages Credits: 3  
- CSC 720 - Theory of Computation Credits: 3  
- CSC 770 - Software Engineering Management Credits: 3

Select one of the following options

Option A - Thesis  
- CSC 798 - Thesis Credits: 1-7 (6 credits required)

Option B - Research/Design Paper  
- CSC 788 - Master's Research Problems/Project Credits: 1-2 (2 credits required)

Option C - Coursework Only  
- Electives Credits: 24

Total Required Credits: 30 (Option A), 32 (Option B), 36 (Option C)

Additional Admission Requirements
GRE: Not required  
TOEFL: Department requirement of 525 paper-based, 71 Internet-based IELTS: 5.5

Additional Graduation Requirements
All CS graduate candidates must pass a comprehensive written examination. The comprehensive written examination is offered twice during each academic year. The four graduate core courses are the subjects of the comprehensive written examination.

Clinical Mental Health Counseling specialization, students will:

- respond to the mental health needs of a variety of individuals and families, through a wide spectrum of services including support, education, assessment, and treatment;
- understand and be able to appropriately select and apply a variety of service or treatment modalities;
- understand assessment strategies and the criteria for mental illnesses as well as effective treatments;
- understand and model healthy community and work relationships; and
- be prepared to pursue licensure as a professional counselor.

**Counseling & Human Resource Development (M.S.) - Clinical Mental Health Counseling Specialization**

**Program Coordinator/Contact**

Staci Born, Assistant Professor  
Department of Counseling and Human Development  
Wenona Hall 301, Box 507  
605-688-5062

**Program Information**

Students who successfully complete this 60-credit hour specialization will earn a Master of Science in Counseling and Human Resource Development specializing in Clinical Mental Health Counseling. Upon successful completion of the core requirements, and those of the Clinical Mental Health Counseling specialization and with the successful completion of the comprehensive written and oral examinations, graduates are endorsed as having constructed appropriate entry level knowledge and as having met appropriate skill acquisition to be recognized as professional clinical mental health counselors. Students in the Clinical Mental Health Counseling specialization are also responsible for having taken supporting area courses which supplement or enhance their chosen specialty.

**Accreditation, Certification, and Licensure**

**Accreditation**

The Master of Science in CHRD specializing in Clinical Mental Health Counseling, is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) under the 2001 standards for Community Counseling.

**Certification**

All Master of Science students are eligible to begin the process for the National Certified Counselor certification by taking the NCE six months before or after they graduate.

The Clinical Mental Health Counseling specialization is designed to meet the requirements of the South Dakota Board of Counselor Examiners. Graduates of this specialization are eligible for training supervisee status under the South Dakota Board of Examiners for Counselors. Once graduates complete an approved plan for the remainder of the supervised clinical experience, they are eligible for licensure as a Licensed Professional Counselor (LPC).

**Licensure**

Graduation from this program does not grant immediate licensure as a counselor. Licensure differs by state and is obtainable by completing additional client contact hours after graduation. Students are responsible for researching licensure requirements for the state in which they plan to practice.

**Student Learning Outcomes**

Upon successful completion of the course requirements for a M.S. in CHRD specializing in Clinical Mental Health Counseling, students will:

- understand and advocate for positive attention to developmental needs of individuals, families, schools, and communities;
- promote mental health through well-developed and consistent theoretical study and application;
- appreciate cultural, ethnic, and gender differences as they relate to perceptions and expectations of counseling;
- apply ethical, legal, moral, and professional standards to all aspects of professional counseling services;
Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 525 paper-based, 71 Internet-based
IELTS: 5.5

Formal Application Process
In addition to applying for Graduate School, applicants must also apply to the CHRD program by April 1 for fall admission or by October 1 for spring admission. Admission is competitive; late applications will not be considered. Students have one calendar year from the time of acceptance to begin taking courses otherwise formal re-application to the CHRD program is required.

The CHRD department requires all applicants to submit the documents below by the appropriate admission deadline:
1. CHRD Disclosure Statement
2. Resume
3. A typed, one-page goal statement discussing your aspirations to the counseling field
4. Two completed CHRD Recommendation Forms (do not use the Graduate School reference forms).

Based on the rating score of the applicant's file, the applicant will either be invited to the group screening interview to continue the admission process or denied admission.

Criminal Background Check Requirement
Applicants who successfully complete the interview will be required to successfully complete and pay for a criminal background check before an official offer of admission is secured.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Counseling & Human Resource Development (M.S.) - College Counseling Specialization

Program Coordinator/Contact
Katelyn Romza, Assistant Professor
Department of Counseling and Human Development
Wenona Hall 318, Box 507
605-688-6831

Program Information
This program prepares students to work in higher education settings in the various aspects of student life that take place largely outside of the classroom. These include, but are not limited to, student affairs administration, general college student counseling, career counseling, academic advising, institutional admissions, student activities, multicultural affairs, and residence hall settings. Currently, there are no certification or licensure requirements for student personnel professionals. Students who successfully complete this 48-credit hour specialization will earn a Master of Science in Counseling and Human Resource Development specializing in College Counseling. Upon successful completion of the core requirements, and those of the College Counseling specialization, and, with the successful completion of the comprehensive written and oral examinations, graduates are endorsed as student affairs professionals.

Accreditation, Certification, and Licensure
Accreditation
The Master of Science in CHRD specializing in College Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Certification
All Master of Science students are eligible to begin the process for the National Certified Counselor certification by taking the NCE six months before or after they graduate.

Licensure
Graduation from this program does not grant immediate licensure as a counselor. Licensure differs by state and is obtainable by completing additional client contact hours after graduation. Students are responsible for researching licensure requirements for the state in which they plan to practice.

Student Learning Outcomes
Upon successful completion of the requirements for a M.S. in CHRD with an emphasis in College Counseling, students will:
- Understand and apply various student development theories;
- Understand and incorporate multicultural and diverse perspectives;
- Comprehend the effects of student characteristics and the effects of college on students;
- Be proficient at individual and group counseling techniques;
- Understand the historical, philosophical, psychological, cultural, and sociological foundations of higher education and student affairs;
- Have skills and knowledge of assessment, evaluation, and research in higher education and student affairs;
- Be familiar with the organization and administration of student affairs programs and services;
- Demonstrate program planning and evaluation skills;
- Practice in accordance with the legal and ethical standards of counseling and college student personnel;
- Be able to develop and maintain human relations and enhance student development within the professional setting;
- Be prepared to pursue licensure as a professional counselor.

Course Delivery Format
Instruction occurs through didactic (classroom) and clinical experience. Most classes are enhanced with internet supplement.

Core Requirements
- CHRD 601 - Introduction to Professional Issues and Ethics Credits: 1
- CHRD 602 - Research and Evaluation in Counseling and Human Development Credits: 3
- CHRD 610 - Developmental Issues in Counseling Credits: 3
- CHRD 661 - Theories of Counseling Credits: 3
- CHRD 701 - Professional Issues and Ethics II Credits: 1
- CHRD 731 - Multicultural Counseling and Human Relations Credits: 3
- CHRD 736 - Appraisal of the Individual Credits: 3
- CHRD 742 - Career Counseling and Planning Credits: 3
- CHRD 766 - Group Counseling Credits: 3
- CHRD 770 - Student Development: Theory and Practice Credits: 3
- CHRD 771 - Student Personnel Services Credits: 3
- CHRD 772 - Administration and Leadership in Student Affairs Credits: 3
- CHRD 785 - Pre-Practicum Credits: 3
- CHRD 786 - Counseling Practicum Credits: 3-5 (3 credits required)
- CHRD 794 - Internship Credits: 2-6 (6 credits required)

Electives
Credits: 4
- CHRD 798 - Thesis Credits: 1-6 (Option A - Thesis)
- CHRD 788 - Research Problems in Counseling and Guidance Credits: 1-3 (Option B - Coursework Only)
- Additional Coursework (Option C - Coursework Only)

Total Credits Required: 48 (Option A, B, & C)

Additional Program Requirements
- All Master of Science students are required to purchase and carry professional liability insurance throughout the duration of the program. M.Ed. students will be required to purchase and carry professional liability insurance if enrolled in clinical courses.
- Clinical course registration is completed by the department.
- Students enrolled in the M.S. CHRD program need to complete a practicum and an approved internship. These experiences allow students to learn by doing, with active, sound supervision. The practicum and internship
experiences carry clock and credit hour completion expectations. For example, for every 3 credits of internship, students are required to complete 20 hours per week of on-site experience. In addition, regular work expectations outside the classroom exist for every credit hour enrolled. Thus, students enrolled in 3 credits of internship or practicum experience will be considered part-time. Students enrolled in 4 credits of internship or 3 credits of practicum plus other courses to total 4 semester credits will be considered full-time.

Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 525 paper-based, 71 Internet-based
IELTS: 5.5

Formal Application Process
In addition to applying for Graduate School, applicants must also apply to the CHRD program by April 1 for fall admission or by October 1 for spring admission. Admission is competitive; late applications will not be considered. Students have one calendar year from the time of acceptance to begin taking courses otherwise formal re-application to the CHRD program is required.

The CHRD department requires all applicants to submit the documents below by the appropriate admission deadline:
1. CHRD Disclosure Statement
2. Resume
3. A typed, one-page goal statement discussing your aspirations to the counseling field
4. Two completed CHRD Recommendation Forms (do not use the Graduate School reference forms).

Based on the rating score of the applicant's file, the applicant will either be invited to the group screening interview topic continue the admissions process or denied admission.

Criminal Background Check Requirement
Applicants who successfully complete the interview will be required to successfully complete and pay for a criminal background check before an official offer of admission is secured.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Counseling & Human Resource Development (M.S.) - Marriage & Family Counseling Specialization

Program Coordinator/Contact
Staci Born, Assistant Professor
Department of Counseling and Human Development
Wenona Hall 301, Box 507
605-688-5062

Program Information
The specialization in Marriage and Family Counseling is designed to meet the requirements of the South Dakota Board of Counselor Examiners. Graduates of this specialization are eligible for certification as a Marriage and Family Therapist after completion of certification requirements as outlined by the South Dakota Board of Counselor Examiners.

### Counseling & Human Resource Development (M.S.) - Rehabilitation & Mental Health Counseling Specialization

**Program Coordinator/Contact**
Alan Davis, Professor
Department of Counseling and Human Development
Wenona Hall 115, Box 507
605-688-4715

**Program Information**
The Rehabilitation and Mental Health Counseling Specialization is dedicated to enhancing the effectiveness of counselors and programs of service to people with disabilities. Educational experiences will aim to prepare qualified rehabilitation counselors, increase knowledge in the field of rehabilitation, and to apply knowledge to the growing effectiveness of rehabilitation professionals and service delivery systems. In alliance with students, agencies, consumers, and professional organizations, the specialty area will promote the independence, acceptance, and dignity of all people with significant disabilities.

Students who successfully complete this 48-credit hour specialization will earn a Master of Science in Counseling and Human Resource Development specializing in Rehabilitation and Mental Health Counseling. Upon successful completion of the core requirements, and those of the Rehabilitation and Mental Health Counseling emphasis, and with successful completion of the comprehensive written and oral examinations, graduates are endorsed as having constructed appropriate entry level knowledge and as having met appropriate skill acquisition to be recognized as professional rehabilitation and mental health counselors. Students in this emphasis are also responsible for having taken supporting area courses which supplement or enhance their chosen specialty.

### Accreditation, Certification, and Licensure

**Accreditation**
The Master of Science in CHRD specializing in Rehabilitation and Mental Health Counseling is accredited by the Council on Rehabilitation Education (CORE).

**Certification**
All Master of Science students are eligible to begin the process for the National Certified Counselor certification by taking the NCE six months before or after they graduate.

Students specializing in Rehabilitation and Mental Health Counseling are eligible to begin the process for the Certified Rehabilitation Counselor certification by taking the CRC exam after a student has completed 75% of coursework or after graduation.

**Licensure**
Graduation from this program does not grant immediate licensure as a counselor. Licensure differs by state and is obtainable by completing additional client contact hours after graduation. Students are responsible for researching licensure requirements for the state in which they plan to practice.

**Program Objectives**
- meet the growing needs and diverse challenges of consumers with physical and psychiatric disabilities; prepare qualified counselors for careers with federal, state, and private agencies;
- meet anticipated work force needs in the growing rehabilitation and mental health counseling field; and
- provide field experience and internships to develop professional counseling skills.

**Student Learning Outcomes**
Upon successful completion of the course requirements for a MS in CHRD specializing in Rehabilitation and Mental Health Counseling, students will:
- acquire a sound, basic education in rehabilitation;
- develop the lifelong habit of updating skills and professionalism;
- develop a commitment to assist individuals with disabilities in using their own resources and opportunities to meet their developmental, vocational, and educational needs;
- nourish a commitment to individual human values;
- exercise skills and competencies on a high ethical level and with personal integrity;
- maintain a critical, questioning, and exploratory attitude; and
- contribute to the profession by offering suggestions to educators and researchers with the overall goal of improving practice in the rehabilitation profession in general and in the specific area of professional application. Students should also be personally committed to the field of rehabilitation who can provide effective services to individuals with disabilities, including individuals with severe disabilities.
- Students are encouraged to contribute to the advancement of knowledge in the field of rehabilitation through research and the demonstrated application of significant findings.

**Course Delivery Format**
Instruction occurs through didactic (classroom) and clinical experience. Most classes are enhanced with internet supplement. Rehabilitation counseling specific courses are on a semester rotation for online delivery. Classes are scheduled for one day per week for three hours. All courses are available at the BHSU - Rapid City except for rehabilitation-specific courses. The Rehabilitation Counseling specialization is not available at BHSU - Rapid City. A few courses are available at the University Center - Sioux Falls; CHRD does not offer a degree program at the University Center in Sioux Falls.

**Counseling & Human Resource Development (M.S.) - School Counseling Specialization**

**Program Coordinator/Contact**

Hande Briddick, Associate Professor
Department of Counseling and Human Development
Wenona Hall 317, Box 507
605-688-4365

**Program Information**

The School Counseling specialization is designed to prepare students for endorsement/certification as a school counselor in the state of South Dakota. Should the student seek endorsement in another state, it is that student’s responsibility to meet any additional requirements by that particular state. Students who successfully complete this 48-credit hour specialization will earn a Master of Science in Counseling and Human Resource Development specializing in School Counseling.

Upon successful completion of the core requirements, and those of the School Counseling specialization, and with the successful completion of the comprehensive written and oral examinations, graduates are endorsed as having constructed entry level knowledge and as having met appropriate skill acquisition to be recognized as professional school counselors. Students in the School Counseling specialization are also responsible for having taken supporting area courses which supplement or enhance their chosen specialty.

**Accreditation, Certification, and Licensure**

**Accreditation**

The Master of Science in CHRD specializing in School Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

**Certification**

All Master of Science students are eligible to begin the process for the National Certified Counselor certification by taking the NCE six months before or after they graduate.

The School Counseling specialization prepares students for endorsement/certification in the state of South Dakota. Students are responsible for researching school counseling certification requirements for any state in which they wish to practice.

**Licensure**

Graduation from this program does not grant immediate licensure as a counselor. Licensure differs by state and is obtainable by completing additional client contact hours after graduation. Students are responsible for researching licensure requirements for the state in which they plan to practice.

**Student Learning Outcomes**

Upon successful completion of the requirements for the School Counseling specialization, students will:

- understand developmental theory as it relates to the difference(s) between “normal” developmental behavior and “abnormal” developmental behavior in youth;
- utilize knowledge and skills to address the counseling needs of a dynamic and diverse population of students and their families;
- be prepared to create and deliver a comprehensive, K-12 developmental school guidance program;
- be able to consult with school personnel and serve as a liaison to community programs to assist in coordinating services for students, parents, and teachers;
- understand and provide effective individual, group, and classroom guidance services;
- know the ethical, legal, and professional standards in a K-12 educational institution;
- develop a commitment to continued personal and professional development;
- be certified by the State of South Dakota as a K-12 School Counselor; and
- be prepared to pursue licensure as a professional counselor.
Course Delivery Format
Instruction occurs through didactic (classroom) and clinical experience. Most classes are enhanced with internet supplement.

Curriculum & Instruction (M.Ed.) - Early Childhood Education Specialization

Program Coordinator/Contact
Jay Trenhaile, Interim Department Head
Katherine Bertolini, Assistant Professor/Graduate Coordinator
Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

Program Information
The degree in Curriculum and Instruction (C&I) is designed to meet the needs of individuals who work (or plan to work) in some kind of an instructional capacity. The degree does not lead to a South Dakota teaching certificate nor does it lead to an endorsement on the South Dakota teaching certificate.

The C&I degree is structured to allow a great deal of flexibility. It is expected that students will take a mixture of required courses and elective credits, depending on their areas of interest. These courses may be completed with no intention of seeking a degree, or may be used as part of the basis for completing a C&I degree.

Course Delivery Format
The program can be completed online through the Brookings Campus. Some course offerings will be available face to face.

Student Support and Engagement Opportunities
The Teaching, Learning, and Leadership Department has several assistantships for which students can apply.

Available Options for Graduate Degrees

Master of Education
- Option A - Thesis: 30 Credit Hours
- Option B - Research/Design Paper: 32 Credit Hours
- Option C - Coursework Only: 35 Credit Hours

Core Requirements
- ECE 794 - Internship Creds: 1-7 (2 credits required)
- EDFN 794 - Internship Creds: 1-6 (2 credits required)
- EDER 610 - Introduction to Research Creds: 3
- EDFN 600 - Advanced Pedagogy Creds: 3
- EDFN 701 - Capstone Creds: 1
- EDFN 725 - Education in a Pluralistic Society Creds: 3

Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

**Program Information**

The degree in Curriculum and Instruction (C&I) is designed to meet the needs of individuals who work (or plan to work) in some kind of an instructional capacity. The degree does not lead to a South Dakota teaching certificate nor does it lead to an endorsement on the South Dakota teaching certificate.
Curriculum & Instruction (M.Ed.) - Secondary Education Specialization

Program Coordinator/Contact
Jay Trenhaile, Interim Department Head
Katherine Bertolini, Assistant Professor/Graduate Coordinator
Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

Program Description
The degree in Curriculum and Instruction (C&I) is designed to meet the needs of individuals who work (or plan to work) in some kind of an instructional capacity. The degree does not lead to a South Dakota teaching certificate nor does it lead to an endorsement on the South Dakota teaching certificate.

The C&I degree is structured to allow a great deal of flexibility. It is expected that students will take a mixture of required courses and elective credits, depending on their areas of interest. These courses may be completed with no intention of seeking a degree, or may be used as part of the basis for completing a C&I degree.

Course Delivery Format
The program can be completed online through the Brookings Campus. Some course offerings will be available face to face.

Student Support and Engagement Opportunities
The Teaching, Learning, and Leadership Department has several assistantships for which students can apply.

Available Options for Graduate Degrees

<table>
<thead>
<tr>
<th>Master of Education</th>
<th>Option A - Thesis</th>

<td>Option C - Coursework Only</td>
<td>35 Credit Hours</td>
</tr>
</tbody>
</table>

Core Requirements
- EDER 610 - Introduction to Research Credits: 3
- EDFN 600 - Advanced Pedagogy Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- EDFN 730 - Current Issues in Education Credits: 3
- EPSY 740 - Advanced Educational Psychology Credits: 3

Select from the following
Select nine credits from the following. Credits: 9
- EDER 612 - Inquiry and Action Research Credits: 3
- EDER 711 - Educational Assessment (COM) Credits: 3
- EDFN 700 - Exceptional Learners Credits: 3
- EDFN 750 - Educational Technology Credits: 3

Select one of the following options

Option A - Thesis
- EDFN 798 - Thesis Credits: 1-6 (5 credits required)
- Approved Electives Credits: 1

Option B - Research/Design Paper
- EDER 788 - Master's Research Problems/Projects Credits: 1-2 (3 credits required)
- Approved Electives Credits: 5

Option C - Coursework Only
- Approved Electives Credits: 8

Total Required Credits: 30 (Option A), 32 (Option B), 35 (Option C)

Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based
IELTS: 5.5

Applicants must provide a resume, goal statement, and two letters of professional reference to Teaching, Learning, and Leadership. Once all material is received, it is reviewed by the Department. Students are assigned an admission status of "unconditional," "conditional" or "not admitted."

---

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Data Science (M.S.)

Program Coordinator/Contact
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

Program Information
The SDSU M.S. in Data Science is a one-year program that provides graduates with the statistical, mathematical, and computational skills needed to meet the large-scale data science challenges of today's professional world. The curriculum incorporates current techniques in statistics, operations research, predictive modeling, data mining, forecasting, big data programming and management, and data visualization. The program's focus is on application and interpretation of modern data analysis techniques of known value in today's professional world, both private and public sector.

Course Delivery Format
Courses will typically be delivered in on-campus classrooms, with occasional courses offered online.

Available Options for Graduate Degrees

<table>
<thead>
<tr>
<th>Master of Science</th>
<th>Option C - Coursework Only</th>
<th>30 Credit Hours</th>
</tr>
</thead>
</table>

Core Requirements
- INFS 762 - Data Warehousing and Data Mining Credits: 3 (DSU)
- INFS 772 - Programming for Data Analytics Credits: 3 (DSU)
- INFS 774 - Big Data Analytics Credits: 3 (DSU)
- STAT 600 - Statistical Programming Credits: 3
- STAT 601 - Modern Applied Statistics I Credits: 3
- STAT 602 - Modern Applied Statistics II Credits: 3

Electives
Credits: 12

The following courses will be the default elective curriculum beyond the core courses in the M.S. in Data Science program.
- MATH 575 - Operations Research (COM) Credits: 3
- STAT 545 - Nonparametric Statistics Credits: 3
- STAT 551 - Predictive Analytics I Credits: 3
- STAT 560 - Time Series Analysis Credits: 3

The following courses are available to students with appropriate mathematical and statistical prerequisite knowledge.
- MATH 675 - Operations Research II Credits: 3
- STAT 553 - Applied Bayesian Statistics Credits: 3
- STAT 651 - Predictive Analytics II Credits: 3
- STAT 684 - Statistical Inference I Credits: 3
- STAT 685 - Statistical Inference II Credits: 3
- STAT 686 - Regression Analysis I Credits: 3
- STAT 687 - Regression Analysis II Credits: 3
- STAT 715 - Multivariate Analysis I Credits: 3
- STAT 721 - Statistical Computing/Simulation Credits: 3
- STAT 731 - Survival Analysis Credits: 3
- STAT 742 - Spatial Statistics Credits: 3
- STAT 792 - Topics Credits: 1-3 (3 credits required)
Total Required Credits: 30 (Option C)

Dietetics (M.S.)

Program Coordinator/Contact
Kendra Kattelmann, Distinguished Professor
Department of Health and Nutritional Sciences
Wagner Hall 425, Box 2275A
605-688-5161

Program Information
Dietetics prepares Registered Dietitian Nutritionists to practice dietetics at an advanced level and/or pursue doctoral study. The program seeks to develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and food service/business management. This program prepares individuals to integrate and apply the principles ranging from the biomedical sciences, human behavior, and management to design, and to lead effective food, nutrition, health and wellness programs in a variety of settings. This online program will be a degree tailored for credentialed, practicing dietetics professionals who seek to enhance their knowledge in a specific area of dietetics practice or to retool for new career opportunities in dietetics practice.

Course Delivery Format
The program consists of lecture, laboratory, and experiential learning opportunities.

Student Support and Engagement Opportunities
The Department of Health and Nutritional Sciences aims to provide premier academic programs and high-quality services to students.

- NUTR 735 - Current Trends in Dietetics Practices Credits: 3
- NUTR 760 - Vitamins and Minerals in Human Nutrition Credits: 3
- STAT 541 - Statistical Methods II Credits: 3

Select one of the following options

Option A - Thesis
- HNS 798 - Thesis Credits: 1-7 (6 credits required)
- Electives Credits: 18

Option B - Research/Design Paper
- HNS 788 - Master's Research Problems/Projects Credits: 1-7 (3 credits required)
- Electives Credits: 21

Option C - Coursework Only
- Requires a comprehensive written exam
- Electives Credits: 24

Total Required Credits: 36 (Option A, B, & C)

Additional Admission Requirements
GRE: Not required
TOEFL: required score of 550 paper-based, 79-80 Internet-based
IELTS: 6.0

Students must be credentialed as a Registered Dietitian by the Commission on Dietetic Registration (CDR) of the Academy of Nutrition and Dietetics, submitting a copy of a current RD or RDN card as documentation.

General Requirements
The student's option and schedule of courses must be approved by his/her faculty advisor and graduate committee.
See Master's Degree Requirements.

Economics (M.S.)

Program Coordinator/Contact
Joseph M. Santos, Professor/Graduate Coordinator
Department of Economics
Harding Hall
605-688-4141

Program Information
The graduate program in economics prepares students for professions in business and government as well as for advanced studies in economics and finance. Program requirements include one course in microeconomics (advanced microeconomic theory or applied managerial economics) and one course in quantitative analysis (econometrics or advanced business decision science). The program offers two curriculum options: an economic theory option and an applied business-economics option. In any case, students customize their plans of study, emphasizing one of the following four subject areas.

- Agricultural Business
- Agricultural and Resource Economics
- Business Economics
- General Economics

The Department of Economics offers an accelerated master's program, which allows qualified students to work toward their master's degree in economics while they complete their undergraduate degree.

Course Delivery Format
The Department of Economics generally delivers graduate courses in a face-to-face format. On occasion, the department delivers an elective course in an online format. The department delivers its business-economics curriculum-option courses in flexible formats, including evening, weekend, and blended courses.

Student Support and Engagement Opportunities
The Department of Economics prides itself on providing excellent academic programs and offering high-quality services to students. A limited number of research and teaching assistantships and scholarships may be available to qualified students enrolled in the economic research curriculum option.
Graduate Student Association (EGSA) supports graduate-student engagement opportunities, as well.

<th>30 Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Master of Science</td>
<td>Option B - Research/Design Paper</td>
<td>32 Credit Hours</td>
</tr>
</tbody>
</table>

**Core Requirements**

- ECON 531 - Managerial Economics Credits: 3
- or ECON 704 - Advanced Microeconomics Credits: 3
- DSCI 660 - Advanced Business Decision Science Credits: 3
- or ECON 705 - Econometrics Credits: 3

**Select one of the following options**

**Option A - Thesis**

- ECON 798 - Thesis Credits: 1-7 (5 credits required)
- Approved Electives Credits: 19

**Option B - Research/Design Paper**

- ECON 788 - Master's Research Problems/Projects Credits: 1-2 (2 credits required)
- Approved Electives Credits: 24

**Total Required Credits:** 30 (Option A), 32 (Option B)

**Additional Admission Requirements**

- GRE: Not required
- TOEFL: Department requirement of 575 paper-based, 90-91 Internet-based
- IELTS: 6.0

The minimum prerequisites for unconditional admission into the program are successful completion of ECON 301, ECON 302, and undergraduate courses in statistics and calculus.

Two letters of reference are required.

**Accelerated Master's Program**

The program offers an accelerated master's degree to qualified undergraduate students who maintain at least a 3.5 GPA in their economics major; these students may begin their graduate studies while they complete their undergraduate degree. Students may apply for admission to the accelerated master's degree program once they have completed 60 undergraduate credits. Students interested in the accelerated master's degree should contact the Department of Economics graduate coordinator to obtain application requirements. Application and admission to the Graduate School is required.

Contact the Graduate Coordinator for further information.

**General Requirements**

Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

**Educational Administration (M.Ed.) - Elementary Education Specialization**

**Program Coordinator/Contact**

Jay Trenhaile, Interim Department Head
Katherine Bertolini, Assistant Professor/Graduate Coordinator
Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

**Program Information**

The M.Ed. degree in Educational Administration is designed to meet the needs of individuals who work (or plan to work) in an administrative capacity. The department of Teaching, Learning, and Leadership provides professional preparation for those who expect to become qualified administrators in schools where certification is required, and for other institutions, businesses, industries and service-orientated agencies where an administrative program is of value.

The elementary specialization in Educational Administration meets the requirements for endorsement as a principal in South Dakota. Those seeking to complete the requirements for the principalship will have very limited flexibility in the coursework taken. See below for the coursework. These requirements are designed to meet the ELCC Standards as required by law.

The South Dakota State Board of Education requires that in order to be endorsed, individuals must have three years of verified teaching experience on a valid teaching certificate in a K-12 school, one year of which includes classroom experience or direct services to student.

Students are able to choose from either a program in which only coursework is required or a program in which they must complete a research project. If a student elects to take only course work (Plan C), the student must complete a minimum of 35 credit hours in order to graduate. If the research option is chosen, the student must complete a minimum of 32 credit hours including EDER 788 Research Problems (Plan B).

**Course Delivery Format**

The program can be completed online through the Brookings Campus or face-to-face through West River Graduate Center in Rapid City which also offers coursework in Gillette, Wyoming.

**Student Support and Engagement Opportunities**

The Teaching, Learning, and Leadership Department has several assistantships for which students can apply.

**Available Options for Graduate Degrees**

- EDFN 600 - Advanced Pedagogy Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- EDFN 730 - Current Issues in Education Credits: 3
- EPSY 740 - Advanced Educational Psychology Credits: 3

**Select from the following**

Select nine credits from the following. Credits: 9

- ECE 794 - Internship Credits: 1-7 (2 credits required)
- or EDFN 794 - Internship Credits: 1-6 (2 credits required)
- EDFN 701 - Capstone Credits: 1
- Approved Electives Credits: 8

**Option C - Coursework Only**

- ECE 794 - Internship Credits: 1-7 (2 credits required)
- or EDFN 794 - Internship Credits: 1-6 (2 credits required)
- EDFN 701 - Capstone Credits: 1
- Approved Electives Credits: 8

**Total Required Credits:** 35 (Option B & C)

**Additional Admission Requirements**

- GRE: Not required
- TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based
- IELTS: 5.5

Applicants must provide a resumé, goal statement, and two letters of professional reference to Teaching, Learning, and Leadership. Once all material is received, it is reviewed by the Department. Students are assigned an admission status of "unconditional," "conditional" or "not admitted."

**General Requirements**

Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
### Educational Administration (M.Ed.) - Secondary Education Specialization

**Program Coordinator/Contact**
Jay Trenhaile, Interim Department Head
Katherine Bertolini, Assistant Professor/Graduate Coordinator
Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

**Program Information**

Applicants must provide a resume, goal statement, and two letters of professional reference to Teaching, Learning, and Leadership. Once all material is received, it is reviewed by the Department. Students are assigned an admission status of "unconditional," "conditional," or "not admitted."

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

### Electrical Engineering (M.S.)

**Program Coordinator/Contact**
George Hamer, Interim Department Head
Qiquan Qiao, Harold C. Holbch Professor
Department of Electrical Engineering and Computer Science
Daktronics Eng Hall 214, Box 2222
605-688-4526

**Program Information**
The program offers a variety of courses that encompass a broad range of Electrical Engineering areas including: alternative energy and power systems; computer engineering, communications; electronic materials, devices and sensors; nano technology, photovoltaic devices and systems; and signal and image processing.

The department's graduate faculty conduct active research in these areas using modern research facilities and equipment.

**Program Objectives**
The EE graduate program objectives are to equip individuals to
1. Discover and disseminate knowledge relevant to the discipline of electrical engineering.
2. Provide leadership for increasingly complex roles in electrical engineering and industry.
3. Contribute to the advancement of the science of electrical engineering serving regional and national needs.

**Course Delivery Format**
A majority of the courses are taught on campus in smart classrooms. The smart classrooms allow for a variety of methods for student engagement and faculty are able to record and post their lectures on-line.

**Facilities and Services**
With more than $12 million invested in classrooms and laboratories, graduate students benefit from modern lecture rooms and gain valuable experience using state-of-the-art equipment. The recently dedicated modern Daktronics Engineering Hall is home to the Electrical Engineering program with over 15,000 square feet of dedicated research space. The department boasts a 5-bay multi-million dollar clean room, several class one gloveboxes, and nano-characterization labs for developing both organic and inorganic electronics, as well as numerous other labs for research in fiber optics, power and alternative energy systems, and sensors.

- Electives Credits: 13-17

**Option C - Coursework Only**
- Electives Credits: 19-22

**Total Required Credits: 30 (Option A), 32 (Option B), 35 (Option C)**

**Additional Admission Requirements**
- GRE: General scores required
- TOEFL: Department requirement of 575 paper-based, 90-91 Internet-based
- IELTS: 5.5

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

---

**Engineering (M.Eng.)**

**Program Coordinator/Contact**
Teresa Hall, Professor
Jerome J. Lohr College of Engineering
Solberg Hall 116, Box 2223
605-688-6417

**Program Information**
The Master of Engineering program is a professional degree designed to grow your capacity to manage and lead in complex technical organizations. The program is 50% advanced engineering courses, 50% management and leadership courses, and can be completed on-campus or on-line.
The Master of Engineering (M.Eng.) is a terminal or professional degree as it is coursework only – no thesis. This graduate program is tailored to meet the needs of working professionals at their own pace or for senior-level engineering students who want to earn a graduate degree while still at SDSU*. Core classes include project management, operations, and management and leadership, culminating in an applied industry-based project. Advanced engineering courses come from civil, electrical, mechanical, or agricultural engineering disciplines.
The M.Eng. program has a dedicated industrial advisory board to provide input and guidance on expected student competencies and program outcomes.
At the time of graduation from the Master of Engineering program, students will have:
- in-depth technical knowledge in engineering;
- knowledge of contemporary leadership and management in professional practice;
- a demonstrated ability to apply engineering, management and leadership concepts; and,
- a demonstrated ability to effectively communicate verbally, graphically and in writing.
The Capstone course (GE 750) is used to determine whether students have met expected program outcomes. In the Capstone course, students are expected to manage and execute an industry-based project or similar complex application of technical knowledge and management analysis skills.

**Course Delivery Format**
The program engages students in lecture (face-to-face and online), laboratory courses, and in field-based learning experiences, depending on the elective courses selected. The program is primarily online.

*Elective courses may be used only if: (1) 500-level or higher, (2) they support a coherent plan of study, and (3) they are approved by the M.Eng Program Advisor and Graduate School.

**Total Required Credits: 30 (Option D)**

---

**English (M.A.)**

**Program Coordinator/Contact**
Jason McIntee, Department Head
Sharon Smith, Assistant Professor/Graduate Coordinator
Department of English
Pugsley Continuing Education Center 301, Box 2218
605-688-5191

**Program Information**
SDSU's English department offers the M.A. degree in English. There are two emphases available to students:
- Studies in Literature
- Studies in Writing and Rhetoric

Within these two areas of study, the department offers three options for completing the degree:
- Option A requires twenty-four credit hours of coursework, six credit hours of thesis, a thesis project, and an oral examination. Within this option, the student may write a critical or a creative thesis.
- Option B requires thirty credit hours of coursework, two credit hours of research, a research/design project, and an oral examination.
- Option C requires thirty-six credit hours of coursework, a comprehensive written examination, and an oral examination.

Either option will support a variety of educational or professional goals. Students generally complete the program in two to three years.

**Student Learning Outcomes**
The English department's M.A program prepares students for professional careers or further graduate study by developing their capacities for textual analysis, research, theory, and creative and critical writing.
Upon completing the English M.A. program, students will be able to:

- Demonstrate an advanced ability to analyze and interpret literary and cultural texts.
- Examine significant texts, authors, periods, movements, genres, theories, and/or modes from literary history, interpreting the relationship between texts and their historical, aesthetic, cultural, and/or ideological contexts.
- Compose sophisticated argumentative, creative, and/or reflective texts that demonstrate focus, content, structure, evidence, style, and grammar appropriate to their rhetorical contexts.
- Demonstrate an advanced ability to apply theoretical concepts to the writing and analysis of texts.
- Produce original research that advances knowledge within the discipline; generates questions for scholarly inquiry; identifies its methodological and theoretical foundations; employs library resources and discipline-specific databases; evaluates and integrates secondary criticism; and documents sources using MLA style.
- Explain how literature both reflects and enriches the diversity of human experience through its exploration of the ways in which race, ethnicity, religion, gender, sexuality, ability, and/or class shape identity and influence perception.
- Deliver instruction that demonstrates a growing mastery of course content (cultural analysis, rhetoric, grammar, and research) and increasing skill in helping students of varying abilities improve their cultural awareness, critical acumen, reading comprehension, and writing competence. (Graduate teaching assistants only.)

Course Delivery Format
Graduate courses are delivered face-to-face in small, seminar settings.

Student Support and Engagement Opportunities
The department offers a number of graduate teaching assistantships for the nine-month academic year. Teaching assistants take two graduate classes each semester and teach either two sections of composition or one section of composition with duties in the Writing Center. The assistantship is renewable each year, providing the student is making good academic progress and receives satisfactory teaching evaluations. Graduate teaching assistants receive a stipend, office space, faculty library status, and a full tuition waiver. Applicants who wish to be considered for a graduate teaching assistantship should indicate their interest in the statement of purpose submitted to the Graduate School as part of their online application.

Available Options for Graduate Degrees

Master of Arts
Option A - Thesis
- ENGL 704 - Introduction to Graduate Studies Credits: 3
- ENGL 705 - Seminar in Teaching Composition Credits: 3 required for all Teaching Assistants
- Option A - Thesis
- Electives Credits: 18

Option B - Research/Design Paper
- ENGL 788 - Master's Research Problems/Projects Credits: 1-6 (2 credits required)
- Electives Credits: 24

Option C - Coursework Only
- Electives Credits: 30

Total Required Credits: 30 (Option A), 32 (Option B), 36 (Option C)

Additional Admission Requirements
To be considered for admission into the M.A. Program in English, the applicant should have a minimum of 24 semester hours of undergraduate credit in English or receive the consent of the Department Head. To be considered for unconditional acceptance and to be eligible for a graduate teaching assistantship, applicants must have at least a 3.0 undergraduate GPA and a 3.25 GPA in their undergraduate English courses.

GRE: Not required
TOEFL: Department requirement of 600 paper-based, 100 Internet-based
IELTS: Department requirement of 7.0

In addition to the materials required by the Graduate School, the English department requires the following application materials:

- A one-page statement of purpose explaining the applicant's interest in and goals for graduate study. The statement of purpose should indicate whether or not the applicant would like to be considered for a graduate teaching assistantship. The applicant may upload this statement while completing the Graduate School’s online application.
- An eight- to ten-page critical writing sample. This sample must engage in critical research and include a works cited page. The applicant may upload this writing sample while completing the Graduate School’s online application.
- Two letters of recommendation from faculty at the applicant's undergraduate institution. Letters should come from faculty who are directly familiar with the applicant's academic work. They must address the applicant's scholarly potential and may also speak to the applicant's potential as a graduate teaching assistant. Letters should come directly from the recommenders, who may submit their letters electronically along with the personal recommendation form provided by the Graduate School. The Graduate School will email recommenders detailed instructions for submitting their recommendations using the contact information provided by the applicant.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Geography (M.S.)

Program Coordinator/Contact
Robert Watrel, Interim Department Head
Darrell Napton, Professor/Graduate Coordinator
Department of Geography
Wecota Hall 109, Box 506
605-688-4511

Program Information
The Department of Geography offers graduate students the opportunity to earn a Master of Science Degree. The curriculum, organized through formal courses, seminars, internship experiences, and supervised research, is designed to prepare students for positions in such professional areas as planning, remote sensing, geographic information sciences, government services, research, business, and teaching. The program also is designed to provide students with the education needed to pursue further graduate study. Students seeking this degree are expected to select courses that will provide a sound foundation in geography (philosophical, physical and human, and research techniques) supported, if appropriate, by courses outside the department. Students may also seek out opportunities such as the cooperative program with the EROS Data Center and/or internships, generally available with planning districts, governmental agencies, business, and industry.

Course Delivery Format
Geography is not only a classroom subject but one that also includes laboratory research, fieldwork, and travel, as well as limited online coursework.

Facilities and Services
The department houses the Geospatial Sciences Center of Excellence and produces its own annual Geography Convention, the longest running such event in the United States.

Student Support and Engagement Opportunities
The department provides numerous opportunities for student engagement. For example, the Geography Club is a student organization centered on both academic and social functions. Membership is open to anyone interested. Additionally, the South Dakota State Geography Convention.

Students and faculty regularly travel including attendance at regional and national geography meetings, as well as travel to other parts of the world in pursuit of their individual scholarly interests. SDSU Geography also has a connection with a university in Romania. The exchanges that result from this relationship provide invaluable international experience for students, which is critical in the increasingly globalized world.

Academic Programs 101
Available Options for Graduate Degrees

Master of Science  Option A - Thesis  30 Credit Hours
Option B - Research/Design Paper  32 Credit Hours

Core Requirements
- GEOG 710 - Evolution of Geographic Thought Credits: 3
- GEOG 714 - Research and Writing Credits: 3

Additional Admission Requirements
GRE: Required
TOEFL: Department requirement of 590 paper-based, 80 Internet-based
IELTS: 6.5

The Department of Geography has listed the following additional admission requirements:
1. Submission of Graduate Record Examination (GRE) scores.
2. Submission of 1-2 page statement describing applicants' interests in the master's program in Geography at SDSU.
3. Submission of two (2) letters of recommendation from persons acquainted with the academic ability and professional competency of the applicant.
4. Bestow conditional status on those applicants who have not completed the following courses or their equivalents prior to entering the program:
   - GEOG 131 (Physical Geography: Weather & Climate) or GEOG 132 (Physical Geography: Natural Landscapes)
   - GEOG 200 (Human Geography) or GEOG 210 (World Regional)
   - GEOG 372 (Introduction to GIS)
   These courses may be completed pass/fail.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Geography (M.S.) - Geographic Information Sciences Specialization

Human Biology (M.S.)

Program Coordinator/Contact
Volker Brözel, Department Head
Department of Biology and Microbiology
Alfred Dairy Science Hall 228, Box 2104A
605-688-6141

Program Information
The M.S. in Human Biology provides graduate-level preparation for students for successful admission to professional schools, including those not admitted directly to professional school from an undergraduate program. The program is designed to provide graduate-level preparation for students who desire admission to professional schools in human healthcare. This includes but is not limited to programs such as: Allopathic Medical Doctor (M.D.), Doctor of Osteopathic Medicine (D.O.), Doctor of Optometry (O.D.), Doctor of Chiropractic (D.C.), Doctor of Dental Surgery (D.D.S), and Master of Science – Physician Assistant Studies (M.S. – PAS). The M.S. program allows for additional opportunities to demonstrate their academic excellence and polish their professional skills. This program directly strengthens the academic capacity of the student with special attention to advanced content knowledge and case based application, professional development and professional skills needed by the healthcare provider.

Academic Requirements
Students must maintain an overall program grade point average of 3.0.

Course Delivery Format
Biology courses are delivered in traditional lecture, laboratory, seminar and discussion formats.

Available Options for Graduate Degrees
Master of Science Option B - Research/Design Paper 32 Credit Hours

Core Requirements
- BIOL 576 - Advanced Mammalian Physiology Credits: 4
- BIOL 719 - Professional Development Seminar Credits: 1-4 (4 credits required)
- BIOL 721 - Advanced Human Anatomy Credits: 4
- BIOL 721L - Advanced Human Cadaver Dissection Credits: 0
- BIOL 788 - Master's Research Problems/Project Credits: 1-3 (2 credits required)
- BIOS 662 - Advanced Molecular Biology Credits: 3 (6 credits required)
- BIOS 792 - Topics Credits: 1-6 (3 credits required) (Epigenetics)

Electives
Select nine credits from the following. Credits: 9
- BIOL 567 - Parasitology Credits: 3
- BIOL 567L - Parasitology Laboratory Credits: 0
- BIOL 570 - Cancer Biology Credits: 3
- BIOL 583 - Developmental Biology (COM) Credits: 3
- BIOL/MICR 500-700 A course determined by the advisor and the student. Credits: 3
- MICR 524 - Medical and Veterinary Virology Credits: 3
- MICR 533 - Medical Microbiology (COM) Credits: 3
- MICR 539 - Medical and Veterinary Immunology Credits: 3

Total Required Credits: 32 (Option B)

Additional Admission Requirements
GRE: Not required
TOEFL: Score of 525 paper-based, 71 Internet based
IELTS: 5.5

Accelerated Master's Program
The accelerated Master's program will be available to eligible SDSU students conditionally admitted to the graduate program. Up to 6 credits applied to the B.S. program may be used to satisfy graduate credit. Students will enroll in the graduate coursework in the spring of their final undergraduate year. Once students complete the graduate coursework in the M.S. in Human Biology with B or above grades, and graduate with a B.S. in Human Biology, including all dual-credit courses, they will by fully accepted into the program.

In order to apply, students must:
1. Be enrolled in the B.S.in Human Biology;
2. Have earned 90 undergraduate credits with a GPA of 2.9 or higher;
3. Meet all degree requirements as stipulated by Regental or University policy;
4. Submit to the a statement of interest identifying how the M.S. in Human Biology will contribute to their academic and career goals;
5. Submit at least two letters of reference regarding his/her ability to participate in the program;
6. Submit scores for the GRE, MCAT, DAT, or OAT; and
7. Submit the application for admission to the graduate school.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Human Sciences (M.S.) - Developmental Sciences Specialization

Program Coordinator/Contact
Jay Trenhaile, Department Head
Department of Counseling and Human Development
Wenona Hall 109, Box 507
605-688-4367

Program Information
The Human Sciences (M.S.) - Developmental Sciences Specialization provides students with graduate training in an interdisciplinary field that examines human development across the lifespan in cultural, social, and family contexts. Students will complete advanced coursework in the areas of child, adolescent, and adult development with an emphasis in multicultural, diverse learners, and learning sciences. The specialization provides advanced training for individuals working in outreach and advocacy, health, and human services, education, and businesses and corporations.

Course Delivery Format
Courses for the Developmental Sciences Specialization will be delivered on campus in Brookings and online.

Available Options for Graduate Degrees
Master of Science Option A - Thesis 36 Credit Hours
Option C - Coursework Only 36 Credit Hours

Core Requirements
- CHRD/ HDFS 602 - Research and Evaluation in Counseling and Human Development Credits: 3
- CHRD 731 - Multicultural Counseling and Human Relations Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- ECE 711 - Developmental Theory and Application Credits: 3
- HDFS 614 - Adult Development Credits: 3
- HDFS 711 - Child Development Theory and Application Credits: 3
- ECE 715 - Cognitive Development Credits: 3
- HDFS 525 - Family Resiliency Credits: 3
- HDFS 701 - Current Issues in Developmental Sciences Credits: 3
- HDFS 710 - Program Design, Evaluation, and Implementation Credits: 3
- HDFS 730 - Grant Writing Credits: 3

Select one of the following options

Human Development in Diverse Context
Credits: 12
- CHRD/ HDFS 702 - Advanced Human Sexuality Credits: 3
- HDFS 525 - Family Resiliency Credits: 3
- HDFS 742 - Family Theory and Research Credits: 3
- HDFS 744 - Diverse Families Credits: 3
Human Development in Educational Context

Credits: 12
- ECE 645 - Contemporary Perspectives in Early Childhood Education Credits: 3
- EDER 612 - Inquiry and Action Research Credits: 3
- EDFN 600 - Advanced Pedagogy Credits: 3
- EPSY 740 - Advanced Educational Psychology Credits: 3

Select one of the following options

Option A - Thesis
- HDFS 798 - Thesis Credits: 1-7

Option C - Coursework Only
- Electives determined in consultation with advisor Credits: 6

Total Required Credits: 36 (Option A & C)

Additional Admission Requirements
GRE: Not Required
TOEFL: Department Requirements of 525 paper-based, 71 Internet-based IELTS: 5.5

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Human Sciences (M.S.) - Family & Community Services Specialization

Program Coordinator/Contact
Ann Michelle Daniels, Associate Professor
Department of Counseling and Human Development
Wenona Hall 005, Box 507
605-688-4036

Program Information
The goal of the online M.S. specializing in Family and Community Services is to provide advanced, professional education and research expertise that focuses on improving individual, family, and community well-being. This specialization is delivered entirely online through Great Plains Interactive Distance Education Alliance (Great Plains IDEA) and is designed to meet the educational needs of military service members and their spouses. Students who successfully complete this specialization will earn a Master of Science in Human Sciences specializing in Family and Community Services.

Course Delivery Format
The online program has been developed by faculty from the Great Plains IDEA. Courses will be entirely Internet based and will be taught by faculty within the Alliance (Kansas State University, Michigan State University, Oklahoma State University, South Dakota State University, University of Missouri, and University of Nebraska). Courses are offered fall, spring and summer semesters.

Available Options for Graduate Degrees

Master of Science
Option A - Thesis 36 Credit Hours

Option C - Coursework Only 36 Credit Hours

Core Requirements
- HDFS 501 - Foundations and Principles of Community Service Credits: 3
- HDFS 510 - Parenting Credits: 3
- HDFS 525 - Family Resiliency Credits: 3
- HDFS 605 - Program Administration and Management Credits: 3
- HDFS 610 - Family Resource Management Credits: 3
- HDFS 620 - Family Dynamics Credits: 3
- HDFS 630 - Lifespan Development Credits: 3
- HDFS 635 - Crises Across the Lifespan Credits: 3
- HDFS 640 - Interpersonal Relationships Credits: 3
- HDFS 710 - Program Design, Evaluation, and Implementation Credits: 3
- HDFS Electives: 6
- HDFS 798 Thesis (Option A)
- Elective Coursework (Option C)

Total Required Credits: 36 (Option A & C)

Additional Academic Requirements
GRE: Not Required
TOEFL: Department Requirements of 525 paper-based, 71 Internet-based IELTS: 5.5

STEP 1: Applicant Applies to the Graduate School
- Apply to the Graduate School at least two months before the FCS/ADW deadline to allow for processing
- Graduate School applications received after the FCS/ADW deadline will be denied and referred to the next semester
- The minimum GPA to apply is 2.75, however a 3.0 or higher is desired
- GRE is not required

STEP 2: Applicant Applies to the FCS or AWD Program
- Applicants to the FCS/ADW programs must submit the documents below by April 1 for fall admission or October 1 for spring admission. Late or incomplete applications will be denied.
- Resume
- A one page, typed goal statement explaining your professional goals and how completion of this degree will assist you in meeting those goals
- Three letters of recommendation prepared within the past year; one letter must come from an academic professor

STEP 3: Admissions Decision
- Complete admission files will be reviewed by faculty for an admissions decision. The Graduate School will notify the applicant via email about their admission status.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Human Sciences (M.S.) - Family & Consumer Sciences Education Specialization

Program Contact/Coordinator
Nicole Graves, Lecturer
Department of Teaching, Learning, and Leadership
Wenona Hall 108, Box 507
605-688-5039

Program Information
There is a strong demand for family and consumer sciences teachers and education professionals nationwide. Through the online Great Plains Interactive Distance Education Alliance (Great Plains IDEA) program, graduates will earn a Master's of Science in Human Sciences with a specialization in Family and Consumer Sciences Education. Students in the program develop skills in planning curriculum, creating physical and psychological learning environments conducive to learning, developing engaging activities for learners, integrating technology, advising student organizations, working with diverse audiences and analyzing the historical and philosophical underpinnings of the family and consumer sciences profession. Courses will also address professionalism and applying research to practice.

There are two emphases within this specialization:
1. Teacher Licensure/Certification Emphasis - This emphasis is designed for those seeking initial teacher certification and is a teacher preparation focused program.
2. Professional Practice Emphasis - This emphasis is designed for practicing professionals in family and consumer sciences education and extension and is a professional development/advancement focused program.

Accreditation, Certification, and Licensure

Accreditation
The programs in Teaching, Learning, and Leadership are accredited by the National Council for Accreditation of Teacher Education (2010 Massachusetts Ave., NW, Suite 500, Washington, D.C. 20036-1023; Phone 202-466-7496). In order to become a licensed/certified family and consumer sciences educator,
students may require additional content courses, tests or other individual state requirements.

Course Delivery Format
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (Great Plains IDEA), Courses will be entirely Internet based and will be taught by faculty within the Alliance (Central Washington University, North Dakota State University, South Dakota State University, Texas Tech University, and University of Nebraska - Lincoln). Courses are offered fall, spring and summer semesters.

Available Options for Graduate Degrees

**Teacher Licensure/Certification Emphasis**

- Master of Science
  - Option C - Coursework Only 38-41 Credit Hours

**Professional Practice Emphasis**

- Master of Science
  - Option C - Coursework Only 36 Credit Hours

Core Requirements

**Teacher Licensure/Certification Emphasis**

- EDFN 700 - Exceptional Learners Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- EDFN 730 - Current Issues in Education Credits: 3 (Teaching Reading Across Disciplines)
- EDFN 792 - Topics Credits: 1-3 (3 credits required) (Teaching FCS with Technology)
- EPSY 723 - Adolescent Psychology Credits: 3
- FCSE 595 - Practicum Credits: 1-3 (2 credits required)
- FCSE 611 - History and Philosophy of Family and Consumer Sciences Credits: 3
- FCSE 673 - Supervised Student Teaching in Family and Consumer Sciences Education Credits: 6-9 (credit requirement based on certification requirements)
- FCSE 721 - Occupational Programs in Family and Consumer Sciences Credits: 3
- FCSE 751 - Curriculum of Family/Consumer Sciences Education Credits: 3
- FCSE 761 - Advanced Methods and Assessment in Family & Consumer Sciences Education Credits: 3

**Total Required Credits: 38-41 (Option C)**

**Professional Practice Emphasis**

- EDFN 730 - Current Issues in Education Credits: 3 (Teaching Reading Across Disciplines)
- EDFN 792 - Topics Credits: 1-3 (3 credits required) (Teaching FCS with Technology)
- FCSE 611 - History and Philosophy of Family and Consumer Sciences Credits: 3
- FCSE 721 - Occupational Programs in Family and Consumer Sciences Credits: 3
- FCSE 761 - Advanced Methods and Assessment in Family & Consumer Sciences Education Credits: 3
- FCSE 792 - Topics Credits: 1-3 (3 credits required) (Current Trends)
- FCSE 792 - Topics Credits: 1-3 (3 credits required) (Supervision of Student Teachers OR Administration of FCS Education Programs)
- FCSE 792 - Topics Credits: 1-3 (3 credits required) (Advising FCCLA)
- HDFS 602 - Research and Evaluation in Counseling and Human Development Credits: 3

Select from the following

- EPSY 723 - Adolescent Psychology Credits: 3
- EDFN 700 - Exceptional Learners Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- EPSY 723 - Adolescent Psychology Credits: 3
- or other elective coursework approved by advisor

**Total Required Credits: 36 (Option C)**

**Additional Admission Requirements**

- GRE: Not Required
- TOEFL: Department Requirements of 525 paper-based, 71 Internet-based
- IELTS: 5.5

**General Requirements**

Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

**Human Sciences (M.S.) - Family Financial Planning Specialization**

**Program Contact/Coordinator**

Jane Hegland, Associate Dean
Wookjae Heo, Assistant Professor
Department of Consumer Sciences
Wagner Hall 229, Box 2275A
605-688-5196

**Program Information**

The online M.S. in Human Sciences – Family Financial Planning program will allow students to enhance personal finance knowledge, gain eligibility to sit for the CFP® Certification Examination, increase networking opportunities, and improve career options. Family financial planning is an emerging area with job opportunities in areas related to insurance, real estate, investments, retirement, tax and estate planning. Financial planners are increasingly in demand as Americans seek advisors to help manage their income, assets, and debts.

The curriculum consists of twelve 3-credit courses taken in any order with the Financial Planning Case Study course designed as a capstone to the program. The elective six credit-hours include supervised experiences or projects in family financial planning.

**Accreditation, Certification, and Licensure**

The Family Financial Planning program is registered by the CERTIFIED FINANCIAL PLANNER™ Board of Standards. CFP® and CERTIFIED FINANCIAL PLANNER™ are federally registered service marks of the CERTIFIED FINANCIAL PLANNER™ Board of Standards, Inc. They are granted by the CFP Board to those persons who have fulfilled a comprehensive educational requirement, passed the CFP® Certification Examination, satisfied a work experience requirement and agreed to abide by the CFP® Board code of ethical conduct.

- The graduate certificate in Financial Planning does not guarantee a student will pass the CFP® exam.
- In earning the graduate certificate in Financial Planning through the Great Plains Interactive Distance Education Alliance (Great Plains IDEA), students receive the education required to take the exam.
- After completing the necessary educational requirements, students work with the CFP Board on examination, experience and ethics requirements for CFP® certification.

Certified Financial Planner™ professionals have the satisfaction of helping people solve their financial problems and reach their financial goals. The CFP Board website at www.cfp.net has extensive CFP® certification information.

Students admitted to the Great Plains IDEA online degree program are advised to obtain the Guide to CFP® Certification. The guide includes an application for the exam, exam fee information, exam procedures and information on the required work experience.

- Certified Financial Planner Board of Standards Inc. owns the marks CFP®, CERTIFIED FINANCIAL PLANNERTM, and CFP (with flame logo)®, which it awards to individuals who successfully complete initial and ongoing certification requirements.
Acquainted with the academic ability or professional competency of the applicant.

Additional Admission Requirements
GRE: Not Required
TOEFL: Department Requirements of 525 paper-based, 71 Internet-based
IELTS: 5.5

Students enter the Great Plains IDEA program through application and admission to the South Dakota State University Graduate School. The Graduate School requires a minimum undergraduate GPA of 3.0 for unconditional admission into any program. The program accounts for life experience as a part of conditional admission to the program. Three Letters of Recommendation from persons acquainted with the academic ability or professional competency of the applicant should be sent directly to Dr. Heo at wookjae.heo@sdstate.edu.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Human Sciences (M.S.) - Merchandising Specialization

Program Contact/Coordinator
Jane Hegland, Associate Dean
Department of Consumer Sciences
Wagner Hall 229, Box 2275
605-688-5196

Program Information
The M.S. in Human Sciences specialization in Merchandising provides an understanding of merchandising at every level, with emphasis on current trends in the United States and the global marketplace, factors that will distinguish graduates among their peers. Students can obtain a focus on the merchandising aspect of the business. The additional expertise offered through the merchandising certificate may position individuals for career advancement or a new career in merchandising. Graduates of the program are prepared to work in product development, promotions, and retail management in this ever-expanding industry.

Course Delivery Format
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (Great Plains IDEA). Courses will be entirely Internet based and will be taught by faculty within the Alliance (Iowa State University, Kansas State University, Montana State University, North Dakota State University, Oklahoma State University, South Dakota State University, and University of Missouri). Courses are offered fall, spring and summer semesters.

Available Options for Graduate Degrees

Master of Science
Option A - Thesis 36 Credit Hours
Option B - Research/Design Paper 36 Credit Hours
Option C - Coursework Only 36 Credit Hours

Core Requirements
- CA 612 - Financial Counseling Credits: 3
- CA 621 - Financial Theory and Research I Credits: 3
- CA 640 - Fundamentals of Family Financial Planning Credits: 3
- CA 660 - Investing for Family's Future Credits: 3
- CA 680 - Insurance Planning for Families Credits: 3
- CA 704 - Estate Planning for Families Credits: 3
- CA 725 - Family, Employment Benefits and Retirement Planning Credits: 3
- CA 735 - Personal Income Taxation Credits: 3
- CA 755 - Financial Planning Case Study Credits: 3

Select one of the following options

**Option A - Thesis**
- CA 798 - Thesis Credits: 1-6 (6 credits required)
- Electives Credits: 3

**Option B - Research/Design Paper**
- CA 788 - Master's Research Problems/Projects Credits: 3 (3 credits required)
- Electives Credits: 6

**Option C - Coursework Only**
- Electives Credits: 9

Coursework for Option C - Coursework Only requires 9 credits from the Electives courses listed below. Students choosing Option A - Thesis or Option B - Research Project instead of Option C, then choose any remaining credit hours from the Electives list.
- CA 595 - Practicum Credits: 1-6 (3-6 credits required)
- CA 645 - Military Personal Financial Readiness Credits: 3
- CA 715 - Housing and Real Estate in FFP Credits: 3
- CA 721 - Financial Theory and Research II Credits: 3
- CA 745 - Professional Practices in Financial Planning Credits: 3
- CA 790 - Seminar Credits: 3
- STAT 541 - Statistical Methods II Credits: 3

Total Required Credits: 36 (Option A, B, & C)

Additional Admission Requirements
GRE: Not Required
TOEFL: Department Requirements of 525 paper-based, 71 Internet-based
IELTS: 5.5
Graduate students should consult with their advisor before registering for graduate work. For additional information refer to the Master's Degree Requirements.

**Industrial/Organizational Psychology (M.S.)**

**Program Contact/Coordinator**  
Rebecca Martin, Interim Department Head  
Department of Psychology  
Hansen Hall 029  
605-688-4930

**Program Information**  
Industrial Organizational (I/O) Psychology is a unique sub-discipline of psychology which applies research that improves the well-being and performance of people and their organizations. The field encompasses areas such as personnel selection, performance appraisal, work motivation, and organizational development.

The SDSU I/O M.S. program is a 2-year, full-time program where students complete 44 credits of coursework, an internship between the 1st and 2nd academic year, and a master's thesis. The program is based on a cohort model, where students progress through the program together and take the same courses at the same time. The program adheres to the scientist-practitioner model, which balances the training of research and applied skills, and is the basis of training in the field of I/O psychology.

**Course Delivery Format**  
Industrial/Organizational Psychology graduate courses are delivered at the Brookings Main Campus in face-to-face term based instruction.

**Available Options for Graduate Degrees**  
Master of Science  
Option A - Thesis  
44 Credit Hours

**Core Requirements**
- PSYC 602 - Advanced I/O Psychology Credits: 3
- PSYC 625 - Job Analysis and Performance Appraisal Credits: 3
- PSYC 626 - Training Credits: 3
- PSYC 627 - Teams in Organizations Credits: 3
- PSYC 692 - Topics Credits: 1
- PSYC 717 - Applied Research Methods in I/O Psychology Credits: 4
- PSYC 728 - Leadership and Motivation Credits: 3
- PSYC 729 - Personnel Selection Credits: 3
- PSYC 730 - Tests and Measurements Credits: 3
- PSYC 731 - Work Attitudes Theory and Measurement Credits: 3
- PSYC 735 - Organizational Development Credits: 3
- PSYC 792 - Topics Credits: 1-4 (1 credit required)
- PSYC 794 - Internship Credits: 1-3 (3 credits required)
- PSYC 798 - Thesis Credits: 1-6 (5 credits required)
- STAT 541 - Statistical Methods II Credits: 3

**Total Required Credits: 44 (Option A)**

**Additional Admission Requirements**
- GRE: Required
- TOEFL: Score of 600 paper-based, 100 Internet-based
- IELTS: 7.0

Applicants are highly encouraged to provide 3 letters of reference and a personal statement of career objectives describing their a) interest in Industrial/Organizational Psychology, b) reasons for pursuing a M.S. in I/O Psychology from South Dakota State University, c) research and work experience relevant to I/O Psychology, and d) career goals.

March 1 application due date and fall admission only.

**General Requirements**  
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

605-688-4171

**Program Information**  
The Master of Mass Communication (M.M.C.) consists of advanced professional studies. While it has theoretical underpinnings, the primary purpose is to enhance knowledge and skills for application in professional practice. Fifty percent or more of the courses must be skills-based. This degree targets mid-career professionals in journalism and mass communication and builds on students' current levels of experience and skills making them more marketable. The Master of Mass Communication prepares students for the increasingly competitive workforce and changing disciplines in mass communications.

**Student Learning Outcomes**
- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- Demonstrate an understanding of gender, race, ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications;
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society;
- Understand concepts and apply theories in the use and presentation of images and information;
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- Think critically, creatively and independently;
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work;
- Write correctly and clearly, in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- Apply basic numerical and statistical concepts;
- Apply tools and technologies appropriate for the communications professions in which they work.

**Accreditation, Certification, and Licensure**  
The Masters of Mass Communication Degree is accredited by the national accrediting body of journalism and mass communication, the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

**Course Delivery Format**  
Courses for the M.M.C. program are delivered online and are eight weeks long.

**Available Options for Graduate Degrees**
Master of Mass Communication Option B - Research/Design Paper  
32 Credit Hours  
Option C - Coursework Only  
36 Credit Hours

**Core Requirements**
- MCOM 705 - Introduction to Master of Mass Communication Credits: 3
- MCOM 710 - Cross-Platform Storytelling Credits: 3
- MCOM 730 - Media Law Case Studies Credits: 3
- MCOM 746 - Cross-Platform Campaigns Credits: 3
- MCOM 786 - Conducting Professional Research Credits: 3

---

*Academic Programs*  
107
Select one of the following options

**Option B - Research/Design Paper**
- MCOM 788 - Master's Research Problems/Projects Credits: 1-6 (2 credits required)
- Electives Credits: 15

**Option C - Coursework Only**
- Electives Credits: 21

**Electives for Option B & C**
Select from the following list of courses. Other courses may be selected with prior approval.
- MCOM 513 - International Media (COM) Credits: 3
- MCOM 519 - Women in Media Credits: 3
- MCOM 574 - Media Administration and Management (COM) Credits: 3
- MCOM 615 - Opinion Writing Credits: 3
- MCOM 653 - Mass Communications Teaching Methods Credits: 1-4 (3 credits required)
- MCOM 760 - Social Marketing for Health and Behavioral Change Credits: 3
- MCOM 785 - Health Journalism Credits: 3
- MCOM 791 - Independent Study Credits: 1-3
- MCOM 794 - Internship Credits: 1-3

**Total Required Credits:** 32 (Option B), 36 (Option C)

**Additional Admission Requirements**
- GRE: Not required
- TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based
- IELTS: 6.5

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

---

**Mathematics (M.S.)**

**Program Coordinator/Contact**
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

**Program Information**
The focus of the M.S. in Mathematics program is the development of sophisticated mathematical models and their implementation on high performance computing platforms. The curriculum features a balance of application, computation, and theory with particular emphasis in the areas of operations research, computational science, and the development of probabilistic and deterministic models. Areas of faculty and graduate student research activity include computational biology, computational finance, molecular dynamics simulation, optimization, and Ramsey theory. The program is particularly effective at preparing graduates to work in business, industry, or government as well as preparing students to continue on to the CSS PhD or other PhD program.

**Course Delivery Format**
Courses will typically be delivered in on-campus classrooms, with occasional courses offered online.

**Facilities and Services**
The department offices are located in Architecture, Mathematics and Engineering 209. The Math Help Center, located in AME 292 and in the Biostress Basement 0020, provides free walk-in tutoring for students in several undergraduate courses.

**Student Support and Engagement Opportunities**
The department has graduate research and teaching assistantships and fellowships available for a number of qualified applicants.

---

**Available Options for Graduate Degrees**

- Master of Science
- Option A - Thesis
- 30 Credit Hours
- Option B - Research/Design Paper
- 32 Credit Hours
- Option C - Coursework Only
- 35 Credit Hours

**Core Requirements**
- MATH 575 - Operations Research (COM) Credits: 3
- MATH 675 - Operations Research II Credits: 3
- MATH 571 - Numerical Analysis I (COM) Credits: 3
- MATH 770 - Numerical Linear Algebra Credits: 3
- MATH 571 - Numerical Analysis II (COM) Credits: 3
- MATH 625 - Advanced Calculus Credits: 3
- MATH 741 - Measure and Probability Credits: 3
- MATH 779 - Advanced Mathematics Synthesis Credits: 1

Select one of the following options

**Option A - Thesis**
- MATH 798 - Thesis Credits: 1-7 (5 credits required)
- Additional electives as needed to complete requirements

**Option B - Research/Design Paper**
- MATH 788 - Research Paper Credits: 1-2 (2 credits required)
- Additional electives as needed to complete requirements

**Option C - Coursework Only**
- Approved Electives
- Master's Research Problems/Projects Credits: 1-5 (5 credits required)
- Additional Admission Requirements
- GRE: Not required
- TOEFL: Mathematics requirement of 575 paper-based, 90-91 Internet-based
- IELTS: 6.0

Students who are interested in an assistantship are strongly encouraged to submit letters of recommendation addressing the applicant's experience with teaching and research.

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

**Mathematics (M.S.) - Statistics Specialization**

**Program Coordinator/Contact**
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

**Program Information**
The Department of Mathematics and Statistics is a large, diverse, and active organization. The department's mission is to provide excellent instruction, conduct high-quality research and scholarly activity, and prepare graduates and provide mathematical and statistical services that are both regionally relevant and internationally competitive. The department offer students the opportunity to pursue master's and doctoral level graduate studies in a collegial environment with small class sizes and high faculty-student interaction and research activity.

The focus of the M.S. in Mathematics Program is the development of sophisticated mathematical models and their implementation on high performance computing platforms. The curriculum features a balance of application, computation, and theory with particular emphasis in the areas of operations research, computational science, and the development of probabilistic and deterministic models. Areas of faculty and graduate student research activity include computational biology, computational finance, molecular dynamics simulation, operations research, optimization, and Ramsey theory. The program is particularly effective at preparing graduates to work in business, industry, or government as well as preparing students to continue on to the CSS PhD or other PhD program.

Program Coordinator/Contact
Kurt Bassett, Department Head
Zhong Hu, Professor/Graduate Coordinator
Department of Mechanical Engineering
Crothers Engineering Hall 216, Box 2219
605-688-5426

Program Information
The Mechanical Engineering Department offers courses for the degree Master of Science in Mechanical Engineering. Also, course offerings can be used in co-major or minor programs for students of other departments. The graduate program in mechanical engineering concentrates on advanced study, including design and research, in such areas as thermofluid science, solid mechanics and dynamics, and industrial and quality control engineering. Students are encouraged to broaden their education by participating in supporting programs in established departments such as mathematics, computer science and other fields of engineering.

Course Delivery Format
The program consists of lecture, laboratory, and experiential learning opportunities.

Nursing (M.S.) - Clinical Nurse Leader Specialization

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
Established in 1979, the M.S. in Nursing at South Dakota State University prepares nurses for advanced practice roles in nursing administration, leadership, clinical practice, or education.

Program Outcomes
To prepare Nurse Administrators, Clinical Nurse Leaders, Family Nurse Practitioners, and Nurse Educators who:
- apply knowledge of evidence-based practice,
- engage in life-long learning,
- serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings, and
- function in leadership roles.

Student Learning Outcomes
At the completion of the program, the graduate will successfully demonstrate the following outcomes:
- Incorporate knowledge and theories from nursing and other supportive disciplines to promote and translate evidence into practice to effectively tailor health care to diverse populations.
- Use leadership strategies at the organizational and individual level to work with interprofessional teams to recommend quality improvement initiatives to provide safe healthcare delivery and improve population health.
- Assume accountability to influence health policy, improve healthcare delivery, decrease health disparities, and address the diversity of health care needs.
• Utilize informatics to enhance delivery of healthcare to a population
• Communicate effectively with populations to improve health through population-centered strategies of health promotion/disease prevention education
• Utilize microsystem assessment data to design, implement, and evaluate evidence-based interventions that improve safety and quality for selected populations.

Accreditation, Certification, and Licensure

Accreditation
The master's degree in nursing at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Licensure
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

Certification
After completion of the program of study, graduates are eligible to complete certification through the Commission on Nurse Certification (CNC).

Upon completion of the M.S. in Nursing - Clinical Nurse Leader Specialization, students may be eligible for the following certifications:

National Certification Eligibility

Certifying Body

Clinical Nurse Leader (CNL)*

Nursing Certification Commission on Nurse Certification (CNC)

*requires graduation from a CNL master's education program or a student in their last term of a CNL education program that meets the criteria delineated in the CNL Competencies and Curricular Expectations for Clinical Nurse Leader.*

Education and Practice are eligible to sit for this certification examination.

Course Delivery Format
The program coursework is delivered online with an on-campus requirement for NURS 631-631L and includes a field-based practicum.

Available Options for Graduate Degrees

| Master of Science | Option C - Coursework Only | 39 Credit Hours |

Core Requirements

• NURS 615 - Foundations of Advanced Nursing Credits: 3
• NURS 623 - Pathophysiology Across the Lifespan - Application to Advanced Practice Nursing Credits: 4
• NURS 626 - Research in Nursing and Health Care Credits: 3
• NURS 631 - Advanced Assessment Across the Lifespan Credits: 4
• NURS 631L - Advanced Assessment - Lifespan Clinical Laboratory Credits: 0
• NURS 645 - CNL I: Improvement Science: A Microsystem Approach Credits: 2-5 (5 credits required)
• NURS 646 - CNL II: Clinical Immersion and Capstone Project Credits: 1-6 (6 credits required)
• NURS 670 - Health Policy, Legislation, Economics and Ethics Credits: 3
• NURS 675 - Cultural Competence in Health Care Credits: 3
• NURS 760 - Advanced Concepts in Health Promotion and Disease Prevention Credits: 3
• NURS 860 - Health Operations and Financial Management for Nurse Leaders Credits: 3
• PHA 645 - Pharmacotherapeutics Across the Lifespan: Application to Advanced Practice Credits: 2-4 (2 credits required)

Total Required Credits: 39 (Option C)

Additional Admissions Requirements

GRE: Not required
TOEFL: Department requirement of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:

• Bachelor's degree in nursing from an NLNAC or CCNE Accredited program with a minimum cumulative 3.0 GPA.

Nursing (M.S.) - Family Nurse Practitioner Specialization

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
Established in 1979, the M.S. in Nursing at South Dakota State University prepares nurses for advanced practice roles in nursing administration, leadership, clinical practice, or education.

Program Outcomes
To prepare Nurse Administrators, Clinical Nurse Leaders, Family Nurse Practitioners, and Nurse Educators who:

• apply knowledge of evidence-based practice,
• engage in life-long learning,
• serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings, and
• function in leadership roles.

Student Learning Outcomes
At the completion of the program, the graduate will successfully demonstrate the following outcomes:

• Incorporate knowledge and theories from nursing and other supportive disciplines to promote and translate evidence into practice to effectively tailor health care to diverse populations.
• Use leadership strategies at the organizational and individual level to work with interprofessional teams to recommend quality improvement initiatives to provide safe healthcare delivery and improve population health.
• Assume accountability to influence health policy, improve healthcare delivery, decrease health disparities, and address the diversity of health care needs.
• Utilize informatics to enhance delivery of healthcare to a population
• Communicate effectively with populations to improve health through population-centered strategies of health promotion/disease prevention education
• Collaborate with the interprofessional team in the translation, implementation, analysis, and dissemination of evidence-based practice to improve healthcare outcomes.
Accreditation, Certification, and Licensure

Accreditation
The master's degree in nursing at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Licensure
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

Certification
After completing the program of study, graduates may be eligible to complete certification through several professional organizations.

Course Delivery Format
A blend of online and face-to-face course delivery ensures convenience and accessibility. Students complete a minimum of 1000 hours of clinical practice preceptorship.

Additional Admissions Requirements
- GRE: Not required
- TOEFL: Department requirement of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:
- Bachelor's degree in nursing from an NLNAC or CCNE Accredited program with a minimum cumulative 3.0 GPA.
- Current licensure as a Registered Nurse in the United States or its' territories prior to enrollment in first graduate nursing course.
- 1500 hours of documented nursing practice experience prior to the first clinical lab or within the first program year.
- Completed approved statistical methods course within the past 5 years.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification for FNP specialization, professional liability insurance, influenza vaccine, and TB test.
- Interview with graduate faculty for FNP specialization only.
- Completion of a written response to questions regarding educational goals, scholarly practice interest and desired practice career.
- Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Nursing (M.S.) - Nurse Administrator Specialization

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
Established in 1979, the M.S. in Nursing at South Dakota State University prepares nurses for advanced practice roles in nursing administration, leadership, clinical practice, or education.

Program Outcomes
To prepare Nurse Administrators, Clinical Nurse Leaders, Family Nurse Practitioners, and Nurse Educators who:

Nursing (M.S.) - Nurse Educator Specialization

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
Established in 1979, the M.S. in Nursing at South Dakota State University prepares nurses for advanced practice roles in nursing administration, leadership, clinical practice, or education.

Program Outcomes
To prepare Nurse Administrators, Clinical Nurse Leaders, Family Nurse Practitioners, and Nurse Educators who:

- apply knowledge of evidence-based practice,
- engage in life-long learning,
- serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings, and
- function in leadership roles.

Student Learning Outcomes
At the completion of the program, the graduate will successfully demonstrate the following outcomes:

- Incorporate knowledge and theories from nursing and other supportive disciplines to promote and translate evidence into practice to effectively tailor health care to diverse populations.
- Use leadership strategies at the organizational and individual level to work with interprofessional teams to recommend quality improvement initiatives to provide safe healthcare delivery and improve population health.
• Assume accountability to influence health policy, improve healthcare delivery, decrease health disparities, and address the diversity of health care needs.
• Utilize informatics to enhance delivery of healthcare to a population
• Communicate effectively with populations to improve health through population-centered strategies of health promotion/disease prevention education
• Utilize acquired knowledge and skills to develop and implement a nurse educator evidence-based practice in a variety of settings.

Accreditation, Certification, and Licensure

Accreditation
The master's degree in nursing at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Licensure
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

Certification
After completing the program of study, graduates may be eligible to complete certification through several professional organizations.

Graduate Students may be eligible for certification after completing their program of study.

Upon completion of the M.S. in Nursing - Nurse Educator Specialization, students may be eligible for the following certifications:

National Certification Eligibility

Certifying Body
Certified Nurse Educator* National League for Nursing (NLN)

*Individuals must meet eligibility requirements before they can take the CNE examination. An active registered nurse license is necessary. Students must also have a master's or doctoral degree in nursing and full-time experience in a nurse faculty role within the past five years. If the college degree emphasized on nursing instruction, individuals will need two years of experience in a nurse faculty role. Four years of experience is required if the graduate nursing degree did not emphasize on education.

Course Delivery Format

The program coursework is delivered online with an on-campus requirement for NURS 631-631L and includes a field-based practicum.

- NURS 760 - Advanced Concepts in Health Promotion and Disease Prevention Credits: 3
- NURS 778 - Nurse Educator Practicum Credits: 5
- NURS 795 - Practicum Credits: 3 (in Advanced Health Concepts for Nurse Educators)

- PHA 645 - Pharmacotherapeutics Across the Lifespan: Application to Advanced Practice Credits: 2-4 (2 credits required)

Select one of the following options

Option A - Thesis
- NURS 798 - Thesis Credits: 1-7 (5 credits required)

Option B - Research/Design Paper
- NURS 788 - Master's Research Problems/Projects Credits: 1-2 (2 credits required)

Option C - Coursework Only
- Coursework only

Total Required Credits: 44 (Option A), 41 (Option B), 39 (Option C)

Additional Admissions Requirements

- GRE: Not required
- TOEFL: Department requirement of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:

- Bachelor's degree in nursing from an NLNAC or CCNE Accredited program with a minimum cumulative 3.0 GPA.
- Current licensure as a Registered Nurse in the United States or its' territories prior to enrollment in first graduate nursing course.
- 1500 hours of documented nursing practice experience prior to the first clinical lab or within the first program year.
- Completed approved statistical methods course within the past 5 years.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification for FNP specialization, professional liability insurance, influenza vaccine, and TB test.
- Interview with graduate faculty for FNP specialization only.
- Completion of a written response to questions regarding educational goals, scholarly practice interest and desired practice career.
- Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

General Requirements

Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Nutrition & Exercise Sciences (M.S.) - Exercise Science Specialization

Program Coordinator/Contact
Kendra Kattelmann, Department Head
Department of Health and Nutritional Sciences
Wagner Hall 425, Box 2275A
605-688-4668

Program Information
The M.S. in Nutrition and Exercise Sciences provides an opportunity to specialize in Nutritional Sciences or Exercise Science. Students are prepared for careers in clinical, industry, or research fields. A partial list includes clinical dietitians, public health nutritionists, research dietitians, clinical exercise physiology, strength and conditioning, research assistants or coordinators, instructors, or public health officials.

Course Load Information
Students enrolled in six or more state-supported credits within a given semester will be charged the current special discipline fee.
Course Delivery Format
The program consists of lecture, laboratory, and experiential learning opportunities.

Student Support and Engagement Opportunities
The Department of Health and Nutritional Sciences aims to provide premier academic programs and high-quality services to students. A limited number of research and teaching assistantships and scholarships may be available to qualified graduate students.

Core Requirements
Nutrition and Exercise Sciences Core Requirements
- HNS 790 - Seminar Credits: 1

Advanced Research Methods
Credits: 3
Graduate students must consult with their advisors prior to registration.
- HNS 783 - Research Methods in Health and Nutritional Sciences Credits: 3
- NUTR 782 - Epidemiology Credits: 3

Advanced Statistics
Credits: 3
Graduate students must consult with their advisors prior to registration.
- HSC 631 - Biostatistics I Credits: 3
- HSC 731 - Biostatistics II Credits: 3
- STAT 541 - Statistical Methods II Credits: 3

Exercise Science Specialization Requirements
Select 11 or 12 credits from the list below.
- EXS 550 - Clinical Exercise Physiology Credits: 3
- EXS 745 - Applied Biomechanics Credits: 3
- EXS 750 - Advanced Exercise Physiology Credits: 3
- EXS 755 - Applied Exercise Physiology Credits: 3
- NUTR 725 - Nutrition and Human Performance Credits: 3
- PE 742 - Psychological Aspects of Sport and Exercise Credits: 3
- PE 751 - Laboratory Techniques in Exercise Physiology Credits: 2
- PE 751L - Techniques in Exercise Physiology Laboratory Credits: 0

Select one of the following options

Option A - Thesis
- HNS 798 - Thesis Credits: 1-7 (5 credits required)
- Electives Credits: 6-7

Option B - Research/Design Paper
- HNS 788 - Master's Research Problems/Projects Credits: 1-7 (3 credits required)
- Electives Credits: 13-14

Total Required Credits: 30 (Option A), 35 (Option B)

Additional Admissions Requirements
GRE: Required
TOEFL: required score of 550 paper-based, 79-80 Internet-based
IELTS: 6.0
Letter of application stating the following: primary area of interest (dietetics, exercise science, nutrition, etc.); desired research focus; long-term goals outlining career goals; interest in assistantship (teaching or research); if interested in an assistantship describe experiences to support the assistantship; reason(s) for attending graduate school; current professional certifications and credentials; an interview (in person or via phone) is highly encouraged but not required.

Master's Nutritional Sciences Admission Requirements
Entering students for the Master's degree will be required to have a Bachelor's degree in dietetics, exercise science, nutrition, biology, chemistry, epidemiology, or other related field from an accredited institution. Students with other educational backgrounds may be admitted conditionally. They will be required to complete the necessary coursework to eliminate deficiencies in their background during their first semester in the program.
Prerequisites for the Master's degree include STAT 281 or equivalent, NUTR 315, CHEM 106/108 or CHEM 112/114 or equivalent, BIO 221, BIOL 325, and for students in the Exercise Science Specialization PE 350 or equivalent.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.
For additional information refer to the Master's Degree Requirements.

Operations Management (M.S.)

Program Coordinator/Contact
Teresa Hall, Department Head
Department of Construction and Operations Management
Solberg Hall 116, Box 2223
605-688-6417

Program Information
The Master of Science degree in Operations Management (MSOM), offered through the Jerome J. Lohr College of Engineering, is a program for professionals interested in expanding their ability to manage technical functions in an organization as the next logical step in their career path.

Students may elect to pursue the traditional thesis route under Option A: this is valuable for individuals who anticipate future graduate work toward achieving the terminal degree in a related field. Most students select the research/design paper route under Option B: this requirement generally takes the form of a project in collaboration with local or regional industry to solve a problem or to improve a system or process. A third option, Option C, is a non-thesis program that provides more coursework in lieu of the research component. Option C requires approval of the faculty advisor.

Regardless of the option selected, the student works with his/her Major Advisor to develop the program of study plan, make consistent progress toward completion of the degree, and to show proficiency in integrating and applying management concepts through the Final Oral Exam.

Course Delivery Format
Program coursework is delivered on campus, with limited coursework offered online.

Core Requirements
• GE/ OM 569 - Project Management Credits: 2-3
• GE 685 - Management and Leadership in Technical Organizations Credits: 3
• OM 660 - Operations Management Credits: 3
• OM 690 - Seminar Credits: 1

Select one (1) course from each topic area:

Resources
• CHRD 716 - Human Resources Management in Business and Industry Credits: 3
• CSC 740 - Management Information Systems Credits: 3
• GE 603 - Designing the Work Place for Production Credits: 3
• OM 563 - Supply Chain Management Credits: 3
• or approved CSC, ECON, GE, OM elective

Operations
• GE 650 - Manufacturing Systems Management Credits: 3
• OM/ ME 760 - Quality Control Credits: 3
• ME 761 - Operations Research Credits: 3
• or approved GE or ME elective

Analysis
• OM/ ME 767 - Decision Theory Credits: 3
• STAT 541 - Statistical Methods II Credits: 3
• or approved ECON, OM or STAT elective

Select one of the following options

Option A - Thesis
• GE 798 - Thesis Credits: 1-7 (5-7 credits required)
• OM 670 - Research Methods in Management Credits: 3
• Electives Credits: 3-4

Option B - Research/Design Paper
• GE 788 - Master's Research Problems/Projects Credits: 1-2 (2-3 credits required)
• OM 670 - Research Methods in Management Credits: 3
• Electives Credits: 10-11

Option C - Coursework Only
• Electives Credits: 18-19

Total Required Credits: 30 (Option A), 32 (Option B), 36 (Option C)

Additional Admissions Requirements
GRE: Not required (recommended)
TOEFL: Operations Management requirement of 575 minimum paper-based, 90-91 Internet-based
IELTS: 6.0

Application must include a written statement of how the MSOM program is aligned with your professional development plans (1000 word limit). Refer to the Construction and Operations Management Department Graduate Program page information for specific details.
Public Health (M.P.H.)

Program Coordinator/Contact
Mary Beth Fishback, Program Coordinator
College of Pharmacy and Allied Health Professions
Avera Health and Science Center 249, Box 2202C
605-688-6347

Program Information
The Master of Public Health (M.P.H.) degree program is a collaborative degree offering of South Dakota State University and the University of South Dakota. The M.P.H. degree is the most widely recognized professional credential for leadership and practice in public health. As outlined by the Council on Education for Public Health, which accredits M.P.H. programs, the M.P.H. curriculum covers the five core areas of public health education:

- Biostatistics
- Epidemiology
- Health Services Administration
- Social and Behavioral Sciences
- Environmental Health

Course Delivery Format
Coursework is provided through distance delivery (online, DDN, etc.) using lecture formats and asynchronous presentations.

Student Engagement and Support Opportunities
The program offers student engagement through research and practice opportunities. Ongoing partnerships exist with entities such as the South Dakota Area Health Education Center (AHEC), Indian Health Services, and the South Dakota Department of Health.

Facilities and Services
The Master of Public Health (M.P.H.) degree program is an interdisciplinary graduate program of the Graduate School, involving departments and colleges across the university.

Available Options for Graduate Degrees
Master of Public Health
Option C - Coursework Only 42 Credit Hours

Core Requirements
(Instruction of some courses shared between USD and SDSU campuses)

- PUBH 701 - Biostatistics for Public Health Credits: 3 (USD)
- PUBH 702 - Public Health Theory and Practice (COM) Credits: 3
- PUBH 710 - Epidemiology Credits: 3 (USD)
- PUBH 721 - Public Health Applied Practice Experience I (COM) Credits: 1
- PUBH 722 - Public Health Applied Practice Experience II (COM) Credits: 1
- PUBH 723 - Public Health Applied Practice Experience III (COM) Credits: 1
- PUBH 730 - Public Health Integrative Learning Experience (COM) Credits: 6
- PUBH 740 - Introduction to US Health Systems and Policy Credits: 3 (USD)
- PUBH 750 - Social and Behavioral Sciences in Public Health Credits: 3 (USD)
- PUBH 733 - Environmental Health Credits: 3
- PUBH 755 - Program Planning and Evaluation Credits: 3

Supporting Area Coursework
Students must take at least 12 credit hours of supporting area coursework from either SDSU or USD. Credits: 12

Supporting Area Coursework offered by SDSU
- BIOI 567 - Parasitology Credits: 3
- BIOS 663 - Advanced Concepts in Infectious Disease Credits: 6
- HSC 533 - Occupational Health Credits: 3
- HSC 785 - Advanced Epidemiology Credits: 3
- NURS 670 - Health Policy, Legislation, Economics and Ethics Credits: 3
- NUTR 660 - Maternal and Child Nutrition Credits: 3
- NUTR 715 - Public Health Nutrition Credits: 3
- NUTR 760 - Vitamins and Minerals in Human Nutrition Credits: 3
- NUTR 761 - Nutrition and Aging Credits: 3
- PHA 741 - Public and Population Health Credits: 2
- PHA 752 - Drugs of Abuse and Addiction Credits: 2
- PHA 753 - Women and Children's Health Credits: 2
- PUBH 751 - Public Mental Health Credits: 3
- PUBH 761 - Social Epidemiology Credits: 3
- PUBH 762 - Cultural Perspectives in Public Health Credits: 3
- Other graduate-level electives with advisor approval Credits: 3

**Supporting Area Coursework offered by USD**
- ADS 754 - Public Policy and Addiction Credits: 3
- CPHD 601 - Introduction to Bioinformatics Credits: 3
- CPHD 610 - Experimental Design and Analysis Credits: 3
- EDER 860 - Advanced Statistics I Credits: 3
- EDER 861 - Advanced Statistics II Credits: 3
- HSAD 710 - Advanced Strategic Management of Health Care Orgs Credits: 3
- HSAD 740 - Advanced Health Care Systems Credits: 3
- HSAD 770 - Advanced Health Care Management Credits: 3
- HSC 575 - Process and Outcomes Evaluation Credits: 3
- OCTH 733 - Promotion of Health and Prevention of Disability Credits: 3
- PSYC 514 - Drugs and Behavior Credits: 3
- PUBH 711 - Topics in Applied Biostatistics Credits: 3
- PUBH 760 - Public Health and Native American Communities Credits: 3
- PUBH 770 - Public Health Immunology Credits: 3
- PUBH 792 - Public Health Topics Credits: 3
- SOC 510 - Methods of Social Research Credits: 3
- SOCW 640 - Diversity and Social Justice Credits: 3
- Other graduate-level electives with advisor approval Credits: 3

**Total Required Credits: 42**

**Additional Admission Requirements**

1. Successful completion of a baccalaureate degree or an equivalent degree from an institution with full regional accreditation for that degree.
2. Through no specific major is required, adequate undergraduate preparation in social, health, or biological sciences is recommended.
3. A minimum undergraduate cumulative GPA of 3.0 on conferred degree and/or graduate cumulative GPA of 3.0 or better, based on a 4.0 scale, on all graduate coursework. Each institution may admit students on conditional or provisional status per university policy.
4. Complete the Graduate School application along with the $35 application fee.
5. Statement of purpose for studying Public Health (include career plans relative to the MPH).
6. Two letters of recommendation are required.
7. Successfully complete a criminal background check upon acceptance.

**Sociology (M.S.)**

**Program Coordinator/Contact**
Mary Emery, Department Head
Meredith Redlin, Professor/Graduate Coordinator
Department of Sociology and Rural Studies
Hansen Hall 004
605-688-4132

**Program Information**
Masters students receive advanced training in theory, methods, and the practical application of sociological knowledge. At South Dakota State University, master's students may choose from two academic tracks: thesis, and non-thesis options. Students traveling down the thesis and non-thesis tracks all take advanced courses in sociological theory and methods; only the details vary. Students opting for the applied option specialize in community development. The thesis and non-thesis options are detailed in A Guidebook to the Thesis and Non-Thesis Masters Programs in Sociology. Information on graduate assistantships is also available on the department website.

**Course Delivery Format**
Graduate courses are generally delivered face-to-face in small seminar settings. A limited number of courses may be offered via DDN or on-line.

**Available Options for Graduate Degrees**
- **Master of Science**
  - Option A - Thesis
  - Option B - Research/Design Paper
  - Option C - Coursework Only

**Core Requirements**
- SOC 501 - The Research Process Credits: 3
- SOC 504 - Sociological Inquiry Credits: 3
- SOC 590 - Seminar Credits: 1-3 (1 credit required) (Orientation)
- SOC 707 - Sociological Practice and Public Policy Credits: 3

**Select one of the following options**
- **Option A - Thesis**
  - SOC 798 - Thesis Credits: 1-7 (5 credits required)
  - SOC Electives Credits: 15

- **Option B - Research/Design Paper**
  - SOC 788 - Master's Research Problems/Projects Credits: 1-3 (3 credits required)
  - SOC Electives Credits: 19

- **Option C - Coursework Only**
  - SOC Electives Credits: 25

**Additional Admission Requirements**
- GRE: Required
- TOEFL: Required score of 575 paper-based, 90 Internet-based
- IELTS: 6.5

Each applicant is required to provide two signed letters of recommendation from individuals familiar with the student's academic record as part of the graduate school application process. In addition, we require that interested applicants submit a writing sample (past term paper for example) and a personal statement. The personal statement should outline the applicant's academic goals and describe how those goals connect with SDSU faculty expertise and interests.

**Accelerated Master's Program**
The accelerated Master's program will be available to eligible SDSU students conditionally admitted to the graduate program. Up to 12 credits applied to the B.S. program may be used to satisfy graduate credit. Once students complete SOC 501 - The Research Process, SOC 504 - Sociological Inquiry, SOC 590 - Seminar (1 credit required Orientation), SOC 594 - Internship (2 credits required in the Data Center), and a SOC Elective (3 credits required approved by the advisor) with B or above grades, and graduate with a Bachelor's degree, they will be fully accepted into the program.

In order to apply, students must:
- be enrolled in a Bachelor's degree program in Sociology;
- have earned 90 undergraduate credits with a GPA of 3.25 or higher;
- meet all degree requirements as stipulated by Regental or University policy;
- submit to the Department of Sociology and Rural Studies, a statement of interest identifying how the Master's degree in Sociology will contribute to their academic and career goals;
- submit at least two letters of reference regarding his/her ability to participate in the program;
- submit a writing sample to the Department of Sociology and Rural Studies;
- submit scores for the GRE; and
- submit the application for admission to the graduate school.

**General Requirements**
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
Sociology (M.S.) - Community Development Specialization

Program Coordinator/Contact
Mary Emery, Department Head
Meredith Redlin, Professor/Graduate Coordinator
Department of Sociology and Rural Studies
Hansen Hall 004
605-688-4132

Program Information
The Community Development specialization provides students the opportunity to study with leading educators and researchers from several different universities representing a diversity of fields including Community and Regional Planning, Architecture, Sociology, Native American Studies, Economics and Natural Resources. This program is designed for people doing community development work in non-profit organizations, colleges, communities, community organizations and governments. The program welcomes those working in all areas to help communities and regions build their capacity for an inclusive, sustainable future; those who volunteer their time and resources to support community; and most of all those with a passion for working toward a brighter future and a willingness to share their experience and wisdom with others via the Internet community. A student guide to the program is located on the department website.

Course Delivery Format
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (Great Plains IDEA). Courses will be entirely Internet based and will be taught by faculty within the Alliance (Iowa State University, Kansas State University, North Dakota State University, South Dakota State University, and University of Nebraska). Courses are offered fall, spring and summer semesters.

- Electives Credits: 18
  Electives will be determined in consultation with the advisor.

Total Required Credits: 36 (Options A, B, & C)

Additional Admission Requirements
GRE: Not required
TOEFL: Required score of 525 paper-based, 71 Internet-based
IELTS: 5.5
Each applicant is required to provide two signed letters of recommendation from individuals familiar with the student's academic record as part of the graduate school application process. In addition, we require that interested applicants submit a writing sample (past term paper or a professional technical report, for example) and a personal statement. The personal statement should outline the applicant's academic goals and describe how those goals connect with SDSU faculty expertise and interests.

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Sport & Recreation Administration (M.S.)

Program Coordinator/Contact
Kendra Kattelmann, Department Head
Department of Health and Nutritional Sciences
Wagner Hall 425, Box 2275A
605-688-4668

Program Information
The Sport and Recreation Administration program is designed to prepare students for careers in sport and recreation administration and/or to improve their knowledge and expertise as coaches and teachers in leadership positions. The goals of the program are to provide students with knowledge and experiences which improve the depth and breadth of professional competency, enhance written and oral communication, promote an appreciation for the ways research can inform practice and/or prepare them for advanced study at the doctorate level.

Course Delivery Format
The program consists of lecture and experiential learning opportunities.

Student Support and Engagement Opportunities
The Department of Health and Nutritional Sciences aims to provide premier academic programs and high-quality services to students. A limited number of research and teaching assistantships and scholarships may be available to qualified graduate students.

Select one of the following options

Option A - Thesis
- HNS 798 - Thesis Credits: 1-7 (5 credits required)
  Electives Credits: 3

Option B - Research/Design Paper
- HNS 788 - Master's Research Problems/Projects Credits: 1-7 (3 credits required)
  Electives Credits: 6

Option C - Coursework Only
- HNS 794 - Internship Credits: 1-7 (3 credits required)
  Electives Credits: 9

Total Required Credits: 32 (Option A), 33 (Option B), 36 (Option C)

Additional Admission Requirements
GRE: Not required
TOEFL: required score of 550 paper-based, 79-80 Internet-based
IELTS: 6.0
Statistics (M.S.)

Program Coordinator/Contact
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

Program Information
The focus of the M.S. in Statistics program is the development of sophisticated statistical models and their implementation on high performance computing platforms. The curriculum features a balance of application, computation, and theory with particular emphasis in the areas of biostatistics/informatics and analytics. Areas of faculty and graduate student research activity include bioinformatics, biostatistics, business and financial analytics, forensic statistics, and general statistics. The program is particularly effective at preparing graduates to work in business, industry, or government as well as preparing students to continue on to the CSS Ph.D. or other Ph.D. program.

Course Delivery Format
Courses will typically be delivered in on-campus classrooms, with occasional courses offered online.

Facilities and Services
The department offices are located in Architecture, Mathematics and Engineering 209. The Math Help Center, located in AME 292 and in the Biostress Basement 0020, provides free walk-in tutoring for students in several undergraduate courses.

Student Support and Engagement Opportunities
The department has graduate research and teaching assistantships and fellowships available for a number of qualified applicants.

Available Options for Graduate Degrees

Core Requirements
- STAT 684 - Statistical Inference I Credits: 3
- STAT 685 - Statistical Inference II Credits: 3
- STAT 686 - Regression Analysis I Credits: 3
- STAT 687 - Regression Analysis II Credits: 3
- STAT 779 - Advanced Statistics Synthesis Credits: 1

Select one of the following options

Option A - Thesis
- STAT 798 - Thesis Credits: 1-7 (5 credits required)
- Additional electives as needed to complete option requirements

Option B - Research/Design Paper
- STAT 788 - Research Paper Credits: 1-2 (2 credits required)
- Additional electives as needed to complete option requirements

Option C - Coursework Only
- Approved Electives

Total Required Credits: 30 (Option A), 32 (Option B), 35 (Option C)

Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 575 paper-based, 90-91 Internet-based
IELTS: 6.0

Students who are interested in an assistantship are strongly encouraged to submit letters of recommendation addressing the applicant's experience with teaching and research.

Wildlife & Fisheries Sciences (M.S.) - Fisheries Sciences Specialization

Program Coordinator/Contact
Michele Dudash, Department Head
Department of Natural Resource Management
Edgar S. McFadden Biostress Laboratory 138, Box 2140B
605-688-6121

Program Information
SDSU has an extensive graduate program in wildlife and fisheries sciences. The Department of Natural Resource Management offers graduate programs in both Biological Science and Wildlife and Fisheries Sciences. Both degree programs award M.S. and Ph.D. degrees.

Wildlife and Fisheries Sciences
The M.S. degree program in Wildlife and Fisheries Sciences is intended to educate students for management-level positions with state and federal agencies, private companies, and for the pursuit of higher academic degrees. By using specifically identified coursework and mentoring, we strive to assist students in developing their intellectual capabilities in working with natural resources and people. In addition, each student must propose and conduct an original scientific investigation. Placement rates for M.S. graduates into positions as fisheries biologists, wildlife biologists, and other natural resource positions with state and federal agencies is extremely high.

Biological Sciences
Students interested in careers in ecology, environmental science, and range science often utilize the Biological Sciences M.S. degree programs.

Student Learning Outcomes
- Be knowledgeable regarding biological systems at a level appropriate to a M.S. degree holder.
- Be able to effectively express themselves orally and in written form.
- Understand the scientific method of solving problem.
- Be computer and statistically capable.
- Be specialized in some area of wildlife or fisheries, but still be broadly based in knowledge.
- Be able to conduct scholarly research.
- Understand the relationships between biological information and socioeconomic factors.
- Demonstrate professional development, especially in regard to the need for continued learning after their degree program.
- Develop a concern and feeling for the natural resources of the world.

Accreditation, Licensure, and Certification
Certification
Certification is available through the American Fisheries Society and The Wildlife Society.

Course Delivery Format
The Wildlife and Fisheries Sciences graduate program is primarily an on-campus program. However, field research may require extended time periods away from campus.

Facilities and Services
The department is housed within the McFadden Biostress Laboratory at SDSU. The Department houses the Oak Lake Field Station and also hosts the South Dakota Cooperative Fish and Wildlife Research Unit.

Available Options for Graduate Degrees

| Master of Science | Option A - Thesis | 30 Credit Hours |

General Requirements
Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.
Core Requirements

- NRM 582 - Natural Resource Management Biometry Credits: 3
  or WL 720 - Quantitative Fisheries Science Credits: 3
  or STAT course numbered 500-level or higher
  or an additional course approved by committee
- NRM 790 - Seminar Credits: 1 (2 credits required)
- WL 798 - Thesis Credits: 1-7 (5-10 credits required)
- Additional course credits designed to meet individual interests and needs as required by the student's Advisory Committee. Credits: 15-20

Total Required Credits: 30 (Option A)

Additional Admission Requirements

GRE: Required
TOEFL: Department Requirement of 525 paper-based, 71 Internet-based
IELTS: 5.5

Admission to all degree programs requires that a faculty member from the department agrees to serve as the major advisor.

General Requirements

Graduate students should consult with their advisor before registering for graduate work.

For additional information refer to the Master's Degree Requirements.

Doctoral Degrees

Agricultural, Biosystems & Mechanical Engineering (Ph.D.)

Program Coordinator/Contact
Van C. Kelley, Department Head
Kasiviswanathan Muthukumarappan, Distinguished Professor
Department of Agricultural and Biosystems Engineering
Agricultural Engineering 107, Box 2120
605-688-5141

Kurt Bassett, Department Head
Zhong Hu, Professor
Department of Mechanical Engineering
Crothers Engineering Hall 216, Box 2219
605-688-5426

Program Information
The Ph.D. in Agricultural, Biosystems and Mechanical Engineering (A.B.M.E.) shares a common core between the department of Agricultural and Biosystems Engineering and department of Mechanical Engineering. All students will be required to complete 14 credits of core course work shown below. Core courses will provide a broad foundation covering basic graduate concepts in A.B.M.E., compliance and research ethics. Several core courses are unique in the nation and make this program novel and highly integrated. Elective coursework will provide students with the opportunity for greater depth in a topical area and will usually be directly related to their dissertation research topic. Students entering with a Bachelor's degree must complete 90 credits (30 coursework and 60 dissertation) and students entering with a master's degree must complete 60 credits (20 coursework and 40 dissertation).

Students who undertake this graduate degree normally have as their goal a better understanding of the current theories, principles, issues, and problems in agricultural, biological, thermal, fluid, control, and mechanical systems. Graduate studies improve the student's ability to think critically and creatively, and to synthesize, analyze, and integrate ideas for decision-making and problem solving. This program offers students an opportunity to undertake research and advanced study in specialization areas such as:

- biorenewable energy and bioresource conversion technologies,
- engineering of advanced precision agriculture systems used in production agriculture,
- natural resources engineering for utilization and conservation of soil and water resources,
- advanced manufacturing and quality control technologies focused on composition, properties, and integrity of materials,
- advanced thermal-fluid systems,
- advanced composites, and
- systems modeling.

Course Delivery Format
The program engages students in lecture, laboratory, and in hands-on, field-based learning experiences.

Student Engagement and Support Opportunities
Financial assistance in the form of research assistantships and project assistantships is available on a highly competitive basis.

Animal Science (Ph.D.)

Program Coordinator/Contact
Jeff Clapper, Professor
Department of Animal Science
Animal Science Complex 103A
605-688-5166

Program Information
The Department of Animal Science offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees in Animal Science, or the Doctor of Philosophy degree in Biological Sciences. Faculty and graduate students are actively involved in basic and/or applied research in the fields of nutrition, reproductive physiology, animal breeding and genetics, meat science, gastrointestinal microbiology and animal production.

With the multi-disciplinary approaches towards production efficiency, product enhancement, and natural resources management, graduate students gain strong skill sets. The graduate programs are administered in collaboration with the Departments of Animal Science, Dairy Science, Veterinary and Biomedical Sciences, and Agricultural and Biosystems Engineering. The Department is committed to providing graduate students with quality educational and research experiences and preparing them to meet the challenges of a competitive job market upon graduation.

This program allows for considerable latitude in the education and training of students. Identification of a major professor with resources to support the student's thesis project is required for unconditional acceptance into the program. An advisory committee will be formed for each student. The advisory committee will work with the student to design a unique and individualized plan of study to meet the interests and needs of the student. While the training of most students is largely directed to a single discipline represented within one of the participating departments, cross-discipline training is available and encouraged.

Course Delivery Format
Program coursework is available on campus, in classroom and laboratory settings, as well as field-based settings.

Facilities and Services
Training and experience in research methods are among the most important facets of a well-rounded graduate student education. Excellent facilities and large herds and flocks of livestock are available for Animal Science research at South Dakota State University. Modern research facilities, including state-of-the-art facilities for cow-calf management and ruminant nutrition, along with new swine education and research facilities, both on-site and off-site, were completed in 2016.

Student Support and Engagement Opportunities
The department conducts cutting edge research that creates opportunities for graduate students. Qualified students may apply for a Graduate Research Assistant position and the Darwin Britzman Graduate Assistant Scholarship.

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Biochemistry (Ph.D.)

Program Coordinator/Contact

Douglas Raynie, Department Head
Jihong Cole-Dai, Graduate Program Coordinator
Department of Chemistry and Biochemistry
Avera Health and Science Center 131, Box 2202
605-688-5151

Program Information

The Department's biochemistry faculty research programs focus on the chemistry and biochemistry of cell membranes, multi-scale modeling of signal transduction in macromolecular assemblies, development of FRET imaging technologies to measure the location and dynamics of direct protein interactions, biophysical chemistry underlying cell-surface control of leukocyte function, structural biology, proteomics, protein function, the cellular biochemistry of disease and cancer, and photo biochemistry.

This program is unique in that a student can chose their dissertation research over a broad range of research projects available in the Department or in the laboratories of participating program faculty at the Sanford and Avera Research Institutes in Sioux Falls, SD. The partnerships with the biomedical research programs at these research institutes also provides a unique opportunity for research that translates basic science into clinical treatments that directly impact patients. For additional information about these options student should review the descriptions of current faculty research interests at www.sdstate.edu/chemistry.

Research Instrumentation

The Department is equipped with modern instrumentation core facilities to support its research program. These facilities are readily available to graduate students for "hands-on" experience after successfully completing a short training course.

- NMR core facility includes 600, 400, and 200 MHz solution FT-NMR spectrometers and 400, 300, 100 MHz wide-bore solid-state NMR spectrometers
- Core campus mass spectrometry facility consists of a 7T ESI FTMS; a high-resolution magnetic sector mass spectrometer with EI and CI sources and GC, HPLC, pyrolysis and fast-atom bombardment capabilities; a MALDI-TOF mass spectrometer; a Eksigent/Thermo LTQ ESI LC-MS/SM dedicated to "bottom-up" proteomics studies; an Applied Biosystems SCIEX QTRAP ESI LC-MS/MS dedicated to small molecule and metabomics characterizations; and a Varian GCMS.
- Core campus proteomics facility has all the necessary equipment to prepare samples for mass-spectrometry-based proteomics characterizations.
- Optical Spectroscopy lab containing 2 FT-IR spectrometer with far-IR capabilities; time-resolved spectrofluorometer; atomic absorption and diode-array UV-Vis spectrophotometers.
- The Department is home to multiple state of the art fluorescence microscopes for the analysis of biochemical reactions involving purified molecules and within living cells. These instruments including spinning disk confocal microscopy, total internal reflection fluorescence (TIRF) microscopy, targeted photo-bleaching, instrumentation of for ensemble and single-molecule fluorescence resonance energy transfer (FRET) experiments and fluorescence correlation spectroscopy, and optogenetics capabilities. The department also houses cell/tissue culture facilities, large- and small-scale protein purification equipment and biophysical characterization capabilities including isothermal titration calorimetry. Campus computer facilities (including a Beowulf supercomputer cluster) are readily available. Individual groups maintain their own system for molecular modeling, word processing or data manipulation. Direct, on-line computer access to chemical and biochemical literature databases such as Chemical Abstracts and Web of Science are provided by the Department.
- In addition to these departmental resources, individual research groups also maintained instrumentation including supercritical fluid chromatography and extraction, thermal analysis, laser light scattering, and computational chemistry. Campus super-computer facilities and on-line computer access to Web of Science. Chemical Abstracts Services and other on-line information sources are readily available.

Course Delivery Format

Courses offered in the Ph.D. in Biochemistry curriculum are taught in a variety of formats which address student learning outcomes. Didactic (lecture) methods ensure the development of advanced knowledge of chemistry, Practical (laboratory) methods ensure the development and maturation of laboratory skills and training and these opportunities are developed in the research laboratory. A combination of didactic and practical methods ensures the successful completion of the graduate dissertation research project.

Facilities and Services

The Department is housed in the newly constructed Avera Health and Science Center, which provides 100,000 sq. ft. of research and instructional space.

Available Options for Graduate Degrees

<table>
<thead>
<tr>
<th>Doctor of Philosophy</th>
<th>60 Credit Plan</th>
<th>90 Credit Plan</th>
</tr>
</thead>
</table>

Core Requirements

60 Credit Plan

- CHEM 790 - Seminar Credits: 1 (2 credits required)
- CHEM 898D - Dissertation - Ph.D. Credits: 1-12 (minimum of 18 credits)
- and/or other coursework as required by Graduate Student Advisory Committee

90 Credit Plan

The core coursework (12 credits of coursework and 3 credits of laboratory rotations) covering basic concepts in biochemistry and research ethics provides disciplinary breadth and a foundation for a student's plan of study. To support the interdisciplinary nature of the planned dissertation research project and provide depth in a subspecialty within the field, 9 credits of elective coursework are chosen by the student and their graduate advisory committee. Three additional credits of seminar are required. The remaining credits in the 90 credit plan of study are dissertation research. Students must develop their program of study in consultation with their graduate research advisor and graduate advisory committee during the first semester in residence.

- BIOS 662 - Advanced Molecular Biology Credits: 3 (3 credits required)
- BIOL 743 - Cell Biology (COM) Credits: 3
- CHEM 548 - Biophysical Chemistry Credits: 3
- CHEM 705 - Principles of Biochemistry Credits: 2-5 (3 credits required)
- CHEM 760 - Laboratory Rotations in Biochemistry Credits: 1-2 (3 credits required)
- CHEM 790 - Seminar Credits: 1 (3 credits required)
- CHEM 898D - Dissertation - Ph.D. Credits: 1-12 (62 credits required)
- GSR 601 - Research Regulations Compliance Credits: 1
- Electives Credits: 9
  Courses may be selected from STEM disciplines (e.g. BIOL, BIOS, CHEM, MATH, or STAT prefixes)

**Candidacy Examinations**

The Department uses a comprehensive examination process as its written candidacy examination for the doctorate in Biochemistry. The exam is offered annually with all biochemistry faculty contributing equally to the exam. The exam is to be taken after the student has substantially completed the required coursework and the exam will cover the content presented in the required coursework. The oral candidacy exam takes place within a year of completion of the cumulative exams. For the oral examination, students are required to develop and write an original research proposal and defend it orally. In order to successfully defend such a proposal the student must be able to integrate their coursework into the proposed research, and the oral defense reflects that expectation.

**Additional Admission Requirements**

GRE: General and subject score are recommended but not required
TOEFL: Score of 580 paper-based, 92-93 Internet-based
IELTS: 5.5

Applications are accepted for admission to the Ph.D. program in fall only. Students are strongly encouraged to submit their applications for admission no later than January 15. Initial offers of admission will be made no later than the first week of February.

In addition to the materials required by the Graduate School, the Department of Chemistry and Biochemistry requires the following application materials:

- A one- to two-page personal statement which includes a description of undergraduate research, work experience, or other factors demonstrating a propensity toward graduate studies. The personal statement should also include a statement of the applicant's career goals. The applicant may upload this statement while completing the Graduate School's online application.

- Three letters of recommendation, preferably at least one from faculty at the applicant's undergraduate institution. Letters should come from faculty who are directly familiar with the applicant's academic work. They must address the applicant's scholarly potential and may also speak to the applicant's potential for graduate studies in the discipline. Letters should come directly from the recommenders, who may submit their letters electronically along with the personal recommendation form provided by the Graduate School. The Graduate School will email recommenders detailed instructions for submitting their recommendations using the contact information provided by the applicant.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

**Biological Sciences (Ph.D.)**

**Program Coordinator/Contact**

Donald M. Marshall, Associate Dean and Director of Academic Programs
College of Agriculture, Food and Environmental Sciences
Berg Agricultural Hall 156, Box 2207
605-688-5135

**Program Information**

This is a cooperative program leading to the Doctor of Philosophy degree in Biological Sciences. Departments that cooperate in the program are Agricultural & Biosystems Engineering; Agronomy, Horticulture, & Plant Science; Animal Science; Biology & Microbiology; Dairy & Food Science; Health & Nutritional Sciences; Natural Resource Management; and Veterinary & Biomedical Sciences at South Dakota State University. The masters and doctoral programs in Biological Sciences allow for considerable latitude in the education and training of students. The plan of study can be designed to meet the interests and individual needs of the student. While the training of most students is largely directed to a single discipline represented within one of the participating departments, cross-discipline training is available. Generally, identification of a major professor with resources to support the student's dissertation project is required for unconditional acceptance into the program. Therefore, interested persons should make application for program admission well in advance of the anticipated date of enrollment. Please refer to each departmental section for a listing of the graduate faculty and details regarding the areas of study offered in this program. Inquiries should be made directly to the department representing the discipline of interest. Specializations are available in the following areas:

- Agricultural and Biosystems Engineering
- Biology
- Dairy Science
- Food Science
- Microbiology
- Molecular Biology
- Plant Molecular Biology
- Plant Science
- Veterinary Microbiology
- Veterinary Pathobiology

**Biological Sciences Program Objectives**

Graduates of the Doctor of Philosophy in Biological Sciences will:

- Have a thorough understanding and knowledge of biological principles related to the chosen discipline.
- Demonstrate the ability to conduct innovative research to create new knowledge.
- Demonstrate the ability to write grant proposals to secure research funding.
- Utilize appropriate statistical methods to make inferences from research.
- Write a coherent dissertation and submit one or more manuscripts to a scientific journal.
- Understand and articulate the potential applications of basic research.
- Demonstrate the ability to use ethics in decision making and planning.
- Demonstrate information literacy for science-based decision making and lifetime learning.
- Be prepared to enter into careers related to research and development or academic institutions.
- Contribute to the advancement of science in the discipline.

**Course Delivery Format**

Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

**Facilities and Services**

A variety of outstanding laboratories, green houses, McCrory Gardens and Arboretum, livestock units, and field stations are available for education and research. Many Biological Sciences faculty hold appointments in the South Dakota Agricultural Experiment Station.

**Available Options for Graduate Degrees**

Doctor of Philosophy

- 60 Credit Plan
- 90 Credit Plan

**Core Requirements**

The student, major advisor, and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student’s Plan of Study no later than the end of the first year of study.

- XXX 790 or 890 Seminar Credit: 1 - Selected with advisory committee approval
- GSR 601 - Research Regulations Compliance Credits: 1
- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation

**Additional Admission Requirements**

GRE: Not a general requirement, but individual departments may require GRE TOEFL: required score of 525 paper-based, 71 Internet-based
IELTS: 5.5

(Individual departments may have different requirements for GRE and TOEFL.)

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.
Additional Admission Requirements
GRE: Not required
TOEFL: Score of 550 paper-based, 79 Internet-based
IELTS: 5.5

General Requirements
Graduate students must consult with their advisor before registering for graduate work.
For additional information refer to the Doctor of Philosophy Degree Requirements.

Biological Sciences (Ph.D.) - Biology Specialization

Program Coordinator/Contact
Volker Brözel, Department Head
Radhey Kaushik, Professor/Graduate Coordinator
Department of Biology and Microbiology
Alfred Dair Science Hall 228, Box 2104A
605-688-6141

Program Information
The Department of Biology and Microbiology provides students with a wide range of opportunities for advanced study. The graduate faculty offer expertise and graduate student advisement in subdisciplines from molecular biology through ecology. Faculty members are very successful in obtaining extramural funds to support graduate student projects. Graduate students have modern research laboratories, equipment and field research sites available to carry out their research projects. The learning environment, scholarly excellence and quality of teaching areas of strength in the department's Graduate Program.

Course Delivery Format
Biology Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

Available Options for Graduate Degrees
Doctor of Philosophy
- 60 Credit Plan
- 90 Credit Plan

Core Requirements
For details see specific program: Biological Sciences (Ph.D.).
The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student’s Plan of Study no later than the end of the first year of study.

- XXX 790 or 890 Seminar Credit: 1 - Selected with advisory committee approval
- GSR 601 - Research Regulations Compliance Credits: 1
- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation

Ph.D. Graduation Requirements
- Yearly evaluation (research progress + coursework)
- Comprehensive written exam (mid-program)
- Comprehensive oral exam (defense of written exam/research progress) (mid-program)
- Oral presentation of Dissertation (public) during last semester of program
- Oral defense of Dissertation (committee) during last semester of program
- Dissertation completion

Additional Admission Requirements
GRE: Scores ranking above the 50th percentile will strengthen the case for admission
TOEFL: Score of 575 paper-based, 90 Internet based
IELTS: 6.5

At least two letters of reference or Personal References must be sent to the Department. A personal statement that includes a description of the applicants involvement in research, the applicants research interest, and career goals is also required.
Retention in the program is dependent on formation of a committee and completion of review matrix by the end of the first year. In ensuing years, students must have a committee meeting and complete review annually.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

---

### Biological Sciences (Ph.D.) - Dairy Science Specialization

**Program Coordinator/Contact**

Vikram Mistry, Department Head  
Department of Dairy and Food Science  
Alfred Dairy Science Hall 136, Box 2104  
605-688-4116

**Program Information**

The Dairy and Food Science Department provides research opportunities leading to Masters and PhD degrees. SDSU is one of two universities in the US with a Dairy Science Program that offers Dairy Production and Manufacturing majors. It is equipped with excellent laboratories, and a state of the art dairy processing plant which has the capability of processing fluid milk, cheese, butter, ice cream, concentrated and dried products, and other products. It also has a dairy research and training facility where a herd of 300 Holstein and Brown Swiss cattle for teaching and research is maintained. Metabolism and surgical facilities in the Animal Science Complex, and specialized laboratory equipment the Genomics Lab and other departments on campus, including, Veterinary and Biomedical Sciences, and Health and Nutritional Sciences Programs are also available. Graduate students accepted in the program will have opportunities to utilize these facilities to develop basic and/or applied research programs in dairy product processing, microbiology, chemistry, food safety, dairy cattle nutrition, metabolism, breeding, microbiology of the rumen, immunology, and management, while interacting with well qualified faculty. The SDSU Dairy Science Program, in collaboration with the Food Science and Nutrition Program at the University of Minnesota and the Food Science and Human Nutrition Program at Iowa State University, is the Midwest Dairy Foods Research Center. This provides graduate students in the manufacturing area a unique opportunity to be involved with current issues and research needs.

**Course Delivery Format**

Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

**Student Support and Engagement Opportunities**

An application to the graduate program serves as an application for a graduate assistantship. Qualified applicants may be eligible for financial aid in the form of departmental research assistantships for masters and doctoral students. The department also offers some limited scholarships for qualified students.

**Available Options for Graduate Degrees**

- **Doctor of Philosophy**  
  - 60 Credit Plan  
  - 90 Credit Plan

**Core Requirements**

For details see specific program: Biological Sciences (Ph.D.).

The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student's Plan of Study no later than the end of the first year of study.

- XXX 790 or 890 Seminar Credit: 1 - Selected with advisory committee approval
- GSR 601 - Research Regulations Compliance Credits: 1
- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation

**Additional Admission Requirements**

GRE: Not required  
TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based  
IELTS: 5.5

At least two letters of reference and a personal statement that includes a description of the applicants' involvement in research, the applicants research interest, and career goals will be required.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

---

### Biological Sciences (Ph.D.) - Food Science Specialization

**Program Coordinator/Contact**

Vikram Mistry, Department Head  
Department of Dairy and Food Science  
Alfred Dairy Science Hall 136, Box 2104  
605-688-4116

**Program Information**

The Food Science program offers excellent opportunities for graduate level coursework and research leading to academic or industry careers in Food Science. Graduate students receive advanced preparation related to food processing, product development, and food safety. Food Science is a multi-disciplinary program that is administered by the Department of Dairy and Food Science, but may also include such diverse areas as animal science, food grain processing, and agricultural & biosystems engineering.

**Course Delivery Format**

Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

**Available Options for Graduate Degrees**

- Doctor of Philosophy  
  - 60 Credit Plan  
  - 90 Credit Plan

**Core Requirements**

For details see specific program: PhD in Biological Sciences.

The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student's Plan of Study no later than the end of the first year of study.

- XXX 790 or 890 Seminar Credit: 1 - Selected with advisory committee approval
- GSR 601 - Research Regulations Compliance Credits: 1
- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation
- Electives as needed to reach 60 or 90 credits

**Additional Admission Requirements**

GRE: Not required  
TOEFL: Department requirement of 550 paper-based, 79-80 Internet-based  
IELTS: 5.5

At least two letters of reference and a personal statement that includes a description of the applicants' involvement in research, the applicants research interest, and career goals will be required.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.
**Biological Sciences (Ph.D.) - Microbiology Specialization**

**Program Coordinator/Contact**  
Volker Brözel, Department Head  
Radhey Kaushik, Professor/Graduate Coordinator  
Department of Biology and Microbiology  
Alfred Dairy Science Hall 228, Box 2104A  
605-688-6141

**Program Information**  
The Department of Biology and Microbiology provides students with a wide range of opportunities for advanced study. The graduate faculty offer expertise and graduate student advisement in subdisciplines from molecular biology through ecology. Faculty members are very successful in obtaining extramural funds to support graduate student projects. Graduate students have modern research laboratories, equipment and field research sites available to carry out their research projects. The learning environment, scholarly excellence and quality of teaching are areas of strength in the department's Graduate Program.

**Course Delivery Format**  
Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

Biological Sciences (Ph.D.) - Plant Molecular Biology Specialization

Program Coordinator/Contact
David Wright, Department Head
Howard J. Woodard, Professor/Graduate Coordinator
Department of Agronomy, Horticulture, and Plant Science
Berg Agricultural Hall 244, Box 2207A
605-688-5123 or 605-688-4774

Program Information
The Agronomy, Horticulture, and Plant Science Department is an integrated department that includes programs in crop production, entomology, horticulture, plant biotechnology, plant breeding, plant pathology, precision farming, soils, water management, and weed science. The primary goals of the department are to conduct research in these areas, to transmit the results to the public, and to help prepare students for an occupation in these disciplines and to become productive members of a community. Graduate training includes classroom instruction, teaching experience, seminars designed to refine oral and written skills, and meaningful experience in laboratory and field research techniques. Departmental diversity encourages collaborations among disciplines and research programs that support this graduate training.

Course Delivery Format
The program coursework is available on campus, in classroom and laboratory settings, as well as field-based settings.

Facilities and Services
The department is housed in seven buildings across campus. These buildings provide research and teaching laboratories, greenhouses, seed house facilities and access to the functional genomics core facility. The on and off-campus facilities also include the SDSU Seed Testing Laboratory, SDSU Plant Diagnostics Clinic, Seed Certification, and Foundation Seed Stocks Division, which operates as services for the public. In addition, the department conducts research at five research farms near campus and five research stations across the state. The Field Specialists are housed in seven regional extension offices across the state.

Student Support and Engagement Opportunities
Students are encouraged to join and participate in the Plant Science Graduate Student Association (PSGSA) which conducts professional and social events on a regular basis. In addition, students are encouraged to participate and mentor undergraduate students in the Arboriculture Club, Agronomy and Conservation Club, or Horticulture and Urban Agriculture Club which offers opportunities for fellowship, leadership, and career planning for undergraduate students.

Available Options for Graduate Degrees
Doctor of Philosophy
- 60 Credit Plan
- 90 Credit Plan

Core Requirements
For details see specific programs: Biological Sciences (Ph.D.).

The student, major advisor and Advisory Committee select the discipline specific emphasis area of the biological sciences. The courses will be identified on the student's Plan of Study no later than the end of the first year of study. In addition, the student will successfully complete:

- XXX 790 or 890 Seminar Credit: 1 - Selected with advisory committee approval
- GSR 601 - Research Regulations Compliance Credits: 1
- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation

Additional Admission Requirements
GRE: recommended, but not required
TOEFL: minimum requirement of 560 paper-based, 83 Internet-based
IELTS: minimum total score of 6.0
Students must be accepted by an advisor before admission is granted.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Biological Sciences (Ph.D.) - Veterinary Microbiology Specialization

Program Coordinator/Contact
Jane Christopher-Hennings, Department Head
Christopher Chase, Professor/Graduate Coordinator
Department of Veterinary and Biomedical Sciences
Animal Disease Research and Diagnostic Laboratory 105, Box 2175
605-688-5171

Program Information
Graduate education in the Department of Veterinary and Biomedical Sciences is focused on the one health concept, with major emphasis in infectious diseases of food-producing domestic species and zoonotic diseases. Research projects range from basic (mechanistic) to applied science. The interaction of service, discovery, and education that takes place within the Department of Veterinary and Biomedical Sciences results in new knowledge, timely information, and students prepared for careers that make a difference for animals and people alike.

The Department of Veterinary and Biomedical Sciences offers degrees in both Masters of Science and Doctor of Philosophy. The Ph.D. program is offered as a Doctorate in Biological Sciences and requires either 90 credits beyond a B.S. degree, or 60 credits beyond an M.S. from either a Canadian or American University.

Accreditation, Licensure, and Certification
American Association of Veterinary Laboratory Diagnosticians Accreditation

Course Delivery Format
Biological Sciences courses are delivered face-to-face and enhanced with web-based instruction. Online delivery may be offered for specific courses.

Facilities and Services
- Animal Disease Research and Diagnostic Laboratory
- Food Safety Microbiology Laboratory
- Food Emergency Response Network

Available Options for Graduate Degrees
Doctor of Philosophy
60 Credit Plan
90 Credit Plan

Core Requirements
For details see specific programs: Biological Sciences (Ph.D.).

- Minimum of 3 credits of STAT courses numbered 500-level or higher
- XXX 898D Dissertation Credits: 30-40 - Students are required to present a seminar on their dissertation

Research in pursuit of the dissertation requirement is expected to address a question of fundamental scientific importance and is expected to generate data of publication quality.

Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 525 paper-based, 71 Internet-based
IELTS: 5.5

Admission to the program is dependent upon admission to the SDSU Graduate School and identification of a suitable mentor. Applicants are not accepted into the program unless an assistantship can be provided. Funding for assistantships comes from a variety of sources including the South Dakota Agricultural Experiment Station, federal granting agencies, and the animal health product industry. Those interested are encouraged to contact the Department to identify opportunities.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Chemistry (Ph.D.)

Program Coordinator/Contact
Douglas Raynic, Department Head
Jihong Cole-Dai, Graduate Program Coordinator
Department of Chemistry and Biochemistry
Avera Health and Science Center 131, Box 2202
605-688-5151

Program Information
The Department's chemistry faculty research programs fall into the thematic focus areas of environmental chemistry, green chemistry, chemical sensor development, organic synthesis, materials chemistry, natural products chemistry, and chemical education. Within these multidisciplinary and interdisciplinary focus areas, students can select research projects that involve the traditional subdisciplines of chemistry; analytical, biochemistry, inorganic, organic and physical. Currently active research projects in the Department focus on various aspects of analytical chemistry, drug discover and delivery, synthesis or photoactive materials including polymers, materials chemistry and self assembly, chromatography, the chemistry of cell membranes, environmental analysis, green chemistry, chemistry of climate change, photophysical chemistry, natural products synthesis, biophysical chemistry, computational chemistry, and solid-state NMR. For additional information student should review the descriptions of current faculty research interests at www.sdsu.edu/chemistry-biochemistry.

Research Instrumentation
The Department is equipped with modern instrumentation core facilities to support its research program. These facilities are readily available to graduate students for "hands-on" experience after successfully completing a short training course.

- **NMR core facility** includes 600, 400, and 200 MHz solution FT-NMR spectrometers and 400, 300, 100 MHz wide-bore solid-state NMR spectrometers
- **Core campus mass spectrometry facility** consists of a 7T ESI FTMS; a high-resolution magnetic sector mass spectrometer with EI and CI sources and GC, HPLC, pyrolysis and fast-atom bombardment capabilities, a MALDI-TOF mass spectrometer; a Eksigent/Thermo LTQ ESI LC-MS/SM dedicated to "bottom-up" proteomics studies; an Applied Biosystems SICIEX QTRAP ESI LC-MS/MS dedicated to small molecule and metabolomics characterizations; and a Varian GCMS.
- **Core campus proteomics facility** has all the necessary equipment to prepare samples for mass-spectrometry-based proteomics characterizations.
- **Optical Spectroscopy lab** containing 2 FT-IR spectrometer with far-IR capabilities; time-resolved spectrofluorometer; atomic absorption; and diode-array UV-Vis spectrophotometers.
- The Department is home to multiple state of the art fluorescence microscopes for the analysis of biochemical reactions involving purified molecules and within living cells. These instruments including spinning disk confocal microscopy, total internal reflection fluorescence (TIRF) microscopy, targeted photo-blinking, instrumentation of for ensemble and single-molecule fluorescence resonance energy transfer (FRET) experiments and fluorescence correlation spectroscopy, and optogenetics capabilities. The department also houses cells/tissue culture facilities, large- and small-scale protein purification equipment and biophysical characterization capabilities including isothermal titration calorimetry. Campus computer facilities (including a Beowulf supercomputer cluster) are readily available. Individual groups maintain their own system for molecular modeling, word processing or data manipulation. Direct, on-line computer access to chemical and biochemical literature databases such as Chemical Abstracts and Web of Science are provided by the Department.
- In addition to these departmental resources, individual research groups also maintained instrumentation including supercritical fluid chromatography and extraction, thermal analysis, and laser light scattering. Campus supercomputer facilities and on-line computer access to Web of Science, Chemical Abstracts Services and other on-line information sources are readily available.

Course Delivery Format
Courses offered in the Ph.D. Chemistry curriculum are taught in a variety of formats which address student learning outcomes. Didactic (lecture) methods ensure the development of advanced knowledge of chemistry. Practical (laboratory) methods ensures the development and maturation of laboratory skills and training and these opportunities are developed in the research laboratory. A combination of didactic and practical methods ensures the successful completion of the graduate dissertation research project.

Facilities and Services
The Department is housed in the newly constructed Avera Health and Science Center, which provides 100,000 sq. ft. of research and instructional space.

Available Options for Graduate Degrees

- **Doctor of Philosophy**
  - 60 Credit Plan
  - 90 Credit Plan

Core Requirements

**60 Credit Plan**
- CHEM 790 - Seminar Credits: 1 (2 credits required)
- CHEM 898D - Dissertation - Ph.D. Credits: 1-12 (minimum of 18 credits)
- and/or other coursework as required by Graduate Student Advisory Committee

**90 Credit Plan**
Students are required to complete 21 credits of course work that includes 12 credits of core coursework and 9 credits specific to the research project. Additionally, students must complete 3 credit hours of seminar. The remaining credits in the 90 credit plan of study are dissertation research. Students must develop their program of study in consultation with their graduate research advisor and graduate advisory committee during the first semester in residence.
- CHEM 707 - Chemical Communication Skills Credits: 2
- CHEM 790 - Seminar Credits: 1 (3 credits required)
- CHEM 898D - Dissertation - Ph.D. Credits: 1-12 (64 credits required)
- Research Credits: 9

Select 4 of the following 5 courses:
- CHEM 701 - Advanced Organic Chemistry I Credits: 3
- CHEM 703 - Advanced Physical Chemistry Credits: 3
- CHEM 704 - Advanced Inorganic Chemistry Credits: 3
- CHEM 705 - Principles of Biochemistry Credits: 2-5 (3 credits required)
- CHEM 706 - Advanced Analytical Chemistry Credits: 3

Candidacy Examinations

The Department uses a cumulative examination process as its written candidacy (comprehensive) examination for the doctorate in Chemistry. Exams will be scored on a scale of 0-1-2 where 0 represents inadequate knowledge of the material (corresponding to a failing grade), 1 represents adequate knowledge (corresponding to a grade of B or C), and 2 represents superior knowledge (corresponding to a grade of A or B). Successful completion of the cumulative examination process will require that the student accumulate 10 points, with at least three scores of 2 within the sub-discipline of their graduate research and accumulation of points in at least two additional chemistry sub-disciplines. These exams must be passed over a period of two calendar years (24 possible tests). The oral candidacy (comprehensive) exam takes place within a year of completion of the cumulative exams. For the oral examination, students are required to develop and write an original research proposal and defend it orally. In order to successfully defend such a proposal the student must be able to integrate their coursework into the proposed research, and the oral defense reflects that expectation.

Additional Admission Requirements

GRE: General and subject score are recommended but not required
TOEFL: Score of 580 paper-based, 92-93 Internet-based
IELTS: 5.5

Applications are accepted for admission to the Ph.D. program in fall only. Students are strongly encouraged to submit their applications for admission no later than January 15. Initial offers of admission will be made no later than the first week of February.

In addition to the materials required by the Graduate School, the Department of Chemistry and Biochemistry requires the following application materials:
- A one-to two-page personal statement which includes a description of undergraduate research, work experience, or other factors demonstrating a propensity toward graduate studies. The personal statement should also include a statement of the applicant's career goals. The applicant may upload this statement while completing the Graduate School's online application.
- Three letters of recommendation, preferably at least one from faculty at the applicant's undergraduate institution. Letters should come from faculty who are directly familiar with the applicant's academic work. They must address
the applicant's scholarly potential and may also speak to the applicant's potential for graduate studies in the discipline. Letters should come directly from the recommenders, who may submit their letters electronically along with the personal recommendation form provided by the Graduate School. The Graduate School will email recommenders detailed instructions for submitting their recommendations using the contact information provided by the applicant.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Civil Engineering (Ph.D.)

Program Coordinator/Contact
Nadim Wehbe, Department Head
Suzette Buckhard, Professor/Graduate Coordinator
Department of Civil and Environmental Engineering
Crothers Engineering Hall 120, Box 2219
605-688-5427

Program Information
The program is designed to provide breadth and depth within the civil engineering main sub-disciplines including structural, environmental, transportation, geotechnical, hydraulic, and water resources engineering. The department's graduate faculty members conduct research in the fields of bridge engineering, earthquake engineering, traffic operations and safety, transportation infrastructure, breaking waves and river hydraulics, fate and transport of contaminants, water/wastewater treatment processes and biological filtration, and soil stability and deep foundations.

Program Objectives
The Ph.D. program's objectives are to prepare graduates to:

• Generate and disseminate new discovery in civil engineering disciplines
• Develop resilient civil engineering infrastructure to withstand man-made and natural hazards
• Advance sustainable civil engineering systems to serve the needs of future generations and preserve natural resources

Course Delivery Format
The majority of the courses will be taught on campus in a classroom setting. Some courses will be offered through the "Access Grid" system in collaboration with other regional institutions in the state of South Dakota.

Facilities and Services
The Department of Civil and Environmental Engineering is home for state-of-the-art experimental and research facilities. The Lohr Structures Laboratory is a 400 square meters high-bay/strong-floor structural testing facility that is configured to accommodate large-and full-scale test specimens. The Fluid Mechanics Laboratory has a 25-m-long, 0.90-m-wide and 0.75-m-deep research flume which can be used either as an open channel or as a wave tank. The HDR Environmental Laboratory is designed to perform three major functions: Teaching, Analysis, and Research. The research area of the HDR laboratory contains space for graduate work, a ventilated room for biological research, and an area with a high ceiling to accommodate pilot plant work. In addition, the materials, geotechnical, and asphalt laboratories are equipped with basic and advanced testing equipment which can support experimental research.

Student Support and Engagement Opportunities
Students seeking a Ph.D. degree in civil engineering will be conducting research in their area of interest under the mentorship of highly qualified and dedicated faculty. Research and teaching assistantships will be offered to qualified students. Students will also be expected to engage in scholarly activities through publishing of peer-reviewed journal papers and dissemination of research results at national conferences.

Available Options for Graduate Degrees
Doctor of Philosophy 60 Credit Plan

Core Requirements
• CEE 790 - Seminar Credits: 1 (3 credits required)
• CEE 898D - Dissertation Credits: 1-12 (36 credits required)
• Supporting Electives Credits: 15

( Elective courses will be chosen by the Advisor in consultation with the student and approved by the Graduate Advisory Committee as part of the Plan of Study.)

Required Emphasis
Select from the following emphasis areas. Credits: 6

Environmental Emphasis
• CEE 725 - Biological Principles of Environmental Engineering Credits: 3
• CEE 726 - Physical and Chemical Principles of Environmental Engineering Credits: 3
• CEE 726L - Physical and Chemical Principles of Environmental Engineering Laboratory Credits: 0

Structural and Geotechnical Emphasis
• CEE 759 - Structural Dynamics Credits: 3
• EM 741 - Finite Element Analysis Credits: 3

Transportation Emphasis
• CEE 7XX Statistical and Econometric Analysis Methods Credits: 3
• CEE 765 - Pavement Design Credits: 3

Water Resources Emphasis
• CEE 535 - Water Resources Engineering Credits: 3
• CEE 733 - Topics in Water Resources Engineering Credits: 3

Additional Admission Requirements
GRE: General scores required
TOEFL: Department requirement of 575 paper-based, 90-91 Internet-based
IELTS: 5.5

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Computational Science & Statistics (Ph.D.)

Program Coordinator/Contact
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

Program Information
The CSS Ph.D. program is designed to train students to integrate computational and statistical methodologies to formulate, model, analyze, and solve research problems of interest to the natural, physical, and social sciences, including biology, chemistry, physics, engineering, geography/GIS, pharmacy, medicine, economics, and finance. Broadly speaking, the program has strong research components in biostatistics, bioinformatics, and computational methods. More specifically, the program leads to research in a variety of areas that may include: artificial neural networks and fuzzy logic modeling, biological modeling, bioinformatics, biostatistics, computational biology, computational chemistry, computational mathematics, computational statistics, computational physics, computational finance, computer science, data visualization and data mining, ecological modeling, spatial-temporal data modeling, and transport processes.

Course Delivery Format
Courses will typically be delivered in on-campus classrooms, with occasional courses offered online.

Available Options for Graduate Degrees
Doctor of Philosophy 60 Credit Plan

Core Requirements
For further details about program requirements review the department's webpage and the program handbook online.

• Pass qualifying exams over emphasis-area-specific preparatory courses Credits: 0-12
• CSS 890 - Seminar in Computational Science and Statistics Credits: 1 (3 credits required) (must be taken three times for credit)
• Dissertation Support Electives Credits: 6-12
• CSS 898 - Thesis/Dissertation Credits: 1-36 (27-45 credits required)

Additional Graduation Requirements
• Must pass qualifying exams based on the program's core sequences.
• Must pass written and oral comprehensive exams, as designed by the student's advisory committee.

Additional Admission Requirements
GRE: Not required
TOEFL: Department requirement of 575 paper-based, 90 Internet-based
IELTS: 6.0

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Geospatial Science & Engineering (Ph.D.)

Program Coordinator/Contact
Michael Wimberly, Professor/Graduate Coordinator
Geospatial Science and Engineering Program
Wecota Hall 115, Box 506B
605-688-5350

Program Information
The Geospatial Science and Engineering (GSE) Ph.D. is an interdisciplinary program that combines advanced coursework with cutting-edge research to advance the field of geospatial sciences. The focus is on transforming geospatial data into relevant information through acquisition, processing, characterization, analysis, and modeling in order to understand geographic patterns, processes, and relationships at scales ranging from landscapes to the globe. To achieve these aims, the geospatial sciences integrate the geographic disciplines of cartography, geodesy, geographic information systems, and remote sensing with elements of mathematics, statistics, the natural sciences, the social sciences, and engineering. The resulting array of geospatial concepts, methods, technologies, and datasets are used to address a wide range of pertinent questions about the functioning of the biosphere and its implications for sustainability of natural resources, agricultural productivity, biodiversity, environmental quality, and human welfare in a rapidly-changing world.

The program consists of faculty from the Geospatial Sciences Center of Excellence and the Image Processing Laboratory in the department of Electrical Engineering & Computer Science. Other participating departments include Agricultural & Biosystems Engineering, Civil & Environmental Engineering, Geography, and Natural Resource Management. Current faculty research interests include quantitative remote sensing, sensor design and calibration, land cover and land use change, geography, hydrology, landscape ecology, climate change, and fire science as well as applications of geospatial technologies in agriculture, meteorology, natural resource management, public health, and other fields. The program seeks highly motivated students with strong backgrounds in the geospatial sciences or a closely-related field to complement these efforts.

Course Delivery Format
Program coursework is offered in classroom, laboratory, and field-based settings.

Program Coordinator/Contact
George Hamer, Interim Department Head
Qiquan Qiao, Harold C. Hobbach Professor
Department of Electrical Engineering and Computer Science
Daktronics Eng Hall 214, Box 2222
605-688-4526

Program Information
The program offers a variety of courses that encompass a broad range of Electrical Engineering areas including: alternative energy and power systems; computer engineering, communications; electronic materials, devices and sensors; nano technology, photovoltaic devices and systems; and signal and image processing. The department's graduate faculty conduct active research in these areas using modern research facilities and equipment.

Program Objectives
The EE graduate program objectives are to equip individuals to
1. Discover and disseminate knowledge relevant to the discipline of electrical engineering.
2. Provide leadership for increasingly complex roles in electrical engineering and industry.
3. Contribute to the advancement of the science of electrical engineering serving regional and national needs.

Course Delivery Format
A majority of the courses are taught on campus in smart classrooms. The smart classrooms allow for a variety of methods for student engagement and faculty are able to record and post their lectures on-line. Additionally, some courses are offered remotely in collaboration with other Ph.D. granting institutions in the state.

Facilities and Services
With more than $12 million invested in classrooms and laboratories, graduate students benefit from modern lecture rooms and gain valuable experience using state-of-the-art equipment. The recently dedicated modern Daktronics Engineering Hall is home to the Electrical Engineering program with over 15,000 square feet of dedicated research space. The department boasts a 5-bay multi-million dollar clean room, several class one gloveboxes, and nano-characterization labs for developing both organic and inorganic electronics, as well as numerous other labs for research in fiber optics, power and alternative energy systems, and sensors.

Available Options for Graduate Degrees
Doctor of Philosophy 60 Credit Plan
90 Credit Plan

Core Requirements
60 Credit Plan
• EE 790 - Seminar Credits: 1 (3 credits required)
• EE 7XX Electives Credits: 9
• EE 889D - Dissertation Credits: 1-6 (36 credits required)
• Additional Electives Credits: 12

90 Credit Plan
• EE 790 - Seminar Credits: 1 (3 credits required)
• EE 7XX Electives Credits: 12

Additional Admission Requirements

several departments. The scope of the geospatial sciences is broad, and individual faculty members will only advise students within their particular area of specialization. Financial support for students is provided by individual faculty members through their research grants or other funding sources. Students can also bring their own funding, which could be obtained through a fellowship program or through the support of their employer. For these reasons, the application process is highly competitive, and meeting the minimum standards does not guarantee admission. In particular, the critical criterion for admission into the PhD program is that a GSE faculty member must agree to serve as the student's advisor.

Before applying to the program, prospective students are strongly encouraged to contact individual faculty to identify prospective advisors, discuss their research interests and educational goals, and determine if graduate research assistantships are available. Prospective students may also contact Dr. Michael Wimberly, the program coordinator, for additional information.

All applications must meet the admission criteria of the Graduate School before being accepted into the GSE program, and formal offers of graduate assistantships will not be made until students have been officially accepted by the Graduate School.

GRE: Required
TOEFL: Score of 525 paper-based, 71 Internet-based
IELTS: 5.5

Two letters of recommendation from persons acquainted with the academic ability and professional competency of the applicant should be sent directly to the GSE graduate coordinator.

Applicants must provide a written describing their research interests and academic goals in pursuing a Ph.D. and identifying one or more faculty members as potential advisors. The letter of intent should be submitted with the other application materials.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Geospatial Science & Engineering (Ph.D.) - Remote Sensing Engineering Specialization

Program Coordinator/Contact
Michael Wimberly, Professor/Graduate Coordinator
Geospatial Science and Engineering Program
Wecota Hall 115, Box 506B
605-688-5350

Program Information
The Geospatial Science and Engineering (GSE) Ph.D. is an interdisciplinary program that combines advanced coursework with cutting-edge research to advance the field of geospatial sciences. The focus is on transforming geospatial data into relevant information through acquisition, processing, characterization, analysis, and modeling in order to understand geographic patterns, processes, and relationships at scales ranging from landscapes to the globe. To achieve these aims, the geospatial sciences integrate the geographic disciplines of cartography, geodesy, geographic information systems, and remote sensing with elements of mathematics, statistics, the natural sciences, the social sciences, and engineering. The resulting array of geospatial concepts, methods, technologies, and datasets are used to address a wide range of pertinent questions about the functioning of the biosphere and its implications for sustainability of natural resources, agricultural productivity, biodiversity, environmental quality, and human welfare in a rapidly-changing world.

The program consists of faculty from the Geospatial Sciences Center of Excellence and the Image Processing Laboratory in the department of Electrical Engineering & Computer Science. Other participating departments include Agricultural & Biosystems Engineering, Civil & Environmental Engineering, Geography, and Natural Resource Management. Current faculty research interests include quantitative remote sensing, sensor design and calibration, land cover and land use change, geography, hydrology, landscape ecology, climate change, and fire science as well as applications of geospatial technologies in agriculture, meteorology, natural resource management, public health, and other fields. The program seeks highly motivated students with strong backgrounds in the geospatial sciences or a closely-related field to complement these efforts.

Course Delivery Format
Program coursework is offered in classroom, laboratory, and field-based settings.

Facilities and Services
The program facilities are housed in various locations on campus at SDSU, including the Geospatial Sciences Center of Excellence in Wecota Hall and the Image Processing Laboratory in Daktronics Engineering Hall, as well as at the United States Geological Survey's Center for Earth Resources Observation and Science near Baltic, South Dakota.

Available Options for Graduate Degrees
Doctor of Philosophy
60 Credit Plan
90 Credit Plan

Core Requirements
- GSE 740 - Introduction to Geospatial Science and Engineering Credits: 3
- GSE 790 - Seminar in Geospatial Science and Engineering Credits: 1 (3 credits required)
- GSE 898 - Dissertation Credits: 1-12 (36 credits required)
- Specialization Coursework Credits: 6
- Supporting Coursework Credits: 12-15

Additional Admission Requirements
Admission to the GSE program is competitive and limited by the availability of personnel, facilities, and funding necessary to provide quality graduate education. GSE is an interdisciplinary program with participating faculty members from several departments. The scope of the geospatial sciences is broad, and individual faculty members will only advise students within their particular area of specialization. Financial support for students is provided by individual faculty members through their research grants or other funding sources. Students can also bring their own funding, which could be obtained through a fellowship program or through the support of their employer. For these reasons, the application process is highly competitive, and meeting the minimum standards does not guarantee admission. Nursing (Ph.D.)

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
The Doctor of Philosophy in Nursing prepares nurse scientists to assume roles as health care researchers, faculty, and health care administrators with an emphasis on health promotion and disease prevention in under-served and rural populations. The Ph.D. program educates nurse scientists in academic, research, practice and policy roles to address healthcare issues in urban, rural, frontier, and reservation areas.

Program Objectives
The graduate of the Doctor of Philosophy in Nursing program will demonstrate the competencies:

- Conduct original research relevance to the discipline of nursing.
- Integrate nurse scholar and scientist role components of research, teaching, leadership, mentoring, and service to the profession.
- Contribute to the advancement and dissemination of nursing science.

Accreditation, Certification, and Licensure

Licensure
Students who are Registered Nurses must provide evidence of professional registration by submitting a copy of the most current RN license. International students who are Registered Nurses must provide evidence of national registration in good standing in their home country.

Course Delivery Format
Nursing courses are delivered face-to-face and enhanced with web-based instruction. Online course delivery is also offered for specified courses.

Available Options for Graduate Degrees

Doctor of Philosophy

60 Credit Plan

90 Credit Plan

Core Requirements

- HSC 631 - Biostatistics I Credits: 3
- HSC 731 - Biostatistics II Credits: 3
- NURS 615 - Foundations of Advanced Nursing Credits: 3 **
- NURS 670 - Health Policy, Legislation, Economics and Ethics Credits: 3 **
- NURS 675 - Cultural Competence in Health Care Credits: 3 **
- NURS 810 - Doctoral Seminar Credits: 1 (3 credits required)
- NURS 815 - Philosophical Basis for Nursing Inquiry Credits: 3
- NURS 820 - Theory Development in Nursing Credits: 3
- NURS 825 - Qualitative Research Methods in Nursing Credits: 3
- NURS 830 - Quantitative Methods in Nursing Research Credits: 3
- NURS 835 - Ethical Issues Influencing Practice and Research in Health Credits: 2
- NURS 840 - Health Promotion Theory and Research in Underserved Populations Credits: 3 **
- NURS 845 - Measurement and Instrument Evaluation in Health Sciences Research Credits: 3 **
- NURS 895 - Practicum Credits: 1-3 (3 credits required)
• NURS 898 - Dissertation - PhD Credits: 1-24 (19-22 credits required)
• Electives Credits: 12-15 (60 credit plan), 27-30 (90 credit plan)

*Must include one additional statistics or research methods course. Methods or statistics will be found in the title. Graduate students must consult with their advisors prior to registration.

Additional Admission Requirements
GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based
IELTS: 7.0 total band

In addition to meeting the requirements of SDSU Graduate School, applicants must have:
• Current RN licensure. International students who are nurses are required to show proof of current licensure/registration as a Registered Nurse (or equivalent), in good standing, in their home country, and maintain that licensure throughout the duration of the program.
• Bachelor's degree in nursing from an accredited program.
• Master's degree in nursing or a related field of study from an accredited program.
• Minimum GPA of 3.3 in master's coursework.
• Completed application to Graduate Nursing Program via NursingCAS website.
• Completed an approved statistical methods course within the past five years.
• Example of scholarly written work.
• Interview with graduate faculty.
• Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, professional liability insurance, influenza vaccine, and TB test.
• Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant's standing in that program upon exit.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Nutrition & Exercise Sciences (Ph.D.)

Program Coordinator/Contact
Kendra Kattelmann, Department Head
Department of Health and Nutritional Sciences
Wagner Hall 425, Box 2275A
605-688-4668

Program Information
The Ph.D. in Nutrition and Exercise Sciences will prepare graduates for careers as researchers in healthcare settings, government, industry, corporations, and universities. The research and teaching emphasizes molecular and biochemical nutrition, nutrigenomics, epidemiology, nutrition issues in developing countries, obesity prevention and behavior nutrition.

Course Delivery Format
The program consists of lecture, laboratory, experiential learning opportunities and research.

Course Load Information
Students enrolled in six or more state-supported credits within a given semester will be charged the current special discipline fee.

Student Support and Engagement Opportunities
The Department of Health and Nutritional Sciences aims to provide premier academic programs and high-quality services to students. A limited number of research and teaching assistantships and scholarships may be available to qualified graduate students.

Available Options for Graduate Degrees
Doctor of Philosophy

60 Credit Plan

Core Requirements
• Advanced Research Methods
  HNS 783 - Research Methods in Health and Nutritional Sciences Credits: 3
  or NUTR 782 - Epidemiology Credits: 3
  or other class approved by the committee
• Advanced Statistics
  HSC 631 - Biostatistics I Credits: 3
  or HSC 731 - Biostatistics II Credits: 3
  or STAT 541 - Statistical Methods II Credits: 3
  or other class approved by the committee
• EXS 750 - Advanced Exercise Physiology Credits: 3
• GSR 601 - Research Regulations Compliance Credits: 1
• HNS 790 - Seminar Credits: 1
• HNS 898D - Dissertation Credits: 1-12 (28 credits required)
• NUTR 702 - Macronutrients in Human Nutrition Credits: 3
• NUTR 760 - Vitamins and Minerals in Human Nutrition Credits: 3
• Electives Credits: 15

Additional Admissions Requirements
GRE: Required
TOEFL: required score of 550 paper-based, 79-80 Internet-based
IELTS: 6.0

Letter of application stating to include the following: primary area of interest (nutrition, exercise science, etc); desired research focus; long-term goals outlining career goals; interest in assistantship (teaching or research); reason(s) for attending graduate school; current professional certifications and credentials; an interview (in person or via phone) is highly encouraged but not required.

Entering students for the Ph.D. degree will usually have a Master's degree in dietetics, exercise science, nutrition, biology, chemistry, epidemiology, or other related field from an approved accredited institution. In those cases where applicants do not have a Master's degree, departmental requirements will apply, either requiring completion of a Master's degree or permitting an individual to move directly into a doctoral program.

Prerequisites for Ph.D. degree include Master's degree in a health-related field (nutrition, dietetics, exercise physiology, public health, etc), NUTR 422/522 or equivalent, STAT 541 or equivalent, or biochemistry.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Pharmaceutical Sciences (Ph.D.)

Program Coordinator/Contact
Omathunu Perumal, Department Head
Department of Pharmaceutical Sciences
Avera Health and Science Center 271, Box 2202C
605-688-5314 or 605-688-5598

Program Information
The Department of Pharmaceutical Sciences offers courses and research opportunities in pharmaceutical and biomedical sciences leading to the Doctor of Philosophy (Ph.D.) degree in Pharmaceutical Sciences. The Department also offers opportunity for combination Doctor of Pharmacy (Pharm.D.)/Ph.D. degrees in Pharmaceutical Sciences. The didactic courses, along with the research concentration in a specific area of pharmaceutical sciences, provide a strong foundation for academic, industry and other research careers. The program places a strong emphasis on a comprehensive and high quality graduate education and research experience for the students.

Student Learning Outcomes
Graduates of the Ph.D. in Pharmaceutical Sciences will:
• Integrate and apply knowledge of the pharmaceutical and biomedical sciences to problems in drug discovery and development.
• Conduct research with skill and competence, including hypothesis development, experimental design, data analysis, and interpretation.
• Critically evaluate scientific literature and analyze contemporary scientific issues.
• Communicate effectively in both written and oral forms to a wide range of audiences.
• Demonstrate professionalism and ethical conduct.

**Course Delivery Format**

Coursework is provided primarily through lectures, discussion and laboratory work.

**Facilities and Services**

The graduate program is housed in the Avera Health and Science Center on the Brookings campus. The Avera Health and Science Center has well-equipped classrooms that utilize modern technology for delivering the curriculum. The facility has modern research laboratories that support our growing research program.

**Student Support and Engagement Opportunities**

Graduate students may choose to take part in Peer Mentoring or get involved with the College's Honorary societies and other student organizations including the student chapter of the American Association of Pharmaceutical Scientists.

**Available Options for Graduate Degrees**

Doctor of Philosophy 90 Credit Plan

**Core Requirements**

- PHA 725 - Advanced Concepts in Biomedical Sciences and Pharmacogenomics Credits: 3
- PHA 820 - Advanced Concepts in Medicinal Chemistry Credits: 3
- PHA 840 - Advanced Concepts in Pharmacology Credits: 3
- PHA 846 - Techniques in Pharmaceutical Research Credits: 3
- PHA 847 - Grant Writing and Academic Development Credits: 3
- PHA 859 - Advanced Concepts in Pharmaceutics Credits: 3
- PHA 890 - Seminar Credits: 1 (2 credits required)

Note: The first credit of PHA 890 will be taken at the early stage of the program and the second will be taken at the later stage of the program.

- PHA 898 - Dissertation Credits: 1-10 (58 credits required)
- STAT 541 - Statistical Methods II Credits: 3
- Electives Credits: *9*

*Elective courses may be selected from pharmacy (PHA) and related disciplines (e.g. BIOS, BIOL, CHEM, ABS, STAT prefixes)

**Additional Admission Requirements**

GRE: General GRE required
TOEFL: Minimum score of 550 paper-based, 79 Internet-based
IELTS: 6.0 or higher

1. **Letters of Recommendation** Two personal reference letters from people acquainted with the academic ability and professional competence of the applicant are required.
2. **TOEFL/GRE Scores** Test of English as a Foreign Language (TOEFL) scores are required for international students from non-English speaking countries. A minimum score of 550 paper-based, 79 Internet-based or above is required. The International English Language Testing System (IELTS) band score is also acceptable (6.0 or higher). No minimum score is set for GRE test. The Institutional Code for SDSU is 6653.
3. **A Statement of Personal Goals and Philosophy** The statement should be brief and no more than one page.

For more information on applying to the Ph.D. in Pharmaceutical Sciences visit www.sdstate.edu/pharmacy-allied-health-professions/how-apply-phd-pharmaceutical-sciences.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.
Sociology (Ph.D.)

Program Coordinator/Contact
Mary Emery, Department Head
Meredith Redlin, Professor/Graduate Coordinator
Department of Sociology and Rural Studies
Hansen Hall 004
605-688-4122

Program Information
The Ph.D. program in Sociology is designed to prepare students for professional careers in teaching, research and creative activity, and applied or practice-related sociology in academic, government and industry setting areas. Students are encouraged to identify areas of interest that connect with faculty areas of expertise and interest. Students seeking admission must have an approved Master's degree (thesis option), not necessarily in Sociology. If a thesis in a closely related field is not in evidence, Ph.D. students will be required to complete SOC 501 and SOC 504 in their first year of coursework. A student guide to the program is located on the department website.

Course Delivery Format
Courses are generally delivered face-to-face in small seminar settings. A limited number of courses may be offered via DDN or on-line.

Available Options for Graduate Degrees
Doctor of Philosophy

Core Requirements
- SOC 707 - Sociological Practice and Public Policy Credits: 3
- SOC 710 - Research Methods Credits: 3
- SOC 711 - Qualitative Research Methods Credits: 3
- SOC 712 - Sociological Theory I Credits: 3
- SOC 713 - Sociological Theory II Credits: 3
- SOC 790 - Seminar Credits: 1-4 Orientation to Graduate Study (1 credit required)
- SOC 794 - Internship Credits: 1-6 (6-12 credits required)
  or SOC 726 - Teaching Sociology Credits: 2
  and SOC 727 - Teaching Sociology Practicum Credits: 1-3
  and SOC 738 - Scholarship of Teaching and Learning Credits: 2
  and SOC 739 - Scholarship of Teaching and Learning Practicum Credits: 1-3
- SOC 898D - Dissertation Credits: 1-12 (12 credits required)

Social Science Statistics Coursework
Select six credits from the following. Credits: 6
- SOC 501 - The Research Process Credits: 3
- SOC 792 - Topics Credits: 1-6 (Advanced Survey Methods, Spatial Data Analysis, Data Management) (3 credits required)
- SOC 794 - Internship Credits: 1-6 (“Statistics” in title) (3 credits required)

Additional Admission Requirements
GRE: Required
TOEFL: Required score of 575 paper-based, 90 Internet-based
IELTS: 6.5

Doctor of Philosophy students seeking entrance must have an approved Bachelor's and Master's degree (thesis option), not necessarily in Sociology. Each applicant should have 2 signed letters of recommendation from individuals familiar with the student's academic record.

It is required that applicants also include a writing sample and personal statement. The personal statement should identify the student's academic goals and describe how those goals fit with the faculty expertise and interests.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Philosophy Degree Requirements.

Wildlife & Fisheries Sciences (Ph.D.)

Program Coordinator/Contact
Michele Dadash, Department Head
Department of Natural Resource Management
Edgar S. McFadden Biostress Laboratory 138, Box 2140B
605-688-6121

Program Information
SDSU has an extensive graduate program in wildlife and fisheries sciences. The Department of Natural Resource Management offers graduate programs in both Biological Science and Wildlife and Fisheries Sciences. Both degree programs award M.S. and Ph.D. degrees.

Wildlife and Fisheries Sciences
The Ph.D. degree program in Wildlife and Fisheries Sciences is intended to educate students for upper-level management, research and administrative positions with state and federal agencies, private companies, and academic institutions. Academic career opportunities also exist for Ph.D. graduates in all the Departmental disciplines, preparing students for the responsibilities of teaching, research, and service, required for faculty positions with universities and colleges. By building on the educational foundation that students obtain from B.S. and M.S. degree work, we endeavor to raise them to a higher intellectual plateau. While coursework is involved, this educational experience is primarily based on research and mentoring. This degree requires original thought and research contributions, synthesis and development of information, and contributions to the world and its natural resources.

Biological Sciences
Students interested in careers in ecology, environmental science, and range science often utilize the Biological Sciences Ph.D. degree programs. Refer to the Biological Sciences (Ph.D.) page for more information about the specifications required for these degree programs.

Student Learning Outcomes
- Be knowledgeable regarding biological systems at a level appropriate to a Ph.D. degree holder.
- Be able to effectively express themselves orally and in written form.
- Understand the scientific method of solving problems.
- Be computer and statistically capable.
- Be specialized in some area of wildlife or fisheries, but still be broadly based in knowledge.
- Be able to conduct scholarly research.
- Understand the relationships between biological information and socioeconomic factors.
- Demonstrate professional development, especially in regard to the need for continued learning after their degree program.
- Develop a concern and feeling for the natural resources of the world.

Accreditation, Licensure, and Certification
Certification
Certification is available through the American Fisheries Society and The Wildlife Society.

Course Delivery Format
The Wildlife and Fisheries Sciences graduate program is primarily an on-campus program. However, field research may require extended time periods away from campus.

Facilities and Services
The department is housed within the McFadden Biostress Laboratory at SDSU. The Department houses the Oak Lake Field Station and also hosts the South Dakota Cooperative Fish and Wildlife Research Unit.

Available Options for Graduate Degrees

Doctor of Philosophy

Core Requirements
60 Credit Plan
- GSR 601 - Research Regulations Compliance Credits: 1
- NRM 582 - Natural Resource Management Biometry Credits: 3
Professional Doctoral Degrees

Nursing (D.N.P.) (Post Master's to D.N.P. - NP, CRNA, CNS, & CNM)

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
The D.N.P. program was established in 2009. The program was developed in response to the American Association of Colleges of Nursing (AACN) Position Statement on the Practice Doctorate in Nursing. The position statement supported moving the preparation of advanced practice nurses from the M.S. in Nursing to the Doctoral level by the year 2015.

The purpose of the D.N.P. program is to prepare Advanced Practice Nurses (APRNs) to transform clinical practice as expert clinicians and leaders with a special focus on rural and underserved populations.

In addition to delivering evidence-based direct patient care at an advanced practice level to individuals across the lifespan in primary care settings, graduates of the D.N.P. program will learn skills needed to produce and implement valuable evidence to guide practice and are prepared to work collaboratively with rural communities in an effort to reduce health disparities.

Program Outcomes
- To prepare graduates as clinicians and leaders with a special focus on rural and underserved populations.
- To prepare graduates to deliver evidence-based direct patient care to individuals across the lifespan in primary care settings.
- To prepare graduates to produce and implement scientific evidence to guide practice.
- To prepare graduates to work collaboratively with frontier, urban, and rural communities in an effort to reduce health disparities.

Student Learning Outcomes
At the completion of the program, the graduate will successfully demonstrate the following competencies:
- Integrate theoretical and scientific underpinnings of nursing and other disciplines to address emerging healthcare and practice issues.
- Engage in health policy at all levels to influence healthcare delivery concerns, such as health disparities, cultural sensitivity, ethics, access to care, health finance, and quality of care.
- Employ evidence-based practice and advanced clinical judgment to comprehensively assess, design, and deliver care for individuals or populations.
- Demonstrate leadership at the organizational and/or systems level to address health outcomes of individuals and populations though evidence-based initiatives.
- Utilize advanced nursing knowledge and information systems/technology related to clinical prevention and health promotion to address gaps in healthcare.
- Collaborate with the interprofessional team in the translation, implementation, analysis, and dissemination of evidence-based practice to improve healthcare outcomes.

Accreditation, Certification, and Licensure
Accreditation
The Doctor of Nursing Practice at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Licensure
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

Course Delivery Format
Nursing courses are delivered face-to-face and enhanced with web-based instruction. Online course delivery is also offered for specified courses.

Facilities and Services
The College of Nursing provides world-class facilities and a variety of student services and programs for graduate student engagement.

- Simulation Lab
- Honor Societies

The program is open to registered nurses with a Master's Degree in nursing with CNP, CRNA, CNS, and CNM. The program is designed for part-time study (including summers), and requires 31-36 course credits. The program is delivered through an executive delivery model in Sioux Falls that includes online components.

Available Options for Graduate Degrees
Doctor of Nursing Practice Post Masters to D.N.P. 31-36 Credits

Core Requirements
For additional information, refer to the Graduate Nursing Department webpage.

- HSC 631 - Biostatistics I Credits: 3
- NURS 675 - Cultural Competence in Health Care Credits: 3
- NURS 750 - Transformational Leadership in Nursing Credits: 3
- NURS 835 - Ethical Issues Influencing Practice and Research in Health Credits: 2
• NURS 850 - Philosophical and Theoretical Foundations for Evidence-Based Care Credits: 3
• NURS 855 - Translational Research in Health Care Credits: 3
• NURS 860 - Health Operations and Financial Management for Nurse Leaders Credits: 3
• NURS 875 - DNP Intensive Credits: 1-3 (3-8 credits required)
• NURS 880 - DNP Project Credits: 1-8 (8 credits required)

Additional Admissions Requirements
GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting the Graduate School admission requirements, applicants for graduate study for the Post Master to Doctor of Nursing Practice (who possess current certification as a Nurse Practitioner, CRNA, CNM or CNS) must have:

• Current RN licensure.
• National certification as a Nurse Practitioner (Nurse Anesthetist, Nurse Midwife or Clinical Nurse Specialist).
• Master’s degree in nursing with a (Nurse Practitioner, Nurse Anesthetist, Nurse Midwife or Clinical Nurse Specialist) focus from an NLNAC or CCNE accredited program with a minimum cumulative 3.3 GPA.
• Completed and verified application to the Graduate Nursing program via NursingCAS website.
• Submission of written response to questions regarding educational goals, scholarly practice interests, and desired practice career.
• Completed an approved statistical methods course within the last five years.
• Interview with graduate faculty.
• Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification, professional liability insurance, influenza vaccine, and TB test.
• Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant’s standing in that program upon exit.

General Requirements
Graduate students must consult with their advisor before registering for graduate work.
For additional information refer to the Doctor of Nursing Practice Degree Requirements.

Nursing (D.N.P.) - Family Nurse Practitioner Specialization (B.S. to D.N.P.)

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275

Nursing (D.N.P.) - Family Psychiatric & Mental Health Nurse Practitioner Specialization (B.S. to D.N.P.)

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
The Doctor of Nursing Practice prepares advanced practice nurses to transform clinical practice as expert clinicians and leaders with a special focus on rural and underserved populations. The Family Psychiatric and Mental Health Nurse Practitioner Specialization is offered in partnership with the University of Missouri-Columbia Sinclair School of Nursing. Students are prepared to deliver advanced primary mental health care to adults and are eligible for the ANCC psychiatric nurse practitioner examination.

Program Outcomes
- To prepare graduates as clinicians and leaders with a special focus on rural and underserved populations.
- To prepare graduates to deliver evidence-based direct patient care to individuals across the lifespan in primary care settings.
- To prepare graduates to produce and implement scientific evidence to guide practice.
• To prepare graduates to work collaboratively with frontier, urban, and rural communities in an effort to reduce health disparities.

**Student Learning Outcomes**
At the completion of the program, the graduate will successfully demonstrate the following competencies:

- Integrate theoretical and scientific underpinnings of nursing and other disciplines to address emerging healthcare and practice issues.
- Engage in health policy at all levels to influence healthcare delivery concerns, such as health disparities, cultural sensitivity, ethics, access to care, health finance, and quality of care.
- Employ evidence-based practice and advanced clinical judgment to comprehensively assess, design, and deliver mental health care for individuals across the lifespan.
- Demonstrate leadership at the organizational and/or systems level to address health outcomes of individuals and populations though evidence-based initiatives.
- Utilize advanced nursing knowledge and information systems/technology related to clinical prevention and health promotion to address gaps in healthcare.
- Collaborate with the interprofessional team in the translation, implementation, analysis, and dissemination of evidence-based practice to improve healthcare outcomes.

**Accreditation, Certification, and Licensure**

**Accreditation**
The Doctor of Nursing Practice at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

**Certification**
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

**Licensure**
After completing the program of study, graduates may be eligible to complete certification through several professional organizations.

Upon completion of the Doctor of Nursing Practice, students may be eligible for the following certifications:

**Specialization** | **National Certification Eligibility**
---|---
Family Psychiatric and Mental Health Nurse Practitioner Specialization | ANCC psychiatric nurse practitioner examination

**Specialization** | **National Certification Eligibility**
---|---
Family Nurse Practitioner Specialization | ANCC and AANP certification examinations

**Specialization** | **National Certification Eligibility**
---|---
Neonatal Nurse Practitioner Specialization | Neonatal nurse practitioner examination

**Specialization** | **National Certification Eligibility**
---|---
Pediatric Nurse Practitioner Specialization | ANCC pediatric nurse practitioner examination

**Course Delivery Format**
Nursing courses are delivered face-to-face and enhanced with web-based instruction. Online course delivery is also offered for specified courses.

The College of Nursing has agreements for distance education and hybrid courses with the University of Missouri-Kansas City for Neonatal Nurse Practitioner courses, and the University of Missouri-Columbia for Family Psychiatric and Mental Health Nurse Practitioner, Pediatric Nurse Practitioner, and Pediatric Clinical Nurse Specialist courses. Students in these specializations receive their degree from SDSU.

**Facilities and Services**
The College of Nursing provides world-class facilities and a variety of students services and programs for graduate student engagement.

**Simulation Lab**
**Honor Societies**

**Available Options for Graduate Degrees**
Doctor of Nursing Practice B.S. to D.N.P. 83.5 Credits

**Core Requirements**
Offered in collaboration with the University of Missouri - Columbia
++ Courses offered online by the Sinclair School of Nursing, University of Missouri - Columbia

On-campus requirement at the University of Missouri for clinical and Institute courses. Dates are posted on the University of Missouri Sinclair School of Nursing site.

University of Missouri coursework subject to change – contact the SDSU Graduate Nursing Department for updated information.

605-688-4114

Program Information
The Doctor of Nursing Practice prepares advanced practice nurses to transform clinical practice as expert clinicians and leaders with a special focus on rural and underserved populations. Neonatal Nurse Practitioner program (NNP) is offered in partnership with the University of Missouri-Kansas City School of Nursing. The program prepares graduates to provide assessment diagnosis, and medical management of neonates and their families from admission through discharge in collaboration with other health care providers in specific clinical settings. Graduates with this specialization are eligible for the neonatal nurse practitioner examination via the National Certification Corporation.

Program Outcomes
• To prepare graduates as clinicians and leaders with a special focus on rural and underserved populations.

• To prepare graduates to deliver evidence-based direct patient care to individuals across the lifespan in primary care settings.

• To prepare graduates to produce and implement scientific evidence to guide practice.

• To prepare graduates to work collaboratively with frontier, urban, and rural communities in an effort to reduce health disparities.

Student Learning Outcomes
At the completion of the program, the graduate will successfully demonstrate the following competencies:

• Integrate theoretical and scientific underpinnings of nursing and other disciplines to address emerging healthcare and practice issues.

• Engage in health policy at all levels to influence healthcare delivery concerns, such as health disparities, cultural sensitivity, ethics, access to care, health finance, and quality of care.

• Employ evidence-based practice and advanced clinical judgment to comprehensively assess, design, and deliver care for neonates.

• Demonstrate leadership at the organizational and/or systems level to address health outcomes of individuals and populations though evidence-based initiatives.

• Utilize advanced nursing knowledge and information systems/technology related to clinical prevention and health promotion to address gaps in healthcare.

• Collaborate with the interprofessional team in the translation, implementation, analysis, and dissemination of evidence-based practice to improve healthcare outcomes.

Accreditation, Certification, and Licensure

Accreditation
The Doctor of Nursing Practice at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Licensure
Students must provide evidence of professional registration by submitting a copy of the most current RN license.

Certification
After completing the program of study, graduates may be eligible to complete certification through several professional organizations.

Upon completion of the Doctor of Nursing Practice, students may be eligible for the following certifications:

Course Delivery Format
Nursing courses are delivered face-to-face and enhanced with web-based instruction. Online course delivery is also offered for specified courses.

The College of Nursing has agreements for distance education and hybrid courses with the University of Missouri-Kansas City for Neonatal Nurse Practitioner courses, and the University of Missouri-Columbia for Family Psychiatric and Mental Health Nurse Practitioner, Pediatric Nurse Practitioner, and Pediatric Clinical Nurse Specialist courses. Students in these specializations receive their degree from SDSU.

Facilities and Services
The College of Nursing provides world-class facilities and a variety of student services and programs for graduate student engagement.

• Honor Societies

Available Options for Graduate Degrees
Doctor of Nursing Practice B.S. to D.N.P. 71 Credits

Core Requirements
Offered in collaboration with the University of Missouri - Kansas City

A minimum of 1,000 preceptor hours are required for the DNP degree. Clinical Courses offered through the University of Missouri – Kansas City. University of Missouri coursework is subject to change – contact the SDSU Graduate Nursing Department for updated information.

There are online campus requirements – refer to the Graduate Nursing webpage for additional information.

• HSC 631 - Biostatistics I Credits: 3

• NURS 615 - Foundations of Advanced Nursing Credits: 3
• NURS 623 - Pathophysiology Across the Lifespan - Application to Advanced Practice Nursing Credits: 4
• NURS 670 - Health Policy, Legislation, Economics and Ethics Credits: 3
• NURS 675 - Cultural Competence in Health Care Credits: 3
• NURS 750 - Transformational Leadership in Nursing Credits: 3
• NURS 760 - Advanced Concepts in Health Promotion and Disease Prevention Credits: 3
• NURS 835 - Ethical Issues Influencing Practice and Research in Health Credits: 2
• NURS 850 - Philosophical and Theoretical Foundations for Evidence-Based Care Credits: 3
• NURS 855 - Translational Research in Health Care Credits: 3
• NURS 860 - Health Operations and Financial Management for Nurse Leaders Credits: 3
• NURS 875 - DNP Intensive Credits: 1-3 (6 credits required)
• NURS 880 - DNP Project Credits: 1-8 (8 credits required)

**University of Missouri - Kansas City Courses**

• N5547N - Neonatal Assessment Credits: 3
• N5548N - Physiology/Pathophysiology of the Neonates Credit: 2
• N5549N - Neonatal Pharmacology Credits: 3
• N5564N - Neonatal Nursing I Credits: 3
• N5566N - Neonatal Nursing II Credits: 3
• N5572-N1 - Preceptorship I Credits: 5
• N5572-N1I - Preceptorship II Credits: 5

**Additional Admission Requirements**

GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting the Graduate School admission requirements, applicants for graduate study for the Bachelor's to Doctor of Nursing Practice must have:

- Current RN licensure.
- Bachelor's degree in nursing from an NLNAC or CCNE Accredited program with a minimum cumulative 3.3 GPA.
- 1500 hours of documented nursing practice experience prior to the first clinical lab or within the first program year.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Submission of a written response to questions regarding educational goals, scholarly practice interest and desired practice career.
- Completed an approved statistical methods course within the past 5 years.
- Interview with graduate faculty.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, specialty certification, professional liability insurance, influenza vaccine, and TB test.
- Applicants who have begun but not completed a graduate nursing program at another college or university must submit a letter to the College of Nursing indicating their reason for leaving that said program. A letter of recommendation must also be submitted to the College of Nursing from the dean/director of their former program that includes the applicant’s standing in that program upon exit.

**General Requirements**

Graduate students must consult with their advisor before registering for graduate work.

For additional information refer to the Doctor of Nursing Practice Degree Requirements.

**Nursing (D.N.P.) - Pediatric Nurse Practitioner Specialization (B.S. to D.N.P.)**

**Program Coordinator/Contact**

Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275

**Program Information**

The Doctor of Nursing Practice prepares advanced practice nurses to transform clinical practice as expert clinicians and leaders with a special focus on rural and under-served populations. Pediatric Nurse Practitioner Specialty is offered in partnership with the University of Missouri-Columbia Sinclair School of Nursing. Students are prepared to deliver advanced primary health care to pediatric clients and are eligible for the ANCC pediatric nurse practitioner examination and/or the PNCP (Pediatric Nursing Certification Board).

**Program Outcomes**

- To prepare graduates as clinicians and leaders with a special focus on rural and underserved populations.
- To prepare graduates to deliver evidence-based direct patient care to individuals across the lifespan in primary care settings.
- To prepare graduates to produce and implement scientific evidence to guide practice.
- To prepare graduates to work collaboratively with frontier, urban, and rural communities in an effort to reduce health disparities.

**Student Learning Outcomes**

At the completion of the program, the graduate will successfully demonstrate the following competencies:

- Integrate theoretical and scientific underpinnings of nursing and other disciplines to address emerging healthcare and practice issues.
- Engage in health policy at all levels to influence healthcare delivery concerns, such as health disparities, cultural sensitivity, ethics, access to care, health finance, and quality of care.
- Employ evidence-based practice and advanced clinical judgment to comprehensively assess, design, and deliver care for pediatric individuals.
- Demonstrate leadership at the organizational and/or systems level to address health outcomes of individuals and populations though evidence-based initiatives.
- Utilize advanced nursing knowledge and information systems/technology related to clinical prevention and health promotion to address gaps in healthcare.
- Collaborate with the interprofessional team in the translation, implementation, analysis, and dissemination of evidence-based practice to improve healthcare outcomes.

Pharmacy (Pharm.D.)

Program Coordinator/Contact  
Jane Mort, Dean
Dan Hansen, Assistant Dean for Student Services
Avera Health and Science Center 133
605-688-6197 or 605-688-5591

Program Information  
The College of Pharmacy and Allied Health Professions offers a six-year course of study (2-year pre-pharmacy and 4-year professional program phase) leading to an entry level Doctor of Pharmacy degree. The Pharm.D. is a professional degree which enables graduates to pursue diverse career opportunities and ensures that their pharmacy education prepares them for future changes in the profession. The
program provides unique opportunities for students who want to make a significant contribution to the health care needs of today’s society.

**Program Admission**

**Preparation for the Major**

In high school the student should take an academic curriculum in preparation for entrance to college. A sound basic education in science and mathematics courses is an essential part of preparation for the study of pharmacy. Good written and verbal communication skills are important. Students planning to transfer from another college or university should consult with the College of Pharmacy and Allied Health Professions early in their academic careers to plan coursework that will transfer to the College of Pharmacy and Allied Health Professions and meet the admission requirements.

**Application Process**

All students seeking admission to the 4-year professional program leading to the Doctor of Pharmacy degree must submit an application for the professional program. Applications are available from the College of Pharmacy and Allied Health Professions website. The deadline for applying for admission for the fall semester is February 1. Limitations in the size of the physical facilities, the number of faculty, and the number of advanced pharmacy practice experience sites make it necessary to limit the class size in the professional program. Each student admitted into the professional program is required to authorize and pay for a criminal background check. The background check report is automatically sent to the student and to the College and must be approved by the Admissions Committee.

Selection is competitive and based upon several factors including pre-pharmacy coursework, ACT or PCAT scores, written and oral communication skills, knowledge of the profession, residency status and other factors. Any student who anticipates successful completion of the pre-pharmacy mathematics, science and communication requirements prior to fall semester is eligible to apply.

Notification of acceptance into the professional program will be made by the March 15. Students admitted to the professional program must submit a non-refundable pharmacy major fee to secure their position for the fall semester.

**Curriculum Notes**

1. Eligible for B.S. in Pharmaceutical Sciences after completion of all general education requirements, 300 and 400-level required PHA courses, and general elective credits for a total of 138 credits.
2. Successful completion of the capstone activities are required as part of the degree requirements for both the B.S. in Pharmaceutical Sciences and the Doctor of Pharmacy degree.
3. P3 year courses are taught at the University Center North in Sioux Falls. Advanced Pharmacy Practice Experiences (APPEs) are completed during Summer Sessions, Fall, and Spring Semesters.

**Pharmacy Regulations**

Students in the College of Pharmacy and Allied Health Professions are governed by the regulations which apply to all students at SDSU but are also governed by requirements established by the College. These requirements are presented in detail in the Pharmacy Student Handbook and include:

**Progression**

Progression standards for students in the Pharm.D. program are set to assure graduates are prepared to provide pharmacy services to the public. The integrated curriculum relies on information and skills garnered in previous courses and therefore, students' success depends on achieving a minimum level of performance in each course. Minimum level of performance is defined as a grade of C or better based on University Catalog grade definitions. A grade of D is defined in terms of "insufficient" and "inadequate" according to the University Catalog. A grade of F is defined in terms of "failure." D, F, and U (unsatisfactory) grades do not represent a minimum level of performance need to develop skills, abilities, and knowledge of a general practitioner.

Refused Status - A student will be placed on refused status if the student:

a. Earns a D, F, or U in a pharmacy course.

b. Does not complete the Pharm.D. program within six years of starting the professional program.

**Class Standing Requirements**

Standing - In order for students to enroll in the fall semester of the pharmacy program, students must meet the class standing requirement. These are defined as follows (note: "completion" means a passing grade in each pharmacy course and maintaining semester and cumulative PHA GPA requirements):

- **P1 Year Standing** - The student must have been admitted into the professional program.
- **P2 Year Standing** - Completion of all PHA 300 level required courses and PHA 119/101 and PHA 219.
- **P3 Year Standing** - Completion of all PHA 400 level required courses. PHA 610, a bachelor’s degree, and all capstone activities are required to begin the fall semester. Completion of all required PHA 700, non-advanced pharmacy practice experience courses are required to progress to the subsequent semester.
- **P4 Year Standing** - Completion of all PHA 600-700 level required, non-advanced pharmacy practice experience courses, and 300 hours of IPPE.

**Student Learning Outcomes**

The educational outcomes are the knowledge, skills and attitudes which the College desires each Pharm.D. graduate to possess. The Pharm.D. program consists of specific courses and other experiences which are designed to provide the knowledge, training and experience to allow each student to successfully attain these outcomes.

**Foundational Knowledge**

The professional program leading to the Doctor of Pharmacy degree (hereinafter "the program") develops in the graduate the knowledge, skills, abilities, behaviors, and attitudes necessary to apply the foundational sciences to the provision of patient-centered care.

1. Foundational Knowledge (Learner) – Develop, integrate, and apply knowledge from the foundational sciences (i.e., biomedical, pharmaceutical, social/behavioral/administrative, and clinical sciences) to evaluate the scientific literature, explain drug action, solve therapeutic problems, and advance population health and patient-centered care.

**Essentials for Practice and Care**

The program imparts to the graduate the knowledge, skills, abilities, behaviors, and attitudes necessary to provide patient-centered care, manage medication use systems, promote health and wellness, and describe the influence of population-based care on patient-centered care.

2.1. Patient-centered care (Caregiver) - Provide patient-centered care as the medication expert (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans, and document activities).

2.2. Medication use systems management (Manager) – Manage patient healthcare needs using human, financial, technological, and physical resources to optimize the safety and efficacy of medication use systems.

2.3. Health and wellness (Promoter) – Design prevention, intervention, and educational strategies for individuals and communities to manage chronic disease and improve health and wellness.

**Approach to Practice and Care**

The program imparts to the graduate the knowledge, skills, abilities, behaviors, and attitudes necessary to solve problems; educate, advocate, and collaborate, working with a broad range of people; recognize social determinants of health; and effectively communicate verbally and nonverbally.

3.1. Problem Solving (Problem Solver) – Identify problems; explore and prioritize potential strategies; and design, implement, and evaluate a viable solution.

3.2. Education (Educator) – Educate all audiences by determining the most effective and enduring ways to impart information and assess learning.

3.4. Interprofessional collaboration (Collaborator) – Actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.

3.5. Cultural sensitivity (Includer) – Recognize social determinants of health to diminish disparities and inequities in access to quality care.

3.6. Communication (Communicator) – Effectively communicate verbally and nonverbally when interacting with individuals, groups, and organizations.

**Personal and Professional Development**

The program imparts to the graduate the knowledge, skills, abilities, behaviors, and attitudes necessary to demonstrate self-awareness, leadership, innovation and entrepreneurship, and professionalism.

4.1. Self-awareness (Self-aware) – Examine and reflect on personal knowledge, skills, abilities, beliefs, biases, motivation, and emotions that could enhance or limit personal and professional growth.
4.2. Leadership (Leader) – Demonstrate responsibility for creating and achieving shared goals, regardless of position.

4.3. Innovation and Entrepreneurship (Innovator) – Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.

4.4. Professionalism (Professional) – Exhibit behaviors and values that are consistent with the trust given to the profession by patients, other healthcare providers, and society.

Accreditation, Certification, and Licensure

Accreditation
The Pharm.D. program is accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago, IL 60603-4810.

Certification and Licensure
Graduates with a Doctor of Pharmacy degree are eligible to apply for licensure in any state. Licensure as a pharmacist requires graduation with the Pharm.D. degree from an accredited pharmacy program, a certified period of supervised internship experience and successful completion of the North American Pharmacist Licensure Examination and the Multistate Pharmacy Jurisprudence Examination in order to practice as a pharmacist.

These requirements vary slightly from state to state. Students interested in practicing in a particular state should contact the Board of Pharmacy of that state for information concerning requirements.

Course Delivery Format
The curriculum is divided into a 2-year pre-pharmacy and a 4-year professional program phase. The pre-pharmacy courses provide a solid knowledge base and ability to use critical thought processes in the biological and physical sciences.

The four years of the professional program incorporate a solid foundation of pharmaceutical science courses as well as a comprehensive sequence of therapeutics and professional practice courses. Students earn a B.S. in Pharmaceutical Sciences after successful completion of the first two years of the professional program. The application of drug knowledge, basic science, and critical thinking to resolve problems of drug distribution and patient care are emphasized throughout the curriculum. In their first three years of the program, students gain initial practice experience through introductory pharmacy practice experiences in settings such as community and hospital pharmacies.

In the final year of the program, students have an opportunity to apply knowledge and pharmacy care principles to pharmacy practice situations in a series of advanced pharmacy practice experiences in a variety of patient care settings which include patient care areas of hospitals, nursing homes, community pharmacies, hospital pharmacies, Indian Health Service facilities, and clinic pharmacies.

Facilities and Services
The graduate programs are housed in the recently constructed Avera Health and Science Center, a first-class educational and research facility on the Brookings campus. The Avera Health and Science Center has enabled the College to incorporate new teaching strategies into the curriculum that will lead to pharmacy graduates that are better prepared to provide patient care utilizing modern technology and a team-based approach. The facility has modern research laboratories that support our growing research program.

Student Support and Engagement Opportunities
Graduate students may choose to take part in Peer Mentoring or get involved with the College’s Honorary societies and other student organizations.

- PHA 741L - Public Health and Wellness Laboratory Credits: 0
- PHA 742 - Patient Assessment and Self Care Credits: 2
- PHA 742L - Patient Assessment and Self Care Laboratory Credits: 0
- PHA 756 - Pharmacotherapeutics III Credits: 4
- PHA 757 - Pharmacotherapeutics IV Credits: 4
- PHA 761 - Pharmacotherapeutics V Credits: 5
- PHA 762 - Pharmacotherapeutics VI Credits: 5
- PHA 767 - Pharmacy Practice V Credits: 3
- PHA 767L - Pharmacy Practice V Lab Credits: 0
- PHA 768 - Pharmacy Practice VI Credits: 3
- PHA 768L - Pharmacy Practice VI Lab Credits: 0
- PHA 772 - Internal Medicine I Practice Experience Credits: 5
- PHA 774 - Ambulatory Care Practice Experience Credits: 5

Assigned Advanced Pharmacy Practice Experiences
Select 10 credits from the following:
- PHA 700 - Directed Studies Practice Experience Credits: 4
- PHA 706 - Critical Care Practice Experience Credits: 5
- PHA 707 - Infectious Disease Practice Experience Credits: 5
- PHA 717 - Community Health and Patient Monitoring Practice Experience Credits: 5
- PHA 770 - Pediatrics Practice Experience Credits: 5
The courses in this program are online and taught by the instructors who teach on campus. Course Delivery Format

The online graduate certificate program in Animal Science has been developed to support continuing education needs of the workforce in food animal agriculture. The consortium offering the certificate is affiliated with AG IDEA and is governed by its structure. The institutions involved in this effort consist of South Dakota State University, Clemson University, North Carolina State University, North Dakota State University, and the University of Georgia. The program is also intended to benefit traditional graduate programs through additional course availability.

The courses in this program are online and taught by the instructors who teach on campus at the participating universities. Curriculum is specially adapted for the online environment to ensure students receive the same quality education as they would experience on campus.

Course schedules are determined by the teaching institution but do not have set class times, allowing students to access course content when it is convenient for them. Students meet deadlines as outlined by the instructors, and interact with instructors and other students through e-mail, chats, discussion boards, and other interactive methods. Students must have access to a computer, e-mail, and the Internet.

Certificate Requirements

- AS 541 - Advanced Meat Science Credits: 3
- AS 720 - Advanced Selection of Domestic Animals Credits: 3
- AS 732 - Advanced Physiology of Reproduction Credits: 3

Select one of the following courses

- AS 712 - Ruminant Nutrition Credits: 3
- AS 736 - Monogastric Nutrition Credits: 3
- AS 760 - Advanced Equine Nutrition Credits: 3
- AS 770 - Advanced Beef Production Credits: 3
- AS 780 - Evaluation and Use of Breeds in Livestock Credits: 3

Total Required Credits: 12

Additional Admission Requirements

Please refer to the following for additional information:

Graduate School Admission
Distance Education

Additional Information

Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdsu.edu (search alternative loans). For further information, please contact the SDSU financial aid office at 605-688-4095 or finaid@sdstate.edu.

Additional Admission Requirements

Applicants to the Doctor of Pharmacy (Pharm.D.) Program will submit:

- The completed application
- Official transcripts
- Contact information for two references
- Documentation of your ACT, SAT, or PCAT scores
- A short essay on the topic of “Why I want to obtain a Doctor of Pharmacy Degree at SDSU”
- A completed shadowing form

The program requires an interview with the Pharmacy Admissions Committee before we make the final selections for the new Fall class. Those selected are required to send a non-refundable deposit to secure enrollment for the fall semester. Students must pass a criminal background check before final approval for admission into the professional program. Applicants receive notification of acceptance into the professional program by March 15.

For more information see frequently asked questions (FAQ).

605-688-4132

Program Information
The certificate in Community Development provides students the opportunity to study with leading educators and researchers from several different universities representing a diversity of fields including Community and Regional Planning, Architecture, Sociology, Native American Studies, Economics and Natural Resources. This program is designed for people doing community development work in non-profit organizations, colleges, communities, community organizations and governments. The program welcomes those working in all areas to help communities and regions build their capacity for an inclusive, sustainable future; those who volunteer their time and resources to support community; and most of all those with a passion for working toward a brighter future and a willingness to share their experience and wisdom with others via the Internet community. A student guide to the program is located on the department website.

Course Delivery Format
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (Great Plains-IDEA). Courses will be entirely Internet based and will be taught by faculty within the Alliance (Iowa State University, Kansas State University, North Dakota State University, South Dakota State University, and University of Nebraska). Courses are offered fall, spring and summer semesters.

Certificate Requirements
- CD 601 - Organizing for Community Change Credits: 3
- CD 605 - Principles and Strategies of Community Change Credits: 3
- CD Electives Credits: 6
Total Required Credits: 12

Additional Admission Requirements
Please refer to the following for additional information:
- Graduate School Admission
- Distance Education

Additional Information
Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdstate.edu (search alternative loans). For further information, please contact the SDSU financial aid office at 605-688-4695 or finaid@sdstate.edu.

Data Science Certificate

Program Coordinator/Contact
Kurt D. Cogswell, Department Head
Donald Vestal, Associate Professor/Graduate Coordinator
Department of Mathematics and Statistics
Architecture, Mathematics and Engineering 209, Box 2220C
605-688-6196

Program Information
Data science is one of the hottest careers in the nation today, with demand predicted to grow even more in the future. It’s common to see it rated as the number one career in the nation on major employment websites such as CareerCast and Glassdoor. The SDSU Graduate Certificate in Data Science provides training in a wide range of powerful data science analysis and computation methodologies that have proven to be extremely valuable in today’s data rich businesses and organizations. Even better, it is completely online, making it a great option for working professionals wishing to enhance their skills in this critical area.

Course Delivery Format
Courses will typically be delivered in on-campus classrooms, with occasional courses offered online.

Certificate Requirements
- STAT 541 - Statistical Methods II Credits: 3
- STAT 600 - Statistical Programming Credits: 3
- STAT 601 - Modern Applied Statistics I Credits: 3
- STAT 602 - Modern Applied Statistics II Credits: 3

Additional Admission Requirements
Please refer to the following for additional information:

Family Financial Planning Certificate

Program Contact/Coordinator
Jane Hegland, Associate Dean
Wookjae Heo, Assistant Professor
Department of Consumer Sciences
Wagner Hall 229, Box 2275A
605-688-5196

Program Information
The graduate certificate program in Family Financial Planning is designed for students who want graduate coursework that meets the educational requirement to sit for the CFP® Certification Examination but who do not need a Master's degree. Family financial planning is an emerging area with job opportunities in areas related to insurance, real estate, investments, retirement, tax and estate planning. Financial planners are increasingly in demand as Americans seek advisers to help manage their income, assets, and debts.

Accreditation, Certification, and Licensure
The Family Financial Planning graduate program is registered by the CERTIFIED FINANCIAL PLANNER™ Board of Standards. CFP® and CERTIFIED FINANCIAL PLANNER™ are federally registered service marks of the CERTIFIED FINANCIAL PLANNER™ Board of Standards, Inc. They are granted by the CFP® Board to those persons who have fulfilled a comprehensive educational requirement, passed the CFP® Certification Examination, satisfied a work experience requirement and agreed to abide by the CFP® Board code of ethical conduct.

- The graduate certificate in Financial Planning does not guarantee a student will pass the CFP® exam.
- In earning the graduate certificate in Financial Planning through the Great Plains IDEA, students receive the education required to take the exam.
- After completing the necessary educational requirements, students work with the CFP® Board on examination, experience and ethics requirements for CFP® certification.

Certified Financial Planner™ professionals have the satisfaction of helping people solve their financial problems and reach their financial goals. The CFP® Board website at www.cfp.net has extensive CFP® certification information. Students admitted to the Great Plains IDEA online degree program are advised to obtain the Guide to CFP® Certification. The guide includes an application for the exam, exam fee information, exam procedures and information on the required work experience.

- Certified Financial Planner Board of Standards Inc. owns the marks CFP®, CERTIFIED FINANCIAL PLANNER™, and CFP® (with flame logo)®, which it awards to individuals who successfully complete initial and ongoing certification requirements.
- Great Plains IDEA institutions do not certify individuals to use the CFP®, CERTIFIED FINANCIAL PLANNER™ and CFP® (with flame logo)® certification marks. CFP® Certification is granted only by the Certified Financial Planner Board of Standards Inc. to those persons who, in addition to completing an educational requirement such as this CFP® Board-Registered Program, have met its ethics, experience and examination requirements.

Course Delivery Format
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (GP-IDEA). Courses will be entirely...
The online program has been developed by faculty from the Great Plains Alliance (Iowa State University, Kansas State University, Montana State University, North Dakota State University, Oklahoma State University, South Dakota State University, University of Missouri, and University of Nebraska). Courses are offered fall, spring and summer semesters.

**Certificate Requirements**

- CA 660 - Investing for Family's Future Credits: 3
- CA 680 - Insurance Planning for Families Credits: 3
- CA 704 - Estate Planning for Families Credits: 3
- CA 725 - Family, Employment Benefits and Retirement Planning Credits: 3
- CA 735 - Personal Income Taxation Credits: 3
- CA 755 - Financial Planning Case Study Credits: 3

**Total Required Credits:** 18

**Notes**

Students without a background in financial planning should take CA 640 - Fundamentals of Family Financial Planning.

**Additional Admission Requirements**

Please refer to the following for additional information:

**Graduate School Admission**

**Distance Education**

**Additional Information**

Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdstate.edu (search alternative loans). **Grassland Management Certificate**

**Program Coordinator/Contact**

Alexander (Sandy) Smart, Professor
Department of Natural Resource Management
Edgar S. McFadden Biostress Laboratory 138, Box 2140B
605-688-6121

**Program Information**

Grasslands represent a fundamental resource of the region that determines the environmental and economic future of the Great Plains. Many of the managers or advisors on these grasslands have B.S. degrees in natural resources or agriculture and want to further develop their expertise in grassland management through graduate programs. However, constraints associated with their work schedule and responsibilities limit their ability to pursue conventional on-campus coursework and graduate degrees. The Grassland Management Graduate Certificate Program was developed to address the needs of working professionals as well as other students interested in distance education opportunities. Students will interact with their institutional advisors to develop a plan of study most beneficial to the student. Coursework may be transferred in on a case-by-case basis with the approval of the student's advisor.

**Course Delivery Format**

This program is delivered fully online through the AG*IDEA Program, an affiliate of the Great Plains IDEAl, a national consortium of universities offering programs and courses in agriculture disciplines. AG*IDEA's fully online program provides flexibility, enabling students to balance career advancement with professional, social and financial commitments.

**Certificate Requirements**

Complete a minimum of 12 credits from the following courses:

- RANG 510 - Grassland Monitor & Assessment Credits: 2
- RANG 520 - Watershed Management Credits: 3
- RANG 521 - Grassland Fire Ecology Credits: 3
- RANG 530 - Ecology of Invasive Species Credits: 3
- RANG 540 - Grassland Plant Identification Credits: 2
- RANG 710 - Principles of Forage Quality Credits: 3
- RANG 750 - Grazing Ecology and Management Credits: 3

**Total Required Credits:** 12

**Additional Admission Requirements**

Please refer to the following for additional information:

**Graduate School Admission**

**Distance Education**

**Additional Information**

Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdstate.edu (search alternative loans). For further information, please contact the SDSU financial aid office at 605-688-4695 or finaid@sdstate.edu.

**Financial & Housing Counseling Certificate**

**Program Contact/Coordinator**

Jane Hegland, Associate Dean
Wookjae Heo, Assistant Professor
Department of Consumer Sciences
Wagner Hall 229, Box 2275A
605-688-5196

**Program Information**

The program prepares students to apply for the Certified Housing Counselor (CHC) and the Accredited Financial Counselor (AFC) certifications, which are appropriate to meet the needs of military spouses, active duty service members, civilians providing services, and retired military or civilians in the areas of financial and housing counseling.

**Certification and Licensure**

In collaboration with the Association for Financial Planning and Counseling Education (AFCPE), students successfully completing the Financial & Housing Counseling (FHC) Certificate program will be able to sit for the Accredited Financial Counselor (AFC) examination or the Certified Housing Counselor (CHC) examination.

To become an Accredited Financial Counselor (AFC), candidates must have 1000 hours of experience in admissible financial counseling experience to enroll. To become a Certified Housing Counselor (CHC), candidates must have 1500 hours of admissible housing counseling experience. For additional information on AFC and CHC certification, visit the AFCPE website.

**Course Delivery Format**

The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (GP-IDEA). Courses will be entirely internet based and will be taught by faculty within the Alliance (Iowa State University, Kansas State University, North Dakota State University, Oklahoma State University, South Dakota State University and University of Nebraska). Courses are offered fall, spring and summer semesters.

**Certificate Requirements**

- CA 612 - Financial Counseling Credits: 3
- CA 621 - Financial Theory and Research I Credits: 3
- CA 640 - Fundamentals of Family Financial Planning Credits: 3
- CA 715 - Housing and Real Estate in FFP Credits: 3

**Electives**

Select six credits from the following:

- CA 595 - Practicum Credits: 1-6 (3 credits required)
- CA 645 - Military Personal Financial Readiness Credits: 3
- CA 660 - Investing for Family's Future Credits: 3
- CA 680 - Insurance Planning for Families Credits: 3
- CA 704 - Estate Planning for Families Credits: 3
- CA 725 - Family, Employment Benefits and Retirement Planning Credits: 3
- CA 735 - Personal Income Taxation Credits: 3

**Total Required Credits:** 18

**Additional Admission Requirements**

Please refer to the following for additional information:

**Graduate School Admission**

**Distance Education**

**Additional Information**

Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdstate.edu (search alternative loans). ### Management Foundations Certificate

**Program Coordinator/Contact**
Teresa Hall, Department Head  
Department of Construction and Operations Management  
Solberg Hall 116, Box 2223  
605-688-6417

**Course Delivery Format**
Program coursework is delivered primarily on campus with selected courses offered online.

**Certificate Requirements**
- GE 685 - Management and Leadership in Technical Organizations Credits: 3
- GE/OM 569 - Project Management Credits: 2-3 *(3 credits required)*
- OM 650 - Manufacturing Systems Management Credits: 3  
  or ME/OM 767 - Decision Theory Credits: 3  
  or ME 760 - Quality Control Credits: 3
- OM 660 - Operations Management Credits: 3

**Total Required Credits: 12**

**Additional Admission Requirements**
Please refer to the following for additional information:

**Graduate School Admissions**

### Merchandising Certificate

**Program Coordinator/Contact**
Jane Hegland, Associate Dean  
Department of Consumer Sciences  
Wagner Hall 229, Box 2275A  
605-688-5196

**Course Delivery Format**
The online program has been developed by faculty from the Great Plains Interactive Distance Education Alliance (Great Plains IDEA). Courses will be entirely Internet based and will be taught by faculty within the Alliance (Kansas State University, North Dakota State University, Oklahoma State University, South Dakota State University, and University of Nebraska). Courses are offered fall, spring and summer semesters.

**Certificate Requirements**
- MRCH 510 - Consumer Behavior in Merchandising Credits: 3
- MRCH 520 - Professional Advancement in Merchandising Credits: 3
- MRCH 530 - Product Design, Development, and Evaluation Credits: 3
- MRCH 540 - Promotional Strategies in Merchandising Credits: 3
- MRCH 550 - Retail Theory and Current Practice Credits: 3

**Total Required Credits: 12**

**Additional Admission Requirements**
Please refer to the following for additional information:

**Additional Information**

### Native Communities & Economic Development Certificate

**Program Coordinator/Contact**
Mary Emery, Department Head  
Meredith Redlin, Professor/Graduate Coordinator  
Department of Sociology and Rural Studies  
Hansen Hall 004  
605-688-4132

**Course Delivery Format**
The certificate is designed for graduate students interested in expanding their skills and understanding in regard to Native community and economic development and an interest in working with Native communities. Today students taking these courses are often employed or seeking employment in native-serving organizations and agencies who have extended their programming to Native-majority communities and neighborhoods.

**Certificate Requirements**
- GE 685 - Management and Leadership in Technical Organizations Credits: 3
- GE/OM 569 - Project Management Credits: 2-3 *(3 credits required)*
- OM 650 - Manufacturing Systems Management Credits: 3  
  or ME/OM 767 - Decision Theory Credits: 3  
  or ME 760 - Quality Control Credits: 3
- OM 660 - Operations Management Credits: 3

**Total Required Credits: 12**

**Additional Admission Requirements**
Please refer to the following for additional information:

**Graduate School Admissions**
Certificate Requirements
- CD 613 - Introduction to Native Community Development Credits: 3
- CD 624 - Building Native Community in Economic Capacity Credits: 3
- CD 634 - Native American Natural Resource Management Credits: 3
- Electives Credits: 3
Total Required Credits: 12

Additional Admission Requirements
Please refer to the following for additional information:
Graduate School Admission
Distance Education

Post-Graduate Clinical Nurse Leader Certificate

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
The Post-Graduate Clinical Nurse Leader Certificate is focused on integrating the vital work of Clinical Nurse Leaders into every hospital. This certificate program is designed for nurses who currently hold a Master's Degree in Nursing Education or Nursing Administration or Clinical Nurse Specialist.

Courses for the certificate are designed to meet the national AACN requirements for the student to become a certified Clinical Nurse Leader and assist students to meet the following CNL competencies: Critical thinking; Communication; Health Assessment; Nursing Technology and Resource Management; Health Promotion, Risk Reduction, and Disease Prevention; Illness and Disease Management; Information and Health Care Technologies; Ethics; Human Diversity; Global Health Care; Health Care Systems and Policy; Provider and Manager of Care; Designer/Manager/Coordinator of Care, and; Member of a Profession.

Program Outcomes
To prepare Clinical Nurse Leaders, Nurse Educators, and Family Nurse Practitioners who:
- apply knowledge of evidence-based practice,
- engage in life-long learning, and
- serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings.

Student Learning Outcomes
- Display competence within the legal scope of practice for chosen specialization,
- Evaluate and utilize research within advanced nursing practice.
- Integrate cultural learning into nursing practice to effectively tailor health care to the diverse lifeways of clients.

Accreditation, Certification, and Licensure
Accreditation
The post-graduate APRN certificate at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Course Delivery Format
The program coursework is delivered online and includes a field-based practicum.

Certificate Requirements
- NURS 645 - CNL I: Improvement Science: A Microsystem Approach Credits: 2-5 (5 credits required)
- NURS 646 - CNL II: Clinical Immersion and Capstone Project Credits: 1-6 (6 credits required)
- NURS 860 - Health Operations and Financial Management for Nurse Leaders Credits: 3

Total Required Credits: 14
Notes
- The Post-Graduate Clinical Nurse Leader Certificate program of study is individualized. Interested applicants will contact the graduate nursing department to discuss options.
- For additional information, refer to the Graduate Nursing Department webpage.

Additional Admission Requirements
GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:
- Bachelor's degree in nursing from an NLNAC or CCNE accredited program with an upper division major in nursing with a "B" average (3.0 or higher on a 4.0 point grading system).
- Master's degree in nursing from an NLNAC or CCNE accredited program with a "B" average (3.0 or higher on a 4.0 point grading system).
- Current licensure as a Registered Nurse in the United States or its territories prior to enrollment in first graduate nursing course.
- 1500 hours of documented nursing practice experience prior to first clinical lab or within first year of program.
- Completed graduate level courses in Advanced Physical Assessment (Lifespan), Advanced Pathophysiology (Lifespan), Advanced Pharmacology / Pharmacotherapeutics (Lifespan) within the last 5 years.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification for FNP specialization, professional liability insurance, influenza vaccine, and TB test.
- Interview with graduate faculty for FNP specialization only.
- Completion of written response to questions regarding educational goals, scholarly practice interest and desired practice career.

Additional Information
Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdstate.edu (search alternative loans). For further information, please contact the SDSU financial aid office at 605-688-4695 or finaid@sdstate.edu.

Post-Graduate Family Nurse Practitioner Certificate

Program Coordinator/Contact
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

Program Information
Nurses who have a master's in nursing but are not nurse practitioners are eligible to apply. Graduates of this program are prepared to deliver evidence-based direct patient care at an advanced practice level to individuals across the lifespan in primary care settings. Graduates are eligible to write certification examinations in Family Nurse Practitioner from either the American Nurses Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP).

The program has many online courses, and some where intermittent in-person attendance is required. Students who have completed graduate nursing courses in pharmacology, pathophysiology and advanced health assessment in the last five years may be able to use those courses towards certificate requirements. Students...
complete a minimum of 1000 hours of clinical practice preceptorship in a variety of settings, including mandatory practice in rural settings.

**Program Outcomes**
To prepare Clinical Nurse Leaders, Nurse Educators, and Family Nurse Practitioners who:

- apply knowledge of evidence-based practice,
- engage in life-long learning, and
- serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings.

**Student Learning Outcomes**
- Display competence within the legal scope of practice for chosen specialization.
- Evaluate and utilize research within advanced nursing practice.
- Integrate cultural learning into nursing practice to effectively tailor health care to the diverse lifeways of clients.

**Course Delivery Format**
The program coursework is delivered online and face-to-face. Students complete a minimum of 1000 hours of clinical practice preceptorship.

**Certificate Requirements**
- NURS 765 - Family Nurse Practitioner Practicum I Credits: 7 (3, 4)
- NURS 771 - Family Nurse Practitioner Practicum II Credits: 7
- NURS 776 - Family Nurse Practitioner III - Small Group Instruction Credits: 3
- NURS 777 - Family Nurse Practitioner: Practicum III Credits: 3-9 (9 credits required)

**Total Required Credits: 26**

**Notes**
- For additional information, refer to the Graduate Nursing Department webpage.

**Additional Admission Requirements**
GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR
IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:

- Bachelor's degree in nursing from an NLNAC or CCNE accredited program with an upper division major in nursing with a "B" average (3.0 or higher on a 4.0 point grading system).
- Master's degree in nursing from an NLNAC or CCNE accredited program with a "B" average (3.0 or higher on a 4.0 point grading system).
- Current licensure as a Registered Nurse in the United States or its' territories prior to enrollment in first graduate nursing course.
- 1500 hours of documented nursing practice experience prior to first clinical lab or within first year of program.
- Successful completion of graduate level courses in Advanced Physical Assessment (Lifespan), Advanced Pathophysiology (Lifespan), Advanced Pharmacology / Pharmacotherapeutics (Lifespan) with a course grade of 3.0 or higher within the last 5 years.
- Completed and verified application to the Graduate Nursing program via NursingCAS website.
- Compliance requirements: Background check, FBI rolled fingerprint, drug screen, Basic Life Support for Healthcare Providers, ACLS certification for FNP specialization, professional liability insurance, influenza vaccine, and TB test.
- Interview with graduate faculty for FNP specialization only.
- Completion of written response to questions regarding educational goals, scholarly practice interest and desired practice career.

**Additional Information**
Students enrolled in SDSU certificate programs are not eligible for federal student financial aid. The non-federal alternative loan programs may be used for students meeting the lender criteria as found at www.sdsu.edu (search alternative loans). ---

**Post-Graduate Nurse Educator Certificate**

**Program Coordinator/Contact**
Mary Minton, Associate Dean for Graduate Nursing
Department of Graduate Nursing
Wagner Hall 217, Box 2275
605-688-4114

**Program Information**
The Post-Graduate Nurse Educator certificate program prepares graduates to utilize theories of teaching and learning in a variety of settings with emphasis on nursing education. Graduates demonstrate the ability to plan, implement, and evaluate nursing education programs. Individuals who have earned a Master's in Nursing degree from SDSU or any other CCNE or NLNAC accredited nursing program are eligible to apply for the Post-Graduate Nurse Educator Certificate program. Additionally, graduates may be eligible to earn National Certification as a Certified Nurse Educator.*

**Program Outcomes**
To prepare Clinical Nurse Leaders, Nurse Educators, and Family Nurse Practitioners who:

- apply knowledge of evidence-based practice,
- engage in life-long learning, and
- serve South Dakota, the region, the nation, and the world in urban, rural, and frontier health care settings.

**Student Learning Outcomes**
- Display competence within the legal scope of practice for chosen specialization.
- Evaluate and utilize research within advanced nursing practice.
- Integrate cultural learning into nursing practice to effectively tailor health care to the diverse lifeways of clients.

**Accreditation, Certification, and Licensure**

The post-graduate APRN certificate at South Dakota State University is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

**Course Delivery Format**
The program coursework is delivered online with an on-campus requirement for NURS 631-631L and includes a field-based practicum.

**Certificate Requirements**
- NURS 710 - Curriculum Development in Nursing Credits: 3
- NURS 720 - Technology-Based Instruction for Nurse Educators Credits: 3
- NURS 778 - Nurse Educator Practicum Credits: 5
- NURS 795 - Practicum Credits: 3

**Total Required Credits: 14**

**Notes**
*Individuals must meet eligibility requirements before they can take the CNE examination. An active registered nurse license is necessary. Students must also have a master's or doctoral degree in nursing and full-time experience in a nurse faculty role within the past 5 years. If the college degree emphasized non-nursing instruction, individuals will need 2 years of experience in a nurse faculty role. Four years of experience is required if the graduate nursing degree did not emphasize on education.

For additional information, refer to the Graduate Nursing Department webpage.

**Additional Admission Requirements**
GRE: Not required
TOEFL: Score of 600 paper-based, 100 Internet-based, OR
IELTS: 7.0 total band

In addition to meeting basic requirements for admission to the Graduate School, applicants for graduate study in nursing must have:

- Bachelor's degree in nursing from an NLNAC or CCNE accredited program with an upper division major in nursing with a "B" average (3.0 or higher on a 4.0 point grading system).
- Master's degree in nursing from an NLNAC or CCNE accredited program with a "B" average (3.0 or higher on a 4.0 point grading system).
Transdisciplinary Childhood Obesity Prevention Certificate

Program Coordinator/Contact
Jessica Meendering, Associate Professor
Department of Health and Nutritional Sciences
Wagner Hall 425, Box 2275A
605-688-4668

Program Information
The Transdisciplinary Childhood Obesity Prevention (TOP) graduate certificate is a graduate certificate program aimed to engage students in transdisciplinary approaches to childhood obesity prevention through coursework and community based experiential learning opportunities. This program is unique, as it provides expertise in a job market that is desperate for trained professionals in the prevention of childhood obesity. The program will expose students to a variety of disciplines involved in the prevention of childhood obesity, allow students the opportunity to design childhood obesity prevention initiatives, and prepare students to conduct transdisciplinary research on the behavioral, social, biological, and environmental causes of childhood obesity. Students will develop skills required to implement evidence based transdisciplinary approaches to prevention. Faculty from Nutrition, Exercise Science, Early Childhood Education, and Nursing work collaboratively with SDSU Extension to implement the TOP graduate certificate program. Students will obtain a TOP program certificate upon completion of the requirements for both the certificate and the Masters or Doctoral degree from their respective college.

Course Delivery Format
The core classes within the TOP program are delivered in hybrid and face to face format. The face to face course is a practicum course in which students will have the opportunity to participate in experiential learning in the community setting via collaboration with SDSU Extension.

Student Support and Engagement Opportunities
The College of Education and Human Sciences and the Department of Health and Nutritional Sciences offers a limited number of qualified graduate student applicants scholarships as well as funded assistantships. Additionally, the department offers a number of opportunities for students to be involved. The student organizations provide opportunities for professional development and social interaction through numerous events on campus as well as service learning projects. Travel opportunities are available, including regional and national conferences.

Requirements for Transdisciplinary Childhood Obesity Prevention Certificate
This certificate will be granted when the individuals meet the requirements for their respective graduate education majors (Ph.D. and Masters) and complete the course requirements listed above.

Electives
Select 2-3 credits from the following:
- CHRD 723 - Counseling the Family Credits: 3
- ECE 711 - Developmental Theory and Application Credits: 3
- EDFN 725 - Education in a Pluralistic Society Credits: 3
- FCSE 761 - Advanced Methods and Assessment in Family & Consumer Sciences Education Credits: 3
- HDFS 630 - Lifespan Development Credits: 3
- HDFS 742 - Family Theory and Research Credits: 3
- HHLTH 520 - K-12 Methods of Health Instruction Credits: 2
- HSC 631 - Biostatistics I Credits: 3
- NUTR 560 - Nutrigenomics and Molecular Nutrition Credits: 3
- NUTR 715 - Public Health Nutrition Credits: 3
- NUTR 775 - Nutrigenomics and Health Credits: 3
- NUTR 782 - Epidemiology Credits: 3
- SOC 711 - Qualitative Research Methods Credits: 3

Academic Programs 153
Total Required Credits: 9-10

Admission Requirements
Please refer to the following for additional information.

Admission to the TOP program requires completion of the TOP application.

605-688-5102

Program Information
The Department of Modern Languages and Global Studies provides proficiency-oriented instruction in second languages, literatures, civilizations and cultures, as well as a variety of courses on Global Studies, in many cases in conjunction with other departments on campus. The Department offers bachelor degrees and minors in French Studies, German, Global Studies and Spanish, but it does not offer advanced degrees. However, the Department does provide graduate level courses in all its major areas as needed.

Music

Program Coordinator/Contact
David Reynolds, Director
School of Performing Arts
Lincoln Music Hall 205, Box 2212
605-688-5188

Program Information
The School of Performing Arts is shaped by the university's Land Grant status and the spirit of the Morrill Act. Within that context, it is the mission of the School of Performing Arts to musically serve the university, state, and region through teaching/advising, research/creative activity, and outreach/general service. The School of Performing Arts does not offer a graduate level degree in music. However, students may enroll in graduate courses provided by the department.

Physics

Program Coordinator/Contact
Yung Huh, Interim Department Head
Department of Physics
Daktronics Engineering Hall 255, Box 2222
605-688-5428

Program Information
The Department of Physics does not offer a graduate degree program. However, the Physics program's coursework supports graduate degrees in a variety of departments in the science and engineering fields.

Studio Arts

Program Coordinator/Contact
Patricia Crawford, Director
School of Design
Grove Hall 101, Box 2802
605-688-4103

Program Information
The School of Design offers courses in animation, art education, art history, ceramics, computer graphics, drawing, film, interactive design, graphic design, painting, printmaking, sculpture and web design. The School does not offer a graduate level degree in Studio Arts. However, students may enroll in graduate courses provided by the School.

Course Descriptions
ENGL 101: Introduction to Creative Writing (COM) SGR #1 Credits: 3
This course introduces students to the craft of writing, with readings and practice in at least two genres (including fiction, poetry, and drama). Prerequisites: ENGL 101.

1. Course prefix.
2. Course number. The first digit of the three-digit number indicates the level of instruction, as follows:
   - 0 Pre-college, non-degree, remedial
   - 1 Freshman
   - 2 Sophomore
   - 3 Junior
   - 4 Senior
3. Course Title.
4. Common Course within the Regental System.
5. Course meets System General Education Requirement.
6. Number of credits assigned to the course. One credit is usually interpreted as one hour of class work per week or as two to four hours of lab work per week.
7. A brief description of the course. This section will also include other information affecting your enrollment in the course. A course description might include, for instance: "P, MATH 102." This means that MATH 102 is a prerequisite and must be taken before enrollment in this course. Other information included in various course descriptions would be: "Alternate years," "Not open to majors," "May be repeated for a total of six credits," etc.

Course Numbering
(SDBOR Policy 2:8, section 1)

Undergraduate Courses
001-099 Pre-college, remedial skills, special improvement (non-degree credit)
100-199 Freshman level
200-299 Sophomore level
300-399 Junior level
400-499 Senior level (may be dual listed with 500 level graduate course)

Graduate Courses
500-599 Entry level graduate (may be dual listed with a 400 level undergraduate course and may include limited enrollment by undergraduates)
600-699 Graduate level (undergraduate enrollment only by exception) Also open to senior students for graduate credit under the following conditions:
   - Within 15 credits of completing Bachelor's degree;
   - Have an overall grade point average of 2.5 or higher, or a Junior-Senior grade point average of 3.0 or higher;
   - Enroll for no more than 18 credits (9 credits during Summer Term);
   - The course or courses are not required for the Bachelor's degree.

700-799 Graduate level (graduate students only)
800-899 Doctoral and post-doctoral level (doctoral and post-doctoral students only)

Experimental Courses
A course at the 100-600 levels ending in 99 is experimental and may be offered no more than twice within two academic years before it must be submitted as a new course request.

Course Types/Instructional Methods
(SDBOR Academic Affairs Guidelines 5.4)

Clinical Experience
- This course entails provision of direct patient care in a clinic-based setting.
- Through observation and treatment of patients, students focus on developing specific skill sets designed to improve health (physical and/or mental).
- Oversight and instruction are provided by a faculty member and/or approved site supervisor.
- Enrollments are small (1 to 9) due to the inherent nature of this experience.

Clinical Laboratory
- Learning takes place in a clinical laboratory, an operation which conducts diagnostic tests performed on samples taken on/from the human body.
- These clinical laboratories may be free-standing or situated within hospitals or medical clinics.
- Faculty members are heavily involved; they maintain direct and close supervision of students.
- Enrollment is limited; it varies from 1 to 9 students.

Competency-Based/Self-Paced Study
- Each enrolled student advances at his/her preferred rate.
- Successful mastery of content is based on achievement of competencies as opposed to completion of assignments.
- Student progression through course content is often assisted by technology.
- Individual or group tutorials may be provided to supplement individual learning.

Design/Research
- This course focuses on designing and conducting research; a viable and appropriate plan is developed as a collaborative effort between faculty member and student.
- Interaction between faculty member and student researcher is both extensive and intensive.
- This instructional method is not intended for either research methods courses (which are grounded in theory) or graduate thesis/dissertation courses.

Discussion/Recitation
- Communication between the faculty member and students is two-way; all are participants who actively share experiences, ideas, viewpoints, and feedback.
- Student involvement is strong; it entails conversation, dialogue, and/or debate.
- Enrollment maximum is typically 35 students.

Independent Study
- The format is individualized; content is tailored to the student(s) and particular situation.
- Enrollment varies; typically, however, section size is small (1 to 5 students).
- For each section, a suitable plan of study and meeting schedule are negotiated and established.

Internship/Practicum
- This field-based learning experience is monitored and supervised; examples include discipline-specific field work, student teaching, and cooperative education.
- Students acquire relevant, real-world experience; each follows a prearranged plan of study.
• Such experience may or may not be associated with payment of wages.
• Enrollment is variable; it depends on factors such as availability of placements, requisite level of supervision, etc.

Laboratory
• Course instruction takes place in a specialized physical setting – that is, the laboratory.
• The laboratory component complements the lecture; instruction promotes hands-on application of concepts presented during lectures.
• Enrollment maximum varies, but typically does not exceed 25.

Lecture
• Content is largely rooted in facts, principles, ideas, and theory.
• Communication is primarily one-way; the faculty member formally relays information, while students listen.
• Classes can be sizable; enrollment maximums – which widely vary – depend on course level, discipline, and university preference.

Music Ensemble, Large
• Intended for large groups, either instrumental or vocal in nature; examples include band, orchestra, and choir.
• Enrollments vary (10 or greater students) with regularly scheduled instructional meetings and/or faculty-led practices.
• Performers can register for a credit bearing or non-credit bearing experience; however, those who are enrolled for 0 credits must also register for other courses which are credit bearing.

Music Ensemble, Small
• Intended for small groups, either instrumental or vocal in nature.
• The course involves regularly scheduled instructional meetings and/or faculty-led practices.
• Enrollments vary between 3 and 9 students (trio, quartet, quintet, etc).

Physical Education Activity
• This course is devoted to participation in/performance of a physical activity; faculty instruction includes proper form and technique.
• The enrollment maximum varies, depending on factors such as nature of the particular sport, availability of venue and equipment, and safety considerations.

Private Instruction
• This course centers on personalized training; two common examples include music performance and flight instruction.
• Course content is consistent with prescribed learning outcomes; it is not negotiable.

Other Important Definitions

Seminar
• A highly focused and topical course with strong, direct faculty-student interaction.
• The course features significant emphasis on student exploration of scholarly literature; research; and professional challenges, problems, and practices.
• This instructional method is exclusive to graduate and upper level undergraduate (300, 400) course work.
• The enrollment maximum is typically 20 students.

Small Group
• Because of known and ongoing constraints, section size is extremely limited; such constraints are physical in nature; they tie to limited numbers of work stations, specimens, crucial pieces of equipment, etc.
• Section size is restricted to 9 or fewer students; because of inflexible physical constraints, teaching 10 or more is impossible.

Studio
• Course content compels significant one-to-one student/instructor interaction; the course is very hands-on with extensive student engagement.
• This instructional method is intended for fine arts courses that fit with criteria specified in bullet #1; possible content areas include ceramics, painting, dancing, etc.

Thesis
• A formal treatise presenting the results of study, which is submitted in partial fulfillment of the student's degree requirements.
• The faculty thesis director is a strong presence; he/she provides considerable mentoring, guiding, and directing. Members of the thesis committee engage in more limited – but still important - interaction with the student.
• Should the student not complete all thesis requirements in the current term, a transitional grade (see BOR 2:10) must be assigned.

Thesis/Research Sustaining
• This 0-credit course is used to track students who are actively conducting graduate research, but not registered for credit-bearing course work during the current term.
• Enrollment allows graduate programs to retain active status.
• Caution is strongly advised; administrative oversight is imperative.

Workshop
• A very intense, rigorous academic experience, the workshop focuses on a specific, narrowly tailored topic of current interest and professional relevance.
• The workshop is restricted to graduate level instruction.
• For each earned credit, 45 hours of student work is required.

Common Course Numbering
The South Dakota Regental institutions utilize common course numbering. A common course (COM) is a course offered by one Regental institution that has essentially the same content (subjects/breadth) and level of instruction (depth) as a course offered by at least one other Regental university. Any courses on the following pages without the COM designation are considered to be unique to SDSU.

Cross-listed Courses
A cross-listed course is a course which carries more than one course prefix (i.e., HIST, POLS, GEOG) with credit being offered under any one of the listed prefixes at the same time. Students choose to take the course under the prefix that is more beneficial to their course of study. All students meet at the same time in the same place, with the same instructor(s). A cross-listed course may also be multi-numbered.

Dual Numbered Courses
A multiple-numbered course is a single course specifically designed for simultaneous delivery at two or more levels with the two or more numbers taught simultaneously. In some instances, the course may be offered for credit at different levels (i.e., courses may be offered for upper/lower division credit or for undergraduate/graduate credit). The dual-numbered course may also be cross-listed.
x9x Common Course Descriptions

(SDBOR Academic Affairs Guidelines 1.11, section 4)

The following middle digit 9 course numbering scheme is used in the South Dakota public university system. These courses may have multiple sections. A section’s title may or may not reflect the material covered in that section. See the academic department for section information, e.g., description, prerequisites such as instructor or department consent, GPA required, junior or senior standing, etc.

x90 Seminar
A highly focused and topical course. The format includes student presentations and discussions of reports based on literature, practices, problems, and research. A seminar may occur over electronic media such as the Internet and are at the upper division or graduate levels. Enrollment is generally limited to fewer than 20 students.

x91 Independent Study
Includes Directed Study, Problems, Readings, Directed Readings, Special Problems, and Special Projects. Students complete individualized plans of study including significant one-on-one student/teacher involvement. The faculty member and students negotiate the details of the study plans. Enrollments are usually three or fewer students. Meetings depend upon the requirements of the topic.

x92 Topics
Includes Current Topics, Advanced Topics, and Special Topics. A course devoted to a particular issue in a specified field. Course content is not wholly included in the regular curriculum. Guest artists experts may serve as instructors. Enrollments are usually 10 or fewer students with significant one-on-one student/teacher involvement.

x93 Workshop
Special, intense sessions in specific topic areas. Approximately 45 hours of work are required for each hour of credit. Workshops may vary in time range but typically use a compressed time-period for delivery. They may include lectures, conferences, committee work, and group activity.

x94 Internship
Applied, monitored, and supervised, field-based learning experience for which the student may (or may not) receive payment. Students gain practical experience; they follow a negotiated and or directed plan of study. Instructors provide a higher level of supervision than provided by instructors in Field Experience courses.

x95 Practicum
Applied, monitored, and supervised, field-based learning experience for which the student may (or may not) receive payment. Students gain practical experience; they follow a negotiated and or directed plan of study established between the student, instructor and field experience supervisor. Due to the presence of a field experience supervisor, the instructor provides a lower level of supervision in these courses than is the case with an Internship or Practicum course.

x96 Field Experience
Applied, monitored, and supervised, field-based learning experience for which the student may (or may not) receive payment. Students gain practical experience; they follow a negotiated and or directed plan of study established between the student, instructor and field experience supervisor. Due to the presence of a field experience supervisor, the instructor provides a lower level of supervision in these courses than is the case with an Internship or Practicum course.

x97 Cooperative Education
Applied, monitored, and supervised, field-based learning experience for which the student may (or may not) receive payment. Students gain practical experience; they follow a negotiated and or directed plan of study established between the student, instructor and field experience supervisor. Due to the presence of a field experience supervisor, the instructor provides a lower level of supervision in these courses than is the case with an Internship or Practicum course.

498 Undergraduate Research/Scholarship
(Includes Senior Project and Capstone Experience): Independent research problems/projects or scholarship activities. The faculty member and student negotiate the plan of study. Contact between the faculty and student may be extensive and intensive. Does not include theoretical research courses.

788 Master's Research Problems/Projects
Independent research problems/projects that lead to a research or design paper but not to a thesis. The faculty member and candidate negotiate the plan of study. Contact between the faculty member and candidate may be extensive and intensive. Does not include theoretical research courses.

789 Master's Research Problems/Projects Sustaining
A zero credit hour instructional method type used to track students who are not currently working with faculty on thesis or doctoral activities. Universities may require students to register under this instructional method type to remain active degree candidates.

A formal treatise presenting the results of study submitted in partial fulfillment of the requirements for the applicable degree. The process requires extensive and intensive one-on-one interaction between the candidate and a faculty member with more limited interaction between and among the candidate and other members of the committee.

A zero credit hour instructional method type used to track students who are not currently working with faculty on thesis or research activities. Universities may require students to register under this instructional method type to remain active degree candidates.
Course Descriptions

ABE (Agricultural & Biosystems Engineering)

ABE 534 - Natural Resources Engineering Credits: 4
Precipitation, infiltration, evapotranspiration and runoff from small agricultural watersheds and application to design of conservation structures, water erosion control practices, design of drainage and irrigation systems. Feedlot pollution control principles. Prerequisites: EM 331.

ABE 534L - Natural Resources Engineering Lab Credits: 0
Laboratory to accompany ABE 534.

ABE 543 - Fundamentals of Bioprocessing Credits: 3
This course is designed for students who want a clear understanding of Bioprocessing principles as applied to the emerging bio-based industry. This course covers the fundamentals of mass and energy balances, fluid dynamics, heat and mass transfer, as applied to Bioprocessing. The microbial growth, kinetics and fermenter operation as applicable to Bioprocessing will be covered in this course. Industrial Bioprocessing case studies that involve the integration of the course contents will be discussed. Prerequisites: MATH 123, CHEM 108, PHYS 211. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 544 - Unit Operations of Biological Materials Processing Credits: 4
Transport processes of heat and mass are applied to the following unit operations: evaporation, drying gas liquid separation processes (humidification cooling towers), vapor-liquid separation processes (distillation), soil-liquid separation processes (leaching), membrane separations (ultrafiltration, reverse osmosis), mechanical separation processes, extrusion. Corequisites: ABE 544L. Prerequisites: Senior standing or instructor consent.

ABE 544L - Unit Operations of Biological Materials Processing Laboratory Credits: 0

ABE 551 - Fundamentals of Conversion Credits: 3
This web-based class is an overview of the technology involved in the conversion of biomass to energy; sustainability issued associated with this technology will also be covered. An overview of biomass structure and chemical composition will be presented. Biochemical and thermochemical conversion platforms will be covered. Important issues, such as energy crop production related to water consumption and soil conservation will be addressed. Topics include: biomass chemistry, logistics, and resources; biological processes; and thermochemical processes. Prerequisites: MATH 103; ENGL 101; CHEM 112 or BIOL 150 or PHYS 111. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 553 - Biochemical Engineering for Renewable Resources Credits: 3
The analysis and design of biochemical processing systems with emphasis on fermentation kinetics, continuous fermentations, aeration, agitation, scale up, sterilization, and control. Notes: Suggested prerequisite chemical kinetics and reactor design course. Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 555 - Principles Biological Separation Processing Credits: 3
Biological separation principle and process development for isolation of value added products from renewable agricultural based materials. The mass and heat transfer as well as engineering scale up will be applied to chromatography separation (gel filtration, ion exchange, metal affinity, hydrophobic interaction, and bio-affinity), membrane separation (Micro-filtration, ultra-filtration, and extraction, and solvent extraction). Hands-on laboratory experiments will be an integral part of this course. Students will be expected to complete comprehensive laboratory reports which include scale up computations. Corequisites: ABE 555L.

ABE 555L - Principles of Biological Separation Processes Laboratory Credits: 0
Corequisites: ABE 555.

ABE 590 - Seminar Credits: 1
Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 592 - Topics Credits: 1-3

ABE 632 - Environmental/Ecological Risk Assessment Credits: 3
This course will examine the process and methodologies associated with human environmental and ecological risk assessments. The participants will apply the methods learned in the course to a project to gain experience in defining and quantifying uncertainty associated with human perturbation, management and restoration of environmental and ecological processes. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 662 - Life Cycle Assessment Credits: 3
This course will examine the process and methodologies associated with life cycle analysis. The participants will apply the methods developed in the course to a project to gain experience in defining and quantifying uncertainty associated with human perturbation, management and utilization of biofuels and other complex processes. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 732 - Advanced Hydrology in Agriculture Credits: 2

ABE 733 - Ground Water Engineering in Agriculture Credits: 3

ABE 734 - Advanced Irrigation Engineering Credits: 3
Basic soil-water-crop relationships. Theory and design of pumping plants, surface, sprinkler, and drip irrigation systems. Corequisites: ABE 734L. Prerequisites: ABE 434

ABE 734L - Advanced Irrigation Engineering Lab Credits: 0
Laboratory to accompany ABE 734. Corequisites: ABE 734.
ABE 738 - Computer Models in Water Resources Management Credits: 3
This course offers students in agricultural, biosystems, and environmental engineering and related fields an understanding of hydrological modeling and associated skills. Computer models currently utilized in industry and government agencies for decision support will be studied and used to enhance the understanding of hydrological processes. Hands-on experiences will be organized with local case studies for analysis and practice-oriented learning using software tools.

ABE 748 - Bioseparations Credits: 3
Study of separations important in food and biochemical engineering such as leaching, extraction, expression, absorption, ion exchange, filtration, centrifugation, membrane separation, and chromatographic separations. Prerequisites: CBE 218, ABE 444 or ABE 544. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 752 - Theoretical Micro-Climatology Credits: 2
Derivation and application of physical laws to air layer near the ground occupied by plants and animals. Instruments used to take measurements in layer near ground. Prerequisites: MATH 125 and PHYS 211.

ABE 754 - Advanced Unit Operations of Food/Biomaterials Processing Credits: 3
Advanced study of engineering principles as they apply to unit operations for food preservation and processing, including effect of heat and time on the lethality of undesirable food microorganisms, heat transfer with foods and containers and its effect on food safety, freezing and refrigeration technology, high temperature short time extrusion processing, and aseptic processing. Corequisites: ABE 754L.

ABE 754L - Advanced Unit Operations of Food/Biomaterials Processing Laboratory Credits: 0
Corequisites: ABE 754.

ABE 763 - Instrumentation Credits: 3
Principles of transducers, amplifiers and terminating devices in measurement systems with emphasis on transducers and systems performance. Techniques and methods for use in engineering and scientific measurement. Corequisites: ABE 763L. Prerequisites: PHYS 213, MATH 225, STAT 541, and (EE 300 or ABE 463).

ABE 763L - Instrumentation Laboratory Credits: 0
Corequisites: ABE 763.

ABE 765 - Advanced Biomass Thermochemical Conversion Credits: 3
Advanced study, evaluation, and application of thermochemical conversion pathways in biofuel production. Specific topics include biomass gasification, pyrolysis, liquefaction, and heterogeneous catalysis. Prerequisites: ME 314 and ABE 444. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

ABE 771 - Graduate Seminar Credits: 1
Discussion and reports of current topics and investigations in Agricultural and Biosystems Engineering. Notes: Limit of 2 credits

ABE 788 - Master's Research Problems/Projects Credits: 1-2

ABE 791 - Independent Study Credits: 1-3

ABE 792 - Topics Credits: 1-3

ABE 798 - Thesis Credits: 1-7

ABE 890D - Dissertation - PhD Credits: 1-12

ABME (Agricultural, Biosystems & Mechanical Engineering)

ABME 790 - Seminar Credits: 1

ABME 792 - Topics Credits: 3

ABME 898D - Dissertation Credits: 1-12

ABS (Agriculture & Biological Sciences)

ABS 582 - International Experience Credits: 2-4 This will be a team-mentored class. Students will work one on one or in small groups with professors that have knowledge of the global region and culture that will be visited. Students will participate in a one-to-three week travel/study abroad experience to another nation(s) to experience and evaluate diverse food/agricultural systems. Notes: ABS 203 is a recommended prerequisite.

ABS 705 - Research Methodology Credits: 1-10
Advanced instruction in research methodology. Credit earned will depend on the module(s) taken. Each module will provide in-depth coverage on one type of techniques. Modules will involve lectures on the theory behind a technique, simulations/demonstrations of the techniques, and hands on experiments. Each module requires a colloquium (reports and discussions) designed to show the student how these techniques can be combined to solve a research problem. Course may be repeated as long as the module(s) are not repeated. Potential topic modules could include: Electrophoresis, liquid chromatography, spectroscopy, centrifugation, hybridization, cloning, PCR, monoclonal antibodies, protein characterization, light microscopy, electron microscopy, in situ hybridization, fluorescent imaging, chromosomal analysis, plant tissue culture, mammalian tissue culture, anaerobic bacterial culture, design of ecological field studies, sampling of terrestrial plants, sampling of aquatic plants, sampling of terrestrial animals, sampling of aquatic animals, geographic information systems and global positioning systems in ecology, analysis of ecological data, modeling and simulation in ecology, crop breeding techniques, and other topics as needed. Prerequisites: Module instructor consent.

ABS 792 - Topics Credits: 1-6

ACCT (Accounting)

ACCT 592 - Topics Credits: 1-4

ADV (Advertising)

ADV 576 - Global and Multicultural Advertising Credits: 3
This course develops an understanding of global and multicultural advertising and marketing. Students gain experience in decisions that reflect an understanding of global and multicultural markets and explore the social and ethical issues in such advertising and marketing.

ADV 692 - Topics Credits: 1-3

AGEC (Agricultural Economics)

AGEC 521 - Farming and Food Systems Economics Credits: 3
Economic concepts and methods for analyzing farming system and food system alternatives, investments, and issues. Includes economic feasibility analysis methods for assessing potential farm/ranch, value-added, and other food enterprises. Economic structure and organization of food systems in US and other parts of the world are examined.

AGEC 530 - Agribusiness Marketing and Prices Credits: 3
Economic theory and quantitative techniques used in analysis of procurement and sales, construction of economic models, statistical estimates of supply and demand, and price forecasting. Prerequisites: AGEC 354 and STAT 281.

AGEC 571 - Advanced Farm and Ranch Management Credits: 3
Strategic and operational business planning of farms and ranches covering all essential topics from long-term financing, technology adoption, intellectual property rights, marketing, land use changes and climate change, biofuels, and trade. Selected quantitative tools and procedures for analysis and decision making in farm and ranch business management will provide students the right blend of knowledge and tools to become future farm and ranch managers.

AGEC 592 - Topics Credits: 1-4

AGEC 593 - Workshop Credits: 1-3
Students are advised to check for most current course descriptions at http://catalog.sdstate.edu/. For x9x common course descriptions (for example: 590, 690, 591, & 692) see page 158.

AGED 501 - Parliamentary Procedure Credits: 2
This course will focus on the function of deliberative assemblies and the orderly conduct of meetings. The course will utilize the current version of Roberts Rules of Order Newly Revised to prepare students to provide parliamentary advice to student organizations, school boards, commodity groups, and other deliberative assemblies.

AGED 531 - Work Based Learning Credits: 2
Strategies for developing curriculum and designing methods of instruction for teaching employability skills, career decision making and occupational areas of family and consumer sciences. A field experience will be included. Cross-Listed: FCSE 531.

AGED 592 - Topics Credits: 1-5

AGED 620 - Curriculum for Agricultural Science Education (CASE) Credits: 3-5 Obtain practical application of agricultural education content, review lab and classroom activities.

AGED 625 - Future Directions for Career and Technical Education Credits: 3
This course will discuss current educational and political influences on CTE through the lens of the constructivist foundations of the field. Students will examine trends in CTE to attempt to predict and prepare for the CTE classrooms of tomorrow. Primary focus of the course will be on agricultural and family and consumer science education.

AGED 650 - Foundations of Agricultural Education Credits: 3
An understanding of the historical and philosophical development of agriculture food and natural resource systems places current events in their proper historical frame. This course explores the history of agriculture in North America, the philosophies which guided its evolution, and agricultural progress from the 1600s to present day. Inquiry includes public school and county extension education, the USDA, the Land-Grant system, the National FFA Organization, and 4-H youth development.

AGED 690 - Seminar Credits: 1-2

AGED 788 - Research Problems in Agricultural Education Credits: 1-7
A problem is selected, analyzed, and reported in form approved by the research advisor. Course is repeatable for additional credit. Pre-requisite: Required of all graduate students in education qualifying for the degree under Option B. Can be elected under Option C, if desired.

AGED 798 - Thesis Credits: 1-7

AHED (Adult Higher Education)

AHED 711 - Assessment and Program Design Credits: 3
Organization and implementation of adult education programs. Particular emphasis on curriculum development, financing, staffing, marketing, and evaluation of adult programs. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

AHED 720 - Principles of Postsecondary Education Credits: 3
This course provides an overview of the postsecondary education system in the US. It surveys the history, major features, and effects of this system.

AHED 755 - Principles of College Teaching Credits: 3
An analysis of teaching methodologies, planning procedures, evaluation techniques, and professional relationships. Emphasis will be on learning and using strategies suitable for teaching.

AHED 794 - Internship Credits: 1-6

ANTH (Anthropology)

ANTH 591 - Independent Study Credits: 1-3

ARCH (Architecture)

ARCH 521 - Media Tech VI Credits: 2
Students will develop the skills necessary to produce professional contract documents, construction documents and outline specifications, with an emphasis on sustainable building technologies. Computer aided drafting (CAD) and Building Information Modeling (BIM) will be covered. Prerequisites: ARCH 351.

ARCH 522 - Media Tech VII Credits: 2
Continued development of skills necessary to produce professional contract and construction documents, with an emphasis on building envelope assembly and large scale detailing. Computer aided drafting (CAD) and Building Information Modeling (BIM) will be covered. Prerequisites: ARCH 521.

ARCH 551 - Architecture Studio IV Credits: 6
Professional architectural studio focused on the categories of site, structure, systems, and type. Students will prepare detailed and coordinated drawings and models describing a complex building design project. Prerequisites: ARCH 452.

ARCH 552 - Comprehensive Building Design Credits: 6
Comprehensive professional architectural studio measuring competency across all aspects of a coordinated building design. Students will prepare detailed drawings, documents and models describing a complex building program, integrated systems and structure, and an appropriate relationship to site. Prerequisites: ARCH 551.

ARCH 561 - Shop Credits: 2
Workshop studies in craftsmanship, assembly, and fabrication through hands-on demonstrations and projects.

ARCH 571 - Architectural Practice I Credits: 2
This course introduces regulations as they relate to architectural registration, including building codes and ordinances, professional service contracts, environmental regulation, and other legal responsibilities connected with the profession. Prerequisites: ARCH 351.

ARCH 572 - Architectural Practice II Credits: 2
This course presents architectural production as an evolving cultural and financial practice. Topics include traditional delivery methods, the client's role, and alternative contemporary models. Prerequisites: ARCH 571.

ARCH 592 - Topics Credits: 3

ARCH 631 - Building Technology II Credits: 2
Introduction to building systems, daylighting, environmental systems, building services, and sustainable technologies with an emphasis on the building exterior surface. Prerequisites: ARCH 351.

ARCH 632 - Building Technology III Credits: 2
Introduction to technological issues of interior systems and construction including plumbing systems, mechanical air handling, lighting, finish materials, and sustainable practices in interior design. Prerequisites: ARCH 351.

ARCH 651 - Professional Design Practice I Credits: 6
Topic option studio relating to present day situations. Prerequisites: ARCH 552.

ARCH 652 - Professional Design Practice II Credits: 6
Topic option studio relating to present day situations. Prerequisites: ARCH 552.

ARCH 671 - Architectural Practice III Credits: 2
This course will cover the responsibilities architects have to society. Topics include sustainability, community outreach, collaboration, leadership, ethics, and professional judgment. Prerequisites: ARCH 572.

ARCH 672 - Architectural Practice IV Credits: 2
This course introduces architectural project management and practice management. Topics include basic principles of project team selection, delivery methods, and professional organizational models. Prerequisites: ARCH 671.
ANATOMICAL AND PHYSIOLOGICAL PROCESSES OF REPRODUCTION
This course covers topics pertaining to endocrine gland and hormone function; hormone synthesis; control of hormone secretion, circulation and metabolism; physiological roles of hormones; and mechanisms of hormone action. Specific areas of study involve pituitary and hypothalamic function, pancreatic function, and hormones regulating growth and metabolism, thyroid hormones, gonadal and adrenal hormones. Notes: Odd Spring.

AS 712 - Ruminant Nutrition Credits: 3
Principles of nutrition for ruminants in relation to growth, reproduction and lactation. Notes: Even Spring on-campus. Other sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

AS 720 - Advanced Selection of Domestic Animals Credits: 3
Quantitative and population genetic theory of sound breeding programs for domestic animals including, variation, heredity, selection, estimation of breeding values, systems of mating, and performance testing. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

AS 730 - Endocrinology Credits: 3
This course covers topics pertaining to endocrine gland and hormone function; hormone synthesis; control of hormone secretion, circulation and metabolism; physiological roles of hormones; and mechanisms of hormone action. Specific areas of study involve pituitary and hypothalamic function, pancreatic function, and hormones regulating growth and metabolism, thyroid hormones, gonadal and adrenal hormones. Notes: Odd Spring.

AS 732 - Advanced Physiology of Reproduction Credits: 3
Anatomical and physiological process of reproduction in domestic animals with special emphasis on research techniques and the findings of recent research. Prerequisites: AS 433. Notes: Odd Fall on-campus. Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

AS 733 - Vitamins and Minerals Credits: 3
Relationships between nutrients in metabolism. Comparing metabolic significance of required nutrients for different animal species and as applied to human nutrition. Prerequisites: AS 233, AS 323, CHEM 361, VET 223 or ZOOL 325.

AS 734 - Protein and Energy Nutrition Credits: 3
Principles of protein and energy metabolism and the partitioning of these nutrients for maintenance, growth and production in domestic farm animals.

AS 736 - Monogastric Nutrition Credits: 3
Nutrition principles for nonruminants related to reproduction, lactation and growth. Prerequisites: AS 233, AS 323, CHEM 361, VET 223 or ZOOL 325. Notes: Even Fall on-campus. Other sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

AS 740 - Metabolism Credits: 3
The metabolism of domestic animals and humans will be covered. This will include the structure and function of proteins, enzyme kinetics, and catalysis. The major pathways of amino acid, carbohydrate, lipid, and nucleotide metabolism including their regulation will be emphasized. Notes: Fall.

AS 750 - Animal Growth and Development Credits: 3
Growth of animals at the cellular level, including hormones, growth factors, receptors and signaling and growth at the whole animal level. Notes: It is recommended that students have completed undergraduate biochemistry (or AS 640) and physiology courses. Even Spring on-campus. Other sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

AS 753 - Research Topics in Meat Science Credits: 3
Current research issues in meat science. Interpreting meat science research results. Experience in scientific writing for proposals and journal articles. Prerequisites: AS 241. Notes: Odd Spring.

AS 760 - Advanced Equine Nutrition Credits: 3
This course explores concepts in equine nutrition including digestive physiology of horses, nutrient requirements for different classes of horses and feed management. Ration evaluation and balancing, as well as problem solving will be a core component to this course. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

AS 770 - Advanced Beef Production Credits: 3
This class is aimed at students with an interest in the Beef Cattle Industry. The course combines principles of farm and ranch land acquisition and management, along with: breeding, nutrition, reproduction, health and disease prevention, life cycle management of the calf crop, as well as marketing alternatives for the producer. Retained ownership of the calf crop past weaning through the stocker and/or feedlot phase will be discussed and evaluated financially. New and emerging technologies will also be discussed. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

AS 780 - Evaluation and Use of Breeds in Livestock Credits: 3
Evaluation of breeds of cattle, sheep, and swine with emphasis on breed comparison research and breed history. Examination of appropriate use of existing breed resources and development of new breeds. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

AS 790 - Seminar Credits: 1

AS 791 - Independent Study Credits: 1-3
Notes: Fall, Spring, and Summer.

AS 792 - Topics Credits: 1-9

AS 793 - Topics Credits: 1-9

AS 798 - Thesis Credits: 1-7

AS 898D - Dissertation - PhD Credits: 1-12

AST (Agricultural Systems Technology)

AST 563 - Agricultural Waste Management Credits: 3
Understand agricultural or biological wastes. Develop an understanding of regulatory requirements and best management practices that advocate responsible environmental stewardship. Topics include production, collection, handling, treating, and reusing agricultural and biological wastes. Course will emphasize written and oral reports. Prerequisites: PS 213 or PS 313.

AST 791 - Independent Study Credits: 3

AT (Athletic Training)

AT 541 - Athletic Training Techniques I Credits: 3
This course is designed to meet outcomes and guidelines set forth by the Education Council of the National Athletic Trainers' Association related to acute care provided by Athletic Trainers for Injuries and Illnesses. Students will obtain the knowledge, skills and clinical decision making to act efficiently and effectively in emergency situations related to life-threatening and non-life threatening conditions. Also, the course will address ethical and legal issues related to emergency care and the practice of Athletic Training. Corequisites: AT 541L. Prerequisites: Major in Athletic Training.

AT 541L - Techniques I Lab Credits: 0
This course is designed to meet outcomes and guidelines set forth by the Education Council of the National Athletic Trainers' Association related to acute care provided by Athletic Trainers for Injuries and Illnesses. Students will obtain the knowledge, skills and clinical decision making to act efficiently and effectively in emergency situations related to life-threatening and non-life threatening conditions. Also, the course will address ethical and legal issues related to emergency care and the practice of Athletic Training. Corequisites: AT 541.
AT 542 - Athletic Training Techniques II Credits: 3
This course is the second of the intermediate athletic training courses designed to meet all of the guidelines and competencies required by the National Athletic Trainers’ Association. Content includes techniques related to the prevention, recognition, and management of athletic injuries to the upper and lower extremities. Related topics include pre-season screening, pre-participation physicals, and appropriate weight training techniques. Prerequisites: AT 441; Major in Athletic Training.

AT 543 - Athletic Training Techniques III Credits: 3
This course is the third of the intermediate athletic training courses designed to meet all of the guidelines and competencies required by the National Athletic Trainers’ Association. These courses should be taken in sequence. AT 543 includes a combination of material. One section of the class is devoted to the prevention, recognition, and management of athletic injuries relative to head, face, throat, abdomen, and thorax. The remaining class of material includes material in regards to evaluation and care of general illnesses and dermatological disorders common to athletics, understanding the role of pharmaceuticals in athletics, both legal and banned substances, drug testing procedures, special issues related to women in athletics, and the athletic trainer’s role in counseling athletes. Corequisites: AT 543L Prerequisites: Major in Athletic Training

AT 543L - Techniques III Lab Credits: 0
This course is designed to meet outcomes and guidelines set forth by the Education Council of the National Athletic Trainers’ Association related to prevention, evaluation and management of medical conditions and disabilities incurred by individuals involved in physical activity or sport. Students will obtain the knowledge, skill and clinical decision making to accurately assess and recognize general medical conditions (both acute and chronic), make appropriate referrals and work as part of a coordinated health care team to implement plans which allow individuals with medical conditions to participate safely in physical activity and sport. Corequisites: AT 543. Notes: AT majors only.

AT 544 - Athletic Training Techniques IV Credits: 2
This course is designed to cover the athletic training competencies in organization and administration. It will cover knowledge, skills and values that an athletic trainer must possess to develop, administer, and manage a health care facility and associated venues that provide health care to athletes and others involved in physical activity. Notes: AT majors only.

AT 554 - Athletic Injuries Assessment – Lower Extremity Credits: 2
This course is designed to have the student athletic trainers develop a sound understanding of the assessment of athletic related injuries and conditions occurring to the lower extremities. The course will incorporate anatomy of the lower extremity, the athletic related injuries or conditions which may occur, and evaluation techniques used to assess this area of the body. Notes: AT majors only.

AT 556 - Athletic Injuries Assessment – Upper Extremity Credits: 2
This course is designed to have the student athletic trainers develop a sound understanding of the assessment of athletic related injuries and conditions occurring to the upper extremities. The course will incorporate anatomy of the upper extremity, the athletic related injuries or conditions which may occur, and evaluation techniques used to assess this area of the body. Notes: AT majors only.

AT 562 - Interventions I Credits: 3
First course in a 3-semester sequence, designed to teach students foundational principles and theories associated with the development of a treatment plan for an injured patient. The class is taught through lectures and demonstrations.

AT 564 - Interventions II Credits: 2
This course is designed to meet outcomes and guidelines set forth by the Education Council of the National Athletic Trainers’ Association related to therapeutic interventions. The second course in a 3-semester sequence, it is designed to have the student develop a basic understanding of the theory and application of therapeutic interventions including modalities and exercise in the treatment of the injured patient. The class will be taught through lectures and demonstrations. Prerequisites: Athletic Training Major.

AT 574 - Interventions III Credits: 2
This course is designed to meet outcomes and guidelines set forth by the Education Council of the National Athletic Trainers’ Association related to therapeutic interventions. The third course in a 3-semester sequence, it is designed to have the student develop an advanced level of understanding of the theory and application of therapeutic interventions including modalities and exercise in the treatment of the injured patient. The class will be taught through lectures and demonstrations. Notes: AT majors only.

AT 600 - Introduction to Patient Management Credits: 2
Introduction to the role of the athletic trainer in the healthcare system and contemporary healthcare competencies that support expected standards of care. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 610 - Interventions I Credits: 3
Exploration of foundational principles, theories, and skills associated with the development and implementation of evidence-based plans of patient care. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 611 - Prophylactic Interventions Credits: 1
Students will develop the ability to select and apply taping, bracing, and other commonly used techniques and devices designed to prevent and/or minimize risk of injury or re-injury in physically active clients and patients. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 651 - Clinical Experience I Credits: 1
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 652 - Clinical Experience II Credits: 1
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: AT 651 and must be a graduate student admitted to the M.S. in Athletic Training.

AT 722 - Patient Examination and Treatment I Credits: 6
Students will develop the professional knowledge and skills necessary to accurately examine and care for common musculoskeletal conditions affecting the lower extremity and spine. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 725 - Principles of Acute Care in Athletic Training Credits: 3
Students will develop the knowledge, skills and clinical decision-making ability to act efficiently and effectively in emergency situations involving life-threatening and/or non-life-threatening conditions. Ethical and legal issues related to emergency care and the practice of Athletic Training will also be addressed. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 725L - Principles of Acute Care Lab Credits: 0
Lab to accompany AT 725. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 732 - Patient Examination and Treatment II Credits: 6
Students will develop the professional knowledge and skills necessary to accurately examine and care for common musculoskeletal conditions affecting the upper extremity and spine. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 735 - Health Care Administration for Athletic Training Credits: 2
Students will develop the professional knowledge, skills and values that an athletic trainer must possess to administer and manage a health care facility and associated venues that provide health care to athletes and others involved in physical activity. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 740 - Functional Movement Credits: 3
Students will develop the ability to evaluate and correct movement patterns as part of the injury prevention, performance enhancement, and rehabilitative processes. Students will also learn how to apply these techniques to sport specific movements for the purposes of injury prevention and performance enhancement. Prerequisites: Must be a graduate student in the Department of Health and Nutritional Sciences.

AT 740L - Functional Movement Lab Credits: 0
Lab to accompany AT 740. Prerequisites: Must be a graduate student in the Department of Health and Nutritional Sciences.
AT 742 - General Medical Examination Credits: 3
Students will develop the professional knowledge and skills necessary to evaluate and care for general medical conditions, illnesses, and system disorders. Foundational principles of pathophysiology will be included in relevant pharmacologic and behavioral health concepts. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 753 - Clinical Experience III Credits: 2
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 754 - Clinical Experience IV Credits: 2
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 755 - Clinical Experience V Credits: 5
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 756 - Clinical Experience VI Credits: 5
Students participate in client and client-related services that are an integral part of the athletic training program. Clinical instruction occurs in and outside the institutional setting and involves work with clients who receive professional services from students serving under direct supervision of approved preceptors. Prerequisites: Must be a graduate student admitted to the M.S. in Athletic Training.

AT 788 - Master's Research Problems/Projects Credits: 1

AT 790 - Seminar Credits: 2

AT 795 - Practicum Credits: 1-3
Notes: Throughout the course of the two-year curriculum, students will complete five (5) separate AT 795 Practicum courses that are linked to students' clinical experiences: AT 795: Practicum – Clinical Experience I (2 credits), AT 795: Practicum - Modalities (2 credits), AT 795: Practicum – Upper Extremity Assessment (2 credits), AT 795: Practicum – Fall Camp Experience (1 credit), and AT 795: Practicum – Clinical Experience III (2 credits).

BADM (Business Administration)

BADM 511 - Investments (COM) Credits: 3
This course is a thorough study of the equity market including fundamental valuation techniques, asset allocation, the efficient markets hypothesis and its implications, portfolio theory, risk and return, the primary and secondary market mechanisms, security market indicators, and international investing. An overview of the bond market including bond valuation, duration, and bond portfolio management, and an introduction to options, futures, and forward contracts are provided. The vital roles of computer technology and electronic trading are also explored. Prerequisites: BADM/FIN 310. Cross-Listed: FIN 511.

BADM 592 - Topics Credits: 1-4

BADM 593 - Workshop Credits: 1-3

BIOL (Biology)

BIOL 515 - Mycology Credits: 2-3

BIOL 515L - Mycology Laboratory Credits: 0-1

BIOL 539 - Biology of Aging Credits: 3
Physical, sensory, and physiological changes with age, aging of cells and tissues. Cellular, developmental, endocrine and other theories of aging. Pathologies of aging. Prerequisites: BIOL 325.

BIOL 567 - Parasitology Credits: 3
This course will prepare students in the area of ecological effects of toxic substances and other contaminants. Wildlife toxicology and impacts of agriculture on the Northern Plains will be emphasized. Topics covered will include pesticides, heavy metals, aquatic and terrestrial ecotoxicity and other topics related to wildlife toxicology. Corequisites: BIOL 567L.

BIOL 567L - Parasitology Laboratory Credits: 0

BIOL 570 - Cancer Biology Credits: 3
This course will address the current research directed at understanding the molecular and cellular basis of cancer and explore potential therapeutic targets. Topics covered will emphasize cell cycle regulation and apoptosis, cellular control of proliferation and differentiation, genetic alterations, growth factors and signal transduction, invasion and metastasis, and angiogenesis. Prerequisites: BIOL 202 or BIOL 204 or instructor consent.

BIOL 576 - Advanced Mammalian Physiology Credits: 4
An advanced study of the physiological mechanisms utilized by mammals to regulate body functions with the nervous and endocrine systems, to acquire and use chemical energy from their environment, and to integrate the functions of the organs' systems to maintain the health of the animal. Emphasis is placed on applying physiological concepts and principles to solve problems. Previous courses in anatomy, physiology, and biochemistry are recommended. Prerequisites: BIOL 221 or VET 223.

BIOL 583 - Developmental Biology (COM) Credits: 3
Analysis of the processes of animal development beginning with the formation of female and male gametes (ova and sperm) and ending with organ differentiation. Evolutionary concepts of animal development, developmental genetics, and molecular biological approaches to the analysis of development. Prerequisites: BIOL 151, BIOL 153, and BIOL 371 or BIOL 471 or 571 or BIOL 473 or BIOL 575.

BIOL 592 - Topics Credits: 1-5

BIOL 594 - Internship Credits: 1-6

BIOL 645 - Microimaging Techniques Credits: 3
Preparation and observation of animal and plant tissues for microscopic and photomicroscopic study. Emphasis will be given to various techniques used in current research areas.

BIOL 645L - Microimaging Techniques Laboratory Credits: 1-3

BIOL 719 - Professional Development Seminar Credits: 1-4
The course includes: alternative career prep, mentoring, CV/application packet review, interviewing & negotiation skills, MCAT (or alternative professional exam) preparation, field experiences, case studies, intellectual integration of material presented in disparate courses evaluated through written and oral presentations, scaffolded learning in the areas of professionalism, academic and non-academic writing and oral communication, bioethics and healthcare case studies. Prerequisites: Students must be enrolled in the M.S. in Human Biology.

BIOL 721 - Advanced Human Anatomy Credits: 4
Regional dissection of the human body that capitalizes on the systems-based approach. Structure, function, and fetal development are used in combination with medical cases/clinical correlations to enhance student learning. Corequisites: BIOL 721L. Prerequisites: BIOL 221-221L and BIOL 325-325L or equivalent coursework. Must be graduate student admitted to the M.S. in Human Biology or M.S. in Athletic Training. The BIOL 494 Anatomy Internship is strongly recommended prior to enrollment in this course.

BIOL 721L - Advanced Human Cadaver Dissection Credits: 0
Corequisites: BIOL 721.

BIOL 743 - Cell Biology (COM) Credits: 3
Emphasis on the integration of structure and function in the cell.
Students are advised to check for most current course descriptions at http://catalog.sdstate.edu/. For x9x common course descriptions (for example: 590, 690, 591, & 692) see page 158.

**BIOL 782 - Epidemiology Credits: 3**
The course introduces concepts and methodologies for the study of health and disease in human populations. Different study designs and their methods of analysis will be discussed, as well as sources, handling, and interpretation of epidemiologic data. Cross-Listed: HSC 782/NUTR 782.

**BIOL 788 - Master's Research Problems/Project Credits: 1-3**

**BIOL 790 - Seminar Credits: 1-3**

**BIOL 791 - Independent Study Credits: 1-4**

**BIOL 792 - Topics Credits: 1-6**

**BIOS (Biological Sciences)**

**BIOS 662 - Advanced Molecular Biology Credits: 3**
This course will provide the students a cutting-edge, comprehensive knowledge in molecular biology. It will give the students a perspective both on what is known and on what is unknown about the structure, organization and functions of genes, genomes and genetic mechanisms. Notes: Undergraduate courses in genetics and cell biology are recommended prior to taking this course.

**BIOS 663 - Advanced Concepts in Infectious Disease Credits: 6**
This course will provide cutting-edge, comprehensive knowledge in molecular and cellular pathogenesis and the immune response. It will give a perspective both on what is known and current research in the areas of general pathology, immunology, virology, and bacteriology. The course will cover the importance of host-pathogen interactions in infectious disease, which will serve as the basis for further study within more specialized topics in higher-level courses. Prerequisites: BIOS 662; students with no background in infectious disease should enroll in undergraduate Immunology, Virology, or Medical Microbiology prior to taking this course.

**BIOS 664 - Molecular Plant Physiology Credits: 3**
This course discusses current molecular advances in plant biology. A wide range of topics in plant growth and development as well as plant interactions with abiotic and biotic factors will be covered. Each topic is led by a researcher who is experienced in the subject area being discussed, and consists of an introduction lecture and a case study followed by a class discussion on a recent research paper in the field.

**BIOS 788 - Master's Research Problems/Projects Credits: 1-3**

**BIOS 790 - Seminar Credits: 1**

**BIOS 791 - Independent Study Credits: 1-6**

**BIOS 792 - Topics Credits: 1-6**

**BIOS 794 - Internship Credits: 1-6**

**BIOS 796 - Field Experience Credits: 1-6**

**BIOS 798 - Thesis Credits: 1-10**

**BIOS 898D - Dissertation - PhD Credits: 1-7**

**BLAW (Business Law)**

**BLAW 590 - Seminar Credits: 1-3**

**BLAW 591 - Independent Study Credits: 1-3**

**BLAW 592 - Topics Credits: 1-4**

**BLAW 594 - Internship Credits: 1-6**

**BLAW 596 - Field Experience Credits: 1-3**

**BLAW 788 - Master's Research Problems/Projects Credits: 1-3**

**BLAW 792 - Topics Credits: 1-4**

**BOT (Botany)**

**BOT 505 - Grasses and Grasslike Plants Credits: 3**
A systematic study of grasses, and grasslike plants of the northern Great Plains; field and lab practice in collection and identification of graminoid plants; discussion of unique biological aspects of grass and grasslike plants that make them economically and ecologically significant.

**BOT 505L - Grasses and Grasslike Plants Laboratory Credits: 0**

**BOT 515 - Aquatic Plants Credits: 3**
A systematic survey of vascular plants that grow in wetland habitats, and a study of their adaptations to life in the water. Field and laboratory practice in identification and recognition of common aquatic plants. Corequisites: BOT 515L. Prerequisites: BIOL 103 or BIOL 153.

**BOT 515L - Aquatic Plants Laboratory Credits: 0**
Corequisites: BOT 515.

**BOT 715 - Advanced Plant Ecology Credits: 4**
Analysis of the energy relationships of communities with emphasis on productivity. Literature readings. Laboratory work in techniques of community analysis.

**BOT 715L - Advanced Plant Ecology Laboratory Credits: 0**
Analysis of the energy relationships of communities with emphasis on productivity. Literature readings. Laboratory work in techniques of community analysis.

**BOT 791 - Independent Study Credits: 1-4**

**BOT 792 - Topics Credits: 1-5**

**CA (Consumer Affairs)**

**CA 592 - Topics Credits: 1-3**

**CA 595 - Practicum Credits: 1-6**
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**CA 612 - Financial Counseling Credits: 3**
Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**CA 621 - Financial Theory and Research I Credits: 3**
Theories of family functioning, macroeconomic theory related to family resource allocation decisions, the family as an economic unit, and the interaction of the economy and families. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**CA 640 - Fundamentals of Family Financial Planning Credits: 3**
Issues and concepts related to the overall financial planning process, and establishing client-planner relationships. Services provided, documentation required and client and CFP licensee responsibilities are explored. Competencies related to gathering of client data, determining goals and expectations, and assessing the client's financial status by analyzing and evaluating data are developed. Emerging issues and the role of ethics in financial planning are an integral part of the course. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.
CA 645 - Military Personal Financial Readiness Credits: 3
This course gives an overview of the topics relevant to the financial planning process. The course adapts the topics to address the unique needs of and resources available to military service members and their families. Topics covered are: status of service member; financial readiness; financial management; record-keeping; cash flow management; risk management; credit and debt management; savings, education planning, and investment management; tax management; retirement management; estate management; and special topics. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 660 - Investing for Family's Future Credits: 3
An in-depth study of investment options for clients, this course will include common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices will be studied. Current and emerging issues, and ethics will be an integral part of the course. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 680 - Insurance Planning for Families Credits: 3
An in-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance liability insurance; accident, disability, health and long-term care insurance; and government-subsidized programs; current and emerging issues, as well as ethical considerations, relative to risk management will be discussed. Case studies will provide experience in selecting insurance products suitable for individuals and families. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 704 - Estate Planning for Families Credits: 3
Fundamentals of the estate planning process will be studied, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan; ethical considerations in providing estate planning services and new and emerging issues in the field will be explored. Case studies will provide experience in developing estate plans suitable for varied family forms. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 715 - Housing and Real Estate in FFP Credits: 3
The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 721 - Financial Theory and Research II Credits: 3
Microeconomic theory as it relates to family resource allocation decisions, theories of household behavior, the lifecycle hypothesis, behavioral economics, behavioral finance, theories of behavioral change, and psychological theories of family well-being. Focus on empirical research investigating household financial decision-making. Prerequisites: CA 621. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 725 - Family, Employment Benefits and Retirement Planning Credits: 3
Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with governmental benefits. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 735 - Personal Income Taxation Credits: 3
This course provides in-depth information of income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrate or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation will be covered. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 745 - Professional Practices in Financial Planning Credits: 3
Challenges of managing financial planning practices including, but not limited to: business evaluation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students will analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 755 - Financial Planning Case Study Credits: 3
This course examines professional issues in financial planning, including ethical considerations, regulation and certifications requirements, communication skills, and professional responsibility. Students are expected to utilize skills obtained in other courses and work experiences in the completion of personal financial case studies, the development of a targeted investment policy, and other related financial planning assignments. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 788 - Master's Research Problems/Projects Credits: 3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CA 792 - Topics Credits: 1-3

CA 798 - Thesis Credits: 1-6

CD (Community Development)

CD 600 - Foundations of Community Development Credits: 3
This course is available only to graduate students registered in the Community Development specialization. This seminar serves as an orientation to on-line learning and an introduction to the courses, faculty and curriculum connected to the on-line master's degree program. Students will have an opportunity to meet each other on-line, practice using the technology to support learning objectives, and develop a basic understanding of the field. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 601 - Organizing for Community Change Credits: 3
This course will examine the role of civil society in community planning efforts and offer students a comparative approach to planning theories and approaches. It will also focus on change within communities and the roles of government, planners, and citizens in reacting to or shaping change. Students will have an opportunity to explore current issues related to planning and dealing with change by examining controversial practices such as covenants and land trusts, as well as by studying various community responses to change. Students will understand how citizens, firms and governments act to improve their community and region; the structure and implications of power; the relation between social relationships and economic activity, coalition building, concepts of inclusiveness (class, gender, ethnicity, geography), voice, and conflict and its management in communities and regions. The course will cover dimensions of social capital and the context of change. Students will learn to use this knowledge to promote equitable change at the community and regional level. They will study the implications of economic and demographic shifts on strategies and tactics for change and explore various resources for supporting these efforts. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 602 - Community and Regional Economic Policy and Analysis Credits: 3
A firm grounding in the reality of the local economy is necessary for successful programs in community economic development and for designing successful state and local policy and programs in economic development. The course introduces concepts of communities and regions, theories of economic growth, drivers of economic growth, the economic base of a community, course of growth or decline in the community, roles of local government and institutions, analytical tools, and strategies for local economic development. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.
CD 603 - Community Natural Resource Management Credits: 3
This course will introduce students to the breadth of consideration involved in community resource management. Included in the course are theoretical frameworks, methodological investigation and applied practices to enhance the ability of community development professionals to work with their communities to plan, develop, and monitor the conversation and development of natural resources with multiple functions. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 604 - Community Analysis Credits: 3
This course provides an introduction to research methods relevant to community development. Course topics include how to formulate and begin a research effort, methods of data collection and how conceptual frameworks are used to develop the questions and analyze data. Also included are strategies for reporting findings and applying findings in community action. The course will also look at methods of evaluating the entire research process. Significant attention is paid to issues of research ethics and inclusiveness throughout the course. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 605 - Principles and Strategies of Community Change Credits: 3
This interdisciplinary course analyzes principles and practices of community change and development, beginning with definitions of community and the role of communities in social and economic change. Using case studies and the students' communities of reference, the course will relate Community Development approaches to conceptual models from diverse disciplines. Conceptual models include conflict, neo-classical economic growth, participatory democracy, and others. Students will be exposed to professional practice principles and will leave the course having constructed their personal framework for the practice of community development. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 611 - Impact Analysis Credits: 1
The course teaches the basics of economic and fiscal impact analysis. It includes the scenario construction, basics of input-output analysis, careful use of multipliers, estimations of local revenues and expenditures and discounting. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 612 - Housing and Development Credits: 3
Review and evaluation of historical and current housing issues, production, and financial systems, Examination of federal, state, and local policies and programs for community development. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 613 - Introduction to Native Community Development Credits: 3
This course is designed as a base knowledge course for students currently working within or in partnership with native communities or considering working in this area. Students taking this course will develop a basic understanding within the context of community development of the diversity of tribal structures and cultures and the unique history and jurisdictional considerations of these nations. Course topics will include: working with tribes, Federal and Indian relations, and governance and cultural issues. Students taking this course will complete a holistic analysis and conceptual mapping of a tribe. This course is required before students may take other courses in this track. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 616 - Public and Nonprofit Budgeting Credits: 3
The purpose of this three-credit hour graduate level distance education course is to introduce students to the fundamental theories and practices of budgeting in the public and nonprofit sectors. Topics include overview of budgeting and budget reform, taxation, expenditures, budget preparation and adoption, budget implementation, and performance budgeting. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 617 - Tribal Colleges in Economic Development Credits: 1
This course will focus on the role of tribally-chartered colleges and universities in economic development within Native communities. Students will learn the historical and contemporary case for tribal self-determination in higher education vis-a-vis economic development. Using a social capital analytical framework, students will examine and evaluate the tribal college model of economic development. Topics will include the use of bonding and bridging social capital as an analytical tool, the historical and contemporary case for tribally-chartered higher education, the economic impact of tribal colleges on their local economies, and opportunities and challenges of broad and diverse economic networks. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 623 - Ecological Economics Credits: 3
The course seeks a synthesis across the notion of utility as represented in traditional environmental/natural resource economics and the notion of ecology in the newer ecological economics. This course seeks ways to treat both economy and community/ecosystem as being on par, each influencing the other. This synthesis results in a search for the win-win through recognizing the potential for a kind of symbiotic complementarity between the two perspectives, the two systems, and the forces each puts in place. We seek sustainability in both economy and community over longer time periods. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 624 - Building Native Community in Economic Capacity Credits: 3
This course will focus on non-western approaches to helping native communities build their capacity. Students will learn to take a participatory, culture-centered, and strength-based approach to development. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 626 - Economic Development Strategy Credits: 3
Course explores theories of local economic development and addresses the development issues faced by communities in the 21st century. Students will understand and apply concepts from economic development planning, economic analysis, business development, human resource development, community-based development, and high-technology development. This course is limited to GPIDEA student registration, pending student's department approval. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 631 - Evaluation of Organizations/Programs Credits: 3
The purpose of this three-credit hour graduate level distance education course is to introduce students to the philosophy, techniques, and methodologies of organizational and program evaluation. Topics covered include overview of program evaluation and theory, techniques to evaluate program processes and performance, evaluation designs, assessing program deficiency, models to diagnose organizations, and methods to assess organizational performance. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 633 - Introduction to Environmental Law Credits: 3
This course offers students an introduction to American environmental law. We will begin with a basic introduction to sources of law and jurisdiction. We will survey tort law, as the historic and conceptual basis for environmental law in property law. We will emphasize administrative law and environmental legislation, as these are the areas of environmental law that most of you will encounter as professionals in community development. We will spend the majority of the course learning about how governmental agencies regulate private activities that affect land, air, water, and wildlife. Because we will consider the legal process largely from the perspective of someone working for or dealing with a public agency, we will deal with such topics as administrative procedure and judicial review of agency actions. We will also consider the roles of individuals and nonprofit organizations in the administrative and litigation processes. Therefore, we will pay close attention to such issues as standing to sue and the availability of attorney fee awards. The course will cover a wide range of substantive issues including such topics as the regulation of toxic waste, the Clean Air Act, the National Environmental Policy Act, the Endangered Species Act, common law environmental torts and the public trust doctrine. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.
CD 634 - Native American Natural Resource Management Credits: 3
This course will introduce students to the breadth of considerations involved in Native American resource management. Included in the course are theoretical frameworks, methodological investigations and applied practices by which we will explore the impact of structural inequality, globalization and sovereignty on planning, sustainability and development of natural resources on the reservation. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 635 - Sustainable Communities Credits: 3
This course links the management of natural capital to other community-based actions around resource allocation and the impacts on quality of life. The literature on community-based natural resource management will be examined and alternative ways of valuing natural capital will be assessed. Contrasting theories of the role of natural capital in communities and human society will be linked to their implications for community sustainability in terms of economic vitality, social well-being, and ecosystem health.

CD 637 - Immigration and Communities Credits: 3
International migration has historically impacted rural and urban communities around the world. Taking a comparative approach, this course examines community-immigration interactions and how that influences community development and immigrant inclusion. Students will read and relate theories of immigrant and community change to case studies of immigrants and communities and gather primary data to assess the capacity of communities to include new international immigrants. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 638 - Community and Regional Economic Analysis II Credits: 3
Substantive grounding in the theories and practice of measuring community economic dynamics; build solid foundation skills for applied community economic analysis.

CD 641 - Leadership for Change Credits: 3
Course focus is on the role of leadership in community development and change, including situation leadership in the community development process, reviewing the effectiveness of different leadership styles, and relating leadership to community. Skills and processes that facilitate effective shared leadership, including facilitation, conflict resolution, use of participatory techniques, etc, are explained. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 642 - Grant Writing Credits: 3
The intricacies of grantsmanship provide the focus of this course. Topics covered will include identification of fund sources, procedures for proposal preparation, composition of grants, and the effects of organizational and personal linkages. Students will prepare a grant application based upon an RFP or to a continuous funding source (e.g. Kellogg Foundation, NW Foundation, or IDED). This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 643 - Nonprofit Management Credits: 3
Managing nonprofits including the role of nonprofit organizations in addressing various social problems. Focus will be on the growth of the nonprofit sector and its impact on the community as a source of citizen empowerment. Topics include individual giving and volunteering, board and executive leadership, government and nonprofit relationship, ethics and accountability, and issues and challenges in nonprofit management. This course is available only to graduate students registered in the Community Development specialization. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 644 - Participatory Action Research Methods Credits: 3
A graduate level course to develop participatory action research knowledge and skills through real-world applications. PAR is a method of collecting information by community members in collaboration with a researcher that respects, places community central to, and reflects the experiences and culture of the people most directly impacted by the issue under consideration. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 645 - Community Developer as Community Educator Credits: 3
A graduate level course on education strategies and tools for use in community development. This course will develop students' identities as community educators and provide knowledge on appropriate methodologies for working with adults in community settings, as well as develop their creativity and critical thinking skills. Students will engage in peer-to-peer teaching and critical analysis of community education activities. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 791 - Independent Study Credits: 1-3
CD 792 - Topics Credits: 3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

CD 794 - Internship Credits: 3
CD 795 - Practicum Credits: 3

CCE (Civil & Environmental Engineering)

CCE 511 - Asphalt Materials and Mix Design Credits: 3
Properties of aggregates and asphaltic materials related to asphalt mixes. Various types of asphalt pavements and mix design methods. Plant operations, construction methods and equipment used in the production of asphalt. Asphalt mix design and testing with an emphasis on Superpave mix design method. Introduction to recycling and sustainable asphalt pavement materials. Corequisites: CEE 511L.
Prerequisites: CEE 216L, CEE 363, and EM 321.

CCE 511L - Asphalt Materials and Mix Design Lab Credits: 0
Performance of standard tests on asphalt products and mixtures to determine various characteristics. Emphasis will be placed on professional communication and the interpretation of test results. Corequisites: CEE 511.

CCE 522 - Environmental Engineering Instrumentation Credits: 3
Development of an understanding of standard analytical methods for parameters commonly measured in liquid environmental systems. Corequisites: CEE 522L.

CCE 522L - Environmental Engineering Instrumentation Laboratory Credits: 0
Analysis of water and wastewater samples using environmental laboratory instrumentation. Development of laboratory skills in water and wastewater analysis.

CCE 523 - Municipal Water Distribution and Collection System Design Credits: 3
Design of municipal water distribution and collection systems utilizing modern design tools including the utilization of software to simulate system behavior in response to environmental changes.

CCE 524 - Industrial Waste Treatment Credits: 3
Characteristics and composition of industrial wastes, sampling and methods of analysis of these wastes and remedial measures for treatment and disposal.

CCE 535 - Water Resources Engineering Credits: 3
Topics related to water resources engineering including: multiple purpose river development, economic analysis of flood control measures, aspects of water law, advanced topics related to surface and ground water hydrology and administrative aspects of water resources planning. Prerequisites: CEE 225.

CCE 536 - Advanced Hydraulic Engineering Credits: 3
Advanced topics related to hydraulic engineering including: dimensional analysis, turbulence in open-channel flows, mechanics of sediment transport, coastal hydraulics and stream channel mechanics, hydraulic structures, unsteady flows, numerical and physical modeling. Prerequisites: EM 331.

CCE 538 - Environmental Fluid Mechanics Credits: 3
Develop a basic understanding of the physical processes in turbulent flows that are important to the transport and dispersion of contaminants and materials in surface waters. This course will introduce the analytical, computational, and experimental tools commonly used to solve environmental fluid mechanics problems. Topics covered include dynamics of turbulence, turbulent diffusion, shear flow dispersion, stratified flows and mixing in rivers and lakes. Prerequisites: EM 331.
CEE 543 - Matrix Analysis of Structures Credits: 3
Theory and application of matrix methods in structural analysis. Prerequisites: CEE 353.

CEE 546 - Advanced Geotechnical Engineering Credits: 3
Development of a fundamental understanding of engineering properties of soils and the factors controlling their magnitude and changes with time and environment. Development of why this knowledge is important and how it can be used in the solution of geotechnical and geoenvironmental problems. Prerequisites: CEE 346.

CEE 547 - Foundation Engineering (COM) Credits: 3
Application of the fundamental concepts of soil behavior to evaluation, selection, and design of shallow and deep foundation systems. Related topics such as temporary support systems for excavations and pile driving are also included. Prerequisites: CEE 346.

CEE 552 - Prestressed Concrete Credits: 3
Theory and design of prestressed concrete including pre-tensioning and post-tensioning. Prerequisites: CEE 456.

CEE 558 - Design of Timber Structures Credits: 3
Gravity and lateral loads, physical and mechanical properties of wood, properties of dimension lumber and glued laminated timber, design of beams and columns, properties of structural wood panels. Design of sheathing, diaphragms and shearwalls. Design of connections.

CEE 567 - Transportation Engineering Credits: 3
Engineering principles in various common modes of transportation. Prerequisites: CEE 363.

CEE 592 - Topics Credits: 1-3
CEE 691 - Independent Study Credits: 1-3

CEE 692 - Topics Credits: 1-3

CEE 702 - Advanced Civil and Environmental Engineering Credits: 1
Introduction to graduate study and professional communication skills required for further study in Civil and Environmental Engineering. Course may be repeated as needed to meet plan of study requirements.

CEE 720 - Water Treatment Plant Design Credits: 3
Water supply sources, design of treatment plants, cost estimates of water supply systems. Corequisites: CEE 720L. Prerequisites: CEE 323 or instructors consent.

CEE 720L - Water Treatment Plant Design Laboratory Credits: 0
Practical design problems in water treatment plant design.

CEE 725 - Biological Principles of Environmental Engineering Credits: 3
Ecology, energetics and kinetics of biochemical systems. Analysis and modeling of suspended growth and fixed film biological processes used in environmental engineering. Laboratory procedures for developing biokinetic data. Prerequisites: CEE 323 or instructors consent.

CEE 725L - Biological Principles of Environmental Engineering Lab Credits: 0

CEE 726 - Physical and Chemical Principles of Environmental Engineering Credits: 3
Fundamental concepts of fluid/particle interactions, process kinetics, and equilibrium chemistry applied to natural and engineered aquatic environmental systems. Coagulation, fluid/particle separation, oxidation/reduction, precipitation/dissolution, carbonate systems, absorption, ion exchange, and gas/liquid interfaces. Corequisites: CEE 726L. Prerequisites: CEE 323 or instructors consent.

CEE 726L - Physical and Chemical Principles of Environmental Engineering Laboratory Credits: 0

CEE 729 - Wastewater Treatment Plant Design Credits: 3
Design of waste collection and disposal facilities, waste treatment plants, cost estimates of waste disposal and treatment systems. Prerequisites: CEE 323. Graduate standing.

CEE 729L - Wastewater Treatment Plant Laboratory Credits: 0
Practical design problems in wastewater treatment plant design.

CEE 732 - Advanced Foundation Engineering Credits: 3
Advanced treatment of foundations and earth retaining structures. Bearing capacity, lateral resistance and settlement of deep foundations; earth pressures on sheet pile walls, braced excavations and buried pipes; numerical methods and computer use in design and analysis applications. Prerequisites: CEE 346.

CEE 733 - Topics in Water Resources Engineering Credits: 3
Topics related to water resources engineering including: Multiple purpose river development, economic analysis of flood control measures, aspects of water law, advanced topics related to surface and ground water hydrology and administrative of water resources planning. Notes: Course may be repeated.

CEE 749 - Geotechnical Testing Credits: 3

CEE 749L - Geotechnical Testing Lab Credits: 0

CEE 754 - Advanced Design of Steel Structures Credits: 3
Review of LRFD concepts and basic member design, fundamentals of ASD, column buckling, plate buckling, fundamentals of structural stability, frame stability and frame design. Design of plate girders, composite girders, bracing members and the basics of PR and FR connections. Prerequisites: CEE 455.

CEE 755 - Advanced Reinforced Concrete Design Credits: 3
Design of rigid frames, effect of plastic behavior, details for complex structures, analysis of flat plate and other two-way floor systems. Design comparisons. Prerequisites: CEE 456.

CEE 756 - Reinforced Masonry Design Credits: 3

CEE 759 - Structural Dynamics Credits: 3
Dynamic analysis of structural system with one and several degrees of freedom. Determination of natural frequencies. Analysis of free and forced vibration systems including damping. Introduction to earthquake engineering. Prerequisites: CEE 363.

CEE 765 - Pavement Design Credits: 3
Introduction to pavement types, wheel loads, stresses and strains in pavement components, material characterization, basic principles of design and pavement evaluation. Prerequisites: CEE 363.

CEE 769 - Bridge Design Credits: 3
Determination of bridge loadings and bearings. Design of concrete and steel bridge systems. Specifications and detailing related to bridge. Prerequisites: CEE 455, CEE 456.

CEE 788 - Master's Research Problems/Project Credits: 1-3

CEE 790 - Seminar Credits: 1

CEE 791 - Independent Study Credits: 1-3

CEE 792 - Topics Credits: 1-3

CEE 798 - Thesis Credits: 1-7

CEE 898D - Dissertation Credits: 1-12
CHEM 548 - Biophysical Chemistry Credits: 3
A study of the fundamental principles governing the physical chemistry of biological systems. Topics covered include the forces governing protein and nucleic acid stability, the thermodynamics of protein folding and protein-ligand interactions, bioenergetics, kinetics of biochemical reactions, biological membranes and membrane transport. The physical basis of protein purification, probing protein-ligand interactions, and the determination of macromolecular structure is also discussed. Prerequisites: CHEM 344 and CHEM 705.

CHEM 584 - Chemical Toxicology Credits: 3
Understanding of the principles of toxicity, including the molecular basis for toxicity and the environmental fate and transport of chemicals in the environment. Prerequisites: CHEM 360 or CHEM 464.

CHEM 691 - Independent Study Credits: 1-4
CHEM 701 - Advanced Organic Chemistry I Credits: 3
Review and discussion of nomenclature, stereochemistry, resonance theory, equilibria, elementary kinetics, intermediate and mechanisms. Chemistry of polymers, heterocyclics, and natural products. Prerequisites: CHEM 229, CHEM 328.

CHEM 703 - Advanced Physical Chemistry Credits: 3
A review of the principles and applications of physical chemistry. Topics such as thermochemistry, quantum mechanics, spectroscopy, kinetics, and electrochemistry considered. Prerequisites: CHEM 242 and MATH 123.

CHEM 704 - Advanced Inorganic Chemistry Credits: 3
Inorganic systems including theoretical, representative group and transition metal topics. Prerequisites: CHEM 242 and CHEM 452.

CHEM 705 - Principles of Biochemistry Credits: 2-5
Chemistry of biological processes occurring in plants and animals. Prerequisites: CHEM 464.

CHEM 706 - Advanced Analytical Chemistry Credits: 3
Theoretical treatment of principles involved in non-instrumental analytical chemistry including sampling and statistics. Prerequisites: CHEM 242 and CHEM 332.

CHEM 707 - Chemical Communication Skills Credits: 2
Searching chemical literature by traditional and computer assisted methods; techniques of written and oral communication of chemical information.

CHEM 711 - Chemical Education Research Credits: 2
Course will provide an introduction to the primary literature on research in chemical education. Students will survey the fundamental areas of focus such as learning theories, pedagogical methodology, assessment, and current topics of interest. Prerequisites: Instructor consent.

CHEM 713 - Qualitative Research Methods Credits: 2
A survey of theoretical traditions in qualitative methods for chemical education. Research will include methods of data collection, analysis, and reporting for each tradition. Emphasis will be placed on differences between qualitative and quantitative research methods in chemical education research. Prerequisites: Instructor consent.

CHEM 714 - Quantitative Research Methods Credits: 2
The course will include fundamental issues regarding the use of statistical analysis in chemical education research. Topics will include different quantitative strategies such as descriptive statistics, nonexperimental designs, single-subject designs, inferential statistics, and an introduction to current statistical program packages. Prerequisites: Instructor consent.

CHEM 715 - Chemistry Instruction in Higher Education Credits: 2
Instructional processes, learning theories, and issues specific to chemistry instruction in higher education. Topics including learning theory in the context of chemistry, lecture and laboratory settings, assessment strategies, demonstrations, and group work. Prerequisites: Instructor consent.

CHEM 722 - Synthesis of Natural Products Credits: 3
Synthetic strategies and pathways for the formation of natural products. Prerequisites: CHEM 328.

CHEM 724 - Structural Determination of Organic Compounds Credits: 3
Determination of the structure of organic compounds primarily by spectroscopic techniques. Corequisites: CHEM 724L. Prerequisites: CHEM 328.

CHEM 724L - Structural Determination of Organic Compounds Laboratory Credits: 0

CHEM 725 - Genetics of Human Disease (COM) Credits: 3
The course will cover advanced genetic concepts, classical and modern mammalian genetic techniques, and the underlying genetic bases of a variety of Mendelian and complex disorders. Students will gain an understanding of how genetic abnormalities result in and contribute to human disease.

CHEM 731 - Advanced Environmental Chemistry Credits: 3
In-depth treatment of the principles of the environmental chemistry and geochemistry of the atmospheric, aquatic and lithospheric environments. Prerequisites: CHEM 342, instructor consent.

CHEM 733 - Atmospheric Chemistry Credits: 3
Structure and functions of the atmosphere; principles of atmospheric chemical processes; chemical reactions and fate of pollutants in the atmospheric environment. Prerequisites: CHEM 342.

CHEM 739 - Chromatography and Separation Credits: 3
Theory and practice of solvent extraction and paper, thin layer, gas and liquid chromatographic techniques. Prerequisites: CHEM 232.

CHEM 740 - Analytical Spectroscopy Credits: 3
In-depth treatment of the quantitative applications and theory of modern spectroscopy techniques including atomic absorption, emission, and fluorescence; molecular absorption and fluorescence; and X-ray spectroscopy. Prerequisites: CHEM 434.

CHEM 760 - Laboratory Rotations in Biochemistry Credits: 1-2
Investigative laboratory experiences for doctoral students in biochemistry, as supervised by faculty members participating in the Biochemistry PhD.

CHEM 762 - Molecular Mechanisms of Disease Credits: 3
Advanced course covering current topics in human disease mechanisms. Course topics include disorders associated with defects in lipid metabolism, nucleotide metabolism, metal metabolism, and organelle function, as well as signaling mechanisms underlying rare and complex diseases. The course applies fundamental biochemical and cell biological concepts to human disease. Corequisites: Instructor consent.

CHEM 766 - Biochemistry II Credits: 3
Study of the metabolism of amino acids, proteins, nucleotides and nucleic acids. Includes some aspects of enzymology and the mechanism of intra and intercellular communication. Prerequisites: CHEM 705.

CHEM 770 - Atomic Theory & Bonding Credits: 3
This course will examine topics in atomic theory including wave-particle duality, wavefunctions, atomic spectra, quantum numbers, and the relationship between electronic structure and the periodic table. These topics will provide a foundation to explain molecular bonding. Topics of molecular bonding will include ionic and covalent bonding, electronegativity, polarizability, valence-shell-electron-pair-repulsion (VSEPR), valence-bond theory, and molecular orbitals. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.

CHEM 771 - Intermolecular Interactions & Phases of Matter Credits: 3
This course will examine the impact on a variety of physical properties made by attractive forces between molecules, atoms, and ions. Topics will include explaining the existence and predicting the strengths of intermolecular interactions, predicting physical properties such as viscosity, boiling points, and melting points based on the presence of intermolecular forces, and the impact of intermolecular interactions on phases of matter. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.
CHEM 772 - Thermodynamics Credits: 3
This course will focus on the relationship between energy, entropy, and the progress of chemical reactions. Major topics will include the relationship between heat and chemical reactions, calorimetry, reaction enthalpy, standard enthalpy, entropy, and free energy. An emphasis will be made on the mathematical techniques used to calculate these relationships and on how these concepts explain chemical behavior. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.

CHEM 773 - Equilibria & Acid-Base Chemistry Credits: 3
This course will examine the reversibility of chemical reactions. The concept of dynamic equilibria will be studied and the law of mass action used to quantify the condition of equilibrium. Students will be able to predict the extent and direction of a chemical reaction and quantify species at equilibrium. Le Chatelier's principle will be used to study the impact different factors on the equilibrium status of a chemical reaction. Topics in acid/base chemistry will be used to further explain equilibria processes. Additionally, Bronsted-Lowry and Lewis theories, molecular structure relationships to acid/base behavior, weak acid/base behavior, the acidic/basic behavior of salts, titration, and buffer solutions will be discussed. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.

CHEM 774 - Kinetics, Nuclear, & Electrochemistry Credits: 3
This course will focus on three important topics in chemistry: kinetics, nuclear, and electrochemistry. Students will utilize mathematical methods to study the speed of chemical reactions including average and instantaneous rates of reaction, rate laws, the law of initial methods, and integrated rate laws. Additionally, discussion of changes within the nucleus of an atom resulting in the alteration of that atom will occur by identifying fundamental processes of nuclear chemistry. Biological effects related to nuclear reactions will also be discussed both qualitatively and quantitatively. Finally, this course will focus on oxidation/reduction reactions as students manipulate redox reactions by balancing chemical reactions, predicting spontaneity of redox reactions, and explaining the function of volcaic cells. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.

CHEM 775 - Organic & Biochemistry Credits: 3
This course will focus on topics in organic and biochemistry that provide a basis for future instruction in these content areas. Topics in organic chemistry will include nomenclature, functional groups, and basic organic reactions and mechanisms. Biochemistry topics will include nomenclature and structures of simple molecules including carbohydrates, proteins, and nucleic acids. Student participation in discussions will lead to enhanced pedagogical skills for the secondary science teacher. Prerequisites: Instructor consent.

CHEM 776 - Laboratory Development Credits: 3
This course will focus on the development of laboratory strategies for the secondary chemistry classroom. Students will receive guided instruction in laboratory development techniques from content experts. The outcome of the course will be the development of several new laboratory exercises which will be shared among participants. Prerequisites: Instructor consent.

CHEM 777 - Action Research in the Secondary Classroom Credits: 2
This course will engage science instructors in processes used to assess the efficacy of using specific strategies for teaching in the classroom. The methodology for conducting educational research in the classroom will be the initial focus. One outcome of the course will be the inception of a project that could be implemented by the science instructor to investigate the use of a new teaching strategy in the classroom. Prerequisites: Instructor consent.

CHEM 778 - Chemistry Teaching Strategies Credits: 3
This course will focus on pedagogical and curricular strategies and the educational research which supports using these methods. The incorporation of pedagogical methods into science classrooms as modifications for or enhancement of traditional instruction will be the goal for participants. Additionally the development of integrated curricula which use multiple content areas will be discussed. Pedagogical and curricular strategies developed during the course will be peer-evaluated and tested in individual classrooms. Prerequisites: Instructor consent.

CHEM 779 - Research Problems in the Chemistry Classroom Credits: 1-2
This capstone course will involve the application of the project conceived of during CHEM 616. Students will be expected to design, implement, and assess the outcomes of the project in their classroom. Results from this work will be summarized and defended in an oral exam format. Prerequisites: Instructor consent and CHEM 776.

CHEM 790 - Seminar Credits: 1
CHEM 792 - Topics Credits: 1-6
CHEM 798 - Thesis Credits: 1-7
CHEM 898D - Dissertation - Ph.D. Credits: 1-12

CHRD (Counseling & Human Resource Development)

CHRD 571 - Gerontology Issues in Counseling Credits: 3
This course is designed to familiarize helping professionals with psychological aspects of the aging process. Students will gain skills in establishing rapport and interacting in a professional, caring manner with older adults and learn about appropriate resources and techniques to assist older clients.

CHRD 585 - Careers in Counseling and Student Affairs Credits: 3
This course is designed for students who are considering a career in counseling or student affairs. Students will be required to demonstrate an understanding of the various facets of the profession through a variety of individual and small group activities.

CHRD 601 - Introduction to Professional Issues and Ethics Credits: 1
This course provides an introduction and orientation to the counseling profession with a focus on ethics. More specifically, ethical standards of ACA and other related specialty areas will be covered along with the use of ethical decision-making models.

CHRD 602 - Research and Evaluation in Counseling and Human Development Credits: 3
The course explores various research designs and methodologies applicable to the field of counseling. The course will emphasize qualitative and quantitative research, critical evaluation of research reports, the use of internet databases for writing a research paper, a thorough understanding of APA format. Cross-Listed: HDFS 602.

CHRD 610 - Developmental Issues in Counseling Credits: 3
Provides an understanding of the developmental needs of humans across the life span and adolescents and appropriate intervention methods to be used in counseling.

CHRD 661 - Theories of Counseling Credits: 3
This course takes a practice-based approach to teaching students counseling theory. The course focuses on several major theories, such as Adlerian, Person-Centered, Cognitive-Behavioral, and Family Systems theories. Students are encouraged to understand the utility of theory-based practice. Course work involves applying theory to case studies and developing treatment plans based on the tenets and techniques of the theories studied.

CHRD 690 - Seminar Credits: 3
CHRD 691 - Independent Study Credits: 1-3
CHRD 692 - Topics Credits: 1-3
CHRD 693 - Workshop Credits: 1-3
CHRD 701 - Professional Issues and Ethics II Credits: 1
This course serves as an advanced view of the ethical standards of ACA and other related specialty areas. Application of the code and an ethical decision-making model is expected. Prerequisites: Consent.

Students are advised to check for most current course descriptions at http://catalog.sdstate.edu/. For x9x common course descriptions (for example: 590, 690, 591, & 692) see page 158.
CHRD 702 - Advanced Human Sexuality Credits: 3
Clinical, scientific, and philosophical studies of human sexuality. Emphasis on contemporary research and insights into human sexual experience, behavior, and social/cultural values and beliefs about sexuality throughout the lifespan. Topics will include sexual and psychosocial development, sexual health and disease, sexual variations, and sexual dysfunction and therapy.

CHRD 705 - Motivational Interviewing & Behavior Change Coaching Credits: 3
This course is intended to provide a comprehensive study of the change process as enhanced through Motivational Interviewing. An emphasis will be placed on these concepts as they apply to behavioral changes in various areas including healthy eating, obesity, disordered eating, etc.

CHRD 706 - Play Therapy: Models and HST Credits: 2
The evolution of the field of play therapy is explored. Major theoretical approaches of play therapy explored as well as nature of theory related to techniques, assessment, and treatment. Designed for those who have completed a theory course in their respective degree area.

CHRD 707 - Play Therapy: Skills and Techniques Credits: 2
Play materials and tools are introduced. The counseling relationship, skills, and utilization of play media to facilitate expression, self-understanding and personal growth/development. Observation of and supervisory experience in play therapy is a part of this course.

CHRD 708 - Play Therapy: Filial and Family Credits: 1
This course focuses on working with and training parents and caregivers to be therapeutic agents in their children's lives through the utilization of play therapy skills in parent-child structured play sessions.

CHRD 709 - Applications of Play Therapy Credits: 2
Students are required to demonstrate proficiency in play therapy principles and practices. Students engage in advanced study of play therapy, including theories, application of skills, parent consultation. Group play therapy will be examined and reviewed.

CHRD 713 - Administration and Management of Mental Health Organizations Credits: 3
Developing and managing a comprehensive counseling program in agencies. Emphasis on the planning process, management, budgeting, organizational structure, supervision, evaluation and consultation.

CHRD 716 - Human Resources Management in Business and Industry Credits: 3
This course will focus on the human factors affecting the workplace. Specific topics to be covered will include employee assistance programs, wellness programs, management training, conflict resolution, and career planning.

CHRD 721 - School Counseling Credits: 3
A study of the role and function of a K-12 school counselor including individual counseling, small group counseling, classroom guidance, and consultation with parents, teachers, administrators.

CHRD 722 - Administration and Management of School Counseling Programs Credits: 3
Developing and managing a comprehensive counseling program in a school setting. Emphasis on the planning process, management, budgeting, organizational structure, supervision, evaluation and consultation.

CHRD 723 - Counseling the Family Credits: 3
Counseling the Family is a course which describes the major systems of family therapy and the resulting impact upon the counseling process. An inter-psycho, systematic framework will be formulated as a supplemental way to view familial problems and promote change.

CHRD 725 - Couples and Advanced Family Counseling Credits: 3
This course is designed to help students increase their theoretical and practical knowledge, along with skill development in working with couples and families. Treating couples and families from an ecological systems context (i.e. community, social, cultural, economic, etc.) with specific attention on current issues including gender, race, ethnicity, sexuality, family patterns, and economic conditions.

CHRD 728 - Child and Adolescent Counseling Credits: 2
This course is intended to provide a comprehensive study of therapeutic approaches and techniques applicable for use with children and adolescents in a counseling setting. Emphases will be placed on developmental problems, creative interventions, crisis management, exceptional children, and collaboration with the community, family, and school systems.

CHRD 731 - Multicultural Counseling and Human Relations Credits: 3
This course aims to provide an understanding of the cultural context of relationships, issues and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical characteristics, education, family values, religious and spiritual values, socioeconomic status and unique characteristics of individuals, couples, families, ethnic groups, and communities.

CHRD 736 - Appraisal of the Individual Credits: 3
Assessment methods used in studying individuals. Standardized instruments, self-report inventories, observation, case study techniques and other non-standardized assessment tools are used. Recording, analyzing, compiling and interpreting data for use in counseling setting.

CHRD 742 - Career Counseling and Planning Credits: 3
Examination of the career development and counseling process through the life span. Assist those intending to counsel at elementary, secondary, higher education and the community/workplace. Explores strategies and resources for career/life planning. Various interest inventories and personality assessment methods are used.

CHRD 751 - Overview of Rehabilitation and Mental Health Counseling Credits: 3
Provides an orientation to the field of rehabilitation and mental health counseling. Includes historical antecedents, philosophical and traditional connections with the field of rehabilitation counseling, assessment, planning and service delivery methods for those intending to work in rehabilitation focused programs serving persons with psychiatric disabilities.

CHRD 752 - Medical and Psychological Aspects of Disability Credits: 3
 Provides instruction in the causes and processes of medical diseases and conditions that result in severe and persistent disability. Basic anatomy, physiology, and central nervous system functions will be reviewed. The course will explore the relationship between physical and psychiatric processes. Individual and family adjustment to disability will be covered. Students will be oriented to current approaches and concepts in prosthetics, assistive technology, medication, and wellness.

CHRD 753 - Case Management Principles and Plan Development Credits: 3
Covers practice and provides methods for managing cases and making caseload management decisions. Principles and practice in areas covered include intake interview; medical, psychological, and vocational evaluation, career and lifestyle alternatives, plan development, transitions, placement, and community integration. The course will also provide instruction in writing professional case reports, proposals, and progress notes. Time and work flow management strategies will be examined.

CHRD 755 - Clinical Diagnosis and Treatment Planning Credits: 4
This course is designed to introduce students to the DSM-IV and to help develop their diagnostic and treatment planning skills. Students will focus on particular disorders and how to effectively treat those disorders in clinical and school settings. Among the disorders and treatment plans that will be covered in class are: depressive disorders, anxiety disorders, substance abuse disorders, schizophrenia, disorders first diagnosed in infancy, childhood and adolescence, as well as personality disorders.

CHRD 756 - Counseling the Addictive Client Credits: 3
Counseling the addictive client is a course which describes how one can identify and treat addictive behaviors. Emphasis is on preventive and remedial action.

CHRD 766 - Group Counseling Credits: 3
Processes and procedures used in small group counseling. Students participate in group counseling, facilitate in-class counseling sessions and develop structured units for specific populations. Prerequisites: CHRD 601, CHRD 610, CHRD 661 and EDER 760 or CHRD 602.
CHRD 770 - Student Development: Theory and Practice Credits: 3
This course introduces various theories of college student development and includes attention to developmental issues of special populations, such as minority students, international students, and nontraditional students. Research in several areas of student affairs work is emphasized.

CHRD 771 - Student Personnel Services Credits: 3
Two basic orientations provide the framework for this course: understanding the transition from theory to practice, and becoming a reflective, ethical practitioner. Students will gain a broad knowledge of student affairs functions as well as a good overview of current issues in higher education.

CHRD 772 - Administration and Leadership in Student Affairs Credits: 3
This course provides an overview of administrative and leadership practice in the student affairs profession. The course will emphasize historical foundations of the profession and will utilize these foundations in understanding current practice. Students will gain broad knowledge about the role and function of student affairs functions in a variety of higher education settings. Cross-Listed: AHED 772.

CHRD 785 - Pre-Practicum Credits: 3
This course provides an introduction to basic therapeutic skills and structures compatible with a wide range of theoretical approaches. Students learn to conduct counseling interviews in order to successfully identify clients' conflicts, determine clients' desire for change, explore options and assist client action. This course serves as a foundation of CHRD 786 Counseling Practicum. Prerequisites: CHRD 601, CHRD 610, CHRD 661 and EDER 760 or CHRD 602.

CHRD 786 - Counseling Practicum Credits: 3-5
This course builds on the basic counseling skills learned in CHRD 785 Pre-Practicum and preferably directly follows that course in students' course work. In addition to enhancing basic counseling skills, this course is designed to help students integrate theory and practice. As part of their course work, students are asked to develop theory-based conceptualizations of client concerns. The faculty reserve the right to deny admission to CHRD 786 if they have reason to suspect a student might be unable to provide quality counseling services to clients. A minimum of 20 semester credit hours, including, CHRD 601, 602, 610, 661, 766, and 785, with a grade of B or better in 766 and 785. Retakes limited to two retakes. Prerequisites: CHRD 601 and CHRD 602 or CHRD 610, CHRD 661 and EDER 760.

CHRD 788 - Research Problems in Counseling and Guidance Credits: 1-3
A problem is selected, analyzed, and reported in a form approved by the research advisor. Required of all graduate students in counseling qualifying for Master's degree under Option B. Can be elected under Option C if desired.

CHRD 791 - Independent Study Credits: 1-3
CHRD 794 – Internship Credits: 2-6
CHRD 798 - Thesis Credits: 1-6

CJUS (Criminal Justice)

CJUS 516 - Drugs and Society Credits: 3
The course will examine explanations of drug use and the social construction of drug policies. Students will discuss the methods used to study patterns of drug use and theories of drug abuse and take an in-depth look at the histories, pharmacologies, and patterns associated with the most popular drugs. Students will study the social control of drugs, the connections between drugs and crime, and the causes and consequences of modern U.S. international drug policies. Cross-Listed: SOC 516.

CJUS 591 - Independent Study Credits: 1-3
CJUS 592 - Topics Credits: 3

CM (Construction Management)

CM 543 - Construction Planning and Scheduling Credits: 3
Planning and scheduling construction projects. Both manual methods and computer programs will be used to schedule activities, control cost and manage resources. Prerequisites: CM 232 or Instructor permission.

CM 560 - Sustainable Building Systems Concepts and Analysis Credits: 3
The analysis of energy efficient and environmentally responsible building design and construction. Material selection, energy, and climate analysis, and practical applications of new technology will be covered.

CM 573 - Construction Law and Accounting Credits: 3
The study of the application of legal, contractual, and generally accepted accounting principles to the construction industry. Prerequisites: ACCT 210.

CM 585 - Site Development and Feasibility Analysis Credits: 3
Tools and techniques used to evaluate the cost of new site development; risk assessment and market feasibility analysis for properties to be acquired for economic development. Corequisites: CM 585L.

CM 585L - Site Development and Feasibility Analysis Lab Credits: 0
Lab to accompany CM 585. Corequisites: CM 585.

CSC (Computer Science)

CSC 533 - Computer Graphics Credits: 3
Principles of computer graphics. A study of the algorithms used to generate raster and vector graphics. Prerequisites: CSC 285, MATH 215 and MATH 125.

CSC 547 - Artificial Intelligence Credits: 3
Introduction to ideas, issues and applications of Artificial Intelligence. Knowledge representation, problem solving, search, inference techniques, theorem proving. Expert systems. Artificial intelligence programming languages. Prerequisites: CSC 290.

CSC 574 - Computer Networks Credits: 3
Analysis of current and future computer networks with emphasis on the OSI model. Local and wide area networks. TCP/IP, SNA, token ring, ethernet and other common networks will be covered. Protocol and interfaces within and across networks including the OSI layers, routers, bridges and gateway. Prerequisites: CSC 300 or CSC 600.

CSC 587 - Network Security Credits: 3
An introduction to cryptography and its application to network and operating system security; security threats, applications of cryptography, secret key and public key cryptographic algorithms, hash functions, basic number theory, authentication, and security for electronic mail. Prerequisites: "C" or better in CSC 300.

CSC 592 - Topics Credits: 1-3

CSC 600 - Accelerated Computer Science Fundamentals Credits: 3
This course teaches the fundamental and advanced techniques of graduate computer programming using C++. The C++ language is used for this course because it is the standard language used for most graduate courses. In this course, students will learn how to write efficient and reliable code through advanced programming techniques.

CSC 630 - Principles Data Base System Design Credits: 3

CSC 705 - Design and Analysis of Computer Algorithms (COM) Credits: 3
Design and analysis of algorithms to determine their time and space requirements. The study of efficient algorithms for various computational problems. Analysis of specific algorithms for internal sorting, hashing, and string search. Sorting manipulation of data structures, graphs, matrix multiplication, the Fast Fourier Transform, arithmetical operations and pattern matching. Study and implication of advanced topics on lists, stacks, trees, sets and dynamic allocation. Prerequisites: CSC 300.

CSC 710 - Structure and Design of Programming Languages Credits: 3
CSC 720 - Theory of Computation Credits: 3
Formal models of computation. Recursive function theory, computable functions, decidable and enumerable sets, unsolvable programs, correctness of programs, undecidability and incompleteness and complexity of computation. Prerequisites: CSC 445.

CSC 740 - Computer Information Systems Credits: 3
Computer appreciation course providing technical background for understanding and raising issues treated in other courses. Structure and operation of computer systems. Hardware technology and software development. Tools and methods for developing computer applications. Structure and components of Management Information Systems. Using the computer to support operations of management in planning and control and decision making. MIS development, organization, management and evaluation. Acquiring computer resources. The computer industry and profession. Prerequisites: CSC 325.

CSC 750 - Recent Advances in Parallel Process Credits: 3

CSC 770 - Software Engineering Management Credits: 3
Management issues arise in the development of software systems. The topics include planning documentation for requirements, design, implementation and testing, cost projection and modeling, documentation standards, code control, tracking of defects management psychology, group interaction and communication, and the management of reviews and walkthroughs. Prerequisites: CSC 470 or instructor consent.

CSC 788 - Master's Research Problems/Project Credits: 1-2

CSC 790 - Seminar Credits: 1-3

CSC 791 - Independent Study Credits: 1-3

CSC 792 - Topics Credits: 1-3

CSC 798 - Thesis Credits: 1-7

CSS (Computational Science & Statistics)

CSS 890 - Seminar in Computational Science and Statistics Credits: 1

CSS 891 - Independent Study Credits: 1-3

DS (Dairy Science)

DS 500 - Dairy Chemistry and Analysis Credits: 5
An examination of the physical and chemical properties of milk constituents and their effects on processing, testing, and nutritive value of milk and its' products. The role of intentional or accidental additives including impacts, effects and significance. An examination of laboratory protocols utilized in compositional analysis of milk and milk derived products as they relate to procurement, process control and regulatory compliance. Corequisites: DS 500L. Prerequisites: DS 130, CHEM 106 or CHEM 112, and CHEM 108 (or concurrently). Notes: Fall.

DS 500L - Dairy Chemistry and Analysis Lab Credits: 0
Corequisites: DS 500. Notes: Fall.

DS 513 - Physiology of Lactation Credits: 3
Anatomy, physiology, and biochemistry of mammary glands. Factors affecting quality and quantity of milk. Prerequisites: VET 223 or equivalent. Notes: Even spring.

DS 542 - Dairy Product and Process Development Credits: 3
Students will work in small groups to design and produce a prototype dairy product. The course will include standards of identity for dairy products, nutritional labeling requirements, least cost formulation, design of manufacturing processes and methods for planning product development. Prerequisites: DS 500. Notes: Odd spring.

DS 580 - Dairy Farm Operations I Credits: 4
The first course in a two-semester sequence course addressing dairy herd management practices. Dairy farm capital, budgets and credit; factors affecting economic returns of dairy farming; nutrition and feeding of lactating dairy cattle; and nutritional implications related to herd replacements. Corequisites: DS 580L. Prerequisites: AS 219, DS 130-130L, and ECON 201 or ECON 202. Notes: Odd Fall.

DS 580L - Dairy Farm Operations I Lab Credits: 0
Corequisites: DS 580.

DS 581 - Dairy Farm Operations II Credits: 4
The second semester of a two-semester sequence course addressing dairy herd management practices. Production testing and records interpretation; impacts of cropping systems and commodity markets; labor requirements and Human Resources implications; building and equipment requirements; animal health and reproduction; merchandising of cattle and milk; and factors affecting economic returns of dairy farming. Corequisites: DS 581L. Prerequisites: DS 130-130L, DS 580, and ECON 201 or ECON 202. Notes: Even Spring.

DS 581L - Dairy Farm Operations II Lab Credits: 0
Corequisites: DS 581L. Notes: Spring.

DS 711 - Ruminology Credits: 3
Biochemical, physiological, and microbiological activity occurring in the rumen and the relation of rumen function to animal response. Prerequisites: CHEM 464 and VET 223 or instructor consent. Cross-Listed: AS 711. Notes: Odd Fall.

DS 722 - Advanced Dairy and Food Microbiology Credits: 3
Emerging concepts in dairy microbiology related to food preservation, microbial detection techniques, molecular aspects of lactic acid bacteria and applications as probiotics, bacterial pathogenesis, and food safety management systems. Prerequisites: DS 301 or MICR 311 or instructor consent. Notes: Even Spring.

DS 731 - Laboratory Techniques in Dairy Science Credits: 3
Research design, laboratory techniques, and data management and presentation in Dairy Science. Laboratory procedures include photometry, gas chromatography, and microbiological (aerobic and anaerobic) assays. Notes: Even Fall.

DS 790 - Seminar Credits: 1-3
Notes: Spring.

DS 791 - Independent Study Credits: 1-4

DS 792 - Topics Credits: 1-4

DS 798 - Thesis Credits: 1-10

DS 898D - Dissertation - PhD Credits: 1-12

DSCI (Decision Science)

DSCI 553 - Risk Management - Personal and Business Credits: 3
Applications of risk modelling and evaluation skills to personal or business project management. Topics include risk initiation, identification, assessment, and response planning. Cross-Listed: ECON 553.

DSCI 590 - Seminar Credits: 1-3

DSCI 591 - Independent Study Credits: 1-3

DSCI 592 - Topics Credits: 1-4

DSCI 594 - Internship Credits: 1-6

DSCI 596 - Field Experience Credits: 1-3

DSCI 660 - Advanced Business Decision Science Credits: 3
The application of quantitative methods to business management and complex strategic and tactical decisions. Applications of mathematical modelling, regression, simulations, & other tools of analysis to business decisions. Prerequisites: BADM 360, ECON 301 and STAT 281. Cross-Listed: ECON 660.
DSCI 788 - Master's Research Problems/Projects Credits: 1-3
DSCI 792 - Topics Credits: 1-4

DSC (Design)

DSC 599 - Professional Development Credits: 1
Course taken co-requisite with professional employment (non-academic internship).

ECE (Early Childhood Education)

ECE 591 - Independent Study Credits: 1-3
ECE 592 - Topics Credits: 1-3
ECE 645 - Contemporary Perspectives in Early Childhood Education Credits: 3
The course is designed to present contemporary perspectives in the field of early childhood education. Current influences from Dewey to Reggio Emilia on curriculum development and assessment and teaching and learning will be explored.
ECE 676 - Early Childhood Educational Administration and Practices Credits: 1-4
ECE 711 - Developmental Theory and Application Credits: 3
In-depth study of human development. Emphasis upon current theories and their application to an understanding of the developmental growth processes; relationship between cognitive, social, physical and emotional development and behavior; range of normality in growth and behavior. Focus on normal development but with consideration of impact of deviation from normative development on child, family, neighborhood.
ECE 715 - Cognitive Development Credits: 3
This course will focus on the study of human growth and development across the lifespan. Topics include historical and modern views of human development, neurobiological, cognitive and socio-emotional processes and periods of development from conception through adulthood and theories of development.
ECE 788 - Individual Research and Study Credits: 1-7
ECE 791 - Independent Study Credits: 1-3
ECE 792 - Topics Credits: 1-3
ECE 794 - Internship Credits: 1-7
ECE 795 - Practicum Credits: 1-6
ECE 798 - Thesis Credits: 1-7

ECON (Economics)

ECON 531 - Managerial Economics Credits: 3
Applications of microeconomic theory, statistics and other quantitative methods to analysis and solution of decision making problems confronted by managers of agribusiness, commercial and manufacturing enterprises. Topics include economic analysis of demand, production, cost, market structure, government regulation, risk, and capital budgeting. Prerequisites: ECON 201 and STAT 281. Cross-Listed: MGMT 531.
ECON 533 - Public Finance (COM) Credits: 3
Public Finance covers the role of government in the United States economy. The necessity of government in a market economy, optimality in government expenditures and taxation, and a survey of patterns and trends of governmental economic activity are discussed.
ECON 540 - Economics of the International Sector Credits: 3
International flow of trade and balance of payments. Monetary and fiscal policies. Trade controls and their effect upon the agricultural and domestic economies. Significant current developments in trade and finance. Prerequisites: ECON 201, 202, and ECON 301 or 302 or 330.
ECON 550 - Industrial Organization Credits: 3
Industrial organization studies how different industry structures influence firm performance and business practices, and how government policies affect competitiveness and the economy.
ECON 553 - Risk Management - Personal and Business Credits: 3
Applications of risk modelling and evaluation skills to personal or business project management. Topics include risk initiation, identification, assessment, and response planning. Cross-Listed: DSCI 553.
ECON 560 - Economic Development Credits: 3
Developing and developed national economies. Factors impacting economic development. Role of public policies in development. Agricultural and rural development issues emphasized.
ECON 572 - Resource and Environmental Economics Credits: 3
Resource and environmental economics surveys the allocation and conservation of natural resources from a perspective of optimal use and sustainability. Emphasis is placed on environmental economics including the problems of pollution, population, and economic growth. Methods for evaluating projects and programs are considered.
ECON 576 - Marketing Research Credits: 3
This course provides an in-depth study of the primary methodologies of marketing research. Emphasis is placed on collecting, analyzing, interpreting and presenting information for the purpose of reducing uncertainty surrounding marketing and management decisions. Cross-Listed: MKTG 576.
ECON 591 - Independent Study Credits: 1-3
ECON 592 - Topics Credits: 1-4
ECON 593 - Workshop Credits: 1-3
ECON 610 - Financial Management Credits: 3
Advanced techniques for managing working capital, capital budgeting, analysis of financial structure and cost of capital, valuation, financial planning and control. Prerequisites: FIN 310, STAT 281, or instructor consent. Cross-Listed: FIN 610.
ECON 660 - Advanced Business Decision Science Credits: 3
The application of quantitative methods to business management and complex strategic and tactical decisions. Applications of mathematical modelling, regression, simulations, & other tools of analysis to business decisions. Prerequisites: MGMT 360, ECON 301 and STAT 281. Cross-Listed: DSCI 660.
ECON 662 - Bioenergy Economics Credits: 3
This course will provide an understanding of the economic issues relating to overall supply chains producing bioenergy and bio-based products. The course will address the economic, sustainability and social dimensions of these industries. Participants will gain an understanding of triple bottom line objectives, life cycle analysis and the principles of feasibility analysis. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.
ECON 663 - Bio-Energy Feasibility and Commercialization Credits: 3
This course will introduce the student to the concepts involved in feasibility and commercialization of bio-fuel and bio-based projects. Participants will gain an understanding of issues and processes in moving a project from pilot scale into commercialization. Prerequisites: ECON 201. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.
ECON 672 - Bioenergy & Resource Economics Credits: 3
Bioenergy and Resource Economics surveys the allocation and conservation of natural resources from a perspective of optimal use and sustainability. Emphasis is placed on the tradeoffs and issues related to the production of biomass and development of the biofuels market including resource allocation, valuation methodology, economic growth, and market development. Prerequisites: ECON 201, MATH 121 or MATH 123. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.
ECON 691 - Independent Study Credits: 1-3

ECON 692 - Topics Credits: 1-4

ECON 703 - Advanced Macroeconomics Credits: 3
Advanced Macroeconomics studies the economy as a whole. The course investigates the sources of long-run economic growth and short-run aggregate shocks. Some of the models examined include Solow, Infinite Horizon, Overlapping Generations, New Growth, and Real Business Cycle. Also, theories of incomplete nominal adjustment, rational expectations, unemployment and inflation, and monetary and fiscal policies are studied. Prerequisites: ECON 428 or instructor consent.

ECON 704 - Advanced Microeconomics Credits: 3
Rigorous analysis of topics in microeconomics including: methodology of economic science, economic choice, production, resource allocation, distribution, welfare economics, and general equilibrium. Prerequisites: ECON 428 or instructor consent.

ECON 705 - Econometrics Credits: 3
Practice in the application of micro- and macroeconomic theory to solutions of real and hypothetical problems. Selection and use of appropriate statistical and other analytical methods suitable for complex problems. Prerequisites: ECON 423 and ECON 428.

ECON 707 - Research Methodology in Applied Economics Credits: 1-3
Planning and conducting empirical research in applied economics. The organization of research, philosophy and the aim of science and research. Research project proposal and presentation are required.

ECON 713 - Monetary Theory and Practice: The American Experience Credits: 3
Examine how the money supply and other nominal economic variables, including inflation rates and nominal interest and exchange rates, relate to real economic variables, including real output, income, and employment. Examine this relationship theoretically, empirically, and in the context of the US experience from 1913 to the present.

ECON 740 - Investment Science Credits: 3
The course will apply econometrics, advanced statistics, and differential calculus to the process of stock analysis and pricing, portfolio composition, options pricing, and risk management. Its focus is on minimizing risk while seeking a target rate of return. Cross-Listed: FIN 740.

ECON 788 - Master's Research Problems/Projects Credits: 1-2

ECON 792 - Topics Credits: 1-4

ECON 798 - Thesis Credits: 1-7

EDAD (Educational Administration)

EDAD 705 - Introduction to School Administration Credits: 3
A broad overview of administration. Will examine administration as an applied science and analyze the organizational, political, and human relations systems as forces affecting administration. Specific topics will include conflict resolution, crisis management, planning, staff development, evaluation, and communications theory.

EDAD 706 - Supervision Credits: 3
A study of leadership styles and the effects different styles have on motivating people. Emphasis on utilizing and developing human potential.

EDAD 707 - The Principalship Credits: 2
Emphasis is on the principal as an instructional leader with major topics focusing on staff recruitment, supervision and evaluation, student services, rights and responsibilities, research on effective schools, parent community relationships and the principal's role in dealing with current issues facing our schools. Corequisites: EDAD 709.

EDAD 708 - Elementary Principalship Practicum Credits: 1

EDAD 709 - Secondary Principalship Practicum Credits: 1

EDAD 731 - School Finance Credits: 2
Develop an understanding and working knowledge of school finance theory and practice. Prerequisites: Emphasis will be placed on the school finance reform movement in recent years.

EDAD 736 - Educational Law and Legislation Credits: 3
Legal foundations of elementary and secondary education in our society; legal powers and relationships of school boards, administrators, teachers, parents (guardians) and students. Emphasis will be placed upon the values underlying these foundations, powers and relationships.

EDAD 741 - Community and Public Relations Credits: 3
Maintaining working relations between school and community from the perspective of the building administrator. Includes working with community organizations and public relations. This course is a prerequisite or corequisite for EDAD 794, Internship.

EDAD 790 - Seminar Credits: 1-3

EDAD 791 - Independent Study Credits: 1-3

EDAD 792 - Topics Credits: 1-3

EDAD 794 - Internship Credits: 1-6
Prerequisites: EDAD 707, EDAD 706, EDAD 741 or concurrent.

EDER (Education Evaluation & Research)

EDER 610 - Introduction to Research Credits: 3
Determining research focus; developing research problems and objectives; reviewing the literature and establishing a theoretical framework; establishing procedures for data collection and analysis; ethical issues.

EDER 612 - Inquiry and Action Research Credits: 3
This course will focus on research design relative to inquiry practices in P-12 classrooms. Primary emphasis will be placed on design, delivery, and analysis of action research in educational settings. Students will complete small scale research projects in their internship sites using this model of educational research.

EDER 614 - Advanced Educational Research Design and Analysis Credits: 3
This course will focus on research design, delivery and analysis in education. Primary emphasis will be placed on survey design, delivery, and analysis, qualitative design, interviewing, transcription and analysis, and classical experimental design and execution in educational settings. Students will draft research publications utilizing journal requirements and prepare them for submission.

EDER 691 - Independent Study Credits: 1-3

EDER 711 - Educational Assessment (COM) Credits: 3
Examines the theory and principles of educational assessment.

EDER 760 - Informational Literacy Credits: 3
Particular emphasis is placed on the knowledge needed to be an informed and effective consumer of research. This course helps students become critical consumers of professional information by addressing the location, evaluation, use, and communication of information.

EDER 788 - Master's Research Problems/Projects Credits: 1-2
Notes: Course is repeatable for additional credit.

EDER 792 - Topics Credits: 1-6

EDFN (Education Foundations)

EDFN 527 - Middle School: Philosophy and Application Credits: 2
Group processes and issues in affective education at the middle school/junior high level. Topics for study are group processes, interdisciplinary team planning, cooperative learning, student advisory programs, self-esteem building, and student/teacher relationships. Prerequisites: Consent (Admission to teacher education program, junior standing, an adolescent psychology/development course).

EDFN 527 - Middle School: Philosophy and Application Credits: 2
Group processes and issues in affective education at the middle school/junior high level. Topics for study are group processes, interdisciplinary team planning, cooperative learning, student advisory programs, self-esteem building, and student/teacher relationships. Prerequisites: Consent (Admission to teacher education program, junior standing, an adolescent psychology/development course).
EDFN 560 - Applied Linguistics for Teaching English as a Second Language Credits: 3
The study of social and linguistic structures which undergird different discourse forms. Emphasis will be on discourse forms which are particularly important for full participation in US culture such as the rhetoric of public and school interactions.

EDFN 561 - Cultural and Psychological Perspectives in the Acquisition of English as a Second Language Credits: 3
Addresses the social and cognitive processes involved in the acquisition of a second language including developmental influences.

EDFN 562 - Teaching Language Arts for English as a Second Language Across the Curriculum Credits: 3
The teaching of reading and writing to students with limited English proficiency. Emphasis will be on reading and writing as it pertains to performance in educational and public settings.

EDFN 563 - Methods of Teaching English as a Second Language Credits: 3
Develops the central concepts, tools of inquiry, and structure of teaching English to students with limited English proficiency. Includes the evaluation of instructional processes, learning resources, curriculum, and programs. Emphasis will be on teaching students to use English in educational and public settings.

EDFN 592 - Topics Credits: 1-3

EDFN 600 - Advanced Pedagogy Credits: 3
A study of the nature and principles of curriculum and curriculum development in schools. Process of curriculum change, development and evaluation will be examined. Roles of teachers, administrators, students and the public in curriculum change will be studied and applied in a clinical setting.

EDFN 691 - Independent Study Credits: 1-3

EDFN 700 - Exceptional Learners Credits: 3
Assist regular classroom teachers to better understand and more effectively teach students with special learning needs. Focuses on learning disabilities, mental retardation, and behavior disorders. Also includes sections regarding hearing impairments, visual impairments, orthopedic or health impairments, speech/language disorders, and the gifted. Regular classroom curricular adaptations and modifications are included. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

EDFN 707 - Capstone Credits: 1
A highly focused, and topical course integrated with the final internship. The format includes student presentations and discussions of reports based on literature, practices, problems, and research. Seminars may be conducted over electronic media. Corequisites: ECE 794 or EDFN 794.

EDFN 725 - Education in a Pluralistic Society Credits: 3
Focus on school issues surrounding pluralism in a democratic society. This course relates to working with the diversity of populations within our schools. This diversity is represented in our schools by the multi-cultural nature of American society, and differences associated with exceptionality, gender, age, religion, and socio-economic status. The course will focus on preparing educators to confront issues relating to pluralism and diversity and to work productively in a variety of settings. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

EDFN 727 - Group Processes Credits: 3
A survey of small group constructs, research, and principles of application. Emphasis on learning methods and skills of group observation as well as developing knowledge of group roles and dynamics. members will learn experimentally about groups by participating, observing and analyzing opportunities to experience their own behaviors and styles as they deem appropriate.

EDFN 730 - Current Issues in Education Credits: 3
Analysis of current trends and issues in education. Focus on the change process in educational and social settings.

EDFN 750 - Educational Technology Credits: 3
This course provides an advanced grounding in the educational uses of computing and communications technology. It includes integration of technology into the classroom, distance education, multimedia production, and school management systems.

EDFN 751 - Teaching Reading Across Disciplines Credits: 3
Examines the latest research on how readers comprehend and learn from written texts, and the classroom applications of this research. Intended for teachers of content subjects (science, English, math, history, etc.) in grades 4 through the early years of college. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

EDFN 754 - Clinical Practice in Reading Credits: 1-3
Supervised experience in utilizing best techniques and materials to effect desirable solution to reading difficulties; practical experience in writing case studies, in diagnosing reading disability. Proposing effective remediation, keeping records and in evaluating progress of student.

EDFN 790 - Seminar Credits: 1

EDFN 792 - Topics Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

EDFN 794 - Internship Credits: 1-6

EDFN 798 - Thesis Credits: 1-6

EE (Electrical Engineering)

EE 536 - Photovoltaic Systems Engineering Credits: 3
Fundamentals of hybrid photovoltaic power systems. Topics may include: an overview of energy and electricity use; solar resource characteristics; load assessment; the fundamentals of solar cells, batteries, power electronics, and generators and other power sources; power system design; the National Electric Code; and energy economics. Corequisites: EE 536L.

EE 536L - Photovoltaic Systems Engineering Laboratory Credits: 1
This lab provides practical experience in the design of hybrid photovoltaic power systems. Corequisites: EE 536.

EE 554 - Biomedical Instrumentation and Electrical Safety Credits: 3
The design of electronic instrumentation for physiological applications. Emphasis on modeling and design of biopotential electrode/amplifier systems, physiological measurement techniques, therapeutic and prosthetic devices, and electrical safety in healthcare facilities. Prerequisites: EE 321.

EE 560 - Sensors and Measurements Credits: 2
Introduction to the operation, design, testing and applications of modern sensors in use and under development. Signal conditioning and system integration are also reviewed. Corequisites: EE 560L.

EE 560L - Sensors and Measurements Laboratory Credits: 0

EE 562L - Electronic Materials Laboratory Credits: 1
An introduction to microelectronic fabrication including evaporative and sputter deposition, photolithography, mask design, and packaging. Prerequisites: Instructor consent.

EE 575 - Digital Image Processing Credits: 3
Introductions to the fundamentals of digital image processing. Topics include image formation, transforms, enhancement, restoration, compression, and analysis. Prerequisites: EE 317.

EE 591 - Independent Study Credits: 1-4

EE 592 - Topics Credits: 1-3

EE 592L - Topics in Laboratory Experience Credits: 1

EE 691 - Independent Study Credits: 1-3

EE 692 - Topics Credits: 1-3

Course Information 177
EE 716 - Digital Fabrication: Materials and Processes Credits: 3
The principles of interfacial phenomenon, solution thermodynamics, and colloid chemistry will be used in illuminated process by which metallic nanoparticulates can be formed and incorporated into inks for use in manufacturing of a variety of products. Students will learn 1) the methods and science behind the manufacture of a variety of functional nanoparticulates, 2) the methods of incorporating these particles into inks and the printing of these inks for digital fabrication applications, and 3) the interfacial processes involved in line spreading and curing of the printed traces. Cross-Listed: MES 677 and NANO 677 at SDSM&T; CHEM 716 at USD.

EE 722 - Advanced Statistical Communications (COM) Credits: 3
Advanced concepts of probability and random processes; linear systems and random processes; performance of amplitude angle and pulse modulation systems in noisy environments; digital data transmission; and basic concepts of information theory.

EE 731 - Advanced Power Electronics Credits: 3
This course presents an overview of switching power devices and power electronic converters focused on power electronic interfaces for renewable energy systems, switch mode power supplies and UPS systems. The course emphasizes power electronic circuit analysis, design, and control. Qualitative and quantitative analysis of power electronics is presented focusing on the design and performance of AC/DC, DC/DC, DC/AC, and AC/AC converters. Corequisites: EE 731L.

EE 731L - Advanced Power Electronics Lab Credits: 1
This course presents a practical overview of switching power devices and power electronic converters focused on power electronic interfaces for renewable energy systems, switch mode power supplies and UPS systems. The course is project based and provides the experience for students to practice in the lab the knowledge obtained in the lecture section. Corequisites: EE 731.

EE 732 - Modeling and Control of Power Electronic Systems Credits: 3
This course presents approaches for computer-aided analysis and design of power electronic interfaces for renewable energy systems. Techniques for modeling electric generators, power converters and renewable energy sources (i.e. wind and solar), and for designing converters with feedback control are discussed. Corequisites: EE 732L.

EE 732L - Modeling and Control of Power Electronic Systems Lab Credits: 1
This course presents a laboratory experience for computer-aided analysis and design of power electronic interfaces for renewable energy systems. Techniques for modeling electric generators, power converters and renewable energy sources (i.e. wind and solar), and for designing converters with feedback control are presented. Corequisites: EE 732.

EE 733 - Advanced Power System Analysis Credits: 3
This is an advanced course to power systems engineering, designed to provide a student with the knowledge of steady-state analysis in power system operation. Course content includes power flow analysis, state estimation, power system security, automatic generation control, economic dispatch, optimal power flow, unit commitment, fuel scheduling, and production cost modeling. Corequisites: EE 733L.

EE 733L - Advanced Power System Analysis Lab Credits: 1
This course presents computer (PSS/E) modeling and simulation of power system operation and control, including load-flow, contingency analysis, unit commitment, economic dispatch, optimal power flow, etc. The course is project based and will provide the experience for students to practice in the lab the knowledge obtained in the lecture section. Corequisites: EE 733.

EE 734 - Power System Dynamics and Stability Credits: 3
This course will cover modeling, analysis and mitigation of power system stability and control problems. Planning and operations of a modern interconnected power grid under disturbances to ensure system performance and reliability will also be covered. Students will learn both analytical and numerical methods to solve realistic power system stability and control problems. Corequisites: EE 734L.

EE 734L - Power System Dynamics and Stability Lab Credits: 1
This course presents computer (PSS/E) modeling and simulation of power system stability and control, including, synchronous machine modeling, automatic generation control, transient stability, voltage stability, small signal stability, etc. The course is project based and will provide the experience for students to practice in the lab the knowledge obtained in the lecture section. Corequisites: EE 734.

EE 735 - Photovoltaics (COM) Credits: 3
This course will cover modern silicon photovoltaic (PV) devices, including the basic physics, ideal and nonideal models, device parameters and design, and device fabrication. The emphasis will be on crystalline and multicrystalline devices, but thin films will also be introduced. PV applications and economics will also be discussed.

EE 736 - Advanced Photovoltaics (COM) Credits: 3
This course will cover advanced photovoltaic concepts, including thin films, compound semiconductors, spectral conversion devices, and organic and polymeric devices. Advanced device designs will be emphasized. Evaluation will include a research paper addressing a current PV topic. Prerequisites: EE 735.

EE 737 - Organic Photovoltaics (COM) Credits: 3
Organic photovoltaic provides a variety of interesting and new properties which facilitate solar energy utilization. The objectives of this course are to introduce material properties of polymers, small molecules, dyes, and nanomaterials for photovoltaics; describe device mechanisms and behavior or organic photovoltaics; understand the photophysical processes in organic photovoltaics; and introduce different processing techniques for device fabrication.

EE 751 - Linear Systems Theory Credits: 3
State variables, Laplace transform theory, matrix analysis and complex variable theory as applied to problems in circuit analysis. Topology, network theorems and network functions.

EE 765 - Electric Properties of Materials Credits: 3
Topics covered include electromigration, diffusion, theory of rate processes, relaxation, effects, phase transformations, physics of failure in electrical circuit applications.

EE 766 - Thin Films and Plasma Processing Credits: 3
This course will focus on the state-of-the-art thin film materials and plasma processing. The contents include thin film optics theory, function principle of optoelectronic materials and devices, and fundamental plasma science and technologies. Hands on training on plasma processing and optical filter design will be provided. Specific materials and processes to be studied will be decided by the course instructor.

EE 770 - Information and Signal Processing Credits: 3
Foundation of information theory and its relationship to the measure and transmission of information; comparison of analog and digital system implementations. Topics include random processes, signal representation, spectral analysis, channel capacity, rate distortion, coding, data compression. Z-transforms and digital filtering. Prerequisites: EE 310 or EE 316.

EE 788 - Master's Research Problems/Projects Credits: 1-2

EE 790 - Seminar Credits: 1

EE 791 - Independent Study Credits: 1-9

EE 792 - Topics Credits: 1-3

EE 798 - Thesis Credits: 1-7

EE 898D - Dissertation Credits: 1-6

EES (Ecology & Environmental Science)

EES 525 - Disturbance and Restoration Ecology Credits: 3
Introduction to basic concepts of disturbance and restoration ecology. Demonstration and discussion of linkages between basic biology and management of natural resources. Corequisites: EES 525L. Prerequisites: BIOL 311.

EES 525L - Disturbance and Restoration Ecology Lab Credits: 0
Corequisites: EES 525.

EES 692 - Topics Credits: 1-7

EES 791 - Independent Study Credits: 1-3

EES 792 - Topics Credits: 1-6

## ENGL 704 - Introduction to Graduate Studies Credits: 3
An introduction to literary criticism and study of bibliographic tools (including electronic sources) and research methods needed for scholarly writing in the Humanities. Required of all candidates for the M.A. degree in English.

## ENGL 705 - Seminar in Teaching Composition Credits: 3
Study of the methods, theories, and history of writing instruction. Prerequisites: A course for English GTAs and required of them.

## ENGL 710 - Seminar in Rhetoric Credits: 3
Intensive study of selected periods or topics in rhetoric, with special emphasis on their relation to issues in criticism and composition.

## ENGL 723 - Seminar in English Literature To 1660 Credits: 3
Intensive study of a selected type, theme, author, or period of English Literature from the beginning to 1660.

## ENGL 726 - Seminar in English Literature Since 1660 Credits: 3
Intensive study of a selected type, theme, author, or period of English literature since 1660.

## ENGL 728 - Seminar in American Literature To 1900 Credits: 3
Intensive study of a selected type, theme, author, or period of American literature to 1900.

## ENGL 729 - Seminar in American Literature Since 1900 Credits: 3
Intensive study of a selected type, theme, author, or period of American literature since 1900.

## ENGL 742 - Seminar in American Indian Literature Credits: 3
Intensive study of American Indian literature of the past or present with concentration on the Plains Indians.

## ENGL 756 - Seminar in Minority Literature Credits: 3
American literature of specific cultural or ethnic minorities other than Native American (African American, Asian American, Hispanic, Jewish, or woman writers, for example). May be repeated once with different content.

## ENGL 788 - Master's Research Problems/Projects Credits: 1-6

## ENGL 791 - Independent Study Credits: 1-3

## ENGL 792 - Topics Credits: 1-4

## ENGL 798 - Thesis Credits: 1-7

Students are advised to check for most current course descriptions at [http://catalog.sdstate.edu/](http://catalog.sdstate.edu/). For x9x common course descriptions (for example: 590, 690, 591, & 692) see page 158.
EXPL (Exploratory Studies)

EXPL 587 - Study Abroad
Credits: 0-18 The goal of the course is to track student enrollment in a study abroad experience as well as to award credit for the time and effort necessary in the preparation, culture-learning, and re-entry processes of study abroad.

EXS (Exercise Science)

EXS 550 - Clinical Exercise Physiology Credits: 3
This course is designed to provide the clinical exercise physiology student with assessment and prescription techniques appropriate to special populations. Prerequisites: EXS/PE 350.

EXS 555 - ECG and Clinical Stress Testing Credits: 3
This course is designed to fill the needs of students who desire the ability to interpret the normal and abnormal, resting and exercise ECG, as well as provide opportunities to learn and practice the basic components of maximal stress testing during a variety of exercise conditions. Since clinical stress testing and ECG interpretation is a vital component of the laboratory skills needed by today's exercise physiologist, emphasis in this course will be focused on understanding and interpreting ECG tracings and related pathophysiology, preparation of the exercise 12-lead ECG, and interpretation of maximal stress test results regarding exercise tolerance for various clinical populations and comparing them to normal individuals. In addition, an overview of other diagnostic procedures that involve the use of exercise will be given. Prerequisites: Consent.

EXS 745 - Applied Biomechanics Credits: 3
This course provides students with an advanced application of mechanical principles to human movement. Specific topics will include the force-motion relation, kinetics and kinematics of human motion, and neuromuscular adaptations. Emphasis within these topics will be placed on evaluating and developing rehabilitation and performance techniques using motion capture, force platforms, and electromyography. Current research literature in each of the areas will be discussed and critically reviewed.

EXS 750 - Advanced Exercise Physiology Credits: 3
Physiological basis of factors which influence physical fitness and physical performance; application of physiological measures to fitness programs, critical analysis of current literature; emphasis on bioenergetics, neuromuscular and circulorespiratory function, body composition and physical training. Prerequisites: NES Majors only.

EXS 755 - Applied Exercise Physiology Credits: 3
Focuses on the applied aspect of exercise physiology. Includes areas of environmental influences on performance, optimizing performance by developing and implementing training programs appropriate to the individual. In addition, training and performance characteristics of adolescent athletes and older adults as well as gender differences will be discussed. Notes: For NES majors only.

FCSE (Family & Consumer Sciences Education)

FCSE 531 - Work Based Learning Credits: 2
Strategies for developing curriculum and designing methods of instruction for teaching employability skills, career decision making and occupational areas of family and consumer sciences. A field experience will be included. Cross-Listed: AGED 531.

FCSE 591 - Independent Study Credits: 1-3

FCSE 592 - Topics Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 595 - Practicum Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 611 - History and Philosophy of Family and Consumer Sciences Credits: 3
The history, mission, philosophy and development of Family and Consumer Sciences (FCS) and career and technical education; the societal context for families and communities and the impact of selected legislation and consumer sciences programs. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 673 - Supervised Student Teaching in Family and Consumer Sciences Education Credits: 6-9 Student teaching is the capstone experience in a comprehensive program for the professional development of teacher candidates. MS-FCS teacher education candidates will spend 10-16 weeks in family and consumer sciences classrooms working directly with teaching-learning situations under the guidance of cooperating teachers and a university supervisor. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 721 - Occupational Programs in Family and Consumer Sciences Credits: 3
This course will include the planning and implementing of occupational FCS programs in career and technical education. Emphasis on cooperative education, career pathways and work-based education. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 741 - Supervision of Family/Consumer Sciences Education Credits: 2
This course will cover the philosophy, responsibilities, and techniques of supervision in the family and consumer sciences classroom and other learning environments.

FCSE 751 - Curriculum of Family/Consumer Sciences Education Credits: 3
The analysis and development of curriculum and methods of teaching family and consumer sciences in the context of the National Standards for Family and Consumer Sciences Students, the National Standards for Teachers of Family and Consumer Sciences and appropriate state standards. This course will include the content topics of learners and the learning environment, program leadership, beginning instructional strategies, Family, Career and Community Leaders of America (FCCLA); curriculum development; integration of technology in the FCS classroom and assessment. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 761 - Advanced Methods and Assessment in Family & Consumer Sciences Education Credits: 3
This course will address the application of theories of learning and human development in selecting teaching strategies and instructional resources for family and consumer sciences. The course will include long-range planning, classroom management, laboratory management, assessment and program evaluation, marketing/public relations, FCCLA and methods of teaching. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 788 - Master's Research Project Credits: 1-3

FCSE 792 - Topics Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

FCSE 798 - Thesis Credits: 1-7

FIN (Finance)

FIN 511 - Investments (COM) Credits: 3
This course is a thorough study of the equity market including fundamental valuation techniques, asset allocation, the efficient markets hypothesis and its implications, portfolio theory, risk and return, the primary and secondary market mechanisms, security market indicators, and international investing. An overview of the bond market including bond valuation, duration, and bond portfolio management, and an introduction to options, futures, and forward contracts are provided. The vital roles of computer technology and electronic trading are also explored. Prerequisites: BADM/FIN 310. Cross-Listed: BADM 511.

FIN 590 - Seminar Credits: 3

FIN 591 - Independent Study Credits: 1-3

FIN 592 - Topics Credits: 1-4
Course Information

FIN 594 - Internship Credits: 1-6
FIN 596 - Field Experience Credits: 1-3
FIN 610 - Financial Management Credits: 3
Advanced techniques for managing working capital, capital budgeting, analysis of financial structure and cost of capital, valuation, financial planning and control. Prerequisites: BADM/FIN 310, STAT 281, or instructor consent. Cross-Listed: ECON 610.
FIN 740 - Investment Science Credits: 3
The course will apply econometrics, advanced statistics, and differential calculus to the process of stock analysis and pricing, portfolio composition, options pricing, and risk management. Its focus is on minimizing risk while seeking a target rate of return. Cross-Listed: ECON 740.
FIN 788 - Master's Research Problems/Projects Credits: 1-3
FIN 792 - Topics Credits: 1-4

FS (Food Science)

FS 550 - Food Analysis Credits: 4
Principles and techniques of physical and chemical analysis of food products. It will include proximate analysis of moisture, protein, lipids and carbohydrates and chemical or instrumental analysis of vitamins, minerals and food additives. Prerequisites: FS 360. Notes: Even Spring.
FS 550L - Food Analysis Laboratory Credits: 0
Notes: Even Spring.
FS 551 - New Food Product Development Credits: 4
This course is designed as a capstone course for undergraduate Food Science students and an introductory course for graduate students in food-related majors. The principles and technologies of food storage, process and packaging will be discussed in depth. Emphasis will be placed in the development of new food products. Notes: Even Spring.
FS 551L - New Food Product Development Laboratory Credits: 0
Notes: Even Spring.
FS 791 - Independent Study Credits: 1-3
FS 792 - Topics Credits: 1-3
FS 798 - Thesis Credits: 1-7
FS 898D - Dissertation Credits: 1-12

GE (General Dissertation)

GE 510 - Human Factors in Design Credits: 3
Human factors engineering (HFE), sometimes called ergonomics, deals with optimizing working and living conditions through designing for human use. The central approach of HFE involves the systematic application of relevant information about user characteristics, behavior and expectations in the design of man-made products, equipment, facilities, and environments. The objectives of HFE are (1) to enhance the effectiveness and efficiency of work and other human activities; and (2) to enhance the product user's comfort, safety, health and satisfaction.
GE 525 - Occupational Safety and Health Management Credits: 3
This course covers methods to implement and manage a safe work environment. Study will address OSHA standards and other related governmental regulations, hazard recognition and control, accident cost assessment, ergonomics, and emphasis on a proactive approach to accident prevention.
GE 569 - Project Management Credits: 2-3
An overview of project management as it relates to integrated systems, product/project life cycle, and organizational change. Defining, estimating, scheduling, risk management, and project team leadership issues will be covered as they relate to projects. Cross-Listed: OM 569.
GEOG 521 - Qualitative Research Methods in Geography Credits: 3
The theory and application of qualitative methods in geographic studies. Emphasis on the purpose and effective use of archival, visual, interview, survey, focus group, observation, and ethnography techniques. Design and implementation of research projects using qualitative methods as the primary data collection and analysis tool.

GEOG 525 - Population Geography Credits: 3
Geographic analysis of such population characteristics as: numbers and distribution; growth and change; composition; mortality, fertility, and theories of population change; policy and family planning; migration and mobility; population, environment, food supply, and human wellbeing. Problems and prospects are considered in the context of each topic.

GEOG 530 - Geography of Europe Credits: 3
This course focuses on the physical, historical, and cultural features that have shaped the current landscapes of Europe.

GEOG 547 - Geography of the Future Credits: 3
A futuristic analysis of Earth's natural environmental elements, natural resources, population and settlement, and cultural institutions at the global, national, and state levels.

GEOG 554 - Sustainable Communities Credits: 3
This course investigates the intersection of sustainability and communities. This primary focus on this course is the interconnections between social, economic, and environmental systems and their reflexive interactions with community form and function. The goal is to examine policies and programs that can be used to achieve sustainable communities.

GEOG 559 - Political Geography (COM) Credits: 3
This course addresses geographic factors which influence current international relations and the policies of nations and political units with consideration given to aspects of geopolitics, racial/ethnic groupings, religions, languages, boundaries, and territorial changes.

GEOG 560 - Geopolitics Credits: 3
An introduction to geopolitics that addresses the fundamental links between power and space at the global, national, and local scales. Focuses on classical geopolitics, critical geopolitics, political-economic approaches to geopolitics, world orders and hegemonic cycles, historical development of the international state system, and geography of imperialism.

GEOG 561 - Urban Geography Credits: 3
Geography of cities: types, functions, and distribution of world cities. Special emphasis on planning of cities in the U.S.

GEOG 573 - GIS Data Creation/Integration Credits: 3
This course introduces advanced tools and techniques of data creation, data integration, mapping, and spatial analysis in Geographic Information Systems (GIS). It provides basic approaches for solving problems of data integration including format identification, conversion, and spatial registration. Building on the skills and techniques learned in the introductory GIS course or equivalent, it gives a conceptual base to many methods and techniques associated with vector and raster-based spatial analysis including imagery. It provides an examination of the functions and capabilities of ArcGIS Desktop GIS software (including extensions). Corequisites: GEOG 573L.

GEOG 573L - GIS: Data Creation and Integration Lab Credits: 0
Hands-on experience to apply advanced tools and techniques of data creation, data integration, mapping, and spatial analysis in Geographic Information Systems (GIS). It provides basic approaches for solving problems of data integration including format identification, conversion, and spatial registration. Building on the skills and techniques learned in the introductory GIS course or equivalent, it gives a conceptual base to many methods and techniques associated with vector and raster-based spatial analysis including imagery. It provides an examination of the functions and capabilities of ArcGIS Desktop GIS software (including extensions). Corequisites: GEOG 573.

GEOG 574 - GIS: Vector & Raster Modeling Credits: 3
This course introduces basic concepts of vector and raster modeling in Geographic Information Systems (GIS) with special emphasis on construction and use of raster digital elevation models (DEMs). Provides in-depth experience with a range of geoprocessing techniques for handling and analyzing GIS data. Topics include vector processing in a model framework, weighted suitability modeling, path finding, modeling viewsheds, constructing surfaces from point samples, and spatial hydrologic modeling. Builds on the skills and techniques learned in the introductory GIS course or equivalent. Corequisites: GEOG 574. Prerequisites: GEOG 572.

GEOG 574L - GIS: Vector and Raster Modeling Lab Credits: 0
Hands-on experience to apply basic concepts of vector and raster modeling in Geographic Information Systems (GIS) with special emphasis on construction and use of raster digital elevation models (DEMs). Provides in-depth experience with a range of geoprocessing techniques for handling and analyzing GIS data. Topics include vector processing in a model framework, weighted suitability modeling, path finding, modeling viewsheds, constructing surfaces from point samples, and spatial hydrologic modeling. Corequisites: GEOG 574.

GEOG 575 - GIS Applications Credits: 3
This course explores the latest software and its applications in Geographic Information Sciences. Corequisites: GEOG 575.

GEOG 575L - GIS Applications Lab Credits: 0
Hands-on experience to explore the latest software and its applications in Geographic Information Sciences. Corequisites: GEOG 575.

GEOG 576 - Web GIS Credits: 3
This course covers the basic theories, principles, and protocols of Web GIS. Students will learn how to acquire, manage, and publish GIS data in a web-based environment. Corequisites: GEOG 576L. Prerequisites: GEOG 572.

GEOG 576L - Web GIS Lab Credits: 0
Develop relevant skills to design and implement a Web GIS application. Corequisites: GEOG 576.

GEOG 583 - Aerial Remote Sensing Credits: 3
Principles and techniques of extracting descriptive and numerical information about features on the Earth's surface from aerial imagery acquired in analog and digital forms from various aerial platforms, including small Unmanned Aircraft Systems. Applications emphasize feature extraction, planimetric mapping, and interpretation of physical and cultural landscapes. Corequisites: GEOG 583L.

GEOG 583L - Aerial Remote Sensing Lab Credits: 0
The lab is a hands-on experience using various software and the application of methods and principles of aerial remote sensing. Corequisites: GEOG 583.

GEOG 584-584L - Remote Sensing and Lab Credits: 3
Applications of remote sensing. Development of remote sensing; instrumentation; and techniques and methodology that will aid in the determination of need and proper utilization of our physical and cultural resources. The lab is a hands-on experience using various software and the application of methods and principles of remote sensing. Corequisites: GEOG 584L-584.

GEOG 585 - Quantitative Remote Sensing Credits: 3
This course will concentrate on the digital processing and visualization of various types on remotely sensed imagery. Image sources, characteristics, formats and analysis techniques will be explored as well as the integration of remotely sensed imagery with GIS and GPS datasets.

GEOG 585L - Quantitative Remote Sensing Lab Credits: 0
Lab to accompany GEOG 585.

GEOG 590 - Seminar Credits: 1-4

GEOG 591 - Independent Study Credits: 1-4

GEOG 710 - Evolution of Geographic Thought Credits: 3
The history and development of geography and its theories, schools of thought, and current ideas.

GEOG 714 - Research and Writing Credits: 3
Development of geographic research and writing skills including a survey of data sources and literature, and preparation of reports, papers, articles, and the master’s thesis.
GEOG 741 - Quantitative Remote Sensory for Terrestrial Monitoring Credits: 3
The course will describe the science, algorithms, and computational approaches to generate and assess derived satellite products for long term Earth system monitoring. Emphasis will be on the principles of optical remote sensing and state-of-the-art quantitative algorithms for estimating biophysical and geophysical land surface variables from remotely sensed observations. Prerequisites: STAT 541 and GEOG 484 or consent. Cross-Listed: GSE 741.

GEOG 743 - Geospatial Analysis Credits: 3
This course covers concepts and methods of spatial data analysis, focusing on the analysis of broad-scale geographic datasets characterizing physical, biological, and socioeconomic landscape features. Students learn to develop scientific hypotheses about spatial relationships, and to test these hypotheses using appropriate spatial datasets and analytical techniques. Topics include exploratory data analysis, methods for quantifying spatial pattern, development of explanatory models to test spatial hypotheses, and development of predictive models for spatial interpolation. Prerequisites: One graduate level course in statistics (e.g. STAT 541 or equivalent). Cross-Listed: GSE 743.

GEOG 760 - Advanced Methods in Geospatial Modeling: Topical Credits: 3
Selected topics in advanced methods in geospatial modeling. May be repeated for credit. Specific topics covered will change each semester. Prerequisites: Graduate standing in a degree program. Specific pre-requisites depend on topic.

GEOG 765 - Advanced Studies in Land Utilization Credits: 1-4
The physical and cultural factors affecting the nature and pattern of land utilization. Local and/or regional utilization, planning, and problems will be studied in detail in relation to the topic. Course may be repeated under different topic.

GEOG 766 - Advanced Remote Sensing Application Credits: 3
Selected topics in advanced applications in remote sensing. May be repeated for credit. Specific topics covered will change each semester. Prerequisites: Graduate standing in a degree program. Specific pre-requisites depend on topic. Cross-Listed: GSE 766.

GEOG 767 - Fire and Ecosystems Credits: 3
This course is a broad treatment of how fire and ecosystems combine to form the landscapes that we see. Course material examines the contributions of climate, topography, weather, and fuels to the fire environment and how these factors influence wildland fire behavior. We will explore the interactions between ecological processes and fire regimes in ecosystem dynamics and the ways in which land use and land management affect the outcomes. Cross-Listed: GSE 767/NRM 767.

GEOG 768 - Global Climate Change Credits: 3
The course will provide a multidisciplinary examination of the drivers of the Earth's climate, how they interact, and how they change over time. We will critically examine the roles of greenhouse gases and anthropogenic land cover/use in affecting these changes as well as the types, strengths and limitations of global climate models. Class will combine lectures on various aspects of the Earth's climate system with class discussion of a variety of scientific papers exploring the current controversies and ideas central to climate research. Students will be challenged to develop their own projects/papers on course-related topics and use the most recent scientific research to decide for themselves about the importance of global climate change. Cross-Listed: GSE/NRM 768.

GEOG 786 - Geographic Information Systems Credits: 3
Practical application of GIS to problems and land-use planning, management of natural resources, transportation, as well as demographic data. Hands-on experience in the making of maps with computers, digitization, the storing and retrieving of geographic data, and the design of simple GIS.

GEOG 788 - Research Paper in Geography Credits: 1-3

GEOG 790 - Seminar Credits: 1-4

GEOG 791 - Independent Study Credits: 1-4

GEOG 792 - Topics Credits: 3

GEOG 794 - Internship Credits: 1-3

GEOG 798 - Thesis Credits: 1-7

GER (German)

GER 591 - Independent Study Credits: 1-3

GLST (Global Studies)

GLST 581 - Travel Studies Credits: 1-6
This course is taken as part of an approved study abroad program under faculty supervision. The number of credit hours depends upon the length of the study abroad program, number of course contact hours, and course content.

GSE (Geospatial Science & Engineering)

GSE 740 - Introduction to Geospatial Science and Engineering Credits: 3
The interdisciplinary course provides an overview of the science and technology of Earth observation, including the fundamentals of remote sensing, geographic information systems, computational and analytical approaches, and professional practices, including research information resources, graphical and oral presentation, proposal writing, publishing, and research ethics. Prerequisites: Admission to the GSE PhD program.

GSE 741 - Quantitative Remote Sensing for Terrestrial Monitoring Credits: 3
The course will describe the science, algorithms, and computational approaches to generate and assess derived satellite products for long term Earth system monitoring. Emphasis will be on the principles of optical remote sensing and state-of-the-art quantitative algorithms for estimating biophysical and geophysical land surface variables from remotely sensed observations. Prerequisites: STAT 541 and GEOG 484 or consent. Cross-Listed: GSE 741.

GSE 743 - Geospatial Analysis Credits: 3
This course covers concepts and methods of spatial data analysis, focusing on the analysis of broad-scale geographic datasets characterizing physical, biological, and socioeconomic landscape features. Students learn to develop scientific hypotheses about spatial relationships, and to test these hypotheses using appropriate spatial datasets and analytical techniques. Topics include exploratory data analysis, methods for quantifying spatial pattern, development of explanatory models to test spatial hypotheses, and development of predictive models for spatial interpolation. Prerequisites: One graduate level course in statistics (e.g. STAT 541 or equivalent). Cross-Listed: GSE 743.

GSE 760 - Advanced Methods in Geospatial Modeling: Topical Credits: 3
Selected topics in advanced methods in geospatial modeling. May be repeated for credit. Specific topics covered will change each semester. Prerequisites dependent on topic.

GSE 766 - Advanced Remote Sensing Applications: Topical Credits: 3
Selected topics in advanced applications in remote sensing. May be repeated for credit. Specific topics covered will change each semester. Prerequisites: Graduate standing in a degree program. Specific pre-requisites dependent on topic. Cross-Listed: GSE 766.

GSE 767 - Fire and Ecosystems Credits: 3
This course is a broad treatment of how fire and ecosystems combine to form the landscapes that we see. Course material examines the contributions of climate, topography, weather, and fuels to the fire environment and how these factors influence wildland fire behavior. We will explore the interactions between ecological processes and fire regimes in ecosystem dynamics and the ways in which land use and land management influence these changes. Specific pre-requisites depend on topic. Cross-Listed: GSE 767.

GSE 768 - Global Climate Change Credits: 3
The course will provide a multidisciplinary examination of the drivers of the Earth's climate, how they interact, and how they change over time. We will critically examine the roles of greenhouse gases and anthropogenic land cover/use in affecting these changes as well as the types, strengths and limitations of global climate models. Class will combine lectures on various aspects of the Earth's climate system with class discussion of a variety of scientific papers exploring the current controversies and ideas central to climate research. Students will be challenged to develop their own projects/papers on course-related topics and use the most recent scientific research to decide for themselves about the importance of global climate change. Cross-Listed: GSE/NRM 768.
### HDFS 586 - Service Learning Credits: 1-3

Service learning in Human Development and Family Studies, including service planning, interaction with community, and reflection.

### GSE 790 - Seminar in Geospatial Science and Engineering Credits: 1

### GSE 791 - Independent Study Credits: 1-3

### GSE 792 - Topics Credits: 1-3

### GSE 898 - Dissertation Credits: 1-12

### GSR (Graduate School Research)

#### GSR 592 - Topics Credits: 1-3

#### GSR 600 - Graduate School Tracking Credits: 0

Course used to track students who are enrolled at a different university for a given semester. The course keeps students active so they can qualify for financial aid at SDSU. Restrictions: Advisor or Department Head Approval.

#### GSR 601 - Research Regulations Compliance Credits: 1

The course consists of lecture/seminars on compliance with governmental regulations in research at SDSU. The course also serves as the foundation for SDSU's education program for compliance with current and pending regulatory guidelines. Topics to be covered include: Animal Care and Use, Human Subjects Research, Recombinant DNA, Radiation Safety, Laboratory/Biological Safety, Integrity in Research, Conflict of Interest in Research, Financial Accountability, and Intellectual Property Issues.

#### GSR 602 - Program Continuation (COM) Credits: 1

This course is suitable for graduate students to maintain enrollment in their programs of study.

#### GSR 699 - Preparing Future Faculty Credits: 2

This course provides students an understanding of academic and administrative expectations within higher education. Students will have a deeper understanding of teaching, research and service expectations in colleges and universities and be able to smoothly transition into a college teaching and/or research position.

#### GSR 701 - Graduate School and Beyond Credits: 1

Focus on skills and knowledge necessary to succeed in a graduate program and post-graduate career including work/life balance, gender issues, and alternative career options.

### HDFS (Human Development & Family Studies)

#### HDFS 501 - Foundations and Principles of Community Service Credits: 3

An introduction to the field of family studies and related professions that involve working with families and communities. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 510 - Parenting Credits: 3

The study of theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western, Native American, and other cultures living in the U.S. Included are comparisons of the relative strengths and weaknesses of various parenting approaches, historical perspective on parenthood and children, and the developmental perspectives of children and parenting. Best practices for individual and community parent education programs will be addressed. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 525 - Family Resiliency Credits: 3

Literature on stress experienced by individuals and families with an emphasis on a systematic analysis of the conceptual/clinical literature of individual and family resilience will be examined. Individual and family characteristics of resilient families and prevention and solution-based principles will be explored in order to understand and promote family resilience in a developmental and ecological context. Students in counseling and human development as well as education, nursing, and other behavioral, social, and health sciences may benefit from this course. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 586 - Service Learning Credits: 1-3

Service learning in Human Development and Family Studies, including service planning, interaction with community, and reflection.

#### HDFS 591 - Independent Study Credits: 1-3

#### HDFS 592 - Topics Credits: 1-3

Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 601 - Orientation in Graduate Study Credits: 1

An orientation to graduate studies including exposure to graduate procedures and policies as well as writing skills. Notes: Taught online.

#### HDFS 602 - Research and Evaluation in Counseling and Human Development Credits: 3

The course explores various research designs and methodologies applicable to the field of counseling. The course will emphasize qualitative and quantitative research, critical evaluation of research reports, the use of internet databases for writing a research paper, a thorough understanding of APA format.

#### HDFS 605 - Program Administration and Management Credits: 3

An introduction to the development, administration, and management of youth, family, and community service organizations. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 610 - Family Resource Management Credits: 3

Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 614 - Adult Development Credits: 3

Study of research, theoretical adult development; physical, intellectual and personality development of the adult integrates issues of individual, family, gender, and career development and provides opportunity for application in working with adults.

#### HDFS 620 - Family Dynamics Credits: 3

An examination of theories of family function and dysfunction, techniques of assessment, and models of family intervention. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 630 - Lifespan Development Credits: 3

An examination of human development from both lifespan and bio-ecological perspectives focusing on major theories of development and current research on micro-macro relationship. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 635 - Crises Across the Lifespan Credits: 3

Exploration of resources related to managing stress and coping with crises across the lifespan including the bio psychosocial nature of stress; methods of coping with stress, anxiety, and conflict; models of effective family functioning in the presence of stress and crises; and the current literature on how families cope with a variety of life transitions and crises. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 640 - Interpersonal Relationships Credits: 3

An in-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

#### HDFS 701 - Current Issues in Developmental Sciences Credits: 3

Current issues in the field of Developmental Sciences. Introduction to current theoretical works and issues on human development, including socio-emotional, cognitive and biological areas. Focus on implications for research and applications.

#### HDFS 702 - Advanced Human Sexuality Credits: 3

Clinical, scientific, and philosophical studies of human sexuality. Emphasis on contemporary research and insights into human sexual experience, behavior, and social/cultural values and beliefs about sexuality throughout the lifespan. Topics will include sexual and psychosexual development, sexual health and disease, sexual variations, and sexual dysfunction and therapy.
HDFS 710 - Program Design, Evaluation, and Implementation: 3
An overview of the program development process and outcome evaluation of community, children, and family programs. Modes of outcome scholarship and their implications for community-based programs are discussed. Students will develop knowledge through participating in a community-based project involving the practical application of program design and evaluation methods. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

HDFS 711 - Child Development Theory and Application: 3
In-depth study of human development. Emphasis upon current theories and their application to an understanding of the developmental growth processes; relationship between cognitive, social, physical and emotional development and behavior; range of normality in growth and behavior. Focus on normal development but with consideration of impact of deviation from normative development on child, family, neighborhood.

HDFS 730 - Grant Writing: 3
An overview of the complete grant writing process and potential outcomes. Students will develop knowledge through the actual grant writing, budgeting, and reviewing grant proposals.

HDFS 742 - Family Theory and Research: 3
Current theoretical approaches to family interactions; impact of various forces (social, personal, intrapersonal) upon dynamic aspects of family relationships; patterns and sequences of coalitions and alliances; factors which result in stress and breakdown or enhanced and rewarding relationships. Emphasis upon normal families but family problems are also studied.

HDFS 744 - Diverse Families: 3
Assess and explore key theories and concepts in diversity, specifically examining the role of social context in shaping perspectives, experiences, and opportunities of families. Study the impact of factors such as race, culture, gender, economic status, religion, sexual orientation, and ability on family processes, socialization, residential patterns, and educational opportunities.

HDFS 745 - Work and Family: 3
The Work and Family course utilizes a biocultural perspective to explore the challenges individuals, families, employers, and communities of managing work and family in today’s world. Topics include the history of the work-family relationship, gender roles and the work-family relationship, demographic and cultural changes within the workforce, leisure and the work-family relationship, and organizational work-family policies.

HDFS 753 - Family Public Policy: 3
The impact of the professional in shaping family policy and effecting positive family policy formation; study of family policy priority issues and alternative strategies.

HDFS 790 - Seminar: 1-3
HDFS 791 - Independent Study: 1-3
HDFS 792 - Topics: 1-3
HDFS 798 - Thesis: 1-7

HIST (History)

HIST 592 - Topics: 1-4

HLTH (Health)

HLTH 520 - K-12 Methods of Health Instruction: 2
HO 514 - Plant Propagation Credits: 3

HO 514L - Plant Propagation Lab Credits: 0

HO 516 - Landscape Nursery Management Credits: 3
A study of current nursery and garden center crop cultural practices and business management. Topics to be covered include nursery and garden center design and organization, field and container crop production, transplanting, pricing, and shipping techniques. The working relationship between nurseries, landscape designers and contractors is also discussed. Prerequisites: HO 111, PS 213. Cross-Listed: PS 516.

HO 534 - Local Food Production Credits: 2
Topics include planning, planting, cultivation, harvest, season extension and marketing of fruits and vegetable crops. Experiential learning model. Cross-Listed: PS 534.

HO 544 - Vegetable Crop Systems Credits: 1-6
Studies in vegetable crop production and management systems. Credit earned will depend on the modules taken. Course may be repeated as long as the module(s) are not repeated. Potential topic modules could include: root crop systems; cucurbit production systems; vegetable legumes; herbs; solanaceous crops; heirloom vegetable crops; integrated pest management; market gardening; organic production systems; extended season crop management; leaf and cool season crops; annual crop rotation systems; marketing specialty crops. Cross-Listed: PS 544.

HO 547 - Organic Plant Production Credits: 3
This course provides a detailed overview of organic farming for both small scale suburban and urban settings. The topics covered will include: organic certification, soil and nutrient management, pest and disease ID and management, High-Tunnel management, and marketing. Cross-Listed: PS 547.

HO 592 - Topics Credits: 1-3

HRM (Human Resource Management)

HRM 590 - Seminar Credits: 3

HRM 591 - Independent Study Credits: 1-3

HRM 592 - Topics Credits: 1-4

HRM 594 - Internship Credits: 1-6

HRM 596 - Field Experience Credits: 1-3

HRM 788 - Master's Research Problems/Projects Credits: 1-3

HRM 792 - Topics Credits: 1-4

HSC (Health Science)

HSC 533 - Occupational Health Credits: 3
Occupational Health is a survey course dealing with health concerns in the workplace and the scope, objectives, and functions of occupational programs. Work related injuries and diseases and the effects of harmful exposure to chemical and physical agents which cause discomfort, stress, inefficiency or disease are examined. Emphasis is placed on preventative measures and early intervention to assure a reasonable, healthful work environment.

HSC 592 - Topics Credits: 1-4

HSC 631 - Biostatistics I Credits: 3
Basic principles of statistics applied to health science. Emphasis is on the role of statistics in evaluation of human health data and the use of a statistical computing package to input and manipulate datasets; explore, analyze, and interpret data; and present results. Topics include probability distributions, point and interval estimations, hypothesis tests, linear regression, correlation tests of association for categorical data, and analysis of variance.

HSC 731 - Biostatistics II Credits: 3
Continuation of Biostatistics I. Intermediate principles and methods of statistics applied to health science. Emphasis is on the role of statistics in evaluation of human health data and the use of a statistical computing package to input and manipulate datasets; explore, analyze, and interpret data; and present results. Topics include introductions to multiple linear regression, logistic regression, survival analysis, selected ANOVA designs, and selected multivariate. Prerequisites: HSC 631.

HSC 733 - Environmental Health Credits: 3
This course examines causes and approaches to control environmental health problems including consideration of human health risks and effects of biological, chemical, and physical agents affecting individuals and communities. Topics include the environmental regulatory framework; identification of susceptible populations; approaches to environmental risk assessment, abatement, protection, and prevention; environmental justice principles and stakeholder interests; and the public health basis for environmental health policy decisions. Prerequisites: Admission into the Master of Public Health program or permission of instructor. Cross-Listed: PUBH 733.

HSC 755 - Program Planning and Evaluation Credits: 3
An introduction to public health program planning and evaluation including: target population needs assessment; stakeholder engagement; and public health program design, organization, leadership, utilization, resource management, and evaluation. Prerequisites: Admission into the Master of Public Health program or permission of instructor. Cross-Listed: PUBH 755.

HSC 782 - Epidemiology Credits: 3
The course introduces concepts and methodologies for the study of health and disease in human populations. Different study designs and their methods of analysis will be discussed, as well as sources, handling, and interpretation of epidemiologic data. Cross-Listed: BIOI 782/NUTR 782.

HSC 785 - Advanced Epidemiology Credits: 3
This is an advanced course on epidemiologic methods designed to improve the student's ability to conduct and interpret epidemiologic studies. Prerequisites: PUBH 710 or BIOI 782/HSC 782/NUTR 782.

HSC 791 - Independent Study Credits: 1-3

HSC 832 - Mixed Methods Research Credits: 3
An introduction to the design and conduct of mixed methods research in health and human sciences including theoretical underpinnings, method designs, sampling strategies, analysis, and ethical issues common to mixed methods. Students will develop skills in conducting and evaluating mixed methods research. Prerequisites: NURS 825 and NURS 830. Cross-Listed: NURS 832.

ID (Interior Design)

ID 590 - Seminar Credits: 1-3
A highly focused, and topical course. The format includes student presentations and discussions of reports based on literature, practices, problems, and research. Seminars may be conducted over electronic media such as internet and are at the upper division graduate levels. Enrollment is generally limited to few than 20 students.

ID 591 - Independent Study Credits: 1-3
Includes Directed Study, Problems, Readings, Directed Readings, Special Problems, and Special Projects. Students complete individualized plans of study which include significant one-on-one student-teacher involvement. The faculty member and students negotiate the details of the study plans. Enrollments are usually 10 or fewer students. Meetings depending upon the requirements of the topic.
Students are advised to check for most current course descriptions at http://catalog.sdstate.edu/.
For x9x common course descriptions (for example: 590, 690, 591, & 692) see page 158.

ID 592 - Topics Credits: 1-3
Includes current topics, advanced topics and special topics. A course devoted to a particular issue in a specified field. Course content is no wholly included in the regular curriculum. Guest artists or experts may serve as instructors. Enrollments are usually of 10 or fewer students with significant one-on-one student/teacher involvement.

LING (Linguistics)

LING 520 - The New English Credits: 3
Diverse new theories and applications in English linguistics: lexicography, pragmatics, stylistics, sociosemantics, semiotics, and discourse theory.

LING 525 - The Structure of English Credits: 3
Use of traditional, structural, and transformational grammars for describing the English language. Practical application in teaching. Strongly recommended for majors planning to teach.

LING 552 - General Semantics Credits: 3
Relations between symbols; human behavior in reaction to symbols including unconscious attitudes, linguistics assumptions; and the objective systematization of language.

MATH (Mathematics)

MATH 535 - Complex Variables I Credits: 3
Algebra of complex numbers, classifications of functions, differentiation, integration, mapping, transformations, infinite series.

MATH 571 - Numerical Analysis I (COM) Credits: 3
Analysis of rounding errors, numerical solutions of nonlinear equations, numerical differentiation, numerical integration, interpolation and approximation, numerical methods for solving linear systems. Prerequisites: MATH 225.

MATH 575 - Operations Research (COM) Credits: 3
Philosophy and techniques of operations research, including game theory; linear programming, simplex method, and duality; transportation and assignment problems; introduction to dynamic programming; and queuing theory. Applications to business and industrial problems. Pre-requisites: Introductory statistics and one year of calculus; STAT 575 and CSC 575, or instructor consent.

MATH 591 - Independent Study Credits: 1-3

MATH 592 - Topics Course Credits: 1-3

MATH 625 - Advanced Calculus Credits: 3
Topics will include set theory; point set topology in Rn and in metric spaces; limits and continuity; infinite series; sequences of functions. Prerequisites: MATH 425.

MATH 675 - Operations Research II Credits: 3
A continuation of Operations Research I. Topics include the theory of the simplex method, duality theory and sensitivity analysis, game theory, transportation and assignment problems, network optimization models, and integer programming. Prerequisites: MATH 475-575.

MATH 691 - Independent Study Credits: 1-3

MATH 716 - Theory of Algebraic Structures I Credits: 3
Abelian Groups, homomorphisms, permutation groups, Sylow theorems, group representations and characters. Prerequisites: MATH 413.

MATH 741 - Measure and Probability Credits: 3
Fundamentals of measure theory and measure-theoretic probability, and their applications in advanced probabilistic and statistical modeling.

MATH 751 - Applied Functional Analysis Credits: 3

MATH 770 - Numerical Linear Algebra Credits: 3

MATH 771 - Numerical Analysis II Credits: 3
Continuation of MATH 571 including approximation theory, matrix iterative methods and boundary value problems for ordinary and partial differential equations. Prerequisites: MATH 571.

MATH 773 - Numerical Optimization Credits: 3
This course will survey widely used methods for continuous optimization, focusing on both theoretical foundations and implementation using numerical software. Topics include linear programming (optimization of a linear function subject to linear constraints), line search and trust region methods for unconstrained optimization, and a selection of approaches (including active-set, sequential quadratic programming, and interior methods) for constrained optimization.

MATH 774 - Advanced Scientific Computation Credits: 3
Advanced topics in scientific computation. This course may cover topics such as matrix factorizations, finite element methods, multivariable optimizations, stochastic differential equations, and parallel programming for scientific computations. Prerequisites: MATH 771.

MATH 777 - Advanced Mathematics Synthesis Credits: 1
Synthesis of concepts from advanced mathematics courses. Prerequisites: Instructor consent.

MATH 788 - Research Paper Credits: 1-2

MATH 791 - Independent Study Credits: 1-3

MATH 792 - Topics Credits: 1-3

MATH 798 - Thesis Credits: 1-7

MCOM (Mass Communication)

MCOM 516 - Mass Media in Society Credits: 3
Rights and responsibilities of the press; relation of the media to individuals and society; role of media in a free society.

MCOM 517 - History of Journalism Credits: 3
Development, impact and importance of individual journalists and media in U.S.

MCOM 519 - Women in Media Credits: 3
This course examines contributions of women to the mass media from colonial era to present. It also studies the portrayal of women by the news media and by advertising, and it studies the roles currently played by women in the media and in supporting areas of advertising and public relations. Cross-Listed: WMST 519.

MCOM 530 - Media Law (COM) Credits: 3
Study of the sources, processes, content and application of law and regulation in the mass communication context and of the ethics of communications practitioners.

MCOM 574 - Media Administration and Management (COM) Credits: 3
Business practices, newspaper, magazine, and broadcast management.

MCOM 585 - Science Writing Credits: 3
This class explores the process of science writing and examines various kinds of science writing through readings, guest speakers, and writing assignments. A key emphasis is how to present scientific information to a lay audience.
ME (Mechanical Engineering)

ME 510 - Principles of HVAC Engineering Credits: 3

ME 512 - Internal Combustion Engines Credits: 3
Theory, design and operation of spark ignition and compression-ignition engines. Performance characteristics and efficiencies; combustion and thermochemistry of fuel-air mixture exhaust emissions as they pertain to air pollution. Prerequisites: ME 312 and EM 331.

ME 513 - Turbomachinery Credits: 3
Theory, design, operation and energy transfer in Turbo-machines. Steam, gas and hydraulic turbines. Pumps, fans and centrifugal and axial flow compressors. Prerequisites: ME 312 and EM 331.

ME 514 - Air Pollution Control Credits: 3
Control of particulates and gaseous pollutants. Design and operating characteristics of gravity settlers, cyclones, electrostatic precipitators, fabric filters, scrubbers, incinerators, adsorption beds and absorption towers. Prerequisites: ME 311.

ME 516 - Renewable Energy Systems Credits: 3
Students will learn to apply the principles of energy conversion, energy conservation, and value engineering to the analysis of energy conversion systems, renewable energy generation equipment and systems. Students will become familiar with energy consumption requirements for conventional systems and the applications of renewable energy systems to provide alternative energy sources. Energy efficiency and global environmental sustainability are emphasized. A background in basic thermodynamics is assumed.

ME 517 - Computer-Aided Engineering Credits: 3
Introduction to applied structural and thermal design and analysis using the ANSYS finite element software package. One-, two-, or three-dimensional static structural problems modeled using the direct generation method as well as solid modeling techniques. Steady-state and transient thermal analyses are performed. Thermally-induced stressed and displacements that occur in non-uniform temperature structures, solutions of two- or three-dimensional fluid mechanics problems, and optimization techniques are discussed. Corequisites: ME 517L required.

ME 517L - Lab/Computer Aided Engineering Credits: 0
Corequisites: ME 517 required.

ME 518 - Design of Thermal Systems Credits: 3
Systems approach to design, mathematical modeling, simulation and optimization of systems, with particular emphasis on thermal systems. Prerequisites: ME 312, ME 415 and EM 331.

ME 531 - Aerodynamics Credits: 3
Airfoil characteristics, wing shapes, static and dynamic forces, viscosity phenomena, boundary layer theory, flaps and slots, propellers, stability, control and performance. Prerequisites: EM 331.

ME 533 - Non-Destructive Testing and Evaluation Credits: 3
Various non-destructive testing techniques will be introduced with emphasis on ultrasound techniques. For ultrasound, physical principles of acoustic waves in solid media will be introduced, and acoustic sensor design and properties will be discussed. For other techniques, including eddy current techniques, X-ray techniques, acoustic emission, etc., basic physics of the method and modern applications will be introduced. Experiments and demonstrations will be conducted to enhance students' understanding of the concepts and applications. Corequisites: ME 533L.
ME 533L - Non-Destructive Testing and Evaluation Lab Credits: 0
Various non-destructive testing techniques will be introduced with emphasis on ultrasound techniques. For ultrasound, physical principles of acoustic waves in solid media will be introduced, and acoustic sensor design and properties will be discussed. For other techniques, including eddy current techniques, X-ray techniques, acoustic emission, etc., basic physics of the method and modern applications will be introduced. Experiments and demonstrations will be conducted to enhance students' understanding of the concepts and applications. Corequisites: ME 533.

ME 537 - Gas Dynamics I Credits: 3

ME 539 - HVAC System Design Credits: 3
Analysis of heating, ventilating, and air conditioning requirements. Design of heating, ventilating, and air conditioning systems. Economic, energy, and environmental considerations. Use of computers as design aids. Corequisites: ME 539L. Prerequisites: ME 410.

ME 539L - HVAC System Design Lab Credits: 0
Accompanies ME 539. Corequisites: ME 539.

ME 540 - Computer-Aided Design Credits: 3
The use of digital computer as a design tool. Techniques and algorithms which increase the rationality of the design process. Design principles and optimization theory. General approach to constrained optimization. Probabilistic approaches to design. Computer-aided design to reliability specification. Application of computer graphics to engineering design. The emphasis is on extending the designer's potential and not on automating those activities. Prerequisites: Competence of FORTRAN and instructor consent.

ME 542 - Applications of Computational Fluid Dynamics Credits: 3
This course provides a background and working knowledge of software analysis tools, techniques and methodologies utilized in modern engineering practice in computational fluid dynamics (CFD). The course builds upon fundamental concepts of thermodynamics, fluid mechanics, and computer-aided design and analysis and applies these principles within high-fidelity computational models to solve theoretical and practical problems commonly encountered with thermal fluid and energy systems. This course provides students with team-centered collaborative opportunities to practice CFD analysis in engineering design applications.

ME 546 - Engineering Mechanics in Biomedical Applications Credits: 3
This course focuses on biomedical applications of the principles of engineering mechanics. The concepts of kinematics, dynamics, thermal-fluid system analysis, and transport phenomena are applied in developing engineering models of various aspects of anatomy and physiology and in the design of prosthetics and biomedical devices. Topics include biomechanics; engineering properties of biomaterials; computer applications in medicine; research and development in biomedical engineering; and ethics at the nexus of medicine and engineering.

ME 561 - Analysis and Design Industrial System Credits: 3
Problems in product design and development, marketing, forecasting, capacity evaluation, plant layout, materials handling from standpoint of interrelated and integrated systems. Prerequisites: ME 362.

ME 590 - Seminar Credits: 1-2

ME 592 - Topics Credits: 1-5

ME 691 - Independent Study Credits: 1-5

ME 692 - Topics Credits: 1-3

ME 700 - Graduate Colloquium Credits: 0
A topical course in which graduate students present the results of their work for review and critique by faculty members and peers prior to scheduling the final oral exam. Students will normally enroll in this course in the final term of their graduate study. Prerequisite: Instructor permission.

ME 703 - Thermo-Fluid Energy Systems Credits: 3
Review of viscous fluid, basic modes of heat transfer, thermodynamics, and energy conversion. Discussion of energy sources, uses, conversion, transmission, and economics. Analysis of conventional energy generation, storage, and transmission systems, criteria for design and analysis of energy systems such as nuclear, wind, solar, geothermal, etc.

ME 711 - Advanced Heat Transfer Credits: 3

ME 712 - Convection Heat Transfer Credits: 3

ME 721 - Viscous Flow I Credits: 3

ME 731 - Advanced Analytical Methods Credits: 3

ME 735 - Modeling and Simulation Credits: 3
A systems approach to the analysis of electrical, mechanical and hydraulic systems. Generalized modeling methods, governing equations, system response, synthesis and design of dynamic systems, and specific applications of modeling technique. Corequisites: ME 735L.

ME 735L - Modeling and Simulation Laboratory Credits: 0
Corequisites: ME 735 required.

ME 739 - Advanced Metallurgy Credits: 3
Crystal lattices and diffraction by crystals. Structure determination, defects, registration by microscopic methods, single crystal orientation and analysis of stress caused by phase transformation.

ME 741 - Advanced Stress Analysis Mechanical Design Credits: 3

ME 745 - Advanced Machine Design Credits: 3

ME 760 - Quality Control Credits: 3
Application of statistical techniques to the control of quality and the development of economical inspection methods. Collection analysis, and interpretation of operations data; control charts and sampling procedure. Prerequisites: STAT 281 or STAT 381. Cross-Listed: OM 760/STAT 760.

ME 761 - Operations Research Credits: 3
History and organization of operations research, mathematical and statistical models in industrial decisions. The evaluation of alternatives by means of linear programming, queuing theory, deterministic and stochastic inventory models, game theory and simulation.

ME 763 - Topics in Reliability Engineering Credits: 3
Probability concepts and typical models involved in the statistical prediction of reliability. Methods for estimating required parameters from experimental data. Reliability and maintainability techniques in practice, and a survey of recent developments in the field.
ME 765 - Systems Analysis Credits: 3
Analysis of industrial problems as systems of servicing stations with deterministic and stochastic inputs and service times using queuing theory as a principal approach. Development of theoretical models. Digital computer simulation of complex systems.

ME 767 - Decision Theory Credits: 3
Examination and evaluation of modern techniques of decision making. Mathematical models and measurement theory. Certainty, risk, and uncertainty.

ME 787 - Research Credits: 9

ME 788 - Master's Research Problems/Projects Credits: 1-9

ME 790 - Seminar Credits: 1

ME 791 - Independent Study Credits: 1-3

ME 792 - Topics Credits: 1-3

ME 798 - Thesis Credits: 1-7

MFL (Modern Foreign Languages)

MFL 591 - Independent Study Credits: 1-3

MFL 592 - Topics Credits: 1-4

MICR (Microbiology)

MICR 521 - Soil Microbiology Credits: 3
Microbial species of agricultural soils, environmental factors affecting their numbers and activity, and biochemical changes brought about by these microorganisms. Corequisites: MICR 521L. Prerequisites: BIOL 151-151L and BIOL 153-153L or BOT 201-201L. Cross-Listed: PS 521.

MICR 521L - Soil Microbiology Laboratory Credits: 0

MICR 524 - Medical and Veterinary Virology Credits: 3
Basic course discussing the characterization, structure, and replication of viruses and the pathogenesis of viral disease in man and animals. Laboratory exercises emphasize techniques in virus isolation, characterization, and detection by immunological assays. Prerequisites: BIOL 204. Cross-Listed: VET 524.

MICR 533 - Medical Microbiology (COM) Credits: 3
Principles of medical microbiology including a survey of the most clinically significant bacterial, fungal, parasitic, and viral diseases in the world, with an emphasis on those most prevalent in North America. Case studies will address: morphology, physiology, and virulence of the microbes and the epidemiology, treatment, and prevention of the diseases they cause.

MICR 539 - Medical and Veterinary Immunology Credits: 3
This course covers the theory and mechanisms of immune-responses as they relate to human and veterinary medicine.

MICR 550 - Application of Microbiology & Biotechnology Credits: 3
The rapid development of biotechnology techniques and their commercial application continues to be a major economic driver in the twenty-first century. Biotechnology uses living cells or their enzymes to produce chemicals, biomaterials, pharmaceuticals, and energy from renewable biomass feedstocks. This interdisciplinary course will examine theoretical and practical aspects of cell metabolism, metabolic engineering, fermentation and fermentor design, product recovery, process control, energy balances, and economics as related to several current bioprocesses. This course will integrate principles from microbiology, biochemistry, and engineering to provide students with the skills needed to fill roles in research, operations and commercialization. Prerequisites: MICR 231.

MICR 590 - Seminar Credits: 1-6

MICR 592 - Topics Credits: 1-4
Corequisites: MICR 592L.

MICR 592L - Topics Laboratory Credits: 1-4

MICR 791 - Independent Study Credits: 1-4

MICR 792 - Topics Credits: 1-4

MICR 798 - Thesis Credits: 1-7

MGMT (Management)

MGMT 531 - Managerial Economics Credits: 3
Applications of microeconomic theory, statistics and other quantitative methods to analysis and solution of decision making problems confronted by managers of agribusiness, commercial and manufacturing enterprises. Topics include economic analysis of demand, production, cost, market structure, government regulation, risk, and capital budgeting. Prerequisites: ECON 201 and STAT 281. Cross-Listed: ECON 531.

MGMT 590 - Seminar Credits: 1-3

MGMT 591 - Independent Study Credits: 1-3

MGMT 592 - Topics Credits: 1-4

MGMT 594 - Internship Credits: 1-6

MGMT 596 - Field Experience Credits: 1-3

MGMT 788 - Master's Research Problems/Projects Credits: 1-3

MGMT 792 - Topics Credits: 1-4

MKTG (Marketing)

MKTG 576 - Marketing Research (COM) Credits: 3
This course provides an in-depth study of the primary methodologies of marketing research. Emphasis is placed on collecting, analyzing, interpreting and presenting information for the purpose of reducing uncertainty surrounding marketing and management decisions. Prerequisites: BADM/MKTG 370 and STAT 281. Cross-Listed: ECON 576.

MKTG 590 - Seminar Credits: 1-3

MKTG 591 - Independent Study Credits: 1-3

MKTG 592 - Topics Credits: 1-4

MN 791 - Independent Study Credits: 1-3

MKTG 594 - Internship Credits: 1-6

MKTG 596 - Field Experience Credits: 1-3

MKTG 788 - Master's Research Problems/Projects Credits: 1-3

MKTG 792 - Topics Credits: 1-4

MNET (Manufacturing Engineering Technology)

MNET 560 - Manufacturing Cost Analysis Credits: 3
Cost estimating for processes and products related to manufacturing operations; engineering economics; analysis, evaluation, and budget justification for capital expenditures. Cross-Listed: OM 560.

MNET 568 - Manufacturing Plant Management Credits: 3
A case-oriented capstone course designed to integrate the technical, managerial, analytical, and communication skills which have been acquired. Prerequisites: MNET 367.
**MRCH (Merchandising)**

**MRCH 510 - Consumer Behavior in Merchandising Credits: 3**
Evaluation of psychological, sociological, and cultural theories of consumers' behavior through the examination of factors influencing consumers' decision-making process. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 520 - Professional Advancement in Merchandising Credits: 3**
Analysis of leadership and how it affects organizational culture and change through a prism of past and current experiences. Various leadership styles will be examined and a personal leadership philosophy will be developed for professional advancement in merchandising. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 530 - Product Design, Development, and Evaluation Credits: 3**
Advanced study of issues and management strategies necessary to design and produce a competitively priced product. Examination of the role of globalization and rapidly changing technology on the development of a successful product. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 540 - Promotional Strategies in Merchandising Credits: 3**
Examination of integrated marketing communications Prerequisites: (i.e. promotional strategies and techniques) while fostering cultural and global awareness, social responsibility and ethical decision-making in the field of promotion. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 550 - Retail Theory and Current Practice Credits: 3**
Theoretical and applied analysis of merchandising strategies; assessment of internal and external environmental forces impacting strategic decisions by retail firms; synthesis of past and present trends in order to forecast probable future patterns. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 560 - Retail Analytics Credits: 3**
This course addresses the use of quantitative data from the merchandising industry to support managerial decision-making; specifically, how to format and analyze typical consumer data. Students will apply analytical approaches to problem-solving using Microsoft Excel including: Formulas, Functions, Solver, and Pivot Tables. This course will strengthen a student's decision-making and analytical skills while providing new perspectives and approaches to apply quantitative techniques and methods to solve real-world business problems. Students will learn to summarize and present quantitative information designed for industry stakeholders. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 591 - Independent Study Credits: 1-3**
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 592 - Topics Credits: 1-3**

**MRCH 610 - History and Contemporary Issues in Trade Credits: 3**
Examination of fiber, textile, and apparel industries in a global context. Specifically, a look at the historical development of the global and US textile and apparel industries and how the global environment (economic, political, and social systems) affects textile and apparel production and trade. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 620 - International Merchandise Management Credits: 3**
Comprehensive understanding of theory, practices and trends on international merchandise management. An analysis of global retail systems and the way goods are distributed to consumers in various countries. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 630 - Research Methods in Merchandising Credits: 3**
Overview of the research process used in social science, including an overview and analysis of research methodologies. This class will also include a review of current merchandising literature with implications for future research. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 640 - Financial Merchandising Implications Credits: 3**
The advanced study of financial trends in the merchandising industries; implications related to sole proprietors, partnerships, franchises, S corporations, and C corporations. Foci will be on the financial implications of recent advances in the field that assist graduate students as they embark on careers in academia and/or merchandising industries. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 650 - Strategic Planning in Merchandising Credits: 3**
Examination of the executive planning process utilized to develop successful corporate strategies; emphasis on the importance of a market orientation for building customer value and sustaining a competitive advantage. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 695 - Practicum Credits: 1-6**
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 788 - Master's Research Problems/Projects Credits: 1-3**
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MRCH 798 - Thesis Credits: 1-6**
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

**MUS (Music)**

**MUS 591 - Independent Study Credits: 1-3**

**MUS 592 - Topics Credits: 1-5**

**NRM (Natural Resource Management)**

**NRM 505 - Entomology (COM) Credits: 3**
An introduction to the general biology and classification of insects. Course emphasis placed on taxonomy, methods of identification, and ecological role of insects. Students will become familiar with basic insect anatomy and morphology, classification at the order level with exemplary families that include taxa of agricultural or environmental interest, and acquire an ability to sight recognize particular species that have agricultural, environmental, wildlife, and human and livestock health importance. Corequisites: NRM 505L. Prerequisites: BIOL 103, BIOL 153, or BOT 201 and MATH course. Cross-Listed: PS 505.

**NRM 505L - Entomology Lab Credits: 0**
Laboratory experience that accompanies PS 505. Corequisites: NRM 505. Cross-Listed: PS 505L.

**NRM 550 - Freshwater Monitoring and Assessment Credits: 3**
This course will introduce policy's related to monitoring assessment of fresh waters, design of freshwater monitoring and assessment programs, standard field and laboratory techniques used by monitoring agencies, analysis and interpretation of monitoring data and uses of monitoring data to improve management of freshwater resources. Corequisites: NRM 550L.

**NRM 550L - Freshwater Monitoring and Assessment Lab Credits: 0**

**NRM 564 - Ecosystem Ecology Credits: 3**
Study of energy and material flows through the living (plants, animals, microbes) and non-living (soils, atmosphere) components of ecological systems. Discussion of the major elements cycles and patterns of energy flow through ecosystems, including how those fluxes and their controls differ for different ecosystems. Linkages between ecosystem structure and function will be emphasized. Prerequisites: BIOL 311

**NRM 566 - Environmental Toxicology and Contaminants (COM) Credits: 3**
This course will prepare students in the area of Ecological Effects of Toxic Substances and other contaminants. Wildlife toxicology and impacts of agriculture on the Northern Plains will be emphasized. Topics covered will include pesticides, heavy metals, aquatic and terrestrial ecotoxicity and other topics related to Wildlife Toxicology.
NRM 582 - Natural Resource Management Biometry Credits: 3
Study and application of advanced quantitative methods used to assess natural resources. Estimation of parameters, hypothesis testing, and use of classical fisheries and wildlife sciences, ecology, environmental science, and range science statistical techniques. Corequisites: NRM 582L. Prerequisites: NRM 282.

NRM 582L - Natural Resource Management Biometry Lab Credits: 0
Laboratory to accompany NRM 582. Corequisites: NRM 582.

NRM 592 - Topics Credits: 1-3

NRM 706 - Landscape Ecology Credits: 3
Study of the structure function and management of landscape ecosystems. Integrates the study of plants, animals and the physical environment at larger spatial scales, and application of these concepts to land management issues. An understanding of ecological principles is recommended prior to enrollment. Corequisites: NRM 706L.

NRM 706L - Landscape Ecology Laboratory Credits: 0

NRM 767 - Fire and Ecosystems Credits: 3
This course is a broad treatment of how fire and ecosystems combine to form the landscapes that we see. Course material examines the contributions of climate, topography, weather, and fuels to the fire environment and how these factors influence wildland fire behavior. We will explore the interactions between ecological processes and fire regimes in ecosystem dynamics and the ways in which human land use and land management affect the outcomes. Cross-Listed: GEOG 767/GSE 767.

NRM 768 - Global Climate Change Credits: 3
The course will provide a multidisciplinary examination of the drivers of the Earth's climate, how they interact, and how they change over time. We will critically examine the roles of greenhouse gases and anthropogenic land cover/use in affecting these changes as well as the types, strengths and limitations of global climate models. Class will combine lectures on various aspects of the Earth's climate system with class discussion of a variety of scientific papers exploring the current controversies and ideas central to climate research. Students will be challenged to develop their own projects/papers on course-related topics and use the most recent scientific research to decide for themselves about the importance of global climate change. Cross-Listed: GEOG 767/GSE 767.

NRM 790 - Seminar Credits: 1

NRM 791 - Independent Study Credits: 1-3

NRM 792 - Topics Credits: 1-6

NURS (Nursing)

NURS 615 - Foundations of Advanced Nursing Credits: 3
Introduction to contemporary core concepts, issues, and trends common to multiple roles and educational pathways in the nursing discipline beyond basic licensure. Content includes overview of topics emphasized across roles and curricula following advances in nursing knowledge, clinical practice, technology, and priorities of the profession in changing healthcare environments.

NURS 623 - Pathophysiology Across the Lifespan - Application to Advanced Practice Nursing Credits: 4
Normal physiologic and pathophysiologic concepts will be examined with emphasis on problems of the major body systems. Changes in normal function that result in symptoms indicative of illness and assessment of an individual's response to illness will be interpreted. Pathophysiologic changes will be examined in relation to expected growth and development throughout the lifespan. Prerequisites: NURS 615 (or Concurrent).

NURS 626 - Research in Nursing and Health Care Credits: 3
Overview of the research process in nursing science to understand development of the evidence base for nursing practice in healthcare and the discipline of nursing. Content includes research appraisal and basic elements of qualitative and quantitative methods including concepts, frameworks, and approaches in the design, conduct, analysis, and interpretation of nursing research studies. Prerequisites: NURS 615 (or concurrent).

NURS 631 - Advanced Assessment Across the Lifespan Credits: 4
This course builds on basic skills of individual health assessment. It includes assessment of physiological and psychosocial processes relevant to the health of all age groups, and the assessment of selected human pathologies. Advanced assessment skills and tools necessary to identify health care needs and apply health maintenance protocols are included. Corequisites: NURS 631L. Prerequisites: NURS 615.

NURS 631L - Advanced Assessment - Lifespan Clinical Laboratory Credits: 0

NURS 645 - CNL I: Improvement Science Credits: 2-5
The CNL student will focus on the nursing leader role within complex healthcare systems and across various healthcare settings using evidence based knowledge for strategic leadership. The CNL student will develop skills and knowledge in integrating patient evaluation, risk assessment information, and inter-professional communication. Using information systems within clinical practice experiences, students will perform in depth analyses of microsystems, population focused programs, and strategies that promote health, improve outcomes, and facilitate the design of high-performing systems. Prerequisites: NURS 615, NURS 626, NURS 670, NURS 675, NURS 760, and NURS 860.

NURS 646 - CNL II: Clinical Immersion and Capstone Project Credits: 1-6
This course provides the opportunity for the CNL student to demonstrate understanding of clinical role practice within various healthcare settings and specialties through a guided role immersion experience. Students practice 300 hours with an approved preceptor in a selected clinical setting and complete a quality improvement project. Prerequisites: NURS 645.

NURS 670 - Health Policy, Legislation, Economics and Ethics Credits: 3
Legal, political, economic, and ethical issues related to health policy will be examined from the perspective of advanced practice nursing roles. Prerequisites: NURS 615.

NURS 675 - Cultural Competence in Health Care Credits: 3
This course will increase the student's awareness regarding the dimensions and complexities involved in caring for people from diverse cultural backgrounds. The issues of health care delivery will be explored and contrasted with the choices that people must make when attempting to deal with health care issues. Prerequisites: Admission to a graduate program in nursing or instructor consent.

NURS 691 - Independent Study Credits: 1-3

NURS 692 - Topics Credits: 1-3

NURS 710 - Curriculum Development in Nursing Credits: 3
This course introduces the student to traditional and contemporary considerations for curriculum planning, design, instruction, and evaluation as applied to nursing education.

NURS 720 - Technology-Based Instruction for Nurse Educators Credits: 3
This course will explore the educational and psychological underpinnings of technology-based instruction and challenge the participants to apply those theories in the development of working products. Notes: Students will produce media-rich interactive programs for use in nursing education programs or continuing education courses.

NURS 750 - Transformational Leadership in Nursing Credits: 3
Analysis of effective and efficient methods of providing leadership and management for an education program, administrative unit or clinical area. Discussion of a variety of situations that leaders negotiate with regard to program and personnel development, strategic planning, budget preparation, fundraising, and program evaluation.

NURS 760 - Advanced Concepts in Health Promotion and Disease Prevention Credits: 3
Critical analysis and applications of community preventive service guidelines, health promotion and disease prevention theories and models, and implementation strategies. Foundations of social, cultural, behavioral, genomic, political, and environmental factors impacting health. Exploration of provider roles in assessing the health of individuals and aggregates in planning health promotion, disease prevention, and health maintenance programs with a focus on chronic conditions and vulnerable, rural, and underserved populations. Corequisites: NURS 615 (concurrent or prerequisite).
NURS 765 - Family Nurse Practitioner Practicum I Credits: 7 (3, 4)
The emphasis of the course is on the application of evidence-based knowledge to clinical practice in primary care settings. Students will strengthen their health history and physical examination skills in the formulation of differential diagnoses and clinical decision-making relative to common primary care conditions and developmental variations such as pregnancy. Development of initial primary care procedural skills along with ordering and interpreting diagnostic testing will be included. This course provides the basis for integrating clinical data with knowledge of pathophysiology to formulate diagnostic hypotheses for clients across the lifespan. Prerequisites: NURS 623, NURS 631, and PHA 645.

NURS 771 - Family Nurse Practitioner Practicum II Credits: 7
Emphasizes the integration of pathophysiology and specific disease and symptom complexes in the formulation of differential diagnoses and clinical management of acute and chronic health problems. Prerequisites: NURS 765 and PHA 645.

NURS 774 - Nurse Administrator: Practicum Credits: 5
Provides the opportunity to integrate principles and theories from support courses in health service administration and nursing courses to the administration of a nursing department or agency. Emphasis is placed on advanced nursing practice needed to administer the work of nursing. This is a supervised administrative practicum focused on broad participation in the administrative process in a health care organization. Corequisites: NURS 774L. Prerequisites: Instructor consent.

NURS 774L - Nurse Administrator Practicum Clinical Laboratory Credits: 0

NURS 776 - Family Nurse Practitioner III - Small Group Instruction Credits: 3
Emphasis is placed on the concept synthesis and outcome evaluation of the differential diagnoses and referral to multidisciplinary healthcare team members are emphasized in the development of appropriate interventions for the achievement and maintenance of optimal health. Transition from the student nurse practitioner role to professional practice is facilitated. Corequisites: NURS 777. Prerequisites: NURS 777.

NURS 777 - Family Nurse Practitioner: Practicum III Credits: 3-9
The clinical internship offers the advanced practice nursing student the opportunity to synthesize and apply theoretical concepts derived from nursing and other health-related disciplines to the clinical practice settings for the provision of primary care to clients across the lifespan. Independent and interdependent clinical decision making is expected and interdisciplinary collaboration and referral are emphasized. Corequisites: NURS 776. Prerequisites: NURS 771.

NURS 778 - Nurse Educator Practicum Credits: 5
This course is designed to provide teaching experiences in the classroom and clinical settings under the supervision of a faculty preceptor/mentor. Students will design, implement, and evaluate classroom and clinical education under the direction of a selected nurse faculty mentor. Corequisites: NURS 778L. Prerequisites: NURS 615, NURS 710 and NURS 720.

NURS 778L - Nurse Education - Practicum Clinical Laboratory Credits: 0

NURS 788 - Master's Research Problems/Projects Credits: 1-2
Prerequisites: NURS 626.

NURS 795 - Practicum Credits: 3

NURS 798 - Thesis Credits: 1-7

NURS 810 - Doctoral Seminar Credits: 1
A one credit doctoral seminar that provides a forum for pre-candidates and dissertators to integrate and apply skills and content from coursework, life experiences, and independent study to doctoral student academic situations while addressing relevant questions related to faculty, doctoral student, and researcher roles toward completion of degree requirements. The goal is to facilitate learning and socialization for successful student progression through pre-candidacy, candidacy, and completion of dissertation.

NURS 815 - Philosophical Basis for Nursing Inquiry Credits: 3
Analysis of philosophy of science traditions and their relationship to knowledge development in nursing. Prerequisites: Admitted to PhD in Nursing.

NURS 820 - Theory Development in Nursing Credits: 3
Critical analysis of theory development and theory construction in nursing science. Evaluation of the relationship between theory construction and research methods to generate and test theories is explored. Emphasis is placed on continued analysis of theories and their relationships with research and practice. The focus is on the fit between theoretical and operational foundations of research. Students conduct an extensive review of the literature on phenomena of concern to nursing in order to generate theory and empirical referents. Strategies for synthesis of concepts, statements, and theories are practiced. Prerequisites: NURS 815.

NURS 825 - Qualitative Research Methods in Nursing Credits: 3
Analysis of qualitative research methods in nursing, paradigmatic, theoretical, and conceptual issues related to these approaches, and the nature of the nursing knowledge generated.

NURS 830 - Quantitative Methods in Nursing Research Credits: 3
Analysis of research designs, problems of measurement, methods of data collection, and analysis and interpretation of data in quantitative research. An integral part of the course is the development and analysis of a pilot research proposal investigating a current nursing problem.

NURS 832 - Mixed Methods Research Credits: 3
An introduction to the design and conduct of mixed methods research in health and human sciences including theoretical underpinnings, method designs, sampling strategies, analysis, and ethical issues common to mixed methods. Students will develop skills in conducting and evaluating mixed methods research. Prerequisites: NURS 825 and NURS 830. Cross-Listed: HSC 832.

NURS 835 - Ethical Issues Influencing Practice and Research in Health Credits: 2
An in-depth critical analysis of ethical dimensions encompassing health care, politics, policy, medicine, research, and clinical practice. Interdisciplinary perspectives are utilized to synthesize ethical positions and viewpoints on health-related issues for individuals, groups, and populations in contemporary society.

NURS 840 - Health Promotion Theory and Research in Underserved Populations Credits: 3
Study of the theoretical foundations of health behavior and health promotion as a basis for nursing research. The theory and principles of how health behavior patterns of individuals, families, and communities are acquired, maintained and changed are emphasized. The influence of social and psychological factors such as ethnicity, socioeconomic status, gender and social support is included. Research application of theories and models of health promotion are analyzed and relevant research methodologies are applied to under-served populations. Prerequisites: NURS 815, NURS 820 and NURS 825.

NURS 845 - Measurement and Instrument Evaluation in Health Sciences Research Credits: 3
Analysis of measurement theories and approaches to measurement in health sciences research. Inductive and deductive processes of constructing and evaluating instruments to measure behavioral, biological, social, cultural, and clinical concepts are examined. Content includes instrument scaling techniques and procedures to evaluate psychometric properties including reliability, validity, and factor analysis. Examination of measurement issues with different concepts and populations. Basic knowledge of concept analysis and inferential statistics is expected prior to enrollment. Prerequisites: NURS 830.

NURS 850 - Philosophical and Theoretical Foundations for Evidence-Based Care Credits: 3
This course will prepare the student to analyze significant practice issues with the theoretical and scientific underpinnings of knowledge-based practice. The student will employ advanced clinical judgment to assess the evidence from nursing theories and models, interdisciplinary theories, research findings, and value systems of clients.

NURS 855 - Translational Research in Health Care Credits: 3
Students will determine how evidence derived from research will guide the DNP Project's methodology to improve quality care provided to a population. Analysis, ethical considerations, and impact of the project will be explored. Prerequisites: NURS 850.
NURS 860 - Health Operations and Financial Management for Nurse Leaders Credits: 3
Focuses on business skills needed by the nurse executive or advance practice nurse to lead, influence, and develop healthcare delivery systems. Principles of financial management, healthcare economics, human resource and productivity management, strategic management, marketing, and information management and their application to healthcare delivery systems will be examined. Students will apply these business skills to selected specialty areas.

NURS 875 - DNP Intensive Credits: 1-3
Focused clinical experiences aligned with the practice doctorate. Students and the program adviser and/or faculty will develop clinical experiences that augment current practice expertise. Prerequisites: NURS 850.

NURS 880 - DNP Project Credits: 1-8
Literature and evidence will be synthesized with stakeholders and inter-professional collaborators to develop and implement a practice innovation project for a rural or underserved population, health system, or community. The advanced practice nursing student will implement, evaluate, and defend an intervention that improves health care practice and quality of care. Some seminar content will be followed by work with a project major advisor whose expertise matches the intent of the Practice Innovation Project (PIP). Prerequisites: NURS 675, NURS 750, NURS 835, NURS 850 and NURS 855.

NURS 895 - Practicum Credits: 1-3

NURS 898 - Dissertation - PhD Credits: 1-24

NUTR (Nutrition & Dietetics)

NUTR 522 - Advanced Human Nutrition and Metabolism Credits: 4
Principles of metabolism and application to human nutrition.

NUTR 523 - Medical Nutrition Therapy I Credits: 3
This course introduces the role of nutritional intervention in pathological conditions. Students will demonstrate the ability to screen for nutritional risk, collect data for nutritional assessment and calculate and/or define diets for common conditions.

NUTR 523L - Medical Nutrition Therapy I Laboratory Credits: 0
This course introduces the role of nutritional intervention in pathological conditions. Students will demonstrate the ability to screen for nutritional risk, collect data for nutritional assessment and calculate and/or define diets for common conditions.

NUTR 524 - Community Nutrition Credits: 3
Application of learning principles, teaching methods and knowledge of nutrition in community nutrition education programs and out-patient nutrition counseling. Corequisites: NUTR 524L required. Prerequisites: NFS 315 and NFS 323.

NUTR 524L - Community Nutrition Laboratory Credits: 0
Corequisites: NUTR 524 required.

NUTR 525 - Medical Nutrition Therapy II Credits: 3
Continuation of NPS 523. Prerequisites: NUTR 523.

NUTR 525L - Medical Nutrition Therapy II Laboratory Credits: 0

NUTR 526 - Production of Wine Beer Spirits Credits: 3
Students will learn the procedures required for the biological and agricultural production of wine, beer and spirits coupled with the science of fermentation and the methodology required for the tasting of wine and beer for flavor/odor identification per industry guidelines. Lecture topics of student inquiry include: (1) the brewing of beer and the functional contributions of its ingredients, (2) wine production from vine to bottle, (3) the distillation of spirits and (4) the marketing, pairing and service of wine, beer and spirits. This course is designed for students/graduates who will potentially go into the business of not only growth and production, but also marketing and serving wine, beer and spirits. Corequisites: NUTR 526L. Prerequisites: Participants must be 21 years of age or older to enroll.

NUTR 526L - Production of Wine Beer Spirits Laboratory Credits: 0
Laboratory investigation includes hands-on opportunities involving the production of beer and wine. Students will experiment with production parameters and investigate quality defects. Wine and beer quality will be assessed through laboratory testing coupled with taste testing without consumption (taste and spit) both per industry specifications. Students will develop skills in identifying specific flavors/odors such as oak, butter or lemon in wine and similar tasting techniques in beer. Corequisites: NUTR 526. Prerequisites: Participants must be 21 years of age or older to enroll.

NUTR 560 - Nutrigenomics and Molecular Nutrition Credits: 3
Non-communicable diseases (NCD) or chronic diseases though highly preventable are the leading killer in both developing and developed economies around the world. This indicates inadequacy of current clinical practices and underscores the importance of lifestyle and dietary approaches in tackling this growing epidemic. Traditional nutrition research and education has focused on determining optimal dietary-needs and dietary-behavior for human development and sustenance. This course will introduce the principles of Nutrigenomics, a newer science that seeks to provide a molecular understanding for how diet and common dietary constituents affect human health by altering gene expression.

NUTR 580 - Travel Studies Credits: 1-5
This travel-study course is designed to provide extra-mural educational experiences, as approved by and under the direction of a faculty member, and may be in cooperation with faculty and administrators at other institutions. Students will participate in hands-on activities and design educational activities for presentation at selected locations. Includes pre-travel orientation, post-travel self-evaluation, and a written report.

NUTR 591 - Independent Study Credits: 1-6
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 660 - Maternal and Child Nutrition Credits: 3
Fundamental principles of nutrition during pregnancy, lactation, infancy, and childhood. Topics include: the physiologic and genetic events that occur during the process of conception, pregnancy and growth; nutritionally critical periods during pregnancy; lactation and growth; implications of nutrition on health, growth and mental/emotional development; development of food habits in children; and the current educational and support programs available to the mother and child. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 662 - Sociocultural Aspect of Nutrition Credits: 3
The study of diverse dietary patterns and their impact on nutritional health including food attitudes, socioeconomic structures, cultural patterns of food intake and their effect on nutrient composition of the diet. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 702 - Macronutrients in Human Nutrition Credits: 3
The course is an overview of macronutrients, including carbohydrates, lipids and proteins. It will cover recent findings on their functions in human nutrition and health. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 704 - Phytochemicals Credits: 2
The course is an overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals, and oilseeds. It will cover recent findings on chemistry, physiological functions, potential health implications of phytochemicals. It has been developed as an Internet-based course. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 705 - Functional Foods: Disease Prevention Credits: 3
Integrate and evaluate the regulatory principles, food science, nutrient science, and nutritional metabolism for the development of functional foods, nutraceuticals, and dietary supplements for chronic disease prevention. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 706 - Nutrition and Immunology Credits: 3
Principles and issues related to nutrition and immunology. Impact of nutrients and nutritional status on immune responses. Impact of disease states on nutritional status. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.
NUTR 708 - Evidence Based Analysis Credits: 3
This course will cover the process of evidence-based analysis which uses scientific evidence to formulate and standardize practice guidelines and to develop programs. A variety of disciplines such as dietetics, athletic training, medicine, psychology and education use evidence-based practice and/or programs. The emphasis of the course will be on a transdisciplinary process and how it can be utilized in a student's chosen field. When possible, students will be encouraged to use his/her thesis or dissertation topic in order to complete required assignments and activities.

NUTR 709 - Advanced Lipid Metabolism Credits: 3
The course is designed specifically to provide the student with an understanding of unique roles that dietary fatty acids play in chronic disease with a focus on the role of lipids in nutritional genomics. Additionally, this course is designed to provide the student with an understanding of the fundamental concepts involved in how nutrients regulate gene expression (nutrigenomics) and how an individual's genotype influences their nutrient requirements (nutrigenetics).

NUTR 710 - Dietary and Herbal Supplements Credits: 3
Explore the safety and efficacy of botanical/herbal and dietary supplements in health applications including: dietary supplementation in the prevention and treatment of chronic disease. It is advised for students to complete Human Physiology prior to enrollment. Course is designed to meet professional education for the registered dietitian. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 711 - Clinical Aspects of Nutrition Support Credits: 3
The course is designed specifically to provide the student with an understanding of specialized nutrition assessment and support, review of energy expenditure and substrate utilization in specific disease states, current methods for the initiation and management of enteral and parenteral nutrition therapy including access, metabolic and mechanical complications. Evaluation of nutrition support methodology in selected disease states is also included. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 715 - Public Health Nutrition Credits: 3
This course provides information and activities related to the broad topic of public health nutrition and will focus on how nutrition research, policies and programs impact populations. Students will gain a broader understanding of public health nutrition through case studies, discussions and experiential learning experiences.

NUTR 716 - Nutritional Aspects of Oncology Credits: 3
Students will gain understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

NUTR 722 - Nutrition Counseling/Ed Methods Credits: 3
Nutrition education for groups and individuals in clinical and community settings. Includes discussion and experience in applying learning theory, assessing educational needs, stating goals and objectives, selecting learning activities, implementing and evaluating instruction, and documenting care provided. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 723 - Nutrition Focus on Life Stages Credits: 3
The influence of normal physiological stresses on nutritional needs throughout the life span will be explored. Evaluating dietary intake and identifying appropriate community nutrition services will be included in the on-line discussions. Specific considerations, such as the influence of age and cultural heritage, will be incorporated. An opportunity will be given to each student to plan, present, and evaluate a mini nutrition education lesson. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 724 - Nutrition Education in the Community Credits: 3
Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education for registered dietitians. Notes: Online. Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

Course Information
NUTR 743 - Foundations in Leadership Credits: 3
This course builds upon leadership theories to develop the fundamental concepts and skills to bridge the gap between theory and practice. After completing this course, students will be able to successfully evaluate leadership theories (classic and contemporary); investigate current trends in leadership and identify positive applications in the dietetic community. Students will formulate a plan for professional growth as a leader in the field of dietetics and nutrition. The student will be asked to respond to critical thinking opportunities and demonstrate their understanding of key concepts through exercises, discussion questions, quizzes, a Learning Journal, and their Leadership Growth Plan. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 750 - Issues in Obesity Credits: 3
This course will introduce students to nutrition and physical activity related factors that contribute to obesity in the United States. Students will have the opportunity to explore and discuss complex obesity issues with students from a variety of disciplines and gain an appreciation for the need of interprofessional collaboration in obesity prevention efforts.

NUTR 751 - Nutrition and Physical Activity Assessment and Evaluation Credits: 3
This course will introduce students to a variety of nutrition and physical activity assessment tools. Students will have the opportunity discuss the strengths and weaknesses of different tools and gain experience collecting, analyzing, and interpreting nutrition and physical activity data. Prerequisites: NUTR 750.

NUTR 760 - Vitamins and Minerals in Human Nutrition Credits: 3
The study of the functional roles of vitamins and minerals in human nutrition. Course content will include: identification of essential functions for the vitamins and minerals; health implications of varying amounts vitamins and minerals in the diet; interactions between vitamins; interactions between minerals; vitamin and mineral interactions and the process of establishing nutrient requirements. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 761 - Nutrition and Aging Credits: 3
Physiological and behavioral changes associated with aging and their impact on nutrition. Effect of nutrition on aging and lifespan. Common health problems of the aged and their implications. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 765 - Dietetic Accounting Concepts Credits: 3
An emphasis on financial statement analysis is the main objective of the course. A review of all major accounts in the income statement, balance sheet, and statement of cash flows is made in determining a firm's performance and financial condition in relation to what matters most to shareholders and investors. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 769 - Healthcare Administration for Dietetics Credits: 3
Comprehensive review of current health care institutions and their response to the economic, social/ethical, political/legal, technological, and ecological environments. Current issues in today's healthcare environment and challenges which must be met by healthcare administrators. Notes: Online. Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 770 - Food Writing for Professionals Credits: 3
Understanding and appreciating how to communicate effectively in writing about food and food-related topics. Hands-on experience in researching and writing for various audiences and types of media. Course is designed for the registered dietician. Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 775 - Nutrigenomics and Health Credits: 3
Nutritional genomics (nutrigenomics), the junction between health and diet can be seen as the combination of molecular nutrition and genomics. Diet is the most important environmental factor influencing expression of genetic information because of the constant exposure to nutrients in foods. The advent of omics-based sciences has created unprecedented opportunities for increasing our understanding of how nutrients modulate gene expression, influence cellular and organismal metabolism and ultimately influence health. The course will be taught using integrative concepts of nutritional biochemistry, gene function, signal transduction and molecular biology in context of human diseases. Prerequisites: CHEM 464 and BIOL 371 (waiver by petition only).

NUTR 782 - Epidemiology Credits: 3
The course introduces concepts and methodologies for the study of health and disease in human populations. Different study designs and their methods of analysis will be discussed, as well as sources, handling, and interpretation of epidemiologic data. Cross-Listed: BIOL 782/HSC 782.

NUTR 794 - Internship Credits: 1-3

NUTR 795 - Practicum Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

NUTR 798 - Thesis Credits: 1-7

OM (Operations Management)

OM 560 - Manufacturing Cost Analysis Credits: 3
Cost estimating for processes and products related to manufacturing operations; engineering economics; analysis, evaluation, and budget justification for capital expenditures.

OM 562 - Quality Management Credits: 3
Course focus is on managerial philosophies and techniques of quality planning and control. This includes quality improvement tools, reliability, cost of quality, and human factors that affect quality initiatives. Prerequisites: STAT 281 or instructor consent.

OM 563 - Supply Chain Management Credits: 3
Study and analysis of activities in the flow of materials from the supplier to the consumer. These include physical supply, operations planning and control, storage and warehousing, and physical distribution.

OM 569 - Project Management Credits: 2-3 An overview of project management as it relates to integrated systems, product/project life cycle, and organizational change. Defining, estimating, scheduling, risk management, and project team leadership issues will be covered as they relate to projects. Cross-Listed: GE 569.

OM 620 - Analysis in Operations Management Credits: 3
Management analytics with emphasis on problem identification, model construction, data analysis-summary-interpretation, solution procedures, risk & uncertainty.

OM 650 - Manufacturing Systems Management Credits: 3
Principles and methods of applied research in business and industry. Examination of methods to initiate research projects, generate proposals and execute research plans; data acquisition, analysis and interpretation are covered. Prerequisites: STAT 541.

OM 660 - Operations Management Credits: 3
Product planning, demand forecasting and management, capacity planning, scheduling, inventory planning and timing, materials management, quality, work standards and measurement.

OM 665 - Quality Control Applications Credits: 3
Quality control theory applied to problems in production systems, including probability concepts, control chart concepts, sampling inspection plans; mean time between failure; and, application of statistics for quality control in discrete-item manufacturing systems.

OM 670 - Research Methods in Management Credits: 3
Principles and methods of applied research in business and industry. Examination of appropriate methods to conduct literature reviews, design methodology, develop proposals for research projects, and present results.

OM 690 - Seminar Credits: 1

OM 760 - Quality Control Credits: 3
Application of statistical techniques to the control of quality and the development of economical inspection methods. Collection analysis, and interpretation of operations data; control charts and sampling procedure. Prerequisites: STAT 281 or STAT 381. Cross-Listed: ME 760/STAT 760. 
OM 767 - Decision Theory Credits: 3
Examination and evaluation of modern techniques of decision making. Mathematical models and measurements theory. Certainty, risk, and uncertainty.

OM 788 - Master’s Research Problems/Projects Credits: 1-2

OM 789 - Thesis Credits: 1-7

OM 791 - Independent Study Credits: 1-3

OM 792 - Topics Credits: 1-3

PE (Physical Education)

PE 585 - Travel Studies Credits: 1-5
This travel study course is designed to provide extra-mural educational experiences, as approved by, and under the direction of a faculty member, and may be in cooperation with faculty and administrators of other institutions. Students will participate in hand-on activities, and design educational activities for presentation at selected locations.

PE 705 - Sports Medicine Credits: 2
A review of the basic fundamentals of athletic training and exposure to recent developments in the sports medicine field. Undergraduate Prevention and Care of Athletic Injuries or consent.

PE 706 - Motor Learning and Development Credits: 3
The study of human behavior as it relates to the learning and performance of motor skills. The understanding of motor learning as an essential foundation underlying the development of successful instruction and training strategies critical for skill acquisition. Laboratory work. Prerequisites: Instructor consent.

PE 730 - Physical Education Teacher Education Credits: 3
Readings, lectures, and discussions designed to analyze the process of preparing physical educators for the teaching profession. Includes discussion of external influences, problems and possible solutions, socialization and effective teaching in the field. Prerequisites: Instructor consent.

PE 732 - Analyses and Strategies of Teaching and Supervision of PE and Sports Credits: 3
Study and application of theoretical and practical knowledge of effective teaching/coaching, designed to improve teaching and coaching in physical education, including techniques of analysis and supervision. Notes: Restricted to Sport and Recreation Studies majors only

PE 742 - Psychological Aspects of Sport and Exercise Credits: 3
Psychological theories and principles applied to physical education, sport, and exercise. Interpretation and analysis of human behavior. Pre-requisite: instructor consent. Topics include personality, arousal and anxiety, motivation, self efficacy and self-esteem, attentional focus, audience effects, aggression, leadership, as well as intervention strategies.

PE 751 - Laboratory Techniques in Exercise Physiology Credits: 2
Laboratory experience using methods, measurements, and instruments for conducting research in the area of exercise physiology. Corequisites: PE 751L. Prerequisites: Consent.

PE 751L - Techniques in Exercise Physiology Laboratory Credits: 0
Laboratory to accompany PE 751 Corequisites: PE 751.

PE 770 - Sport and Recreation Administration Credits: 3
This course provides theoretical and practical knowledge in the administration and leadership of sport and recreation organizations. Specific administration techniques and theories will be studied to provide the foundation for effective leadership in sport and recreation organizations. Prerequisites: Instructor consent.

PE 771 - Seminar in Sport and Recreation Administration Credits: 3
This course examines a variety of current issues related to the administration of sport and recreation organizations. Topics include social-cultural issues, mass communication, economic issues, legal issues, event management, fundraising and development, etc.

PE 772 - Financial Aspects of Sport and Recreation Administration (COM) Credits: 3
This course examines basic financial and managerial accounting concepts necessary to be financially literate in sport and recreation organizations. Budgeting and fundraising concepts will also be addressed, as well as, corporate financial principles.

PE 780 - Introduction to Graduate Study and Research Credits: 1
Orientation to graduate studies, policies and procedures. Introduction to the development of research proposals, critical thinking, and critiquing research.

PHA (Pharmacy)

PHA 610 - Introductory Practice Experience II Credits: 3
Students apply the academic and theoretical knowledge they have acquired in didactic courses to practical situations within a pharmacy setting. The drug dispensing process, patient counseling, and management of the pharmacy will be emphasized during the course. Notes: Pass/fail grading.

PHA 645 - Pharmacotherapeutics Across the Lifespan: Application to Advanced Practice Credits: 2-4 To provide the student with the knowledge and skills to assess, diagnose and manage (including the prescription of pharmacologic agents) a client's common health problems throughout the lifespan in a safe, high quality, and cost-effective manner. Notes: Graduate nursing students only.

PHA 647 - Pharmacological Issues in Mental Health Counseling Credits: 3
An overview and discussion of medications and medication issues that mental health counselors encounter. The role of the counselor with clients requiring counseling and pharmacotherapy treatments will be emphasized.

PHA 700 - Directed Studies Practice Experience Credits: 4-5 Advanced experiential course in pharmacy.

PHA 701 - Home Health/Hospice Practice Experience Credits: 5

PHA 702 - Indian Health Services Practice Experience Credits: 5

PHA 703 - Pharmacy Administration Practice Experience Credits: 5

PHA 704 - Nutrition Support Practice Experience Credits: 5

PHA 705 - Clinical Research Practice Experience Credits: 5

PHA 706 - Critical Care Practice Experience Credits: 5

PHA 707 - Infectious Disease Practice Experience Credits: 5

PHA 708 - Surgery Practice Experience Credits: 5

PHA 709 - Nephrology Practice Experience Credits: 5

PHA 710 - Pharmacokinetics Practice Experience Credits: 5

PHA 711 - Oncology Practice Experience Credits: 5

PHA 712 - Nutrition Practice Experience Credits: 5

PHA 713 - Managed Care Practice Experience Credits: 5

PHA 714 - Community Pharmacy Practice Experience Credits: 5
Clerkship experience at an affiliated site. Prerequisites: P4 year standing.

PHA 716 - Hospital/Institutional Pharmacy Practice Experience Credits: 5
Clerkship experience at an affiliated site. Prerequisites: P4 year standing.

PHA 717 - Community Health and Patient Monitoring Practice Experience Credits: 5
Clerkship experience in pharmaceutical care in a community pharmacy.

PHA 719L - Pharmacy Capstone Credits: 1
Capstone course evaluating integration and application of pharmacy knowledge and skills as well as readiness to enter Advanced Pharmacy Practice Experiences (APPEs).
PH 720 - Introduction to Advanced Concepts in Pharmaceutical Sciences Credits: 3
An introduction to advanced concepts in pharmaceutical sciences. Prerequisites: Instructor consent.

PH 723 - Ethics in Healthcare Practice Credits: 2
Overview of ethical principles and theory, with emphasis on the professional-client relationship. Prerequisites: P3 standing.

PH 724 - U.S. Health Care Systems Credits: 2
An overview of the health care system in the United States and its impact on pharmacy practice.

PH 725 - Advanced Concepts in Biomedical Sciences and Pharmacogenomics Credits: 3
This course will cover advanced biomedical and pharmacogenomics concepts in human disease and therapy. The course will emphasize gene expression regulation, relevance of cell cycle, cell division and programmed cell death in disease development and progression, immunotherapeutics, cellular signaling cascades and relevant therapeutic targets. The course will also cover the pharmacogenomics of drug transporters, drug receptors and drug metabolizing enzymes. Prerequisites: Instructor consent.

PH 726L - Integrated Pharmacy Laboratory III Credits: 1
Continuation of Integrated Pharmacy Laboratory II. Enhancement, integration, and application of knowledge and skills from the biomedical, pharmaceutical, clinical, and social/administrative pharmacy sciences. Prerequisites: P3 year standing and PHA 426L.

PH 727 - Professional Resources Management Credits: 4
Professional, economic, and social considerations influencing the organization and management of the delivery of pharmaceutical services. Prerequisites: P3 year standing. Notes: Students admitted to the Pharmacy professional program prior to fall 2018 would complete PHA 727 - Professional Resources Management.

PH 729 - Advanced Pharmacy Marketing and Management Credits: 2
Discussion of strategic marketing and advanced management principles for the pharmacy practitioner.

PH 738 - Health Informatics Credits: 1
This course will introduce health professions graduate students to the field of health informatics. Students will explore a diverse range of topics including electronic health records, clinical decision support, telehealth, and regulatory issues.

PH 741 - Public and Population Health Credits: 2
This course explores the role of the pharmacist in public health, disease prevention and health promotion, as well as key concepts and theoretical frameworks used in developing health promotion and health behavior interventions. Pharmaceutical care skills for assessment of humans in health and disease are also developed and applied. Prerequisites: P3 standing. Notes: Students admitted to the Pharmacy professional program prior to fall 2018 would complete PHA 741 - Public Health and Wellness.

PH 742 - Self Care Pharmacotherapeutics II Credits: 2
Discussion of over-the-counter and dietary supplement products, common medical conditions amenable to self treatment, and recognition of situations when self-treatment is appropriate. Pharmaceutical care skills for assessment of humans in health and disease are also developed and applied. Prerequisites: P3 standing. Notes: Students admitted to the Pharmacy professional program prior to fall 2018 would complete PHA 742 - Patient Assessment and Self Care.

PH 743 - Pharmacogenomics Credits: 1
Students will gain advanced knowledge on the effect of genetic variation on drug response, the ability to evaluate patients' genotyping data and retrieve pharmacogenomic data from databases, and an understanding of how the information can be used to provide quality personalized pharmaceutical care for patients.

PH 744 - End of Life Care Credits: 1
Discussion of the dying process and how to improve end-of-life care for patients and families. An emphasis will be placed on legal and ethical principles relative to end-of-life care, resources available for end-of-life care, financial aspects, pain management, non-pain symptom management, and overview of cultural and spiritual diversity related to end-of-life.

PH 745 - Ambulatory Care Practice Credits: 2
This course is designed to provide the student with an introduction to ambulatory care. Various aspects of ambulatory care practice settings and opportunities for pharmacist involvement in ambulatory care practices will be discussed. At the end of the course, the student should have an increased ability to provide quality pharmaceutical care for patients in an ambulatory care setting, specifically through the development of clinical skills, including drug information, and oral and written communication.

PH 746 - Professional Pharmacy Leadership Skills Credits: 1
This course will provide advanced instruction in professional leadership skills for students with an interest in becoming effective leaders and role models in the profession of pharmacy. Prerequisites: P3 year standing.

PH 747 - Advanced Clinical Nutrition Credits: 1
Advanced study of clinical nutrition including parenteral and enteral nutrition regimens, compounding of nutrition products, and assessment of nutritional status and need. Prerequisites: P3 year standing.

PH 748 - Topics in Neonatal and Pediatric Pharmacotherapy Credits: 1
Advanced study of organ development and system maturation that includes drug delivery, drug therapy, patient safety, medication error prevention, and drug related problem identification and problem solving in the pediatric patient population. Prerequisites: P3 year standing.

PH 749 - Care of the Geriatric Patient Credits: 1
This course will enhance the student's ability to care for geriatric patients by providing the student with an understanding of age related socio-behavioral aspects that influence care, skills in the management of geriatric syndromes, practice in managing drug therapy for complex, frail geriatric patients, and training in the provision of pharmaceutical care in select settings and in a team approach. Prerequisites: P3 year standing.

PH 750 - Critical Care Therapeutics Credits: 2
Principles of medication use in the critically ill patient. Prerequisites: P3 standing.

PH 751 - Cultural Perspectives in Pharmacy Practice Credits: 1
Students will explore the ways in which social, psychological, political, cultural, and economic circumstances influence the chances for a healthy life. The course will combine theory from the social sciences with rigorous epidemiological methods to explain the connections between social factors and health status. An emphasis will be placed on social inequalities and health disparities.

PH 752 - Drugs of Abuse and Addiction Credits: 2
Discussion of psychoactive drugs, both legal and illegal, that have potential for abuse. Prerequisites: P3 standing.

PH 753 - Women and Children's Health Credits: 2
Diseases and drug-related issues pertaining to women's and children's health. Prerequisites: P3 standing.

PH 754 - Complementary and Alternative Medicine Credits: 1
Discussion of alternative, natural, and homeopathic medicines, with emphasis on their appropriate evaluation and use.

PH 755 - Forensic Pharmacology Credits: 2
This course will provide the student with an introduction to forensic pharmacology using interactive teaching technology that will include topics like forensic case evaluation, legal policy, depositions, parliamentary procedure, and document development for forensic evaluations.

PH 756 - Pharmacotherapeutics III Credits: 4
Discussion of pharmacotherapeutic principles for the development of patient specific drug regimens in patients with acute and chronic disease states and conditions. Prerequisites: P3 standing.

PH 757 - Pharmacotherapeutics IV Credits: 4
This course is a continuation of PHA 756, Pharmacotherapeutics I with an emphasis on the discussion of pharmacotherapeutic principles for the development of patient specific drug regimens in patients with acute and chronic disease states and conditions. Prerequisites: P3 standing.
PHI 758 - Institutional Practice Based Research I Credits: 1
This course is part one of a two course series providing students with experience in pharmacy research and quality improvement in the institutional setting. In part one, students gain knowledge and experience in research design and IRB submission. Students will identify a research question and design a project protocol.

PHI 759 - Institutional Practice Based Research II Credits: 1
This course is part one of a two course series providing students with experience in pharmacy research and quality improvement in the institutional setting. In part one, students gain knowledge and experience in research design and IRB submission. Students will identify a research question and design a project protocol. Prerequisites: PHI 758.

PHI 761 - Pharmacotherapeutics V Credits: 5
This course is the continuation of PHI 757, Pharmacotherapeutics IV with an emphasis on the discussion of pharmacotherapeutic principles for the development of patient specific drug regimens in patients with acute and chronic disease states and conditions. Prerequisites: P3 standing.

PHI 762 - Pharmacotherapeutics VI Credits: 5
This course is a continuation of PHI 761, Pharmacotherapeutics V with an emphasis on the discussion of pharmacotherapeutic principles for the development of patient specific drug regimens in patients with acute and chronic disease states and conditions. Prerequisites: P3 standing.

PHI 763L - Pharmacy Skills Laboratory IV Credits: 1
Continuation of Pharmacy Skills Laboratory IV. Application of contemporary pharmacy knowledge and skills and patient care principles. Prerequisites: P3 year standing and PHI 464L.

PHI 764L - Pharmacy Skills Laboratory VI Credits: 1
Continuation of Pharmacy Skills Laboratory V. Application of contemporary pharmacy knowledge and skills and patient care principles. Prerequisites: P3 year standing and PHI 763L.

PHI 767 - Pharmacy Practice V Credits: 3
Continuation of the skills taught and developed in Pharmacy Practice I-IV. Advanced skills in patient evaluation, therapeutic medication evaluation, professional communication skills, and verbal and written drug information skills are developed. Application of pharmacotherapeutic concepts and principles to access diseases, evaluate and solve therapeutic problems, create drug therapy regimens, and develop monitoring plans. Introductory practice experiences are also incorporated into this course. Corequisites: PHI 767L. Prerequisites: P3 standing.

PHI 767L - Pharmacy Practice V Lab Credits: 0
Corequisites: PHI 767. Prerequisites: P3 standing.

PHI 768 - Pharmacy Practice VI Credits: 3
Continuation of the skills taught and developed in Pharmacy Practice V. Advanced skills in patient evaluation, therapeutic medication evaluation, professional communication skills, and verbal and written drug information skills are developed. Application of pharmacotherapeutic concepts and principles to assess diseases, evaluate and solve therapeutic problems, create drug therapy regimens, and develop monitoring plans. Activities are designed to prepare students for upcoming Advanced Practice Experiences. Introductory practice experiences are also incorporated into this course. Corequisites: PHI 768L. Prerequisites: P3 standing.

PHI 768L - Pharmacy Practice VI Lab Credits: 0
Corequisites: PHI 768. Prerequisites: P3 standing.

PHI 770 - Pediatrics Practice Experience Credits: 5

PHI 771 - Geriatrics Practice Experience Credits: 5

PHI 772 - Internal Medicine I Practice Experience Credits: 5

PHI 773 - Internal Medicine II Practice Experience Credits: 5

PHI 774 - Ambulatory Care Practice Experience Credits: 5

PHI 775 - Psychiatry Practice Experience Credits: 5

PHI 780 - International Pharmacy Practice Experience Credits: 5
Study of healthcare systems and the practice of pharmacy at designated international sites. Prerequisites: P4 standing with consent.

PHI 791 - Independent Study Credits: 1-3

PHI 792 - Topics Credits: 1-3

PHI 820 - Advanced Concepts in Medicinal Chemistry Credits: 3
A study of the current advances in the area of drug design and discovery. Prerequisites: PHI 340, PHI 341 or equivalent or instructor consent.

PHI 825 - Topics in Advanced Pharmaceutical Sciences Credits: 3
A detailed study of selected topics in Pharmaceutical Sciences. Prerequisites: PHI 820, PHI 840, PHI 859 or equivalent or instructor consent.

PHI 840 - Advanced Concepts in Pharmacology Credits: 3
A study of the current advances in the area of pharmacology especially at molecular level. Prerequisites: Instructor consent.

PHI 846 - Techniques in Pharmaceutical Research Credits: 3
A study of the current techniques in pharmaceutical research. Prerequisites: Instructor consent.

PHI 847 - Grant Writing and Academic Development Credits: 3
A study of the current policies, procedures and skills required for successful grants writing. An understanding of ethics and scientific conduct needed for academic development. Prerequisites: Instructor consent.

PHI 859 - Advanced Concepts in Pharmaceutics Credits: 3
A study of the current advances in the area of drug formulations and delivery. Prerequisites: PHI 331, PHI 332 or equivalent or instructor consent.

PHI 890 - Seminar Credits: 1

PHI 898 - Dissertation Credits: 1-10

PHIL (Philosophy)

PHIL 592 - Topics Credits: 3

PHYS (Physics)

PHYS 521 - Electromagnetism (COM) Credits: 4
Principles of electricity and magnetism, with applications to dielectric and magnetic materials. Development of Maxwell's equations, and applications.

PHYS 533 - Nuclear and Elementary Particle Physics (COM) Credits: 3
Radioactivity, nuclear spectra and structure, nuclear models, elementary particle theories and high energy physics. Prerequisites: PHYS 471 or instructor consent.

PHYS 539 - Condensed Matter Physics (COM) Credits: 3-4
This course looks at solid materials from a microscopic level. Topics include basic crystal structure; mechanical and thermal properties; and electronic processes with reference to electrical properties of metals, semiconductors, and insulators. Prerequisites: MATH 225, MATH 321 and PHYS 331.

PHYS 551 - Classical Mechanics (COM) Credits: 4
Newton's Laws, motion in one and three dimensions, central forces, harmonic oscillations, non-inertial reference frames, rotations of rigid bodies, and Lagrangian Mechanics. Prerequisites: MATH 225 and MATH 321.

PHYS 571 - Quantum Mechanics (COM) Credits: 4
This is a systematic introduction to quantum mechanics, emphasizing the Schrodinger equation. Topics include simple soluble problems, the hydrogen atom, approximation methods and other aspects of quantum theory. Prerequisites: MATH 225, MATH 321 and PHYS 331.

PHYS 581 - Mathematical Physics I (COM) Credits: 3
The first of two-semester sequence covering mathematical methods essential to the study of physics. The topics include differential and integral Vector Calculus, theory and applications of complex variables, ordinary differential equations and applications of series and transform methods in their solutions. Prerequisites: MATH 225 and MATH 321.
PHYS 791 - Mathematical Physics II (COM) Credits: 3
A continuation of PHYS 781. The topics of emphasis are partial differential equations, boundary value problems, special functions, Green's Functions, and linear algebra. Additional topics of interest will be chosen; possible topics include differential forms and geometry, tensors in physics, group theory, distributions, statistical methods, integral equations, difference equations, numerical methods, variation techniques, etc. Prerequisites: PHYS 581.

PHYS 691 - Independent Study Credits: 1-3

PHYS 721 - Electrodymanics I (COM) Credits: 3
Electrostatics and magnetostatics, including a study of boundary value problems and the multi-pole expansions, leading to the study of Maxwell's equations. The relationship between special relativity and electromagnetism will also be discussed. Prerequisites: PHYS 421.

PHYS 723 - Electrodymanics II (COM) Credits: 3
This course is the second course in a two-semester sequence and covers advanced topics in electrodynamics. Prerequisites: PHYS 721.

PHYS 739 - Condensed Matter Physics I (COM) Credits: 3
Topics include crystal structure and the reciprocal lattice, quantum theory of electrons and phonons, x-ray diffraction, crystal binding energies, and energy band theory. Additional topics may be chosen from the properties of metals, semiconductors, and insulators. Prerequisites: PHYS 439 or PHYS 539.

PHYS 743 - Statistical Mechanics (COM) Credits: 3
This is a one-semester course in classical and quantum statistical mechanics. Topics include ensembles, partition functions, identical particles, Fermi-Dirac and Bose-Einstein statistics. Other topics will be chosen from mean field theory, phase transformations, renormalization group theory, Monte Carlo techniques, and other topics of interest. Prerequisites: PHYS 541.

PHYS 749 - Condensed Matter Physics II (COM) Credits: 3
This course is the second course in a two-semester sequence and covers advanced topics in condensed matter physics. Prerequisites: PHYS 739.

PHYS 751 - Classical Mechanics (COM) Credits: 3
This is a one-semester course in classical mechanics. Topics include Newtonian Mechanics, Hamilton's Principle, Non-Inertial Frames of Reference, Lagrangian Mechanics. Other topics will be chosen from such areas of study as Rigid Body Motion, Chaos theory, Hamilton-Jacobi theory, Perturbation Theory, Quaternion applications to rotations, Lagrangian/Hamiltonian formulations for Continuous systems and fields, and other topics of interest. Prerequisites: PHYS 451.

PHYS 761 - Nuclear and Particle Physics (COM) Credits: 3
This is a one-semester course in nuclear and elementary particle physics. Nuclear physics topics may include nuclear structure (nuclear form factors, multipole moments, liquid and shell models); nuclear decay; nuclear reactions; and other topics of interest. Elementary particle physics topics may include the role of symmetry in particle physics. Quantum Electrodynamics and Quantum Chromodynamics; the Standard Model of Particle Physics; Strong and Weak interactions; Accelerator and Experimental Particle Physics; and other selected topics beyond the Standard Model. Prerequisites: PHYS 771.

PHYS 771 - Quantum Mechanics I (COM) Credits: 3
This is the first course of a two-semester sequence in quantum physics. Topics include the Schrödinger equation and its solutions, matrix mechanics, operator methods, the harmonic oscillator, the hydrogen atom, spin and angular momentum.

PHYS 773 - Quantum Mechanics II (COM) Credits: 3
This is the second course in a two-semester sequence. Additional topics include perturbation methods. Applications will be chosen from such topics as scattering theory, second quantization, theory of identical particles, relativistic quantum mechanics, creation and annihilation operators and other topics of interest. Prerequisites: PHYS 771.

PHYS 775 - General Relativity (COM) Credits: 3
This course includes study of Minkowski Space, tensor algebra and calculus, non-Euclidean Geometry, and the Einstein Field Equations. Applications will be chosen from such topics as the Schwarzschild, Kerr, and Reissner-Nordstrom solutions, gravitational waves, Post-Newtonian Formulisms, 3 + 1 formalism, and other topics of interest. Prerequisites: PHYS 421 and PHYS 451.

PHYS 779 - Group Theory (COM) Credits: 3
Topics may include symmetry transformations, continuous groups, finite groups, applications to valence theory, Lorentz group, and fundamental particles. Prerequisites: PHYS 471.

PHYS 783 - Quantum Field Theory (COM) Credits: 3
This course is the study of relativistic quantum field theory and its application to the standard model. The course covers quantization of relativistic field; perturbation theory and Feynman diagram; S-matrix; introduction to gauge theories and the standard model; and other topics of interest. Prerequisites: PHYS 771.

PHYS 785 - Astrophysics and Cosmology (COM) Credits: 3
This course introduces the broad base of fundamental topics in astrophysics and cosmology. Topics include observational properties of stars; stellar physics; stellar atmospheres; distance scales; galactic structures; interstellar medium, normal and peculiar galaxies and high energy astrophysics, cosmological observations and Friedmann models; the early universe at different epochs; the origin of dark matter and formation of galaxies and large scale structure. Prerequisites: PHYS 771.

PHYS 787 - Research Credits: 1-9

PHYS 788 - Master's Research Problems/Projects Credits: 1-2

PHYS 791 - Independent Study Credits: 1-3

PHYS 792 - Topics Credits: 1-3

PHYS 798 - Thesis Credits: 1-7

PLAN (Planning)

PLAN 571 - Principles of State, Regional and Community Planning Credits: 3
Purpose, structure, and dynamics of the planning process. Identification of different types of planning. Inter-dependencies among persons who contribute to the planning process and are trained in separate academic disciplines. Basic techniques employed within different phases of the planning process.

PLAN 572 - Techniques of State, Regional and Community Planning Credits: 3
Brief review of basic approaches, procedures and methods employed within different phases of the planning process. Coordination required among persons trained in separate academic disciplines in order to carry out these basic techniques. Exercises in the practical application of selected techniques and review of their applications in ongoing to completed planning efforts. Prerequisites: PLAN 571.

PLAN 591 - Independent Study Credits: 1-3

POL (Political Science)

POL 592 - Topics Credits: 1-4

PRAG (Precision Agriculture)

PRAG 510 - Soil Geography and Land Use Interpretation Credits: 2

PRAG 510L - Soil Geography and Land Use Interpretation Lab Credits: 1

PS 514 - Plant Propagation Credits: 3
Fundamental anatomical and physiological principles and methods of reproducing herbaceous and woody plants by seeds, cuttings, grafts, layers and division.
Corequisites: PS 514L. Cross-Listed: HO 514L.

PS 515 - Mycology (COM) Credits: 2-3
Comprehensive taxonomic survey of the Kingdom Fungi; reproductive biology, physiology, genetics, and ecology of fungal organisms; relationship of fungi to human affairs.

PS 515L - Mycology Laboratory (COM) Credits: 0-1

PS 516 - Landscape Nursery Management Credits: 3
A study of current nursery and garden center crop cultural practices and business management.
Topics to be covered include nursery and garden center design and organization, field and container crop production, transplanting, pricing, and shipping techniques. The working relationship between nurseries, landscape designers and contractors is also discussed.

PS 521 - Soil Microbiology Credits: 2
Microbial species of agricultural soils, environmental factors affecting their numbers and activity, and biochemical changes brought about by these organisms.

PS 521L - Soil Microbiology Laboratory Credits: 1

PS 531 - Insect Ecology and Biological Control Credits: 3
This course will examine the ecological relationships between insects and their environment. Topics will include natural history; population dynamics; interactions between insects and their food plants, predators, and diseases; insect evolutionary ecology; and insect agroecology. These topics will also be explored in the context of the biological control of arthropod and weed pests by natural enemies.

PS 533 - Field Crop Diseases and Management Credits: 3
Diagnosis of major field crop diseases, pathogen biology, and methods of disease management. Emphasis is placed on applied principles of disease management and formulate specific control measures for a diverse group of diseases and disease situations affecting field crops.
Corequisites: PS 223-223L.

PS 534 - Local Food Production Credits: 2
Topics include planning, planting, cultivation, harvest, season extension and marketing of fruits and vegetable crops.

PS 540L - Crop Management with Precision Farming Lab Credits: 1
Corequisites: PRAG 540.

PS 543 - Bioenergy Feedstock Production System Credits: 3
Overview of production and characteristics of cultivated crops, perennial grasses, and woody species as feedstocks for bioenergy. Fundamentals of plant growth factors, culture, harvest and storage, quality and improvement, and introduction to environmental impact, modeling, and resource utilization. Prerequisites: MATH 102, BIOL 101, or PS 103. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

PS 544 - Vegetable Crop Systems Credits: 1-6
Studies in vegetable crop production and management systems. Credit earned will depend on the modules taken. Course may be repeated as long as the module(s) are not repeated. Potential topic modules could include: root crop systems; cucurbit production systems; vegetable legumes; herbs; solanaceous crops; heirloom vegetable crops; integrated pest management; market gardening; organic production systems; extended season crop management; leaf and cool season crops; annual crop rotation systems; marketing specialty crops. Cross-Listed: HO 544.

PS 545 - Weed Science Credits: 2
Fundamentals of mechanical, cultural, biological and chemical weed control practices and factors affecting control. Herbicide classification and mechanism of action. Plant and seed identification of common weeds of North Central States and their interaction with desirable plants. Corequisites: PS 545L. Prerequisites: Take PS 103-103L or HO 111-111L; and CHEM 108-108L or CHEM 120-120L or CHEM 326-326L.

PS 545L - Weed Science Lab Credits: 1
Corequisites: PS 545.

PS 547 - Organic Plant Production Credits: 3
This course provides a detailed overview of organic farming for both small scale suburban and urban settings. The topics covered will include: organic certification, soil and nutrient management, pest and disease ID and management, High-Tunnel management, and marketing. Cross-Listed: HO 547.

PS 562 - Environmental Soil Management Credits: 2
Management systems designed to maintain soil productivity and environmental quality are examined. Soil problems important in production systems and environmental management including compaction, erosion, and nonpoint pollution are analyzed based on underlying environmental and agronomic principles. Computer simulation models are used and applied to soil problems. Corequisites: PS 562L. Prerequisites: PS 213-213L.

PS 562L - Environmental Soil Management Lab Credits: 1
Laboratory experience that accompanies PS 562. Corequisites: PS 562.

PS 583 - Irrigation – Crop and Soil Practices Credits: 3
Problems of irrigated agriculture. Soil salinity and salt-affected soils, water quality, management of irrigated crops; cropping systems; water, fertility requirements of irrigated agriculture, water movement, storage, and release in soils. Prerequisites: PS 213-213L and MATH 102 or MATH 115 or MATH 123.

PS 664 - Molecular Plant Physiology Credits: 3
This course discusses current molecular advances in plant biology. A wide range of topics in plant growth and development as well as plant interactions with abiotic and biotic factors will be covered. Each topic is led by a researcher who is experienced in the subject area being discussed, and consists of an introduction lecture and a case study followed by a class discussion on a recent research paper in the field.

PS 714 - Genetics of Disease Resistance and Host-Plant Pathogen Interactive Credits: 3
Physiology, genetics, and molecular biology of host-plant pathogen interactions and disease resistance; pathogenic diversity and virulence dynamics of plant pathogens; crop vulnerability and plant disease epidemiology; and breeding plants for disease resistance. Corequisites: PS 714L. Prerequisites: Consent.

PS 714L - Genetics of Disease Resistance and Host-Plant Pathogen Interactive Laboratory Credits: 1

PS 721 - Advanced Integrated Pest Management Credits: 3
The biological and ecological basis of integrated pest management for midwestern crop insects and the understanding of economic thresholds are emphasized. Pest scouting techniques for major crop pests and simulated management decisions are discussed.

PS 723 - Hydrologic Modeling Credits: 1
This course will involve simulation of water, sediment and chemical movement at watershed scale using the Soil Water Assessment Tool (SWAT) model. The course will cover different methods used to estimate and measure the surface hydrologic processes (infiltration, evapotranspiration, runoff, peak runoff rate, soil water erosion, and chemical movement) include both field scale measurement method and empirical model. Students will use the process based hydrologic (SWAT) model with a better understanding of the underlying process to predict the stream flow and water quality parameters at watershed scale. The course involves detail understanding of the step involved in modeling, model setup, sensitivity analysis, calibration, validation and long-term scenario analyses. Corequisites: PS 723L. Prerequisites: PS 103 or PS 543. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

PS 723L - Hydrologic Modeling Lab Credits: 2
This course will involve simulation of water, sediment and chemical movement at watershed scale using the Soil Water Assessment Tool (SWAT) model. The course will cover different methods used to estimate and measure the surface hydrologic processes (infiltration, evapotranspiration, runoff, peak runoff rate, soil water erosion, and chemical movement) include both field scale measurement method and empirical model. Students will use the process based hydrologic (SWAT) model with a better understanding of the underlying process to predict the stream flow and water quality parameters at watershed scale. The course involves detail understanding of the step involved in modeling, model setup, sensitivity analysis, calibration, validation and long-term scenario analyses. Corequisites: PS 723. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

PS 732 - Field Studies in Pedology Credits: 2
Field techniques used in soil classification will be learned by studying soils during a week-long field exercise. Soil genesis and land use applications will be investigated. The impact of soils upon agronomic management and research will be presented. The class may be repeated for a maximum of 4 credits. Prerequisites: PS 310-310L or GEOG 310-310L.

PS 733 - Advanced Soil Genesis Credits: 3
Detailed study of the processes of soil genesis and an examination of soil and ecosystems with respect to the soil forming factors of time, parent material, topography, climate and organisms.

PS 735 - Next Generation Sequencing Data Analysis Credits: 2
This course covers bioinformatics applications in next-generation sequencing (NGS) data analysis for students in plant science, biology and microbiology, computer science, and mathematics and statistics. The students will be exposed to general/advanced computational techniques for NGS data analysis, public databases/web servers, and major bioinformatic algorithms and programs. A project-based strategy will be adopted throughout the class so that students can understand algorithms in the context of solving the biological problems. Prerequisites: STAT 535 or STAT 541.

PS 741 - Crop Breeding Techniques Credits: 1
A techniques course where artificial hybridization of crop plants will be demonstrated and carried out. Background material will be offered with each crop. Both field and horticultural crops are included.

PS 743 - Environmental Soil Physics Credits: 2
The exchange of energy and water at soil surfaces, infiltration and redistribution of water and soil physical properties related to plant growth. Emphasis on applications in development and utilization of soil and water resources in a manner consistent with preservation of environmental quality. Corequisites: PS 743L.

PS 743L - Environmental Soil Physics Lab Credits: 1
The exchange of energy and water at soil surfaces, infiltration and redistribution of water and soil physical properties related to plant growth. Emphasis on applications in development and utilization of soil and water resources in a manner consistent with preservation of environmental quality. Corequisites: PS 743.
PS 744 - Soil N, P and K Credits: 3
Plant-soil nutrient relationships including nutrient sink development, uptake, transport to roots, labile soil sources, nutrient deficiencies, and their corrections. Emphasis on nitrogen, phosphorus and potassium.

PS 746 - Plant Breeding Credits: 3
Plant Breeding applied to field crops and horticultural varieties with particular emphasis on the relationship of genetics and allied subjects. Prerequisites: PS 103-103L and BIOL 371.

PS 753 - Soil/Water Quality Bioenergy Feedstock Credits: 3
An examination of the fundamentals of soil and water quality applied to proposed and existing bioenergy feedstock production systems. Current research results related to biomass removal and by-product addition to soils will be discussed and evaluated. Prerequisites: PS 213 or PS 543. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

PS 756 - Quantitative Genetics Credits: 3
Theory and application of quantitative genetic analysis to applied breeding problems; estimation and partitioning of genetic variances; genetic covariance and regression; heritability and selection response; index selection; linkage and quantitative trait loci (QTL) analysis. Prerequisites: BIOL 371 and STAT 541.

PS 761 - Taxonomy of Insects Credits: 3
Collection, identification and classification of insects. Techniques of identifying the groups of economic insect pests that affect the production of feed, food and fiber. Corequisites: PS 761L.

PS 761L - Taxonomy of Insects Laboratory Credits: 1

PS 763 - Environmental and Physiological Aspects of Crop Production Credits: 3
Systems analysis of factors which limit or increase crop production and the potential for qualitative and quantitative adjustments. Prerequisites: BOT 327-327L.

PS 781 - Plant Science Graduate Seminar Credits: 1

PS 785 - Soil and Plant Analysis Credits: 2
The analysis of soil and plant material for constituent elements. Topics include: Material sampling and preparation, extraction and determination method, theoretical principles of analysis, accuracy and precision. Emphasis on common soil and plant test indices. Co-requisites: PS 785L. Prerequisites: Instructor consent.

PS 785L - Soil and Plant Analysis Laboratory Credits: 1

PS 787 - Advanced Plant Breeding Credits: 3
Consideration of issues relating to germplasm selection, hybridization, evaluation, and perpetuation through a plant breeding program where improved cultivar and/or germplasm release is the objective.

PS 788 - Master's Research Problems/Projects Credits: 1-3

PS 791 - Independent Study Credits: 1-2

PS 792 - Topics Credits: 1-6

PS 798 - Thesis Credits: 1-7

PS 898D - Dissertation Credits: 1-7

PSYC (Psychology)

PSYC 602 - Advanced I/O Psychology Credits: 3
An advanced survey course exploring the entire field of Industrial/Organizational Psychology. Topics include personnel selection, training, performance appraisal, motivation, leadership, and organizational development.

PSYC 625 - Job Analysis and Performance Appraisal Credits: 3
This course explores the methods and strategies used to measure employee performance. Topics include job analysis methods, performance management, methods of performance appraisal, job evaluation, rater training, cognitive and motivational biases in performance appraisal, and contextual issues related to performance appraisal.

PSYC 626 - Training Credits: 3
This course explores issues related to the training of personnel in organizations. Topics include needs assessment, instructional design, training delivery, program evaluation, specialized training (i.e. for managers), and legal issues in training and development.

PSYC 627 - Teams in Organizations Credits: 3
This course explores issues related to working in teams in organizations. Topics include defining team success, stages of team development, team communication, managing team conflict, team diversity, leadership in teams, and virtual teams.

PSYC 691 - Independent Study Credits: 1-4

PSYC 692 - Topics Credits: 1

PSYC 717 - Applied Research Methods in I/O Psychology Credits: 4
Integration of research design, methodology, and statistical analysis (regression and analysis of variance) as typically used by I/O psychologists. Students learn how to select appropriate methodologies for the study of issues in I/O psychology, analyze quantitative data using SPSS statistical software, interpret results accurately, and discuss and report statistical findings.

PSYC 728 - Leadership and Motivation Credits: 3
This course explores major leadership theories and processes including trait theories, behavioral theories, contingency theories, and modern theories of leadership, such as transformational leadership. Theories of leadership effectiveness are discussed. This course also explores human motivation in the workplace, including motivational theories such as self-regulation theory, the job characteristics model, and goal-setting theory.

PSYC 729 - Personnel Selection Credits: 3
This course explores the employee selection process, when an employee first joins an organization. Topics include the strengths and weaknesses of different selection instruments and strategies, legal issues related to selection, decision-making, and the importance of validity in the selection context.

PSYC 730 - Tests and Measurements Credits: 3
An overview of the development, use, and validation of psychological tests used in organizational contexts. Topics include reliability and validity, test construction, item analysis, ethics, test administration, and computerized testing.

PSYC 731 - Work Attitudes Theory and Measurement Credits: 3
Exploration of employee attitudes, attitude change, and the measurement of job-related attitudes through the use of organizational surveys. Through practical experience with surveys, students develop skills in survey techniques.

PSYC 735 - Organizational Development Credits: 3
This course explores the theory and practice of organizational change and development, change processes, organizational development interventions, and the evaluation organizational development initiatives within organizations.

PSYC 792 - Topics Credits: 1-4

PSYC 794 - Internship Credits: 1-3

PSYC 798 - Thesis Credits: 1-6

PUBH (Public Health)

PUBH 702 - Public Health Theory and Practice (COM) Credits: 3
Introduction to the theory and practice of public health. This course will address foundational public health knowledge including topics related to the profession and science of public health as well as public health factors related to human health.

PUBH 720 - Public Health Practice (COM) Credits: 3
This is a supervised graduate practicum in a public health environment for MPH students to integrate program curriculum in an applied setting. Special attention will be given to ethical considerations of public health practices.
PUBH 721 - Public Health Applied Practice Experience I (COM) Credits: 1
Students will have the opportunity to build on public health knowledge gained throughout the program and develop practice-based skills that enhance individual career goals. Through course projects and community engagement, students will be able to demonstrate additional skills such as leadership, communication, and teamwork.

PUBH 722 - Public Health Applied Practice Experience II (COM) Credits: 1
This course builds on knowledge and skills gained in Public Health Applied Practice Experience I. Students will continue to build on and apply knowledge gained throughout the program and develop practice-based skills that enhance individual career goals. Throughout this course students will gain community-based public health practice experience and begin developing their final capstone project. Prerequisites: PUBH 721.

PUBH 723 - Public Health Applied Practice Experience III (COM) Credits: 1
This is the final course in the Public Health Applied Practice Experience series. Students will finalize their capstone project outlines in preparation for the Public Health Integrative Learning Experience. Prerequisites: PUBH 722.

PUBH 730 - Public Health Integrative Learning Experience (COM) Credits: 6
This culminating course in the MPH program allows students to integrate and synthesize the curriculum in seminar discussion and through a large research paper on contemporary public health science and practices that can be published in a peer-reviewed journal or presented at a state or national professional meeting.

PUBH 733 - Environmental Health Credits: 3
This course examines causes and approaches to control environmental health problems including consideration of human health risks and effects of biological, chemical, and physical agents affecting individuals and communities. Topics include the environmental regulatory framework; identification of susceptible populations; approaches to environmental risk assessment, abatement, protection, and prevention; environmental justice principles and stakeholder interests; and the public health basis for environmental health policy decisions. Prerequisites: Admission into the Master of Public Health program or permission of instructor. Cross-Listed: HSC 733.

PUBH 751 - Public Mental Health Credits: 3
Explore topics on the connection between physical and mental health, social determinants linked to behavioral disorders, community-based approaches to mental health care, and prevention strategies.

PUBH 755 - Program Planning and Evaluation Credits: 3
An introduction to public health program planning and evaluation including: target population needs assessment; stakeholder engagement; and public health program design, organization, leadership, utilization, resource management, and evaluation. Prerequisites: Admission into the Master of Public Health program or permission of instructor. Cross-Listed: HSC 755.

PUBH 761 - Social Epidemiology Credits: 3
This course will combine theory from the social sciences with rigorous epidemiological methods to explain the connections between social factors and health status. An emphasis will be placed on social inequalities and health inequalities/disparities. Throughout this course, students will gain an understanding of the ways in which social, psychological, political, cultural, and economic circumstances influence our chances for a healthy life.

PUBH 762 - Cultural Perspectives in Public Health Credits: 3
This course will offer an in-depth view of the concept of culture as one framework for understanding human behavior as it relates to the general relationship between culture and health and specifically population health.

PUBR (Public Relations)

PUBR 592 - Topics Credits: 1-3

RANG (Range Science)

RANG 510 - Grassland Monitor & Assessment Credits: 2
A course emphasizing the quantitative measures used in vegetation analysis, root growth, and utilization. Vegetation sampling theory and plot selection will be covered. Use of similarity index, health, and trend for grassland monitoring and assessment will be explained. Basic statistics and the microcomputer will be used to analyze biomass, basal cover, frequency, and density data. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

RANG 520 - Watershed Management Credits: 3
Study of the management of physical/biological settings and processes along with the human activities on water and watershed considering preventative and restorative strategies in a natural resource/rangeland setting. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

RANG 521 - Grassland Fire Ecology Credits: 3
The course is designed to describe the ecological effects of fire on grassland ecosystems. It also provides insight into the history of fires, the people who use them and why, the parts of a fire, how fires behave in relation to fuel and weather, and the conducting and safety of prescribed burns. Cross-Listed: WL 521. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

RANG 525 - Rangeland Assessment and Monitoring Credits: 3
Principles and practical application of the assessment and monitoring of rangeland plant communities. Course will be offered in a hybrid format. In the online portion of the course, students will learn how to set objectives, determine parameters to measure, select appropriate techniques, and analyze quantitative data. The laboratory portion is a 1-week intensive field session held in late summer, providing substantial field experiences including performing a wide variety of sampling techniques, collection and analysis of assessment and monitoring data, and learning how state and federal agencies assess and monitor rangelands. Students will also work in teams to develop a monitoring plan for a specific property, collect and analyze initial data, and present the plan and results to the land owner. Corequisites: RANG 525L. Prerequisites: STAT 281.

RANG 525L - Rangeland Assessment and Monitoring Lab Credits: 0
Laboratory to accompany RANG 525. Corequisites: RANG 525.

RANG 530 - Ecology of Invasive Species Credits: 3
Ecological principles and their application to invasive species. Discussion of population, community, and ecosystems level characteristics affecting a wide variety of invasive plant and animal species. Discussions will include current global consequences and governmental policies/programs designed to limit the spread of invasives. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

RANG 540 - Grassland Plant Identification Credits: 2
Study of plants that have ecological and/or agricultural importance in the Great Plains. Plant identification, Grassland ecosystems, and plants forage value, palatability, and utilization by both domestic livestock and wildlife. Cultural and historical uses of grassland. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

RANG 591 - Independent Study Credits: 1-3

RANG 592 - Topics Credits: 1-4

RANG 710 - Principles of Forage Quality Credits: 3
The course provides an in-depth study of the chemical characteristics of forage components and the interactions with ruminant physiology and digestion that influence forage feeding value and the laboratory procedures used to evaluate forages for grazing livestock. Students should have knowledge of the basic principles of chemistry, ruminant nutrition, and plant physiology so that they can develop an understanding of the chemical characteristics of forages and how they affect the value of forages to grazing livestock. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.
**RANG 750 - Grazing Ecology and Management Credits: 3**
Ecological principles of domesticated livestock grazing and their application to manage grazing lands will be discussed. Theoretical and applied models of plant/animal interactions will be presented. Grazing systems and their management of ecosystem services will be presented as balance between production and conservation outcomes. Notes: Sections of this course are provided online through the Agriculture Interactive Distance Education Alliance.

**RANG 791 - Independent Study Credits: 1-3**

**RANG 792 - Topics Credits: 1-6**

**RECR (Recreation)**

**RECR 515 - Sport and Recreation Facility Management Credits: 3**
This course provides students with an advanced study of the management of recreation and sport facilities. Including planning and design, operations, fiscal and personnel management, legal considerations, safety and control, maintenance, and equipment.

**RECR 750 - Foundations of Sport and Recreation Administration Credits: 3**
This course will emphasize the management functions of planning, organizing, implementing, and controlling of the different fields within the sport and recreation management industry. Decision-making, problem solving, communications, ethics, issues, and trends will be covered.

**RECR 760 - Advanced Sport and Recreation Marketing Credits: 3**
This course provides students with an advanced study of the principles of marketing through sport and recreation including market research and analysis, development of a strategic marketing plan, using the 4 P's of marketing (promotion, place, price, and product) as they apply primarily to the collegiate sport and recreation setting.

**RECR 762 - Ethics in Sport and Recreation Credits: 3**
This course will enable students to gain a deeper understanding of the moral reasoning processes of sport and recreation administration professionals primarily in the collegiate setting. Students will develop the knowledge, skills, and abilities to apply moral reasoning in dealing with ethical dilemmas in sport and recreation administration. Additionally, students will explore and clarify their career goals, as well as, gain hands on experience to further their professional development.

**SE (Software Engineering)**

**SE 592 - Topics Credits: 1-6**

**SEED (Secondary Education)**

**SEED 592 - Topics Credits: 1-5**

**SOC (Sociology)**

**SOC 500 - Social Policy (COM) Credits: 3**
A review of social welfare legislation; current trends and issues in, and implementation and administration of, social policy in a variety of practice areas.

**SOC 501 - The Research Process Credits: 3**
Topics include conceptions of research, the philosophy of science, formal and grounded theory construction, the use of research literature, and qualitative, quantitative, and mixed approaches to research design.

**SOC 502 - Social Deviance (COM) Credits: 3**
This course examines the nature of negatively evaluated behaviors and the process by which customs, rules and normative structure of society are constructed.

**SOC 504 - Sociological Inquiry Credits: 3**
The course focuses on the use of sociological theory in both basic research and sociological practice. It examines the nature and uses of the broad orienting theories that guide sociological work, and also the production and application of unit theories which provide answers to specific research questions. Students participate in class activities through which they learn various aspects of theorizing.

**SOC 516 - Drugs and Society Credits: 3**
The course will examine explanations of drug use and the social construction of drug policies. Students will discuss the methods used to study patterns of drug use and theories of drug abuse and take an in-depth look at the histories, pharmacologies, and patterns associated with the most popular drugs. Students will study the social control of drugs, the connections between drugs and crime, and the causes and consequences of modern U.S. international drug policies. Cross-Listed: CIUS 516.

**SOC 533 - Leadership and Organizations (COM) Credits: 3**
Emphasis is on the emergence of leadership patterns, group dynamics, small groups, and leadership in management.

**SOC 540 - Urban Sociology (COM) Credits: 3**
A study of the urban community, focusing on its development, social structures and institutional patterns. Prerequisites: SOC 100 or SOC 150.

**SOC 555 - Juvenile Delinquency (COM) Credits: 3**
A study of the youthful offender and the causes and consequences of delinquent behavior; preventive and rehabilitative programs are also discussed.

**SOC 562 - Population Studies (COM) Credits: 3**
A study of human populations with respect to size, distribution, and structure, with emphasis on theories of population growth and decline, population policies, and impacts on the environment.

**SOC 583 - Sociology of Gender Roles (COM) Credits: 3**
Female and male roles in relation to one another in a changing world are focu of this course. The nature of gender roles, their origin and maintenance, institutional features, and their variations over time and across cultures are examined. Prerequisites: SOC 100 or SOC 150.

**SOC 590 - Seminar Credits: 1-3**

**SOC 594 - Internship Credits: 1-3**

**SOC 707 - Sociological Practice and Public Policy Credits: 3**
This is an advanced course in the history, issues, theories, and methods of sociological practice; the social and political issues involved in sociological practice will also be covered.

**SOC 709 - Evaluation Research Credits: 3**
Focus on the conceptualization and design of evaluation studies of various governmental programs. Design includes clarification of objectives, selection of appropriate collection techniques, and specification of target groups.

**SOC 710 - Research Methods Credits: 3**
Major emphasis will be given to research design, problems of measurement, methods of data collection, and analysis and interpretation of data; including implications for basic and applied sociologies. An integral part of the course will be the development of a research project dealing with a current sociological issue or applied problem. Prerequisites: Instructor consent.

**SOC 711 - Qualitative Research Methods Credits: 3**
Qualitative research methods of data collection, analysis, and presentation are examined; emphasis on fieldwork involving participant observation and intensive interviewing; includes consideration of the rationale, theoretical underpinnings and limitations of qualitative research; including implications for basic and applied sociologies. Prerequisites: Instructor consent.

**SOC 712 - Sociological Theory I Credits: 3**
Critical examination and application of the main schools of sociological theory beginning with the system of Auguste Comte and ending with World War II. Prerequisites: Instructor consent.

**SOC 713 - Sociological Theory II Credits: 3**
Sociological theories and issues from World War II to present; includes implications for basic and applied sociologies. Prerequisites: Instructor consent.

**SOC 714 - Race, Class, Gender Intersections Credits: 3**
This class examines past and current research and theory in the discipline of sociology addressing race, class and gender intersections. Students will explore the transformation of these frameworks into concrete research at the micro-, meso- and macro-levels.
SOC 721 - Social Stratification Credits: 3
Theories of social stratification. Relationship between social class and education, occupational choice, political preference, religious affiliation and social mobility. Prerequisites: Instructor consent.

SOC 725 - Social Organization Credits: 3
Elements of social organization. Analysis of social groups and complex social organizations. Examination of conditions and factors related to integration and disintegration of social organizations. Prerequisites: Instructor consent.

SOC 726 - Teaching Sociology Credits: 2
This course deals with pedagogical issues, theories, and techniques for teaching face-to-face and on-line college/university courses in sociology; students will identify and discuss the goals and purposes of higher education as they relate to teaching sociology; they will also design a course and develop a teaching philosophy statement, student learning outcomes, a course syllabi, lesson plans/training modules, and means of student assessment consistent with the teaching philosophy.

SOC 727 - Teaching Sociology Practicum Credits: 1-3
This is a supervised teaching experience; theoretical, pedagogical, and teaching issues will be discussed as they relate to this experience. Prerequisites: SOC 726.

SOC 738 - Scholarship of Teaching and Learning Credits: 2
This course focuses on the methods of systematic inquiry used to determine the extent to which an instructor's teaching produces desired learning outcomes.

SOC 739 - Scholarship of Teaching and Learning Practicum Credits: 1-3
This is a supervised SoTL experience; students will use systematic inquiry to determine the extent to which an instructor's teaching produces desired learning outcomes. Theoretical, methodological, and pedagogical issues will be discussed as they relate to this experience. Prerequisites: SOC 738.

SOC 740 - Rural Community Development Credits: 3
Changes occurring in rural areas and their effects upon rural communities. Basic concepts, procedures, and processes for planning in a rural environment. Some alternative approaches to rural planning. National and International perspectives. Prerequisites: Instructor consent.

SOC 762 - Applied Demography Credits: 3
Focus on demographic publications and resources including Census data material; areas included are population, housing, agriculture, economics, vital statistics reports, special surveys and international materials. Emphasis on a variety of applications across disciplines. Students will also learn techniques for producing, locating, analyzing, and disseminating sociodemographic information for various geographical areas, statistical units, and political divisions; students will complete projects and sociodemographic reports.

SOC 764 - Modern Demographic Theory Credits: 3
Overview of the explanatory factors and determinants related to the population process of fertility, mortality, and migration. Emphasis on theoretical models that focus on developed and developing countries.

SOC 766 - World Population Issues Credits: 3
Focus on policy formulation and program evaluation as related to population issues; the political economy of national and international efforts are considered; planning a micro- and macro-level decision-making is examined; issues covered are population and resources, the value of children, international migration and major health problems.

SOC 788 - Master's Research Problems/Projects Credits: 1-3

SOC 790 - Seminar Credits: 1-4

SOC 791 - Independent Study Credits: 1-3
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

SOC 792 - Topics Credits: 1-6

SOC 794 - Internship Credits: 1-6
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

SOC 798 - Thesis Credits: 1-7
Notes: Sections of this course are provided online through the Great Plains Interactive Distance Education Alliance.

SOC 898D - Dissertation Credits: 1-12

SPAN (Spanish)

SPAN 591 - Independent Study Credits: 1-6

SPCM (Speech Communication)

SPCM 501 - Advanced Interpersonal Communication (COM) Credits: 3
Advanced study of contemporary issues that have significant impact on interpersonal relationships. Students develop an understanding of the current communication research, theory, and social practices associated with these relational issues.

SPCM 510 - Organizational Communication Credits: 3
Explores communication processes in organizational contexts, theories of leadership, decision making and conflict, the application of principles that facilitate communication in organizations, and other selected topics.

SPCM 515 - Communication and Gender (COM) Credits: 3
This course examines gendered verbal and nonverbal communication processes and the ways men and women tend to communicate in interpersonal, family, group, organizational, and mass media contexts.

SPCM 516 - Rhetorical Criticism Credits: 3
Critical evaluation of American speakers from Colonial to contemporary times.

SPCM 540 - Health Communication (COM) Credits: 3
This course will examine the contexts and processes of communication about health, focusing on how professionals, patients, and practitioners interact in ways that constitute and influence health and medicine.

SPCM 541 - Health Communication Campaigns Credits: 3
Creation of evidence-based communication interventions to address the health needs of communities. The course requires students to identify contemporary health needs, select appropriate forms of health communication intervention, develop intervention messages and create a plan for assessing effectiveness of interventions. Students will also learn how to collect, analyze and interpret data using techniques such as surveying, interviewing, and moderating focus groups.

SPCM 582 - Travel Studies Credits: 1-5
This travel study course is designed to provide extra-mural educational experiences, as approved by, and under the direction of a faculty member, and may be in cooperation with faculty and administrators of other institutions. Students will participate in hand-on activities, and design educational activities for presentation at selected locations. Includes pre-travel orientation, post-travel self-evaluation, and a written report.

SPCM 591 - Independent Study Credits: 1-3

SPCM 592 - Topics Credits: 1-5

SPCM 700 - Instructional Methods in Communication Credits: 3
Problems and issues in teaching the basic communication course, development of communication courses, and issues relevant to communication education.

SPCM 701 - Introduction: Graduate Studies (COM) Credits: 3
This class is an examination of methods of research, writing, & documentation. It also explores communication as a discipline. Required of all Masters students.

SPCM 702 - Communication Theory Credits: 3
This course discusses the history and roots of communication theory; the connections between theory and research; issues of epistemology, axiology and ontology; as well as evaluation of theories.
Time Series Analysis Credits: 3
This course is an examination of the methods of social science research in the areas of communication studies and mass communication. The course includes planning and designing communication research, methodologies for conducting research, and analyzing and interpreting quantitative and qualitative data. Cross-Listed: MCOM 787.

SPCM 788 - Master’s Research Problems/Projects Credits: 1-6

SPCM 791 - Independent Study Credits: 1-2

SPCM 792 - Topics Credits: 1-3

SPCM 798 - Thesis Credits: 1-7

STAT (Statistics)

STAT 510 - SAS Programming Credits: 3
Base SAS language and procedures for accessing data, manipulating data, creating data structures, managing data, producing graphs, producing reports, error handling, accessing data using SQL, and advanced programming techniques.

STAT 514 - Basic R Programming Credits: 1
An introduction to the R programming language. Topics will include the R programming language and environment, preparation and summarization of data, presentation of data, and programming basics.

STAT 515 - R Programming Credits: 3
The R programming language and environment, preparation and summarization of data, programming basics, data presentation and visualization, app creation, and advanced programming techniques. Prerequisites: CSC 150 or INFO 101.

STAT 535 - Applied Bioinformatics Credits: 3
This practical course is designed for students with biological background to learn how to analyze and interpret genomics data. Topics include finding online genomics resources, BLAST searches, manipulating/editing and aligning DNA sequences, analyzing and interpreting DNA microarray data, and other current techniques of bioinformatics analysis.

STAT 541 - Statistical Methods II Credits: 3
Analysis of variance, various types of regression, and other statistical techniques and distributions. Sections offered in the areas of Biological Science and Social Science. Prerequisites: STAT 281, MATH 381, or STAT 381. Credit not given for both STAT 541 and STAT 581.

STAT 545 - Nonparametric Statistics Credits: 3
Covers many standard nonparametric methods of analysis. Methods will be compared with one another and with parametric methods where applicable. Attention will be given to: (1) analogies with regression and ANOVA; (2) emphasis on construction of tests tailored to specific problems; and (3) logistic analysis.

STAT 551 - Predictive Analytics I Credits: 3
Introduction to Predictive Analytics. This course will examine the fundamental methodologies of predictive modeling used in financial and predictive modeling such as credit scoring. Topics covered will include logistic regression, tree algorithms, customer segmentation, cluster analysis, model evaluation, and credit scoring. Prerequisites: STAT 482 or STAT 686 and STAT 415-515 or STAT 600.

STAT 553 - Applied Bayesian Statistics Credits: 3
Introduction to the philosophy and practice of Bayesian statistics. Statistical methods from simple regression models through generalized linear multilevel models are studied from a Bayesian perspective. Emphasis is placed on building understanding through computational approaches using examples and simulation exercises. Prerequisites: MATH 125, STAT 482, and STAT 514 or STAT 515.

STAT 560 - Time Series Analysis Credits: 3
Statistical methods for analyzing data collected sequentially in time where successive observations are dependent. Includes smoothing techniques, decomposition, trends and seasonal variation, forecasting methods, models for time series: stationarity, autocorrelation, linear filters, ARMA processes, nonstationary processes, model building, forecast errors and confidence intervals. Prerequisites: STAT 441 or STAT 482 or STAT 541 or STAT 686.

STAT 591 - Independent Study Credits: 1-3

STAT 592 - Topics Credits: 1-3

STAT 600 - Statistical Programming Credits: 3
Fundamentals of statistical programming languages including descriptive and visual analytics in R and SAS, and programming fundamentals of SAS and R including logic, loops, macros, and functions. Prerequisites: STAT 410 or STAT 510 or CSC 150.

STAT 601 - Modern Applied Statistics I Credits: 3
This course will build upon STAT 541 and assume students have knowledge of SLR, MLR, ANOVA, and basics of statistical inference. The class will start by covering statistical graphics and the associated modern statistical computing language(s). The next section of the class will focus on non- and semi-parametric methods with a focus on the application and interpretation of the methods. The last section of the class will focus on longitudinal and repeated measure models and conclude with an overview of techniques from meta-analysis and large-scale inference. Prerequisites: STAT 541 and STAT 600.

STAT 602 - Modern Applied Statistics II Credits: 3
This course will start with an introduction to data mining techniques from multivariate data such as Principal Component Analysis, Multidimensional Scaling, and Cluster Analysis. From there we will move on to an introduction to supervised learning methods and pattern recognition with a focus on algorithmic methods. The course will finish with an overview of statistical prediction analysis relevant to business intelligence and analytics. Prerequisites: STAT 601.

STAT 605 - Introduction to Predictive Analytics II Credits: 3
This course will examine advanced methodologies used in financial and predictive modeling. Topics covered include segmented scorecards, population stability, ensemble models, neural networks, MARS regression, and support vector machines. Prerequisites: STAT 451/STAT 551.

STAT 611 - Design of Experiments I Credits: 3
Analysis of variance, block designs, fixed and random effects, split plots and other experimental designs. Includes use of SAS proc GLM, Mixed, etc. Prerequisites: STAT 541 or STAT 582.

STAT 684 - Statistical Inference I Credits: 3
A theoretical study of the foundations of statistics, including probability, random variables, expectations, moment generating functions, sample theory, and limiting distributions. Prerequisites: STAT 381.

STAT 685 - Statistical Inference II Credits: 3
A theoretical study of the foundations of statistics, including most powerful tests, maximum likelihood tests, complete and sufficient statistics, etc. Corequisites: STAT 684.

STAT 686 - Regression Analysis I Credits: 3
Methodology of regression analysis, including matrix formulation, inferences on parameters, multiple regression, non-linear regression, outlier detection, diagnostics, and multicollinearity. Prerequisites: STAT 381.

STAT 687 - Regression Analysis II Credits: 3
Advanced regression methodology, including nonlinear regression, logistic regression, Poisson regression, and correlation analysis. Prerequisites: STAT 686.

STAT 691 - Independent Study Credits: 1-3

STAT 715 - Multivariate Analysis I Credits: 3
Multiple, partial, canonical correlation test of hypothesis on means; multivariate analysis of variance; principal components; factor analysis; and discriminant analysis. Prerequisites: STAT 482 or STAT 582.

STAT 716 - Asymptotic Statistics Credits: 3
This course will cover modern statistical approximation theorems relating to the current statistical and machine learning literature in Mathematical Statistics. Specific topics to be covered are: Review of Stochastic Convergence (Almost-Sure representations, Convergence of Moments, Lindeberg-Feller Central Limit Theorem, etc.), Delta Method, Moment Estimators, and $\hat{\theta}$ and $\ell$- Estimators. An additional selection of 2-4 topics will also be covered that are related to the research focus of the PhD students in the class. Prerequisites: STAT 715, STAT 684, and MATH 741.
STAT 721 - Statistical Computing/Simulation Credits: 3
Computationally intensive statistical methods that would not be feasible without modern computational resources and statistical simulation techniques, including random variable generation methods, Monte Carlo simulation and importance sampling. Kernel smoothing and smoothing splines, bootstrap, jackknife and cross validation, regulation and variable selection in regression, EM algorithm, concepts of Bayesian inference, Markov chain Monte Carlo methods such as Gibbs sampling, and the Metropolis-Hasting algorithm. Prerequisites: STAT 482 or STAT 541 or STAT 601 or STAT 684 or STAT 686.

STAT 731 - Survival Analysis Credits: 3
Introduction to survival data, censoring and truncation, survival function and hazard function, non-parametric methods for estimating survival curves, comparing two or more survival curves, semi-parametric proportional hazards regressions, model diagnostics, accelerated failure time and other parametric models. Prerequisites: STAT 541 or STAT 381.

STAT 736 - Bioinformatics Credits: 3
This course is an introduction to bioinformatics in students in mathematics and physical sciences. This course will include a brief introduction to cellular and molecular biology and will cover topics such as sequence alignment, phylogenetic trees and gene recognition. Existing computational tools for nucleotide and protein sequence analysis, protein functional analysis and gene expression studies will be discussed and used.

STAT 742 - Spatial Statistics Credits: 3
Geostatistical data analysis with variogram, covariogram and correlogram modeling. Spatial prediction and kriging, spatial models for lattices, spatial patterns. Prerequisites: STAT 541 or STAT 560 or STAT 684 or STAT 686.

STAT 752 - Advanced Data Science Credits: 3
This course will cover current research in the Mathematical and Statistical Sciences. The focus of the class is to introduce PhD students to the ongoing research programs of the faculty and advanced methodologies outside of the traditional core classes related to the rapidly evolving discipline of Data Science. This class can be taken multiple times for credit. Prerequisites: Instructor permission.

STAT 760 - Quality Control Credits: 3
Application of statistical techniques to the control of quality and the development of economical inspection methods. Collection, analysis, and interpretation of operations data; control charts and sampling procedure. Prerequisites: STAT 281 or STAT 381. Cross-Listed: ME 760/OM 760.

STAT 762 - Advanced Experimental Design Credits: 3
Linear Model interpretation in vector spaces and projections, use of generalized inverses, identifiability and estimability of contrasts, normal equations, Gaussian-Markov Theorem, MVUE, distribution theory for quadratic forms, complex designs such as crossover, splitplot and repeated measures, asymptotics for general linear models, familiarity with nonparametric regression models. Prerequisites: STAT 685 and STAT 687.

STAT 779 - Advanced Statistics Synthesis Credits: 1
Synthesis of concepts from advanced statistics courses. Prerequisites: Instructor consent.

STAT 788 - Research Paper Credits: 1-2

STAT 791 - Independent Study Credits: 1-3

STAT 792 - Topics Credits: 1-3

STAT 794 - Internship Credits: 1-3

STAT 798 - Thesis Credits: 1-7

THEA (Theatre)

THEA 791 - Independent Study Credits: 1-3

VET (Veterinary Science)

VET 524 - Medical and Veterinary Virology Credits: 3
Basic course discussing the characterization, structure, and replication of viruses and the pathogenesis of viral disease in man and animals. Prerequisites: BIOL 204 or instructor consent. Cross-Listed: MICR 524.

VET 576 - Advanced Mammalian Physiology Credits: 4
An advanced study of the physiological mechanisms utilized by mammals to regulate body functions with the nervous and endocrine systems, to acquire and use chemical energy from their environment, and to integrate the functions of the organs systems to maintain the health of the animal. Emphasis is placed on applying physiological concepts and principles to solve problems. Notes: Previous courses in anatomy, physiology, and biochemistry are recommended.

VET 591 - Independent Study Credits: 1-3

VET 592 - Topics Credits: 1-3

VET 788 - Master's Research Problems Credits: 1-3

VET 791 - Independent Study Credits: 1-3

VET 792 - Topics Credits: 1-3

VET 793 - Workshop Credits: 1-4

WL (Wildlife & Fisheries Sciences)

WL 515 - Upland Game Ecology and Management Credits: 3
Upland game birds and mammals as components of ecosystems. Effects of farming; industry; social change; technology; and federal, state, and private programs on game and non-game species. Techniques for individual species management. Corequisites: WL 515L.

WL 515L - Upland Game Ecology and Management Laboratory Credits: 0

WL 517 - Large Mammal Ecology and Management Credits: 3
Large mammal life histories and distributions. Relationships of nutrition, reproduction, interspecific competition, and predation to management of big game habitat and harvest. Techniques for research and management of large mammals. Corequisites: WL 517L.

WL 517L - Large Mammal Ecology and Management Laboratory Credits: 0

WL 518 - Ecology of Aquatic Invertebrates Credits: 3
The identification of and ecological relationships associated with aquatic invertebrates; aquatic ecosystems of the north-central states are emphasized. Corequisites: WL 518L.

WL 518L - Ecology of Aquatic Invertebrates Laboratory Credits: 0
Corequisites: WL 518.

WL 519 - Waterfowl Ecology and Management Credits: 3
Analysis of ecological and socio-economic factors affecting waterfowl habitat and waterfowl populations. State and federal programs affecting wetland drainage and preservation. Field inspection of waterfowl habitat in the north-central states. Corequisites: WL 519L.

WL 519L - Waterfowl Ecology and Management Laboratory Credits: 0

WL 521 - Grassland Fire Ecology Credits: 3
The course describes the ecological effects of fire on grassland ecosystem components, from soil and vegetation to wildlife and beef cattle. It also provides insight into the history of fires, the people who use them and why, the parts of a fire, how fires behave in relation to fuel and weather, and the conducting and safety of prescribed burns. Cross-Listed: RANG 521.

208 Course Information
WL 525 - Wildlife Nutrition and Disease Credits: 3
Emphasis is placed on nutrient requirements and acquisition, conditions and characteristics of important diseases, and their management implications. Focal areas include the biochemical, physiological, and ecological bases for studying nutrition and disease; nutrition and disease relationships to wildlife and habitat; protein, energy, vitamin, and mineral requirements and their relationships to diseases; and strategies for satisfying nutritional requirements. Corequisites: WL 525L.

WL 525L - Wildlife Nutrition and Disease Laboratory Credits: 0

WL 527 - Limnology Credits: 4
Physical, chemical, and biological characteristics of lentic freshwater ecosystems. Analysis of and methods for quantifying processes that function in lentic freshwater ecosystems. Corequisites: WL 527L.

WL 527L - Limnology Lab Credits: 0
Laboratory to accompany WL 527. Corequisites: WL 527.

WL 529 - Ecology of Fishes and Habitat Credits: 3
Study of fish as an organism and the interrelations of fish with other organisms and with their habitat. Corequisites: WL 529L.

WL 529L - Ecology of Fishes and Habitat Lab Credits: 0
Laboratory to accompany WL 529. Corequisites: WL 529.

WL 531 - Advanced Fisheries Management Credits: 3
Advanced management and ecology of public and private water bodies through manipulation of habitat, organisms, and human users. The course will address water body design and construction, limnology, hydrology, channel morphology, water quality, biological production, fish management, troubleshooting, and pond and stream opportunities. Corequisites: WL 531L. Prerequisites: WL 412.

WL 531L - Advanced Fisheries Management Lab Credits: 0
Laboratory to accompany WL 531. Corequisites: WL 531. Prerequisites: WL 412L.

WL 592 - Topics Credits: 1-3
Corequisites: WL 592L.

WL 592L - Special Topic in Wildlife and Fisheries Laboratory Credits: 0

WL 712 - Wetlands Ecology and Management Credits: 3
Botanical, zoological, hydrological, pedological, and biogeochemical components of wetland systems are studied. Course includes the management of wetlands for various functional values, government jurisdiction in wetland regulation, and wetland classification. North American wetland systems are discussed with emphasis on northern glaciated prairie wetlands. Corequisites: WL 712L.

WL 712L - Wetlands Ecology and Management Laboratory Credits: 0

WL 713 - Animal Population Dynamics Credits: 3
Methods of analysis and interpretation of vital statistics of animal populations. Current theories on natural regulation of animal populations. Particular emphasis on vertebrate species of economic and/or recreational importance. Comparison of environmental controls on of various animal groups. Corequisites: WL 713L.

WL 713L - Animal Population Dynamics Laboratory Credits: 0

WL 715 - Wildlife Research Design Credits: 3
Use of the scientific method for designing wildlife research and developing proposals. Familiarization with field and laboratory methods. Practical experience with statistical data analysis. Corequisites: WL 715L.

WL 715L - Wildlife Research Design Laboratory Credits: 0

WL 717 - Aquatic Trophic Ecology Credits: 3
Analysis of selected biological processes influencing the organization of aquatic communities. Complex trophic interactions and their effects on the life histories and bioenergetics of aquatic organisms are examined. Corequisites: WL 717L.

WL 717L - Aquatic Trophic Ecology Laboratory Credits: 0

WL 720 - Quantitative Fisheries Science Credits: 3
An advanced analytical fisheries course that focuses on quantitative techniques. Emphasis is placed on populations (e.g., recruitment, growth, mortality), and quantitative assessment of communities (e.g., predatory-prey interactions) and ecosystems (e.g., biotessors). Suggested background courses include population dynamics, experimental design, and graduate statistics and/or biometry. Corequisites: WL 720L.

WL 720L - Quantitative Fisheries Science Laboratory Credits: 0

WL 723 - Fisheries Ecology & Management Credits: 3
Principles and techniques of selected practices for reservoir, lake, pond and lotic fisheries management. Corequisites: WL 723L.

WL 723L - Fisheries Ecology & Management Laboratory Credits: 0
Laboratory to accompany WL 723. Corequisites: WL 723.

WL 724 - Advanced Human Dimensions in Natural Resource Management Credits: 3
This course is designed to provide students aspiring to work in fisheries and wildlife or other natural resource management fields, whether at the federal, state, or local level of government or non-government agency, with a basic level of understanding of the social aspects of management and some practical applied human dimensions skills. Students will explore the human dimensions' literature and discuss practical applications of findings to current management issues.

WL 791 - Independent Study Credits: 1-3

WL 798 - Thesis Credits: 1-7

WL 898D - Dissertation Credits: 1-12

WMST (Women's Studies)

WMST 519 - Women in Media Credits: 3
This course examines contributions of women to the mass media from colonial era to present. It also studies the portrayal of women by the news media and by advertising, and it studies the roles currently played by women in the media and in supporting areas of advertising and public relations. Cross-Listed: MCOM 519.

WMST 592 - Topics Credits: 1-3

Control of the educational institutions of the state is vested in the SD Board of Regents. The Faculty consists of the President, the Vice Presidents, the Deans and other administrative officers, teachers and researchers with rank of instructor or above. The faculty is responsible in general for academic standards and procedures and programs, including recommending to the Regents the candidates for degrees. Faculty business is conducted by the Faculty Senate, an elected body through which faculty express concerns for the welfare of the University and the university community, develop and disseminate communications, contribute to formation of general university policy, and perform those duties and functions allocated to or assumed by the faculty.

**South Dakota Board of Regents**

The Board of Regents is the constitutional governing board for South Dakota's six state universities, Black Hills State University, Dakota State University, Northern State University, South Dakota School of Mines and Technology, South Dakota State University, and the University of South Dakota, and two special schools; the South Dakota School for the Blind and Visually Impaired and the South Dakota School for the Deaf.

The South Dakota State University Foundation’s sole purpose is to provide the University with the maximum amount of private resources. Through these gifts, we strive to impact greatness.

Our vision is Transforming Lives Through a Culture of Giving.
Our mission is Enhancing Excellence by Cultivating Generosity and Treasuring the Loyalty of All We Serve.

The Foundation is an independent 501(c)(3) non-profit organization with more than $200 million in assets, including an endowment of $120 million. The professional staff of 37 is supported by a 108-member Council of Trustees.

South Dakota State University Alumni Association

The SDSU Alumni Association is an independent, not-for-profit organization, non dues association that welcomes all graduates, former students, faculty, staff and friends of South Dakota State, as well as students, to be SDSU Alumni Association members. We strive to connect alumni to SDSU and each other, through the promotion of the University and by providing valuable benefits, services and resources to members. The SDSU Alumni Association embraces each one of its more than 81,000 alumni and friends who are proud to be Jackrabbits. We are a highly diverse and global family that is an influential force in both keeping traditions alive and advancing South Dakota State University.

University Administration & Faculty Listing

Administration
Dunn, Barry, President, Professor of Animal Science, Graduate Faculty; B.S., South Dakota State University, 1975; M.S., 1977; Ph.D., 2000.
Hedge, Dennis, Provost and Vice President for Academic Affairs, Professor of Pharmacy Practice, Graduate Faculty; Pharm.D., University of Kansas, 1991.
Adelaine, Michael F., Vice President for Technology and Safety, Graduate Faculty; B.S., Michigan State University, 1974; M.S., University of Nebraska, 1985; Ph.D., 1989.
Kohrman, Robert, Vice President for Finance and Administration; B.A., University of Colorado; M.A.
Scholl, Daniel, Vice President for Research and Economic Development, Professor, Graduate Faculty; B.S., University of California, 1985; D.V.M., University of California, 1987; M.P.V.M., University of California, 1988; Ph.D., State University of Utrecht (the Netherlands), 1992.
Willis, Michaela, Vice President for Student Affairs; B.A., Doane College, 2000; M.A.M., 2004; Ph.D., University of Nebraska – Lincoln, 2014.

Helling, Mary Kay, Vice Provost for Academic Affairs, Professor of Human Development, Graduate Faculty; B.S., South Dakota State University, 1977; M.S., 1982; Ph.D., Purdue University, 1992.
Doolittle, James J., Associate Vice President for Research Assurance and Sponsored Programs, Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Purdue University, 1982; M.S., Texas A&M University, 1986; Ph.D., 1991.
Kattelmann, Dean E., Associate Vice President for Facilities and Services; B.S., Missouri State University, 1976; M.S., University of Missouri, 1989.
Wermedal, Douglas, Associate Vice President for Student Affairs; B.S., South Dakota State University, 1985; M.S.Ed., Eastern Illinois University, 1987; Ph.D., South Dakota State University, 2008.
Knutson, Ryan, Assistant Vice President for Technology; B.S., South Dakota State University, 2000; M.S., Dakota State University, 2005.
Wymer, Greg, Interim Assistant Vice President for International Affairs and Outreach; B.A., Southwest Minnesota State University, 1995; M.S., Minnesota State University, 2003; MBA., Southwest Minnesota State University, 2005.
**Academic Deans**

- **Anderson, Debra G.**, Associate Dean for Research of the College of Nursing and Associate Professor, Graduate Faculty; A.S.N., Vincennes University, 1977; B.S.N., Indiana Central University, 1979; M.S.N., Indiana University, 1983; Ph.D., Oregon Health Sciences University, 1993.
- **Berdanier, Bruce**, Dean of the Jerome J. Lohr College of Engineering, Professor of Civil Engineering, Graduate Faculty; B.S., Ohio State University, 1980; M.S., Purdue University, 1983; Ph.D., Ohio State University, 1995.
- **Bott-Knuston, Rebecca C.**, Dean of the Van D. and Barbara B. Fishback Honors College, Associate Professor in Animal Science, Graduate Faculty; B.S., University of Missouri, 2003; M.S., University of Nebraska, 2005; Ph.D., Colorado State University, 2009.
- **Bücking, Heike**, Interim Associate Dean for Research of the College of Natural Sciences, Professor of Biology and Microbiology, Graduate Faculty; M.S., University of Bremen (Germany), 1991; Ph.D., 1995.
- **Burdette, Linda K.**, Assistant Dean of Nursing and Associate Professor, Aberdeen Accelerated Nursing Program Coordinator, Graduate Faculty; A.D.N., Presentation College, 1973; B.S., South Dakota State University, 1985; M.S., 1988, 1994; Ph.D., 2010.
- **Doernor, Kinkel**, Dean of the Graduate School and Interim Dean of the College of Natural Sciences, Professor of Biology and Microbiology, Graduate Faculty; B.S., Southern Illinois University, 1986; M.S., University of Illinois, 1989; Ph.D., University of Illinois at Urbana-Champaign, 1992.
- **Gibbons, William R.**, Interim Associate Dean for Research of the College of Agriculture, Food and Environmental Sciences, Interim Associate Director of the SD Agricultural Experiment Station, Distinguished Professor of Biology and Microbiology, Graduate Faculty; B.S., South Dakota State University, 1980; M.S., 1982; Ph.D., 1987.
- **Guo, Xiangming**, Assistant Dean for Research, College of Pharmacy and Allied Health Professions, Professor of Pharmaceutical Sciences, Graduate Faculty; B.S., Zhejiang Medical University, 1982; M.S., University of Kansas, 1988; Ph.D., 1991.
- **Hansen, Daniel J.**, Assistant Dean for Student Services, College of Pharmacy and Allied Health Professions, Associate Professor of Pharmacy Practice; B.S., South Dakota State University, 2003; Pharm.D., 2005.
- **Hegland, Jane E.**, Associate Dean of Education and Human Sciences, Professor and Department Head of Consumer Sciences, Graduate Faculty; B.A., Saint Olaf College, 1985; M.A., University of Minnesota, 1991; Ph.D., 1995.
- **Heldor, Dennis L.**, Associate Dean of Research of the Jerome J. Lohr College of Engineering and Distinguished Professor of Electrical Engineering, Graduate Faculty; B.S., South Dakota State University, 1979; B.S., 1980; M.S., 1985; Ph.D., North Dakota State University, 1991.
- **Hobs, Barbara B.**, Assistant Dean of Nursing and Associate Professor, Graduate Faculty; B.S.N., San Diego State University, 1970; M.S.N., California State University, 1991; Ph.D., University of Nebraska, 2004.
- **Horsley, Trisha Leann**, Assistant Dean of Nursing and Assistant Professor; Sioux Falls, Graduate and Undergraduate Nursing; B.S.N., University of Oklahoma, 1990; M.S., University of Oklahoma, 2005; Ph.D., University of Kansas, 2012.
- **Killefer, John**, Dean of the College of Agriculture, Food and Environmental Sciences, Professor of Animal Science, Graduate Faculty; B.A., Hastings College, 1985; Ph.D., Oregon State University, 1990.

**Distinguished Professors**

- **Clay, Sharon A.**, Distinguished Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Wisconsin, 1977; M.S., University of Idaho, 1982; Ph.D., University of Minnesota, 1986.
- **Dwivedi, Chandradhar**, Distinguished Professor and Department Head Emeritus of Pharmacetical Sciences, Graduate Faculty; B.S., Gorakhpur University, 1964; M.S., 1966; Ph.D., Lucknow University, 1972.
- **Evenson, Donald P.**, Distinguished Professor Emeritus of Biology and Microbiology, Graduate Faculty; B.A., Augustana College, 1964; Ph.D., University of Colorado, 1968.
- **Flake, Lester D.**, Distinguished Professor Emeritus of Wildlife and Fisheries Sciences, Graduate Faculty; B.S., Brigham Young University, 1965; M.S., 1966; Ph.D., Washington State University, 1971.
- **Gibbons, William R.**, Interim Associate Dean for Research of the College of Agriculture, Food and Environmental Sciences, Interim Associate Director of the SD Agricultural Experiment Station, Distinguished Professor of Biology and Microbiology, Graduate Faculty; B.S., South Dakota State University, 1980; M.S., 1982; Ph.D., 1987.
- **Granholm, Nels H.**, Distinguished Professor Emeritus of Biology, Microbiology and Global Studies, Graduate Faculty; B.A., University of Massachusetts, 1964; Ph.D., Iowa State University, 1968.
- **Gritzner, Charles F.**, Distinguished Professor Emeritus of Geography, Graduate Faculty; B.A., Arizona State University, 1958; M.A., Louisiana State University, 1960; Ph.D., 1969.
- **Hege, Margaret J.**, Distinguished Professor Emerita of Nursing, Director of Academic Evaluation and Assessment Emerita, Graduate Faculty; B.A. Gustavus Adolphus College, 1969; M.Ed., South Dakota State University, 1972; Ed.D., University of South Dakota, 1983; M.S., University of Minnesota, 1984.
Helder, Dennis L., Associate Dean of Research of the Jerome J. Lohr College of Engineering and Distinguished Professor of Electrical Engineering, Graduate Faculty; B.S., South Dakota State University, 1979; B.S., 1980; M.S., 1985; Ph.D., North Dakota State University, 1991.

Hess, Donna J., Distinguished Professor Emerita of Rural Sociology Graduate Faculty; B.A., Marquette University, 1965; M.A., State University of New York, 1971; Ph.D., Michigan State University, 1974.

Jenkins, Jonathan A., Distinguished Professor of Natural Resource Management, Graduate Faculty; A.A., Unity College, 1982; B.S., 1984; M.S., University of Maine, 1986; Ph.D., Oklahoma State University, 1991.

Johnson, James L., Distinguished Professor Emeritus of Communication Studies and Theatre, Graduate Faculty; B.S., Kansas State University, 1960; M.A., University of South Dakota, 1961; Ph.D., University of Kansas, 1973.

Johnson, W. Carter, Distinguished Professor Emeritus of Ecology, Graduate Faculty; B.S., Augustana College, 1968; Ph.D., North Dakota State University, 1971.

Kattelmann, Kendra K., Distinguished Professor and Department Head of Health and Nutritional Sciences; Director, Didactic Program in Dietetics, Graduate Faculty; B.S., South Dakota State University, 1977; M.S., University of Arkansas, 1984; Ph.D., University of Missouri, 1993.

Malo, Douglas D., Distinguished Professor Emeritus of Soil Science, Graduate Faculty; B.S., Iowa State University, 1971; M.S., North Dakota State University, 1974; Ph.D., 1975.

Muthukumarappan, K., Distinguished Professor and Graduate Coordinator of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., University of Madras (India), 1981; B.E., Tamil Nadu Agricultural University (India), 1986; M.E., Asian Institute of Technology, 1988; Ph.D., University of Wisconsin, 1993.

Nelson, Eric A., Distinguished Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; B.A., Mt. Marty College, 1979; M.A., University of South Dakota, 1981; Ph.D., South Dakota State University, 1993.

Schingoethe, David J., Distinguished Professor Emeritus of Dairy Science, Graduate Faculty; B.S., University of Illinois, 1964; M.S., 1965; Ph.D., Michigan State University, 1968.

Wahlstrom, Richard C., Distinguished Professor Emeritus of Animal Science; B.S., University of Nebraska, 1948; M.S., University of Illinois, 1950; Ph.D., 1952.

Woodard, Charles L., Distinguished Professor Emeritus of English, Graduate Faculty; B.S., Dakota State University, 1964; M.A., University of Nebraska, 1966; Ph.D., University of Oklahoma, 1975.

Wragge, Leon J., Distinguished Professor of Plant Science Emeritus, Extension Specialist; B.S., South Dakota State University, 1961; M.S., 1964.

Anderson, Gary A., Professor of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., South Dakota State University, 1975; M.S., Iowa State University, 1985; Ph.D., 1987.

Anderson, Jenn, Associate Professor of Communication Studies, School of Communication and Journalism, Graduate Faculty; B.A., Truman State University, 2004; M.A., Miami University, 2008; Ph.D. Michigan State University, 2012.

Anderson, Jill L., Associate Professor of Dairy and Food Science, Graduate Faculty; B.S., University of Delaware, 2003; M.S., South Dakota State University, 2005; Ph.D., 2012.

Anderson, Randi, Instructor of English and Professional Advisor; B.A., Black Hills State University, 2007; M.A., South Dakota State University, 2011.

Anteau, Michael J., Adjunct Assistant Professor of Natural Resource Management; B.S., University of Alaska Fairbanks, 1997; M.S., Louisiana State University, 2002; Ph.D., 2006.

Apa, Anthony D., Adjunct Professor of Natural Resource Management; B.S., University of Montana Missoula, 1981; M.S., South Dakota State University, 1985; Ph.D., University of Idaho Moscow, 1998.

Arends, Robin, Clinical Assistant Professor of Nursing, Graduate Faculty; B.S., Briar Cliff, 2001; M.S., South Dakota State University, 2008; D.N.P., 2014.

Arti, Robert, Instructor of Architecture, School of Design; B.S., North Dakota State University, 2010; M.Arch., North Dakota State University, 2011.

Arnold, Todd, Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., University of Minnesota Saint-Paul, 1983; M.S., University of Missouri-Columbia, 1986; Ph.D., University of Western Ontario, 1990.

Atoba, Olabisi, Assistant Professor of Psychology; B.S., Obafemi Awolowo University (Nigeria), 2007; M.S., Texas A&M University, 2012; Ph.D., 2017.

Atteberry-Gustafson, Anna, Assistant Director of Nursing Student Services; A.S., University of South Dakota, 1994; B.S., South Dakota State University, 1998, 1999; M.S., 2002.

Auger, Donald L., Professor of Biology and Microbiology, Graduate Faculty; B.A., Saint John’s University, 1975; Ph.D., University of North Dakota, 1995.

Austin, Jane E., Adjunct Assistant Professor of Natural Resource Management; B.S., University of Maine, 1980; M.S., University of Missouri, 1983; Ph.D., 1988.

Baack, Michelle, Adjunct Assistant Professor of Chemistry and Biochemistry; B.S., South Dakota State University, 1991; M.D., University of South Dakota School of Medicine, 1995.

Badura, Matthew, Assistant Director, First Year Advising Center, Wintrobe Student Success Center; B.A., University of Notre Dame 1996; M.A. Illinois State University, 1998; Ph.D., Temple University 2010.

Faculty & Advisors

Aaron, David, Assistant Professor, Engineering - Office of Research; B.S., South Dakota State University, 1975; M.S., University of Wisconsin, 1981.

Abraham, Ross P., Professor of Mathematics and Statistics, Graduate Faculty; B.S., Augustana College, 1990; M.A., University of Montana, 1993; Ph.D., University of Houston, 1997.

Abuqat, Alham, Assistant Professor of Nursing; B.S., Jordan University, 2004; M.S.N., Jordan University 2006; M.B.A., Coleman University, 2016; Ph.D., University of San Diego, 2013.

Ackman, John D., Professor of Theatre, School of Performing Arts, Graduate Faculty; B.S., South Dakota State University, 1978; M.F.A., University of Montana, 1984.

Ahlering, Marissa A., Adjunct Assistant Professor of Natural Resource Management; B.S., Creighton University, 2000; Ph.D., University of Missouri, Columbia, 2005.

Ahmed, Patricia, Lecturer in Sociology and Rural Studies, Graduate Faculty; B.A., University of California-Los Angeles, 1998; M.A., 2000; Ph.D., 2005.

Ali, Shaukat, Associate Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; M.Sc., University of Agriculture, Faisalabad (Pakistan), 1978; M.S., South Dakota State University, 1993; Ph.D., North Dakota State University, 2001.

Alsaker, William, Instructor of Mathematics and Statistics; B.S., South Dakota State University, 2008; M.S., South Dakota State University, 2010.

Álvarez, José J., Assistant Professor of Modern Languages and Global Studies; B.A., Pontificia Universidad Católica del Perú, 2005; M.A., Pennsylvania State University, 2007; Ph.D., 2013.

An, Wenfeng, Associate Professor of Pharmaceutical Sciences, Graduate Faculty; M.B., Peking University Health Science Center (China), 1993; M.P.H., Peking University Health Science Center (China), 1996; Ph.D., University of Michigan Medical School, 2003.

Anand, Sunjeev, Professor of Dairy and Food Science, Graduate Faculty; B.S., D.S. College (India), 1978; M.S.; National Dairy Research Institute (India), 1981; Ph.D., 1986.

Anderson, Carla L., Student Services Coordinator and Professional Academic Advisor, College of Education and Human Sciences; B.S., South Dakota State University, 2002; M.S., 2007; Ed.D., University of South Dakota, 2013.
Baggett, Marie-Pierre E., Professor of Modern Languages and Global Studies, Graduate Faculty; B.A., Université de Clermont (France), 1986; M.A., University of California, 1989; Ph.D., 1996.

Baggett, Paul B., Associate Professor of English, Graduate Faculty; B.A., University of California-Irvine, 1987; M.A., California State University- Long Beach, 1993; Ph.D., University of Miami, 1998.

Bakker, Kristel K., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., South Dakota State University; M.S., 1996; Ph.D., 2000.

Ball, Jennifer N., Assistant Professor of Pharmacy Practice; Pharm.D., Purdue University, 2012.

Ball, John J., Professor of Agronomy, Horticulture, and Plant Science; B.S., Michigan Technological University, 1976; M.S., Michigan State University, 1979; Ph.D., 1982.

Barnes, Michael E., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., South Dakota State University, 1985; M.S., Kansas State University Manhattan, 1987; Ph.D., South Dakota State University, 2014.

Bashore, Tammy, Instructor of Interior Design, School of Design; B.S., University of Nebraska – Lincoln, 2003; M.S.Arch, University of Nebraska – Lincoln, 2008.

Bassett, Kurt D., Professor and Department Head of Mechanical Engineering, Graduate Faculty; B.S., South Dakota State University, 1981; M.S., 1983; Ph.D., North Dakota State University, 1996.

Bassett, Susan D., Lecturer of Nursing; B.S., South Dakota State University, 1982; M.S., 1998.

Baye, Jordan F., Assistant Professor of Pharmacy Practice; B.A., University of St. Thomas, 2001; M.A., Medical College of Wisconsin, 2006; Pharm.D., University of Iowa, 2011.

Bebensee, Stephanie M., Assistant Director, First Year Advising Center, Wintrode Student Success Center; B.S., South Dakota State University, 2000; M.S., South Dakota State University, 2008.

Beck, Dwayne L., Research Manager of Dakota Lakes Field Station, Professor, Graduate Faculty; B.S., Northern State University, 1975; Ph.D., South Dakota State University, 1983.

Behl, Diana M., Associate Professor of Studio Art, School of Design; B.F.A., Bowling Green State University, 2001; M.A., University of Iowa, 2004; M.F.A., 2005.

Behr, Melissa J., Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory; B.A., Smith College, 1975; D.V.M., Cornell University, 1979.

Berendse, Joseph, Assistant Professor of Pharmacy Practice; B.S., Friends University, 2010; B.S., South Dakota State University, 2013; Pharm.D., 2015.

Bertolini, Katherine, Associate Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.A., Michigan State University, 1990; M.A., 1999; Ph.D., North Dakota State University, 2010.

Besser, Thomas E., Adjunct Associate Professor of Natural Resource Management, Graduate Faculty; B.S., University of Wisconsin Madison, 1973; D.V.M., University of Minnesota St. Paul, 1981; Ph.D., Washington State University, 1986.

Betz-Hamilton, Axton E., Assistant Professor of Consumer Sciences; B.S., Purdue University, 2002; M.S., 2007; Ph.D., Iowa State University, 2012.

Bieseker, Matthew J., Associate Professor of Mathematics and Statistics, Graduate Faculty; B.S., California State University at Chico, 1994; M.S., Utah State University, 1996; Ph.D., 2004.

Biever, Nicole, Instructor of English; B.A., South Dakota State University, 2003; M.A., 2005.

Birch, Carol, Lecturer of Nursing; B.S.N., Loyola University, 1979; M.S., Northern Illinois University, 1981.

Bjornstad, Andrea, Assistant Professor of Counseling and Human Development; B.S., South Dakota State University, 2001; M.A., 2004; Ph.D., University of South Dakota, 2009.

Blackwell, Brian G., Adjunct Associate Professor of Natural Resource Management, Graduate Faculty; B.S., South Dakota State University, 1990; M.S., Texas A&M University, 1993; Ph.D., South Dakota State University, 2001.

Blaha, Bradley, Coordinator of Recruiting and Academic Services for the College of Agriculture, Food and Environmental Sciences; B.S., South Dakota State University, 2008.

Blair (Weaver), Amanda D., Professor of Animal Science, Graduate Faculty; B.S., Purdue University, 2001; Ph.D., Purdue University, 2007.

Bleakley, Bruce H., Professor of Biology and Microbiology, Graduate Faculty; B.S., Michigan State University, 1978; M.S., 1981; Ph.D., University of Florida, 1986.

Boe, Arvid A., Professor of Agriculture, Horticulture, and Plant Science, Graduate Faculty; B.A., Pacific Lutheran University, 1972; M.A., University of South Dakota, 1976; Ph.D., South Dakota State University, 1979.

Bonnemann, Howard H., Lecturer of Dairy and Food Science and Research Manager; B.S., South Dakota State University, 1982; B.S., 1987; M.S., 1984.

Bonvallet, Geoffrey A., Lecturer in Physics; B.A., College of Wooster, 2000; M.S., University of Wisconsin, 2002; Ph.D., 2005.

Born, Staci, Assistant Professor of Counseling and Human Development; B.A., Minnesota State University, 2006; M.S., 2011; Ph.D., 2015.

Bosch, Caitlyn, Instructor of Nursing; B.S.N., University of North Dakota – Grand Forks, 2009; M.S.N., 2016.

Bowne, Mary, Associate Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.S., South Dakota State University, 1999; M.S., 2001; Ed.D., University of South Dakota, 2006.

Bowser, Bradley, Associate Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., Brigham Young University-Hawaii, 2003; M.S., Utah State University, 2005; Ph.D., University of Georgia, 2009.

Braaten, Patrick J., Adjunct Associate Professor of Natural Resource Management; B.S., University of North Dakota, 1988; M.S., South Dakota State University, 2003; Ph.D., Kansas State University, 2000.

Brake, Derek, Assistant Professor of Animal Science, Graduate Faculty; B.S. The Ohio State University, 2006; M.S. Kansas State University, 2009; Ph.D. Kansas State University, 2012.

Brandenburg, Thomas, Associate Professor of Mathematics and Statistics, Graduate Faculty; B.A, South Dakota State University, 1992; M.S., 1995; PhD, 2009.

Brawand, John E., Associate Professor of Music and Director of Orchestra, School of Performing Arts; B.M., University of North Texas, 1978; M.M., 1980; D.M.A., University of Texas, 1985.

Bridick, Hande, Associate Professor of Counseling and Human Development, Graduate Faculty; B.S., Middle East Technical University (Turkey), 1991; M.S., Kent State University, 1995; Ph.D., Kent State University, 2004.

Bridick, William C., Associate Professor of Counseling and Human Development, Graduate Faculty; B.A., Southern Illinois University, 1987; M.Ed., Vanderbilt University, 1989; Ph.D., Kent State University, 2005.

Britson, Victoria, Assistant Professor of Nursing, Graduate Faculty; B.S., Briar Cliff College, 1989; M.S., South Dakota State University, 1995; Ph.D, 2009; F.N.P. Certificate, Briar Cliff University, 2011.

Brockmeier, Susanne, Lecturer of Teaching, Learning, and Leadership; B.S., Martin Luther College, 1987; M.Ed., South Dakota State University, 2003.

Brown, Michael L., Professor of Natural Resource Management, Graduate Faculty; B.S., Arkansas Technical University, 1986; M.S., Texas A&M University, 1989; Ph.D., 1993.

Brown, Robin J., Assistant Professor of Nursing; B.S., South Dakota State University, 1983; M.S., 1999; Ph.D., 2016.

Browning, Larry M., Professor of Physics, Graduate Faculty; B.S., Syracuse University, 1975; M.S., Purdue University, 1980; Ph.D., 1984.

Brözel, Volker, Professor and Department Head of Biology and Microbiology, Graduate Faculty; B.Sc., University of Stellenbosch (South Africa), 1986; B.Sc. (Hons) University of Pretoria (South Africa) 1988, M.S., 1990; Ph.D., 1993.

Bruggeman, Stephanie, Assistant Professor, Graduate Faculty; B.S., South Dakota State University, 1994; M.S., 1996; Ph.D., 2016.

Burckhard, Suzette R., Professor and Assistant Department Head of Civil and Environmental Engineering, Graduate Faculty; B.S., South Dakota State University, 1986; M.S., Kansas State University, 1992; M.S., 1993; Ph.D., 1997.
Burger, Donald, Associate Professor of Landscape Architecture/Program Coordinator, School of Design; B.L.A., Utah State University, 2006; MASLA, University of British Columbia, 2008.

Buttolph, Anne M., Lecturer of Nursing; B.S., University of Illinois, 1989; B.S., Saint Francis College of Nursing, 1992; M.S., University of South Alabama, 2007.

Butzin, Nicholas, Assistant Professor of Biology and Microbiology; B.S., University of Wisconsin-Platteville, 2002; M.S., University of Wisconsin-Milwaukee, 2005; Ph.D., 2009.

Byamukama, Emmanuel, Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Makerere University, 1999; M.S., 2001; Ph.D., Iowa State University, 2008.

Bylander, Nathan, Professional Academic Advisor, College of Pharmacy and Allied Health Professions; B.S., South Dakota State University, 2009; M.Ed., 2015.

Caffe-Treml, Melanie, Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Sciences and Technology (France), 2002; M.S., National Institute of Agronomy of Toulouse (France), 2004; Ph.D., South Dakota State University, 2010.

Carlile, Andrew, Lecturer of Communication Studies, School of Communication and Journalism, Director of Speech and Debate; B.A., Gustavus Adolphus College, 2007; M.S., South Dakota State University, 2009.

Carlson, Nicole, Instructor of Nursing; B.S.N. University of North Dakota, 2009; M.S.N., University of New Mexico, 2016.

Carotta, Christin L., Assistant Professor in Counseling and Human Development; B.B.A., Loyola University, 2003; M.Ed., University of Notre Dame, 2005; Ph.D., The Ohio State University, 2014.

Carson, Paula P., Associate Professor of Nursing, Graduate Faculty; B.S., South Dakota State University, 1975; M.S.N., University of Minnesota, 1985; Ph.D., University of Arizona, 1992.

Case, Carly, Athletic Academic Advisor, Intercollegiate Athletics; B.S., Northern Kentucky University, 2010; M.S., Northern Kentucky University, 2014.

Caspers-Graper, Mary, Department Head and Professor, H.M. Briggs Library; B.A., Luther College, 1979; M.A., University of Iowa, 1980; M.L.S., University of Arizona, 1985.

Cassady, Joseph, Professor and Department Head of Animal Science, Graduate Faculty; B.S., Iowa State University, 1993; M.S., University of Nebraska-Lincoln, 1995; Ph.D., 1999.

Cassirer, E. Frances, Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., University of Montana Missoula, 1983; M.S., University of Idaho Moscow, 1990; Ph.D., University of British Columbia Vancouver, 2005.

Cempellin, Leda, Professor of Studio Art, School of Design, Graduate Faculty; Dottore in Lettere Moderne (Laurea), University of Padua, Italy, 1999; Dottore di Ricerca in Storia dell Arte (Ph.D.), University of Parma (Italy), 2004.

Chakravarty, Souvobrata, Assistant Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., Bidhan Chandra Krishi Vishvavidyalaya (India); M.S., Indian Institute of Science (India), 1998; Ph.D., 2003.

Chandraoeker, Gudiseva, Associate Professor of Pharmaceutical Sciences, Graduate Faculty; B.S., Andhra University (India), 1977; M.S., 1979; Ph.D., University of Mysore (India), 1983.

Chang, Jiyoung, Lecturer of Agronomy, Horticulture, and Plant Science; B.S., Yonsei University (Korea), 1988; M.S., South Dakota State University, 1997; Ph.D., 2002.

Chang, Oliver U., Assistant Professor of Aerospace Studies; B.S., University of Michigan, 2012; M.Eng., South Dakota State University, 2018.

Chase, Christopher, Professor of Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; D.V.M., Iowa State University, 1980; M.S., University of Wisconsin, 1987; Ph.D., 1990.

Chen, Yiqun, Instructor of Music, School of Performing Arts; B.M., California State University – Long Beach, 2009; M.A.T., University of Southern California, 2010; D.M.A., University of Iowa, 2017.

Chippens, Steven R., Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., Davis and Elkins College, 1990; M.S., West Virginia University, 1992; Ph.D., University of Idaho, 1997.

Choi, Youngyu, Assistant Professor of Graphic Design, School of Design; B.F.A., Dukssung Women's University, 2000; M.Des., Domus Academy, 2009; M.F.A., University of Florida, 2014.

Christensen, Cody, Assistant Professor of Consumer Sciences, Graduate Faculty; B.S.Ed., South Dakota State University, 2005; M.Ed., Ed.D., University of South Dakota, 2013.

Christensen, Mary, Coordinator of Agricultural Leadership, Education, Communication and Science, B.S., South Dakota State University, 2005; M.S., 2007; Ed.D., University of South Dakota, 2015.

Christopher-Hennings, Jane, Professor and Department Head of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; B.S., University of Wisconsin, 1975; M.S., 1990; D.V.M., University of Minnesota, 1983.

Ciarcia, Marco, Assistant Professor of Mechanical Engineering, Graduate Faculty; M.S., Università degli Studi di Palermo, 2001; Ph.D., Rice University, 2008.

Clapper, Jeffrey A., Professor of Animal Science, Graduate Faculty; B.S., Ohio State University, 1982; M.S., 1987; Ph.D., Purdue University, 1992.

Clark, Jason, Assistant Professor of Biology; B.S., Utah State University, 2011; M.S., 2014; Ph.D., University of Minnesota, 2017.

Clark, Sarah, Lecturer of Mathematics and Statistics; B.S., St. Cloud State University, 2000; M.S., South Dakota State University, 2008.

Clark, Thomas, Instructor of Management Sciences; B.G.S., Eastern Connecticut State University, 2006; M.S., 2009.

Clay, David E., Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Wisconsin, 1976; M.S., University of Idaho, 1984; Ph.D., University of Minnesota, 1988.

Clem, James, Professor and Department Head of Pharmacy Practice, Graduate Faculty; B.S., University of Iowa, 1989; Pharm.D., 1991.

Cochrane, Mark, Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., Massachusetts Institute of Technology, 1993; Ph.D., The Pennsylvania State University, 1998.

Cogswell, Kurt D., Professor and Department Head of Mathematics and Statistics, Graduate Faculty; B.S., Massachusetts Institute of Technology, 1978; M.S., North Dakota State University, 1991; Ph.D., Northwestern University, 1996.

Cole-Dai, Jihong, Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., University of Science and Technology of China, 1982; M.S., University of Maryland, 1984; Ph.D., 1987.

Conlee, Janice, Instructor of Nursing; A.S., Presentation College, 1990; B.S., Midland University, 1997; M.S., Creighton University, 2007.

Cooley, Jerry E., Instructor of Computer Science; B.S., South Dakota State University, 1973; M.A., 1986.

Crawford, Patricia, Associate Professor and Director of the School of Design; B.S., University of Missouri, 1986; M.L.A., Kansas State University, 1989; Ph.D., Arizona State University, 2001.

Cross, Tiffany, Instructor of Nursing; A.S., Iowa Lakes Community College, 2006; B.S., University of Iowa, 2011; M.S., Indiana Wesleyan University, 2013.

Crowe, Don, Professor of Music, School of Performing Arts; B.M.E., Furman University, 1970; M.M., Florida State University, 1979; D.M.A., University of Arizona, 1994.

Cutler, Kay, Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.A., University of Minnesota, 1989; Ph.D., University of Texas, 1995.

Dailey, Rocky, Assistant Professor of Journalism and Mass Communication, School of Communication and Journalism, Graduate Faculty; B.S., South Dakota State University, 1994; M.A., University of Memphis, 1998; Ed.D., Montana State University, 2012.

Daly, Russell, Associate Professor of Veterinary and Biomedical Sciences and Extension Veterinarian; B.S., South Dakota State University, 1988; M.S., 2013; D.V.M. Iowa State University, 1990.

Daniel, Jeremy S., Assistant Professor of Pharmacy Practice; Pharm.D., Purdue University, 2012.

Daniels, Ann Michelle, Extension Family Life, Parenting and Child Care Specialist, Associate Professor of Counseling and Human Development, Graduate Faculty; B.S., University of Arkansas, 1988; M.Ed., 1990; Ph.D., Kansas State University, 1999.
Darrington, Joseph, Assistant Professor of Agricultural and Biosystems Engineering; Graduate Faculty; B.S., South Dakota State University, 2011; D.V.M., Iowa State University, 2015; M.P.H., University of Iowa, 2015.

Davis, Alan, Professor of Counseling and Human Development, Graduate Faculty; B.A., Western Washington University, 1978; M.R.C., University of Kentucky, 1980; Ph.D., Oregon State University, 1984.

Davis, David E., Professor of Economics, Graduate Faculty; B.S.B.A., University of South Dakota, 1993; M.A., University of Oregon, 1998; Ph.D., 1998.

Desutter, Thomas M., Adjunct Associate Professor of Agronomy, Horticulture, and Plant Science; B.S., South Dakota State University, 1994; M.S., 1998; Ph.D., Kansas State University, 2004.

Dey, Moul, Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., University of Calcutta, 1994; M.S., 1996; Ph.D., 2002.

Diddle-Hildebrant, Laura D., Professor of Music, School of Performing Arts; B.M., Indiana University, 1989; M.A.T., 1991; Ph.D., University of South Carolina, 2005.

Diel, Diego G., Assistant Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; D.V.M., Federal University of Santa Maria (UFSM), Brazil 2004; M.S., 2007; Ph.D., 2010.

Diersen, Matthew A., Extension Specialist and Professor of Economics, Graduate Faculty; B.A., University of Minnesota, 1993; M.S., North Dakota State University, 1995; Ph.D., University of Illinois, 1999.

Düischer, Rebecca, Lecturer of Mathematics and Statistics; B.S., South Dakota State University, 2004; M.S., University of Iowa, 2007.

Djira, Gemechis D., Associate Professor of Statistics, Graduate Faculty; B.S., Addis Ababa University, 1990; M.S., Addis Ababa University, 1994; M.S., Limburgs Universitair Centrum, 2001; M.S., Limburgs Universitair Centrum, 2002; Ph.D., University of Hannover, 2005.

Doorn, Jeffrey J., Assistant Professor of Mechanical Engineering, Graduate Faculty; B.A., Southwest Minnesota State University, 2002; M.S., University of Minnesota – Minneapolis, 2006; Ph.D., 2009.

Droke, Elizabeth, Associate Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., University of Illinois, 1985; M.S., Ohio State University, 1988; Ph.D., North Carolina State University, 1991.

Dudash, Michele, Professor and Department Head of Natural Resource Management, Graduate Faculty; Ph.D., University of Illinois – Chicago, 1987.

Dunn, Donna E., Professional Academic Advisor, School of Design; B.A., Dakota Wesleyan University, 1991; M.A., University of South Dakota, 2010.

Durr, Anthony, Assistant Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.A., University of Nebraska-Lincoln, 2000; M.S., The Ohio State University, 2008; Ph.D., 2008.

Ehler, Krista, Assistant Professor of Natural Resource Management, Graduate Faculty; B.A., St. Olaf College, 2011; M.S., Montana State University, 2013; Ph.D., 2017.

Elliott Lisa, Commodity Marketing Specialist and Assistant Professor of Economics, Graduate Faculty; B.S., University of Missouri, 2006; M.S., 2009; Ph.D., 2011.

Elliott, Matthew, Assistant Professor of Economics; B.S., California Polytechnic State University, 2001; M.S., University of Missouri, 2009; Ph.D., 2013.

Ellis, Andrew R., Instructor of Biology and Microbiology; B.S., South Dakota State University, 2001; M.S., 2006.

Elverson, Cynthia D., Associate Professor of Nursing, NACC Coordinator, Graduate Faculty; B.S., University of Missouri, 1979; M.S., University of California, 1986; Ph.D., University of Nebraska, 2007.

Emery, Karin, Instructor of Nursing; B.S., Medical University of South Carolina, 1997; M.S., Virginia Commonwealth University, 2011.

Emery, Mary, Professor and Department Head of Sociology and Rural Studies, Graduate Faculty; Ph.D., Rutgers University.

Enz, Molly K., Associate Professor of Modern Languages and Global Studies, Graduate Faculty; B.A., Concordia College, 1996; M.A. 2000; Ph.D., University of Wisconsin Madison, 2005.

Erdman Becker, Katherine, Experiential Learning and Interdisciplinary Studies Coordinator; B.S., Mankato State University, 1989; M.S., 1994; Ed.D., University of South Dakota, 2004.

Erickson, Alan K., Professor of Veterinary and Biomedical Sciences, Graduate Faculty; B.A., Minot State College, 1983; B.A., 1984; Ph.D., North Dakota State University, 1989.

Escondrillas, Macarena, Instructor of Modern Language and Global Studies; B.A., University of Murcia, (Spain), 2010; M.A., West Virginia University, 2012.

Fahmy, Hesham, Associate Professor of Pharmaceutical Sciences, Graduate Faculty; B.S., University of Alexandria (Egypt), 1987; M.S., 1990; Ph.D., 1993.

Fennell, Anne, Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Iowa State University, 1979; M.S., University of Minnesota, 1982; Ph.D., 1985.

Fenster, Charles, Professor of Biology and Microbiology, Graduate Faculty; B.A., Amherst College, 1979; Ph.D., The University of Chicago, 1988.

Fincel, Mark J., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Ball State University, 2004; M.S., Eastern Illinois University, 2006; Ph.D, South Dakota State University, 2011.

Fink, Darci M., Assistant Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., South Dakota State University, 2010; B.A., 2010; Ph.D., University of Nebraska Medical Center, 2016.

Fischer, Janet, Professor of Pharmacy Practice; Pharm.D., Creighton University, 1986.

Fishbeck, Mary Beth, Program Coordinator, Master of Public Health Program; B.S., Cornell College, 2003; M.S., M.P.H, Touro University, 2007.

Fitzgerald-Ellis, Kathleen, Academic Advisor/Coordinator of West River Nursing; B.S., Illinois State, 2007; M.S., South Dakota State University, 2012.

Flint, Donna L., Professor and Assistant Department Head of Mathematics and Statistics, Graduate Faculty; A.A., Eastfield College, 1986; B.A., University of Texas at Arlington, 1992; M.S., 1994; Ph.D., 1999.

Flynn, Nicole, Associate Professor of English, Graduate Faculty; B.A., Wellesley College, 1999; M.A., University of Chicago, 2004; Ph.D., Tufts University, 2012.

Foerster, Becka J., Lecturer of Nursing; B.S., South Dakota State University, 2007; M.S., 2011.

Foland, Kay L., Professor of Nursing, Graduate Faculty; B.S., South Dakota State University, 1980; M.S.N., University of Nebraska, 1982; Ph.D., University of Texas, 1989.

Fourney, Robert S., Associate Professor of Electrical Engineering, Graduate Faculty; B.S., Virginia Polytechnic Institute and State University, 1985; M.S., University of Maryland, 1989; Ph.D., 2001.

Franzen, Aaron J., Assistant Professor of Agricultural and Biosystems Engineering; B.S., University of Nebraska, 2003; M.S., University of Florida, 2007; Ph.D., Oklahoma State University, 2015.

Freeman, Jessica, Assistant Professor of Journalism and Mass Communication; B.A., University of Texas at Arlington, 2006; M.A., Texas Tech University, 2008; Ph.D., University of Missouri, 2011.

Frewaldt, Shannon, Instructor of Studio Arts, School of Design; B.A., Augustana College, 1999; M.F.A., University of Iowa, 2002.

Frink, Teresa J., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., University of Nebraska-Lincoln, 2001; M.S., South Dakota State University, 2004; Ph.D, 2008.

Fuller, Billy W., Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Auburn University, 1976; M.Ed., Auburn University, 1978; M.S., Clemson University, 1982; Ph.D., Louisiana State University, 1987.

Garcia Fritz, Jessica, Assistant Professor of Architecture, School of Design; B.A., University of Minnesota, 2005; M.Arch., 2009.

Garcia Lammers, Federico, Assistant Professor of Architecture, School of Design; B.S., University of Minnesota, 2005; M.Arch., University of Minnesota, 2009.

Garcia, Alvaro D., Extension Program Leader for Agriculture and Natural Resources and Professor of Dairy and Food Science, Graduate Faculty; D.V.M., University of Uruguay, 1983; M.S., University of Minnesota, 1987; Ph.D., 1997.
Gardezi, Maaz, Associate Professor of Sociology and Rural Studies, Graduate Faculty; B.S., University of Bath, UK, 2008; M.S., University of Michigan, 2014; Ph.D., Iowa State University, 2017.

Garren-Grubbs, Theresa, Instructor of Nursing; B.S., South Dakota State University, 2006; B.S.N., Auburn University, 2007; M.S., University of Iowa, 2013.

Garry, Byron G., Associate Professor of Construction and Operations Management and Undergraduate Program Coordinator; B.S., South Dakota State University, 1981; M.S., 1988.

Garst-Santos, Christine, Associate Professor and Interim Department Head of Modern Languages and Global Studies; B.A., Colorado State University, 1994; M.A., 1997; Ph.D., University of Iowa, 2013.

Gates, Roger N., Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., Muhlenberg College, 1974; M.S., South Dakota State University, 1978; Ph.D., University of Nebraska-Lincoln, 1985.

Ge, Xijin, Associate Professor of Mathematics and Statistics, Graduate Faculty; B.S., Beijing University of Science and Technology, 1994; M.S., 1997; Ph.D., The University of Tokyo, 2000.

Gengler, Mary, Instructor, Health and Nutritional Sciences; B.S., South Dakota State University, 1980; M.S., 2007.

Gent, Stephen, Associate Professor of Mechanical Engineering, Graduate Faculty; B.S., Iowa State University, 2003; M.S., 2006; Ph.D., 2009.

Gerometta, Christina, Instructor of Mechanical Engineering; B.S., South Dakota State University, 2011; M.S., 2014.

Gerken, Nicole A., Professional Academic Advisor, Wintrobe Student Success Center; B.A. Concordia College, 2008; M.S., South Dakota State University, 2011.

Ghabchi, Rouzbeh, Assistant Professor of Civil and Environmental Engineering, Graduate Faculty; B.S., University of Tabriz, Iran, 1999; M.S., 2002; Ph.D., University of Oklahoma, 2014.

Ghosheh, Hani, Lecturer of Agronomy, Horticulture and Plant Science, Graduate Faculty; B.S., University of Jordan, 1986; M.S., 1989; Ph.D., Texas A&M University, 1995.

Gibson, Nicole, Clinical Assistant Professor of Nursing, Graduate Faculty; B.S., South Dakota State University, 2000; M.S., South Dakota State University, 2003; D.N.P., 2014.

Gigliotti, Larry M., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Pennsylvania State University, 1975; M.S., Michigan State University, 1983; Ph.D., 1989.

Gloege, Laura, Lecturer of Teaching, Learning, and Leadership; B.S., Dakota State University, 2002; M.S., South Dakota State University, 2007.

Glover, Karl D., Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; A.A.S., Iowa Lakes Community College, 1991; B.S., South Dakota State University, 1994; M.S., 1996; Ph.D., Kansas State University of Agriculture and Applied Sciences, 2000.

Gonda, Michael, Associate Professor of Animal Science, Graduate Faculty; B.S., North Carolina State University-Raleigh, 1999; M.S., University of Wisconsin-Madison, 2003; Ph.D., University of Wisconsin-Madison, 2006.

Gonzalez, Jose L., Associate Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Navarra (Spain), 1991; Post Graduate, Mediterranean Agronomic Institute of Zaragoza, 1995; Ph.D., University of North Dakota, 2000.

Graeb, Brian D. S., Associate Professor of Natural Resource Management, Graduate Faculty; B.S., Colorado State University, 1998; M.S., University of Illinois, 2003; Ph.D., South Dakota State University, 2006.

Graham, Christopher, Assistant Professor/Extension Specialist - Agronomist of Agronomy, Horticulture, and Plant Science; B.S., Arizona State University, 2003; M.S., Columbia University, 2008; Ph.D., Cornell University, 2012.

Granum, Melissa, Instructor of Counseling and Human Development; B.S., South Dakota State University, 2006; M.Ed., 2013.

Graper, David F., Professor of Agronomy, Horticulture, and Plant Science/Extension Horticulturist, Graduate Faculty; B.S., University of Wisconsin, 1983; M.S., Colorado State University, 1985; Ph.D., University of Maryland, 1990.

Grassel, Shaun M., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., South Dakota State University, 1994; M.S., 2000; Ph.D., University of Idaho, 2015.

Graves, Nicole A., Assistant Professor of Teaching Learning and Leadership; B.S., South Dakota State University, 1997; M.S., 2002; Ph.D., North Dakota State University, 2011.

Greene, Jasmine B., Program Coordinator, Agricultural and Biosystems Engineering; B.S., Emporia State University, 2009; M.P.A., Kansas State University, 2013.

Gregory, Andrew J., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Winona State University, 2003; M.S., Central Michigan University, 2006; Ph.D., Kansas State University, 2011.

Grove, Nicole, Lecturer of Chemistry and Biochemistry; B.S., South Dakota School of Mines and Technology, 2002; Ph.D., Purdue University, 2011.

Grubbs, Judson, Assistant Professor of Animal Science, Graduate Faculty; B.S., Auburn University, 2006; M.S., Iowa State University, 2010; Ph.D., 2012.

Gu, Xingyou, Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Yangzhou University (China), 1985; Ph.D., South China Agricultural University (China), 1997.

Gu, Zheng Rong, Associate Professor of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., East China University of Science and Technology, 1997; M.S., 2000; Ph.D., Iowa State University, 2006.

Gunaje, Jayarama, Associate Professor of Pharmaceutical Sciences, Graduate Faculty; B.S., Mysore University (India), 1980; M.S., Mangalore University (India), 1982; Ph.D., Indian Institute of Science, Bangalore (India), 1989.

Guo, Zhiguang, Adjunct Associate Professor of Chemistry and Biochemistry M.D., Zhengshen Medical University, 1986; Ph.D., University of Heidelberg, 1991.

Gupta, Tanya, Assistant Professor of Chemistry and Biochemistry, Graduate Faculty; B.Sc., Benaras Hindu University, Varanasi, India, 1998; M.Sc., University of Lucknow, India, 2000; M.Ed., Iowa State University, 2007; Ph.D. Iowa State University, 2012.

Gustafson, Curtis O., Associate Professor of Economics; B.S., South Dakota State University, 1976; M.P.A., University of South Dakota, 1986; Ed.D., 2004.

Gustafson, Kimberly, Instructor of Consumer Sciences; B.S., South Dakota State University, 2009; M.B.A., Southwest Minnesota State University, 2011.

Gutzmer, Zachary, Instructor of Civil and Environmental Engineering; B.S., South Dakota State University, 2006; M.S., 2008.

Guzman, Jose, Assistant Professor of Agronomy, Horticulture and Plant Science; B.S., Kansas State University, 2005; M.S., Iowa State University, 2008; Ph.D., 2013.

Hager, Lisa, Assistant Professor of Political Science, Graduate Faculty; B.A., Wartburg College, 2009; M.A. Kent State University, 2013; Ph.D., 2016.

Haggerty, Kayte M., Professional Academic Advisor, Economics; B.A., South Dakota State University, 2003; M.S., 2005.

Halaweish, Fathi T., Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., University of Mansoura (Egypt), 1976; M.S., 1981; Ph.D., University of Wales (United Kingdom), 1987.

Hales, Patrick, Assistant Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.S., East Carolina University-Greenville, 2008; M.S., University of North Carolina-Greensboro, 2012; Ph.D., 2015.

Hall, Teresa J. K., Professor and Department Head of Construction and Operations Management, Graduate Program Coordinator, Graduate Faculty; B.A., University of Northern Iowa, 1989; M.S., 1991; Ph.D., Iowa State University of Science and Technology, 1997.

Halvorsen, Darin, Lecturer of English; B.A., South Dakota State University, 2001; M.A., 2006.

Hamor, George H., Associate Professor and Interim Department Head of Electrical Engineering and Computer Science, Graduate Faculty; B.S., North Dakota State University, 1980; M.S., Moorhead State University, 1992; Ph.D., North Dakota State University, 2006.

Han, Niall P., Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., Liverpool Polytechnic-John Moore's University, 1985; Ph.D., Queen Mary College, University of London, 1990.

Hansen, Timothy, Assistant Professor of Electrical Engineering, Graduate Faculty; B.S., Milwaukee School of Engineering, 2011; Ph.D., Colorado State University, 2015.
Hanson, Karla, Instructor of Nursing; B.S.N., Mankato State University, 1983; M.S., South Dakota State University, 2005.

Hao, Zheng, Lecturer in Mathematics and Statistics; B.S., Peking University, 2007; Ph.D., Kansas State University, 2014.

Hardin, Richard Cable, Associate Professor of Graphic Design, School of Design, Graduate Faculty; B.S., James Madison University, 1995; M.F.A. Ohio University, 1999.

Hartman, Cheryl, Lecturer of Sociology and Rural Studies; B.A., University of Sioux Falls; M.A., University of South Dakota, 1997; Ph.D., South Dakota State University, 2007.

Hatfield, Gary, Associate Professor of Statistics, Graduate Faculty; B.S., Oklahoma State University, 1976; M.S., 1978; Ph.D., 2011.

Hauschild-Mork, Melissa, Assistant Professor of Theatre, School of Performing Arts, Graduate Faculty; B.S., South Dakota State University, 1987; M.S., Indiana University, 1988; Ed.D., University of South Dakota, 2012.

Hawkins-Taylor, Chamika, Assistant Professor of Pharmacy Practice; B.A., University of California, Davis, 1998; M.H.A., University of Southern California, 2004; Ph.D., University of Minnesota, 2010.

Hayes, William, Associate Professor of Pharmacy Practice; B.S., South Dakota State University, 2007; Pharm.D., 2009.

Heiberger, Amy, Assistant Professor of Pharmacy Practice; B.S., South Dakota State University, 2004; Pharm.D., 2008.

Heiberger, Gregory A., Assistant Professor of Biology and Microbiology, Graduate Faculty; B.S., South Dakota State University; 2004; M.S., 2006.

Heins, Jodi R., Professor and Assistant Department Head of Pharmacy Practice, Graduate Faculty; Pharm.D., University of Nebraska, 1993.

Held, Jeffrey E., Extension Sheep Specialist and Professor of Animal Science, Graduate Faculty, B.S., University of Wisconsin, 1982; M.S., University of Illinois, 1985; Ph.D., University of Wisconsin, 1989.

Helland, James, Instructor of Journalism and Mass Communication, School of Communication and Journalism; B.A., South Dakota State University, 1986; M.S., South Dakota State University; 2012.

Heller, Barbara, Lecturer/Coordinator of Entrepreneurial Studies and Economics, Entrepreneurial Studies Program; B.S., South Dakota State University, 2003; M.S., 2004.

Hellwig, Thaddaus, Associate Professor of Pharmacy Practice; B.S., Chadron State, 2002; Pharm.D., Texas Tech University, 2006.

Hendrickx, Lori D., Professor of Nursing, Graduate Faculty; B.S.N., University of North Dakota, 1981; M.S.N., University of Wisconsin, 1989; Ed.D., University of Montana, 1998.

Henebury, Geoffrey M., Co-Director and Senior Research Scientist at the Geospatial Sciences Center of Excellence, Professor of Natural Resource Management, Graduate Faculty; B.A., St. John’s College, 1982; M.S., University of Texas-Dallas, 1986; Ph.D., 1989.

Heo, Wookjae, Assistant Professor of Consumer Sciences, Graduate Faculty; B.A., Seoul National University, 2004; M.A., 2006; Ph.D., University of Georgia, 2016.

Hertler, Asha, Professional Academic Advisor, College of Pharmacy and Allied Health Professions; B.A., Concordia College, 2009; M.Ed., South Dakota State University, 2016.

Hietpas, Steven M., Professor of Electrical Engineering, Graduate Faculty; B.S., Montana State University, 1984; M.S., 1991; Ph.D., 1994.

Hildreth, Michael, Professor/Coordinator of Biology and Microbiology, Graduate Faculty; B.A., Westminster College, 1977; Ph.D., Tulane University, 1983.

Hogue, Tracie, Student Services Facilitator, Continuing and Distance Education, Office of International Affairs and Outreach; B.S., South Dakota State University, 2010; M.S., 2014.

Holter, Larry, Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory and University Veterinarian, Graduate Faculty; B.S., Kansas State University, 1980; D.V.M., 1984; Ph.D., Washington State University, 1993.

Holm, Amy, Instructor of Counseling and Human Development; B.A., South Dakota State University, 1992; M.A., Minnesota State University, 1994.

Hoppe, Adam, Associate Professor of Chemistry and Biochemistry, Graduate Faculty; B.A., Concordia College, 1997; M.S., University of Wisconsin, 1999; Ph.D., University of Michigan Ann Arbor, 2003.

Hoskinson, Anne-Marie, Assistant Professor of Biology and Microbiology, Graduate Faculty; Ph.D., University of Minnesota, 2006.

Houborg, Rasmus, Senior Research Scientist at the Geospatial Sciences Center of Excellence, Assistant Professor of Geography, Graduate Faculty; B.Sc., University of Copenhagen, 1999; M.Sc., 2002; Ph.D., 2006.

Howard, Gregory, Lecturer of Counseling and Human Development; B.A., University of Nebraska, 1979; M.S.W., 1982; Ph.D., Texas Tech University, 1991.

Hu, Zhong, Professor of Mechanical Engineering, Graduate Faculty; M.S., Tsinghua University (China), 1983; Ph.D., 1988.

Hua, Guanghui, Associate Professor of Civil and Environmental Engineering, Graduate Faculty; B.S., 1997, M. Eng, 2000, Qingdao Technological University, China; Ph.D., University of Massachusetts at Amherst, 2006.

Huang, Yilei, Assistant Professor of Construction and Operations Management, Graduate Faculty; B.S., 2008, Nanjing University of Technology, China; M.S., University of Kansas, 2009, Ph.D., University of Kansas, 2012.

Huber, Erika A., Lecturer of Nursing; B.S., South Dakota State University, 1997; M.S., University of New Mexico, 2007.

Huh, Yung Moo, Professor and Interim Department Head of Physics, Graduate Faculty; B.S., Myongji University (Korea), 1997; Ph.D., Iowa State University, 2001; M.S., 2002.

Hulme, Polly A., Professor of Nursing, Graduate Faculty; B.S., Pacific Lutheran University, 1973; M.A., University of Minnesota, 1980; M.S., University of Texas at Arlington, 1992; M.S., University of Nebraska Medical Center, 2011; Ph.D., University of Iowa, 1997.

Hunter, Karla, Associate Professor of Communication Studies, School of Communication and Journalism, Graduate Faculty; B.A., Augustana College, 1992; M.A., University of Oklahoma, 1995; Ph.D., 2000.

Iram, Surtaj, Assistant Professor of Chemistry & Biochemistry, Graduate Faculty; B.S., NWFP University of Peshawar, Pakistan, 1993; M.S., NWFP University of Peshawar, Pakistan, 1996; Ph.D., University of Illinois, Urbana-Champaign, 2005.

Irvin, Kyle, Instructor of Political Science; B.A., Northwestern College, 2002; J.D., University of Iowa, 2005.

Isaacson, Mary J., Assistant Professor of Nursing, Graduate Faculty; B.S., South Dakota State University, 1998; M.A., Augustana College, 2002; Ph.D., Indiana University, 2009.

Jacobs, Laura, Academic Advisor, College of Nursing; B.S., South Dakota State University, 2007; M.Ed., 2010.

Jacobson, Stephanie, Upward Mobility Instructor, College of Pharmacy and Allied Health Professions; B.S., University of North Dakota, 2007; M.S., 2010.

James, Daniel A., Adjunct Assistant Professor of Natural Resource Management; B.S., M.S., University of South Dakota, 1999; Ph.D., South Dakota State University, 2011.

James, Matthew R., Associate Professor of Landscape Architecture, School of Design; B.S. South Dakota State University, 2001; M.S., 2002; Ed.D., University of South Dakota, 2009.

Janaswamy, Srinivas, Assistant Professor of Dairy and Food Science; B.S., Nagarajuna University, India, 1989; M.S., Mysore University, India, 1991; Ph.D., Indian Institute of Technology, 1997.

Jasper, John, Assistant Professor of Mathematics; B.A., Western Washington University, 2003; M.S., University of Oregon, 2007; Ph.D., 2011.

Jensen Bender, Wendy S., Professor of Pharmacy Practice; B.S., South Dakota State University, 1993; Pharm.D., 1995.

Jensen, Becky, Director Nutrition and Dietetics Internship, Instructor, Health and Nutritional Sciences; B.S., South Dakota State University, 1993; M.S., 2009.

Jensen, Brady, Instructor/Livestock Judging Coach; B.S., Kansas State University, 2015; M.S., 2017.
Kuehl, Rebecca. Associate Professor of Communication Studies, School of Communication and Journalism, Graduate Faculty; B.A., Gustavus Adolphus College, 2005; M.A., University of Georgia, 2007; Ph.D., University of Minnesota, 2011.

Kumar, Sandeep. Associate Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Himchal Pradesh Agriculture University, 2006; M.S., 2006; Ph.D., University of Missouri-Columbia, 2009.

Kurtenbach, Paula L., Lecturer of Computer Science; B.S., South Dakota State University, 1985; B.S.; 1994; M.S., 2002.

Ladonski, James B. Lecturer of Biology and Microbiology; B.S., Michigan State University, 1995; Southern Illinois University, 1999.

Laible, Brad R., Professor of Pharmacy Practice, Graduate Faculty; B.S., South Dakota State University, 1999; Pharm.D., 2001.

Lamb, LeAnn, Instructor of Nursing; B.S., Gannon University, 1993; M.S., University of Wisconsin, 2002.

Lammers, Cristina R., Associate Professor of Nursing, Graduate Faculty; M.D., University of Uruguay, 1984; M.P.H., University of Minnesota, 1997.

Langelett, George L., Professor of Economics, Graduate Faculty; B.S., Northwestern Lutheran Theology Seminary, 1991; Ph.D., University of Nebraska, 2000.

Langham, Marie A. C., Professor of Agronomy, Horticulture, and Plant Science; B.S., East Texas State University, 1975; M.S., 1977; Ph.D., Texas A&M University, 1986.

Lansink, Stacie, Instructor of Medical Laboratory Science; B.S., University of Nebraska Medical Center, 1999; M.S., University of North Dakota, 2015.

LaPorte, Kyle, Assistant Professor of Pharmacy Practice; Pharm.D., North Dakota State University, 2014.

Larson, Christine L., Professor of Mathematics and Statistics, Graduate Faculty; B.A., Augustana College, 1985; M.S., Montana State University, 1987; Ed.D., 1996.

Latvis, Maribeth, Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., University of Michigan, 2005; Ph.D., University of Florida, 2013.

Lee, Brian, Instructor of Architecture, School of Design; B.Arch., Iowa State University, 2002; M.Arch., Cranbrook Academy of Art, 2012.

Leffler, A. Joshua, Assistant Professor of Natural Resource Management, Graduate Faculty; Ph.D., University of New Mexico, 1999.

Lehman, Chadwick P., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., University of Minnesota, 1994; M.S., South Dakota State University, 1998; Ph.D., 2005.

Leibold, Julie, Lecturer of Chemistry and Biochemistry; B.S., University of Wisconsin – Oshkosh, 2008; Ph.D., Colorado School of Mines, 2013.

Leiferman, Deborah L., Instructor of Mathematics and Statistics; B.S., Northern State University, 1980; B.S., South Dakota State University, 1984; M.S., 1989.

Lemon, Michael D., Professor of Pharmacy Practice; A.S., Colby Community College, 1990; Pharm.D., University of Kansas, 1994.

Lenertz, Kristin, Lecturer of Biology and Microbiology; B.S., Jacksonville University, 1996; M.S., Auburn University, 2002.

Lescheswki, Andrea, Assistant Professor of Economics; B.A., Carthage College, 2001; M.S., Michigan State University, 2014; Ph.D., 2016.

Letcher, Amber, Extension Specialist - Youth Development, Associate Professor of Counseling and Human Development, Graduate Faculty; B.S., South Dakota State University, 2005; M.S., Ohio State University, 2008; Ph.D., 2012.

Letcher, Todd, Assistant Professor of Mechanical Engineering, Graduate Faculty; B.S., South Dakota State University, 2005; M.S., Ohio State University, 2008; Ph.D., 2012.

Levesque, Crystal, Assistant Professor of Animal Science, Graduate Faculty, B.S., University of Saskatchewan, 1999; M.S., 2002; Ph.D., University of Alberta, 2010.

Lewis, Jessica A., Professional Academic Advisor, College of Arts, Humanities and Social Sciences; B.A. South Dakota State University, 2004; M.S., 2011; M.S., 2011.

Li, Dapeng, Assistant Professor of Geogrophy; Graduate Faculty; B.S., China University of Geosciences (Beijing), 2008; M.S., Peking University, Beijing, China, 2011; Ph.D., University of Utah, 2016.

Li, Feng, Professor of Biology and Microbiology, Graduate Faculty; B.V.Sc., Laiyang Agricultural College, China, 1985; M.V.Sc., Chinese Academy of Agricultural Sciences (China), 1988; Ph.D., University of Melbourne (Australia), 1997.

Li, Wanlong, Associate Professor of Biology and Microbiology, Graduate Faculty; B.S., Northwestern A&F University (China), 1984; M.S., 1987; Ph.D., Nanjing Agricultural University (China), 1993.

Li, Xu, Assistant Professor of Consumer Sciences, Graduate Faculty; B.A., Xi'an International Studies University (China), 1998; M.S., Shaanxi Normal University (China), 2001; Ph.D., University of Central Florida, 2013.

Lis, Anthony S., Professor of Music and Composer in Residence, School of Performing Arts; B.M., University of Oklahoma, 1979; M.M., University of Cincinnati, 1981; D.M.A., 1985.

Liu, Hungling (Stella), Assistant Professor of Health and Nutritional Sciences, Graduate Faculty; B.Ed., National Hsinchu Teacher's College, 2003; M.Ed., National Taiwan Normal University, 2005; Ph.D., Oklahoma State University, 2012.

Liu, Yi, Associate Professor of Computer Science, Graduate Faculty; M.S., 1998; Ph.D., University of Mississippi, 2005.

Logue, Brian A., Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., South Dakota State University, 1995; Ph.D., Oregon State University, 2001.

Longmire, Cynthia L., Adjunct Assistant Professor Natural Resource Management; B.S., M.S., University of Tennessee Knoxville, 2000, 2007; Ph.D., Pennsylvania State University, 2012.

Lonsinger, Robert, Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Gannon University, 2002; M.S., New Mexico State University, 2010; Ph.D., University of Idaho, 2015.

Lopez-Mosqueda, Jaime, Assistant Professor of Biology and Microbiology; B.S., California State University, Northridge, 2002; Ph.D., University of California, San Francisco, 2011.

Lu, Huitian, Professor of Construction and Operations Management, Graduate Faculty; B.S., 1982; M.S., 1986; M.S., Texas Technical University, 1992; Ph.D., 1998.

Luchesi, Roxanne, Professor of Journalism and Mass Communication, School of Communication and Journalism; B.A., South Dakota State University, 1983; M.A., University of Illinois, 1985.

Lyons, Nancy N., Associate Professor of Consumer Sciences, Graduate Faculty; B.S., North Dakota State University, 1974; M.S., 1977; Ed.D., University of South Dakota, 2001.

Ma, Qin, Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Shandong University, 2005; Ph.D., Shandong University, 2010; Ph.D., University of Georgia, 2010.

MacBride, Charles, R.A., Associate Professor of Architecture, School of Design, Graduate Faculty; B.Arch., University of Pennsylvania, 1990; M.S., Columbia University, 1994.

Madsen, Sara K., Lecturer of Chemistry and Biochemistry; B.A., Central Washington University, 1988; Ph.D., University of Wyoming, 1998.

Malone, Katherine, Assistant Professor of English, Graduate Faculty; B.A., Cabrini College, 1997; Ph.D., Temple University, 2009.

Marcstadt, Sheryl, Assistant Professor of Nursing, Graduate Faculty; A.A., University of South Dakota, 1994; B.S., South Dakota State University, 1996, M.S., 2000.

Marshall, Sheri, Instructor of Consumer Sciences; B.S., Embry-Riddle Aeronautical University, 2003; M.A.S., Embry Riddle Aeronautical University, 2006.

Martin, Rebecca, Associate Professor and Interim Department Head of Psychology; B.S., Michigan State University, 1996; M.A., University of Connecticut, 2002; Ph.D., 2004.

Martinez-Montegudo, Sergio I., Assistant Professor of Dairy and Food Science, Graduate Faculty; B.S., Autonomous University of Chihuahua, Mexico, 2003; M.Sc., 2005; Ph.D., University of Alberta, Canada, 2013.
Marzano, Shin-Yi Lee. Assistant Professor of Biology and Microbiology/Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., National Taiwan University, 1996; M.E., National Central University, Taiwan, 1998; M.S., University of Aberdeen, 2000; M.S., University of Illinois, Urbana-Champaign, 2007, Ph.D., 2012.

Mathew, Febina. Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.Tech., Indian Institute of Technology, Kharagpur, India, 2001; M.S., North Dakota State University, 2007; Ph.D., North Dakota State University, 2014.

May, Candace. Assistant Professor of Sociology and Rural Studies, Graduate Faculty; B.A., Western Carolina University, 2004; M.A., University of Wyoming, 2006; Ph.D., Colorado State University, 2011.

McCormack, Lacey. Assistant Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., South Dakota State University, 2006; M.P.H., University of Minnesota, 2009; Ph.D., South Dakota State University, 2013.

McCutcheon, Terry. Instructor, Biology and Microbiology; B.S., Murray State University, 1981; M.S., 1985.

McDaniel, Rachel L. Assistant Professor of Agricultural and Biosystems Engineering, Water Resource Engineer; B.S., Iowa State University of Science and Technology, 2009; M.S., 2011; Ph.D., Texas A&M University, 2015.

McKillop, Angela. Assistant Professor of Interior Design/Program Coordinator, School of Design; B.S., South Dakota State University, 2003; M.Arch, University of Minnesota, 2008.

McKnight, Ryan. Instructor of Economics; B.S., South Dakota State University, 2012; J.D., University of South Dakota, 2015.

McMaine, John. Assistant Professor of Agricultural and Biosystems Engineering, Water Management Engineer; B.S., University of Kentucky, 2011; M.S., 2013; Ph.D., Oklahoma State University, 2017.

McTaggert, Robert. Associate Professor of Physics, Graduate Faculty; B.A., West Virginia University, 1991; B.S., 1991; Ph.D., Pennsylvania State University, 1999.

Mediger, Jessica. Lecturer of Biology and Microbiology, M.S., South Dakota State University, 2013.

Meendering, Jessica. Associate Professor of Health and Nutritional Sciences, Graduate Faculty, B.S., South Dakota State University, 2002; M.S., University of Oregon, 2004; Ph.D., 2007.

Mennenga, Heidi A. Associate Professor of Nursing, Graduate Faculty; B.S., South Dakota State University, 2001; M.S., South Dakota State University; 2006; Ph.D., University of Nevada, 2010.

Merriman, Janet, E. Instructor of Construction and Operations Management; B.S., United States Naval Academy, 1992; M.Eng., The Pennsylvania State University, 2000.

Messertl, Mark. Assistant Professor of Biology and Microbiology, Graduate Faculty; B.S., Purdue University, 1992; Ph.D., 1999.

Messerschmidt, Kimberly. Professor of Pharmacy Practice, Graduate Faculty; B.S., South Dakota State University, 1985; Pharm.D., 1995.

Mettler, Cory J. Lecturer of Electrical Engineering; B.S., South Dakota State University, 2002; M.S., 2005.

Metzger, Lloyd E. Professor and Alfred Chair in Dairy Education, Dairy and Food Science, Graduate Faculty; B.S., South Dakota State University, 1992; M.S., 1994; Ph.D., Cornell University, 1999.

Meyer, Brittnay. Associate Professor of Pharmacy Practice; B.S., South Dakota State University, 2007; Pharm.D., 2009.

Michael, Semhar. Assistant Professor of Statistics; B.S., University of Asmara, 2006; M.S., University of North Dakota, 2011; Ph.D., The University of Alabama, 2015.

Michna, Gregory. Associate Professor of Mechanical Engineering, Graduate Faculty; B.S., University of Wisconsin, 2001; Ph.D., University of Illinois, 2006.

Michna, Sarah M. Instructor of Mechanical Engineering; B.S., University of Wisconsin, 2001; M.S., University of Illinois, 2004.

Middendorf, Alex W. Assistant Professor of Pharmacy Practice; Pharm.D., M.B.A, Drake University, 2013.

Miller, Robert A. Instructor of Construction and Operations Management; B.S., Purdue University, 1979; M.S, Purdue University, 1985, Ph.D., Colorado State University, 1992.

Miller, Tyler. Associate Professor of Psychology; B.A., Buena Vista University, 2004; M.S., Emporia State University, 2008; Ph.D., Texas A&M University, 2012.

Min, Kyungnan. Lecturer of Civil and Environmental Engineering; B.S., Ajou University, Suwon South Korea, 1995; M.S., 1997; Ph.D., University of Massachusetts, 2006.

Miskimins, Dale W. Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory; D.V.M., Iowa State University, 1978; M.S., 1984.

Mistry, Vikram V. Professor and Department Head of Dairy and Food Science, Graduate Faculty; B.S., Gujarat Agricultural University, 1979; M.S., Cornell University, 1982; Ph.D., 1986.

Mollman, Sarah. Assistant Professor of Nursing; B.S.N., South Dakota State University, 2000; M.S., 2011.

Mook, Natalie. Instructor of Counseling and Human Development; B.S., West Texas A&M, 2013; M.Ed., South Dakota State University, 2015

Mordhorst, Sandra. Lecturer of Nursing; B.S.N., South Dakota State University, 2005; M.S., 2010.

Morrison, Kathryn. Instructor of Consumer Sciences; B.S., South Dakota State University, 2002; M.S., 2004; Ph.D., Iowa State University, 2009.

Murphy, Arthur James. Associate Professor of Religion; B. A. Evangel University, 1998; M. A. Missouri State University, 2001; Ph.D. University of Denver, 2011.

Murray, Linde. Student Success and Wintrobe Tutoring/SI Coordinator; Wintrobe Student Success Center; B.A., University of Northern Colorado, 2002; M.S., South Dakota State University, 2009; Ed.D., University of South Dakota, 2013.

Mylant, Marylou. Professor of Nursing, Graduate Faculty; B.S.N., Cleveland State University, 1974; M.S.N., Case Western Reserve University, 1978; Ph.D., University of Texas, 1988.

Nagy, Michael S. Associate Professor of English, Graduate Faculty; B.A., Kent State University, 1987; M.A., 1992; Ph.D., Saint Louis University, 2001.

Napton, Darrell E. Professor of Geography, Graduate Faculty; B.S., University of Missouri, 1973; M.A., 1975; Ph.D., University of Minnesota, 1987.

Nelsen, April. Instructor of Medical Laboratory Science; B.S., South Dakota State University, 2009; M.S., 2015.

Nelson, Tracy L. Lecturer of Health and Nutritional Sciences; B.S. South Dakota State University, 1998; M.S., 2007; Ed.D. University of South Dakota, 2012.

Nepal, Madhav. Associate Professor of Biology and Microbiology, Graduate Faculty; M.S., Tribhuvan University (Nepal), 1997; M.S., University of Northern Iowa, 2003; Ph.D., University of Kansas State-Manhattan, 2008.

Nesmith, Mary Jo. Lecturer of Communication Studies, School of Communication and Journalism; B.S., South Dakota State University, 1996; M.S., 1999; Ed.D., University of South Dakota, 2005.

Ness, Jody. Instructor of Nursing; B.S., South Dakota State University, 1997; M.S., 2005.

Neumann, Cedric. Associate Professor of Statistics, Graduate Faculty; B.S., University of Lausanne, 1998; M.S., 2002; Ph.D., 2008.

Newman, Tammy M. Adjunct Assistant Professor of Military Science; B.S., Columbia College, 2007.

Nguyen, Kim-Doang. Assistant Professor of Mechanical Engineering, Graduate Faculty; B. E., Nanyang Technological University, Singapore 2007; M.E., 2010; Ph.D., University of Illinois at Urbana-Champaign, 2015.

Ni, Zhen. Assistant Professor of Electrical Engineering, Graduate Faculty; B.S., Huazhong University of Science and Technology, Wuhan, P. R. China, 2006; Ph.D., University of Rhode Island, 2010.

Nissen, Mary Kay. Clinical Associate Professor of Nursing; B.S., University of Iowa, 1999; M.S., 2005; F.N.P., Briar Cliff University, 2009; D.N.P., Creighton University, 2013.

Nleya, Thandiwe M. Associate Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Zimbabwe (Zimbabwe), 1984; M.S., Southampton University (England), 1989; Ph.D., University of Saskatchewan (Canada), 1997.
Nold, Rosemarie, Associate Professor and Assistant Department Head of Animal Science, Graduate Faculty; B.S., South Dakota State University, 1988; M.S., Kansas State University, 1990; Ph.D., South Dakota State University, 1997.

Numata, Izaya, Assistant Research Professor, Geospatial Sciences Center of Excellence; B.S., University of Sao Paulo, 1996; M.S., Instituto Nacional de Pesquisas Espaciais, 1999; Ph.D., University of California, Santa Barbara, 2006; D.M., Colorado Technical Institute, 2014.

Nusz, Norma, Lecturer of Construction and Operations Management; B.S., S.D. School of Mines and Technology, 1982; M.S., South Dakota State University, 2005; D.M., Colorado Technical Institute, 2014.

O’Brien, Jamie L., Professor of Economics; B.S., Augustana College, 1980; M.P.A., University of South Dakota, 1984; J.D., 1982.

Ochsner, Melissa, Professional Academic Advisor, College of Education and Human Sciences; B.M.E., South Dakota State University, 2008; M.Ed., 2010.

O’Leary, Katie, Instructor of English; B.A., University of South Dakota, 2008; M.A., 2010; J.D., Hamline University, 2014.

Olson, Bernadette, Associate Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., University of Delaware, 1988; M.Ed., University of Virginia, 1993; Ed.D., University of South Dakota, 2005.

Olson, Kenneth C., Extension Beef Specialist, Professor of Animal Science, Graduate Faculty; B.S., Montana State University, 1979; M.S., 1982; Ph.D., Utah State University, 1986.

Olson, Lyle D., Professor of Journalism and Mass Communication and Director of School of Communication and Journalism, Graduate Faculty; A.A., Bartlesville Wesleyan College, 1974; B.S., South Dakota State University, 1976; M.A., University of Oklahoma, 1981; Ed.D., Oklahoma State University, 1988.

Orth, Mandy, Instructor of Biology and Microbiology; B.S. South Dakota State University, 2008; M.S., 2012.

Osborne, Christy A., Professional Academic Advisor, Wintrol Student Success Center; B.S., South Dakota State University, 1982.

Osborne, Lawrence, Adjunct Assistant Professor of Agronomy, Horticulture, and Plant Science; B.S., University of Nebraska, 1996; M.S., 1999; Ph.D., South Dakota State University, 2006.

Osborne, Shannon L., Adjunct Professor of Agronomy, Horticulture, and Plant Science; B.S., Oklahoma State University, 1994; M.S., 1996; Ph.D., University of Nebraska, 1999.

Osorio, Johan, Assistant Professor of Dairy and Food Science, Graduate Faculty; B.S., Escuela Agricola Panamericana, Honduras, 2004; M.S., University of Illinois, 2010; Ph.D., 2014.

Ott, Jacqueline P., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Concordia University, 2006; M.S., Kansas State University, 2009; Ph.D., 2014.

Owen, Jody L., Academic Advising Coordinator and Director of First Year Advising Center, Wintrol Student Success Center; B.S., South Dakota State University, 1996; M.S., 2002; Ed.D. University of South Dakota, 2012.

Owens, Brett, Instructor of Horticulture; B.S., South Dakota State University, 2013; M.S., 2015.

Owens, Vance N., Professor of Agronomy, Horticulture, and Plant Science, Director of North Central Sun Grant Center, Graduate Faculty; B.S., Utah State University, 1990; M.S., 1992; Ph.D., University of Wisconsin, 1996.

Park, Kunsoon, Assistant Professor of Consumer Sciences; B.S., University of Nebraska, Omaha, 1995; M.B.A, 1995; M.S., Virginia Polytechnic Institute and State University, 2001; Ph.D., 2006.

Pasquariello, Elizabeth A., Lecturer of Nursing; B.S., Mount Mercy College, 2003; M.S., University of Phoenix, 2011.

Pearce, David, Adjunct Professor of Chemistry and Biochemistry; B.S., University of Wolverhampton, 1986; Ph.D., University of Bath, 1989.

Pearse, Aaron T., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Kansas State University, 1998; M.S., University of Idaho, 2002; Ph.D., Mississippi State University, 2007.

Pedersen, Amy, Lecturer of Counseling and Human Development; B.S., South Dakota State University, 1990; M.Ed., 2006.

Pedersen, Scott, Professor of Biology and Microbiology, Graduate Faculty; B.A., University of Colorado, 1984; M.A., 1988; Ph.D., University of Nebraska, 1993.

Pelzel, Heidi A., Instructor of Nursing; B.S., South Dakota State University, 2005; M.S., 2014.

Perkins, Lora, Associate Professor of Natural Resource Management, Graduate Faculty; B.S., New Mexico State University, 2004; M.S., Oregon State University, 2006; Ph.D., University of Nevada, 2010.

Perry, Cynde, Assistant Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., California State Polytechnic University, 2001; M.S., 2004; Ph.D., University of Minnesota, 2008.

Perry, George, Professor of Animal Science, Extension Beef Specialist, Graduate Faculty; B.S., Texas A&M University, 1998; M.S., University of Missouri, 2000; Ph.D., 2003.

Perumal, Omathanu P., Professor and Department Head of Pharmaceutical Sciences, Graduate Faculty; B.S., Tamilnadu Dr MGR Medical University (India), 1995; M.S., Birla Institute of Technology (India), 1998; Ph.D., National Institute of Pharm. Education (India), 2003.

Pervez, Md Shahrir, Adjunct Assistant Professor of Natural Resource Management; B.S., Khulna University Bangladesh, 1997; M.S., University of North Dakota, 2005; Ph.D., South Dakota State University, 2014.

Peschong, Nicole R., Professional Academic Advisor, College of Education and Human Sciences; B.S., South Dakota State University, 2015; M.Ed., 2017.

Peters, Douglas J., Instructor of Mechanical Engineering; B.A., Southwest State University, 1984; B.S., South Dakota State University, 2001; M.S., University of North Dakota, 1991.

Peters, Stacy, Associate Professor of Pharmacy Practice; B.S., South Dakota State University, 2002; Pharm.D., 2004.

Peterson, Gregory R., Professor of Philosophy, Graduate Faculty; B.A., University of Minnesota, 1988; M.A., Luther Seminary, 1990; Ph.D., University of Denver, 1996.

Peterson, Meghan, Nursing Student Services Coordinator; B.S., M.S., South Dakota State University, 2005.

Phelps, Brady, Professor of Psychology, Graduate Faculty; B.S., Utah State University, 1983; M.S., 1986; Ph.D., 1992.

Pillatzki, Angela E., Assistant Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; B.S., University of Wyoming, 1991; D.V.M., Kansas State University, 1995; M.S., South Dakota State University, 2007.

Plemmons, Christina, Assistant Professor of Nursing, B.A., Gonzaga University, 1985; B.S., South Dakota State University, 2007; M.S., 2008; Ph.D., 2016.

Potts, Dale, Associate Professor of History, Graduate Faculty; B.A., Kutztown University of PA, 1992; M.A., Penn State Harrisburg, 1997; Ph.D., University of Maine, Orono, 2007.

Prairie, Douglas S., Instructor of Agricultural and Biosystems Engineering; B.S., South Dakota State University, 1997; M.S., Boise State University, 2004

Prasad, Anamika, Assistant Professor of Mechanical Engineering, Graduate Faculty; B.Tech., Indian Institute of Technology-Varanasi, 1997; M.S., Massachusetts Institute of Technology, 2003; Ph.D., 2007.

Pravecek, Brandi, Instructor of Nursing; B.S.N., South Dakota State University, 1993; M.S.N., 2002.

Prigge, William D., Associate Professor and Department Head of History, Political Science, Philosophy and Religion; B.A., University of Minnesota-Duluth, 1994; M.A., University of Wisconsin-Eau Claire, 1997; Ph.D., Marquette University, 2005.

Proulx, Jason, Instructor of Construction and Operations Management; B.S. Central Michigan, 1995; M.S. 1998.

Qiao, Qiquan, Harold C. Hohbach Professor of Electrical Engineering, Graduate Faculty; B.S., Hefei University of Technology, 1999; MS, Shanghai Institute of Optics & Fine Mechanics, 2003; Ph.D., Virginia Commonwealth University, 2006.

Ragsdale, Chalon A., Associate Professor of Music, School of Performing Arts; B.M.E., University of Oklahoma, 2001; M.M., University of Arkansas, 2003; D.M.A., Rutgers University, 2007.

Rahman, Shafiqu, Professor of Pharmaceutical Sciences, Graduate Faculty; B.S., Dhaka University, 1985; M.S., 1987; Ph.D., Memorial University of Newfoundland, 1995.

Ramos-Garcia, Maria, Professor of Modern Languages and Global Studies, Graduate Faculty; B.A., Universidad de Santiago de Compostela (Spain), 1991; M.A., Washington University, 1993; Ph.D., 1997.

Ramsay-Seamer, Kristine, Assistant Professor of Counseling and Human Development; B.S., University of South Alabama, 2011; M.S., 2013.
Raynie, Douglas, Associate Professor and Department Head of Chemistry and Biochemistry, Graduate Faculty; B.A., Augustana College, 1981; M.S., South Dakota State University, 1983; Ph.D., Brigham Young University, 1990.

Redlin, Meredith, Professor of Sociology and Rural Studies, Graduate Faculty; B.A., Macalester College, 1979; M.A.L.S., Hamline University, 1993; Ph.D., University of Kentucky, 2000.

Reese, Cheryl L., Senior Lecturer of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.A., University of Minnesota; M.S., Ph.D., South Dakota State University, 2009.

Reineke, Joshua, Assistant Professor of Pharmaceutical Sciences, Graduate Faculty; B.A. and B.S., Brown University, 2003; Ph.D., 2008.

Rex, Brian, Associate Professor and Department Head of Architecture, School of Design, Graduate Faculty; B.S., University of Texas, 1990; B.Arch., Carleton University (Canada), 1993; M.S., Columbia University, 1994.

Reynolds, Paul D., Professor and Director of School of Performing Arts, Graduate Faculty; B.M.E., University of Kansas, 1985; M.M., Florida State University, 1986; D.M.A., University of Maryland, 1994.

Robinet, Andrew, Assistant Professor of Music, School of Performing Arts; B.M., University of North Carolina at Greensboro, 1997; M.M., Temple University, 2005; D.M.A., University of South Carolina, 2013.

Roe, Thomas N., Assistant Professor of Mathematics and Statistics, Graduate Faculty; B.S., South Dakota State University, 1972; M.S., University of Wyoming, 1975.

Roiger, Trevor C., Assistant Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., South Dakota State University, 1997; M.A., University of Minnesota, 1999; Ed.D., USD, 2009.

Rötz, Eckhard, Professor of Modern Languages and Global Studies, Graduate Faculty; B.A., Utah State University, 1994; M.A., University of North Carolina, 1996; Ph.D., 2000.

Romsa, Bryan, Assistant Professor of Health and Nutritional Sciences, Graduate Faculty; B.A., Concordia College, 2005; M.S., Minnesota State University, 2008; Ed.D., 2013.

Romsa, Katelyn, Assistant Professor of Counseling and Human Development; B.A., Concordia College, 2005; M.S., Minnesota State University, 2008; Ph.D., 2011.

Rosales, Misael, Adjunct Assistant Professor of Natural Resource Management; B.S., Universidad de Sonora, 2012; Ph.D., Texas A&M University, 2017.

Rovai, Maristela, Assistant Professor of Dairy and Food Science, Extension Dairy Specialist, Graduate Faculty; D.V.M., Veterinary Medicine School of Fundacao de Ensino Octavio Bastos, Brazil, 1994; M.S., Universitat Autonoma de Barcelona, Spain, 1997; Ph.D., 2001.

Roy, David P., Professor of Geography, Graduate Faculty; B.S., University of Lancaster (United Kingdom), 1987; M.S., University of Edinburgh (United Kingdom), 1988; Ph.D., University of Cambridge (United Kingdom), 1993.

Sadovnikova, Anna, Assistant Professor, Economics; B.Sc., Moscow Technical University of Communication and Informatics (Russia), 1996; M.B.A., University of Baltimore, 2002; Ph.D. McMaster University (Canada), 2016.

Salehnia, Alireza, Professor of Computer Science, Graduate Faculty; B.A., Iranian Institute of Advanced Accounting (Iran), 1975; M.B.A., Central State University, 1977; Ph.D., University of Missouri, 1989.

Samuel, Ryan, Assistant Professor of Animal Science, Graduate Faculty; B.S., University of Prince Edward Island, 2003; M.S., University of Alberta, 2008; Ph.D., 2011.

Santos, Joseph M., Professor of Economics, Graduate Faculty; B.S., The College of New Jersey, 1990; M.A., Rutgers University, 1992; Ph.D., 1996.

Saunders, Christopher, Associate Professor of Mathematics and Statistics, Graduate Faculty; B.S., California State University at Chico, 2000; M.S., University of Kentucky, 2002; Ph.D., University of Kentucky, 2006.

Scaria, Joy, Assistant Professor of Veterinary and Biomedical Sciences and Animal Disease Research and Diagnostic Laboratory, Graduate Faculty; MPhil., University of Madras (India) 1999; Ph.D., Birla Institute of Technology and Science (India), 2006.

Schaal, Daniel J., Professor of Mathematics and Statistics, Graduate Faculty; B.S., South Dakota State University, 1982; M.S., 1988; Ph.D., University of Idaho, 1994.

Schad, Jessica, Assistant Professor of Sociology and Rural Studies, Graduate Faculty; B.A., University of Montana-Western, 2005; M.A., University of Montana-Missoula, 2009; Ph.D., University of New Hampshire, 2014.

Schievelbein, Danielle M., Instructor of Nursing; B.S., South Dakota State University, 2008; M.S., 2013.

Schmidt, Karl J., Lecturer in History and Geography; B.A., University of South Florida, 1985; M.A., Florida State University, 1987; Ph.D., 1994.

Schmidt, Robert C., Professor of Mathematics and Statistics, Graduate Faculty; B.S., South Dakota State University, 1979; M.S., Iowa State University, 1981; Ph.D., 1987.

Schmit, Christopher G., Professor of Civil and Environmental Engineering, Director of Water and Environmental Engineering Research Center, Graduate Faculty; B.S., University of Wisconsin, 1991; M.S., Iowa State University, 1992; Ph.D., 1997.

Schroeder, Brian, Professor and Department Head of Aerospace Studies; B.S., University of Nebraska-Lincoln, 1994; M.S., Air Force Institute of Technology, 2002.

Schulz, Marlene, Instructor of Sociology and Rural Studies; B.S., South Dakota State University, 1984; M.S.W., University of Nebraska Omaha, 1995.

Schwalm, Donnelle L., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.A., Adrian College, 2000; M.S., Texas Tech University, 2007; Ph.D., 2012.

See, Prita, Instructor of Psychology; B.A., Purdue, 2009; M.A., Miami University, 2011; Ph.D., 2014.

Sehgal, Sunish K., Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Haryana Agricultural University, India, 1999; M.S., Punjab Agricultural University, India, 2001; Ph.D., Punjab Agricultural University, 2005.

Seo, Junwon, Assistant Professor of Civil and Environmental Engineering, Graduate Faculty; B.S. Konyang University (South Korea), 2001; M.S. Yonsei University (South Korea), 2003 and M.S. The Georgia Institute of Technology, 2006; Ph.D. The Pennsylvania State University, 2009.

Serfling, Nathan, Instructor of English; B.A., South Dakota State University, 2001; M.A. 2006.

Sergeev, Igor, Professor of Health and Nutritional Sciences, Graduate Faculty; B.S./M.S., Moscow State University (Russia), 1977; Ph.D., Institute of Biomedical Problems- Moscow (Russia), 1984; D.Sc., Institute of Nutrition, Academy of Medical Science-Moscow (Russia), 1991.

Sewell, Stephen E. III, Adjunct Professor and Department Head of Military Science; B.S., South Dakota State University, 1998; M.S., Black Hills State University, 2014.

Sexton, Peter, Associate Professor of Agronomy, Horticulture, and Plant Science, Manager - SE Research Farm, Graduate Faculty; B.S., South Dakota State University, 1985; M.S., University of Florida, 1990; Ph.D., 1993.

Shelsta, Corey, Professor of Theatre, School of Performing Arts, Graduate Faculty; B.S., South Dakota State University, 1993; M.F.A., Wayne State University, 1996.

Shin, Sung Yun, Professor of Computer Science, Graduate Faculty; B.A., Kentucky State University, 1984; M.S., University of Wyoming, 1986; Ph.D., 1991.

Shinn, Bonnie, Lecturer of Counseling and Human Development; B.S., South Dakota State University, 1998; M.S., Shippensburg, 2003.

Shore, Jay, Associate Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., Oregon State University, 1986; Ph.D., University of Illinois, 1992.

Shoup, Daniel E., Adjunct Associate Professor of Natural Resource Management, Graduate Faculty; B.S., Miami University, 1991; M.S., University of Oklahoma, 1994; Ph.D., Kent State University, 2001.

Silvernagel, Craig, Assistant Professor, Economics; B.B.A., University of North Dakota, 1992; M.B.A., 1995; Ph.D., 2014.

Smart, Alexander, Professor of Natural Resource Management, Graduate Faculty; B.S., University of Wisconsin, 1989; M.S., 1992; Ph.D., University of Nebraska, 2001.

Smith, Samuel, Instructor of Biology and Microbiology; B.S., Washburn University, 2009; M.S., Portland State University, 2012.

Smith, Sharon, Associate Professor of English, Graduate Faculty; B.A., Augsburg College, 1991; M.A., University of Georgia, 1996; Ph.D., University of Illinois-Chicago, 2007.
N. Snyder, Stephen, Instructor of English; B.A., South Dakota State University, 2008; M.A., 2014.

Sorensen, Chelsea, Professional Advisor, Animal Science; B.S., Northwestern University, 2014; M.S., South Dakota State University, 2016.

Spear, Debra J., Professor of Psychology, Graduate Faculty; B.S., University of Maryland, 1977; M.A., University of North Carolina, 1980; Ph.D., 1987.

Specker, Bonnie, Director and Professor of Ethel Austin Martin-Edward Moss Martin Endowed Program in Human Nutrition, Graduate Faculty; B.S., University of Cincinnati, 1977; M.S., 1980; Ph.D., 1983.

Spinney, Jamie, Assistant Professor of Geography; Graduate Faculty; B.A., Saint Mary’s University, Halifax, Nova Scotia, Canada, 1994; B.Ed., MURP, Dalhousie University, Halifax, Nova Scotia, Canada, 1995, 1999; Ph.D., McMaster University, Hamilton, Ontario, Canada, 2011.

Spitz, Maria C., Associate Professor of Modern Languages; B.A., Monmouth College, 1987; M.A., Washington University, 1992; Ph.D., 2001.

Stafford, Joshua D., Adjunct Associate Professor of Natural Resource Management, Graduate Faculty; B.A., Oregon State University, 1997; M.S., South Dakota State University, 2000; Ph.D., Mississippi State University, 2004.

Steinlicht, Carrie, Senior Lecturer of Construction and Operations Management, Graduate Faculty; B.S., Michigan Technological University, 1990; M.A., Central Michigan University, 1993; Ph.D., Cappella University, 2010.

Stemwedel, Mark, Lecturer of Studio Art/Program Coordinator, School of Design, B.S., South Dakota State University, 1997; M.F.A., University of South Dakota, 2008.

Stenvig, Thomas E., Associate Professor of Nursing, Graduate Faculty; B.S.N., Wayne State University, 1971; M.P.H., University of Hawaii, 1976; M.S., South Dakota State University, 1991; Ph.D., University of Wisconsin, 2001.

Stewart, Christine, Professor of English, Graduate Faculty; B.A., University of Northern Iowa, 1995; M.A., Arizona State University, 2000; Ph.D., University of Nebraska, 2007.

Stiku, Dan M., Instructor of Teaching, Learning, and Leadership; B.S., South Dakota State University, 2004; M.S., South Dakota State University, 2013.

St-Pierre, Benoit, Assistant Professor of Animal Science, Graduate Faculty; B.S., Universite Laval, 1992; M.S., Universite Laval, 1994; Ph.D., University of Toronto, 2002.

Strain, Joey D., Professor of Pharmacy Practice; B.S., South Dakota State University, 2000; Pharm.D., 2002.

Stremmel, Andrew J., Professor of Teaching, Learning, and Leadership, Graduate Faculty; B.A., Pennsylvania State University, 1978; M.S., Purdue University, 1981; Ph.D., 1989.

Strichertz, Todd, Director of Nursing Student Services; B.S., South Dakota State University; M.S., South Dakota State University, 1991.

Subramanian, Senthil, Associate Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Annamalai University (India), 1992; M.S., Tamil Nadu Agricultural University (India), 1995; Ph.D., 1994.

Sun, Pei-Yu, Assistant Professor, Economics; B.A., Feng-Chia University (Taiwan), 1995; M.B.A., Western Kentucky University, 2006; Ph.D., Louisiana State University, 2015.

Tan, Songxin, Associate Professor of Electrical Engineering, Graduate Faculty; B.S., Sichuan University, 1994; M.S., 1997; Ph.D., University of Nebraska, 2003.

Tazarv, Mostafa, Assistant Professor of Civil and Environmental Engineering, Graduate Faculty; B.S., University of Tabriz (Iran), 2006; M.S. Sharif University of Technology (Iran), 2009; Ph.D., University of Nevada, 2014.

Thaler, Robert, Extension Swine Specialist, and Professor of Animal Science, Graduate Faculty; B.S., South Dakota State University, 1982; M.S., 1984; Ph.D., Kansas State University, 1988.

Thiex, Natalie W., Assistant Professor of Biology and Microbiology, Graduate Faculty; B.A., Concordia College, 1999; M.P.H., University of Michigan Ann Arbor, 2002; Ph.D. University of Michigan Ann Arbor, 2008.

Thimsen, Sarah, Lecturer of Psychology; B.A., University of Kansas, 2003; M.A., Castleton State College, 2005; M.L.S., 2008; Ph.D., University of Nebraska-Lincoln, 2012.

Thompson, Daniel J., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., South Dakota State University, 2002; M.S., 2005; Ph.D., 2009.

Thompson, Maryjoanne, Coordinator/Academic Advisor/Instructor of Biology and Microbiology; B.S., South Dakota State University, 2007; M.Ed., 2011.

Threadgold, Lee, Instructor of Construction and Operations Management; B.S., Dakota State University, 1980; M.S., 2010.

Tilton, Penelyn D., Instructor of Nursing; A.A., Dakota Wesleyan University, 2007; B.S., 2010; M.S., Kaplan University, 2013.

Ting, Francis, Professor of Civil and Environmental Engineering, Graduate Faculty; B.S., University of Manchester (Great Britain), 1982; M.S., California Institute of Technology, 1983; Ph.D., 1989.

Tkach, Julie L., Instructor of Consumer Sciences; B.S., Michigan State University, 1994; M.S., 2005; Ph.D., 2013.

Tonkoski, Reinaldo, Associate Professor of Electrical Engineering, Graduate Faculty; B.S., Pontificia Universidade Catolica do Rio Grande do Sul (Brazil), 2003; M.S., 2006; Ph.D., Concordia University (Canada), 2011.

Toronto, Emily, Professor of Music, School of Performing Arts; B.M., Brigham Young University, 1997; M.M., University of Michigan, 1999; D.M.A., University of Michigan, 2003.

Trenhaile, Jay, Professor and Department Head of Counseling and Human Development, Interim Department Head of Teaching, Learning, and Leadership, Graduate Faculty; B.S., Dakota State University, 1986; M.S., Kansas State University, 1989; M.S., South Dakota State University, 1993; Ed.D., University of South Dakota, 1996.

Tritle, Erika, Lecturer of History, Philosophy, and Religion; B.A., Luther College, 1999; M.A., University of Chicago, 2005; Ph.D., 2015.

Troelstrup, Jr., Nels H., Assistant Department Head and Professor of Natural Resource Management, Graduate Faculty; B.A., University of Colorado, 1981; M.S., University of Nebraska, 1985; Ph.D., University of Minnesota, 1992.

Trooen, Todd P., Professor of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., South Dakota State University, 1983; M.S., 1985; Ph.D., Colorado State University, 1988.

Tsakiridis, George, Lecturer of Philosophy, and Religion; B.S., Iowa State University, 1998; Th.M., Dallas Theological Seminary, 2002; Th.M., Lutheran School of Theology at Chicago, 2005; Ph.D., 2009.

Tummala, Henachaud, Associate Professor of Pharmaceutical Sciences, Graduate Faculty; B.Pharm., Kakatiya University (India), 1994; M.S., Punjab University (India), 1997; Ph.D., National Institute of Immunology (India), 2002.

Turner, Benjamin L., Adjunct Assistant Professor of Natural Resource Management; B.S., Sam Houston State University, 2009; M.S., Texas A&M University Kingsville, 2011; Ph.D., South Dakota State University, 2014.

Turnipsed, E. Brent, Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Mississippi State University, 1984; M.S., 1987; Ph.D., 1993.

Twedt, Michael P., Lecturer in Mechanical Engineering and Program Engineer; B.S., South Dakota State University, 1992; M.S. 1994.

Uilk, Kristen M., Assistant Director First Year Advising Center and Academic Advisor; B.S., Bemidji State University, 2004; M.S., South Dakota State University, 2007.

Uilk, Nicholas, Instructor of Agricultural and Biosystems Engineering; B.S., South Dakota State University, 2008.

Ujah, Nacarius, Assistant Professor, Economics; B.B.A., University of Central Arkansas, 2003; M.B.A., 2006; Ph.D., Texas A&M Intl. University, 2013.

Underwood, Keith, Associate Professor of Animal Science, Graduate Faculty; B.S., Texas Tech University, 2002; M.S., University of Wyoming, 2007; Ph.D., 2008.

Van der Slijis, Evert, Professor of Economics, Graduate Faculty; B.S., Hogere Landbouwschool (Leeuwarden, The Netherlands), 1982; M.S., Iowa State University, 1988; Ph.D., University of Minnesota, 1993.

Van Gilder, Deidra J., Associate Professor of Pharmacy Practice; B.S., South Dakota State University, 2000; Pharm.D., 2002.

Van Guild, Gary P., Associate Professor of Health and Nutritional Sciences, Graduate Faculty; B.S., Castleton State College, 1998; M.S., Colorado State University, 2001; Ph.D., University of Colorado at Boulder, 2006.

Van Klompenburg, Emily, Assistant Professor of Pharmacy Practice; B.S., South Dakota State University, 2013; Pharm.D., 2015.
Van Slambruck, Severine, Assistant Professor of Chemistry and Biochemistry, Graduate Faculty; B.S., Ghent University, Belgium, 1998; M.S., 2000; Ph.D., New Mexico Tech, 2006.

VanDamme, Jill, Jump Start Advisor, Wintrode Student Success Center; B.A., Northern Michigan University, 2001; M.S., Emporia State University, 2010.

VanDeHey, Justin A., Adjunct Assistant Professor of Natural Resource Management; B.S., University of Wisconsin Superior, 2004; M.S., University of Wisconsin Stevens Point, 2007; Ph.D., South Dakota State University, 2011.

Varenhorst, Adam J., Assistant Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., Briar Cliff University, 2009; M.S., Iowa State University 2011; Ph.D., 2015.

Veire, Camilla, Academic Advisor, College of Nursing; B.S., University of Wisconsin, 1985; M.S., South Dakota State University, 1992; M.B.A., University of Sioux Falls, 2004.

Velpuri, Naga Manohar, Adjunct Assistant Professor of Natural Resource Management; B.S., ANGR Agricultural University Hyderabad India, 2000; M. Tech, Jawaharlal Nehru Technological University, 2002; M. Phil, University of Cambridge, 2005; Ph.D., South Dakota State University, 2012.

Venhuizen, Lynda, Lecturer of Teaching, Learning, and Leadership; B.S., University of South Dakota, 1991; M.S., South Dakota State University, 1998.

Vermeer, Paula, Adjunct Assistant Professor of Chemistry and Biochemistry; B.A., Brandeis University, 1991; M.A., Columbia University, 1994; M.Phil., Columbia University, 1996; Ph.D., Columbia University, 1998.

Versteeg, John, Instructor of Mechanical Engineering; B.S., South Dakota State University, 2011; M.S., 2013.

Vestal, Donald, Associate Professor of Mathematics and Statistics, Graduate Faculty; B.S., Colorado State University, 1990; M.S., 1992; Ph.D., University of Colorado--Boulder, 1998.

Vestal, Sharon, Associate Professor of Mathematics and Statistics, Graduate Faculty; B.A., University of South Dakota, 1992; M.A., 1994; Ph.D., University of Colorado, 2000.

Vitiello, Peter, Adjunct Assistant Professor of Chemistry and Biochemistry; B.S., Lafayette College, 2002; Ph.D., University of Rochester School of Medicine and Dentistry, 2007.

Vockrodt, Mary L., Lecturer of Nursing; B.S., South Dakota State University, 1986, M.S., 2008.

Vollan, Charles A., Associate Professor of History, Graduate Faculty; B.A., Hiram College, 1991; M.A., University of Tulsa, 1994; Ph.D., University of Nebraska-Lincoln, 2004.

Vondruska, Judy, Lecturer in Physics; B.S., University of Nebraska, 1986; M.S., University of Arizona, 1992.

Voss, Jo, Associate Professor of Nursing, Graduate Faculty; B.S.N., Winona State University, 1980; M.S.N., University of Minnesota, 1993; Ph.D., University of Nebraska, 2003.

Vroman, Isaac, Instructor of Biology and Microbiology; B.S., University of Wisconsin-La Crosse, 2014; M.S., University of Dundee (UK), 2015.

Walker, Julie A., Extension Beef Specialist and Professor of Animal Science, Graduate Faculty; B.S., North Dakota State University, 1983; M.S., Purdue University, 1990; Ph.D., University of Kentucky, 1995.

Wallace, Jacob E., Assistant Professor of Music, School of Performing Arts; B.A., University of Nebraska – Lincoln, 2004; M.M., Baylor University, 2006; D.M.A., University of Georgia, 2009.

Walsh, Daniel P., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Michigan State University, 1999; M.S., Colorado State University, 2002; M.S., Ph.D., Michigan State University, 2007.

Walsh, Michael, Associate Professor of Music, School of Performing Arts; B.M., University of Miami, 1998; M.M., 2000; D.M.A., University of Kansas, 2008.

Walter, Chanda L., Professional Academic Advisor, College of Education and Human Sciences; B.S., South Dakota State University, 2007; M.S., 2010.

Wang, Chunyang, Professor of Dairy and Food Science, Graduate Faculty; B.S., Shenyang Agricultural University, Shenyang (China), 1985; M.S., Iowa State University, 1989; Ph.D., 1992.

Wang, Dan, Assistant Research Professor of Biology and Microbiology, Graduate Faculty; B.S., Nanjing Agricultural University (China), 1998; M.S., University of Manchester (U.K.), 2005; Ph.D., South Dakota State University, 2011.

Wang, Tong, Assistant Professor/Extension Specialist, Economics; B.S., Shandong College of Light Industry (China), 2000; M.S., Tsinghua University (China), 2006; Ph.D., Iowa State University, 2012.

Wang, Xiuqing, Professor of Biology and Microbiology, Graduate Faculty; D.V.M., Inner Mongolia College of Agriculture and Animal Husbandry (China), 1988; M.S., 1991; Ph.D., University of Connecticut, 2000.

Wang, Zhiguang, Associate Professor of Economics, Graduate Faculty; B.S., Jinlin University (China), 2000; M.A., Shanghai University of Finance and Economics (China), 2004; M.A., Florida International University, 2008; Ph.D., 2009.

Warren, Randall F., Lecturer of Biology and Microbiology; B.S., University of Minnesota, 1993; Ph.D., Indiana University, 1999.

Watrell, Robert H., Associate Professor and Interim Department Head of Geography, Graduate Faculty; B.S., University of North Dakota, 1989; M.A., University of Nebraska, 1993; Ph.D., 2001.

Webe, Nadim L. John M. Hanson Professor and Department Head of Civil and Environmental Engineering, Graduate Faculty; B.E., American University of Beirut (Lebanon), 1980; M.S., University of Nevada, 1992; Ph.D., 1997.

Wei, Lin, Assistant Professor of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., China Agriculture University, 1986; M.S., Mississippi State University, 2005; Ph.D., 2009.

Weidauer, Lee, Assistant Professor of Health and Nutritional Sciences, Graduate Faculty, Ethel Austin Martin Program in Human Nutrition and Health and Nutritional Sciences; B.S., South Dakota State University, 2007; M.S., 2009; Ph.D., 2012.

Welker, Jeffrey, Adjunct Professor of Natural Resource Management, Graduate Faculty; B.S., Montana State University, 1980; M.S., 1982; Ph.D., Texas A&M University, 1985.

Wells, Dorothy M., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., The Pennsylvania State University, 1991; M.S., Frostburg State University, 1997; Ph.D., South Dakota State University, 2003.

Westwick, Joshua, Associate Professor of Communication Studies and Associate Director of School of Communication and Journalism, Graduate Faculty; B.S., South Dakota State University, 2001; M.S., 2003; Ed.D., University of South Dakota, 2012.

White, George, Professor of Geography, Graduate Faculty; B.A., California State University, 1987; M.A., University of Oregon, 1990; Ph.D., 1994.

Wicks, Molly, Associate Professor of Chemistry and Biochemistry; B.S., Creighton University, 2007; Ph.D., University of Nebraska, 2011.

Wilkerson, Lonnie, Associate Professor of Theatre, School of Performing Arts, Graduate Faculty; B.A. Moorhead State University, KY, 2002; M.F.A. Michigan State University, 2007.

Willand-Charnley, Rachel, Assistant Professor of Chemistry and Biochemistry; B.S., Creighton University, 2009; Ph.D., University of Nebraska – Lincoln, 2014.

Williams, Marla, Lecturer of Chemistry and Biochemistry; B.S., South Dakota State University, 2000; M.S., 2003; Ph.D., 2008.

Willman, Dallas, Instructor of Interior Design, School of Design; B.S., South Dakota State University, 2009; M.S., 2011.

Wilson, Tammy L., Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.A., University of Colorado Boulder, 1994; M.S., Utah State University, 2005; Ph.D., 2010.

Wiltse, David, Assistant Professor of Political Science, Graduate Faculty; B.A., Montana State University, 1993; M.A., California State University, 1996; Ph.D., University of Massachusetts, 2006.

Wiltse, Evren Celik, Associate Professor of Political Science, Graduate Faculty; B.A., Bogazici University (Turkey), 1997; M.S., 2000; Ph.D. University of Massachusetts, 2010.
Wimberly, Michael C., Senior Research Scientist at the Geospatial Sciences Center of Excellence, Professor of Natural Resource Management, Graduate Faculty; B.A., University of Virginia, 1990; M.S., University of Washington, 1995; Ph.D., Oregon State University, 1999.

Wingate, Steven, Associate Professor of English, Graduate Faculty; B.A., University of Massachusetts (Boston), 1987; MFA, Florida State University, 1991.

Winterboer, Venita J., Lecturer of Nursing; B.S., South Dakota State University, 1980; M.S., 1992.

Wipf, Darin J., Instructor of Economics; B.A., South Dakota State University, 1993; M.P.A., University of South Dakota, 1997.

Won, Kwanghee, Lecturer of Computer Science; B.S., Kyungpook National University (South Korea), 2005; M.S., 2007; Ph.D., 2013.

Won, Myounggyu, Assistant Professor of Computer Science, Graduate Faculty; B.E., Soegang University, 2007; Ph.D., Texas A&M University, 2013.

Wood, William, Associate Professor of Theatre, School of Performing Arts, Graduate Faculty; B.F.A., University of South Dakota, 1999; M.F.A., Minnesota State University, 2003.

Woodard, Howard J., Professor of Agronomy, Horticulture, and Plant Science, Graduate Faculty; B.S., University of Rochester, 1973; Ph.D., Rutgers University, 1985.

Woyengo, Tofuko A., Assistant Professor of Animal Science, Graduate Faculty; B.S., University of Nairobi, 1997; M.S., University of Nairobi, 2001; M.S., University of Manitoba, 2007; Ph.D., University of Manitoba, 2011.

Wright, Cody L., Professor of Animal Science, Graduate Faculty; B.S., South Dakota State University, 1994; M.S., Kansas State University, 1996; Ph.D., North Carolina State University, 2000.

Wright, David, Professor and Department Head of Agronomy, Horticulture, and Plant Science; A.A., Ellsworth Community College, 1980; B.S., Iowa State University, 1982; M.S., 1986; Ph.D., Kansas State University, 1991.

Wrightson, Graham, Assistant Professor of History; M.A., Cambridge University - Fitzwilliam College, 2004; M.A., University of Calgary, 2006; Ph.D., 2012.

Wu, Jixiang, Associate Professor of Biology and Microbiology, Graduate Faculty; B.S., Zhejiang Agricultural University (China), 1991; M.S., 1994; Ph.D., Zhejiang University (China), 2001; M.S., Mississippi State University, 2003; Ph.D., 2003.

Wu, Yajun, Associate Professor of Biology and Microbiology, Graduate Faculty; B.S., Nanjing Normal University (China), 1983; M.S., Southern Illinois University-Edwards, 1991; Ph.D. University of Missouri- Columbia, 1996.

Wuellner, Melissa, Adjunct Assistant Professor of Natural Resource Management, Graduate Faculty; B.S., Ball State University, 2002; M.S., Montana State University, 2007; Ph.D., South Dakota State University, 2009.

Xu, Fang, Instructor of Architecture, School of Design; B.Arch., Tongji University, 2001; M.Arch., 2004; Ph.D., University of Illinois at Urbana-Champaign, 2013.

Xu, Lan, Professor of Natural Resource Management, Graduate Faculty; B.S., Shanxi University, 1985; M.S., Institute of Applied Ecology of Chinese Academy of Sciences, 1988; Ph.D., North Dakota State University, 1998.

Emeriti Faculty

Amiotte, Lowell, Associate Professor Emeritus of Education and Counseling; B.S., Black Hills State University, 1964; M.A., University of South Dakota, 1971.

Andrawis, Madeleine Y., Professor Emerita of Electrical Engineering, Graduate Faculty; B.S., Cairo University (Egypt), 1977; M.S., South Dakota State University, 1983; Ph.D., Virginia Polytechnic Institute and State University, 1991.

Arnold, Mary P., Professor Emerita of Journalism and Mass Communication; B.A., Dakota Wesleyan University, 1969; M.A., University of South Dakota, 1973; Ph.D. University of Iowa, 1994.

Baer, Robert J., Professor Emeritus of Dairy Science, Graduate Faculty; B.S., University of Georgia, 1977; M.S., 1979; Ph.D., 1983.

Bahr, AnnMarie B., Professor Emerita of Religion, Graduate Faculty; B.A., Lawrence University, 1972; M.A., Stanford University, 1975; Ph.D., Temple University, 1989.

Beattie, Patricia K., Professor Emerita of Modern Languages; B.S., South Dakota State University, 1963; M.A., Middlebury College, 1964; Ph.D., University of Minnesota, 1983.

Bell, Julie A., Assistant Professor Emerita of Consumer Sciences; B.S., South Dakota State University, 1970; M.S., 1976.

Bell, Rodney E., Professor Emeritus of History, Graduate Faculty; B.S., Jamestown College, 1955; M.A., University of Michigan, 1956; Ph.D., 1975.

Berg, Donald J., Professor Emeritus of Geography, Graduate Faculty; B.A., North Dakota State University, 1964; M.A., 1966; M.A., University of California, 1971; Ph.D., 1976.

Bergum, Gerald E., Professor Emeritus of Geography, Graduate Faculty; B.S., University of Minnesota, 1958; M.S., University of Notre Dame, 1962; Ph.D. Washington State University, 1969.

Berry, Jr., Charles R., Professor Emeritus of Wildlife and Fisheries Sciences, Graduate Faculty; B.S., Randolph-Macon College, 1967; M.S., 1970; Ph.D., Virginia Polytechnic Institute and State University, 1976.
Bielfeldt, Dennis D., Professor Emeritus of Philosophy and Religion; B.S., South Dakota State University, 1977; M.A., University of Iowa, 1984; Ph.D., 1987.

Booher, James M., Professor Emeritus of Health, Physical Education, and Recreation, Graduate Faculty; B.A., Nebraska Wesleyan University, 1965; M.S., South Dakota State University, 1969; Ph.D., University of Utah, 1976.

Brown, Lewis F., Dean and Professor Emeritus of the Jerome J. Lohr College of Engineering, Graduate Faculty; B.S., South Dakota State University, 1984; M.S., Iowa State University, 1986; Ph.D., 1988.

Buchenau, George W., Professor of Plant Science Emeritus; B.S., New Mexico State University, 1954; M.S., 1955; Ph.D., Iowa State University, 1960.

Burns, Robert V., Professor Emeritus of Political Science and Dean Emeritus of the Honor College; B.S., South Dakota State University, 1964; M.A., University of Missouri, 1966; Ph.D., 1973.

Canaan, Charles W., Professor Emeritus of Music; B.S., California State University, 1965; M.A., Western Michigan University, 1973; D.M.A., Arizona State University, 1986.

Chappell, Gary S., Professor and Head of Pharmaceutical Sciences Emeritus; B.S., Ohio State University, 1963; Ph.D., University of Kansas, 1968.

Cheever, Jr., Herbert E., Professor Emeritus of Political Science and Dean of the College of Arts and Sciences Emeritus; B.S., South Dakota State University, 1960; M.A., University of Iowa, 1962; Ph.D., 1967.

Chicoine, David L., Professor Emeritus of Economics and President Emeritus of South Dakota State University; B.S., South Dakota State University, 1969; M.S., University of Delaware, 1971; M.A., Western Illinois University, 1978; Ph.D., University of Illinois, 1979.

Chu, Shu-Tung, P.E., Professor Emeritus of Agricultural and Biosystems Engineering; B.S., National Taiwan University, 1956; M.S., University of Minnesota, 1960; Ph.D., 1966.

Clague, Carolyn L., Associate Professor Emerita of Extension Youth Development/4-H Specialist; B.A., South Dakota State University, 1974; M.Ed., 1975; Ed.D., University of South Dakota, 2000.

Clever, Charles C., Associate Professor Emeritus of Mathematics; B.S., Grove City College, 1961; M.A., University of Kentucky, 1965.

Corbett, Keith W., Dean and Professor Emeritus of University College; B.S., South Dakota State University, 1976; M.Ed., 1987; Ed.D., University of South Dakota, 2001.

Crain, David A., Professor Emeritus of History, Graduate Faculty; B.A., Pittsburgh State University, 1960; M.A., George Washington University, 1962; Ph.D. Indiana University, 1972.

Crews, Georgia W., Associate Emeritus Professor of Nutrition, Food Science and Hospitality, Graduate Faculty; B.S., Middle Tennessee State University, 1968; M.S., University of Tennessee, 1970; Ph.D., Kansas State University, 2000.

Crews, Michael G., Professor Emeritus of Nutrition, Food Science & Hospitality, Graduate Faculty; B.S., Virginia Polytechnic Institute and State University, 1972; Ph.D., 1978.

Cumber, Carol J., Professor Emerita of Economics; B.A., North Dakota State University, 1979; M.B.A., 1984; Ph.D., South Dakota State University, 1994.

Danker, Kathleen A., Professor Emerita of English; B.A., University of Nebraska, 1971; M.A., 1974; Ph.D., 1985.

DeBoer, Darrell W., Professor Emeritus of Agriculture and Biosystems Engineering, Graduate Faculty; B.S., Iowa State University, 1963; M.S., 1964; Ph.D., 1969.

DeBoer, Delvin E., Professor Emeritus of Civil and Environmental Engineering, Graduate Faculty; B.S., South Dakota State University, 1978; M.S., 1980; Ph.D., Iowa State University, 1990.

Dieter, Charles, Professor Emeritus of Natural Resource Management, Graduate Faculty; B.S., Concordia Teachers College, 1977; M.S., South Dakota State University, 1987; Ph.D., 1993.

Dobbs, Thomas L., Professor Emeritus of Economics, Graduate Faculty; B.S., South Dakota State University, 1965; Ph.D., University of Maryland, 1969.

Donovan, Kathleen, Professor Emerita of English; B.A., Spalding College, 1968; M.A., University of Nebraska, 1988; Ph.D., University of Arizona, 1994.

Duffy, George H., Professor Emeritus of Physics; B.S., Cornell College, 1942; M.A., Princeton University, 1944; Ph.D., 1945.

Dwivedi, Chandradhar, Distinguished Professor and Department Head Emeritus of Pharmaceutical Sciences, Graduate Faculty; B.S., Gorakhpur University, 1964; M.S., 1966; Ph.D., Lucknow University, 1972.

Dybing, C. Dean, Professor of Plant Science Emeritus; B.S., Colorado State University, 1953; M.S., 1955; Ph.D., University of California, 1959.

Edeburn, Carl, Professor Emeritus of Education and Counseling, Graduate Faculty; B.S., St. Cloud State University, 1963; M.A., University of Minnesota, 1969; Ph.D., University of North Dakota, 1973.

Edie, Richard, Professor Emeritus of Visual Arts; B.F.A., Kansas City Art Institute, 1951; M.F.A., University of Kansas, 1956.

Elderbruch, Virgil G., Dean and Professor Emeritus of Electrical Engineering, Graduate Faculty; B.S., University of Wyoming, 1960; M.S., 1961; Ph.D., 1969.

Emerick, Royce J., Professor Emeritus of Chemistry and Biochemistry, Graduate Faculty; B.S., Oklahoma State University, 1952; M.S., University of Wisconsin, 1955; Ph.D., 1957.

Enevoldsen, Bernadine L., Professor Emerita of Consumer Affairs, Graduate Faculty; B.S., South Dakota State University, 1964; M.S., 1968; Ph.D., University of Minnesota, 1993.

Evans, David A., Professor Emeritus of English, Graduate Faculty; B.A., Morningside College, 1962; M.A., University of Iowa, 1964; M.F.A., University of Arkansas, 1976.

Evenson, Donald P., Distinguished Professor Emeritus of Biology and Microbiology, Graduate Faculty; B.A., Augustana College, 1964; Ph.D., University of Colorado, 1968.

Everett, V. Duane, Professor Emeritus of Education; B.S., University of Nebraska, 1953; M.S., 1962; Ed.D., 1966.

Farver, Debra K., Professor Emerita of Pharmacy Practice; Pharm.D., University of Nebraska, 1983.

Fausti, Scott W., Professor Emeritus of Economics; B.A., North Dakota State University, 1986; M.S., University of Illinois, 1988; Ph.D., 1991.

Flake, Lester D., Distinguished Professor Emeritus of Wildlife and Fisheries Sciences, Graduate Faculty; B.S., Brigham Young University, 1965; M.S., 1966; Ph.D., Washington State University, 1971.

 Fleming, Mary J., Emeritus Extension EFNEP Coordinator/Assistant Professor of Nutrition, Food Science and Hospitality; B.S., South Dakota State University, 1958; M.S., 1974.

Flynn, M. L., Professor Emerita of English, Graduate Faculty; Ph.B., DePaul University, 1969; M.A. University of Missouri, 1977; Ph.D., 1885.

Forsyth, Harry L., Professor Emeritus of HPER; B.S., South Dakota State University, 1952; M.S., 1956; Ph.D., University of South Dakota, 1963.

Francis, David H., Professor Emeritus of Veterinary and Biomedical Sciences; B.S., Brigham Young University, 1971; M.S., 1974; Ph.D., University of Missouri, 1978.

Froehlich, Don P., Professor Emeritus of Mechanical Engineering, Graduate Faculty; B.S., South Dakota State University, 1972; M.S., 1973; Ph.D., Cornell University, 1976.

Fuchson, Michael F., Professor Emeritus of History, Graduate Faculty; B.A., Iona College, 1966; M.A., Loyola University, 1968; Ph.D., 1973.

Gartner, F. Robert, Professor Emeritus of Range Science; B.S., University of Wyoming, 1950; M.S., University of California, 1956; Ph.D., University of Wyoming, 1967.
Gee, Dan H., Professor Emeritus of Animal and Range Sciences; B.S., University of Minnesota, 1965; M.S., South Dakota State University, 1967; Ph.D., 1970.

Gehrke, Jr., Henry, Professor Emeritus of Chemistry and Biochemistry; B.S., Oregon State University, 1958; M.S., University of Iowa, 1963; Ph.D., 1964.

Gerwing, James R., Professor of Plant Science Emeritus; B.S., University of Minnesota, 1975; M.S., 1978.

Getz, Jack, Professor Emeritus of Journalism and Mass Communication, Graduate Faculty; B.S., South Dakota State University, 1964; M.A., University of Arizona, 1985; Ed.D., University of South Dakota, 2001.

Ghazi, Hassan S., Professor Emeritus of Mechanical Engineering, Graduate Faculty; B.S., Purdue University, 1954; M.S., Ohio State University, 1956; Ph.D., 1962.

Giagio, Doris J., Professor Emerita of Journalism and Mass Communication; B.S., South Dakota State University, 1989; M.S., University of Kansas, 1992.

Gorham, Elizabeth E., Associate Professor Emerita of Extension Family Resource Management; B.S., Iowa State University, 1968; M.S., Utah State University, 1971; Ph.D., Oregon State University, 1993.

Graetzner, Hans G., Professor Emeritus of Physics; B.A., Oberlin College, 1952; M.S., Yale University, 1956; Ph.D., 1961.

Granholm, Nels H., Distinguished Professor Emeritus of Biology, Microbiology and Global Studies, Graduate Faculty; B.A., University of Massachusetts, 1964; Ph.D., Iowa State University, 1968.

Grant, Geoffrey W., Associate Professor Emeritus of Rural Sociology, Graduate Faculty; B.A., Carroll College, 1964; M.A., University of Nebraska, 1969; Ph.D., 1980.

Greenbaum, Harry, Professor of Economics Emeritus; B.S., Texas A&M University, 1955; M.S., Ohio State University, 1956; Ph.D., 1961.

Gritzner, Charles F., Distinguished Professor Emeritus of Geography, Graduate Faculty; B.A., Arizona State University, 1958; M.A., Louisiana State University, 1960; Ph.D., 1969.

Gritzner, Janet H., Professor Emerita of Geography; B.A., University of Maryland, 1965; M.A., 1970; Ph.D., Louisiana State University, 1978.

Grove, John A., Professor Emeritus of Chemistry, Graduate Faculty; B.S., Ohio State University, 1961; M.S., 1964; Ph.D., 1966.

Hacker, Patricia E., Professor Emerita of Health and Nutritional Sciences, Graduate Faculty, B.Ed., Glenville State College, 1973; M.S., West Virginia University, 1983; Ph.D., University of Wyoming, 1988.

Haertel, Lois S., Professor of Biology and Microbiology Emeritus, Graduate Faculty; B.S., University of Illinois, 1961; M.S., 1963; Ph.D., Oregon State University, 1969.

Haleta, Laurie L., Professor Emerita of Communication Studies and Theatre; B.S., South Dakota State University, 1977; M.A., 1983; Ph.D., University of Nebraska, 1994.

Hall, Robert G., Professor Emeritus of Plant Science, Graduate Faculty; B.S., University of Idaho, 1969; M.S., 1974; Ph.D., University of Missouri, 1978.

Hamilton, Edward D., Professor of Veterinary Science Emeritus, Graduate Faculty; B.S., Texas A&M University, 1973; D.V.M., 1974; M.S., 1992.

Hanson, Clark W., Professor Emeritus of Education, Graduate Faculty; B.S., University of Minnesota, 1963; M.A., 1971; Ph.D., Iowa State University, 1972.

Hassoun, Nadim M., Professor Emeritus of Civil Engineering, Graduate Faculty; B.S., Cairo University, 1956; M.S., University of Michigan, 1966; Ph.D., 1968.

Hatfield, Warren G., Professor Emeritus of Music; B.A., University of Northern Iowa, 1952; M.S., University of Iowa, 1959; Ph.D., 1967.

Haug, Mary, Associate Professor Emerita of English; B.A., South Dakota State University, 1968; M.A., 1976.

Hecht, Harry G., Professor Emeritus of Education, Graduate Faculty; B.S., Brigham Young University, 1958; M.S., 1959; Ph.D., University of Utah, 1962.

Hefling, Joel L., Assistant Professor Emeritus of Communication Studies and Theatre; B.S.E., Emporia State University, 1964; M.S., 1970.

Hegge, Margaret J., Distinguished Professor Emerita of Nursing, Director of Academic Evaluation and Assessment Emerita, Graduate Faculty; B.A. Gustavus Adolphus College, 1969; M.Ed., South Dakota State University, 1972; Ed.D., University of South Dakota, 1983; M.S., University of Minnesota, 1984.

Helgeland, David, Professor Emeritus of Pharmacy Practice; B.S., South Dakota State University, 1974; M.B.A., University of South Dakota, 1982; Ed.D., 2000.

Hellickson, Mylo A., Professor Emeritus of Agricultural and Biosystems Engineering, Graduate Faculty; B.S., North Dakota State University, 1964; M.S., 1966; Ph.D., West Virginia University, 1969.

Henning, David R., Associate Professor Emeritus of Dairy Science, Graduate Faculty; B.S., University of Illinois, 1962; Ph.D., Oregon State University, 1967.

Hess, Donna J., Distinguished Professor Emerita of Rural Sociology, Graduate Faculty; B.A.; Marquette University, 1965; M.A., State University of New York, 1971; Ph.D., Michigan State University, 1974.

Hietbrink, Bernard E., Dean/Professor Emeritus of Pharmaceutical Sciences; B.S., South Dakota State University, 1958; Ph.D., University of Chicago, 1961.

Higgins, Kenneth F., Professor Emeritus of Wildlife and Fisheries, Graduate Faculty; B.S., Colorado State University, 1965; M.S., South Dakota State University, 1968; Ph.D., North Dakota State University, 1981.

Hilderbrand, David, Dean of Graduate School, Research and Sponsored Programs and Professor of Chemistry Emeritus, Graduate Faculty; B.A., Southwest Baptist College, 1967; M.A., University of Missouri, 1969; Ph.D., 1971.

Hillner, Kenneth, Professor Emeritus of Psychology, Graduate Faculty; B.A., Dartmouth College, 1960; Ph.D., Indiana University, 1965.

Hofland, Sharon A., Professor Emerita of Nursing, Graduate Faculty; B.S., South Dakota State University, 1972; M.S., 1972; Ph.D., 1976; M.N., University of Washington, 1979.

Hogan, Edward P., Professor Emeritus of Geography, Associate Vice President for Academic Affairs, and Chief Information Technology Officer Emeritus, Graduate Faculty; B.S., Saint Louis University, 1961; M.A., 1962; Ph.D., 1969.

Houghum, Joel E., Professor of Pharmaceutical Sciences and Assistant Dean Emeritus, Graduate Faculty; A.A., Lake Region Junior College, 1969; B.S., University of Minnesota, 1972; Ph.D., University of Wisconsin, 1979.

Howard, Richard K., Emeritus Assistant Professor of the Cooperative Extension Service; B.S., South Dakota State University, 1966; M.Ed., 1976.

Iken, Martha B., Assistant Professor Emerita of Nursing; B.S., Dakota State University, 1967; M.A., University of South Dakota, 1968; B.S., South Dakota State University, 1977; M.S., 1984; Ed.D., University of South Dakota, 2000.

Janssen, Larry L., Professor Emeritus of Economics; B.S., University of Nebraska, 1971; M.S., Oklahoma State University, 1974; Ph.D., University of Nebraska, 1978.

Jensen, Darrell, Professor of Education/Dean of Education and Counseling Emeritus; B.S., Northwest Missouri State University, 1959; M.A., Drake University, 1965; Ph.D., University of Iowa, 1971.

Jensen, William, Professor Emeritus of Chemistry, Graduate Faculty; B.S., University of Minnesota, 1959; M.S., University of Iowa, 1962; Ph.D., 1964.

Joffre, Coral Lee, Assistant Professor Emeritus of Nursing; B.S., South Dakota State University, 1964; M.S., University of Minnesota, 1969.

Johnson, Corliss L., Assistant Professor Emeritus of Animal and Range Sciences, Graduate Faculty; B.S., University of South Dakota, 1964; M.S., 1970.

Johnson, James L., Distinguished Professor Emeritus of Communication Studies and Theatre, Graduate Faculty; B.S., Kansas State University, 1960; M.A., University of South Dakota, 1961; Ph.D., University of Kansas, 1973.

Johnson, James R., Professor Emeritus of Animal and Range Sciences; B.S., Montana State University, 1964; M.S., 1966; Ph.D., Oregon State University, 1974.

Johnson, LeRoy C., Associate Professor Emeritus of Horticulture, Forestry, Landscape and Parks; B.S., Michigan State University, 1951; M.S., Kansas State University, 1964.

Jorgensen, Jerry D. Professor Emeritus of Communication Studies and Theatre and Dean Emeritus of the College of Arts and Sciences, Graduate Faculty; B.S., South Dakota State University, 1978; M.S., 1984; Ph.D., University of Nebraska, 1990.

Kaatz, Brian L. Professor and Dean Emeritus of the College of Pharmacy, Graduate Faculty; B.S., South Dakota State University, 1974; Pharm.D., University of Minnesota, 1977.

Kayongo-Male, Diane E., Professor Emerita of Sociology and Rural Studies; B.A., State University of New York, 1970; M.A., Michigan State University, 1972; Ph.D., 1974.

Keneff, Donald G., Professor Emeritus of Plant Science and Biochemistry, Graduate Faculty; B.S., University of Wisconsin, 1951; Ph.D., Michigan State University, 1959.

Kephart, Kevin D., Vice President Emeritus for Research and Economic Development; B.S., Montana State University, 1979; M.S., University of Wyoming, 1982; Ph.D., Iowa State University, 1987.

Kim, Bang J., Professor Emerita; B.A., Ewha Women's University, 1961; M.A., University of Oregon, 1965.

Kohl, Robert A., Professor of Plant Science Emeritus, Graduate Faculty; B.S., Purdue University 1958; M.S., Utah State University, 1960; Ph.D., 1962.

Lacher, Robert J., Professor Emeritus of Mathematics and Statistics, Graduate Faculty; B.S., South Dakota State University, 1961; M.S., Rutgers University, 1965; D.A., University of Northern Colorado, 1971.

Lamberton, Charles E., Professor Emeritus of Economics, Graduate Faculty; B.B.A., University of Minnesota, 1960; M.S., University of Wyoming, 1970; Ph.D., Iowa State University, 1975.

Larson, Gary E., Professor Emeritus of Natural Resource Management, Graduate Faculty; B.S., Kearney State College, 1972; Ph.D., North Dakota State University, 1980.

Lattin, Danny L., Professor and Dean Emeritus of the College of Pharmacy, Graduate Faculty; B.S., University of Kansas, 1965; Ph.D., University of Minnesota, 1970.

Lee, Richard W., Professor Emeritus of Journalism and Mass Communication, Graduate Faculty; B.S., University of Illinois, 1956; M.A., Southern Illinois University, 1964; Ph.D., University of Iowa, 1972.

Leisure, O. W., Professor Emeritus of Physics, Graduate Faculty; B.S., South Dakota State University, 1960; M.S., 1966.

Leslie, Jerome R., Assistant Professor Emeritus; B.S., South Dakota State University, 1962; M.S., 1990.

Libal, George W., Professor Emeritus of Animal and Range Sciences; B.S., University of Nebraska, 1966; M.S., 1968; Ph.D., South Dakota State University, 1974.

Lingren, Charles K., Professor Emeritus of Education, Graduate Faculty; B.A., University of Northern Iowa, 1958; M.A., University of Iowa, 1968; Ph.D., 1975.

Lyons, Patrick A., Professor Emeritus of Economics; B.S., South Dakota State University, 1969; M.B.A., University of South Dakota, 1970; J.D., 1974

Malo, Douglas D., Distinguished Professor Emeritus of Soil Science, Graduate Faculty; B.S., Iowa State University, 1971; M.S., North Dakota State University, 1974; Ph.D., 1975.

Mathees, Duane, Professor Emeritus of the SDSU Veterinary and Biomedical Sciences Department and the SD Agricultural Experiment Station, Graduate Faculty; B.A. Augsburg College, 1972; Ph.D., University of Maryland, 1978.

Mendelsohn, Robert D., Professor Emeritus of Rural Sociology, Graduate Faculty; B.S., Illinois State University, 1967; M.S., Western Michigan University, 1971; Ph.D., 1973.

Miller, John E., Professor Emeritus of History, Graduate Faculty; B.A., University of Missouri, 1966; M.A., University of Wisconsin, 1968; Ph.D., 1973.

Miller, Peggy Gordon, President and Professor of Education Emeritus, Graduate Faculty; B.A., Transylvania University, 1959; M.S., Northwestern University, 1964; Ed.D., Indiana University, 1975, L.L.D., Transylvania University (Honorary Degree), 1993.

Moeller, Lonell L., Professor Emeritus of Agricultural Education; B.S., South Dakota State University, 1970; M.Ed., 1976; Ph.D., Iowa State University, 1981.

Monahan, Maurice L., Professor Emeritus of Mathematics and Statistics; B.S., South Dakota State University, 1956; M.S., University of Illinois, 1964.

Morrill, Keith, Associate Professor of Biology/Microbiology Emeritus; B.S., South Dakota State University, 1959; M.A., University of South Dakota, 1963.

Moutsoglou, Alexandros, Professor Emeritus of Mechanical Engineering; B.S., University of Missouri, 1973; M.S., 1974; Ph.D., 1977.

Muxen, Marla J., Professor Emerita of Counseling and Human Development; B.S., South Dakota State University, 1971; M.S., Southern Illinois University, 1980; Ph.D., University of Minnesota, 1990.

Nielsen, G. Howard. Professor Emeritus of Mathematics, Graduate Faculty; B.S., South Dakota State University, 1963; M.A., University of Colorado, 1966; Ph.D., 1969.

Norris, Virginia, Professor Emerita of Psychology, Graduate Faculty; B.A., Baldwin-Wallace College, 1983; M.A., Kent State University, 1986; Ph.D., 1991.

Nussbaumer, Linda L., Professor Emerita of Interior Design, Graduate Faculty; B.S., Mankato State University, 1990; M.S., 1992; Ph.D., University of Minnesota, 1998.

Olson, Roberta K., Dean and Professor Emerita of Nursing; B.S., South Dakota State University, 1964; M.S.N., Washington University, 1968; Ph.D., Saint Louis University, 1984.

Palmer, Ivan S., Professor Emeritus of Chemistry and Biochemistry; B.S., South Dakota State University, 1955; M.S., 1956; Ph.D., Pennsylvania State University, 1960.

Parsons, John G., Professor and Head Emeritus of Dairy Science, Graduate Faculty; B.S., University of Manitoba, 1961; M.S., 1963; Ph.D., Pennsylvania State University, 1968.

Pedersen, James O., Professor of Education/Dean of General Registration Emeritus; B.S., South Dakota State University, 1955; M.S., 1962; Ph.D., Purdue University, 1968.

Penor-Cegian, Cindi M., Professor Emerita of Human Development, Graduate Faculty; B.S., South Dakota State University, 1979; M.Ed., 1980; Ph.D., 1997.

Penrod, Kathryn M., Professor Emerita of Teaching, Learning, and Leadership; B.S., Purdue University, 1975; M.S., Cornell University, 1981; Ph.D., 1984.

Perpich, Mary, Associate Professor Emerita of Journalism and Mass Communication; B.A Michigan State University, 1976; M.A. Michigan State University, 1981.

Petersen, Marvin E., Associate Professor Emeritus of Electrical Engineering; B.S., S.D. School of Mines and Technology, 1948; M.S., Massachusetts Institute of Technology, 1957.

Peterson, Carol J., Provost and Vice President Emerita for Academic Affairs, Graduate Faculty; Diploma in Nursing, Methodist Kahler School of Nursing, 1960; B.S., University of Minnesota, 1963; M.Ed., 1964; Ph.D., 1969.

Peterson, Gary. Professor Emeritus of Biology and Microbiology, Graduate Faculty; B.S., University of Utah, 1965; M.S., Emporia State University, 1969; D.A., University of Northern Colorado, 1971.

Peterson, Ronald M., Professor Emeritus of Horticulture; B.S., Colorado State University, 1947; M.S., University of California, 1949; Ph.D., University of Minnesota, 1953.

Petersen, Paul, Professor Emeritus of Music; B.M.E., Simpson College, 1958; M.A., University of Iowa, 1964; Ph.D., 1970.

Pohl, Stephen H., Professor Emeritus of Agricultural and Biosystems Engineering; B.S., South Dakota State University, 1973; M.S., 1975; Ph.D., University of Nebraska, 2000.

Pollmann, Robert J., Associate Professor of Plant Science/Manager of Seed Certification Emeritus; B.S., South Dakota State University, 1961; M.Ed., 1967.

Powers, James E., Professor Emeritus of Clinical Pharmacy, Graduate Faculty; B.S., University of Wisconsin, 1957; Pharm.D., University of Minnesota, 1983.

Quist, Oren P., Professor Emeritus of Physics, Graduate Faculty; B.A., Gustavus Adolphus College, 1965; M.S., University of Denver, 1967; Ph.D., 1973.

Raney, A. Leon. Professor/Dean of Libraries Emeritus; B.S., University of Central Arkansas, 1960; M.S., Louisiana State University, 1962; Ph.D., Indiana University, 1972.

Rauher, Joel D., Professor Emeritus of Physics, Graduate Faculty; B.S., Emory University, 1978; Ph.D., University of North Carolina, 1985.

Reese, R. Neil, Professor Emeritus of Biology; B.S., Utah State University, 1977; M.S., University of Idaho, 1980; Ph.D., 1984.

Reeves, Dale L., Professor of Plant Science Emeritus; B.S., Kansas State University, 1958; M.S., 1963; Ph.D., Colorado State University, 1969.

Richardson, Jay R., Professor Emeritus of Human Development/Child and Family Studies; B.S., Brigham Young University, 1957; M.S., 1958; Ed.D., Pennsylvania State University, 1969.

Richardson, Marilyn, Associate Professor Emerita of HPER; B.A., Brigham Young University, 1956; M.A., Pennsylvania State University, 1963.

Richter, Anthony H., Professor Emeritus of German, Graduate Faculty; B.A., Northwestern University, 1965; M.A.T., 1966; Ph.D., 1971.

Rickerl, Diane Holland, Professor Emerita of Plant Science, Graduate Faculty; B.S., Iowa State University, 1972; M.A., 1976; M.S., Auburn University, 1984; Ph.D., 1986.

Roger Lawrence, Professor Emeritus of Education, Graduate Faculty; B.A., University of Nebraska, 1964; Ph.D., 1975.

Rollag, Dwayne A., Professor Emeritus of Civil and Environmental Engineering, Graduate Faculty; B.S., University of Minnesota, 1959; M.S., South Dakota State University, 1966; Ph.D., Purdue University, 1975.

Rose, Madeleine S., Associate Professor of Nutrition, Food Science & Hospitality Emerita, Graduate Faculty; B.S., University of California, 1970; M.S., University of Maryland, 1972; Ph.D., Texas Woman's University, 1985.

Rose, Robert, Associate Professor of Nutrition, Food Science & Hospitality Emeritus; B.S., South Dakota State University, 1970; M.S., University of Maryland, 1972; Ph.D., Texas Woman's University, 1991.

Ruffolo, John J., Professor Emeritus of Biology and Microbiology, Graduate Faculty; B.S., Loyola University, 1965; M.S., University of Iowa, 1969; Ph.D., 1972

Sander, Duane, Dean Emeritus and Professor Emeritus of Electrical Engineering; B.S., S.D. School of Mines and Technology, 1960; M.S., Iowa State University, 1962; Ph.D., 1964.

Sandness, Roger K., Professor and Head Emeritus of Geography, Graduate Faculty; B.S., University of North Dakota, 1967; M.S., 1968; Ph.D., University of Iowa, 1986.

Satterlee, James L., Professor Emeritus of Rural Sociology, Graduate Faculty; B.S., South Dakota State University, 1962, M.S., 1963; Ph.D., 1970.

Schingoethe, David J., Distinguished Professor Emeritus of Dairy Science, Graduate Faculty; B.S., University of Illinois, 1964; M.S., 1965; Ph.D., Michigan State University, 1968.

Schipull, Martin A., Professor Emeritus of Agricultural and Biosystems Engineering; B.S., University of Wisconsin, 1974; M.Ed., University of Minnesota, 1981.

Schliessmann, Michael R., Professor Emeritus of Communication Studies and Theatre, Graduate Faculty; B.S., South Dakota State University, 1973, M.S., 1974; Ph.D., University of Kansas, 1981.

Schumacher, Thomas E., Professor Emeritus of Plant Science, Graduate Faculty; B.A., Bluffton College, 1972; M.S., Michigan State University, 1979; Ph.D., 1982.

Selim, Ali A., Professor Emeritus of Civil and Environmental Engineering, Graduate Faculty; B.S., Ain-Shams University (Egypt), 1967; M.S., University of Missouri, 1974; Ph.D., 1976.

Shane, Richard C., Professor Emeritus of Economics, Graduate Faculty; B.S., South Dakota State University, 1969; M.S., University of Arizona, 1971; Ph.D., Washington State University, 1978.

Sigl, Arden B., Professor Emeritus of Civil and Environmental Engineering, Graduate Faculty; B.S., South Dakota State University, 1967; M.S., 1969; Ph.D., Northwestern University, 1977.

Singh, Yadhu N., Professor of Pharmaceutical Sciences Emeritus, Graduate Faculty; B.S., University of Otago (New Zealand), 1967; M.S., University of Strathclyde (Scotland), 1974; Ph.D., 1979.

Slyter, Lowell, Professor Emeritus of Animal and Range Sciences, Graduate Faculty; B.S., Kansas State University, 1964; M.S., University of Nebraska, 1966; Ph.D., Kansas State University, 1969.

Sorenson, Jerry A., Professor Emeritus of General Engineering Technology, Graduate Faculty; B.S.E., University of South Dakota, 1963; M.Ed., University of Illinois, 1967.

Spinar, Leo H., Professor Emeritus of Chemistry and Biochemistry; B.A., University of South Dakota, 1951; M.S., University of Wisconsin, 1953; Ph.D., 1958.

Spinney, Jamie E.L., Assistant Professor; B.A., Saint Mary's University, 1994; B.Ed., Dalhousie University, 1995; M.U.R.P, 1999; Ph.D., McMaster University, 2011.

Steinley, Gary L., Professor Emeritus of Education and Counseling, Graduate Faculty; B.S., Black Hills State University, 1963; M.A., Fresno State University, 1967; Ph.D., University of Utah, 1970.

Stuart, Sine, Professor Emerita of Visual Arts; B.A., University of Connecticut, 1959; M.A., University of New Mexico, 1960.

Stymiest, Clair, Associate Professor of Plant Science Emeritus; B.S., South Dakota State University, 1966; M.S., 1970.

Sunde, Carl R., Professor Emeritus of German; B.A., Luther College, 1962; M.A., University of Iowa, 1967; Ph.D., 1974.

Swanson, Robert N., Professor Emeritus of Veterinary Science; B.S., Ft. Hays Kansas State College, 1953; M.S., Kansas State University, 1960; D.V.M., 1960; Ph.D., 1964.

Svedlund, Harriet P., Assistant Professor Emerita of Apparel Merchandising and Director of International Programs Emerita; B.S., Iowa State University, 1954; M.S., 1957.
Sweeney, Jerry K., Professor Emeritus of History, Graduate Faculty; B.A., Fort Hays Kansas State University, 1962; M.A., Kansas State University, 1967; Ph.D., Kent State, 1970.

Taylor, Donald C., Professor Emeritus of Economics; B.S. Cornell University, 1959; M.S., University of Minnesota, 1964; Ph.D., 1965.

Thiex, Nancy, Professor Emerita of the SDSU Veterinary and Biomedical Sciences Department and the SD Agricultural Experiment Station; B.A., Northern State University, 1970; M.Ed., South Dakota State University, 1972; M.S., 1974.

Tidemann, Gail Dobbs, Dean Emerita of Continuing and Extended Education, Graduate Faculty; B.S., Jacksonville State University, 1977; M.A., University of Alabama, 1978; Ph.D., 1986.

Tidemann, Larry J., Director Emeritus of the Cooperative Extension Service; B.S., South Dakota State University, 1970; M.S., 1972.

TilTRum, Charles A., Associate Professor Emeritus of Civil Engineering; B.S., South Dakota State University, 1972; M.S., 1974.

Tolle, Gordon J., Professor Emeritus of Political Science, Graduate Faculty; B.A., Oberlin College, 1965; M.A., University of Notre Dame, 1967; Ph.D., University of Colorado, 1978.

Tschetter, Wesley G., Vice President Emeritus for Finance & Business/Chief Financial Officer; B.S., South Dakota State University, 1969; M.B.A., University of South Dakota, 1971.

VanRiper, Gary, Assistant Professor of Pharmaceutical Sciences Emeritus; B.S., South Dakota State University, 1969; M.S., 1972.

Wadsworth, Jr., William S., Professor Emeritus of Chemistry; B.S Trinity College, 1950; M.S., 1952; Ph.D., Pennsylvania State University, 1955.

Wahlstrom, Richard C., Distinguished Professor Emeritus of Animal Science; B.S., University of Nebraska, 1948; M.S., University of Illinois, 1950; Ph.D., 1952.

Werner, Hal D., Professor Emeritus of Agricultural and Biosystems Engineering; B.S., South Dakota State University, 1970; M.S., 1971; Ph.D., University of Minnesota, 1984.

West, George A., Professor Emeritus of English, Graduate Faculty; B.S., South Dakota State University, 1965; M.A., University of Nebraska, 1967; Ph.D., 1972.

Widvey, Harold W., Professor Emeritus of Communication Studies and Theatre; B.S.Ed., Northern State University, 1957; M.S.Ed., 1961; Ph.D., University of Nebraska, 1971.

Williams, Louis P., Professor Emeritus of English, Graduate Faculty; B.A., University of Texas, 1960; M.A., 1965; Ph.D., University of Minnesota, 1976.

Woldt, Bradley, Professor and Department Head Emeritus of Psychology; B.S., South Dakota State University, 1988; M.A., University of Montana, 1991; Ph.D., 1993.

Woodard, Charles L., Distinguished Professor Emeritus of English; B.S., Dakota State University, 1964; M.A., University of Nebraska, 1966; Ph.D., University of Oklahoma, 1975.

Wragge, Leon J., Distinguished Professor of Plant Science Emeritus; B.S., South Dakota State University, 1961; M.S., 1964.

Yocom, Kenneth L., Professor Emeritus of Mathematics and Statistics, Graduate Faculty; B.S., SD School of Mines and Technology, 1960; M.S., University of Wyoming, 1962; Ph.D., 1972.

Zeman, David H., Professor Emeritus of Veterinary and Biomedical Sciences; B.S., North Dakota State University, 1976; D.V.M., Oklahoma State University, 1980; Ph.D., Louisiana State University, 1986.
